LEHIGH POWER SECURITIES CORPORATION

Ten-Year Six Per Cent. Secured Gold Notes

Pursuant to Article VI. of the Trust Agreement, dated August 1, 1917, made by the Lehigh Power Securities Corporation with the undersigned as Trustee, to secure the Ten-Year-Six Per Cent. Secured Gold Notes of the said Lehigh Power Securities Corporation, Guaranty Trust Company of New York, as Trustee thereunder, invites proposals in writing for the sale to it of the said Notes, for the purchase of which said Trustee has now on deposit One Million Four Hundred Eighty-two Dollars and Forty-one Cents ($1,000,482.41).

All such proposals, unless therein otherwise specifically expressed, shall be subject to the condition that either all or any portion of the notes therein offered may be purchased at the price therein specified.

Sealed proposals will be received by the undersigned at its office, No. 140 Broadway, New York City, until 12 o'clock noon on Thursday, June 8, 1922.

Notice of purchase of notes will be mailed on June 8, 1922, and the notes so purchased must be delivered to the undersigned before the close of business on June 15, 1922, on which date interest will cease on notes purchased but not delivered.

GUARANTY TRUST COMPANY
OF NEW YORK,
WILLIAM C. POTTER, President.
Dated, May 25, 1922.

NORFOLK, VA.

THE VIRGINIA-CAROLINA JOINT STOCK LAND BANK,

operating in Virginia and North Carolina, will receive sealed bids at their office in Norfolk until 12:00 o'clock noon, June 1st, for $500,000 (of a total issue of $600,000) 5% ten-twenty-year bonds. To be dated May 1, 1922. Denominations: 600 $1,000 bonds. Interest payable at this bank semi-annually. Interim certificates ready June 1st. Bonds from Treasury Department expected on or before July 1st.

F. W. McKINNEY, Secretary.

Meetings

GREENE CANANEA COPPER CO.
NOTICE OF ANNUAL MEETING

Notice is hereby given that the Annual Meeting of the Stockholders of the Greene Cananea Copper Company will be held at the office of the Company, 25 Broadway, New York, N. Y., on Monday, the nineteenth day of June, 1922, at twelve o'clock noon, for the election of three directors to hold office for three years, and for the transaction of such other business as may come before the meeting, including the consideration, approval and ratification of all acts and proceedings of the Board of Directors during the past year, and of all matters that may be referred to in the Annual Report to the Stockholders.

The transfer books of the Company will not close, but only stockholders of record as at 12 o'clock noon, Saturday, May 27, 1922, will be entitled to vote at this meeting.

By order of the Board of Directors.
J. W. ALLEN, Secretary.

Liquidation

LIQUIDATION NOTICE.

The First National Bank, located at Harrisburg, in the State of Pennsylvania, is closing its affairs. All note holders and other creditors of the association are, therefore, hereby notified to present the notes and other claims for payment.

E. J. GLANCEY, Cashier.

The National Bank of Chesapeake City, located at Chesapeake City, in the State of Maryland, is closing its affairs. All note holders and other creditors of the association are therefore hereby notified to present the notes and other claims for payment.

We desire to announce that we have organized a

Canadian Securities Department

under the management of

Mr. W. Sturgis Macomber

an authority and specialist in Canadian securities for the past decade.

Canada offers a field for safe and profitable investment comparable with that offered by the United States fifty years ago.

We invite you to confer with our Canadian Department for information, quotations, and counsel on Canadian Government, Provincial and City Bonds, and the bonds and shares of Canadian Railroad, Public Utility, and Industrial Corporations.

A private wire system links our office with the principal Canadian Markets.

MOODY'S RATING BOOK SERVICE PROTECTS

Two Per Cent or Six Per Cent?

A "successful" stock speculator recently admitted to us that after ten years' trading for profit, the net return on his capital averaged only 2% per annum.

He had always been trying to "make a killing," but his occasional profits were invariably offset by occasional losses, and in the long run he did not make even normal interest on his money.

How much wiser he would have been had he continuously invested his capital in high class securities, which would have given him an average yield of at least 6% per annum.

If he had used Moody's Rating Service his success would have been greater than this, as he would have occasionally changed his holdings within the high grade field, to take advantage of changing economic and money market conditions.

We have thousands of clients who have followed the latter policy and reaped a large measure of success.

NEW OFFERING

$2,344,550

Chicago, Rock Island & Pacific Railway Company

6% Equipment Trust Notes

Stamped subordinate in lien to $4,690,400 prior lien notes now outstanding.

Dated January 15, 1920 — Maturing $180,350 annually January 15, 1923, to January 15, 1935, inclusive

Interest payable January 15 and July 15. Principal and interest payable in New York City. Coupon Notes in denomination of $1,000, registerable as to principal only. Redeemable as a whole, but not in part, on any interest date on 60 days' notice at 103% and accrued interest.

Guaranty Trust Company of New York, Trustee

These Notes are the direct obligation of The Chicago, Rock Island & Pacific Railway Company and are issued under Equipment Trust Agreements between the Director-General of Railroads, the Chicago, Rock Island and Pacific Railway Company and the Trustee.

Secured by a lien subject to $4,690,400 prior lien Notes on the following standard railway equipment:

2,500 40-ton Box Cars
20 Light Mikado Locomotives
10 Switching Locomotives

The original cost of this equipment was $8,117,250.

The Chicago, Rock Island and Pacific Railway Company directly operates lines of a system embracing approximately 8,100 miles including a main line from Chicago to Santa Rosa, New Mexico, connecting through the El Paso and Southwestern with the Southern Pacific lines and the Pacific Coast.

A recent statement by J. E. Gorman, President of The Chicago, Rock Island & Pacific Railway Company states that:

"The Interstate Commerce Commission has found and reported the total value of the Chicago, Rock Island & Pacific Railway Company to be $388,000,000.

"This valuation is sufficient to pay all of the Rock Island's bonded indebtedness, preferred stocks and other debts and leave available to the owners of its common stock $84,300,000, or at the rate of $113 for every $100 share of common stock."

Net earnings after rents available for fixed charges were $5,780,259 for 1921, as compared with $2,820,000 for 1920.

Dividends are being paid at the rate of 7% on $29,000,000 par value of Class A Preferred stock and at the rate of 6% on $25,000,000 par value of Class B Preferred stock.

At the present prices the stocks of the Chicago, Rock Island & Pacific Railway Company, as listed on the New York Stock Exchange, indicate a total equity junior to these $2,344,550 subordinated equipment trust Notes of over $82,000,000.

Subject to prior sale, we offer these Notes, maturing $180,350 annually, as follows:

Maturity	*Yield*	*Maturity*	*Yield*
January 15, 1923	5.10%	January 15, 1930	5.75%
January 15, 1924	5.40%	January 15, 1931	5.75%
January 15, 1925	5.50%	January 15, 1932	5.75%
January 15, 1926	5.65%	January 15, 1933	5.75%
January 15, 1927	5.70%	January 15, 1934	5.70%
January 15, 1928	5.75%	January 15, 1935	5.70%
January 15, 1929	5.75%		

These Notes are offered for delivery in permanent form when, as and if received by us on or about June 19 1922.

$600,000

Phillips Petroleum Company

10-Year 7½% Gold Debenture Bonds

(Without Stock Warrants)

Being a part of the outstanding $3,500,000 Bonds in the hands of the public.

Dated Oct. 1, 1921 Due Oct. 1, 1931

Earnings: The Company's net earnings after taxes but before depletion and depreciation are at present at the rate of $10,000,000 per annum, which is over 16 times the maximum annual interest and sinking fund charges on these Bonds and nearly 3 times the *principal* amount of bonds outstanding.

Security: These bonds constitute the only funded debt of the company. The market equity of the outstanding 660,000 shares of Common stock is approximately $31,000,000.

Property: The Company has over 1,000 oil and gas wells on 150 producing properties situated on over 20,000 acres in six states. The Company also owns five casinghead gasoline plants which will shortly have an annual capacity of 18,000,000 gallons of absorption gasoline, which is equivalent to 36,000,000 gallons of commercial gasoline.

Sinking Fund: From July 1, 1922, sinking fund of 10% per annum for redemption of bonds by purchase or call.

$2,000,000

E. I. duPont deNemours & Co.

Common Stock (Par Value $100)

(being part of the outstanding $63,378,300 Common Stock in the hands of the public)

Application has been made to list this stock on the New York Stock Exchange

Business: The Company and its predecessors have been engaged in the manufacture of explosives for both commercial and military purposes since 1802. Company also manufactures chemicals, paints, varnishes, dyes, artificial leather, pyralin and artificial silk.

General Motors Holdings: The duPont Company owns 36.95% or 7,628,137 shares of the common stock of General Motors Corporation, representing an asset value, at present market quotations, of over $110,000,000. The duPont holdings of General Motors stock are equivalent to 12 shares of General Motors (with a market value of about $175) for each share of duPont Common outstanding.

Income: For the past 11 years the Company's average annual income applied to the average common stock outstanding has amounted to 54.33%. Net receipts from commercial business as distinguished from military business, for these 11 years, have averaged over $7,500,000 annually, or nearly 12% on the present outstanding Common Stock. It should be noted that a large portion of the profits realized from war business has been re-invested in income-producing industries.

Dividends: Since incorporation in 1915 the Company has paid dividends on the Common Stock without interruption, averaging 35.86% per share annually, in cash or securities. Present dividend rate is 8%.

Net Assets: According to the balance sheet of December 31, 1921, net assets (including good-will, etc.) applicable to Common Stock, amounted to $204 per share. Reckoning securities owned at market value instead of cost, these assets would be $243 per share. Company's surplus, Dec. 31 1921, was $66,080,659. Cash in bank, March 31, 1922, was $18,500,000.

$700,000

Philadelphia Suburban Gas & Electric Company

General Mortgage 6% Gold Bonds

Dated December 1, 1919 **Due December 1, 1969**

Redeemable at the option of the company as a whole or in part on any interest date upon 30 days' published notice at 105 and accrued interest. Interest payable June 1 and December 1 in Philadelphia. Coupon bonds in interchangeable denominations of $500 and $1,000 registerable as to principal only. Fidelity Trust Company of Philadelphia, Successor & Trustee.

GUARANTEED AS TO PRINCIPAL AND INTEREST BY ENDORSEMENT BY THE AMERICAN GAS COMPANY

The Company will pay interest without deduction of the normal Federal Income Tax payable at the source up to 2%. Free of Pennsylvania Four Mill Tax.

From a letter of Mr. M. W. Stroud, President of the Company, we summarize as follows:

Philadelphia Suburban Gas & Electric Company owns and operates electric and gas properties, serving the greater part of the suburban territory adjacent to the City of Philadelphia, including one of the greatest industrial centres of the State of Pennsylvania. The Company has three electric generating stations with a combined capacity of 15,000 horsepower and seven gas plants with a daily capacity of 11,075,000 cubic feet of gas, serving over 57,000 customers representing a population estimated at 500,000.

The proceeds of these bonds will be used to provide funds for general corporate purposes.

These bonds, in the opinion of counsel, are secured by a mortgage on all of the property subject only to $9,998,000 (closed) underlying bonds. Additional bonds may be issued for refunding purposes or for 70% of the cost of additions and improvements to the property made subsequent to March 1, 1922, provided net earnings for twelve consecutive months within the preceding fourteen months are equal to 1¾ times the interest charges on all bonds outstanding, including this issue and those about to be issued.

Gross earnings for the year ended April 30, 1922, amounted to $3,954,344.66 and net earnings amounted to $1,235,132.93 or equal to over twice the annual interest requirements on the total bonded debt outstanding with the public, including the present issue.

The value of the properties as of March 30, 1921, as fixed by the Public Service Commission of the State of Pennsylvania is $20,500,000. This valuation has been increased by additions made up to February 28, 1922, and property not covered thereby to $21,405,000, as compared to total bonded debt outstanding with the public of $12,700,000, including this issue.

All legal details pertaining to this issue will be approved by
Messrs. Townsend, Elliott & Munson, of Philadelphia

NEW ISSUE

$1,345,000

Lake Superior District Power Company

First Mortgage and Refunding 6½% Gold Bonds

Series "A"

Dated January 1, 1922 — Due January 1, 1942

Principal and interest payable at the office of Continental & Commercial Trust & Savings Bank, Chicago, or, at the option of the holder, at First National Bank, New York City. Interest payable January 1st and July 1st without deduction of Normal Federal Income Tax up to 2%. The Company agrees to reimburse bondholders resident in Pennsylvania for the 4 mills tax assessed in that State and paid by them as provided in mortgage. Coupon bonds in interchangeable denominations of $1,000, $500 and $100. $1,000 bonds may be exchanged for fully registered bonds and these may, in turn, be exchanged for coupon bonds.

Non-Callable Prior to January 1, 1927

Thereafter redeemable as a whole or in part upon sixty days' published notice as follows: during five years ending June 30, 1932, at 105 and accrued interest; during five years ending June 30, 1937, at 102½ and accrued interest; during twelve months ending June 30, 1938, at 102 and accrued interest; during twelve months ending June 30, 1939, at 101½ and accrued interset; during twelve months ending June 30, 1940, at 101 and accrued interest; during twelve months ending June 30, 1941, at 100½ and accrued interest; thereafter, to maturity, at 100 and accrued interest.

From a letter of Mr. L. E. Myers, President of the Company, the following is summarized:

THE LAKE SUPERIOR DISTRICT POWER COMPANY owns an important group of public utility properties operating in Northern Wisconsin and Upper Michigan. Embraced in the Company's territory are the important Gogebic Iron Range, and 21 communities including and centering around Ashland, Wisconsin, and Ironwood, Michigan, having a present aggregate population of 55,300. Approximately 80% of its earnings is derived from electric light and power.

For the year 1921 its properties earned 1¾ times the annual interest charges on present funded indebtedness, including all bonds of this issue now offered.

In the opinion of counsel, these bonds are a direct obligation of the Company, and are secured by an absolute First Mortgage Lien on the Big Falls Hydro-Electric Plant (8,000 H.P. to be presently installed, ultimate capacity 12,000 H.P.), and upon the steel tower construction 88,000 volt transmission line, approximately, 85 miles in length, connecting said plant with the other properties, and by a direct mortgage lien on all property now owned or hereafter acquired, subject only to $2,316,000 Divisional Bonds now outstanding, the mortgages securing same having been closed; and, in addition, Divisional First Mortgage Bonds of issues above mentioned, aggregating $950,000 principal amount, have been deposited and pledged with the Trustee as further security for this issue.

The replacement value of the physical properties of the Company, as reported by our engineers, is largely in excess of its total bonded indebtedness.

The territory served is an exceptionally rich field for the development of electric light and power business.

The indenture under which these bonds are issued provides that after the completion of the Big Falls Hydro-Electric project, for which $1,155,000 of bonds are held in escrow, additional bonds may only be issued thereunder at par for par, for refunding purposes, or for 75% of the cost or fair value, whichever is less, of permanent improvements, additions or betterments, and only when net earnings are 1¾ times annual interest charges, including interest on bonds to be issued.

The mortgage provides a fixed maintenance and reserve fund of 12½% of gross income from operation of properties, upon which these bonds are or shall be a lien, thus assuring adequate maintenance of the Company's plants during the life of the bonds.

In Wisconsin the Company operates under indeterminate permits, which, in effect, are franchises without time limit, subject to the provisions of the Wisconsin laws. In Michigan, the franchises, in the opinion of counsel, are free from burdensome restrictions and extend to 1940 and beyond.

The issuance of these bonds has been authorized by the Wisconsin Railroad Commission and the Michigan Public Utilities Commission.

In 1921 a controlling interest in the Company's properties was acquired by the Middle West Utilities Company, of which Mr. Samuel Insull is President, thus assuring a continuation of the experienced and successful management which the properties have enjoyed during the past five years.

We recommend these bonds for investment

Price 94¾ and interest, yielding 7%

New Issue

$6,000,000

The Brooklyn Union Gas Company

First Lien and Refunding Mortgage Gold Bonds, Series A, 6%, due 1947

(Non-redeemable Prior to Maturity)

Dated May 1, 1922 **Due May 1, 1947**

Interest payable May 1 and November 1 at The National City Bank of New York, without deduction of the Normal Federal Income Tax up to 2%. Coupon Bonds in denominations of $500 and $1.000 each, registerable as to principal only, and interchangeable with fully registered Bonds in denominations of $1,000, $5,000 and $10,000.

THE NATIONAL CITY BANK OF NEW YORK, Trustee

Application will be made to list these Bonds on the New York Stock Exchange
Issuance authorized by the Public Service Commission of the State of New York

Mr. James H. Jourdan, President of the Company, has summarized his letter regarding this issue as follows:

The Brooklyn Union Gas Company and its five subsidiaries supply without competition artificial gas to 573,000 customers in thirty of the thirty-two wards of the Borough of Brooklyn and a large part of the Borough of Queens, having a population of over 2,000,000.

The First Lien and Refunding Mortgage Gold Bonds will be secured, in the opinion of counsel, by a direct mortgage subject to prior liens of closed underlying mortgages, on the entire property of The Brooklyn Union Gas Company, and by the pledge with the Trustee of all the stocks and bonds of the Company's five subsidiaries.

The properties of The Brooklyn Union Gas Company and its subsidiaries, exclusive of working capital, represent an investment largely in excess of twice the mortgage debt including the present issue.

Gross earnings of the Company and its subsidiaries (eliminating inter-company items) for the twelve months ended March 31, 1922, were $21,838,358, and net earnings were $3,391,370, or over 2.7 times the annual interest charges on the mortgage debt outstanding, including the present issue.

A recent decision of the Supreme Court of the United States affirmed the judgment of the District Court holding the so-called Eighty Cent Gas Law unconstitutional, and settled the right of the Company to charge a rate for gas sufficient to provide a reasonable return upon its investment.

The Brooklyn Union Gas Company and its important subsidiaries possess franchises in the territories served, which, in the opinion of counsel, are perpetual, contain no burdensome provisions and are entirely adequate for their business requirements.

Price 105 and interest, yielding 5⅝%

Bonds are offered when, as and if issued and received by us.

Principal and interest payable at the office of Brown Brothers & Co., New York, fiscal agents of the loan, in United States Dollars, exempt from all Danish taxes.

Annual sinking fund beginning May 1st 1925 equal to one-twelfth of the par amount of bonds issued to be applied to purchase of bonds, if obtainable, at not exceeding par and interest; any unexpended balance of such fund on December 31st of each year shall revert to the company.

Redeemable at any time, as a whole only, at 105 and accrued interest.

COLUMBIA TRUST COMPANY, NEW YORK, TRUSTEE

The following information has been furnished us in a letter signed by Kay Reinhard, Esq., President of the United Steamship Co., Ltd., Copenhagen:

Business The United Steamship Co., Ltd., organized in 1866, is by far the largest of the Danish steamship lines and one of the leading shipping companies in Continental Europe. It owns and operates the Scandinavian-American Line which has regular passenger and freight services from New York and other American ports to Copenhagen. It also maintains important routes from Copenhagen to most of the leading ports of Europe, Argentina and North Africa. The company has a fleet of 113 vessels including two large Diesel motor ships in addition to 100 barges and lighters. This fleet aggregates 208,000 gross tons (British measurement) and the total funded debt, if calculated against the fleet alone without reference to docks, real estate and other assets, would figure at only $25 per gross ton. The conspicuous strength of the United Steamship Co., at the present time is due in considerable degree to the excellent adaptation of its fleet to the local services between ports in and adjacent to the Baltic and between the Baltic and the Mediterranean; services requiring small boats of special types and largely non-competitive with the excess tonnage launched during the war period.

Debt These bonds together with a small issue of debentures maturing in 1926 and certain real estate mortgages constitute the sole funded debt of the company. All the vessels owned by the company are entirely free from mortgage lien, and the company agrees that no mortgage shall be created as long as any of the present issue of bonds are outstanding.

Earnings The United Steamship Co., Ltd., Copenhagen, has had a long and unusually consistent earnings record. In no year since its organization in 1866 has it failed to show a profit. During the five-year period ended December 31st 1913, average net earnings were equivalent to five and one-quarter times the interest charges on the present issue of bonds. In the thirteen years from December 31st 1908 to December 31st 1921 net earnings were equivalent to nearly twenty times such interest charges and in 1921, a year which was generally unfavorable in the shipping industry, net earnings were equivalent to more than eleven times these interest charges. These earnings in detail are as follows:

	Net Earnings.		Net Earnings.		Net Earnings.
1909	$1,064,000	1914	$2,391,000	1919	$18,698,000
1910	1,227,000	1915	8,241,000	1920	6,869,000
1911	1,445,000	1916	10,720,000	1921	3,325,000
1912	1,873,000	1917	6,344,000		
1913	2,246,000	1918	10,034,000		
5-Year Average	$1,571,000	5-Year Average	$7,546,000	3-Year Average	$9,630,000

Note: Kroner are converted into dollars at par of exchange—$0.268, the present rate being about $0.21.

Assets After giving effect of the present financing to the balance sheet as of December 31st 1921 the company had net assets of more than $20,000,000 at the par of exchange, which is equivalent to over four times the amount of this issue of bonds.

Purpose of Issue The proceeds of the present issue of bonds are to be used to provide for the requirements of the company's program of ship construction in the current year and in 1923. In this connection it should be noted that the company's building program, requiring only about $5,000,000 to complete, is in no wise burdensome.

The above letter and information having been received by cable are subject to correction.

Application will be made to list the bonds on the New York Stock Exchange.

We offer the above bonds when, as and if issued and received by us and subject to the approval of our counsel in Denmark and our consel in New York, Messrs. Cravath, Henderson, Leffingwell and de Gersdorff. Interim certificates of the undersigned will be delivered exchangeable for definitive bonds when engraved and prepared.

Price 95¼ and interest to yield 6.50%

Brown Brothers & Co. Lee, Higginson & Co.

All conversions of kroner in the body of this advertisement have been made at par of exchange.

May, 1922

$2,700,000

(Par Value $100)

The Hartman Corporation

Capital Stock

Authorized and outstanding, $12,000,000 Fully paid and non-assessable

The Company has no funded debt or preferred stock

Company: The Hartman Corporation, through ownership of the entire capital stock of the Hartman Furniture & Carpet Company and affiliated companies, is engaged in the sale of household goods, generally on credit. The business was founded in 1888, the present corporation having been organized in Virginia in 1916. A large part of the business is done through orders by mail, the Company having in the hands of the public an estimated total of 3,000,000 active catalogues. The Company also has nine large retail stores situated in the principal distributing centers of the Middle West.

Growth: Net sales have increased from $4,500,000 in 1911 to more than $15,000,000 in 1920. In 1921, a year of general business depression and substantial reduction in prices, sales were nearly $11,000,000.

Earnings: Consolidated net earnings applicable to dividends, after all charges and taxes, increased from $803,000 in 1911 to $1,859,000 in 1920. In 1921 (in spite of the conditions referred to above) it made a profit after all charges, including taxes and the writing down of inventories to market, of $373,574. Average earnings after all charges and taxes for the past 6 years were $1,271,114, or in excess of $10 per share. In no year since organization has the Corporation operated at a loss.

Assets: Total net tangible assets at December 31, 1921, as shown by the consolidated balance sheet audited by Messrs. Price, Waterhouse & Co., exclusive of the Corporation's very valuable good will, trade name, trade marks, mailing lists, etc., amounted to $11,253,260 or over $93.75 per share. Of this amount $10,256,149, over $85 per share, consisted of net current assets. There has been put back into the property and carried to surplus since the formation of the present company in 1916, out of earnings alone, approximately $4,300,000. Current assets practically seven times current liabilities.

Dividends: The Company has distributed in dividends since its formation less than 44% of its net earnings. Dividends were inaugurated in 1917 (the year following incorporation) at the rate of 5% per annum and were increased in 1920 to the present 7% rate.

Mr. Max Straus, President of the Corporation, under date of May 23, 1922, has written as follows:

"During the first four months of the current year the sales of the Hartman Corporation have increased 7.18% over the corresponding months of 1921, and expenses have decreased 6.34%. Net profits for the year should be substantially in excess of the amount required for the dividend, no reduction of which is anticipated."

Merchants & Manufacturers Exchange of New York

(GRAND CENTRAL PALACE AND PARK AVENUE ANNEX)

20-Year Sinking Fund Mortgage 7% Gold Bonds

(Closed Mortgage)

To be dated June 1, 1922 — To mature June 1, 1942

Interest payable June 1 and December 1. Coupon Bonds in denominations of $1,000, $500 and $100, registerable as to principal. Redeemable at the option of the Company in whole or in part for the Sinking Fund at the following prices and accrued interest; at 105 to and including June 1, 1932; at 104 to and including June 1, 1937; and at 103 thereafter until maturity.

Company agrees to pay the Normal Federal Income Tax up to 2% and to refund on application the Pennsylvania 4-Mill Tax to holders resident in Pennsylvania.

NEW YORK TRUST COMPANY, NEW YORK, TRUSTEE

THESE bonds will be secured, in the opinion of counsel, by a closed mortgage on the leasehold covering the block extending from Park Avenue to Lexington Avenue between 46th and 47th Streets, New York City, and the present building thereon, known as Grand Central Palace, together with an adjoining twenty-story office building to be known as the Park Avenue Annex, facing on Park Avenue, to be constructed immediately. This mortgage will be the first and only lien on the leasehold covering the land and buildings, and no lien, except taxes, can be created ranking prior to or equally with it during the life of any of these bonds. The lease, which contains very favorable terms, extends, with renewal privileges, until 1985.

THE leasehold and buildings, including the Annex at less than the contract cost, have been appraised by Messrs. Douglas L. Elliman & Co. as having sound values in excess of $9,000,000, as of April 21, 1922.

THE present net income from existing contracts in the Grand Central Palace alone, for the year ending December 31, 1922, as certified by Messrs. Marwick, Mitchell & Co., Accountants and Auditors, is in excess of total interest and sinking fund requirements of $257,500. Estimated net income from the total property after completion of the Park Avenue Annex, available for interest and sinking fund charges, is $946,330, or 3½ times such charges. This estimate is based on existing contracts, renting available space in Grand Central Palace at prevailing rates and rentals at $2 a square foot for the entire Annex. The average rate for office space in this locality is from $3.00 to $3.50 a square foot.

THE buildings will have their main entrance on Park Avenue within 400 feet of the Grand Central Terminal. The Grand Central Zone, with its railway terminal facilities and its ease of access by subway, elevated and surface lines, is assured of its permanence as a business and shopping center of New York City.

FROM the proceeds of this issue a twenty-story office building will be constructed at an estimated cost of $2,000,000 and certain alterations will be made in the Grand Central Palace.

DURING construction, the funds will be trusteed with the New York Trust Company, to be drawn as construction progresses against architects' certificates. The building will be constructed under a maximum cost contract, with a satisfactory bond for completion deposited with the Trustee.

THE mortgage will provide that one-twelfth of annual interest and sinking fund charges of this issue and one-twelfth of local taxes shall be paid monthly in advance to the Trustee. Provision will also be made for the maintenance of a contingency fund with the Trustee equal to 10% of the greatest amount of bonds then outstanding with the public.

A Cumulative Sinking Fund, sufficient to redeem the entire issue by maturity through semi-annual purchase or redemption of bonds, will begin to operate immediately.

These bonds are offered for delivery when, as, and if issued and received by us, subject to the approval of legal details by Messrs. Simpson, Thacher & Bartlett for the Bankers and Messrs. Beekman, Menken & Griscom and Messrs. Davis, Wagner, Heater & Holton for the Company. Interim receipts or temporary bonds will be delivered in the first instance.

Regular dividends payable January 1, April 1, July 1, October 1

Free From Federal Normal Income Tax

With regard to the activities and growth of the Bank, its President, Mr. James S. Alexander, has written us as follows:

"Referring to your advice that you have purchased a block of stock of this Bank and to your request for information respecting its history, growth and condition, I beg to advise you as follows:

The Bank of Commerce in New York was organized in 1839 and entered the National Banking System in 1865. From the outset it has been essentially a commercial bank and its development and growth have coincided with the development and growth of the business and commerce of the United States. Its present business is national and international in scope.

The Bank in the last ten years has, in round figures, increased its net deposits from $104,259,000 to $302,190,000. The capital during these years has remained unchanged at $25,000,000. Its surplus and undivided profits, which stood at $16,257,000 ten years ago, now amount to $36,206,000. The assets of the Bank are conservatively valued and the figures of its capital, surplus and undivided profits are, therefore, not subject to reduction.

The Bank has had an unbroken dividend record. For thirty-eight years prior to 1916, the dividend rate was 8% per annum. Its capital during that period was several times increased. In each of the years 1916 and 1917, extra dividends of 2% were paid. In 1918 the regular dividend rate was increased to 10%. In 1919, in addition to the regular dividend of 10%, an extra dividend of 2% was paid. During 1920 the regular dividend rate was increased to 12%, and an extra dividend of 3% was paid. In 1921, in addition to the regular dividend of 12%, an extra dividend of 4% was paid."

The following tabulation covering the period from December 31, 1916, to December 31, 1921, is herewith submitted:

Dec. 31st	Capital	Surplus and Undiv. Profits	Dividends Including Extras	Net Earnings after providing for Taxes and Contingencies	Earnings Per Share
1916	$25,000,000	$18,810,724.30	10%	$4,254,329.05	$17.02
1917	25,000,000	20,367,275.83	10½%	4,181,551.53	16.73
1918	25,000,000	24,609,742.47	10%	6,742,466.64	26.97
1919	25,000,000	29,087,249.12	12%	7,477,506.65	29.91
1920	25,000,000	32,148,132.07	14½%	6,685,882.95	26.74
1921	25,000,000	34,766,018.07	16%	6,617,886.00	26.47

These shares, acquired from The Equitable Life Assurance Society of the United States and the Mutual Life Insurance Company of New York, representing their entire holdings of stock of the National Bank of Commerce in New York, are hereby offered for subscription, subject to allotment.

$12,471,000

(Entire Outstanding Issue)

Utah Light and Traction Company

(Utah Power & Light System)

First and Refunding Mortgage 5% Gold Bonds, Series A

Dated September 18, 1914. Due October 1, 1944. Principal and semi-annual interest April 1 and October 1, payable in New York City. Redeemable on any interest payment date on four weeks' notice at 105 and accrued interest. Coupon and fully registered Bonds in denomination of $1,000, interchangeable. Bankers Trust Company, New York, Trustee.

Unconditionally Guaranteed as to Principal and Interest by Endorsement by the

Utah Power & Light Company

Application will be made to list these Bonds on the New York Stock Exchange.

The information herein has been furnished by Mr. D. F. McGee, Vice-President of the Utah Power & Light Company:

The Utah Light and Traction Company owns electric light and power properties in Salt Lake City and Ogden, the street railway properties in Salt Lake City and vicinity and the gas properties in Ogden, which, together with certain properties owned by the Utah Power & Light Company, serve without competition, under long-term franchises, about 150,000, or one-third of the population of Utah, comprising the heart of the business field of the Utah Power & Light System.

The electric light, power and gas properties of the Company, which are capable of successful independent operation, are leased for a period of 99 years from 1915 to the Utah Power & Light Company for a rental which must at all times be sufficient to provide for the payment of interest on all bonds issued under existing mortgages. The properties so leased serve over 44,000 electric light and power customers in Salt Lake City and Ogden.

The Utah Power & Light Company, which owns the entire capital stock of the Utah Light & Traction Company, constitutes, with its subsidiaries, one of the largest light and power systems in the United States, having an installed generating capacity of over 208,000 horsepower, of which 88% is hydro-electric. The System serves over 77,000 electric light and power customers and operates without competition in a business field of an estimated population of 335,000.

The system is under the supervision of the Electric Bond & Share Company, which in turn is controlled by the General Electric Company.

EARNINGS

Consolidated Earnings of Utah Power & Light System, Inter-company Charges Eliminated.

As officially reported for the 12 months ended March 31, 1922

Gross Income	$8,519,227
Operating Expenses, Maintenance and Taxes	4,355,284
Net Income	$4,163,943
Annual Interest on all outstanding Mortgage Bonds, including this issue	2,227,220
Balance	$1,936,723

Net Income 1.87 times the above Interest Charges

The average net income of the System for the past five years has been over one and three-quarters times the annual interest on all mortgage bonds now outstanding, including this issue.

The First and Refunding Mortgage Bonds (this issue) are secured, in the opinion of counsel, by direct mortgage on all properties of the Utah Light & Traction Company, subject only to $3,746,000 divisionsl bonds of closed mortgages, which mature in 1930 and 1934, in the liens of which this issue shares through deposit with the Trustee of $1,005,000 additional of these divisional bonds. The properties of the Company are valued by independent engineers at an amount substantially in excess of its total funded debt, and have been maintained in a high state of operating efficiency.

The Mortgage provides for a strong sinking or improvement fund.

Of the Bonds herewith offered, $12,136,000 were acquired in 1914 and 1915 in part payment for these properties by the Oregon Short Line Railroad Company (Union Pacific System), and have in the interim been in the treasury of that company.

WE RECOMMEND THESE BONDS FOR INVESTMENT

Price 91 and Interest, yielding over 5.70%

These Bonds are offered for delivery in definitive form when received by us, which it is expected will be about June 1

E. H. Rollins & Sons

Harris, Forbes & Co. The National City Company

The above information and statistics have been obtained from sources that we deem reliable and, although not guaranteed, are accepted by us as accurate. All bonds offered subject to prior sale and change in price without notice.

Published every Saturday morning by WILLIAM B. DANA COMPANY. President, Jacob Seibert Jr.; Vice-President, Arnold G. Dana; Business Manager, William D. Riggs; Secretary, Herbert D. Seibert. Address of all, Office of the Company.

We dovote over 12 pages to-day to the publication of the full text of the opinion of the Inter State Commerce Commission in support of its Rate Decision of this week.

It will be found on pages 2317 to 2328, inclusive.

CLEARING HOUSE RETURNS.

Returns of Bank Clearings heretofore given on this page will hereafter appear in a subsequent part of the paper. They will be found to-day on pages 2329 and 2330.

THE FINANCIAL SITUATION.

Possibly the railway executives were not much surprised by Wednesday's announcement that the Interstate Commerce Commission proposed a horizontal cut of 10% in freight rates on July 1, for there have been hints of late that it was time for reductions and that if the Commerce Commission or the carriers did not take the initiative some major power—Congress, maybe—would do it for them. The dinner gathering at the Executive Mansion on last Saturday was viewed as a suggestion to this effect, and it is known now that the Commission's action had been decided upon even before the dinner and that the President spoke with knowledge of what was coming.

No words need be spent upon the proposition that lower rates are desirable, and the executives have given repeated and ample evidence that they are more than willing to make them. They are desired as well as desirable, and are even clamored for. It is possible that housing and other construction may be directly facilitated thereby, and it is certain that one or more of our too large number of blocs may be somewhat placated. The Commission seems to be affected by a sort of horror over rates, which it thinks have risen so as to impede the flow of commerce, and they "are thus tending to defeat the purpose for which they were established, that of producing revenue which would enable the carriers to provide the people of the United States with adequate transportation." An excellent general proposition, admittedly, and so is the other that "general reductions in the rate level, as substantial as the conditions of the carriers will permit, will tend to stabilize the conditions under which commerce and industry are carried on, with consequent fuller assurance to the carriers of realizing a fair return." The reduction order is phrased in technical terms, but its purport is a general 10% cut, farm products being exempted, because of the cuts already made upon those.

Necessarily, nobody can foresee exactly how much this cut will reduce revenues; the amount may be 225 millions, or it may be 300, or possibly 400 millions. It is a pleasant conjecture that increased carrying will or may offset the cut, yet it is rudimentary that to increase the volume of non-profitable business cannot increase net revenue but can wear out the plant. The "fair return" on the investment promised in the Transportation Act is not specified in the Act itself. Some executives think it ought to be well above 6%; the Commission now calls it 5.75%, but no rate at all is guaranteed. The carriers "are entitled to earn" the rate mentioned upon their actual investment. They may not, therefore, earn more, but nobody warrants anything, not even the 21 millions which Mr. Thom says the roads obtained in 1920 as net operating income, or the 3.02% which he says they were earning in 1921. From what source will come the net rate they are "entitled" to earn is a very practical question. It is improbable that they will gain much through a reduction of their fuel costs, which is third in rank in their expense list; they are not likely to save much off supplies, materials and miscellaneous, which stand as the second item in the list; there remains labor, and again and again it becomes clear that the crux of the whole subject is the labor cost. In the calendar year 1920 operating revenues rose a little over 1,026½ millions upon that of the previous year, but expenses beat

that by rising about 1,406¾ millions. In 1920 the labor cost was three-fifths (59.9) of operating revenues, the sum thus spent being nearly 150% more than in 1916 and $101,350,585 more than the entire revenues of that year. The employees were 2,031,937 in 1920, against 1,647,097 in 1916, and their average pay was $1,829 in 1920, but only $892 in 1916. Comparing 1920 with 1916, operating revenues rose only about 71%, but labor cost rose about 170%.

When the executives, a few months ago, announced the experimental six months' cut of 10% on farm products, inclusive of any cuts already made since September 1 of 1920, they did this without waiting for any further wage cuts, although rate reductions since the ostensible return of the roads had cut revenues between 175 and 200 millions a year. In taking this step they gave an honorable challenge to their employees, to the regulative bodies, and to the country, for they promised that the benefit of wage reductions they were asking shall "be passed on to the public in the reduction of existing rates, except in so far as such reductions in rates have been made in the meantime." This honorable challenge has not been honorably answered in any quarter. The old strangling process of boosting wages periodically through pretended arbitration and denying to the roads the just and necessary resource of raising rates to correspond was followed by the even more destructive Governmental control during the war, and now that we are pretending to restore the seized properties we are treating them no better. The return Act professed to dispose of the labor trouble by establishing a Board to deal with it, but has only made matters worse by the obstructive course of that Board. It laments its lack of powers which some of its members think should be in the Act, and attempts to read those into it. It interferes between the carriers and their men in the beneficent work of clearing up misunderstandings and getting together for peace; it attempts to deny to the roads the just and universal right of contract; its latest step to date in the line of further weakening the roads and of fanning hostilities to greater heat is the attempt—which must be resisted and it is inconceivable that any court will sustain—to obstruct the honest efforts of the roads to do something the Act not only does not prohibit but actually enjoins, namely, to reduce expenses by putting certain ordinary work out in the general market, on the terms prevailing there.

The announced rate cut is to stabilize conditions under which commerce and trade are carried on, "with consequent fuller assurance to the carriers of realizing a fair return." An excellent prospect, and one whereby there will be a gain all around, provided expenses are cut correspondingly. "As many roads have not, in this year so far," says Mr. Howard Elliott, "earned their fixed charges and only a few have earned a contribution to the dividend fund, it would seem as if the roads would have to curtail expenditures to meet the reduction in rates, unless the Labor Board will give relief on wages to an amount fully equal to the reduction in rates." Other prominent executives say the same, and Mr. Elliott might have used a stronger word than "seems." While nobody can be quite sure that the Labor Board will not open its eyes and see things as they are instead of topsy-turvy, it must be reluctantly admitted that the Board has not yet shown any signs of doing so. On the contrary, the country still permits a continuance of the old long-time dstructive policy, which assumed that the purpose of regulation was to defend the public against railroad extortion. The strange confusion of the physical size of railroads with an invulnerability against all attacks has somehow held. We have treated transportation on the absurd "octopus" notion, we have refused to let the owners of the properties control them, we have almost refused to invite or even to allow them to offer advice, we have treated them as if ownership were a disability, and we have kept the hands of executives tied while holding them at fault for any unfortunate results. The purpose for which railroads exist, says the Commission now, is to produce a revenue by which they may "provide the people of the United States with adequate transportation;" yet all our long maltreatment tends to defeat that purpose and make impossible that efficient service. It was reported yesterday that the Labor Board "is preparing" to order a 50-million wage cut. This might serve as a beginning, but is plainly insufficient.

To use once more a simile homely but exactly fitting, we starve and overload our work-horses upon which we must depend even for our national existence. This course is economic foolishness; it is even an economic crime, by which we cripple ourselves and may come more or less short of fulfilling our duty to the world. Is there any reasonable ground for expecting renewed and growing prosperity until we come to juster ideas upon transportation instrumentalities?

Prominent among the developments in Europe have been the speech of Premier Lloyd George in the House of Commons on Thursday in defense of his Genoa policies, which resulted in a virtual vote of confidence, the figures being 235 to 26; the meetings in Paris of the international commission of bankers to discuss a large international loan to Germany, and at which J. P. Morgan was the leading figure; the signing of a so-called peace treaty by Michael Collins and Eamon de Valera; further serious political disturbances in Ireland, and the signing of a commercial treaty by the Russians and Italians.

With what the New York "Times" correspondent at Genoa characterized as "the stormy, inconclusive, but always interesting, Genoa Conference" at an end, or "adjourned to The Hague," as some were disposed to say, naturally there have been many echoes of the proceedings from the delegates as they reached their homes. Premier Lloyd George, of course, continued optimistic and to assert that much had been accomplished. He declared that he looked forward to The Hague gathering with still greater confidence. In his interview with newspaper correspondents, upon his arrival in London, he laid special stress on the eight months' truce adopted at Genoa. Representatives of other nations did not manifest the same degree of hopefulness and confidence. For instance, M. Barthou, head of the French delegation, was quoted as making the following facetious observations about the Conference while he was "packing up" preparatory to leaving Genoa: "Lloyd George was the father of the Conference and the inviting Powers the godfathers. The child was born at Cannes and taken to Genoa. Some said it was stillborn, others that it was worth looking after. This child in 40 days has not died and now it is to be taken to The Hague. The only trouble is it has too many relations. Large families are always troublesome. Some relations love the child, others hate it because they

hate some other relations. But the child is thriving and the day may come when we will be proud to say we were its parents. We think the child will stand its journey to The Hague, but when it gets there we must be careful of its diet."

Writing from Genoa after most of the delegates had left, and with the proposed Hague ga hering in mind, the New York "Times" representative made the following summary of the Genoa Conference: "Looking back at the six weeks' meeting, one sees three things that came of it: First, The Hague Conference to continue Russian negotiations; second, the eight months' truce which Mr. Lloyd George hopes to turn into a long term compact of non-aggression, and the Rapallo treaty between the Germans and Russians. There was also the negative result that the Entente stood the test of heavy strain. Another by-product is increasing irritation at the refusal of the United States to shoulder some of Europe's troubles." Looking forward to The Hague Conference, he said: "No one can tell yet what The Hague meeting will amount to. Certainly it faces two hurdles. One is to effect an agreement of the European Powers on a Russian policy that is to be undertaken at The Hague before the Russians are called, and the second is to get the Russians down to a basis on which a worthwhile arrangement can be ade with them." Referring to the lack of agreement between the Allies in dealing with the Russians at Genoa, and particularly to the marked difference in the attitude of the British and French representatives in this particular matter, the correspondent added: "It is difficult to see from outstanding evidences that the French will be less firm at The Hague than at Genoa. Indications point the other way. In other words, it is very doubtful if at The Hague any better terms will be offered to the Russians than those proffered at Genoa, which were, briefly, recognition of the pre-war debts and war debts of Russia and an agreement to return or recompense for foreign-owned property nationalized by the Soviets, values to be fixed by mixed tribunals. The Russians at one stage two-thirds-accepted these terms, but on condition that they get a billion-dollar loan. If the English can get the Powers at The Hague lined up on what they offered on May 2 they will have done about all that seems probable."

Premier Lloyd George received a hearty welcome at the railroad station when he arrived in London from Genoa a week ago to-day. There was another demonstration when the Prime Minister and his family reached the official residence, No. 10 Downing Street. Soon after arriving there he received the newspaper correspondents and submitted to a rapid fire of questions relative to the Genoa Conference. In reply to the query first of all as to whether it had been a success he was quoted as saying: "We have s cured a compact of peace among thirty nations. It was one of the most dramatic spectacles I have ever witnessed when the representatives of four continents stood up, one after another yesterday, and pledged themselves solemnly not to permit any acts of aggression against each other for the period of the truce." Asked regarding the sincerity of the Russians, the Premier made the following assertions: "I have absolutely no doubt about it. There is not the slightest doubt about the sincerity of their desire for peace. They have their difficulties with their public opinion exactly as every other nation has. They have a very wild, undisciplined and fanatical public concentrated in some of their towns with a power which is far beyond their numbers. They represent an infinitesimal proportion of the whole of the population. But their concentration gives them special influence over the Government of the country. I think the fundamental needs of Russia are so great that the instinct of self-preservation in the people of Russia will in the end overcome the forces of disorder." In reply to a question as to whether the better feeling which he claimed would result from the Genoa meeting, would include France and be permanent, he replied in the affirmative in each instance, and with respect to France said: "I have not the faintest doubt that the overwhelming majority of the people of France want peace, and I was assured of that by every Frenchman I have met. What has been done will, I have no doubt, reverberate throughout the whole of Europe and America—so I am assured by Americans whom I saw at Genoa. It has given expression to something which was deep in the hearts of the people." He made it clear that he would not go to The Hague, as the Conference there is to be one of specialists instead of Ministers. The British Prime Minister did not see Premier Poincare while passing through Paris, as had been reported he might do.

The earliest cable advices from London relative to the matter stated that "Lloyd George has postponed the critical test of his Genoa venture until next week." It became known here on Wednesday evening, however, that he had decided "to put his policies and accomplishments at Genoa to a test" the following day. He appeared in the British House of Commons at 3.45 o'clock Thursday afternoon, and the Associated Press correspondent said that he was "greeted with loud cheering." He added that "in beginning his speech, Mr. Lloyd George said he purposed dealing only with the business of the Genoa gathering and did not intend to discuss German relations or British relations with France, an opportunity for which discussion would be provided next week." After reviewing the objects of the Conference, the Prime Minister stated that "in regard to the question whether the Conference had succeeded he would simply state the facts fairly and let the members judge. Cheers from the Ministerial benches followed this utterance." The speaker observed in passing that "although peace had been established in Europe, it was quite clear that the war atmosphere to a certain extent remained." Referring to Russia and the trouble experienced with her delegates at Genoa, Lloyd George remarked that "it was hopeless for her, whatever her Government, to expect to extricate herself from the pit of squalid misery without the assistance of the other thirty nations." Continuing to discuss Russian affairs, he said: "The British delegation realized that it was necessary for the peace of the world, whatever was thought of the Soviet Government, that some arrangement with Russia be made in order to enable her to help in swelling the volume of trade on which so many millions depend, and in order to give a sense of stability and security to Europe. The Russian leaders quite realized they were not going to get credit from the West upon a basis of confiscation and repudiation of debts. They also knew that Russia never would be restored until she got credit. As regards debts of money advanced to Russia before the revolution. the

Russians were prepared to compromise, declaring the obligations they accepted would depend upon the assistance received." Outlining the situation with which the delegates to the Genoa Conference were confronted, the British Premier said: "Attainment of normal conditions in Europe had been impeded by numerous obstacles, the removal of which was the aim of the Conference. The first was currency difficulties and the instability of exchanges. The second was customs and trading restrictions, the third transport difficulties, and the fourth was the absence of a sense of security against war. He said commissions were established to deal with each of these problems."

Referring directly again to the results of the Genoa gathering, he observed: "I am not going to say that Genoa will ultimately succeed; I believe it has accomplished great things already. If Genoa fails, the position of Europe will indeed be tragic. The British delegation are proud that they took a leading part in upholding and fighting for high ideals, which will always be associated with the grave problems at Genoa." Turning to the forthcoming Hague meeting, he added: "The Hague Conference will be a practical discussion between the experts on the basis of the Cannes resolutions. I am very hopeful that when they come down to examination of practical propositions something will be achieved."

The speech occupied an hour and twenty minutes. The New York "Times" correspondent said that "after attacks by Herbert H. Asquith, Lord Robert Cecil and John Robert Clynes, the Labor leader, in a most spirited debate, what amounted to a vote of confidence was given to him by the overwhelming majority of 235 to 26." The correspondent added that "the House was packed with members, even most of the seats of the side galleries being occupied, and the crowd listened with the closest attention as the Premier described the situation of Europe as he sees it after six weeks' discussions."

In opening the summer session of the French Chamber of Deputies, Andre Tardieu, former High Commissioner of France in the United States, criticised Premier Poincare's handling of France's interests at Genoa less severely than was expected. Paris dispatches said that "he turned his attention to criticising America and England. He told the Government that it must decide now on a policy for France which would be intelligible to Americans and Englishmen and would show the whole world that France was not always wrong and that fully half of the troubles of the present time arose from mistakes England and America made at the Peace Conference and after. The big Anglo-Saxon mistake, in M. Tardieu's opinion, lies in the belief that the world is governed uniquely by economic consideration. Citing Maynard Keynes as the arch-propagandist of this conception, M. Tardieu lamented that this belief was not only the result of German propaganda, but was actually sincerely held by the whole financial world, which paid no more attention to frontiers than did the Socialists."

According to the Paris correspondent of the New York "Tribune," the French Government has a new plan to help Russia. It was said that "the French program, as now formulated, would suggest that the Western Powers undertake experimental work in Russia on a comparatively small scale and in a small area, probably in the Black Sea region. This would be expected to demonstrate after a few months whether there was any hope of dealing with Russia on a greater scale." It was added that "the French feel that every avenue to the rehabilitation of Russia must be explored, and the French experts will go to The Hague with that in mind. The proposed plan could be gone over at the preliminary sessions of experts in Holland."

The international commission of bankers appointed by the Allied Reparations Commission "to investigate the possibilities of an international reparations loan and temporary settlement of the reparations problem" met in Paris on Wednesday. The Berlin correspondent of the Philadelphia "Public Ledger" cabled the day before that the Germans would make "a request for a gold loan of 5,000,000,000 marks, or approximately $1,200,000,000. Three-quarters would be applicable to reparations payments. The balance would go toward stabilizing German exchange, providing raw materials and credits, and improving the facilities of production." He said also that the "German plan contemplates a request to be relieved from other cash reparations payments for four years. That, it is held, would give the Government an opportunity to readjust its finances, eliminate the deficit, discontinue the use of note printing presses, get on a normal financial footing, and request elimination of interest payments on the loan for two years. It will take this time, in the opinion of German financial experts, to bring Government revenues to a point where interest payments will be possible without printing money to meet the interest coupons. They suggest that subscribers to the loan may be compensated in the meantime by a suitable adjustment in the price of the issue. The United States, it is suggested, might take $400,000,000, or a third of the loan. These are the hopes of the German financial representatives. Your correspondent understands, however, they are prepared to be satisfied with a loan of 4,000,000,000 gold marks ($1,000,000,000) and a three-year moratorium."

The Paris dispatches Wednesday evening stated that at the opening session J. P. Morgan "was given the seat at the right of Chairman Delacroix," and that "all the members of the committee were present except M. Sekiba, who had been added for Japan." The Associated Press correspondent said that "George Whitney, of J. P. Morgan & Co., was the only other American present besides Mr. Morgan when the deliberations were begun with M. Delacroix's request that Gustave Bergmann, the German representative, outline the view of his Government as to what could be accomplished should a loan be granted." Announcement was made "at the close of the morning session that the deliberations would be confidential, so that the members might express and exchange their views freely without interruptions arising from publicity. At the end of each day's sitting a communique will be issued, but otherwise no information regarding the consultations will be furnished the public. James A. Salter of the British delegation to the Reparations Commission was appointed Secretary of the conference."

The day before the committee met in Paris the representative at that centre of the Associated Press cabled that "indefinite postponement of the May 31 ultimatum date for a reparations settlement by Germany is being considered by the Reparations Commission and may be offered the Germans upon condi-

tion that they accept essentially the Commission's full program. The Reparations Commission and the Germans are in agreement now on about half the points at issue, but still differ materially on some vital questions." He added that "the proposed breathing space, if it can be accorded, is considered desirable for several reasons. For one thing, as it would lay the spectre of a definite crisis on May 31, it would eliminate the possibility of the international bankers' committee, which meets here to-morrow, feeling that it must work feverishly against time to find a remedy while the world waited and while the Allies were making ready to impose penalties in case of a default. Such a respite as is now being considered would relieve the tension and give time, it is pointed out, for well considered measures to be formulated."

The more detailed accounts of Wednesday's session stated that "four tentative solutions of the international loan problem for the settlement of the economic situation in Europe, with particular reference to Germany, were presented and the spirit of the meeting was described by some of those who took part as indicating that something can be done. It was even said that probably an announcement of a definite nature could be made in a relatively short time. Four solutions were submitted respectively by J. P. Morgan, who had the seat of honor on the right of the Chairman, and offered what he termed 'the American plan'; Sir Robert Kindersley, one of the Governors of the Bank of England; Charles Sergent, former French Under Secretary of Finance and President of the Banque de l'Union Parisienne, and Dr. G. Vissering, President of the Netherlands Bank. No hint was given as to what these plans are, but the committee conveyed an idea of optimism and definiteness when they called them 'solutions.' They were advanced in response to a request by M. Delacroix, former Belgian Premier, who acted as Chairman, for statements as to what bankers believed could be done."

Because of the agreement of the members of the committee not to talk relative to the proceedings from day to day, little of real value was obtainable. The Paris dispatches made it clear that the representatives of all the other nations are counting more upon Mr. Morgan than any other individual for a practical and comprehensive plan.

Announcement was made in Dublin dispatches on Monday morning that the day before in that city an agreement had been reached "between Michael Collins and Eamon de Valera by which it is hoped that a trial of strength between the pro-treaty and anti-treaty parties will be avoided. It is based on the fact that the condition of the country requires a Government by a coalition administration." It was stated also that the plan stipulated that "an agreed list of candidates for the new Parliament is to be put forward as from the Sinn Fein organization, whose executive will now have representatives of all Sinn Fein factions. The President will be elected by the Dail Eireann as Arthur Griffith was elected. The army will have the right to nominate the Minister of Defense and the other nine Ministers will be appointed, five from the majority and four from the minority."

Winston Churchill, Colonial Secretary, announced in the British House of Commons Monday afternoon that "the British Government has invited the Irish signatories to the Anglo-Irish treaty to come to London and discuss with the British signatories the agreement signed Saturday between representatives of the Provisional Government and the followers of Eamon de Valera." He also said that "this agreement has raised serious issues affecting the character and validity of the election contemplated in the Irish Free State as well as the treaty itself. The Colonial Secretary hoped the conference would occur by the end of the present week."

With Eamon de Valera presiding, the High Council of Sinn Fein on Tuesday "ratified the peace agreement entered into last Saturday between Michael Collins and de Valera. By motion, the full support of the organization was pledged to the panel of candidates, irrespective of their views on the Anglo-Irish treaty question." It was also stated that "Collins, in a determined speech, said they had made an agreement which they thought would bring stable conditions to the country; they were determined to put an end to the conditions of disorder inside the nation. It was intimated that a common policy was about to be worked out to deal with the situation in Northeast Ulster. Collins's speech created a mystifying atmosphere. On its face it is a puzzle, but those who know Collins and examined the speech in relation to all the circumstances of the situation in the country, say it is not difficult to reconcile it with them and with the continuous functioning of the Provisional Government."

Announcement was made in London on Wednesday that "represetatives of the Irish Provisional Government will arrive in London on Friday [yesterday] morning to begin their conferences with the British Ministers. These will take place over the week-end, and Austen Chamberlain informed the House of Commons this afternoon that Winston Churchill hopes to make a full report on the Irish situation on Monday afternoon." The first session was held at 11 o'clock yesterday forenoon in the Foreign Office in London. It was said to have been of a preliminary character, but lasted for three hours. The conferees came together again at 4 o'clock in the afternoon.

While the new peace agreement was being signed in Dublin a serious state of affairs existed in Belfast and vicinity. According to an Associated Press dispatch from the latter centre Monday morning "this has been one of the worst week-ends in the experience of the city. Shootings, incendiarism, bombing and outrages generally have been exceptionally numerous. The fire brigade responded to seven calls between Saturday evening and Sunday morning. In some cases bombs were thrown into buildings. The exact number of deaths is not known, but it is believed they will reach thirteen, bringing the total deaths by shooting during the last week up to thirty-five, in addition to many persons treated for gunshot wounds in hospitals."

The disorder in Belfast became tragic on Monday, when William J. Twaddell, a member of Parliament for West Belfast, "was shot dead in a crowded street." It happened when he was on his way to business, and when he was within 50 yards of his establishment." The correspondent also said that "Sir James Craig issued a statement expressing his horror of the crime and announcing he has summoned a special meeting of the Cabinet and all authorities dealing with law and order." Early Tuesday morn-

ing the police of Belfast rounded up and put in prison about 300 Sinn Feiners, in an effort, it was stated, "to suppress not only the Irish Republican Army and the Irish Republican Brotherhood but all other Sinn Fein organizations in the six-county areas."

In Moscow, on Monday, the Executive Committee of the Soviet Government is said to have unanimously adopted "a fundamental decree recognizing property rights within certain limits, and upon which Russia's future dealings with American and other foreign and local capital depend." It was explained that "while wide latitude is given capitalistic and industrial effort, the decree nevertheless provides that everything must be limited to the Soviet laws and gives the Soviet the right to void any agreement which 'obviously is directed to harm the State.' A special clause was added to the law on motion of the Communistic faction at the last moment which makes it non-retroactive. It specifically denies rights under the law to previous owners whose property was expropriated on the grounds of revolutionary law up to the time of the issue of the decree and does not give them the right to demand return of the property. Foreigners under the decree have the same rights as Russian citizens, if they previously have secured permission from the proper authorities to operate in Russia. The right of the protection of the Russian court is given to persons abroad suing on contracts and other matters in Russia, only in the event that Russian citizens similarly have access to the courts of the national who sue in Russia."

M. Tchitcherin and Leonid Krassin, of the Russian delegation, remained in Genoa after all the delegates had left. Their purpose in staying was said to have been to negotiate a commercial agreement with the Italian Government. According to Genoa cable advices a day or two later, "the Russians are disappointed and discouraged at the firm attitude assumed by Signor Schanzer and Deputy Olivetti [the latter representing the industrials] in regard to the proposed commercial treaty, and their inflexibility in resolving to do nothing which might seem disloyal to the other European countries." The New York "Times" correspondent asserted that Signor Schanzer declared that "the Russians would have to sign the treaty as it stood or leave it, as urgent business recalled him to the capital, where Parliamentary discussions on foreign policy were imminent. He added that he felt like Tantalus. He saw within his grasp just what Italy was thirsting for, but was obliged to renounce it because he was determined that Italy's honor should be above reproach or even suspicion." Word came from Genoa Wednesday evening that the treaty actually was signed in the Royal Palace there at 4.50 o'clock that afternoon. MM. Tchitcherin, Krassin and Vorowsky represented Russia and Signors Schanzer, Conti and Olivetti Italy. Signor Schanzer left for Rome shortly after the signing.

During the early part of the week Vienna dispatches contained frequent rumors that Chancellor Schober of the Austrian Cabinet would resign upon his return from the Genoa Conference, where he headed the Austrian delegation. These rumors were based chiefly on the refusal of the Austrian Assembly to vote 120,000,000,000 crowns for increased pay for Austrian civil employees. The vote as finally taken provided for only 40,000,000,000 crowns. The dispatches stated that "the pan-Germans are agitating against the Chancellor and are endeavoring to organize, with the Socialists, a movement to oust the Cabinet." On Wednesday definite word was received that the Cabinet had resigned for the reasons already outlined.

The Greek Cabinet, under the Premiership of M. Stratos, resigned and a new Coalition Ministry, under the leadership of M. Protopapadakis, was formed, both within a week or less. The new Cabinet is the outgrowth of an agreement reached by MM. Gounaris and Stratos for a Coalition Ministry. The press of Vienna was said to be "pleased with the arrangement, which gives the Government a strong backing in Parliament."

Official discount rates at leading European centres continue to be quoted at 5% in Berlin, Belgium, France, Denmark and Sweden; 5½% in Norway; 6% in Rome and Madrid; 4½% in Holland; 4% in London, and 3½% in Switzerland. Open market discounts in London are now at 2 7-16% for long and short bills, as against 2 5-16@2⅜% last week. Call money in London is also somewhat firmer, having been advanced to 2%, in comparison with 1½% a week ago. The open market discount rates at Paris and Switzerland have not been changed from 4% and 1⅜%, respectively.

The Bank of France continues to report small gains in its gold item, the increase this week being 168,000 francs. The Bank's gold holdings, therefore, now aggregate 5,527,644,950 francs, comparing with 5,518,503,305 francs on the corresponding date last year and with 5,587,054,136 francs the year previous; of the foregoing amounts, 1,948,367,056 francs were held abroad in both 1922 and 1921 and 1,978,278,416 francs in 1920. During the week silver increased 232,000 francs, bills discounted gained 8,788,000 francs and Treasury deposits rose 28,312,000 francs. Advances, on the other hand, fell off 52,334,000 francs, while general deposits were reduced 134,415,000 francs. A further contraction of 173,095,000 francs occurred in note circulation, bringing the total outstanding down to 35,674,180,000 francs. This contrasts with 38,233,194,370 francs at this time last year and with 37,914,835,310 francs in 1920. On July 30 1914, just prior to the outbreak of war, the amount was but 6,683,184,785 francs. Comparisons of the various items in this week's return with the statement of last week and corresponding dates in 1921 and 1920 are as follows:

BANK OF FRANCE'S COMPARATIVE STATEMENT.

	Changes for Week.	Status as of May 25 1922.	May 26 1921.	May 27 1920.
Gold Holdings—	*Francs.*	*Francs.*	*Francs.*	*Francs.*
In France	Inc. 168,000	3,579,277,894	3,570,136,249	3,608,775,720
Abroad	No change	1,948,367,056	1,948,367,056	1,978,278,416
Total	Inc. 168,000	5,527,644,950	5,518,503,305	5,587,054,136
Silver	Inc. 232,000	283,622,495	272,334,495	240,385,300
Bills discounted	Inc. 8,788,000	2,318,901,000	2,592,732,298	1,902,765,114
Advances	Dec. 52,334,000	2,223,652,000	2,163,164,000	1,790,509,517
Note circulation	Dec 173,095,000	35,674,180,000	38,233,194,370	37,914,835,310
Treasury deposits	Inc. 28,312,000	42,604,000	22,602,000	112,185,986
General deposits	Dec 134,415,000	2,295,918,000	3,018,711,000	3,638,986,894

Probably the most noteworthy feature of the Bank of England's weekly statement was a sharp advance in the proportion of reserve to liabilities, of 1.8% to 19.96%, not only the highest ratio of the current year,

but the highest for the corresponding week of any year since 1916, when it stood at 32¼%. This compares with 18.88% last week, 18.07% for the week of May 12, 14¾% last year and 16½% in 1920, and was brought about mainly by the heavy reduction in deposits. Gold holdings registered a trifling gain, namely, £1,615, but total reserve increased £182,000, as a result of a contraction in note circulation of £181,000. Public deposits were £5,592,000 larger, but this was more than offset by a decline of £12,218,000 in other deposits. Temporary loans to the Government showed further contraction, this time £6,260,000, while loans on other securities fell off £509,000. Threadneedle Street's stock of gold on hand now stands at £128,880,842, which compares with £128,349,547 in 1921 and £112,455,304 a year earlier. Total reserve aggregates £26,441,000, as against £18,991,887 last year and £19,440,984 in 1920. Note circulation is £120,889,000, against £127,807,-660 a year ago and £111,464,320 in 1920, while loans amount to £74,592,000, in comparison with £89,139,-884 and £81,716,098 one and two years ago, respectively. Clearings through the London banks for the week were £699,918,000. Last week the total was £742,212,000 and a year ago £670,296,000. The minimum rate of discount remains unchanged at 4½%. We append a tabular statement of comparisons of the principal items of the Bank of England return:

BANK OF ENGLAND'S COMPARATIVE STATEMENT.

	1922. *May 24.*	1921. *May 25.*	1920. *May 26.*	1919. *May 28.*	1918. *May 29.*
	£	£	£	£	£
Circulation	120,889,000	127,807,660	111,464,320	77,161,365	51,051,240
Public deposits	17,901,000	16,419,417	16,603,572	21,033,711	41,055,712
Other deposits	113,872,000	112,060,283	101,179,934	121,583,297	135,269,961
Governm't securities	49,188,000	38,106,122	34,356,283	52,522,633	56,737,732
Other securities	74,592,000	89,139,884	81,716,098	80,476,924	106,846,000
Reserve notes & coin	26,441,000	18,991,887	19,440,984	27,368,839	30,274,46-
Coin and bullion	128,880,842	128,349,547	112,455,304	86,080,204	63,451,474
Proportion of reserve to liabilities	19.96%	14.75%	16.50%	19.20%	17.50%
Bank rate	4%	6½%	7%	5%	5%

The statement issued as of May 15 by the Imperial Bank of Germany once more demonstrated forcibly the abnormal condition of the institution; although the increase in note circulation was less spectacular than in the week preceding. The most sensational changes were in discount and Treasury bills, which increased 9,127,602,000 marks. Treasury and Loan Association obligations were 172,034,000 marks larger. "Other assets" expanded 463,511,000 marks and other liabilities 180,005,000 marks. Smaller increases included 1,724,000 marks in notes of other banks, 30,799,000 marks in bills of exchange and 3,153,000 marks in investments. A gain in gold of 700,000 marks was reported and in total coin and bullion of 1,114,000 marks. A feature of the statement was that all items showed increases, except advances, which were reduced 15,497,000 marks. Note circulation aggregates 142,903,593,000 marks (another new high), and an increase for the week of 439,972,000 marks. Gold is reported as 1,002,365,-000 marks, which compares with 1,091,578,000 marks in 1921 and 1,091,680,000 marks a year earlier.

The Federal Reserve Bank statement, issued late on Thursday afternoon, showed that gold reserves during the week remained almost stationary, while for the first time in several weeks, the bill holdings registered substantial expansion. For the system as a whole gold holdings increased $2,000,000, and the total of bills on hand increased $27,000,000. There were likewise increases in total earning assets of $28,000,000, and in deposits of $31,000,000. The amount of Federal Reserve notes in circulation, however, declined $18,000,000. In the New York Bank gold holdings fell off $1,300,000. Bills on hand increased $26,000,000. The total of the bill holdings, however, is no more than $95,027,000, against $562,350,000 last year, and for the combined system $592,604,000, against $1,957,394,000 a year ago. Reserve ratios show only slight changes, there having been a decline of 0.1% to 77.5% for the system, and from 86.2% to 85.2% for the New York bank.

Last Saturday's statement of the New York Clearing House banks presented some rather striking features, and apparently reflected corporate and Government financing on an important scale. Loans recorded the largest expansion of the year, $97,534,000, to $4,684,841,000, which in turn brought about an increase in net demand deposits of $66,159,000, to $4,187,671,000. This is exclusive of Government deposits of $41,606,000, a falling off for the week of $15,133,000 in the latter item. Net time deposits were further advanced to $319,053,000, an increase of $8,234,000. Cash in own vaults fell $2,820,000, to $60,343,000 (not counted as reserve). Reserves of State banks and trust companies in own vaults increased $23,000, but reserves of these same institutions kept in other depositaries fell $97,000. Member banks reduced their credits at the Reserve Bank $22,534,000, and this, together with the addition to deposits, served to reduce surplus $31,384,030; thus pulling the excess reserves down to $5,521,450, as against $36,905,480 last week. The above figures for surplus are on the basis of 13% reserves above legal requirements for member banks of the Federal Reserve System, but do not include cash in own vaults amounting to $60,343,000 held by these banks on Saturday last.

With the exception of once early in the week and again yesterday, call money at this centre was decidedly easy, loaning the greater part of the time as low as 3½%. The upturns were regarded only as temporary and as reflecting conditions that would soon change. Naturally the advance yesterday afternoon, from 3½% to 5%, was attributed largely to the end of the week and the close approach of the end of the month. On June 1 the interest and dividend disbursements ordinarily are large. Dividend payments are requiring larger amounts of money than until recently, because disbursements that had been reduced are being restored in part or altogether, while dividends that were cut off have been resumed to some extent, if not fully. Apparently the requirements for speculative operations in stocks have not differed greatly from week to week for some little time. Bankers and investment houses have been disposed to speak of a let-up in the offerings of new issues, but the records show that in the aggregate they have been large. The confidence of these institutions in the immediate future of the money and investment markets is demonstrated by the fact that they are planning to make still larger offerings within the next week or ten days. That the Secretary of the Treasury has no apprehension about either the money or the investment market is shown by his decision to offer another $200,000,000 Treasury certificates.

This particular issue will bear 3½% interest and run for six months. It is assumed that as has been true of every offering of this kind for some time, the subscriptions will be far in excess of the $200,000,000. There is a difference of opinion, not only on the part of railway officials, but also upon the part of the heads of large industrial corporations, as to whether the business of this country will advance as rapidly in the next 90 days to six months as has been predicted recently by President Harding, Secretary Hoover and other prominent representatives of the Administration at Washington. It is generally conceded that the extent and rapidity of the increase will be the most potent factor in our money market.

As regards money rates in detail, call loans this week ranged between 3½ and 5%, as against 3@3¾% last week. On Monday, though renewals were made at 3½%, the low, there was a brief flurry when the quotation was marked up to 5%. Tuesday a flat rate of 4% prevailed, this being the high, the low, and the ruling figure for the day. Wednesday and Thursday the range was 3½@4%, and 4% the renewal basis on both days. Call funds again stiffened on Friday and there was an advance to 5% just before the close; but renewals were negotiated at 4% the same as before, and this was the minimum. The figures here given apply to both mixed collateral and all-industrial loans, alike. For fixed date maturities very little change has been noted. Business is quiet and no large trades were recorded in any of the maturities. Quotations are now 4% for sixty days and 4@4¼% for ninety days to six months, in comparison with 4@4¼% for all periods last week.

Mercantile paper rates continue at 4¼% for sixty and ninety days' endorsed bills receivable and six months' names of choice character, unchanged, with names not so well known at 4½%. There is a ready market for prime names, but dealings were restricted because of the scarcity of offerings. The demand is chiefly from out of town institutions.

Banks' and bankers' acceptances ruled at the levels previously current. A fairly active demand was noted from local and country banks, also individual investors. Offerings, however, continue light, so that transactions in the aggregate attained only moderate proportions. Brokers are said to be forecasting a material broadening in operations during the next few weeks. For call loans against bankers' acceptances, the posted rate of the American Acceptance Council is 3½%, against 3% last week. The Acceptance Council makes the discount rates on prime bankers' acceptances eligible for purchase by the Federal Reserve Bank, 3¼% bid and 3⅛% asked for bills running for 120 days; 3¼@3⅛% for ninety days; 3¼@3⅛% for sixty days, and 3¼@3⅛% for thirty days. Open market quotations are as follows:

SPOT DELIVERY.

	90 Days.	60 Days.	30 Days.
Prime eligible bills	3¼@3⅛	3¼@3⅛	3¼@3⅛

FOR DELIVERY WITHIN THIRTY DAYS.

Eligible member banks	3⅜ bid
Eligible non-member banks	3½bid
Ineligible bank bills	3⅜ bid

There have been no changes this week in Federal Reserve Bank rates. The following is the schedule of rates now in effect for the various classes of paper at the different Reserve Banks:

DISCOUNT RATES OF THE FEDERAL RESERVE BANKS IN EFFECT MAY 26 1922.

Federal Reserve Bank of—	Discounted bills maturing within 90 days (incl. member banks' 15-day collateral notes) secured by—			Bankers' acceptances disc'ted for member banks	Trade acceptances maturing within 90 days	Agricultural and live stock paper maturing 91 to 180 days
	Treasury notes and certificate of indebtedness	Liberty bonds and Victory notes	Otherwise secured and unsecured			
Boston	4½	4½	4½	4½	4½	4½
New York	4½	4½	4½	4½	4½	4½

Dallas	5	5	5	5	5	5
San Francisco	4½	4½	4½	4½	4½	4½

In the absence of important new developments in the international situation, the sterling exchange market has remained almost stationary this week, with the range limited to a small fraction. As a matter of fact, the extremes for demand bills have been 4 44⅜ and 4 44¾. At the opening there was a tendency toward slightly lower levels, due very largely to a lack of interest on the part of buyers. Later on, however, the calling of a bankers' conference at Paris to consider, among other things, the reparations problem, and the possibility that a substantial German loan might be floated, had a beneficial effect on rates, which were subsequently marked up. Dealers continue to show extreme caution in the matter of making new commitments and whatever business is passing is for the most part of speculative origin. London sent firm cable rates, which as usual had not a little to do with shaping the course of quotations here. Offerings of commercial bills continue light. There seems to be a growing belief, at least in some quarters, that a broadening in activity may be expected in the not distant future. It is pointed out that dealings for several months past have been restricted to the barest routine requirements with both buyers and sellers largely out of the market, and not a few express the opinion that there is a substantial short account both here and abroad. If this should prove correct, widespread covering is likely to be witnessed in the event of any important advance in price levels.

While interest in the recent Genoa Conference is of course a thing of the past, there seems to be still a tendency to discuss the question as to just exactly what effect this gathering and the adjourned meeting at The Hague are likely to have upon the future of exchange. Some of the more pessimistic take the view that nothing at all of any consequence was accomplished, but others feel that good results are likely to accrue at least from the conferences which are to grow out of this preliminary attempt. Premier Lloyd-George's hopeful utterances would seem to confirm this opinion. Announcement from Washington that the United States will not enter into any general trade treaty with European nations had little or no effect, it having been a foregone conclusion in banking circles that the Government intended to pursue a "Hands off" policy.

As to quotations in greater detail, sterling exchange on Saturday last was a trifle easier and demand declined fractionally to 4 44⅜@4 44 1-16, cable transfers to 4 44¾@4 45 1-16, and sixty days to 4 42⅜ @4 42 11-16; trading was quiet and transactions small in volume. Monday's market was a dull affair and rates moved within extremely narrow limits, viz.

4 44½@4 44⅝ for demand, 4 44⅞@4 45 for cable transfers and 4 42@4 42⅝ for sixty days. Although there was no increase in activity on Tuesday, a better undertone was noted, with demand fractionally up to 4 44⅝@4 44¾, cable transfers to 4 45@4 45⅛ and sixty days to 4 42⅝@4 42¾. On Wednesday the same quotations were maintained unchanged; trading was as dull as ever and the market in neglect most of the time. Dulness continued in evidence on Thursday, but demand bills were "pegged" at 4 44⅝@4 44¾, cable transfers to 4 45@4 45⅛ and sixty days to 4 42⅝@4 42¾. On Friday there was a slight recession to 4 44½@4 44 11-16 for demand, 4 44⅞@4 45 1-16 for cable transfers and 4 42½@4 42 11-16 for sixty days; the weakness was due mainly to lack of demand. Closing quotations were 4 42⅝ for sixty days, 4 44⅝ for demand and 4 45¼ for cable transfers. Commercial sight bills finished at 4 37⅝, sixty days at 4 31⅝, ninety days at 4 30⅝, documents for payment (sixty days) at 4 31⅞, and seven-day grain bills at 4 37⅜. Cotton and grain bills for payment closed at 4 37⅝. Very little importation of gold was reported this week, total arrivals being only one case of currency on the Constantinople from Greece and seven cases of gold bars on the Stockholm from Gothenburg. A consignment of $290,000 in gold has been shipped to India. Late in the week the steamship Maravel brought 12 boxes of gold from Demerara.

As to the Continental exchanges, the outstanding feature of an otherwise dull and uneventful week was a recovery in the price of lire of more than 11 points, carrying the quotation up to 5.22½ for checks. Trading, however, was very light and no adequate explanation was forthcoming for the advance. According to usually competent market observers, it was due to speculative tactics, also the sentimental influence of improvement in Italian trade and economic conditions. French exchange again moved within very narrow limits, at or very near to last week's closing figure of 9.05, until Thursday, when there was an advance to 9.11¾, and the same is true of Belgian currency. German marks were fairly steady, advancing a few points for the week, to 0.34⅝ for checks; but Austrian kronen show no recovery from what might well be considered the irreducible minimum of 0.0100. Czechoslovakian exchange, which recently moved up to 2.02, showed a declining tendency and broke this week to 1.89, though the other Central European exchanges were not much changed. Greek drachma were steady and have apparently been maintained at or near the 4.24 level fixed late last week. Notwithstanding the lack of trading activity, the comparative steadiness in rates, as contrasted with the erratic changes of the recent past, attracted considerable attention, and was attributed in no small measure to hopes that the Conference of Bankers now in session at Paris will bring constructive results. On the other hand, there are some operators who believe that the advances are caused by speculative interests who owing to the extreme narrowness of the market are finding it easier to manipulate than has been the case of late.

The official London check rate in Paris finished at 48.73, compared with 49.00 last week. Sight bills here on the French centre closed at 9.09½, against 9.05; cable transfers 9.10½, against 9.06; commercial sight bills 9.07½, against 9.03, and commercial sixty days 9.01½, against 8.97 a week ago. Closing rates on Antwerp francs were 8.41½ for checks and 8.42½ for cable transfers, in contrast with 8.26½@8.28½ the week preceding. Reichsmarks finished at 0.33¼ for checks and 0.34 for cable transfers, as against 0.33 and 0.33½ last week. Austrian kronen closed the week at 0.0100 for checks and 0.0105½ for cable transfers, as compared with 0.0100 and 0.0105 a week earlier. Lire finished at 5.23¾ for bankers' sight bills and 5.24¾ for cable remittances. This compares with 5.05 and 5.06 on Friday of last week. Exchange on Czechoslovakia closed at 1.93, against 1.92; on Bucharest at 0.69, against 0.70; on Poland at 0.0245, against 0.0250, and on Finland at 2.07, against 2.09 the previous week. Greek exchange finished at 4.23 for checks and 4.28 for cable transfers, which compares with 4.24 and 4.29 a week earlier.

Exchange on the former neutral centres, though not particularly active, ruled strong, with Dutch guilders at a new high level of 38.88. Swiss francs and Spanish pesetas were maintained at very close to the levels of the preceding week, while Scandinavian exchange was firm, closing in some instances at a substantial net advance. Considerable discussion has been heard over the vagaries in price levels of late on the smaller Continental centres, the majority of them having experienced frequent violent movements first in one direction and then the other, and the opinion is advanced that Germany has resumed activity among the neutrals, although nothing definite on this point is available.

Bankers' sight on Amsterdam finished at 38.88, against 38.76; cable transfers at 38.93, against 38.81; commercial sight at 38.83, against 38.71, and commercial sixty days 38.47, against 38.35 a week ago. Final quotations for Swiss francs were 19.08 for bankers' sight bills and 19.10 for cable transfers. Last week the close was 19.08 and 19.10. Copenhagen checks finished at 21.66 and cable transfers at 21.71, against 21.25 and 21.30. Checks on Sweden closed at 25.78 and cable transfers at 25.83, against 25.61 and 25.66, while checks on Norway finished at 18.30 and cable transfers at 18.35, against 18.42 and 18.47, respectively, the week preceding. Spanish pesetas finished the week at 15.73 for checks and 15.78 for cable transfers, as compared with 15.72 and 15.77 the week before.

With regard to South American exchange, the situation remains about the same. In the late dealings an easier tendency was displayed and the close for Argentine checks was 36⅜ and for cable transfers 36½, against 36½ and 36⅝. Brazil also declined slightly, but rallied and finished at 13⅞ for checks and 14 for cable transfers, the same as last week. Chilean exchange declined to 12¼, against 12½, and Peru declined to 3 73, against 3 75.

Far Eastern exchange continues firm, in response to the price of silver, and Hong Kong currency finished at 58½@58¾, against 58½@59; Shanghai, 80¾@81, against 83¼@83½; Yokohama, 47½@47⅝, against 47½@47¾; Manila, 49@49¼, (unchanged); Singapore, 52@52¼ (unchanged); Bombay, 29¾@30 (unchanged), and Calcutta, 30@30¼ (unchanged).

Pursuant to the requirements of Section 403 of the Emergency Tariff Act of May 27 1921, the Federal Reserve Bank is now certifying daily to the Secretary of the Treasury the buying rate for cable transfers on

the different countries of the world. We give below the record for the week just past:

FOREIGN EXCHANGE RATES CERTIFIED BY FEDERAL RESERVE BANK TO TREASURY UNDER EMERGENCY TARIFF ACT, MAY 20 1922 TO MAY 26 1922, INCLUSIVE.

Country and Monetary Unit.	Noon Buying Rate for Cable Transfers in New York. Value in United States Money.

The New York Clearing House banks, in their operations with interior banking institutions, have gained $4,808,889 net in cash as a result of the currency movements for the week ending May 25. Their receipts from the interior have aggregated $5,696,389, while the shipments have reached $887,500, as per the following table:

CURRENCY RECEIPTS AND SHIPMENTS BY NEW YORK BANKING INSTITUTIONS.

Week ending May 25.	Into Banks.	Out of Banks.	Gain or Loss to Banks.
Banks' interior movement	$5,696,389	$887,500	Gain $4,808,889

As the Sub-Treasury was taken over by the Federal Reserve Bank on Dec. 6 1920, it is no longer possible to show the effect of Government operations on the Clearing House institutions. The Federal Reserve Bank of New York was creditor at the Clearing House each day as follows:

DAILY CREDIT BALANCES OF NEW YORK FEDERAL RESERVE BANK AT CLEARING HOUSE.

Saturday, May 20.	Monday, May 22.	Tuesday, May 23.	Wednesd'y, May 24.	Thursday, May 25.	Friday, May 26.	Aggregate for Week.
$	$	$	$	$	$	$
53,500,000	54,700,000	45,300,000	52,400,000	44,900,000	46,200,000	Cr. 297,000,000

Note.—The foregoing heavy credits reflect the huge mass of checks which come to the New York Reserve Bank from all parts of the country, in the operation of the Federal Reserve System's par collection scheme. These large credit balances, however, show nothing as to the results of the Reserve Bank's operations with the Clearing House institutions. They represent only one side of the account, as checks drawn on the Reserve Bank itself are presented directly to the bank and never go through the Clearing House.

The following table indicates the amount of bullion in the principal European banks:

Banks of—	May 25 1922.			May 26 1921.

MR. HOOVER'S SUMMARY FOR EUROPE.

The rushing river, tumbling its waters within its banks, becomes a discolored flood. The still lake is clear. Scientists, according to popular belief, assure us that the stream in its ordinary flow purifies itself. Motion, we know, is necessary to health and life. And so we may assume like results from the activities of societies of men, and the races of earth. And why should not reason accept the will of the women to declare war an outlaw—every man's head, hand and heart to be against it, hunting it to its death with spiritual weapons? It is the only way—war will never destroy war. Has it even ended wars? War is the tempest and the flood. Its fierce power tears away the boundaries in which life flows evenly according to the ordained law, and it poisons the being of mankind with the contagious passions of hate. Then there is the war economic! Striving to grasp profit, wage, wealth, regardless of the solid accretions of time and labor; seeking for the torrential flow of power by the use of Governments as if they were miracle-workers!

Mr. Hoover has lately summed up the present needs of Europe as he believes the majority of men see them after three years of discussion. They are well stated and worthy of record. We quote:

"First—Such political relations between the States in Europe as will produce an atmosphere of peace and destroy the atmosphere of war.

"Second—The reduction of armament, not only to lessen Government expenditure, but to give confidence of peace.

"Third—The inter-Governmental debts, including German reparations, to be fixed upon such a definite basis of payment of interest and principal as will create reasonable confidence that payments will be met.

"Fourth—The balancing of budgets more through the reduction of expenditure than the increase in taxation, and a cessation of the consequent inflation in currency and short-time bills.

"Fifth—The ultimate establishment of the gold standard with the assistance of either credits or gold loans, and, where necessary, the acceptance of diminished gold content in many old units of currency."

With the exception of the latter part of the last point, few objections to the statement will be heard anywhere. The mind of Europe knows of these necessities as well as that of America. Unfortunately, the only way seems through Governments. And just here uprises the supreme wisdom of Lloyd George's plan for a ten years' truce, ten years of non-aggression, and an acceptance of national boundaries as now constituted, as a part of that truce. But by reason of Governments seeking, whether through imagined peril or through commercial greed, for power, dominance, the bloodless though deadly economic war goes on. Some call it political, but it is so only because Governments in their selfish nationalism are striving for advantage, security, power, wealth of natural resources. The seeds of this economic war, for it is just this, were sown at Versailles in large part. That peace pact in some respects was as dynamic as the World War itself. Three years of history have now proved it. War disrupted, tore the old map to tatters. The peace pact set up new States without economic rhyme or reason. And the result is a new conflict, that even the Governments cannot settle. The atmosphere Mr. Hoover wants, Lloyd

George would pour over Europe by a famous agreement to cease from quarreling for ten years—to accept for that time the status quo of State boundaries; so that States may retire from their turmoil, and the normal life of the people return by normal ways and means. Alas—there is no natural settling process for society and industry while these many Governments lash the stream of life into foam and fury!

If only some miracle-worker could stand forth and say to these raging elements, "Peace, be still!" But there is none. Europe must be her own deliverer—how many say! So must man. There is no miracle-worker—nor can the dream of man conjure one out of the thing we call Government. Governments sent mankind war, they cannot send peace. The stream of life must flow on, watering lands by the way—the stream of cumulative human toil, sent forth from its dim source in a remote past to turn the monster into man. Yes, exchange of the products of brain and hands, the light that vivifies the rising race—the tried concept which announces "trade the civilizer"! The stream must clarify and purify itself by normal, not abnormal, action. The forcing processes of political power become as harmful as the more brutal strife of armed force. What *is* the secret of Russia? Is it not that there there now exists a tyrannic form of pseudo-Government, founded on hate of the bourgeois, and saturated with greed and selfishness of the proletariat? In conference or out of it, can any good ever come out of the life and being of this sinister and malicious travesty on love and law? Is the stumbling block an admittedly excusable fear on the part of France? What, where, is the origin of this fear? Is the natural heart of man as he trades across the boundaries of two Governments at enmity? Admit, if you like, a strong, almost ineradicable racial dislike between Frenchman and German. That *can never take overt form of war*—save there be national greed of conquest on the one hand, and fear of a too weak national power to withstand the armed descent of this national greed of conquest on the other. What miracle can Governments capable of these feelings perform that will exorcise this lust and fear? How can trade annul these imaginary boundary lines until the Governments, jealous of them for political and economic power's sake, cease from troubling the relations, "the atmosphere," of a common and natural commercial peace? Unfortunately, there is now no other way. But what would be the result if the old concept of the limited powers of Government should again abide among men, overspreading the world?

Look at this agenda Mr. Hoover has deduced from the general opinion of mankind. What is impossible in it? Surely, man can will peace; can solemnly dedicate life to natural pursuits, if only there could come mutual trust to the human heart everywhere; can by a holy renunciation in himself, command and demand of all Governments good will, disarmament. Debts—if these can be stated, can they not be adjusted? If these could come to the inner consciousness of these Governments and out of the quickened spirit of human love and forgiveness a fixation of the sums due in reparation, would it ruin the world if, to rid the world of this problem, they were placed too low? Let Portia settle it. Take thy pound of flesh nearest the heart, but if in the cutting of it thou shed one drop of blood. . . . We doubt not the peasants of France would quickly remove this obstacle to world-resumption if they could, if there was some way to act save through a Government obsessed with fear and believing it alone can protect. Tariffs—can it be possible that by common consent, if that could be obtained, they could be all wiped out?

Currencies? Lay aside the fallacy that changing content can restore or reject the gold standard, and what is the staring fact—these currencies are as withered leaves the tree must shed. Who can put value into fiat? Who can restore the last year's rose? Who can pile up all the gold in the world and give monetary power to pieces of paper ground from a mechanical mill—sent out by a Government that could only tax the people to redeem them, and did not attempt to provide a way? Income and outgo—surely the people in any form of Government can inaugurate an overwhelming sentiment compelling it to live within sums appropriated, and say in advance what the total may be and must be?

All these things *can* be done. But how? There is but one Court of Last Resort—the world-opinion of mankind—that they *shall* be done. Nothing is impossible, in this wise. But world-opinion that follows and does not precede "Governments" will never do it!

MR. EDISON AND MONEY.

Money in its final, fixed and universal form is gold. This metal, whether in bars or coins, has become, by a process of natural selection and commercial usage, the only accepted, and therefore acceptable, money of the world. It possesses peculiar qualities which render it serviceable for this purpose. But its chief attributes attach to it by virtue of its common use. These are a medium of exchange; a standard of value; and a common denominator, in which its credit representatives and all independent credits may be most certainly and unchangeably expressed. Any nation may, and with a few exceptions all nations now do, use gold as a standard of value in its coinage system, thus conforming to the larger power of the world's commerce to adopt and use a common, single standard of values—these values constantly changing in their relation to each other and to it, as the common language of trade and business. The Genoa Conference, by its sub-committee finance report, adopted in plenary session, confirms this fact, thirty-odd nations outside the United States having been present.

Now, at the very hour of this affirmation of the gold standard, note that the most of these nations so assembled are possessed of billions of currency, that in a way circulates as money. This currency is a pseudo-form of credit, issuing either direct from national treasuries or through the medium of great national centralized banks of issue, but has attained to such huge quantities that it has lost all vital relation to the gold standard for two reasons: first, it has no gold base as a guaranty of its ultimate redemption; and second, it has no longer a fixed relation to values since it has, through excess, become no longer even a representative of Governmental or national credits, being a mere paper product of the printing press, a mere fiat. This is true, though it is a gross, statement of conditions, and allowance must be made for varying exchange values of these national currencies. When, then, these European nations in conference request a speedy return to the "gold standard" they do so in the knowledge and light of these billions on billions of ineffective currencies.

It is "more than passing strange" that with this example before us, coupled with the universally admitted fact that to-day we have the one stable money of the world, there should be any suggestion of change. But there is, and it comes from the otherwise mastermind of Thomas A. Edison, at the instigation of Henry Ford, and with the approval of Senator Capper of Kansas, chief of the Farm Bloc. We quote from the brief said to have been submitted and relied upon by the New York "Times" for its editorial comment:

"Upon receipt of any commodity and after proper weighing, a preliminary receipt for the same is to be given. It is then to be manipulated or graded, and three sets of sealed samples taken, one being given to the owner and two being kept by the Government. The Government thereupon will issue a receipt in duplicate for the commodity, one receipt setting forth the quantity and grade of the commodity. The other receipts the same thing, and in addition gives the holder the right to receive in *Federal Reserve currency at any national bank he may choose*, 50% of the average value of the commodity, as determined by the prices over a period of 25 years, without any charge other than the cost of service and a contribution to the sinking fund. For this the bank may make a definite charge for obtaining the currency from the district Reserve bank. The duplicate receipt is kept by the owner, and contains his equity over and above the loan of 50%. This duplicate is available for a loan at a national bank, or it may be sold on the exchanges or held by the farmer until he desires to sell. Both certificates may be split up in fractions at the pleasure of the Administration." We are further told, according to the "Times" report that "the plan" "contemplates issuance of a series of farm currency through a Federal farm bank. The currency would be lent to farmers for one year, repayable at the rate of 1% a month, with a lien of 50% of farmers' crops as security."

The method as disclosed is cloudy, but can hardly be more cloudy than the plan. There seems to be provision for a certified Government warehouse receipt with a definite stated value, issued in duplicate, and, we presume, by this central Federal farm bank, or possibly a "Government warehouse receipt" is presented, accepted and validated by the bank—a dangerous process. One sets forth grade and quantity alone and the other, in addition, contains a right to receive, on presentation, 50% of the declared value in Federal Reserve currency based on the average of 25 years. The grain is stored, the ownership remains in the farmer. We may suppose one duplicate receipt retained by the Federal farm bank. The other is taken by the farmer to the intermediary member bank which transmits it (?) to the district Federal bank and currency is returned as provided. What becomes of this receipt? How can the farmer borrow on the other 50% unless he retains the receipt and transfers it to the loaning bank? If he retains his certified warehouse receipt (it is just this and nothing more), or if his loaning local bank retains it, what stands behind the 50% at the regional bank for the Federal Reserve currency that has gone into circulation, and how can this currency ever be redeemed? In one view the plan looks like a patent scheme to trade wheat in storage for Federal Reserve notes. Why not empower the Federal farm bank to issue 50% currency so that it might pass (if it would) as warehouse receipt money? The Federal Reserve note as now constituted, backed by 40% gold under a gold standard is "good" the world around. What would the warehouse receipt currency (if known as such) be worth here or anywhere? And what would be the stability of the Federal Reserve note with this unsecured, inflated, heterogeneous mass of warehouse receipt money added to it? The idea of injecting this plan into the Federal Reserve system in this way seems so preposterous that we perhaps dignify the matter by inquiring into it. But it is a part of the hysterical demand to "do something for the farmer."

The idea of basing present and future values on the average of the past 25 years is ridiculous, but let that pass. We are very certain no sane national banker will loan on the second 50% of value unless he can get the certificate and the right to pay himself first. Suppose the farmer, having converted his first half of value into Federal Reserve notes, does then secure a loan on the other half. Who or what is going to sell the wheat, oats or corn, and where and when? The warehouse costs must be paid first—will the warehouse, Government or not, sell, or take a chance on collecting costs first, waiting the time the farmer thinks propitious? Will the banker consult the convenience of the farmer, or sell and collect peremptorily, regardless of price? If, perchance, he loans too close and takes a loss, what will become of the Federal Reserve notes issued on the first half—and what will become of them in any event? And if the farmer finds he has no equity left what will he do, or what can he be compelled to do?

The whole scheme as thus partially disclosed to us is simply sheer nonsense. But we need not become unduly alarmed. The warehouses are not yet built. And the new co-operative farm marketing associations may not co-operate in this mixture of grains, credits and money.

ADOPTION OF A UNIFORM CLASSIFICATION OF OBJECTS OF EXPENDITURE BY THE FEDERAL GOVERNMENT.

In our issue of April 1 1922 we gave a brief description of the disjointed and unbusinesslike methods in use by the Government in accounting for the expenditure of public moneys and referred to the work being done by the Bureau of the Budget and the General Accounting Office toward a standardized and centralized system. After many months of expert and scientific labor, the new classification is now an accomplished fact, having been promulgated on May 11 by the Comptroller-General of the United States as Bulletin No. 1 of the General Accounting Office.

It will be recalled that when the Budget and Accounting Act was before Congress one of the principal items under discussion was the need of a radical reform in departmental bookkeeping. In the minds of many students of public finance this question overshadowed all others. It was the view of Mr. Swagar Sherley, former Chairman of the Committee on Appropriations, for instance, that there could be no intelligent budget making upon the basis of the existing inadequate and jumbled financial information obtained from the Government books. General Dawes, in his first report on the budget, dwelt with emphasis on this question and returned to it in his recent report on Governmental economies.

The legal basis for the present action of the Comptroller-General is Section 309 of the Budget and Accounting Act, which makes it mandatory upon him to prescribe the form and system of accounting for

the Government. The classification promulgated by him, therefore, has the force of law upon the departments.

This document is in the nature of the case highly technical, and in its details is of interest primarily to accountants, but it lays the foundation of a great public benefit and in its broad outlines is easily comprehended by the average person. Following the experience of private business, the expenditures of the Government are divided into five main groups, namely: (1) Current Expenses, including personal services, supplies and materials, rents and all such ordinary obligations. (2) Fixed Charges, including interest, pensions, grants, subsidies and contributions. (3) Acquisition of Property, including equipment, buildings and land. (4) Payments on the Public Debt. (5) Capital outlays for rights and obligations, including investments, treaty obligations, repayment of deposits, refunds, awards and indemnities.

These headings form the basis of the new system. They are minutely subdivided to meet the needs of particular bureaus and offices. All of the books of the Government must be so kept that immediate information can be furnished to Congress, to the President, to the Bureau of the Budget or to the General Accounting Office under the general headings mentioned above. When it is realized that this new system is made applicable to annual operations involving about four billion dollars and which cover almost every conceivable object of expenditure, the great desirability of uniform and standardized information is at once apparent. It will now be possible to compare the financial administration of one bureau with that of another, with the confidence that the terminology used by each is identical. This reform in accounting and reporting should react toward a further simplification of the form of the budget and of the appropriation bills.

Governmental accounting is not a matter over which public interest can be aroused. It appears too remote and technical. But in the clear perspective of the administrative history of the Government, this achievement will stand out as a signal reform.

EDGAR M. CULLEN.

Edgar M. Cullen, who died on Wednesday in his 79th year, never filled much space in the news of the day, for he was never a politician. Returning from service as a youth in the Civil War, he entered the bar in 1867; in 1872 he became an Assistant District Attorney in Kings County; in 1880 was elected to the State Supreme Court; at the close of 1899 went to the Court of Appeals, by appointment of Governor Roosevelt, as one of three new judges; and in 1904 (the office having meanwhile become elective) he was chosen chief judge, as the candidate of both parties, retiring about eight years ago, on reaching the retirement age of 70.

It was he who, in 1893, issued an injunction upon "Boss" McKane of Gravesend, who made the mistake of tearing it up, scornfully remarking that injunctions did not "go" in his bailiwick, a view he found reasons for revising when in due time he reached Sing Sing prison. The other most notable case in which Judge Cullen was concerned was the impeachment of Governor Sulzer in 1913. He presided at the trial, which resulted in conviction, and while he found that Sulzer did divert campaign contributions to personal uses he regarded this diversion as not an offense and he showed his independence and rigid impartiality by voting for acquittal.

Judge Cullen had a large and impressive figure, he looked every inch a judge, and it is his distinction that he was always judge, a type of the "just" judge. To him, Law had her seat "in the bosom of God." Precedent was important as establishing and determining principle; the statute was not necessarily law and might even be in conflict with law. Consistency, in his view, did not mean a dogged resistance to change. While constitutions are made for the people and not the people for constitutions, he was as far from going counter to the primal organic law as from making a fetich of it.

One can hardly imagine him either denying or brushing aside constitutional limitations for the sake of finding the path of apparent least resistance in emergency situations. He would have seen that to compromise principle for the sake of expediency is not even expedient, since it not only sows the seeds of more emergencies but almost surely fails to satisfy the emergency for which the compromising is used; to do evil for the sake of good makes the prevailing of the good less certain hereafter and is apt to miss its present aim as well.

Judge Cullen was a credit to the Bench and a public servant of large usefulness. We can hardly wish better for the country than that his type may continue and increase.

REDEMPTION OF TREASURY CERTIFICATES OF INDEBTEDNESS MATURING JUNE 15 1922

Secretary of the Treasury Mellon, on May 22 announced that he had authorized the Federal Reserve Banks, on and after Tuesday, May 23 1922 and until further notice, to redeem in cash before June 15 1922, at the holder's option at par and accrued interest to the date of such optional redemption, Treasury certificates of indebtedness of Series TJ-1922, dated June 15 1921, and Series TJ2-1922, dated December 15 1922, both maturing June 15 1922.

INTEREST ON 3¾% VICTORY NOTES TO CEASE JUNE 15—REDEMPTIONS TO DATE.

Secretary of the Treasury Mellon, on May 22, called attention to the fact that all 3¾% Victory Notes, pursuant to the notice given Feb. 9 1922, have been called for redemption on June 15 1922, and that interest on the 3¾% Victory Notes will therefore cease on that date. The Secretary's notice of this week also said:

> As announced on Feb. 9 1922, the Treasury is prepared to redeem any of the 3¾% Victory Notes before June 15 1922, at the option of the holder, at par and accrued interest to the date of optional redemption, according to the latest reports received from the Federal Reserve Banks 3¾% Victory Notes to an aggregate amount of over $100,000,000 have been presented for advance redemption under this general offer to redeem and there are now outstanding about $270,000,000 of the 3¾% notes.

DATE FOR PURCHASE OF VICTORY NOTES BY FEDERAL RESERVE BANKS FURTHER EXTENDED.

Secretary of the Treasury Mellon announced on May 15 that the authorization given to the Federal Reserve banks to purchase 4¾% Victory notes direct from holders at par and accrued interest up to an aggregate amount of $100,000,000 has been further extended from May 15 to June 15. It is stated that, owing to the fact that the transfer books of registered notes will be closed until June 15 on account of the interest payment then due, it will be necessary with respect to any registered notes presented under this authorization after May 15 for the holders to pay in each case to the United States an amount equal to the interest from the date of purchase to June 15. Checks for interest due June 15 will be issued in regular course in favor of the holders of record at the close of business May 15. Previous reference to the extension of time for the purchase of Victory Notes by Federal Reserve banks appeared in these columns Feb. 4, page 470; Feb. 18, page 684; March 18, page 1128, and May 6, page 1963.

THE NEW CAPITAL FLOTATIONS DURING APRIL AND SINCE JANUARY 1.

Continuing the practice begun in our issue of March 26 1921, and kept up regularly since then, of presenting monthly compilations showing the new capital flotations in the United States, we give to-day, in tables further below, the figures for the month of April. As previously explained, these compilations are intended to furnish a summary of corporate, municipal and foreign Government financing as represented by the new stock and bond issues brought out each month.

The aggregate of new issues floated during April was of prodigious dimensions and far surpassed the largest total previously recorded for any single month since we have been compiling the figures. The preceding month, March, had achieved the distinction of showing the largest total on record (up to that time) but the April aggregate runs ahead of that for March by nearly 100 million dollars. The absorption of new securities during April comprised no less than $655,817,946. In March the amount was $557,257,979, and in December 1921, the previous high record, $551,576,349.

The placing in the United States of some exceptionally large Canadian Government and municipal issues did much to swell the April aggregate. These included $100,000,000 Dominion of Canada 5% 20-30-year (optional) gold bonds sold to a syndicate headed by J. P. Morgan & Co. at 97½ and by the syndicate quickly resold to investors at par; also $15,000,000 Province of Ontario 5% gold bonds sold to a syndicate headed by the National City Co. at 97.409, a basis of about 5.18%, and $4,000,000 Greater Winnipeg Water District 5% bonds to Blair & Co. and others at a 5.23% basis. In offering the $100,000,000 Dominion of Canada loan to the public the syndicate stated that they were "advised that the proceeds of this issue are to be used for the purpose of refunding existing debt of the Dominion." This loan, therefore, did not involve the raising of any new capital, though it does not appear how much of the pre-existing obligations was previously held in the United States. Counting this loan as a refunding issue, it is found that no less than $176,206,336 out of the total of $655,817,946 of new securities put out in April was for refunding purposes, reducing the strictly new capital demands to $479,611,610. On the latter basis the amount involved does not run much larger than the similar new capital appeal in March, which was $473,854,060, and falls below that of last December when, out of the total of $551,576,349 of new loans brought out, $502,869,664 represented new capital demands.

The total of loans floated by U. S. municipalities and States during April while very large was not greatly above the average of other recent months. It was $137,273,946, against $117,146,317 in March, but comparing with $213,518,799 placed in December. It included $45,000,000 New York City 4¼% bonds awarded to a syndicate managed by Speyer & Co. at their bid of $102.766 for all or none—a basis of 4.119%. Last December's total of municipal loans included $55,000,000 of New York City bonds, but these were 4½ per cents and were placed by the city on a 4.331% basis.

Four foreign government loans, aggregating $53,700,000, were floated here during April. The largest issue was the $20,000,000 Dutch East Indies 40-Year External 6% Gold bonds, due 1962, which were offered at 96½, to yield about 6.48% to earliest redemption date, March 1 1932, and about 6.24% to maturity. This issue completes the $100,000,000 Dutch East Indies loan (authorized last December by the Parliament of the Kingdom of the Netherlands), all of which was sold in this market. The other foreign loans comprised the following: $14,000,000 Czechoslovak Republic 8s, 1931, offered at 96½, yielding 8.30%; $13,000,000 City of Rio de Janeiro (Brazil) 8s, 1947, offered at 103, yielding 7.90%, and $6,700,000 Dominican Republic Customs Administration 5½s, 1942, offered at 94½, to yield over 6.00%.

As in the past few months, the amount of financing done in April by railroads was very large, having amounted to $115,701,000, or over one-third of the total of new corporate issues. The principal offering of this nature was the $60,000,000 New York Central Railroad Co. Refunding and Improvement Mortgage 5% bonds, due 2013, which were sold at 94½, to yield about 5.30%. Other railroad issues of prominence included the following: $10,000,000 Paris-Lyons-Mediterranean RR. Co. 6% External Gold bonds, due 1958, offered at 83½, to yield about 7.30%; $9,500,400 Chicago, Milwaukee & St. Paul Ry. Co. Equipment Trust 6s, 1923-35, offered to yield 5.35% to 5.75%; $9,300,000 Southern Ry. Co. Equipment Trust 5½s, "W," 1922-37, offered to yield 5⅛% to 5.60%, and $7,635,000 Chesapeake & Ohio RR. Co. Equipment Trust 5½s, 1923-37, placed at par, to yield 5½%.

In addition to the Paris-Lyons-Mediterranean issue mentioned in the foregoing another foreign railroad issue brought out here during April was the $4,000,000 Paulista (Brazil) Ry. Co. First and Refunding Mortgage 7% bonds, due 1942, which were offered at 99, yielding about 7.10%.

The activity in public utility financing is well indicated by the fact that 23 long term issues, totaling $52,195,000, were offered during the month. Over half of this was for refunding purposes. This refinancing on the part of public utilities is being done at a lower cost, revealing clearly the generally improved conditions under which they now operate. The two most important utility issues comprised $7,000,000 United Light & Railways Co. First Lien and Consolidated Mortgage 6% bonds, 1952, placed at 93¾, to yield over 6.45%, and $6,000,000 United Railways & Electric Co. of Baltimore First Mortgage 6% bonds, 1949, offered at 97, to yield about 6¼%.

In the industrial group the financing by oil companies was the leading feature. Three large issues were sold, consisting of $40,000,000 Empire Gas & Fuel Co. First and Refunding Mortgage Convertible 7½s, 1935, offered at 98½, to yield about 7.65%; $30,000,000 Sinclair Crude Oil Purchasing Co. 3-Year 5½s, 1925, offered at 99½, yielding about 5.70%, and $10,000,000 Union Oil Co. of California 6s, 1942, offered at 101, yielding about 5.90%. An offering of 20,000,000 guilders Holland-America Line 6s, 1947, was made at $920 per 2,500 guilder bond, yielding about 6.30%.

Five small issues of Federal Farm Loan bonds, all of 5% coupon rate and amounting to $4,950,000, were sold during the month at prices to yield on the average about 4¾%.

For the four months to April 30 the grand total of all new issues in 1922 is no less than $2,009,584,361, which runs far in excess of the new flotations in any previous year, the amount for 1921 having been only $1,471,430,290; for 1920, $1,545,829,609, and for 1919, $1,031,236,416. The following is a complete four-year summary of the new financing—corporate, foreign government and municipal—for April and the four months ending with April:

SUMMARY OF CORPORATE, FOREIGN GOVERNMENT AND MUNICIPAL FINANCING.

1922	*New Capital.*	*Refunding.*	*Total.*
APRIL—	$	$	$
Corporate (Foreign)	21,360,000	----------	21,360,000
Corporate (Domestic)	250,616,300	65,667,700	316,284,000

CURRENT NOTICES.

—On June 1 Norrie Sellar, a member of the New York Cotton Exchange and for many years connected with Post & Flagg, will become associated with E. F. Hutton & Co., 61 Broadway, New York.

—Hayden, Stone & Co. have issued a circular describing the history, earnings and business of United States Hoffman Machinery Corporation

—Borregaard, Prochnow & Co. announce the opening of offices in the First National Bank Building, Chicago. The firm will handle a general list of investment securities.

—Harrold, Lang & Eakin, 44 Broad St., New York, announce that George S. Goodrich is now associated with their bond department.

—John B. Rowles and John W. Morris have become associated with the bond department of Parsly Brothers & Co., Philadelphia

Current Events and Discussions

WEEKLY RETURN OF FEDERAL RESERVE BANKS.

Aggregate increases of $18,500,000 in discounted bills, of $8,300,000 in purchased paper and of $1,200,000 in Government securities are shown in the Federal Reserve Board's weekly bank statement issued as at close of business on May 24 1922, and which deals with the results for the twelve Federal Reserve Banks combined. Substantial increases in bill holdings are reported by the New York, Cleveland and Boston banks, Cleveland reporting also an increase of $6,500,000 in Treasury certificates. Gold holdings of the reserve banks show a further gain of $2,500,000 and total cash reserves increased by $4,100,000. Deposit liabilities show an increase for the week of $31,100,000, while Federal Reserve note circulation shows a further decline of $18,400,000, the May 24 total of $2,128,200,000 marking a new low record for the year. The reserve ratio, in consequence of the changes noted, shows a slight decline from 77.6 to 77.5%. After noting these facts the Federal Reserve Board proceeds as follows:

Shifting of gold reserves through the gold settlement fund was but moderate in volume, affecting chiefly the reserves of the Richmond, Boston, Chicago and Cleveland banks; the first three banks showed increases of $7,000,000, $5,600,000 and $4,000,000, respectively, while the Cleveland bank reported a decrease of $6,300,000 under this head.

Holdings of Government paper increased from $169,700,000 to $181,100,000. Of the total held, $141,300,000, or 78.0%, were secured by Liberty and other United States bonds, $7,800,000, or 4.3%, by Victory notes, $18,900,000, or 10.4%, by Treasury notes, and $13,100,000, or 7.3%, by Treasury certificates, compared with $138,600,000, $8,100,000, $12,300,000 and $10,600,000 reported the week before.

The statement in full in comparison with preceding weeks and with the corresponding date last year, will be found on subsequent pages, namely, pages 2336 and 2337.

A summary of changes in the principal asset and liability items of the Reserve banks, as compared with a week and a year ago, follows:

	Increase (+) or Decrease (—). Since *May* 17 1922.	*May* 25 1921.
Total reserves	+$4,100,000	+$577,000,000
Gold reserves	+2,500,000	+614,700,000
Total earning assets	+28,000,000	—1,074,300,000
Discounted bills, total	+18,500,000	—1,383,000,000
Secured by U. S. Govern't obligations	+11,300,000	—612,900,000
All other	+7,200,000	—770,100,000
Purchased bills	+8,300,000	+18,200,000
United States securities, total	+1,200,000	+290,500,000
Bonds and notes	—100,000	+215,400,000
Pittman certificates	—1,500,000	—154,900,000
Other Treasury certificates	+2,900,000	+230,000,000
Total deposits	+31,100,000	+211,200,000
Members' reserve deposits	+11,900,000	+167,100,000
Government deposits	+21,100,000	+43,100,000
Other deposits	—1,900,000	+1,000,000
Federal Reserve notes in circulation	—18,400,000	—606,600,000
Federal Reserve Bank notes in circulation	—800,000	—73,100,000

WEEKLY RETURN OF THE MEMBER BANKS OF THE FEDERAL RESERVE SYSTEM.

Further additions of $30,000,000 to the holdings of stocks and bonds and of about $100,000,000 to loans against such securities, as against a reduction of $60,000,000 in loans secured by Government obligations and ordinary commercial loans, are shown in the Federal Reserve Board's weekly statement of condition on May 17 *of* 799 *member banks in leading cities*. It should be noted that the figures of these member banks are always a week behind those for the Reserve Banks themselves. For member banks in New York City the statement shows increases of $22,000,000 in the holdings of corporate securities and of $84,000,000 in loans based upon such securities, as against a reduction of $49,000,000 in other, including commercial, loans. Only nominal changes are shown in the amounts of United States securities held. Total loans and investments of the reporting institutions are given $72,000,000 larger than the week before, the New York City banks alone accounting for $59,000,000 of the increase.

Government deposits show a decline of $35,000,000 and time deposits, a decline of $30,000,000, while demand deposits (net) increased by $139,000,000, of which $87,000,000 represents the increase in New York City. Total borrowings from Federal Reserve banks show a nominal increase from $150,000,000 to $151,000,000, the ratio of these borrowings to combined loans and investments of the reporting banks continuing unchanged at about 1%. Member banks in New York City have reduced their borrowings to about $8,000,000, or to about 0.2% of their total loans and investments. Reserve balances with the Federal Reserve banks show an increase of $4,000,000, while cash in vault declined by $10,000,000 (about $3,000,000 in New York City). On a subsequent page—that is, on page 2337—we give the figures in full contained in this latest weekly return of the *member* banks of the Reserve System. In the following is furnished a summary of the changes in the principal items, as compared with a week and a year ago:

	Increase (+) or Decrease (—) Since *May* 10 1922.	*May* 18 1921.
Loans and discounts—total	+$40,000,000	—$1,181,000,000
Secured by U. S. Government obligations	—3,000,000	—386,000,000
Secured by stocks and bonds	+100,000,000	+394,000,000
All other	—57,000,000	—1,189,000,000
Investments, total	+32,000,000	+667,000,000
United States bonds	—1,000,000	+286,000,000
Victory notes	----------	—94,000,000
United States Treasury notes	+7,000,000	+413,000,000
Treasury certificates	—4,000,000	—104,000,000
Other stocks and bonds	+30,000,000	+166,000,000
Reserve balances with F. R. banks	+4,000,000	+139,000,000
Cash in vault	—10,000,000	—55,000,000
Government deposits	—35,000,000	—103,000,000
Net demand deposits	+139,000,000	+813,000,000
Time deposits	—30,000,000	+168,000,000
Total accommodation at F. R. banks	+1,000,000	—1,163,000,000

BANKERS COMMISSION UNDER AUSPICES OF ALLIED REPARATIONS COMMISSION CONSIDERS GERMAN LOAN PLANS—J. P. MORGAN PARTICIPATING.

In Paris on Wednesday (May 24) the Commission of international bankers, of which J. P. Morgan is a member, began its consideration (at the instance of the Allied Reparations Commission) of conditions under which the German Government could raise foreign loans to assist in the solution of the reparations question. Following the acceptance of the invitations of the Reparations Commission to serve on the financial commission, Mr. Morgan, as we noted May 20, page 2182, sailed for Europe on the 13th inst. In announcing that four tentative solutions of the international loan problem for the settlement of the economic situation in Europe, with particular reference to Germany, were presented at Wednesday's meeting of the Bankers' Committee, the Associated Press advices from Paris on the 24th inst. also stated:

The spirit of the meeting was described by some of those who took part as indicating that something can be done. It was even said that probably an announcement of a definite nature could be made in a relatively short time.

The solutions were submitted respectively by J. P. Morgan, who offered what he termed "the American plan"; Sir Robert Kindersley, one of the Governors of the Bank of England; Charles Sergent, former French Under Secretary of Finance and President of the Banque de l'Union Parisienne, and Dr. G. Vissering, President of the Netherlands Bank. No hint was given as to what these plans are, but the committee conveyed an idea of optimism and definiteness when they called them "solutions."

They were advanced in response to a request by M. Delacroix, former Belgian Premier, who acted as Chairman, for statements as to what the bankers believed could be done.

The committee also decided to spend the next week in an exhaustive study of Germany's condition, which strengthens the belief that the bankers, in beginning their work, see a chance to accomplish something tangible. When the committee had these four suggested remedies before it, Herr Bergmann, the German expert, was called upon, and he outlined the negotiations which are still proceeding between the German delegation and the Reparations Commission, and explained the state of the German budget and the changes to be made in it.

The two sessions of the committee to-day were held in the Hotel Astoria, the home of the Reparations Commission. Seven financiers of commanding personalities in the neutral, Allied and German money markets sat down together there in one of the drawing rooms and began their conversations on the possibility of straightening out the confused economic conditions in Europe by a widely distributed loan to enable the Allies to receive reparations and the Germans to pay them. Some effort was made among the members of the entourage of the committee to estimate the stupendous resources represented by that body, and their efforts ended close to trillion figures, measured in francs.

"We have come together," said M. Delacroix, who is head of the Belgian State Bank, "as bankers and not as statesmen."

In addition to those already mentioned, Signor D'Amelio, representing Italy, was present, while the eighth member, M. Sekiba, of Japan, has not yet arrived.

One of the first suggestions was that the proceedings should be altogether secret, until something definite could properly be announced.

The view as brought out in the discussion was that first impressions are not likely to be final; that great transactions, according to the experience of those taking part in such meetings, are usually the result of a compromise and that an opinion reached to-day might be greatly modified later, and also that it would be embarrassing to the work of the committee if the individual members gave their reportorial friends piecemeal accounts which would form the basis of public discussion and which in fact would be misleading. It was also desired to avoid as far as possible having the work of the committee affect the stock markets.

The committee decided to meet twice a day and not to suspend its sessions to-morrow, which is a legal holiday in France.

Extraordinary public interest was shown in Mr. Morgan. It was observed to-day by the crowd of journalists waiting at the hotel entrance that while the other members of the committee came and departed in handsome automobiles, the American representative used a taxicab, driven by one of the veterans of the Marne, that looked as though it might fall to pieces.

Informal discussions among the financiers preliminary to the meeting indicated that a loan to Germany must be of considerable magnitude to bring about a real settlement and assure that a fresh crisis will not spring up within a few months. The figures mentioned ranged from $500,000,000 to $2,000,000,000, the latter, apparently, meeting with the most favor. Such a huge loan, however, would be contingent, it is understood, upon a decisive revision downward in the cash reparation payments demanded from Germany.

Mr. Morgan was given the seat of honor at the right of Chairman Delacroix, when the meeting of the committee opened. George Whitney, of Paris was the only other American present besides Mr. Morgan when the deliberations were begun with M. Delacroix's request that Gustave Bergmann, the German representative, outline the view of his Government as to what could be accomplished should a loan be granted.

The meeting was held in the board room of the Reparations Commission in the Hotel Astoria, which is still requisitioned by the French Government for the use of the Allied Powers.

James A. Salter of the British delegation to the Reparations Commission was appointed Secretary of the conference.

Regarding Thursday's session (May 25) we quote the following from the Associated Press cablegrams:

The international bankers in conference here are approaching the question of a loan to Germany by informing themselves of that country's economic arrangements and resources.

Herr Bergmann, the German representative, this morning continued his exposition, begun yesterday, of the present situation, submitting numerous documents to supplement his oral presentation. He analyzed the new budget and the considerations upon which it was constructed, with extreme fullness.

The bankers also have had laid before them masses of information respecting Germany's finances gathered by the Reparations Commission.

At the afternoon meeting Herr Bergmann concluded his exposition of the present financial situation in Germany. The nature of this was kept absolutely secret, every one present at the meeting refusing to have any thing to say as to what took place. Even such a non-committal communique as that issued last night was omitted to-day.

One of the first points to be settled is the amount of the loan to Germany, which is considered a prime essential to any real settlement. This, according to the "Journal," falls within the special province of Mr. Morgan. Sir Robert Kindersley, British delegate, and Dr. Vissering, representing Holland.

These three will also have to resolve to what extent Germany will participate in the issue, for it is felt that, inasmuch as Germany is to get part of the loan to help in her economic restoration, she should be required to invest therein some of the foreign currency, estimated at 6,000,000,000 gold marks, which she possesses abroad.

The second day of the conference found the situation less reassuring than the first, for, according to Berlin advices, the German Government is not unlikely to reject Finance Minister Hermes's proposals for balancing the budget, which the Reparations Commission found acceptable.

Such a step would considerably add to the already monumental task before the bankers—that of straightening out the European financial tangle, in which the German situation forms one of the most stubborn knots.

While the bankers are deliberating in Paris, the Allied Governments have received a plan for an international loan applicable to reparations, the author of which, according to the newspaper "L'Oeuvre," is Frank A. Vanderlip, American financier. The scheme is understood to have had a favorable reception and will probably be submitted to the bankers' committee.

GERMAN REICHSRAT ADOPTS COMPULSORY LOAN BILL.

The Reichsrat, or Imperial Council, adopted on May 24, with amendments, the Compulsory Loan Bill which on April 4 passed the Reichstag. The Associated Press in a Berlin cablegram dated May 24 says:

The Government draft of the bill provided for no interest on the loan up to October, 1925, after which 2% interest would be paid to October, 1930, and thereafter 4%. The Council amendment provides for 4% interest payable from November 1 1925.

The Government draft provided that individuals should subscribe 2% of the first 250,000 marks subject to levy under the terms of the bill. This was amended by the Reichsrat to 1% of the first 100,000 marks and 2% for the next 150,000 marks.

While the Government, in its draft, made no distinction between the treatment of individuals and corporatons, the Council's amendments were more favorable to individuals. The minimum amount of capital exempt from subscribing to the loan is 100,000 marks, but the exemption limit, under certain circumstances may be raised to 300,000 marks.

Reference to the passage of the Bill by the Reichstag appeared in our issue of April 8, page, 1473.

BULLION ON SUNKEN PENINSULAR AND ORIENT LINER.

According to a special cablegram from London May 23 to the New York "Evening Post," the Peninsular and Orient steamer which was sunk on Saturday last (May 20) was taking £800,000 of gold and £200,000 of silver to India.

PALESTINE GOVERNMENT AUTHORIZES £80,000 LOAN FOR TEL-AVIV.

Advices credited to the Jewish Telegraphic Agency, from Jerusalem, May 20, appeared in the New York "Times" as follows May 21:

The first Jewish municipal bond issue in history, amounting to £80,000, has been authorized by the Palestine Government for the township of Tel-Aviv, the self-contained Jewish municipality near Jaffa. The obligations are secured by taxation, the bonds being issued at 6%, repayable in twenty years.

Bernard A. Rosenblatt of New York, American member of the Zionist Executive to Palestine, will leave for New York on June 2 to arrange for the underwriting of the loan.

PRESIDENT OF SUSPENDED CUBAN BANK OF H. UPMANN & CO. RELEASED ON LARGE BAIL.

Herman Upmann, the former President of the failed Havana banking house of H. Upmann & Co. (to whose affairs reference was made in our issues of May 6 and May 20, pages 1957 and 2185, respectively) was late on May 19 held for trial on an indictment alleging the misappropriation of securities placed in his possession by clients of the bank and subsequently released under bonds of $100,000 to guarantee criminal, and $1,000,000 to guarantee civil responsibilities, according to a press dispatch from Havana of that date. His brother, Alberto Upmann, whose arrest occurred at the same time, was released and the charge against him dismissed.

The indictment of Mr. Upmann, it is said, followed a three-day investigation by Judge Sola of the First Instructional Court into data contained in a report to the Federal Bank Liquidation Commission by the agents appointed to represent the Commission on the failed bank's liquidation board. This report, it is said, followed the general lines of the incomplete report of the accountants employed by the Havana Clearing House and upon which that organization based its refusal to advance a loan of $3,000,000 asked by Mr. Upmann. Numerous clients of the bank testified, it is said, at the hearings before Judge Sola that Mr. Upmann had not been authorized to dispose of securities which they had deposited with him. Among these, it is said, was Manuel Flores y Pedroso, who testified that he had not authorized the hypothecation of $300,000 worth of securities or the transfer to the National City Bank by H. Upmann of a note for $225,000. It is further stated that other clients, some of tnem listed as having deposited securities totaling more than $1,000,000, did not appear at the hearings.

Relative to the expenditure of $1,028,517 in Washington in efforts to have his name excluded from the blacklist, Mr. Upmann is reported in the dispatch as saying, "neither in Washington nor New York did I have to spend a single penny to secure the favor of anybody in making better the official situation of our sequestered fortune." According to Mr. Upmann, it is said, the Clearing House accountants, in making their report, "failed to include his explanation of the purposes to which the money was devoted. These he explained in approximate figures as follows:

"To attorneys in the United States, $210,000; to attorneys in New York, by order of the Alien Property Custodian, $15,000; expenses of Northern office, $5,000; personal expenses, $10,000.

"The remainder of the total amount," he continued, "was absorbed by personal and family expenses and by the banking house which, although closed for thirty consecutive months because of the war, was the cause of heavy expenses by reason of maintenance costs, salaries of personnel and other items."

OFFERING OF ARGENTINE REPUBLIC 5% GOLD LOAN OF 1917.

A. Iselin & Co. of this city announced on May 24 an offering at $736 per 1,000 gold pesos bond of Argentine Republic 5% Internal Gold Loan, dated 1917. The bonds are due not later than 1953 and are redeemable by means of a sinking fund operating annually by purchase in the market at or below par or by drawings by par. They are coupon bonds of denomination of 1,000 gold pesos, exempt from all Argentine taxes. Interest is payable quarterly February, May, August and November 1st. The firm also states:

These bonds are the direct obligation of the Argentine Republic. Because of its vast economic wealth Argentina ranks among the leaders of all South American countries. The high credit rating of the country is illustrated by the fact that the average interest on the funded or consolidated debt as of Sept. 1921 was 4.23%; the average rate on the non-consolidated debt was approximately 5.33%.

Pending receipt of definitive bonds, interim receipts will be delivered, exchangeable for definitive certificates as and when received by us.

At the present price and existing rate of exchange the annual interest return amounts to about 5.60%. If the peso should return to par the annual interest return would amount to over 6½% and the increment on principal to about $123 per bond, or about 17% on the original investment. This does not take into consideration any improvement in the price of the bonds in the Buenos Aires market where they are selling at about 89%.

FALL IN VALUE OF AUSTRIAN KRONE—RESCINDING OF DECREE AFFECTING SPECULATION.

Stating that the Austrian krone made a new low record on May 15, when it fell to 10,000 to the dollar, Associated Press advices from Vienna on May 16 added:

At this level manufacturers and merchants bought freely, which augurs further depreciation in the currency.

The drop is ascribed to the action of the Government in agreeing to pay all the civil servants a bonus of triple their salary and adding other allowances, the whole entailing the expenditure of many billions of kronen and threatening further to increase the cost of living.

We also quote the following special advices to the "Journal of Commerce" from Vienna April 29, published in its issue of May 22:

After a rather short breathing spell the Austrian crown is again on the downward path. When the credits of English and Czechoslovakian groups were announced foreign exchange went lower and it was particularly the "Devise Berlin" which had a setback. When, however, the promised money advances from France and Italy did not materialize, the crown began to lose ground, and in a few days the movement was accelerated by large offerings. The changes in the international position of the Austrian unit during the last eight months is illustrated by the following table:

Exchange on—	*Sept.* 1.	*Feb.* 10.	*March* 3.	*April* 28.
Berlin	12.90	36.35	27.87	28.35
New York	1103	7100	6650	7988
London	4115	31150	29500	35500
Paris	86.50	608	606	733
Prague	13.26	134.75	112	154
Warsaw	0.38	2.18	1.63	1.96

The enormous rise in the Czechoslovakian exchange is due to the fact that the Prague Government has determined to stabilize it in such a manner that the crown always should be worth about 10 centimes at Zurich.

The Austrian Government has not been able to enforce some of its decrees respecting speculation at the stock exchanges and they have been rescinded. In consequence, trading is very active at advancing quotations Foreigners are again buying large lots of Austrian industrials; for instance, the Nickel Mound Co. of England has lately obtained a considerable interest in Krupp Metallwerke and Alpine Montan.

OFFERING OF CHILIAN CEDULAS.

Faulks & Murfitt of this city, last week announced an offering of Chilian Cedulas 8% Mortgage Bank Sinking fund bonds issued by the Caja de Credito Hipotecario (Mortgage Bank of the Republic of Chile), established in 1855. The bonds are in coupon form, in 1,000 and 5,000 pesos denominations and are of the series initiated in 1913. Interest is payable June 30 and December 31, and principal and interest are payable at the main office of the Mortgage Bank in Santiago, Chile. It is announced that the redemption of the bonds is effected by the operation of a cumulative sinking fund of 1% per annum. It is also stated:

The sinking fund operates by semi-annual drawings at par. The Bank has the right to increase the number of bonds drawn annually for redemp- It is calculated that this sinking fund is sufficient to retire the entire issue of this series within 30 years from date of issue.

The circular also contains the following as to special features of the issue:

1. An obligation of the Martgage Bank of Chile, a public institution created and owned by the Govenment, and specifically secured by mortgages not exceeding 50% of the property pledged.

2. To our knowledge there has never been any default on Chilian Government Jonds or Cedulas since the first Chilian bonds were issued in 1822, a hundred years ago.

3. These Cedulas are considered one of the safest forms of investment in Chile, where the national savings banks are required to invest their funds in them.

4. Present direct income over 7%, increasing to over 15% as exchange approaches normal.

5. In addition to the direct income of 7% to 15%, there should be a profit in principal over 90% as Chilian Exchange approaches the normal of 25c. per peso.

OFFERING OF BONDS OF MISSISSIPPI AND ARKANSAS JOINT STOCK LAND BANKS.

Brooke, Stokes & Co., of Philadelphia, Washington and Baltimore, offered this week $600,000 5% farm loan bonds of the Mississippi Joint Stock Land Bank and the Arkansas Joint Stock Land Bank. The bonds, which were offered at 102 and interest, yielding 4.75% to the callable date and 5% thereafter, are dated May 1 1922, are due May 1 1952 and are callable at par on May 1 1932 or any interest date thereafter. They are issued in denominations of $1,000 and interest is payable May and November 1 at the Equitable Trust Company, New York City. The bonds are exempt from Federal, State, municipal and local taxation.

The firm in its announcement states:

The bonds are secured by first mortgages on improved farm lands at not exceeding 50% of the appraised value of the farm land and 20% of the appraised permanent insured improvements thereon. The loans are all made on farms in Mississippi, Tennessee and Arkansas.

The policy of the above banks in placing loans is very conservative. For the Mississippi Joint Stock Land Bank the percentage of loans to total appraised value of lands and improvements only only 34.5%, while for the Arkansas Joint Stock Land Bank it is 35.2%.

The per cent earned per annum on the average capital stock of these banks since date of organization has been greater than the average earnings of all th joint stock land banks. The present net earnings on the capital stock of the Mississippi bank are 9.60%. The present earnings of the Arkansas bank are 9.30%. They have never paid any dividends, preferring to leave their earnings in the undivided profit account, thereby strengthening the banks.

These banks have no mortgages in process of foreclosure, nor have they ever been forced to foreclose on one of their loans.

The stock of the above banks is owned by the Bank of Commerce & Trust Company of Memphis, Tenn., which is one of the largest financial institutions in the South and is the second largest bank in Memphis. The majority of the directors of these banks are also directors in the Bank of Commerce & Trust Company. This insures wise and experienced management of the banks. In addition the financial ability of the stockholders of the banks (i. e., Bank of Commerce & Trust Company) to pay any necessary assessment is assured.

Earlier references to bond offerings of the Mississippi and Arkansas Joint Stock Land Banks appeared in our issues of Dec. 3 1921, page 2358; Jan. 28 1922, page 360, and April 1 1922, page 1356.

OFFERING OF $500,000 VIRGINIA-CAROLINA JOINT STOCK LAND BANK BONDS.

F. W. McKinney, Secretary of the Virginia- Carolina Joint Stock Land Bank (Norfolk, Va.), announces that bids will be received until 12 o'clock noon to-day (May 27) for $500,000 (of a total issue of $600,000) 5% 10-20-year bonds. The bonds will be dated May 1 1922 and will be issued in denominations of $1,000. Interest is payable at the bank semi-annually. Interim certificates will be ready June 1. Bonds from Treasury Department are expected on or before July 1. The bank operates in Virginia and North Carolina.

ADVANCES APPROVED BY WAR FINANCE CORPORATION.

The War Finance Corporation announced on May 22 that from May 18 to May 20 1922, inclusive, it approved 23 advances, aggregating $985,000, for agricultural and livestock purposes, as follows:

$79,000 in Arizona	$95,000 in Minnesota
250,000 in California	22,000 in North Dakota
71,000 in Colorado	20,000 in Ohio
15,000 in Georgia	20,000 in South Dakota
10,000 in Idaho	68,000 in Tennessee
100,000 in Indiana	200,000 in Texas
35,000 in Iowa	

During the week ending May 20 1922 the War Finance Corporation approved a total of 78 advances, aggregating $3,283,000, for agricultural and livestock purposes.

REPAYMENTS OF AGRICULTURAL ADVANCES MADE BY WAR FINANCE CORPORATION.

In a statement issued under date of May 23, Eugene Meyer Jr., Managing Director of the War Finance Corporation, stated that the progress of the orderly marketing of agricultural products is evidenced by increasing repayments of advances made by the War Finance Corporation. He added:

On a single day, Saturday, May 20, the repayments aggregated $1,129,000. Of this amount, $851,338 was repaid by 116 banks situated in different parts of the United States. Repayments, by States, were as follows:

North Dakota	$52,602	Montana	$910
South Dakota	29,929	Texas	40,439
North Carolina	122,717	Illinois	1,746
Virginia	75,000	Nebraska	1,300
South Carolina	135,000	Minnesota	137,895
Idaho	4,750	Oregon	3,000
Oklahoma	7,192	Colorado	12,600
Wisconsin	27,704	Utah	112,384
Iowa	86,169		

Co-operative marketing associations repaid a total of $145,843, distributed by States, as follows:

Washington	$54,892	California	$2,388
Idaho	12,085	Mississippi	35,190
Arizona	41,288		

Repayments from live stock loan companies aggregated $131,979, including $27,115 from Wyoming, $94,062 from Texas, $6,212 from Idaho, and small amounts from New Mexico and Colorado.

For the past two months the repayments to the War Finance Corporation have been slightly in excess of the amounts disbursed on new applications.

REPAYMENT OF RAILROAD LOANS BY WAR FINANCE CORPORATION UNPAID MAY 17.

Of the loans made in behalf of the railroads by the War Finance Corporation in 1918-19, totaling $204,794,520, but $20,480,000 remained unpaid on May 17 1922, according to the following statement prepared for us at the office of Eugene Meyer, Managing Director of the Corporation:

Railroad Loans Made by War Finance Corporation Unpaid May 17 1922.
Collateral 6% *Demand Loans Dated* 1918-19.

	Original Amount.	*Unpaid.*
Chicago Rock Island & Pacific (collateral, $19,798,000 1st & Ref. 4s)	$10,430,000	$10,430,000
Erie RR. Co. (collateral, 1st Cons. Mtge. General Lien 4%, $19,217,000; Gen. Mtge. Conv. bonds Series D, $8,372,000; Gen. Mtge. Conv. bonds Series B, $440,000)	12,768,420	10,000,000
Ann Arbor RR. Co. (collateral, Impt. & Exten. Mtge. 30-year 5% gold bond, $100,000)	150,000	50,000
Total	$23,348,420	$20,480,000
Total of all loans made to, or on account of, carriers in 1918-19 by War Finance Corp	204,794,520	20,480,000

The following railroad loans have been paid in full since Aug. 1 1921:

New York Central RR	$20,500,000
Chicago Indianapolis & Louisville RR. Co	1,400,000
Southern Railway Co	7,355,270
Total	$29,255,270

Note.—The Corporation is informed that its loan to the Chicago Rock Island & Pacific Ry. will be repaid shortly.

F. H. GEHLE WOULD PLACE U. S. GOLD SUPPLY AT EUROPE'S DISPOSAL—DOUBTS FEASIBILITY OF PAYMENT OF EUROPE'S DEBTS.

The declaration that the United States should take steps to place part of its huge gold supply at the disposal of the chief European countries in order that they may return to a gold basis was made by Frederick W. Gehle, of the Mechanics &Metals National Bank of New York in addressing the convention of the Reserve City Bankers' Association at Kansas City, Mo., on May 22. Mr. Gehle said:

It is agreed by everyone who has given the matter any thought that so long as we keep our vast hoard of gold, the restoration of the gold standard abroad will not be likely. Forcing gold out of this country at this time would be like forcing water to run up-hill. However, in the interest of all it ought to be done and by the right kind of an international conference a way may be found. But let us get this clearly in our minds; it is only by the closest possible economic co-operation among the nations, without the shackling considerations of politics, that a way will be found.

Primarily, then, there must be a restoration of stability abroad. Political and social order, sound financial programs, reductions in currency supply and rigid economy are all a part of the formula, but all must be compounded into that one peace-giving quality—stability. Stability of mind must come first. Stability breeds confidence and confidence is the basis of credit. And the central problem that we keep coming to from every angle, and that every international conference will keep coming to, is that of credit. Commerce, in our modern system of economy, is principally carried on, not by payments, but by promises to pay. The whole fabric of trade, national and international, is knit together by the obligations given by debtors to creditors, and by the belief of the creditors in the goodness of those obligations. The war and the subsequent conditions of peace strained the world's credit system to the utmost, yet commerce still counts for its existence upon credit, and stakes its future upon the continuing acceptance of the principle that men will honor their notes at maturity. Success in the future, we may take it, then, will be tested by the readiness on the part of those who have what others need, to go on accepting notes and bonds payable in the future, in the assurance that those notes and bonds will be paid at maturity.

Mr. Gehle also referred to Europe's indebtedness to the United States, and in his comments thereon he ventured to ask whether "there is any conceivable way in which, without damage to ourselves and ruin to our debtors, they can be paid." In his remarks on this subject Mr. Gehle said:

There are in the United States two separate and distinct points of view regarding Europe's war indebtedness to us. A substantial number of American people urge that we cancel the debt outright, wiping it off as though it had never existed. Another substantial number flatly oppose cancellation. For lack of time I shall not go into the arguments which support the two opposing views. But the proposition is one that must be faced, in view of its bearing on our future trade if for nothing else, we owe it to ourselves that the most serious attention be given to its study right now by our best banking and business minds. Sentiment and politics aside, it is in the interest of all that a definite program be considered by which the Allied debts to us will cease to be a block in the way of recovery. For of this we can be sure, until a definite program is settled upon, the problem will be a continuing source of embarrassment, uncertainty and vexation. In another year, with interest added to principal, the nations abroad will owe to the United States Government approximately twelve billion dollars. On that sum the yearly interest requirement will be not less than five hundred million dollars. If there is a sinking fund to cancel the debt within a period of 25 years an additional four hundred million dollars will be required. Ought we to expect that these sums, in full, shall be paid? Indeed, is there any conceivable way in which, without damage to ourselves and ruin to our debtors, they can be paid?

Certainly upon the solution of the problem of existing debts rests the determination of the further credits which, we are told, must now be advanced. From a practical standpoint, the assistance required by Europe must, of course, be large enough in amount to meet the need for which it is intended, and it must be made in the assurance that the financial condition of the borrower is sufficiently straightened out to permit borrowing. The satisfaction or disposal of old debts will govern the policies of new debts. This principle must be determined first. Then it must be determined whether the aid to be rendered by one country to another shall be national or private. We have lately heard it proposed by well-meaning economists that the American Government should begin the work of financial reconstruction by the advance of a billion dollar gold loan to the countries of Europe. Is this feasible—indeed, is any large-scale loan, Government to Government, feasible? We find our answer, I think, in another question—what Government would propose to its tax-burdened people further taxation to supply money to be spent in satisfying other Governments' wishes? As I read the signs, the United States just now would hardly gain the consent of its taxpayers to any proposal that it repeat its war experience, in which advances were made abroad on an immense amount of doubtful paper, eventually funded into Liberty bonds.

If we have any confidence at all in the future of Europe's civilization, we will extend the credits which are being sought. Europe can provide ample security and if we extend long-time loans and then for a while reinvest abroad the interest accruing on these loans in order that remittances here will not interfere with the progress toward stabilization of the exchanges, we will not, in my humble opinion, regret what we have done. And what of the means? My faith in the principles on which last year's campaign to float the $100,000,000 Foreign Trade Financing Corporation was based remains unshaken, and though the efforts to organize that corporation were not crowned with immediate success, it is my belief that the principle underlying that campaign—the sale of debentures to the American public against diversified foreign securities—is the only sound one to meet the emergency. Unless the Federal Reserve System itself is authorized to sell debentures against foreign issues, I believe a workable plan will eventually emerge by which the investment funds of the American people can be utilized, at substantial profit, in the interest of American trade.

Of this much, however, I am sure; the American investor's part in foreign financing will be something more than a private matter. Our private investors have already indicated, in view of the changes and shifts to which conditions abroad are subject, that they will not contribute to recovery through the purchase of foreign issues under the ordinary methods of banking protection. In the last analysis, then, international loans will call for Government scrutiny or endorsement. The furnishing of American funds is not essentially a political matter, but henceforward it will undoubtedly call for oversight and support on the part of the Governments of the people securing the loans, and in cases, from our own State Department and Department of Commerce as well. Loans must be on a basis in which there is a clear-cut recognition of what we are doing, and a definite acknowledgment on the part of the beneficiaries that they will adjust their industrial, commercial and financial systems to permit our investors to receive adequate protection. Any other kind of loans, even though called for by considerations of general politics, will not be the kind that our private investors will, or should, show the slighteet interest in.

It is only by repeated conferences, Mr. Gehle told the bankers, that Europe will reduce its armaments, balance budgets, make an end of inflation and establish a gold basis for its currency. Conferences competently conducted, he added, will be able to formulate the routes which should be taken, and by bringing antagonistic interests in agreement, lead to concerted action on a greater scale than ever attempted before.

ALLIED REPARATIONS COMMISSION SEES NO VIOLATION OF VERSAILLES TREATY IN RAPALLO TREATY.

The failure of the Allied Reparations Commission to find any immediate violation of the Treaty of Versailles in the provisions of the treaty between Germany and Russia signed at Rapallo on April 16 was, it is stated, indicated in a note communicated to the German Government by the Commission on May 4. The latter, however, it was announced, reserved to itself the right to examine closely the application of the Rapallo treaty and take any action necessary to protect the Allied lien on all German resources. The Associated Press in Paris cablegrams May 4 in announcing this, also said:

The decision was sent to all the Allied Governments, and a copy was telegraphed to the British Prime Minister at Genoa.

The French Foreign Office refused to-night to comment on the decision, but in unofficial circles there is considerable disappointment. The hope had been repeatedly expressed by the governmental press and elsewhere that the Commission would find the Russo-German treaty a direct violation of the Versailles Treaty and demand full renunciation of the treaty by Germany.

The Commission has had the treaty under consideration since April 27. The committee of experts reported that it was unable to find any violation, whereupon the Commission drew up the note after first approving thel finding of the experts.

The Commission asks Germany to confirm in unmistakable language the assumption of the Commission that Germany has no intention of renouncing rights, which have been, or should be, transferred by Germany to the Commission under Article 260 of the Versailles Treaty.

Explicit assurances from Germany are also requested that the Rapallo Treaty contemplates no new charges against the German budget in connection with compensation for its nationals or for the reconstruction of Russia. Germany is further asked to make clear that the German property in Russia given up by the provisions of the Rapallo Treaty is privately owned, and not State property.

The note concludes with the following qualification of the Commission's decision:

"It must be understood that the Commission has confined its observations to practical questions which fall within its own immediate province. It is not within the function of the Commission to deal either with specific questions affecting the provisions of the Treaty of Versailles, which are outside its competence, or with any general questions arising either out of the actual terms of the Treaty of Rapallo, or out of the circumstances in which it was concluded."

The Rapallo treaty was referred to in these columns April 22, page 1719, and April 29, pages 1847 to 1850, inclusive.

"CHILD OF CANNES" THRIVING, SAYS BARTHOU, AND CAN STAND JOURNEY TO THE HAGUE.

The following (copyright) cablegram from Genoa, May 19, appeared in the New York "Times" of the 20th inst.:

M. Barthou stopped packing long enough this afternoon to tell th correspondents what he thought of the situation.

"Lloyd George was the father of the Conference," he said, "and the inviting Powers the godfathers. The child was born at Cannes and taken to Genoa. Some said it was stillborn, others that it was worth looking after. This child in forty days has not died and now it is to be taken to The Hague. The only trouble is it has too many relations. Large families are always troublesome.

"Some relations love the child, others hate it because they hate some other relations. But the child is thriving and the day may come when we will be proud to say we were its parents. We think the child will stand its journey to The Hague, but when it gets there we must be careful of its diet."

M. Barthou said he was glad there had been no break between the Allies.

"Some time ago," he said, "Lloyd George said to me that England and France were the pillars of the temple of peace. I replied we must ne carefu not to let Delilah in. Delilah got in, but the temple still stands."

JAPAN REGRETS UNITED STATES'S REFUSAL TO PARTICIPATE IN THE HAGUE CONFERENCE.

According to the Associated Press (Genoa, May 16), Japan's regret at the refusal of the United States to accept an invitation to participate in The Hague Conference was expressed in the following statemeade by Viscount mnt Ishii:

The Japanese delegation has received with a feeling of keen regret the news of the United States's refusal to participate in the mixed commission of The Hague. The Japanese delegates came to Genoa moved by a sincere desire to contribute to the full measure of their powers the work of

repairing the damage caused by the war and to assure the maintenance of peace. Reconstruction cannot be accomplished unless Russia resumes its place in the council of civilized nations and without the assistance of the United States, which alone possesses material riches and capital capable of bringing about this result.

The debates in the Genoa Conference have, unhappily, demonstrated that the conditions preliminary to fruitful co-operation between Russia and the other Powers have not yet been realized. It is necessary for Russia, as well as the other countries, to create first an atmosphere which will permit the United States to participate in the work of reconstruction.

Entirely comprehending the reasons which inspire the Government of the United States, the Japanese delegation regrets the American refusal, which will prevent The Hague Conference from bearing all its fruit.

FOREIGN MINISTER SCHANZER DEPLORES DECLINE OF UNITED STATES TO PARTICIPATE IN THE HAGUE CONFERENCE.

Commenting on the stand of the United States in holding aloof from The Hague Conference, Foreign Minister Schanzer of Italy on May 20 declared as "not fully justified" the anxiety of the United States "that Russia will not furnish adequate guaranties in case of resumption of relations with her." According to Minister Schanzer, "no other country could bring to a definite solution of the Russian problem a more desirable contribution than the United States." We quote more fully his views as made known in the Associated Press accounts from Genoa:

It was with deepest regret that "we had to renounce the precious collaboration of the United States in the Genoa Conference," said Foreign Minister Schanzer of Italy to the correspondent this evening on his departure for Rome.

"Even before the decision of the political commission was made to appoint a commission of experts to meet at The Hague," Signor Schanzer said, "where the work of the Genoa Conference will be continued, I personally called on Mr. Child (the American Ambassador to Italy), expressing the ardent desire not only of the President of the conference, as representative of the countries assembled here, but particularly of Italy, that America should participate in the new meeting at The Hague. The negative answer from the American Government was the cause of additional regret.

"Secretary Hughes's note and his telegram of explanation, communicated by Mr. Child, make clear the viewpoint of the American Government. America has no intention of refusing to examine the Russian question, but between us and the American Government there is a different conception of the methods to be adopted for its solution."

The Italian Foreign Minister continued by explaining the American viewpoint as he understands it.

"In substance," he said, "the American Government would like, before anything else, to make an inquiry into conditions in Russia in order to establish the remedies necessary for the reconstruction of that country. Instead, we at Genoa have already entered into negotiations with the Russian Government for liquidation, in order to establish the conditions of our future relations with that country. These negotiations will be continued at The Hague.

"I do not wish to pass judgment in any way upon the principles which guide the policy of the United States on this question, but I do think there is perhaps in Europe a keener appreciation about the urgency of giving the Russian problem a satisfactory solution than there is in the United States. Here we feel the necessity of Russia's re-entering, as soon as possible, into the comity of European economic life, reopening to Europe her immense market of consumption. We do not think, as America seems to do, that we can further postpone solution of the Russian problem by undertaking preparatory studies which would absorb much time. We alreday know, in their main lines, Russia's conditions, as we know what are the chief measures indispensable for her reconstruction.

"Unfortunately, it is difficult to suppose that the American Government may change its mind during the month which separates us from The Hague meeting. But it is my conviction that no other country could bring to a definite solution of the Russian problem a more desirable contribution than the United States. I have not abandoned hope that the results of the conference at The Hague will be such as to open the way to American collaboration, and I only regret that this precious collaboration is not already secured for the work which Europe has undertaken for the resurrection of Russia.

"On the other hand, it seems to me that the anxiety of the United States that Russia will not furnish adequate guarantees in case of resumption of relations with her is not fully justified. It is just because we have not succeeded in reaching an accord on guaranties, especially concerning the question of foreign properties in Russia, that the negotiations at Genoa could not reach a practical solution. The speech by Prime Minister Lloyd George at the final plenary session on this subject was very significant. He clearly told the Russians that if they wished to obtain credits they must acknowledge their pledges.

"We intend, in other words, to insist on guaranties, and this should reassure the United States, which with its financial powers could undoubtedly give the most formidable impulse to economic and industrial life in Russia."

Sgnor Schanzer then dealt with the general results of the Genoa gathering, saying:

"The most important is the greater intimacy brought about in the relations between the countries represented, especially between Engand and Italy. These two countries, while each maintained perfect autonomy of action, found that they were following the same main lines. This was due to the force of things, and also to the community of ideas inspired by their democratic policy and the broadness of their views. England and Italy have many interests in common and no reasons for conflict. Our collaboration, however, does not imply hostility against anybody. Indeed, it is intended to strengthen our relations with other friendly countries, and especially with France."

STAND OF U. S. AGAINST PARTICIPATION AT HAGUE CONFERENCE AS EXPLAINED TO GENOA.

The action of the United States in defining anew late last week its position as to the forthcoming conference at The Hague, resulted, it is understood, from the impression which had become current, that this country might be induced to alter its decision made known May 15, not to participate in the Conference. Along with the State Department's announcement of the 15th inst. (given on page 2199 of our issue of a week ago), we indicated that the Department had conveyed to Richard Washburn Child, United States Ambassador to Italy, advices for presentation to the Genoa Conference, making clear its stand. Regarding these new representations submitted at the session on the 18th inst. a special dispatch to the New York "Times" from Washington that date said:

The text of the Hughes cablegram was not made public at the State Department. It was not a formal note to the Powers, but rather a letter of confidential instructions to Ambassador Child to enable him to explain at length the viewpoint of this Government to representatives of other Governments seeking information from our Ambassador at Genoa relative to the exact position of the United States in its refusal to enter any conference which, it is held, would merely prolong the false hopes held out to the Russian people by the general attitude of the Genoa Conference.

It is the firm and unqualified conviction of the American Government that a prolongation of the Genoa Conference, either at Genoa or The Hague, by raising Soviet hopes for a big loan and recognition, would constitute a distinct menace to the revival of Russia.

While the dispatch from Secretary Hughes to Ambassador Child was not made public, its general purport was disclosed to-day in an official quarter. Its statement of the attitude of the American Government fully confirms that given in a Washington dispatch printed in the New York "Times" this morning, to the effect that this Government thinks the discussions at Genoa have been conducted along lines calculated to delude the world as to the real facts in the Russian economic situation; that this Government regards the attitude of the Soviet regime in demanding foreign loans and recognition as being a barrier that cannot be surmounted so long as the Soviet leaders adhere to this stand, and that it is plainly impossible for the outside world to aid Russia so long as Russia is not afforded an opportunity to help herself economically by the institution of reforms on the basis of which business, industry, agriculture and finance in Russia can be brought back to the normal bedrock of security.

It is the conviction of the American Government that the Genoa Conference brought into the foreground the questions of recognition and bargaining for money on the basis of recognition of the Soviet regime, instead of seeking to cure the European economic situation, and especially that of Russia, by looking the hard and cold economic facts squarely in the face. This has been a most serious mistake, in the opinion of American officials.

According to the Government's viewpoint, this led to a situation at Genoa that ignored economic facts, and would lead to the same kind of an impasse at The Hague. Practically all the negotiations at Genoa emphasized the question of recognition and encouraged the Russian delegation to make demands which on their very face were absurd and impossible, in the opinion of officials of the American Government.

The Russian problem was approached at Genoa from the political, rather than the economic angle. The American Government will not lend money to the Russian regime. Officials are convinced that Congress would never sanction such a loan and they think nothing could be more absurd than for Russia to expect any responsible Government to give serious consideration to the Soviet proposal for a huge loan.

The American Government insists that if Russia is to obtain financial aid it will not come from governments, but can only be sought from the private financial and industrial interests of the world, and considers it ridiculous to expect bankers and business men to turn their money and energy toward Russia so long as there is no guarantee of safety and protection given these investments.

The Russian note of May 11, in which the Soviet regime refused to recognize the validity of prior debts and financial obligations of Russia, was equivalent, it is held, to a repudiation of Russian financial responsibility. It is not believed by American officials that responsible bankers and industrial leaders of this country or Europe would enter the Russian field in the face of such repudiation, in the absence of definite guarantees and the institution of reforms which this Government considers basic for any economic resuscitation in Russia. These reforms would be security for life and property, firm guarantees for the safety of human life, the sanctity of contracts, rights of private property and freedom of individual labor, along with a clear demonstration of the intention of Russia to recognize her international obligations.

The mere calling the proposed Hague Conference a "body of experts" is insufficient to win the American Government to participate in it. The Hague Commission may be described as such a body, but the truth is believed to be that the plan is to go to The Hague to do the same thing that was sought at Genoa—if the Russian problem is dealt with on the basis of the Russian memorandum of May 11—which imposed impossible conditions and raised what this Government regards as a barrier that must be removed, along with other obstacles, before any economic aid can be given Russia from the outside.

The instructions to Ambassador Child enable him to make it clear to the delegates at Genoa that the American Government believes that anything that encourages the Soviet in setting up impossible conditions is not in the interest of the Russian people. If the situation reaches a point where the Powers desire to conduct a bona fide scientific inquiry into the facts of the Russian economic situation, that would be quite different, in the American Government's opinion, from negotiating with the Soviet leaders on the basis of ignoring economic facts and encouraging them to urge their well-staged demands—as at Genoa. To continue the Genoa Conference at another place on a "political" basis, this Government believes, would merely be an incentive to the Soviet leaders to persist in their impossible demands, instead of surrendering to the necessities of the occasion.

LLOYD GEORGE ON ACCOMPLISHMENTS OF GENOA CONFERENCE—WARNING TO RUSSIA.

Declaring that the Ecenomic Conference at Genoa "will be forever an inspiring landmark on the pathway of peace," Premier Lloyd George of Great Britain, in his address before the final plenary session of the Conference on May 19 stated that it would have justified its existence had it only been for the work accomplished by the three commissions—the Finance Commission, the Economic Commission and the Transport Commission. He also referred to the "great pact of peace"—the non-aggression pact, growing out of the Conference—all of which he said, if adopted and pursued, would

"help to restore prosperity and vigor to the depleted veins of Europe." He admitted that "we have not gone as far as the most sanguine of us expected, but we have gone further," he said, "than the doubters ever hoped or wished to go." He noted that "we have a month for reflection on the difficulties we have had in this Conference," referring in this to the forthcoming Hague Conference, and stated that "before we resume those discussions I sincerely hope that that month will be utilized with a view to discovering and suggesting solutions for these difficulties." The Premier devoted the greater part of his remarks to Russia and in declaring that "Europe is anxious to help, Europe can help, Europe will help," asserted that "Russia must in her dealings with her [Europe] accept the code of honor which is the inheritance that has come to us from generations of hard working and honest people and which has struck deep into the soil of the world," and he implored the Russian delegation, "when they come to The Hague, not to go out of their way to trample upon these sentiments and principles which are deeply rooted in the very life of Europe." In his further reference to Russia he observed that the Allies had made no reply to the Russian memorandum of May 11, and in his warning to the Russians said:

When you are w riting a letter asking for more credits let me give on word of advice to anybody who does it. Let him not in that letter ente into an eloquent exposition of the doctrine of repudiation of debts. It doesn't help you to get credits. It may be sound, very sound, but it isn't diplomatic.

At Cannes, said Premier Lloyd George, "we threw out the life line; we have not yet drawn it in as I thought we might. Neither has it been snapped, neither has it been let go. It is still there." The Premier also this week (May 25) in the House of Commons delivered a lengthy speech anent the Genoa Conference. This we shall refer to another week. The following is his speech at Genoa as reported in a copyright cablegram to the New York "Times" from London May 19:

Mr. President—We have now come to the end of one of the most remark able conferences ever held in the history of the world. The Genoa conference will be forever an inspiring landmark on the pathway of peace. Before we separate I feel it is a pleasure and privilege to us who have come from other lands to adopt a resolution of thanks, first of all, to our President for the tact and good humor with which he has presided over all our conferences; to Signor Schanzer for the very arduous and anxious labors which he has undertaken on our behalf and, if I may say so, especially for the skill and tact with which he has piloted us through the shoals and rocks and reefs of the political commission. We also owe a debt of gratitude to the people of Italy for a measure of hospitality which is worthy of a great and generous people. [Applause.]

Never has a conference been better received. We owe also a debt to the City of Genoa for a reception which is worthy of a great and renowned city. Italy in her desire to extend us hospitality has shown us every specimen of weather which she can command. We have had, of course, as you naturally expect in Italy, sunny skies, but we have also had some of the angry and cold tramontana, we have had the clammy and depressing sirocco, we have had some thunderstorms, but it has all ended to-day in blue skies. That is the history of the Conference. But you need all kinds of weather to make a good harvest, and if you look at what has been accomplished at Genoa you will find that we have reaped and garnered fine crops. There is the great pact of peace, there are the reports and recommendations of the Commission of Finance, the Economic Commission, the Transport Commission, all full of valuable recommendations which, if they are adopted and pursued, will help to restore prosperity and vigor to the depleted veins of Europe.

The Conference Justified.

The Conference would have justified its existence had it only been for the work accomplished by those three commissions. It is true their task has been overshadowed by more controversial issues. That is what always happens when there is any great subject of controversy in the proceedings. But those of us who are acquainted with the task of legislation know too well that controversial legislation is not always the most fruitful, and that is equally true perhaps with the task of this Conference, and there is a real danger that owing to the concentration of the thought of the Conference, and of the mind of the people upon the more debatable and dialectical of our work, work which is so vital to the interests of our people should be overlooked.

The recommendations of these commissions contain matter of the deepest moment in the restoration of the economic vitality of Europe, and I sincerely trust that the mere printing and circulation of those reports will not be the end of them. If it is, they will simply add to the paper currency of which the world has already had too much. They have to be converted into gold by the alchemy of action, and let us, each of us, when we go home bring them to the notice of those who are responsible for directing the affairs of our respective countries and by that means help to restore healthier economic conditions in Europe.

But still the real, I won't say interest, but the real excitement, of the Conference has centred in another issue, in the question of the relations of Russia with the outside world and of assistance which the outside world is prepared to render in order to restore that devastated country and to rescue its population from conditions which in many cases are conditions of deep misery and distress.

Russian Problem Calmly Debated.

It is a problem full of danger and difficulty, and if I dwell a little upon it, I do so because we propose to continue our examination in another month's time in another form. It is surrounded by a jungle of prejudice, swarming with very wild passions, and therefore dangerous to approach Let me say this about the Conference and the way it debated that question:The discussions themselves have demonstrated the value of international conferences. Here is a question which has created many political crises in different countries, which has provoked wars and revolutions in two continents, debated in conference in an atmosphere of calm and courteous investigation.

What better justification could you have for conferences than that? All you have got to do in order to know how valuable conferences are is to consider the contrast between the tone of our deliberations. You might have imagined from some of those that we had come here not to promote general peace, but to organize a general Armageddon, and, if our discussion had been continued in that spirit, most of us would have passed from the Palazzo Real to Campo Santo. But it was discussed in an atmosphere of calm and quiet.

What progress have we made toward the solution of that problem? Considerable progress. For the first time Europe has faced that difficulty and not shirked it, and half your troubles vanish the moment you face them, and the other half disappear if you continue to face them. That is what we have decided to do; we have decided to continue to face this problem, in order to struggle through, and that is the most courageous decision taken by this Conference.

With full knowledge of the magnitude, the complexity and perils surrounding this problem we have decided deliberately to do our best to struggle through. That is a decision worthy of a great conference of nations. We have not gone as far as the most sanguine of us expected, but we have gone further than the doubters ever hoped or wished to go. There is no goal worth reaching which is as near as it appears to the hopeful nor as remote as it seems to the timid, and that is equally true of this.

Objective discussions are to be resumed in a different place, under different conditions, in a different manner, and I hope with a different result. We have a month for reflection on the difficulties we have had in this Conference. Before we resume those discussions I sincerely hope that that month will be utilized with a view to discovering and suggesting solutions for these difficulties.

Effect of the Russian Note.

I should like to say one word in that respect upon the Russian memorandum. We make no reply to it, but we cannot allow it to pass without one sentence. I do so not in order to prolong the controversy, because the last thing I wish to do is to end these proceedings on a controversial note. But as one who has taken a very leading part in endeavoring to secure better relations between the East and West of Europe I should like to utter one word of warning. I do not know what the effect of that memorandum was in Russia, but I know that the effect outside Russia was disastrous. It produced a reaction against the spirit of settlement, and if it were the last word to be uttered by the Russian Government I should really despair of accomplishing much at The Hague. I am referring to the 11th of May memorandum.

Russia needs the help of Europe and the world needs the produce which Russia can contribute. Russia needs the accumulated wealth and skill which the world can place at its command to restore it. Russia cannot recover for a generation without that help.

Europe is more and more filling up the gap left by Russia. Russia needs more and more the help which the world can give and which the world is anxious to give. Either from pride or prejudice, we have not in the course of these discussions referred to the fact that even at this moment there are millions of people in Russia standing on the brink of famine and pestilence who may perish without help. If Russia needs help she can get it. But will the Russian Delegation allow me in a friendly spirit to say one word? If Russia is to get help, Russia must not outrage the sentiments—or if they like let them call them the prejudices—of the world. There is real sympathy for her condition. What are those prejudices?

I will just name one or two because they were all trampled upon in the memorandum of May 11. The first prejudice we have in Western Europe is this, that if you sell goods to a man you expect to get paid for them. The second is that, if you lend money to a man and he promises to repay you, you expect that he will repay you. The third is this, that if you go to a man who has already lent you money and say "Will you lend me more?" he will say to you "Do you propose to repay me what I gave you?" And you say "No, it is a matter of principle with me not to repay." There is the most extraordinary prejudice in the Western mind against lending any more money to that person. It is not a matter of principle. I know the revolutionary temper very well and the revolutionary temper never acknowledges anybody who has got principles unless he is revolutionary, but these prejudices are very deep rooted, they are rooted in the soil of the world, they are inherited from the ages and you cannot tear them out. When you are writing a letter asking for more credits—let me give one word of advice to anybody who does it—let him not in that letter enter into an eloquent exposition of the doctrine of repudiation of debts. It does not help you to get credits. It may be sound, very sound, but it is not diplomatic.

Russia Must Accept the Code of Honor.

Now I have only one or two more words. Europe is anxious to help. Europe can help, Europe will help, but Russia must in her dealings with her accept the code of honor which is the inheritance which has come to us from centuries of generations of hard working and honest people and which has struck deep into the soil of the world. Not even the Russian tornado has split one fibre of a single root of those prejudices upon which our system depends, and I do implore, as a friend of Russian peace, as a friend of co-operation with Russia, as one who is in favor of going to the rescue of those great and gallant and brave people, I implore the Russian Delegation when they come to The Hague not to go out of their way to trample upon these sentiments and principles which are deeply rooted in the very life of Europe.

At Cannes we threw out the life line; we have not yet drawn it in, as I thought we might. Neither has it been snapped, neither has it been let go; it is still there. We would like to draw all the distressed, all the hungry, all the suffering in the East of Europe back to life with all the health that the accumulated energy and skill of other lands can give them.

We have signed a pact of peace. It is a provisional one. Is it for months—ah, it is more than that. We have decided on peace among the warring nations. Once you establish it the nations are not going back upon it. We have decided to give peace a trial on our hearthstones, and when she has been there for seven months we will not turn her out again.

The psychological effect upon the people of the world will be electrical. A thrill of peace has gone through the veins of Europe, and you are not going to get any nation lifting up her hand against another nation again. There has been nothing more striking at this Conference than the deep, passionate desire not to have a rupture, not to have a quarrel, but to live in peace and amity all together. Believe me, peace is recovering her gentle sway over the hearts of men, and in this Conference, by this pact we have adopted to-day, we have paid homage to her sceptre.

With his return to London, the Premier received the newspaper men, and, it is learned from copyright advices to the New York "Times," in answer to a question as to whether Genoa had been a success, replied:

We have secured a compact of peace among thirty nations. It was one of the most dramatic spectacles I have ever witnessed when the representatives of four continents stood up one after another yesterday and pledged

themselves solemnly not to permit any acts of aggression against each other for the period of the truce.

The same account stated:

Then, referring to The Hague conference, the Premier expressed his confidence that permanent peace would result from it, and went on:

"You must remember that a few weeks ago there were armies massing on frontiers extending over thousands of miles, with every evident intention of marching against each other, and the whole centre of Europe was in a state of fear and trembling because they were expecting the march of these armies and a renewal of the terrible conflicts of the last few years. By the Genoa conference the march of these armies has been arrested, and I believe that an order will never be given for a single battalion to go forward."

The Prime Minister was asked whether bitter feeling existed:

"That's a different thing altogether," he replied. "There were nations there that were hardly on speaking terms with each other meeting around the same table, interchanging civilities and courtesies and discussing their respective problems without heat and with the evident desire evinced to have the difficulties which were threatening the peace of Europe removed by peaceable means."

CONCLUSION OF GENOA CONFERENCE—REPORTS AND NON-AGGRESSION PACT APPROVED.

The Economic Conference at Genoa, at the concluding plenary session on May 19 adopted the report of the Economic Commission, which contains constructive recommendations for the economic reorganization of Europe, adopted the arrangements for the conference at The Hague on June 15 and proclaimed Prime Minister Lloyd George's non-aggression pact which, it is pointed out in Associated Press cablegrams, though provisional in its nature, it is hoped to follow with a permanent European peace pact. In its accounts of the concluding session, the same authority commented as follows:

Lloyd George went to San Giorgio Palace to-day full of optimism for the outcome of the experts' negotiations with the Russians at The Hague in June, an outgrowth of the present meeting. He cannot announce a ten-year truce for Europe, as had been hoped, but there is the eight-months' non-aggression pact, a gentlemen's agreement as yet unsigned, but probably more effective than many signed documents.

Regarding the program which was approved by the Economic Commission on May 17 and submitted at the final plenary session on the 19th, the Associated Press said:

The resolutions comprise twenty-four articles dealing with customs duties, commercial arbitration, treatment of people trading in foreign countries, protection of industrial, literary and artistic properties, agriculture and labor. All the resolutions are qualified by the word "desirable."

The resolution concerning people trading in foreign countries recommends that they should not be obliged to pay taxes which would place them in a condition of inferiority with respect to the nationals of the country in which they are trading. Therefore, the treatment which any country gives its own nationals, says the resolution, should be applied also to foreigners, the only exceptions being made in cases of absolute necessity for the public good. These exceptions, however, should be applied equally to all foreigners and should make no distinction between one nationality and another. Rumania registered reservations on this point.

The resolutions also advise that taxes imposed on foreign concerns should be strictly limited to that part of the foreigners' business which is in the country that applies these taxes. Spain made a formal reservation to this recommendation.

The Economic Commission also approved of the following resolutions as to passports:

First—Vises for leaving any country should be abolished.

Second—Vises for entering any country should be valid generally for one year. A vise for passing through any country should have the same validity as a vise of a country for which the traveler is bound.

Third—The cost of a vise should be 10 francs gold for entering a country and 1 franc gold for passing through a country.

NON-AGGRESSION PACT.

The details of the non-aggression pact are also given herewith as contained in the Associated Press accounts from Genoa May 18:

Summary of Truce Compact.

The Political Sub-Commission of the Genoa Conference adopted to-day, subject to formal ratification to-morrow by the plenary session of the Conference, the plan of The Hague meeting and the compact of non-aggression affirming the continuance of the truce throughout The Hague discussions and for four months thereafter.

The Conference did no other business, and the delegations are preparing to leave soon after the final session to-morrow morning, which will be devoted chiefly to speechmaking.

All the delegations, except those of France, Belgium and Germany, attended the Political Sub-Commission meeting. The non-aggression pact was not signed, but was adopted in the form of a resolution, each State pledging itself to respect it.

The agreement contains six clauses, summarized as follows:

Clause I.—Provides for the appointment of a commission by the Powers to examine again the divergencies existing between the Soviet Government and other Governments, and with a view to meeting a Russian commission having the same mandate.

Clause II.—Not later than June 20 the names of the powers represented on the non-Russian commission and the names of the members of this commission will be transmitted to the Soviet Government, and, reciprocally, the names of the members of the Russian commission will be communicated to the other Governments.

Clause III.—The questions to be treated by these commissions will comprise debts, private properties and credits.

Clause IV.—The members of the two commissions must be at The Hague on June 26.

Clause V.—The two commissions will strive to reach joint resolutions on the questions mentioned in Clause III.

Clause VI.—To permit the commissions to work peacefully, and also to re-establish mutual confidence, the Soviet Government and its allied republics on one side, and the other Governments on the other, pledge themselves to abstain from any act of aggression and subversive propaganda. The pledge for abstaining from any act of aggression will be based upon the present status quo, and will remain in force for a period of four months after the conclusion of the work of the commission.

The pledge concerning propaganda will oblige the Government not to interfere in any way in the internal affairs of other States, and not to assist, financially or by any other means, political organizations in other countries, and will oblige them to suppress in their territory "any attempt to commit acts of violence in other States or aiming to disturb the territorial or political status quo."

The final adoption of the truce compact was without incident except that Lithuania inquired whether the truce would prevent powers, other than Russian, from attacking each other. In other words, Lithuania was anxious to know whether Poland would be prevented from attacking Lithuania in connection with the dispute over Vilna or the other boundary questions between the two nations. Assurance was given the Lithuanians that the peace would be general.

The original proposal of Lloyd George looking to the conclusion of a treaty by the nations represented at the Genoa Conference giving assurance that for a period of 10 years they would not commit any aggressive action against one another was referred to in our issue of April 29, page 1849. On May 12, in noting that the Premier had indicated a change with respect to this proposal, a copyrighted cablegram to the New York "Times" May 12 from Genoa said:

He also had it announced that although the non-aggression treaty as originally planned could not be put through at Genoa, he would propose a truce on the basis of the existing frontiers between Russia and the other European countries during the period of work of the commission of experts. Russia would promise to attack no one and to conduct no propaganda work, and her neighbors would promise not to attack Russia and carry on no Russian propaganda against the Soviet. In addition, Lloyd George let it be known that he intends to continue the discussion of various European political questions which have been raised, such as Galicia, Vilna, protection of minorities, and so on.

While the address of Premier Lloyd George at the final session appears elsewhere in these columns to-day, we take occasion to give here some of the details of the concluding session as reported in the Genoa (Associated Press) cablegrams of the 19th inst.:

Foreign Minister Schanzer submitted to the final meeting of the Conference to-day the project for The Hague meeting of experts and the text of the non-aggression agreement which would permit the discussion there with the Russians to take place in an atmosphere of mutual confidence, and especially in the spirit of pacification, which he said had inspired the Genoa Conference.

"The torch of this Conference must not be extinguished," he declared. "Genoa passes it on to The Hague."

The nations represented, except Germany, were called upon to accept the truce, and the heads of the various delegations arose and announced their approval. Several of the nations accepted with reservations, especially the States on the Russian border which already have treaties of peace with Russia which are not to be affected by the truce.

M. Barthou of France merely said he would recommend the truce to his Government.

Canada and other parts of the British Empire accepted separately.

Japan made no reservation in her acceptance of the pact.

Former President Motta of Switzerland, accepted for his country with expression of the hope that the truce would be made permanent.

M. Tchitcherin, head of the Russian delegaton, prior to the passage of the resolution of the Economic Commission declared the Russian delegation found it highly abnormal that in the composition of the Technical Committee, which dealt with the questions of labor and which was formed by the personal decision of M. Colrat, France, President of the Economic Commission, representatives of Russia, had been excluded.

"This exclusion is stranger," declared M. Tchitcherin, "considering that the very constitution of the Russian Republic is founded on labor organization. The results of this exclusion are visible for the report of the Economic Commission dealing with labor questions open with a general remark stating the importance of the assistance of workers in the economic restoration of Europe. Yet we find no mention of legislation for the protection of workmen, leaving aside the question of unemployment. Neither do we find any proposal concerning co-operative societies, although the latter are an instrument of first value in order to improve the conditions of the working classes.

"It is regrettable in the highest degree that in the course of the labors of the Economic Commission the proposal about co-operative societies should have been put down. Furthermore, Article 21, which mentions the conventions of the labor conference at Washington, deprives those conventions of the greater part of their practical importance by confirming the right of members not to ratify them. Certain Governments, like Switzerland, desire not to accept the eight-hour day The Russian delegation considers the eight-hour day as the fudamental principle for the welfare of the workers. Therefore, it raises formal objection against the liberty explicitly given to Governments not to apply it.

"Likewise, the conference did not consider the memorandum of the International Federation of the Amsterdam Syndicates, stating that the minimum of social justice as regards workers was an indispensable condition for the restoration of peace. The Russian Government has not recognized the League of Nations and, therefore, does not recognize the International Labor Bureau, but this in no wise modifies our viewpoint regarding the faults in the decisions of the Economic Commission on labor questions."

Continuing, M. Tchitcherin maintained all the other objections and reservations raised by the Russians, especially regarding the full and entire freedom of action which Russia will retain concerning provisions which entrust the League of Nations with official missions.

"The Russian delegation," said M. Tchitcherin, "must state that the general impression left by the report of the Economic Commission is that it is shorn of that boldness which is indispensable if one really means to undertake the work of general reconstruction. New political orientation should be the first condition of this, such as I sketched at the opening session of the conference."

With these reservations the Russian delegation accepted the report of the Economic Commission in its entirety.

M. Colrat denied that the Russians had been excluded from the commission, declaring that it had been felt that the Russians came to the meetings so infrequently that they were not qualified to share in the discussions.

Dr. Motta, Switzerland, protested against M. Tchitcherin's remarks concerning Switzerland and the eight-hour day. He said the eight-hour day was in operation in private enterprises and in the public secvices, and that Switzerland merely reserved the right to make modifications concerning it. He added that Switzerland always had stood in the forefront in seeking to benefit social legislation.

Vilna Dispute Brought In.

M. Galvanauskas, Premier of Lithuania, pointed out the impossible situation his country had been placed in, to adhere to the conference decisions by reason of the military occupation by Poland.

"Poland by the forcible act of General Zellgouski, violated the convention with Lithuania concluded at Suwalki, and also its obligations toward the League of Nations," said M. Galvanauskas. "Defying the treaties in force, Poland continues her military occupation of the Vilna territory. That is why the Lithuanian delegation thinks Clause 6 of the non-aggression pact inacceptable, even if recognition of the territorial and political status quo is only temporary. The Lithuanian delegation has proposed and reproposed to Poland peaceful means for the settlement of their differences, conformably with law and existing agreements. Recently the Lithuanian Government proposed to Poland to appear before the Permanent Court of International Justice, but, unfortunately, Poland declined the invitation."

Constantine Skirmunt, Poland, replied that the differences between Poland and Lithuania presented to the League of Nations were closed last January. It was proposed to establish between the two countries a provisional line of demarcation, replacing the present neutral zone.

"We can accept a settlement," M. Skirmunt continued. "Yesterday the League of Nations again recommended a division of the neutral zone between the two countries and the sending of a commission there. The Polish representative accepted the League's decision. If the Lithuanian Government objects to the non-aggression pact this will in no wise alter the pacific attitude of Poland toward the Lithuanian Government, nor the feelings of the Polish people toward the Lithuanian people. We are ready at all times to enter into good neighborly relations with Lithuania, and even to recognize the Lithuanian Government de jure."

Japan accepted the non-aggression compact after having sent a letter to Signor Schanzer in which the delegation said it took note of the explicit declaration by the President of the first commission, acording to which the arrangement in question did not affect in any degree the position of the Japanese troops in Siberia.

"The Japanese delegation considers, moreover, not only that the non-aggression pact does not interpose any obstacle to the previous agreement of the same nature," said the note, "but that a repetition of such agreements may have the effect of strengthening mutual confidence and contributing to the establishment of peace. Animated by a spirit of conciliation and attaching great importance to unanimous agreement, the Japanese delegation is glad to be able to state that it can now give full consent to the matter in question, it being understood that the declaration mentioned by the President is considered self-evident."

Dr. Rathenau Approves Economic Report.

During his address to the conference approving the report of the Economic Commission, Dr. Walter Rathenau, Germany, declared the historic value of that report would be more and more appreciated as the years passed. Yet he believed the world situation would improve only when the soundness of certain principles was recognized. The world must realize that the total indebtedness of its countries was too great, compared with their productive capacity. All the leading countries found themselves enclosed in a circle of indebtedness which made them almost all creditors and debtors simultaneously. That was why there was not a country to-day which could frame a budget based on real facts.

"There is not a country," Dr. Rathenau continued, "which can hope to stabilize its budget of payment and its exchange rate, with the notable exception of that great country (the United States) which is indebted to nobody and is the creditor of all and without whose help the final reconstruction of Europe is an impossiblity."

Alluding to Germany and the reparation due to France Dr. Rathenau contended that the impoverished debtor needed to be treated kindly and that he became incapable of payment if his last resources, namely his credit, is destroyed. Dr. Rathenau insisted that great sacrifices should be made by all to bring about a reduction in the great circle of reciprocal indebtedness and that universal attempts should be made to provide funds by mutual credits. Thus only, he added, could final restoration be achieved.

The report of the Economic Commission, which has been laboring for five weeks, studying projects for the economic reconstruction of the Continent, was presented by its Chairman, M. Colrat, one of the French plenipotentiaries and Under Secretary of State in the French Cabinet.

In his address, M. Colrat said that one of the world's greatest afflictions was the absolute disorganization of production. The war had produced over-manufacture in one direction and under-manufacture in another. The world's economic harmony had been destroyed by an ignorant, presumptuous megalomania which must be reckoned with and overcome. Each nation must adjust its industries according to its natural resources and markets.

The Economic Commission, he said, was convinced of the preponderating role agricultural production must take in the restoration of Europe, and believed one of the most efficacious means of restoring European equilibrium woul be to furnish tools and machinery to the peasants and educate them in the improved methods of agriculture.

M. Colrat stressed the great importance of the resolutions of his commission concerning raw materials, which the nations showed over-anxiety to hold within their own borders, to the detriment of the higher interests of all.

Passing to general considerations, he declared the time had arrived to return to healthier economics, conforming more to the equitable treatment of commerce which the League of Nations guaranteed to all peoples.

"The peace of the world," he said, "depends upon recognition of the treaties which unite the peoples."

The majority of the Commission in discussing the tariff question had favored general adoption of most favored nation treatment, but believed it could not be enforced at present.

In conclusion M. Colrat warned that, above all, Europe must work assiduously and patiently, if it would be restored.

Count Teofilo Rossi, President of the Italian delegation on the Economic Commission, declared that the import and export prohibitions established during the war for reasons of necessity, and which are still maintained by several countries, form a barrier to international commerce.

Countries with a stable currency had done their utmost to decrease the purchasing power of countries with depreciated currencies, and had thus reduced their own possibilities of export. Those nations whose currency had depreciated had surrounded themselves with impenetrable barriers. This vicious circle, he said, must be broken; freedom of international trade must be restored.

PREMIER LLOYD GEORGE ON OBJECTIONS OF RUSSIA VOICED AT GENOA CONFERENCE—THE PROPOSED NON-AGGRESSION PACT.

In our item of a week ago dealing with the deliberations at the Genoa Conference we indicated (page 2198) that we would the current week refer to the remarks of Premier Lloyd George at the session of the 17th inst. replying to the objections voiced in behalf of Russia by M. Tchitcherin. The Premier on that occasion answered the opposition which had been raised to taking up the discussions anew at The Hague, instead of at London or Rome, as well as other contentions of M. Tchitcherin. The remarks of Lloyd George on this occasion, as contained in a copyright cablegram to the New York "Herald" from Genoa on May 17 are given herewith:

I should like to say two or three interesting things about what befell Tchitcherin in his very interesting opening statement. I am not going to say anything further of the exclusion of the Germans, for we discussed that yesterday and assigned our reasons, which, I think, were fair and sound. It is perfectly true that the Germans will be excluded from discussing credits; but before you ever get to credits there is no doubt at all you have got to clear away very difficult questions in regard to private property and debts.

When you come to credits, moreover, it has been realized that Germany is not a country which at the present moment can furnish credits to anybody. The contribution cannot be a very substantial one, at any rate, whereas, if she were present, she would be taking part in the discussion of subjects she herself already has come to an arrangement with the Russian Government.

Can Help Russia's Problem.

You cannot, of course, exclude Germany from co-operating in the reconstruction of Russia, and it would be folly to attempt to do so. It is desirable to get the co-operation of all who can make any contribution.

In regard to place, Tchitcherin objects to The Hague. Well, it is a very difficult thing to choose a place. He suggested two capitals, Rome and London. Let us speak quite frankly about this. We have represented a certain point of view here which has not been accepted by the representatives of every country of Europe, and I think it desirable that the discussion should take place, when it does take place, within an atmosphere removed from any definite point of view.

The Hague is a place internationalized by tradition, where you have had great international questions discussed in the past and where there is the necessary international atmosphere. The same might not apply to Amsterdam, which has very definite views on the subject; but The Hague has no views, and no right to views on anything, because it is an international centre. That's the advantage of The Hague. The place of meeting must necessarily be a point where the views of the majority must prevail.

There is no question of the principle involved, but a question of the convenience of the majority of the people to go there. There are certain things the majority cannot decide, such as questions of principles like those that have been under discussion here; but in the question of convenience I suggest to the Russian delegation that the views of the majority must necessarily prevail.

Too Many Differences.

I now come to another observation made by Tchitcherin which I cannot allow to pass unchallenged. He said that we failed to come to an agreement here because we discussed things separately. Well, it's no use our concealing the facts from ourselves, because they have the unpleasant habit of coming to the service again after we have buried them.

The real fact is that there has been such a divergence of opinion on questions of vital principles that it was found impossible to reconcile them. Therefore we have had to try to approach a problem from a different point of view, seeing whether we cannot reconcile these divergencies in practice if we cannot in principle.

That is why we are relegating it to experts to explore the ground to begin with and to see if there are insuperable practical objections. There is no doubt at all that the two systems are quite irreconcilable—the system in Russia, and that obtaining in other parts of the world. They are becoming nearer. After all, there is a vast amount of private property in Russia. Nominally the land is nationalized, but in reality it is under peasant proprietorship. There is no use trying to conceal that fact, for no one can turn the peasants out of their land, whatever decrees are issued by Moscow. It will result in the end in the same system followed in the French revolution—a system of peasant proprietorship.

History and Tchitcherin.

It is a very dangerous thing, however, to discuss history with Tchitcherin. I have observed that, and I hope he will not follow my example. That, however, is the real reason. The first of May had something to do with it, too. It is very unfortunate that we should have met on the first of May, because things happened in Russia which gave undue prominence to certain principles. They had their repercussion or reaction even as far as Rapallo. And they had an influence upon the attitude of the Russian delegation, and made it very much more difficult for them to come to terms.

In their own hearts, the Russian delegation know perfectly well, whether we met in mixed commissions, mixed political committees, or however we met, they would be up against something which in principle was irreconcilable, and therefore the subject was to be approached in a different way. That is the reason they meet in their separate commissions, and must do so at The Hague.

Even if they said we must have a mixed commission meeting morning, noon and night, if we separated at midnight the Russians would meet together at 12:30, and discuss matters until 10 o'clock the following morning. I am certain of that. You cannot prevent it. We all have the habit of discussion, some of us more abnormally developed than others.

I do not think, therefore, that having two commissions can be objected to. That is what would really happen, whether we called it a mixed commission or otherwise. They would meet separately with their eight independent republics, and we should meet with our twenty-five nations—nations which, I hope, are more independent. Therefore, until we grasp that reality: that we cannot reconcile principles but we may in practice be able to arrive at some accommodation between these two systems, we shall never succeed.

Answers Tchitcherin Charge.

The other point I want to make is this: Tchitcherin objected that certain Powers had given encouragement to bands of raiders in Russia. Well, we certainly have not. We have had nothing to do with Wrangel. When we encouraged intervention in Russia we did it openly, proclaimed

it in the Commons, and asked the House to find the money for it. With no concealment at all, we sent munitions there quite openly. We said we would do no more and we kept our word. We have done nothing more.

We had nothing to do with Wrangel's last expedition, as we thought it was folly, and I can therefore speak quite frankly about that. I am not going to refer to the documents the Russians handed in, because Signor Schanzer ruled them out of order. I am only going to refer to the general observation I made to Tchitcherin, fortified, of course, by the knowledge of what was inside those documents.

As far as I can see, the suggestion has been that of the organization of Wrangel's forces with a view to attacking Russia. From what I know of Warngel's forces, they are a much greater danger to the countries where they now are than to Russia. I never heard of a country yet which got Wrangel's forces which would not be very glad to present them, lock, stock and barrel, to any other country prepared to receive them.

The countries referred to by Tchitcherin are not countries with any agreement with Russia. France has no agreement with Russia. Rumania, I think, has no agreement with Russia. Jugo-Slavia has no agreement with Russia. Therefore, for the moment, they are not bound by any agreement, whatever they may have done by way of giving trouble to Russia. The moment the documents are accepted, however, they are bound.

Need for Non-Aggressive Pact.

They are bound afterward not to encourage any raids in Russia, not to organize any attacks upon Russia, just as Russia is bound not to organize any attacks upon them. Any country, after accepting the pact of non-aggression, which encourages, equips or stimulates attacks upon Russia during the period of the pact is guilty of a breach of an international pact, guilty of a breach of honorable understanding.

For that reason I am in favor of the pact of non-aggression, because I do not want to see Russia attacking other countries, nor do I want to see other countries attacking Russia. There is no good in it—nothing but mischief. It keeps Europe in a sort of tumult, and excites nationalist feeling on both sides in Russia. Unless it will calm down, the others will not be able to come to any European understanding with a view to the reconstruction of this battered and shattered old continent.

For that reason I am strongly in favor of this. There is nothing which amuses me more in conferences than to hear the descriptions given by the representatives of the harmlessness of their own countries and the mischievousness of every other. Tchitcherin describes Russia thus: "Innocent, harmless, patient, tolerant, attacking nobody, giving no offence and no trouble to any country in the world, seeking only to lead a quiet life—in fact the model of all Christian virtues."

On the other hand, there are Bratiano (Rumania) and Skirmunt (Poland), who described their countries. They only want to lead a quet life. To this kind of thing I am really quite accustomed On the whole, I am hopeful that after we come to this truce we shall really attend to our own business in our own countries.

Speaking after sixteen years as a Minister—I've been Minister longer, I think, than any one else here—I have come to the conclusion that it's more than you can do to mind your own business. To look after the affairs of his own country is much more than any Minister or any body of Ministers can do. Therefore, to attack, to attempt to reform other countries, to organize missionary expeditions, whether under the command of Wrangel or any one else, to convert the heathens in Russia, or for Tchitcherin or Litvinoff to organize a band of missionaries to convert the infidels in our country, will result in a great deal of trouble.

We have each as much trouble in our own countries as we can manage, and if we would look after it and leave other countries to look after their own business we should get on very much better. If we can give help to each other in directions where possible, it would be of mutual advantage. That is what I mean by the pact of non-aggression. And I hope that after we all have signed this we shall keep it faithfully.

WILLIAM ENGLISH WALLING DECLARES CONFERENCES WITH SOVIETS MEAN YIELDING TO DESTRUCTION.

Presenting the labor point of view in the discussion on "America and the Political Situation in Europe," before the American Academy of Political and Social Science, meeting in Philadelphia on May 13, William English Walling, author of a half-dozen books on Russia and recognized as a labor expert in international political affairs, declared that democratic civilization is more squarely challenged by Bolshevism than it was by Prussianism. Mr. Walling declared that "the Soviet propaganda beyond doubt is the most heavily subsidized, the most persistent and audacious, the most untruthful, the most highly ramified and successful the world has ever known." Mr. Walling also stated that "the promoters of the Genoa Conference assert that conferences will continue until the Soviet Government is brought into some international arrangement on a basis of equality with other nations," and in pointing out that "the issue of the hour is the next international conference, he propounded the question as to whether the American Government, supported by American labor, will "allow itself to be pushed into a Trotsky-Lloyd George conference through the stupendous propaganda subsidized by foreign Governments and interests." Urging that we be not deceived as to the true significance of the conferences with the Soviets, Mr. Walling sounded a warning that to do so "means yielding to the forces of destruction." Discussing the European political situation in the light of the Genoa Conference and explaining American labor's relationship to the world problem, Mr. Walling said:

Diplomats are wrestling at Genoa with the psychology, the social philosophy and the phraseology of the Bolshevists. The diplomats have been studying these subjects for barely three years. European and American labor have been studying them—through direct relation—for fully 17 years, since Bolshevism made its debut in Russia in 1905 at the time of the first revolutionary movement. Labor's claim to understand the Bolshevists better than the average statesman or newspaper or article writer can possibly understand them is in no way a claim of superior intelligence but to actual experience.

Moreover, important as the Bolshevists are to the world at large to-day they are even more important to the labor movement. They have repeatedly asserted that the modern and democratic labor movement is their chief enemy and they have spent the larger part of their energies and resources in combating and in attempting to gain control of that movement.

The Bolshevist attack on the labor movement has in no way lessened in intensity; it has merely changed in form. It is admitted that the Soviets have spent millions upon millions in the world's leading nations for the corruption of the press. Their offer of $375,000 at one time to the London "Daily Herald" is notorious. To-day they have tens of millions of gold on deposit in the Western nations, to say nothing of vast corruption funds in jewels looted from the Russian aristocracy and the Russian Church. These sums are grossly insufficient to provide the Soviet regime with the thousands of locomotives, the tens of thousands of cars, and with the other economic needs of their great empire. Applied for the purpose of bribery or of so-called propaganda, they constitute the greatest corruption fund the world has ever known. And who will deny that these funds are in the hands of as unscrupulous a band as modern history can point to? The Soviet propaganda beyond doubt is the most heavily subsidized, the most persistent and audacious, the most untruthful, the most highly ramified and successful the world has ever known.

Labor understands this propaganda and its operators far better than do those who have had less experience with it.

American as well as European labor continues in the most intimate daily contact and conflict with the agencies of the Soviets. It does not need to wait for some international conference to make their acquaintance. Long before the newspapers and magazines or even the pseudo-liberals, who are such warm admirers of the Soviets, discovered the true nature of their system, international labor organizations had renounced and denounced them. The International Federation of Trade Unions, radical as it is, declared that the Soviets had formed a new autocracy and were largely responsible for the condition of the Russian people. The Second, or Socialist International, which includes the British Labor Party, declared:

"They (the Bolshevists) trod the desires of the Russian people in the dust, and in place of a democracy they established an armed dictatorship, not of the proletariat, but of a committee. Now they are attempting to impose their will and their decrees upon the Socialist and Labor parties of the whole world. They belong to the old world of Tsardom. . . .

"They may have ended wage slavery; they have established State slavery and misery. They have robbed the workers of freedom of movement and of combination and are presenting the creation of economic democracy."

With their thorough and complete understanding of Bolshevism and the Bolshevists, the American labor unions are lined up almost solidly behind the Russian policy of the American Government. However, they have worked out their attitude in somewhat more detail. The Montreal resolution (1920) declared:

"That the American Federation of Labor is not justified in taking any action which could be construed as an assistance to, or approval of, the Soviet Government of Russia as long as that Government is based upon authority which has not been vested in it by a popular representative national assemblage of the Russian people; or so long as it prevents the organizing and functioning of trade unions and the maintenance of a free press and free public assemblage."

Even the Cannes agenda, which was the basis of the Genoa Conference, says that in order to modernize the Soviet regime sufficiently for business purposes regular courts have to be constituted. European labor has refused to associate internationally with the Communist International unless the Soviets grant both free speech and political amnesty for the thousands of labor union and Socialist political prisoners who fill the dungeons of the Soviets. American labor makes practically the same demands and in addition requires some form of representative government. These demands are an application of the Harding-Hughes policy. Last year Mr. Hughes refused to have any relations with the Soviets unless after four basic principles of modern civilization were recognized: Freedom of contract, security for property rights, personal liberty and freedom for labor. These rights cannot be guaranteed without a regular system of law courts, free speech and freedom of assembly and some form of government responsible to the people.

Mr. Hughes has laid down an additional principle of absolutely vital importance in dealing with people of this character. Bolshevist pledges being wholly worthless, the American Government has declared its willingness to discuss the question of Russian relations only if the changes required are not only verbally accepted, but when "convincing evidence of the consummation of such changes is given." American labor also, as its declarations show, is not interested in Bolshevist promises, and will be willing to consider the question of recognition only when convincing evidence is given that free speech, freedom of assemblage and a representative Government are clearly and definitely established.

Even the official British White Paper published last year pointed out that there could be no hope for the rehabilitation of Russia until "the policy of political oppression at home" as well as Bolshevist propaganda abroad are abandoned.

European labor also is weary of Soviet promises and propaganda and demands acts. The Soviets have made their famous revolutionary tribunal or political police department, the notorious Che-Ka, a part of another department and changed its name. This subterfuge and others like it no longer deceive European labor.

Discussing proposals for a future international conference along the lines of the Genoa Conference, Mr. Walling said:

. . . it is clear that American labor will fight to the finish the effort now being made to drag the American Government into another pseudo-economic conference which—whether it is held in Europe or America—would involve de jure recognition of the Soviets and an economic entente which would maintin and prolong their power.

The promoters of the Genoa Conference assert that conferences will continue until the Soviet Government is brought into some international arrangement on a basis of equality with other nations. This is precisely the position taken by Trotsky in his last statement, where he says:

"But we firmly count on the triumph of business common sense first of all in America and afterwards in Europe. Genoa is not the last word in the pourparlers. Perhaps in the event of a break-up of the Genoa Conference, there will come a certain interval, but the pourparlers would be resumed some time later, more energetically and much more businesslike. Soviet Russia is prepared for this."

The issue of the hour is the next international conference. Will the American Government, supported by American labor, allow itself to be pushed into a Trotsky-Lloyd George conference through the stupendous propaganda subsidized by foreign Governments and interests? No word has yet been uttered by our Government that would make us believe that this is a remote possi-

bility. But the danger exists nevertheless, for if the Government cannot be directly influenced by a propaganda of falsehood, public opinion can be.

American labor is fully aware of the danger and it also knows just what the influences are that are backing the pro-Soviet propaganda in this country.

Let us not be deceived as to the true significance of the conferences with the Soviets. It means yielding to the forces of destruction. If there were any doubt as to this it would be removed by the almost identical language used by Trotsky and Lloyd George.

DECLARATION OF STOCK DIVIDENDS BY NATIONAL BANKS.

Regarding the ruling of the office of the Comptroller of the Currency on which is based the action of the Hanover National Bank of this city in declaring a stock dividend (referred to in our issue two weeks ago, page 1973), we have received the following advices from the Comptroller's office:

In the matter of your inquiry as to whether or not a national bank is permitted to declare a stock dividend, you are advised that the Comptroller holds that a stock dividend may be declared provided the bank is in a satisfactory condition and a sufficient amount of the surplus is transferred to undivided profits, if the latter are not ample to cover the proposed dividend before the stock dividend is declared. Your attention is called to the fact that no withdrawal from surplus should be made that will reduce the surplus below 20% of the capital as increased.

RELAXING REQUIREMENTS AS TO STOCK EXCHANGE LOANS.

The following is from the New York "Times" of May 19:

One evidence of the easy money conditions in the Street is the gradual relaxation of the rules which govern the borrowing of funds on Stock Exchange collateral. The rules are mostly unwritten ones, each bank in its relations with its customer-broker generally informing him just what constitutes good collateral and what does not. In many quarters it is reported that the banks have relaxed the very stringent rules which were in effect during most of last Summer, and that not only are stocks not scaled down so very severely from current market prices, but that many of the Stock Exchange securities, which were consistently thrown out of loan envelopes most of last year, are again accepted collateral.

EMBLEM FOR NEW YORK STOCK EXCHANGE MEMBERS FOR USE IN ADVERTISEMENTS.

The adoption of an emblem for use of New York Stock Exchange members to render their advertisements distinguishable from those of non-members is announced by R. T. H. Halsey, Chairman of the Exchange's Committee on Library. The emblem consists of a small electro in which is centred the building of the Exchange, backed by a dark background, and with the wording in the spaces at the top, and bottom and sides, "New York Stock Exchange Members." The following is the announcement issued to members:

The New York Stock Exchange has adopted and copyrighted for the use of its members in their advertising announcements the emblem appearing at the top of this page.

Members desiring these electros should make a formal requisition on the Secretary's office which will be properly endorsed and forwarded to the manufacturer, who will deliver the cuts and to bill the members. Orders should state the quantity and size desired.

The purpose of the Exchange in adopting the emblem is to render the advertisements of its members easily distinguishable from those of non-members. The Exchange strongly recommends its use.

GOVERNING COMMITTEE'S RESOLUTION OF THANKS TO PRESIDENT SEYMOUR L. CROMWELL OF NEW YORK STOCK EXCHANGE.

The following minute expressing the thanks of the Governing Committee of the New York Stock Exchange to President Seymour L. Cromwell for his "able performance of the heavy task imposed on him" was placed on the records of the Exchange at a meeting of the Committee on May 24:

To lead in fostering just and equitable principles of trade is the duty of the President of the New York Stock Exchange. Seymour L. Cromwell brought to this work great intelligence, untiring energy, a keen sense of honor, determination to uphold the high standards of the Exchange, and to raise them ever higher.

By so doing, and by his uniform courtesy and forebearance, he has gained the respect, admiration and affection of us all.

Be it therefore

***Resolved*, That the thanks of the Governing Committee be given to Seymour L. Cromwell for his able performance of the heavy task imposed upon him, and that this Governing Committee pledges him its aid in all future efforts to make of this Exchange the leading financial market of the world.**

REAPPOINTMENT OF GOVERNOR HARDING OF FEDERAL RESERVE BOARD URGED BY NEW JERSEY BANKERS' ASSOCIATION—PRESIDENT HARDING THANKS BANKERS FOR WORK IN WORLD WAR.

In a resolution adopted at its annual convention in Atlantic City May 13 the New Jersey Bankers' Association urged upon President Harding the reappointment of W. P. G. Harding as Governor of the Federal Reserve Board. Governor Harding's term will expire in August. Uzal H. McCarter of Newark, who brought the matter before the convention, is said to have stated that the Executive Council of the American Bankers' Association was also preparing to petition President Harding and that other State associations are expected to take similar action. Mr. McCarter is reported as saying:

We hear rumors that Mr. Harding will be displaced. The only reason assigned seems to be that he insisted on doing his du'y fearlessly and without favor. There has always been fear of the injection of politics in the system. If this should happen, I shudder for its future. Governor Harding is a strong, honest, rugged banker who has well served his country. His loss would be a keen one to the country.

The resolution states:

The members of the New Jersey Bankers' Association, representing the financial interests of the State of New Jersey, and through those interests the entire business community within its boundaries, are of the belief that the Federal Reserve System of the country can function fully and properly only as long as its management and its operation are entirely removed from politics and political atmosphere, and to that end the members of this association view with considerable apprehension the persistent rumors that the present Governor of the Federal Reserve Board will not be reappointed at the expiration of his term of office.

The members of this association, with a full realization of the valuable services rendered to the business community of this country during his term of office and the very high character as a business man of Governor Harding, do most respectfully urge upon the President of the United States that he reappoint Governor Harding. Our petition for this action being based upon the confident belief that such action by the Chief Executive of the nation would greatly aid in the readjustment of business.

President Harding addressed the convention on the 12th inst., stating that "I want to take this opportunity of expressing the gratitude of the Republic for the part the bankers of this country played in the great world emergency." The New York "Tribune" also reports him to the following effect:

He then declared that if the world is ever placed again on its feet the American banker would play a leading part in the work. The world s greatest suffering, he said, was economic and financial, and as yet the wor_d has not realized what it has gone through. He asserted that he had been informed that one of the conspicuous nations of the world has foreign and domestic obligations which exceeded its wealth.

"The world can never be set aright unless America plays her part," he concluded.

E. L. PATTON & CO., NEW YORK, IN HANDS OF RECEIVER.

On May 19 an involuntary petition in bankruptcy was filed in the United States District Court against Edward L. Patton, a cotton broker, doing business under the firm name of E. L. Patton & Co., at 81 Broad Street, this city: Lester B. Freedman, the counsel for the petitioners, stated that Mr. Patton's difficulties were due to the fact that he is a director in a firm charged with "bucketing," which caused his creditors to press him for settlement of their accounts. Judge Mack later appointed Jesse V. Ehrich receiver for the firm.

RECEIVERSHIP FOR INTERNATIONAL SERVICE CO., INC., OF BOSTON.

According to the "Boston News Bureau" of May 26, Judge Morton in the United States District Court has named Frank H. Jenkins, of Boston, receiver for the International Service Co., Inc., of that city, doing business as investment bankers and dealers in real estate mortgages.

SUSPENSION OF MEMBERS BY NEW YORK CURB MARKET ASSOCIATION.

According to the New York "Times" of May 26, the Governing Committee of the New York Curb Market Association on May 25 suspended Eugene E. Cerf and James Gilligan from regular membership for thirty days in accordance with Article XXXV., Section 1, of the constitution "for acts detrimental to the interests of the exchange."

NEW YORK CURB MARKET REQUIRES FINANCIAL STATEMENTS FROM MEMBERS AT LEAST TWICE A YEAR.

The following resolution was adopted by the Governors of the New York Curb Market Association on May 10:

***Resolved*, That regular and associate members of the exchange and firms registered thereon having deposit liabilities or carrying margin accounts for customers or other members of the exchange, shall furnish to the Committee on Complaints, at the request of said committee, a financial statement of the condition of such member or firm, in such form as shall be prescribed by said committee, and that such statement may be called for in the discretion of the committee at any time, and shall be called for not less than twice in each calendar year.**

HOUSE PASSES BILL PROVIDING FOR PERPETUAL CHARTERS FOR NATIONAL BANKS.

The House on May 23 passed a bill providing for perpetual charters for national banks. Under the Act of 1870, national banks were to have succession for the period named in the articles of incorporation, but not to exceed twenty years. In 1882 the period was made exactly twenty years, and in 1902 a further extension of twenty years was provided for. The "Journal of Commerce" on May 24 states:

It was explained by Representative Louis T. McFadden in charge of the bill as Chairman of the House Banking and Currency Committee, that among the reasons why bank charters ought to be perpetual is the fact that without perpetual charters banks with fiduciary powers cannot administer continuing and subsisting trusts. Owing to the limitation imposed by the existing law, he said, many important banks throughout the country have been canceling their national bank charters.

Mr. McFadden pointed out that in twenty-one States the duration of charters is unlimited. As a practical matter it appears only fair to the national banks throughout the country to give them the facilities offered by other financial institutions doing a fiduciary business, he contended.

HOUSE PASSES BILL INCREASING MEMBERSHIP OF FEDERAL RESERVE BOARD.

Without a record vote, the House on May 23 passed with minor amendments the Senate bill amending the Federal Reserve Act so as to provide for eight instead of seven members of the Federal Reserve Board, so as to assure representation of the agricultural interests. In accepting the Senate bill, the House turned down its own committee recommendations, presented by Representative McFadden. As to the action of the House on the 23d inst., the press dispatches from Washington said:

Changes in the Senate bill as reported by Chairman McFadden of the Banking Committee were voted down as rapidly as presented. The Senate amendment providing that no Federal Reserve building costing more than $250,000 should be erected without the consent of Congress was stricken out by the Banking Committee, but the House put it back. Chairman McFadden explained that this was much like locking the barn after the mule had been stolen, as all the buildings contemplated by the Board had been erected except one, and the contract for that already had been awarded.

Failing to hold the Board membership down to its present size, Mr. McFadden sought to put through an amendment providing that at least two of the members to be appointed by the President should be experienced in banking and finance, but it was defeated. The House also defeated an amendment by Representative London, Socialist, New York, stipulating that one member should represent labor.

The contention was made that the President now had the power to appoint a "dirt farmer" to the Board, but Representative Wingo, Arkansas, ranking Democrat on the committee, who led the fight for adoption of the Senate measure, insisted, with another member, that the provision that agriculture should have representation, left no doubt about a farmer landing on the Board.

The Senate (which had originally passed the bill Jan. 17 1922, as noted by us Jan. 21, page 247) concurred in the House amendments on the 24th inst., thus completing legislative action on the bill and authorizing the President to name an additional member of the Federal Reserve Board, who, it is understood, shall be representative of the agricultural interests. The measure now goes to the White House.

STATE INSTITUTIONS ADMITTED TO FEDERAL RESERVE SYSTEM.

The following institutions were admitted to the Federal Reserve System during the two weeks ending May 5 1922:

	Capital.	Surplus.	Total Resources.
District No. 6—			
The Peoples Bank, Crystal Springs, Miss	$25,000	$2,500	$27,500
Bank of Hattiesburg & Trust Co., Hattiesburg, Miss	100,000	33,000	1,046,000
District No. 7—			
Fletcher Savings & Trust Co., Indianapolis, Ind	1,500,000	250,000	16,526,517
District No. 8—			
The Savings Trust Co., St. Louis, Mo	200,000	50,000	1,812,203
Scruggs, Vandervoort & Barney Bank, St. Louis, Mo	200,000	------	1,378,418
District No. 12—			
Citizens Bank, Portland, Oregon	200,000	1,000	2,220,847

INSTITUTIONS AUTHORIZED BY FEDERAL RESERVE BOARD TO EXERCISE TRUST POWERS.

The Federal Reserve Board has granted permission to the following institutions to exercise trust powers:

The Terre Haute National Bank, Terre Haute, Ind.
The Honesdale National Bank, Honesdale, Pa.
The Bank of North America, Philadelphia, Pa.
The Third National Exchange Bank, Sandusky, Ohio.
The Clinton County National Bank, Wilmington, Ohio.
The People's National Bank, Monessen, Pa.
Dubuque National Bank, Dubuque, Iowa.
The University National Bank, Seattle, Wash.

OFFERING OF UNITED STATES TREASURY CERTIFICATES OF INDEBTEDNESS.

Secretary of the Treasury Mellon announced on May 25 an offering at par and accrued interest of $200,000,000 or thereabouts of United States Treasury Certificates of Indebtedness. The rate of interest to be borne by the certificates will be the same as in the case of those issued in April, namely, 3½%. The issue now being offered will be known as Series TD2-1922; they will be dated and bear interest from June 1 1922 and will be due Dec. 15 1922. The certificates, which will be acceptable in payment of income and profits taxes, do not bear the circulation privilege. From the circular of the Federal Reserve Bank of New York announcing the offering we quote the following:

Bearer certificates will be issued in denominations of $500, $1,000, $5,000, $10,000 and $100,000. The certificates will have one interest coupon attached payable Dec. 15 1922.

The certificates of said series shall be exempt, both as to principal and interest, from all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority, except (*a*) estate or inheritance taxes, and (*b*) graduated additional income taxes, commonly known as surtaxes, and excess profits and war-profits taxes, now or hereafter imposed by the United States, upon the income or profits of individuals, partnerships, associations or corporations. The interest on an amount of bonds and certificates authorized by said Act approved Sept. 24 1917 and amendments thereto, the principal of which does not exceed in the aggregate $5,000, owned by any individual, partnership, association or corporation, shall be exempt from the taxes provided for in clause (*b*) above.

The certificates of this series will be accepted at par with an adjustment of accrued interest during such time and under such rules and regulations as shall be prescribed or approved by the Secretary of the Treasury, in payment of income and profits taxes payable at the maturity of the certificates. The certificates do not bear the circulation privilege.

The right is reserved to reject any subscription and to allot less than the amount of certificates applied for and to close the subscriptions at any time without notice. Payment at par and accrued interest for certificates allotted must be made on or before June 1 1922 or on later allotment. After allotment and upon payment Federal Reserve Banks may issue interim receipts pending delivery of the definitive certificates. Any qualified depositary will be permitted to make payment by credit for certificates allotted to it for itself and its customers up to any amount for which it shall be qualified in excess of existing deposits, when so notified by the Federal Reserve Bank of its district. Treasury certificatse of indebtedness of Series TJ-1922 and Series TJ2-1922, both maturing June 15 1922, with any unmatured interest coupons attached, and Victory Notes of the 3¾% series (which have been called for redemption on June 15 1922) will be accepted at par with an adjustment of accrued interest in payment for any certificates of the Series TD2-1922 now offered which shall be subscribed for and allotted. Victory Notes of the 3¾% series in coupon form must have all unmatured coupons attached, and if in registered form must be duly assigned to the Secretary of the Treasury for redemption, in accordance with the general regulations of the Treasury Department governing assignments.

As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions and to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective districts.

SENATE RESOLUTION CALLING FOR INQUIRY INTO PRICES OF CRUDE OIL AND GASOLINE.

A resolution calling for an inquiry by the Committee on Manufactures into the price of crude oil and gasoline was agreed to by the Senate on May 13. The committee is asked among other things, to ascertain whether there has been any understanding or agreement between various companies to raise prices, and whether there is any natural reason for the increase of prices of gasoline. The following is the resolution as adopted by the Senate:

Resolved, That the Committee on Manufactures, or any sub-committee thereof, be and it is hereby authorized and instructed to investigate and report to the Senate as early as possible:

1. The stock of crude oil on hand at the refineries in the United States for the years 1920, 1921 and 1922.
2. The price of crude oil during the various months in said years.
3. The stock of gasoline on hand during the said years of 1920, 1921 and up to date in 1922.
4. The relation of prices of gasoline during said years to the prices of crude oil.
5. Whether or not the recent increase in the price of gasoline has been by some companies or whether there has been any uniformity in the prices demanded by all of the companies.
6. Whether these prices have been put in at the same time, or at substantially the same time.
7. Whether there has been any understanding or agreement between various companies to raise the prices.
8. Whether there is any natural reason for the increase of prices of gasoline.
9. And all such facts as bear upon the present increase of prices of gasoline in view of the decreased price of crude oil.

Senator McKellar, who introduced the resolution, stated that there were two resolutions "which have been sleeping" in committee for some time; one introduced by Senator Harreld on Aug. 23 1921 had, he said, by its own provision expired by limitation without action; it directed the Federal Trade Commission to report to the Senate the result of its investigations not later than Dec. 15 1921. The other resolution was introduced by Senator King on July 27 1921, but no action at all, Senator McKellar said, had been taken on it. He added: "It is entirely different from mine. The gravamen of that resolution is that the price of crude petroleum has been greatly depressed, but there is no corresponding drop in the price of gasoline." In submitting his own resolution, Senator McKellar said:

I wish to call attention to the fact that crude petroleum, in Pennsylvania at the wells, in January 1919, was $4 per barrel, and at the same time gasoline was sold at the wholesale price of 24.5 cents. Afterwards crude oil went up and then the price receded until on May 11 the price of crude oil was $3 25, while the wholesale price of gosline was 26 cents. It will thus be seen that while the price of crude oil has very greatly decreased, the price of gasoline has increased substantially. It will be noted that these increases in the price of gasoline have taken place in the last month or six weeks to a very considerable degree. The prices have gone up in the cases of all the companies, and as I understand, all over the country. They have gone up simultaneously and uniformly, evidencing, as it seems to me, an agreement among all the oil companies to raise the price.

SENATE RESOLUTION CALLING FOR INFORMATION REGARDING NAVAL OIL LEASES.

Copies of naval oil leases made by the Department of the Interior are called for in a resolution adopted by the Senate on April 29, in which also, the Committee on Public Lands and Surveys is authorized to investigate the entire subject of leases upon naval oil reserves "with particular reference to the protection of the rights and equities of the Government of the United States and the preservation of its natural resources." The following is the resolution as agreed to by the Senate:

Resolved, That the Secretary of the Interior is directed to send to the Senate:

(a) Copies of all oil leases made by the Department of the Interior within Naval Oil Reserve No. 1, and separately, Naval Oil Reserve No. 2, both in the State of California, and Naval Oil Reserve No. 3, in the State of Wyoming, showing as to each the claim upon which the lease was based or issued; the name of the lessee; the date of the lease; the area of the leased property; the amount of the rent, royalty, bonus, and all other compensation paid and to be paid to the United States.

(b) All Executive orders and other papers in the files of the Department of the Interior and its bureaus, or copies thereof if the originals are not in the files, authorizing or regulating such leases, including correspondence or memoranda embodying or concerning all agreements, instructions, and requests by the President of the Navy Department as to the making of such leases and the terms thereof.

(c) All correspondence, papers and files showing and concerning the applications of such leases and the action of the Department of the Interior and its bureaus thereon and upon all the several claims upon which such leases were based or issued, all in said reserves.

(d) And all contracts for drilling well on naval oil reserves, date and terms of same, reasons therefor, and the number and date of the drilling of wells on private lands adjacent to oil reserves.

Resolved further, That the Committee on Public Lands and Surveys be authorized to investigate this entire subject of leases upon naval oil reserves, with particular reference to the protection of the rights and equities of the Government of the United States and the preservation of its natural resources, and to report its findings and recommendations to the Senate.

120,000,000 *GALLONS OF GASOLINE LOST THROUGH INCOMPLETE CONDENSATION OF VAPORS.*

Following a detailed investigation, D. B. Dow, petroleum engineer of the Bureau of Mines at Washington, figures that 120,000,000 gallons of gasoline passed off into the air in 1921 because of failure to condense the still vapors at the petroleum refineries. He estimates that 50,000 gallons were recovered from uncondensed vapors at scientifically conducted refineries, and says that 170,000,000 gallons can be recovered by application of this system at all the refineries. A statement to this effect was made public by the Bureau on May 24 as follows:

With the problem of gasoline supplies and prices agitating the nation's millions of motorists, the Bureau of Mines advances the suggestion that by the more complete condensation of still vapors at the petroleum refineries 120,000,000 gallons of the precious liquid fuel may be added yearly to the national output. As the result of a detailed investigation, D. B. Dow, petroleum engineer of the Bureau, estimates that 50,000,000 gallons of gasoline were recovered from uncondensed still vapors at refineries in 1921. Application of the system to all refineries would give a possible gasoline recovery by this method of 170,000,000 gallons yearly.

The calculations of the Bureau of Mines are based on results obtained in refineries whose general methods are more efficient than those employed in the hundreds of smaller skimming plants that have no recovery systems. It is assumed that in the less efficient skimming plants, located in sections where the supply of cold water, so essential for condenser use, is scarce, greater recoveries could be made than in the large refineries studied. This should be especially true of Oklahoma, north Texas and Louisiana skimming plants, where summer temperatures are high and where cold water is scarce. A survey of these plants, it is believed, would show that their losses in uncondensed still vapors would be much higher than in the plants where the studies of the Bureau of Mines were conducted.

The magnitude of the loss from non-condensation of these vapors has been realized only by few refiners, judging from the number of plants that have recovery systems. The 13 refineries studied by the Bureau of Mines are obtaining 128,651 gallons of gasoline daily from uncondensed still vapors. These plants are situated in the various refining centres, other than the Pacific Coast, and are running crude representative of all the producing fields east of the Rocky Mountains. In addition, several are running Mexican crude. Information from California refineries indicates that on account of the smaller gasoline content of the California crudes, there are no recovery plants of importance in that State. The average recovery of gasoline at the refineries investigated by the Bureau of Mines amounted to .4 gallon per barrel of crude oil charged.

Unless preventive measures are adopted, losses of gasoline from failure to condense still vapors will increase in the future, because crudes are being handled in the field with more and more care to avoid evaporation and will, therefore, contain much lighter and more volatile fractions than at present.

Condensation of the vapors formed by heating crude oil is effected in the refinery by leading vapors through coils of pipe submerged in water. On cooling, most of the vapor becomes liquefied, but a certain amount of vapor, due to insufficient time for proper cooling, or the fact that its condensing point is lower than the temperature of the water, will remain uncondensed. Also, certain other fractions will not be condensed, for the reason that their liquefaction points are affected by the presence of other hydrocarbons. A small part of this uncondensed vapor is dissolved in the liquid that has condensed.

Condensation of the vapors coming from the still into liquid is accomplished either by passing them through pipes or shells having large surfaces exposed to the air or through coils submerged in water.

Atmospheric temperature is an important factor in the production of gasoline from uncondensed refinery vapors. It is found that during winter months, due to more complete condensation of the vapors, the production of the "gas" plant will fall off to some extent. An unusual example of this is a certain skimming plant which produces about 6,000 gallons of compression gasoline daily through the summer months, but drops to as low as 500 gallons per day in the winter. Ordinarily, the difference is far less, but there is always a tendency for production to drop in cooler weather.

The cost of installing recovery plants will necessarily vary with different plants, depending on local conditions, such as the distances between different stills which are sources of gas, the nature of gas, especially in regard to sulphur content, and the plant efficiency. However, a cost of approximately $15 per gallon of gasoline (daily capacity) should be sufficient. The operating cost of the gas plant is relatively low.

A detailed report of Mr. Dow's investigations is given in Serial 2344, "Recovery of Gasoline From Uncondensed Still Vapors," which may be obtained from the Bureau of Mines, Washington, D. C.

ROYALTIES OF OVER $1,000,000 TO GOVERNMENT FROM OIL AND GAS PRODUCTION IN WYOMING AND CALIFORNIA IN APRIL.

Royalties accruing to the United States Government in the month of April from the production of oil and gas on leased public lands in the States of Wyoming and California amaunted to $1,009,008, according to reports submitted by the Bureau of Mines to the General Land Office. Of this amount, $748,600 is credited to Wyoming and $224,400 to California. The total net royalties accruing to the Federal Government to April 30, as the result of oil and gas production on public lands under the terms of the General Leasing Act, approved Feb. 25 1920, amount to $4,650,287. A total of 7,328 permits for prospecting for petroleum and natural gas on public lands had been issued up to the end of April. Under the terms of the General Leasing Law, the technical supervision of oil and gas producing operations on leased public lands is entrusted to the Bureau of Mines. Offices for the conduct of this supervisory work are located at Denver, Colo.; Casper and Salt Creek, Wyo.; Bakersfield, Cal.; Winnett, Mont., and Shreveport, La., general headquarters being maintained in Denver.

CLOTHING PLANTS IN RUSSIA TO BE FINANCED BY AMERICAN UNIONS.

The Soviet Government of Russia has agreed to turn over all textile and clothing factories to an organization of American labor to be known as the American-Russian Trade Industrial Workers' Association, with a capitalization of not less than $1,000,000. Announcement to this effect was made at Chicago on May 11 by Sidney Hillman, President of the Amalgamated Clothing Workers, at their biennial convention. While Mr. Hillman said that in one sense the proposed enterprise was philanthropic in that the re-establishment of Russia's industrial plants would furnish employment to its starving unemployed, he believed that in the main the enterprise is purely commercial. He said:

When I was in Russia last summer I was offered concessions by Lenin to operate the textile and clothing factories. I visited a number of the plants, inspected the existing machinery and went throughly into the details of the plan. The concessions promised to cover other industrial fields as well as the textile and clothing. In other words. I was promised an almost free field of operation. The plan I propose is to capitalize the enterprise at not less than $1,000,000 and I shall ask the delegates, if the plan is approved, to appropriate immediately $10,000 for initial organization expenses.

I also propose that the Amalgamated Workers subscribe for at least $50,000 worth of stock. Under the plans worked out the stock will be sold at $10 a share, and while we hope to interest American working men and women in the plan as a sound investment of their savings, the books will be open to all who wish to subscribe.

We propose that all earnings over 10% on the capitalization be devoted to extending the field of operations. It is my belief that the best possible aid we can give to Russia and its people, in addition to food which we are now supplying. will be money for the re-establishment of its industries.

When the announcement of the concession by the Russian Government was made by President Sidney Hillman the convention voted, amid great enthusiasm, it was said, to authorize its officers to form the company, made an appropriation of $10,000 to defray initial expenses and voted the purchase of $50,000 worth of stock for the union. Ten dollar shares will be sold to workers and others interested in restoring Russian economic life. As will be noted from the above, the enterprise is to be co-operative, with all earnings over 10% applying to the extension of the project. The factories, equipment and raw materials will be furnished by the Soviet Government and the capital and technical skill are to be supplied by the American company. Control of the management will be vested in a central board, on which both parties will be equally represented.

WOMEN'S SHOE MANUFACTURERS IN ROCHESTER DECLARE FOR OPEN SHOP.

Following suspension of operations in nine of the largest factories making shoes for women in Rochester on May 1, announcement came that the plants would be operated on

It was explained by Representative Louis T. McFadden in charge of the bill as Chairman of the House Banking and Currency Committee, that among the reasons why bank charters ought to be perpetual is the fact that without perpetual charters banks with fiduciary powers cannot administer continuing and subsisting trusts. Owing to the limitation imposed by the existing law, he said, many important banks throughout the country have been canceling their national bank charters.

Mr. McFadden pointed out that in twenty-one States the duration of charters is unlimited. As a practical matter it appears only fair to the national banks throughout the country to give them the facilities offered by other financial institutions doing a fiduciary business, he contended.

HOUSE PASSES BILL INCREASING MEMBERSHIP OF FEDERAL RESERVE BOARD.

Without a record vote, the House on May 23 passed with minor amendments the Senate bill amending the Federal Reserve Act so as to provide for eight instead of seven members of the Federal Reserve Board, so as to assure representation of the agricultural interests. In accepting the Senate bill, the House turned down its own committee recommendations, presented by Representative McFadden. As to the action of the House on the 23d inst., the press dispatches from Washington said:

Changes in the Senate bill as reported by Chairman McFadden of the Banking Committee were voted down as rapidly as presented. The Senate amendment providing that no Federal Reserve building costing more than $250,000 should be erected without the consent of Congress was stricken out by the Banking Committee, but the House put it back. Chairman McFadden explained that this was much like locking the barn after the mule had been stolen, as all the buildings contemplated by the Board had been erected except one, and the contract for that already had been awarded.

Failing to hold the Board membership down to its present size, Mr. McFadden sought to put through an amendment providing that at least two of the members to be appointed by the President should be experienced in banking and finance, but it was defeated. The House also defeated an amendment by Representative London, Socialist, New York, stipulating that one member should represent labor.

The contention was made that the President now had the power to appoint a "dirt farmer" to the Board, but Representative Wingo, Arkansas, ranking Democrat on the committee, who led the fight for adoption of the Senate measure, insisted, with another member, that the provision that agriculture should have representation, left no doubt about a farmer landing on the Board.

The Senate (which had originally passed the bill Jan. 17 1922, as noted by us Jan. 21, page 247) concurred in the House amendments on the 24th inst., thus completing legislative action on the bill and authorizing the President to name an additional member of the Federal Reserve Board, who, it is understood, shall be representative of the agricultural interests. The measure now goes to the White House.

STATE INSTITUTIONS ADMITTED TO FEDERAL RESERVE SYSTEM.

The following institutions were admitted to the Federal Reserve System during the two weeks ending May 5 1922:

District No. 6—	*Capital.*	*Surplus.*	*Total Resources.*
The Peoples Bank, Crystal Springs, Miss	$25,000	$2,500	$27,500
Bank of Hattiesburg & Trust Co., Hattiesburg, Miss	100,000	33,000	1,046,000
District No. 7—			
Fletcher Savings & Trust Co., Indianapolis, Ind	1,500,000	250,000	16,526,517
District No. 8—			
The Savings Trust Co., St. Louis, Mo	200,000	50,000	1,812,203
Scruggs, Vandervoort & Barney Bank, St. Louis, Mo	200,000	------	1,378,418
District No. 12—			
Citizens Bank, Portland, Oregon	200,000	1,000	2,220,847

INSTITUTIONS AUTHORIZED BY FEDERAL RESERVE BOARD TO EXERCISE TRUST POWERS.

The Federal Reserve Board has granted permission to the following institutions to exercise trust powers:

The Terre Haute National Bank, Terre Haute, Ind.
The Honesdale National Bank, Honesdale, Pa.
The Bank of North America, Philadelphia, Pa.
The Third National Exchange Bank, Sandusky, Ohio.
The Clinton County National Bank, Wilmington, Ohio.
The People's National Bank, Monessen, Pa.
Dubuque National Bank, Dubuque, Iowa.
The University National Bank, Seattle, Wash.

OFFERING OF UNITED STATES TREASURY CERTIFICATES OF INDEBTEDNESS.

Secretary of the Treasury Mellon announced on May 25 an offering at par and accrued interest of $200,000,000 or thereabouts of United States Treasury Certificates of Indebtedness. The rate of interest to be borne by the certificates will be the same as in the case of those issued in April, namely, 3½%. The issue now being offered will be known as Series TD2-1922; they will be dated and bear interest from June 1 1922 and will be due Dec. 15 1922. The certificates, which will be acceptable in payment of income and profits taxes, do not bear the circulation privilege. From the circular of the Federal Reserve Bank of New York announcing the offering we quote the following:

Bearer certificates will be issued in denominations of $500, $1,000, $5,000, $10,000 and $100,000. The certificates will have one interest coupon attached payable Dec. 15 1922.

The certificates of said series shall be exempt, both as to principal and interest, from all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority, except (*a*) estate or inheritance taxes, and (*b*) graduated additional income taxes, commonly known as surtaxes, and excess profits and war-profits taxes, now or hereafter imposed by the United States, upon the income or profits of individuals, partnerships, associations or corporations. The interest on an amount of bonds and certificates authorized by said Act approved Sept. 24 1917 and amendments thereto, the principal of which does not exceed in the aggregate $5,000, owned by any individual, partnership, association or corporation, shall be exempt from the taxes provided for in clause (*b*) above.

The certificates of this series will be accepted at par with an adjustment of accrued interest during such time and under such rules and regulations as shall be prescribed or approved by the Secretary of the Treasury, in payment of income and profits taxes payable at the maturity of the certificates. The certificates do not bear the circulation privilege.

The right is reserved to reject any subscription and to allot less than the amount of certificates applied for and to close the subscriptions at any time without notice. Payment at par and accrued interest for certificates allotted must be made on or before June 1 1922 or on later allotment. After allotment and upon payment Federal Reserve Banks may issue interim receipts pending delivery of the definitive certificates. Any qualified depositary will be permitted to make payment by credit for certificates allotted to it for itself and its customers up to any amount for which it shall be qualified in excess of existing deposits, when so notified by the Federal Reserve Bank of its district. Treasury certificatse of indebtedness of Series TJ-1922 and Series TJ2-1922, both maturing June 15 1922, with any unmatured interest coupons attached, and Victory Notes of the 3¾% series (which have been called for redemption on June 15 1922) will be accepted at par with an adjustment of accrued interest in payment for any certificates of the Series TD2-1922 now offered which shall be subscribed for and allotted. Victory Notes of the 3¾% series in coupon form must have all unmatured coupons attached, and if in registered form must be duly assigned to the Secretary of the Treasury for redemption, in accordance with the general regulations of the Treasury Department governing assignments.

As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions and to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective districts.

SENATE RESOLUTION CALLING FOR INQUIRY INTO PRICES OF CRUDE OIL AND GASOLINE.

A resolution calling for an inquiry by the Committee on Manufactures into the price of crude oil and gasoline was agreed to by the Senate on May 13. The committee is asked among other things, to ascertain whether there has been any understanding or agreement between various companies to raise prices, and whether there is any natural reason for the increase of prices of gasoline. The following is the resolution as adopted by the Senate:

Resolved, That the Committee on Manufactures, or any sub-committee thereof, be and it is hereby authorized and instructed to investigate and report to the Senate as early as possible:

1. The stock of crude oil on hand at the refineries in the United States for the years 1920, 1921 and 1922.
2. The price of crude oil during the various months in said years.
3. The stock of gasoline on hand during the said years of 1920, 1921 and up to date in 1922.
4. The relation of prices of gasoline during said years to the prices of crude oil.
5. Whether or not the recent increase in the price of gasoline has been by some companies or whether there has been any uniformity in the prices demanded by all of the companies.
6. Whether these prices have been put in at the same time, or at substantially the same time.
7. Whether there has been any understanding or agreement between various companies to raise the prices.
8. Whether there is any natural reason for the increase of prices of gasoline.
9. And all such facts as bear upon the present increase of prices of gasoline in view of the decreased price of crude oil.

Senator McKellar, who introduced the resolution, stated that there were two resolutions "which have been sleeping" in committee for some time; one introduced by Senator Harreld on Aug. 23 1921 had, he said, by its own provision expired by limitation without action; it directed the Federal Trade Commission to report to the Senate the result of its investigations not later than Dec. 15 1921. The other resolution was introduced by Senator King on July 27 1921, but no action at all, Senator McKellar said, had been taken on it. He added: "It is entirely different from mine. The gravamen of that resolution is that the price of crude petroleum has been greatly depressed, but there is no corresponding drop in the price of gasoline." In submitting his own resolution, Senator McKellar said:

I wish to call attention to the fact that crude petroleum, in Pennsylvania at the wells, in January 1919, was $4 per barrel, and at the same time gasoline was sold at the wholesale price of 24.5 cents. Afterwards crude oil went up and then the price receded until on May 11 the price of crude oil was $3 25, while the wholesale price of gosline was 26 cents. It will thus be seen that while the price of crude oil has very greatly decreased, the price of gasoline has increased substantially. It will be noted that these increases in the price of gasoline have taken place in the last month or six weeks to a very considerable degree. The prices have gone up in the cases of all the companies, and as I understand, all over the country. They have gone up simultaneously and uniformly, evidencing, as it seems to me, an agreement among all the oil companies to raise the price.

SENATE RESOLUTION CALLING FOR INFORMATION REGARDING NAVAL OIL LEASES.

Copies of naval oil leases made by the Department of the Interior are called for in a resolution adopted by the Senate on April 29, in which also, the Committee on Public Lands and Surveys is authorized to investigate the entire subject of leases upon naval oil reserves "with particular reference to the protection of the rights and equities of the Government of the United States and the preservation of its natural resources." The following is the resolution as agreed to by the Senate:

Resolved, That the Secretary of the Interior is directed to send to the Senate:

(a) Copies of all oil leases made by the Department of the Interior within Naval Oil Reserve No. 1, and separately, Naval Oil Reserve No. 2, both in the State of California, and Naval Oil Reserve No. 3, in the State of Wyoming, showing as to each the claim upon which the lease was based or issued; the name of the lessee; the date of the lease; the area of the leased property; the amount of the rent, royalty, bonus, and all other compensation paid and to be paid to the United States.

(b) All Executive orders and other papers in the files of the Department of the Interior and its bureaus, or copies thereof if the originals are not in the files, authorizing or regulating such leases, including correspondence or memoranda embodying or concerning all agreements, instructions, and requests by the President of the Navy Department as to the making of such leases and the terms thereof.

(c) All correspondence, papers and files showing and concerning the applications of such leases and the action of the Department of the Interior and its bureaus thereon and upon all the several claims upon which such leases were based or issued, all in said reserves.

(d) And all contracts for drilling well on naval oil reserves, date and terms of same, reasons therefor, and the number and date of the drilling of wells on private lands adjacent to oil reserves.

Resolved further, That the Committee on Public Lands and Surveys be authorized to investigate this entire subject of leases upon naval oil reserves, with particular reference to the protection of the rights and equities of the Government of the United States and the preservation of its natural resources, and to report its findings and recommendations to the Senate.

120,000,000 *GALLONS OF GASOLINE LOST THROUGH INCOMPLETE CONDENSATION OF VAPORS.*

Following a detailed investigation, D. B. Dow, petroleum engineer of the Bureau of Mines at Washington, figures that 120,000,000 gallons of gasoline passed off into the air in 1921 because of failure to condense the still vapors at the petroleum refineries. He estimates that 50,000 gallons were recovered from uncondensed vapors at scientifically conducted refineries, and says that 170,000,000 gallons can be recovered by application of this system at all the refineries. A statement to this effect was made public by the Bureau on May 24 as follows:

With the problem of gasoline supplies and prices agitating the nation's millions of motorists, the Bureau of Mines advances the suggestion that by the more complete condensation of still vapors at the petroleum refineries 120,000,000 gallons of the precious liquid fuel may be added yearly to the national output. As the result of a detailed investigation, D. B. Dow, petroleum engineer of the Bureau, estimates that 50,000,000 gallons of gasoline were recovered from uncondensed still vapors at refineries in 1921. Application of the system to all refineries would give a possible gasoline recovery by this method of 170,000,000 gallons yearly.

The calculations of the Bureau of Mines are based on results obtained in refineries whose general methods are more efficient than those employed in the hundreds of smaller skimming plants that have no recovery systems. It is assumed that in the less efficient skimming plants, located in sections where the supply of cold water, so essential for condenser use, is scarce, greater recoveries could be made than in the large refineries studied. This should be especially true of Oklahoma, north Texas and Louisiana skimming plants, where summer temperatures are high and where cold water is scarce. A survey of these plants, it is believed, would show that their losses in uncondensed still vapors would be much higher than in the plants where the studies of the Bureau of Mines were conducted.

The magnitude of the loss from non-condensation of these vapors has been realized only by few refiners, judging from the number of plants that have recovery systems. The 13 refineries studied by the Bureau of Mines are obtaining 128,651 gallons of gasoline daily from uncondensed still vapors. These plants are situated in the various refining centres, other than the Pacific Coast, and are running crude representative of all the producing fields east of the Rocky Mountains. In addition, several are running Mexican crude. Information from California refineries indicates that on account of the smaller gasoline content of the California crudes, there are no recovery plants of importance in that State. The average recovery of gasoline at the refineries investigated by the Bureau of Mines amounted to .4 gallon per barrel of crude oil charged.

Unless preventive measures are adopted, losses of gasoline from failure to condense still vapors will increase in the future, because crudes are being handled in the field with more and more care to avoid evaporation and will, therefore, contain much lighter and more volatile fractions than at present.

Condensation of the vapors formed by heating crude oil is effected in the refinery by leading vapors through coils of pipe submerged in water. On cooling, most of the vapor becomes liquefied, but a certain amount of vapor, due to insufficient time for proper cooling, or the fact that its condensing point is lower than the temperature of the water, will remain uncondensed. Also, certain other fractions will not be condensed, for the reason that their liquefaction points are affected by the presence of other hydrocarbons. A small part of this uncondensed vapor is dissolved in the liquid that has condensed.

Condensation of the vapors coming from the still into liquid is accomplished either by passing them through pipes or shells having large surfaces exposed to the air or through coils submerged in water.

Atmospheric temperature is an important factor in the production of gasoline from uncondensed refinery vapors. It is found that during winter months, due to more complete condensation of the vapors, the production of the "gas" plant will fall off to some extent. An unusual example of this is a certain skimming plant which produces about 6,000 gallons of compression gasoline daily through the summer months, but drops to as low as 500 gallons per day in the winter. Ordinarily, the difference is far less, but there is always a tendency for production to drop in cooler weather.

The cost of installing recovery plants will necessarily vary with different plants, depending on local conditions, such as the distances between different stills which are sources of gas, the nature of gas, especially in regard to sulphur content, and the plant efficiency. However, a cost of approximately $15 per gallon of gasoline (daily capacity) should be sufficient. The operating cost of the gas plant is relatively low.

A detailed report of Mr. Dow's investigations is given in Serial 2344, "Recovery of Gasoline From Uncondensed Still Vapors," which may be obtained from the Bureau of Mines, Washington, D. C.

ROYALTIES OF OVER $1,000,000 TO GOVERNMENT FROM OIL AND GAS PRODUCTION IN WYOMING AND CALIFORNIA IN APRIL.

Royalties accruing to the United States Government in the month of April from the production of oil and gas on leased public lands in the States of Wyoming and California amounted to $1,009,008, according to reports submitted by the Bureau of Mines to the General Land Office. Of this amount, $748,600 is credited to Wyoming and $224,400 to California. The total net royalties accruing to the Federal Government to April 30, as the result of oil and gas production on public lands under the terms of the General Leasing Act, approved Feb. 25 1920, amount to $4,650,287. A total of 7,328 permits for prospecting for petroleum and natural gas on public lands had been issued up to the end of April. Under the terms of the General Leasing Law, the technical supervision of oil and gas producing operations on leased public lands is entrusted to the Bureau of Mines. Offices for the conduct of this supervisory work are located at Denver, Colo.; Casper and Salt Creek, Wyo.; Bakersfield, Cal.; Winnett, Mont., and Shreveport, La., general headquarters being maintained in Denver.

CLOTHING PLANTS IN RUSSIA TO BE FINANCED BY AMERICAN UNIONS.

The Soviet Government of Russia has agreed to turn over all textile and clothing factories to an organization of American labor to be known as the American-Russian Trade Industrial Workers' Association, with a capitalization of not less than $1,000,000. Announcement to this effect was made at Chicago on May 11 by Sidney Hillman, President of the Amalgamated Clothing Workers, at their biennial convention. While Mr. Hillman said that in one sense the proposed enterprise was philanthropic in that the re-establishment of Russia's industrial plants would furnish employment to its starving unemployed, he believed that in the main the enterprise is purely commercial. He said:

When I was in Russia last summer I was offered concessions by Lenin to operate the textile and clothing factories. I visited a number of the plants, inspected the existing machinery and went throughly into the details of the plan. The concessions promised to cover other industrial fields as well as the textile and clothing. In other words. I was promised an almost free field of operation. The plan I propose is to capitalize the enterprise at not less than $1,000,000 and I shall ask the delegates, if the plan is approved, to appropriate immediately $10,000 for initial organization expenses.

I also propose that the Amalgamated Workers subscribe for at least $50,000 worth of stock. Under the plans worked out the stock will be sold at $10 a share, and while we hope to interest American working men and women in the plan as a sound investment of their savings, the books will be open to all who wish to subscribe.

We propose that all earnings over 10% on the capitalization be devoted to extending the field of operations. It is my belief that the best possible aid we can give to Russia and its people, in addition to food which we are now supplying. will be money for the re-establishment of its industries.

When the announcement of the concession by the Russian Government was made by President Sidney Hillman the convention voted, amid great enthusiasm, it was said, to authorize its officers to form the company, made an appropriation of $10,000 to defray initial expenses and voted the purchase of $50,000 worth of stock for the union. Ten dollar shares will be sold to workers and others interested in restoring Russian economic life. As will be noted from the above, the enterprise is to be co-operative, with all earnings over 10% applying to the extension of the project. The factories, equipment and raw materials will be furnished by the Soviet Government and the capital and technical skill are to be supplied by the American company. Control of the management will be vested in a central board, on which both parties will be equally represented.

WOMEN'S SHOE MANUFACTURERS IN ROCHESTER DECLARE FOR OPEN SHOP.

Following suspension of operations in nine of the largest factories making shoes for women in Rochester on May 1, announcement came that the plants would be operated on

an open-shop basis. On April 29 the women's group of the Rochester Boot and Shoe Manufacturers' Association made known that it had severed relations with the United Shoe Workers of America and that the plants, which normally employ approximately 4,000 would be forced to shut down due to the stagnation of trade. In a letter to the labor union, the manufacturers said that practically all of the women's shoe factories in Rochester were idle and with no work in prospect. It was declared that "this stagnation is due entirely to the fact that your organization, through lack of co-operation has made it impossible for us to determine what our labor costs will be for the coming season." "Experience has proved to us that the radical members of your union can almost continually keep our factories upset and production impaired by bringing up petty points which cause an endless amount of time to be spent in arguments and holding meetings," said the statement. "It becomes more apparent to us every day that there is an ever increasing attempt on the part of the same element in your union to take complete control of labor in our factories. This assumption on their part has resulted in open insubordination in many factories and demonstrates that there is no control over them." Continuing, the statement averred that the union's "present demands for an increase of 25% and adjustments, all upward and none downward, which so far as we have been able to figure will add 15% to our costs, making a total increase of 40%, indicate clearly to us that the leadership of your organization has not the best interest and future success of our industry at heart.

"These unreasonable demands coming at a time when the crying need of the shoe industry in Rochester is for lower costs, and when the trend of wages is downward in all industries, have served to strengthen the conviction which has been forming in the minds of the members of this association that if we are to preserve the shoe manufacturing business in Rochester it can only be done by being freed from the restraints and conditions that have been imposed upon us since we have been doing business with you."

Charles Sheridan. President of Joint Council 6, United Shoe Workers, in a statement emphatically denied the charges made against the union by the manufacturers when they announced their decision to lock out the members of the union. The conditions under which workers will be reengaged when sufficient business to justify resumption of operation is obtained were announced by the nine women's shoes manufacturers on May 9. The plan calls for the open shop and includes these provisions:

First—Fair dealing is the fundamental and basic principle on which relations between employer and employee must rest.

Second—Forty-eight hours constitutes a week's work in the shoe manufacturing industry, and we expect forty-eight hours of honest effort from our employees.

Third—The employer reserves to himself the right to hire, promote or discharge any employee, and conversely, it is the right of any employee to leave his employment whenever he sees fit.

Fourth—The employer must have the active co-operation of his employees for the successful operation of his factory.

Fifth—The welfare of the industry demands elimination of all rules and agreements limiting output, so that no workman shall be restricted in his earning power.

Sixth—The employer must be the sole judge of the standard of workmanship on any operation and of the quality of the finished product.

Commenting upon the above dispatches from Rochester the New York "Journal of Commerce" said:

The declaration of an open shop precludes the possibility of an agreement between the nine manufacturers and the Boot and Shoe Workers' Union, a rival organization to the United Shoe Workers. Several of the international officers of the Boot and Shoe Workers' Union, which is affiliated with the American Federation of Labor, were in Rochester last week canvassing the situation.

Virtually the entire shoe industry in this city is now on an open shop basis. The makers of children's shoes in the Rochester Boot and Shoe Manufacturers' Association broke off relations with the United Shoe Workers some time ago.

It is expected that within a week or two all the salesmen of the factories will be on the road. Until orders are obtained the factories will remain closed. Prior to May 1 the nine factories, normally employing about 4.000 workers, were virtually at a standstill, only about 200 being at work because of the stagnation of business.

The factories to maintain open shops are Dugan & Hudson Co., C. P. Ford & Co., Inc., Joy, Clark & Nier, Inc., John Kelly, Inc.. Leach Shoe Company, the Menihan Company, E. P. Reed & Co., Sherwood Shoe Company and Utz & Dunn Company.

When the manufacturers severed relations with the union the United Shoe Workers retaliated by declaring a strike in the nine factories. Announcement has been made by the shoe workers that the Rochester Joint Board of the Amalgamated Clothing Workers, with a membership of about 13,000 in this city. has pledged "its moral and financial support to the cause of the United."

PACKERS AND STOCKYARDS REGULATION ACT HELD VALID.

The United States Supreme Court, in a decision handed down on May 1, declared the Packers and Stockyard Regulation Act of 1921 legal under the commerce clause of the Federal Constitution. Pointing out that under this legislation the various stockyards of the country are treated as public utilities, Chief Justice Taft, who delivered the decision, added: "That it is a business within the power of regulation by legislative action needs no discussion." Orders of the U. S. District Court for the Northern District of Illinois refusing to grant interlocutory injunctions prayed for by commission merchants operating in the Chicago stockyards to prevent enforcement of provisions of the Control Act were confirmed by the Supreme Court. "Its provisions," Chief Justice Taft said referring to the Act, "are carefully drawn to apply only to those practices and obstructions, which in the judgment of Congress are likely to affect interstate commerce prejudicially. Thus construed and applied, we think the Act clearly within the Congressional power and valid." Justice Day did not participate in the decision and Justice McReynolds dissented. With respect to the chief points of the decision, press dispatches from Washington said:

Declaring the stockyards "are not a place of rest, or final destination, . . . but a throat through which the current flows, and the transactions which occur therein are only incident to this current from the West to the East, and from one State to another," the court described the live stock business conducted in the yards as interstate in character.

Congress, in the Act, "treats the various stockyards of the country as great national public utilities to promote the flow of commerce," Chief Justice Taft stated in delivering the opinion of the court, "and assumed that they conduct a business affected by a public use of a national character and subject to national regulations. That it is a business within the power of regulation by legislative action needs no discussion."

The law was challenged by certain commission merchants and dealers in the Chicago stock yards, who brought separate suits in an effort to restrain the Secretary of Agriculture from enforcing the law. The suits in point were those of T. F. Stafford and other commission men against Secretary Wallace and Federal Attorney Clyne of Chicago, and J. F. Burton and other dealers against Mr. Clyne. Both cases originated in connection with the Union Stockyards in Chicago and came to the Supreme Court on appeal from the Federal Court in the Northern Illinois District, that court having refused to grant interlocutory injunctions after the Government, through District Attorney Clyne, sought to regulate the commission men and dealers. These dealers and commission men argued that the Packers and Stockyards Act of 1921 was unconstitutional in so far as it sought to control them.

Swift Case is Cited.

The issue raised, aside from the constitutional question, was whether the business done in the stockyards between the receipt of the live stock and its shipment is a part of interestate commerce. The court answered that the question was one disposed of in the Swift case, saying: "The judgment in that case gives a clear and comprehensive exposition which leaves to us in this case little but the obvious application of the principles there declared." The court added that those principles "have become a fixed rule of this court in the construction and application of the commerce clause" of the Constitution.

Chief Justice Taft said it was manifest that Congress framed the Packers and Stockyards Act in keeping with the Swift decision and that "what Congress had in mind primarily was to prevent such conspiracies by supervision of the agencies which would be likely to be employed in it." There is no question now of the authority of Congress to punish conspiracies or restraint of trade in the stockyards under the Sherman Anti-Trust Law, he continued, and "certainly it may provide regulations to prevent their formation."

The opinion reviewed at length the frequent court proceedings involving transactions at the Chicago stockyards against the packers and announced that "whatever amounts to more or less constant practice and threatens to obstruct or unduly burden the freedom of interstate commerce is within the regulatory power of Congress under the commerce clause."

Dealers' Contention Dismissed.

"It is primarily for Congress to consider and decide the fact of the danger and meet it," he continued. "This court will certainly not substitute its judgment for that of Congress in such a matter unless the relation of the subject to interstate commerce and its effect upon it are clearly non-existent."

Explaining that the commission merchants at the stockyards sell on commission or brokerage live stock consigned to them, Chief Justice Taft dismissed as without foundation their contention that they are not engaged in interstate commerce. He stated that the principle announced by the court in the Transportation Act cases in which Federal jurisdiction was upheld over State commerce where it is so carried on as to work undue, unreasonable advantage or preference in favor of persons or localities in State commerce as against those in interstate commerce, or an undue, unjust or unreasonable discrimination against interstate commerce itself, indicated the extent to which Congress could assert jurisdiction over State transactions that affect interstate commerce under its protection.

"Congress has found as an evil to be apprehended and to be prevented by the Act herein questioned, in the use and control of stockyards and the commission men to promote a packers' monopoly of interstate commerce," said Chief Justice Taft.

"The object to be secured by the Act is the free and unburdened flow of live stock from the ranges and farms of the West and the Southwest through the great stockyards and slaughtering centres on the boarders of that region, and, thence, in the form of meat products to the consuming cities of the country in the Middle West and East, or, still as live stock, to the feeding places and fattening farms in the Middle West or East for further preparation for the market.

"The chief evil feared is the monopoly of the packers, enabling them unduly and arbitrarily to lower prices to the shipper who sells, and unduly and arbitrarily to increase the price to the consumer who buys. Congress thought that the power to maintain this monopoly was aided by control of the stockyards. Another evil which it sought to provide against by the Act, was exorbitant charges, duplication of commissions, deceptive practices in respect of prices, in the passage of the live stock through the stockyards, all made possible by collusion between the stockyards management and the commission men on the one hand, and the packers and dealers on the other. Expenses incurred in the passage through the stock yards necessarily reduce the price received by the shipper, and increase the price to be paid by the consumer. If they be exorbitant or unreasonable, they are an undue burden on the commerce which the stockyards are intended to facilitate. Any unjust or deceptive practice or combination that unduly and directly enhances them is

an unjust obstruction to that commerce. The shipper whose live stock are being cared for and sold in the stock yards market is ordinarily not present at the sale, but is far away in the West. He is wholly dependent on the commission men, and their relations are constant and close. The control that the packers have had in the stockyards by reason of ownership and constant use, the relation of landlord and tenant between the stockyards owner, on the one hand, and the commission men and the dealers on the other, the power of assignment of pens and other facilities by that owner to commission men and dealers, all create a situation full of opportunity and temptation to the prejudice of the absent shipper and owner in the neglect of the live stock, in the mala fides of the sale, in the exorbitant prices obtained, in the unreasonableness of the charges for services rendered."

THE SECRETARY OF AGRICULTURE ON THE DECISION IN THE PACKERS AND STOCKYARDS ACT.

"The recent decision of the Supreme Court seems to clear away all obstacles to the full enforcement of the Packers and Stockyards Act," said Secretary of Agriculture Wallace on May 15. "We have had satisfactory co-operation from the packers and from the owners of stockyards. Now that the Supreme Court has held that commission merchants, traders and other people who operate in the yards come under the Act, I hope we may have the same sort of co-operation from these marketing agencies.

"The decision handed down by Chief Justice Taft," continued Mr. Wallace, "is gratifying, both in that it affirms the constitutionality of the act and in that it makes plain the purposes of the Act. As stated by the Chief Justice, 'the object to be secured by the Act is the free and unburdened flow of live stock from the ranges and farms . . . through the great stockyards and slaughtering centres . . . and thence in the form of meat products to the consuming cities.' That was what Congress had in mind, as developed in hearings before the committees before the Act was passed. The purpose was not alone to remove flagrant abuses, but to permit a constructive study of the meat industry from the ranges and farms to the table of the consumer. The magnitude of this industry is indicated by the fact that at 69 stockyards under our supervision more than 80,000,000 cattle, sheep and swine were received during the year 1921." The Secretary of Agriculture then continues as follows:

The packers are forbidden to engage in unfair, discriminatory or deceptive practices, or to control prices or establish a monopoly in business. We are given authority to do everything which seems to be necessary to make sure that the packers live up to the law. We have the right to examine their books, to call in witnesses, and to make investigations of all kinds.

Commision merchants, traders, stockyards companies and all other market agencies are forbidden from charging unreasonable rates and from engaging in unjust, unreasonable, discriminatory or deceptive practices. Over them also we have large authority. All of these market agencies must register with the Secretary of Agriculture, and their rates, charges and practices must be approved. Severe penalties are imposed for non-compliance with the orders of the administrative agency, but all parties concerned have the right to appeal to the courts.

Because of the great importance of the act and of the very large responsibilities imposed upon us, we have been proceeding carefully in building up our organization for its enforcement. This organization is called the Packers and Stockyards Administration of the Department of Agriculture. We now have supervisors in 17 markets, namely, Atlanta, Ga.; Buffalo, N. Y.; Chicago, Ill., Cincinnati, Ohio; Denver, Colo.; Detroit, Mich.; El Paso, Texas; Fort Worth, Texas; Indianapolis, Ind.; Kansas City, Mo.; National Stock Yards, Ill.; New York City, N. Y.; Omaha, Neb.; Pittsburgh, Pa.; San Francisco, Cal.; Sioux City, Iowa, and South St. Paul, Minn. The country is being divided into four divisions, and when the organization is complete there will be one general supervisor for each division, and under him local supervisors at the various larger packing and marketing centres. Stockyards which come under the Act and which are not large enough to justify the placing of a resident supervisor will be looked after by the district supervisor or the supervisor at one of the nearby larger markets.

The duties of these supervisors in general, will be to supervise the practices in the yards over which they have jurisdiction. We wish farmers and stockmen to go to the supervisors whenever they believe they have received unfair treatment, and also to report any unfair practices which have come under their observation. Many matters of which shippers feel they have reason to complain can be settled on the spot if they are reported in person on the day the reason for the complaint has occurred. Whenever the two parties to a misunderstanding can be brought together by a third party whose sole purpose is to do the fair thing by both, there should not be very much trouble in adjusting matters to the satisfaction of everybody. I hope, therefore, that shippers to these markets will help us enforce the law properly by reporting immediately any grievances. Moreover, we wish them to get personally acquainted with the Government's representatives.

It is not an easy thing to build up rapidly the sort of an organization we must have to enforce this law in letter and spirit and do full justice to everybody. In the various yards we need men who have a good working knowledge of stockyards practices and who at the same time are fair-minded, impartial, even-tempered men, of strict integrity, and who have the ambition to render real service. I am glad to say we are making progress and are geting a fine group of men. Recently we had all of our supervisors come to Washington and spend a week in the Department, exchanging experiences and receiving instructions from Mr. Morrill, the head of the administration; Judge Hainer, his assistant in charge of legal work; Mr. French, the general auditor; Mr. Gore, who has supervision of trade practices; Mr. Bray, who is Mr. Morrill's general asistant, and Mr. Dagger, who is in charge of the rate division. After a week here the supervisors went back to their respective posts with a much better understanding of their duties and responsibilities, and with enlarged knowledge obtained from exchanging experiences with one another.

Already we have been able to bring about a decided improvement in a number of market practices. At St. Louis, for example, a boycott instituted by some of the commission merchants against certain other firms doing business was discontinued after a conference of two days with the representatives of this Department. At another point an advance in charges for feed was held up pending investigation as to their reasonableness. At still another point certain abuses with regard to gratuities to some shippers have been eliminated. Attention has been given to the prices paid by packers for cattle reacting to the tuberculin test, and in the future fairer prices will be paid for these cattle which are fit for food. The principle of standard containers has been adopted by the packers and as an immediate result certain off-size butter packages have been discontinued.

As soon as the organization is in full swing a thorough investigation will be made of a number of matters which, because of their nature, cannot receive immediate attention. It is our expectation to enforce the law, both in letter and spirit, but we shall not assume that men are rascals unless they have been proved to be such. On the contrary, we take it for granted that the various people who are under the supervision of this law will be glad to co-operate with us in eliminating any abuses or unfair practices which, intentionally or otherwise, may have grown up as this great industry has developed. No arbitrary action will be taken. Every man will have a fair hearing, and every opportunity will be given him to voluntarily correct any practices which seem to be in violation of the law.

EMPLOYMENT IN SELECTED INDUSTRIES IN APRIL.

According to the monthly statement dealing with employment conditions, issued on May 22 by the United States Department of Labor, Bureau of Labor Statistics at Washington a comparison of the figures of April, this year and last, of representative establishments in 12 manufacturing industries shows that in 7 there were increases in the number employed and in 5 there were decreases. The comparative data for April 1922 and March 1922 show that in 4 there were increases in the number of employed in April as compared with March and in 8 decreases. In its compilation for April the Bureau notes that "the coal mining industry is to a great extent suspended and returns are so incomplete that the figures are omitted from this report." The following is the Bureau's statement:

Comparing the figures of April 1922 with those for identical establishments for April 1921, it appears that in 7 of the 12 industries there were increases in the number of persons employed, while in 5 industries there were decreases. The most important increases are 34.9% in hosiery and underwear and 27.9% in leather manufacturing. Cotton manufacturing shows a decrease of 25.7% and cotton finishing a decrease of 11.9%.

Four of the 12 industries show increases in the total amount of payroll for April 1922, as compared with April 1921. The remaining 8 industries show decreases in the amount of pay roll. Hosiery and underwear shows the largest increase—33.6%—while the increase in leather manufacturing amounted to 17.5%. The greatest decrease, 34.6%, appears in cotton manufacturing. Men's ready-made clothing shows a decrease of 31.3%.

Comparative data for April 1922 and March 1922 appear in the following table. The figures show that in 4 industries there were increases in the number of persons on the pay-roll in April as compared with March, and in 8 decreases. The 4 increases reported are 6.8%, 6.3%, 0.2% and 0.1%, appearing respectively in iron and steel, automobiles, car building and repairing, and hosiery and underwear. Cotton finishing shows a decrease of 15.1% and men's ready-made clothing a decrease of 10.1%.

When comparing April 1922 with March 1922, 2 industries show increases in the amount of money paid to employees and 10 show decreases. Automobiles show the greatest increase—21.8%. A decrease of 24.6% appears in men's ready-made clothing and one of 19.2% in silk.

Changes in Wage Rates and Per Capita Earnings.

During the period March 15 to April 15 1922 there were wage changes made by some of the reporting establishments in 8 of the 12 industries.

Iron and steel: Ninety per cent of the employees in one mill were cut 8% in wages. In another mill a decrease of 2.3% was made in the wages of approximately 15% of the force. As a whole, however, improvement was shown in the iron and steel industry and the per capita earnings increased 0.7% in April over March.

Automobiles: A decided increase in activity was reported for this industry and the per capita earnings were 14.5% higher in April than in March.

Car building and repairing: One shop made a 15% wage decrease to 50% of the employees. The per capita earnings for April, when compared with those for March, showed a decrease of 1.5%.

Cotton manufacturing: A 20% wage cut, affecting the entire force, was reported by one concern. Industrial trouble still prevails in sections of the country. The per capital earnings for April were 2.4% less than those for March.

Cotton finishing: All employees of two mills had respective wage rate decreases of 20% and 6 2-3%. An increase of 1.9% was shown in per capita earnings when the March and April pay rolls were compared.

Hosiery and underwear: When comparing the per capital earnings for March and April, a decrease of 4.5% was noted.

Silk: Dull season was reported for this industry and less time was worked. The per capita earnings for April were 10.8% less than those for March.

Men's ready-made clothing: Decreased force and time worked were reported for this industry due to seasonal fluctuations. The per capita earnings for April, when compared with those for March, showed a decrease of 16.2%.

Leather: In two tanneries the wages of all employees were reduced 10%. An increase of 0.2% was shown in this industry when March and April per capita earnings were compared.

Boots and shoes: Four factories reported decreases of 10% in wage rates, affecting 85% of the force in the first factory, 80% of the force in the second, 40% in the third and 5% in the fourth. Less time was worked in several of the establishments reporting and the per capita earnings for April were 1.6% less than those for March.

Paper making: Two plants reported a decrease in wage rates of 10%, affecting all employees in the first plant and 97% of the employees in the second plant. In one establishment a decrease of 5% was made in the wages of 4.8% of the force. Slackness was reported for this industry and the per capita earnings showed a decrease of 1.7% when March and April figures were compared.

Cigars: A 20% decrease in wages was reported by one establishment, affecting 67% of the employees, while in another establishment the wage of 26 2-3% of the employees were decreased 12%. The per capita earning for April, when compared with those for March, showed a decrease of 7.8%s

JUDGE GARY STILL OPTIMISTIC AS TO FUTURE —CRITICISES CLASS LEGISLATION—VIEWS ON SOLDIER BONUS, &C.

Elbert H. Gary, addressing as President, the American Iron & Steel Institute at its annual meeting in this city, yesterday (May 26) declared himself still an optimist as to the business future. "Big, even profitable business" Judge Gary observed, "has been ahead of us all these years though it has been at times obscured." Now he said, "we seem to be nearer a realization," and headed "every one in official or private life, employers and workmen, professionalists, merchants, financiers, mechanics, artisans, all properly supported by our Government, may and will as never before, utilize to the greatest advantage of our own people and others the existing and productive wealth of this great country." In speaking thus optimistically Judge Gary recognized that we have not "entirely passed from under the clouds of adversity" and that "certainly we are carrying hitherto unheard of heavy governmental financial burdens. "At best," he observed, "these will not soon be fully discharged. To bear them gracefully and contentedly there must be not only forbearance, encouragement and assistance from every department of Government up to the limit of propriety and justice, but there must also be entertained by every individual, consistently and constantly, a spirit of patience, pluck, energy, generosity, loyalty and charity, fully up to his or her highest intelligence." On the subject of governmental regulation Judge Gary declared that such regulation of industry, in his opinion "will never be a satisfactory and permanent success unless and until it it is fair and reasonable, and above everything else, is applied without discrimination." This statement was preceded by a reference to the "disposition during the last years to pass laws which measurably exempt labor organizations, and recently farmer associations from Governmental investigation, supervision and control against wrong." Not only, he contended "are they exempted from certain restrictive provisions of the existing statutes, but they are affirmatively permitted to do certain things prohibited as to others." If it is necessary in order to protect workmen against imposition to permit them to organize into associations and thus act collectively," said Judge Gary, "let it be done under and by virtue of the general laws, subject in management to Governmental investigation and supervision and control against wrong, oppression and violence. Let them account, under direction of the Government, for moneys received and disbursed. And the argument applies to farmers. Judge Gary also reverted to the soldiers' bonus and he pointed out that "the people of this country, for the present at least, cannot afford to pay or appropriate the large bonus for the soldiers which has been suggested. The burdens of taxation resulting from the war" he added, "are already too heavy to carry without materially and adversely affecting the full return to prosperity." He stated, however, that "if and when there is paid a bonus to soldiers the amount should be provided by a species of taxation which is universally distributed." The fairest method of taxation, he contended, is found in the sale tax, so-called, and he expressed it as his belief that "with a fair sales tax business would be better, the country would be more prosperous, individual opportunity increased and everyone made happier."

PRESIDENT HARDING'S CONFERENCE WITH RAILROAD HEADS.

The dinner conference at the White House last Saturday (May 20) between President Harding and a number of leading railroad executives, which had been arranged by the President early the present month (as indicated in our issue of May 13, page 2084), resulted in the decision to appoint from among the rail heads a committee to take up the question of rate reductions, and recommend what action should be taken. In the meantime, however, the Inter-State Commerce Commission announced a decision under which the railroads are called upon to make a horizontal reduction of approximately 10% in freight rates, effective July 1. This decision is referred to in the article which follows. On Thursday of this week (May 25), the committee appointed as a result of the White House gathering met in conference with the Inter-State Commerce Commission, to discuss rate reductions and the Commission's decision. At the conclusion of this conference, Daniel Willard, Chairman of the committee, issued a statement saying:

The committee of railroad presidents met the members of the Inter-State Commerce Commission to-day, pursuant to appointment made at the conference last Monday, and further discussion of the questions under consideration continued, including the hearing and effect of the recent decision of the Commission relating to reductions in freight rates.

At the conclusion of the meeting the railroad executives stated that the subject would be reported to their associates in the several portions of the country at meetings to be held early next week, for further consideration, but that before leaving Washington it was their purpose to call upon the President so as to express their appreciation of his interest in the general subject.

The Committee of railroad executives who met with the Inter-State Commerce Commission and later called upon President Harding were: W. H. Finley of the Chicago & Northwestern; Daniel Willard, Baltimore & Ohio; Edward Chambers, Santa Fe; Fairfax Harrison, Southern; Charles Donnelly and Howard Elliot, Northern Pacific; H. E. Byram, Chicago, Milwaukee & St. Paul, and Hale Holden, of the Chicago, Burlington & Quincy.

The announcement made last Saturday regarding the White House Conference was issued as follows by President Harding's Secretary, George B. Christian:

The President invited the railroad presidents and the board chairmen to dine with him, and to confer with him concerning further relief of railroad service along lines somewhat similar to the voluntary reductions granted in some commodities some months ago, more particularly on such basic commodities as may be found necessary to speed industrial betterment. The whole railroad problem was discussed and difficulties of railroad management under existing conditions were presented. The presidents voiced their unanimous desire to make the fullest contribution possible to restore and maintain prosperity.

Various aspects of the railroad problem were discussed, particularly the necessary preparation in providing new or repaired equipment when normal business is restored.

The President made it clear he was attempting none of the duties of rate-making or rate recommendations, but he felt that much could be accomplished by conference and that helpful results must accompany a full co-operation between the railroad heads and the Government body charged with the regulation of rates. The executives voted to have a committee named from their membership to take up the problem and recommend what action could be taken.

The list of railroad executives invited, as announced at the White House, included the following presidents of roads:

A. H. Smith, New York Central; Carl R. Gray, Union Pacific; W. H. Finley, Chicago & Northwestern; W. B. Storey, Santa Fe; C. H. Markham, Illinois Central; H. E. Byram, Chicago Milwaukee & St. Paul; Samuel Rea, Pennsylvania; Hale Holden, Burlington; Charles Donnelly, Northern Pacific; Ralph Budd, Great Northern; F. D. Underwood, Erie; S. M. Felton, Chicago Great Western; Daniel Willard, Baltimore & Ohio; Fairfax Harrison, Southern, and Edward E. Loomis, Lehigh Valley.

Also invited were R. S. Lovett, Howard Elliott and Julius Kruttschnitt, respectively Chairmen of the Boards of the Union Pacific, Northern Pacific and Southern Pacific, and Edward Chambers, now Vice-President of the Santa Fe, and during the war Director of Traffic for the Railroad Administration.

A press dispatch from Washington published in the New York "Tribune" of May 22 said:

Plan Submitted by Hoover.

Railroads were directly asked, the statement said, to bring about lower freight charges, on a plan first publicly outlined in a study which Secretary Hoover presented to the Inter-State Commerce Commission during its hearings in the general rate investigation last winter. This involves cutting

freight on coal, steel, farm products, minerals and other heavy low-priced basic raw materials. It also involves a policy of letting freights on high grade, high priced finished materials remain at approximately their present levels, and probably leaving passenger fares untouched, too.

Rates reached their present post-war altitudes by climbing in percentage stages, flat increases all down the line being the rule, but Mr. Hoover argued —and his appearance was made for the Chamber of Commerce of the United States as well as for the Government—that rates should be reduced in a different fashion. Industrial betterment, he declared, could be best attained by cutting those rates which constituted a large fraction of the price of articles moved to consuming parts, while leaving stationary such rates as do not constitute a great proportion of the cost price to consumers.

President Harding adopted this view of the matter Saturday in his discussion with the railroad chiefs. Previously it had many advocates in railroad circles, although it would demand a complete alteration of rate policies as built up by the roads in the past and sustained by the Commerce Commission. The railroad men now favoring it consider that its adoption would allow them to meet widespread public demand for reductions, and at the same time to protect the earning power of the properties by the income on the higher grade materials and passenger fares.

One subject frequently mentioned in advance of the White House dinner, that of railroad wage levels, now under re-examination before the Railroad Labor Board, apparently did not come up for discussion. No mention of it was made in the statement, although questions of new equipment purshases and other "problems of railroad management" were referred to specifically.

We also quote the following from Washington Associated Press dispatches May 23:

Railroad managements, it was said, while voicing approval of the general proposal that rates be brought down in the interests of general business betterment and expansion of enterprise, have taken the opportunity to tell of their own troubles with wage scales they consider too high, with the financing of new equipment and repair of old, and the maintenance and betterment of their lines. The result is said to leave President Harding hopeful, however, that tangible immediate reductions can be obtained.

Railroad executives were told by the President and Secretary Hoover at the conference if they would leave class rates virtually unchanged at existing levels they could go into session with the Inter-State Commerce Commission and at once cut sharply existing charges on coal, iron, ores, brick, pacing materials and other heavy tonnage low unit priced commodities. This, in the Administration view, would remove burdens that have acted to retard the wheels of commerce, and, at the same time, leave high rates on traffic that can bear the burden.

Many railroads regard the proposals with favor, but others look with concern on the plan as involving a reduction in their chief source of revenue. Among the latter are listed the coal roads.

Rail earnings in the East have developed a recent tendency to rise, it was argued by railroad managers, while Western roads are still at low earning points, indicating a necessity of treating the rate problem regionally.

President Harding was understood to consider that the Administration negotiations with the railroads were entirely separate from Inter-State Commerce Commission procedure, although that body now has the general rate case under consideration "in chamber." It is merely his view, it is said, that if the railroads come voluntarily to the Commission, radical rate reductions can be made immediately and be directed at "sore spots."

It was credibly asserted here to-day that the Commission had found a margin in railroad earnings that might allow some experiments in railroad rate reductions, but that its eleven-man membership was somewhat divided as to where to apportion the gains.

President Harding was said to favor the transfer of the Railroad Labor Board from Chicago to Washington, so as to bring the Board in closer contact with the men who fix the transportation rates. The site of the Board's headquarters at present is fixed by law.

TEN PER CENT FREIGHT RATE REDUCTION ORDERED BY INTER-STATE COMMERCE COMMISSION.

The handing down of the decision of the Inter-State Commerce Commission on Wednesday of this week (May 24) in favor of a horizontal reduction of 10% in freight rates effective July 1 1922, did not come altogether as a surprise, inasmuch as President Harding had the previous Saturday night been in conversations with railroad executives on the subject of rate reductions and had definitely indicated that a decision in favor of lower rates had been arrived at. The conference of the railroad heads with the President is referred to in another item in this issue. Under the Commission's decision (which is dated May 16—more than a week prior to its issuance), the railroads are requested to notify the Commission by May 31 if possible whether they will voluntarily put into effect the reductions directed or require the Commission to issue its formal order, or orders putting into force the new schedule. Passenger rates and Pullman surcharges are not affected by the Commission's decision. With its decision as to freight rates, the Commission announced also its determination of 5.75% as the reasonable annual return which carriers in the future will be entitled to earn on their actual capital investment, this comparing with 6%, the reasonable return level fixed under the Transportation Act for the period expiring March 1. Practically all classes of commodities are affected by the Commission's decision; agricultural products in all sections of the country outside of New England, live stock and Western grain and grain products are the chief commodities excluded from the reduction, these comprising the freight classification upon which reductions had previously been put into effect. In the case of grain, grain products and hay in Western territory the Commission last fall ordered a freight rate reduction of 16½%, which went into effect the first of the present year; that reduction is to stand without any further change, the 10% cut not in any way affecting it. The Commission in stating that after July 1 it would hold unreasonable rates "including more than the following percentages of increase over the rates in effect immediately prior to Aug. 26 1920," set up the territorial schedules as follows:

In the Eastern Group, also between points in Illinois territory and between Illinois territory and the Eastern Group, 26% instead of the 40% authorized in the decisions last cited (increased rates of 1920).

In the Western Group and between the Western Group and Illinois territory, 21.5% instead of the 35% so authorized.

In the Southern and Mountain Pacific Groups, 12.5% instead of the 25% so authorized.

On inter-territorial traffic, except as otherwise provided herein, 20% instead of the 33 1-3% so authorized.

Commissioner Potter in a concurring decision pointed out that the percentage reductions so defined are "in effect a requirement that present rates and charges shall, generally speaking, be reduced 10%."

In indicating how the new reductions were determined the New York "Times" in special advices from Washington May 24 said:

The method by which the Commission calculated its 10% decrease caused the wrongful impression to be sent out to-day that the reductions in various districts into which the railroad systems are divided varied from 14% downward. The method adopted was to take the rates prior to Aug. 26 1920, as 100%, add to this the percentage of increase in various districts on Aug. 26 1920, and then direct a horizontal reduction of 10%. For instance, the increase directed on Aug. 26 1920 for the railroads of the Eastern District was 40%, thus giving an index figure of 140% as of Aug. 26 1920. Ten per cent of this is 14%, and the Commission directed that 26% be substituted for the original 40%. The same method was followed in the other districts and for inter-territorial traffic, in each of which the advance granted on Aug. 26 1920 varied somewhat.

It was asserted to-day by a responsible railroad expert that the reductions ordered would not actually represent a 10% decrease from the present rates. For instance, he estimated that on the basis of operating revenue of the carriers in 1921, the 10% decrease provided for in the Commission's order would represent a loss of $450,000,000 in operating revenue. He stated that the loss of operating revenue on the same basis of calculation, because of readjustments and reductions made by order of the Commission or voluntarily by the carriers subsequent to Aug. 26 and which are now in force, represented an annual loss in operating revenue of about $200,000,000. This would leave $250,000,000 annually as the additional loss in operating revenue to the railroads on the basis of 1921 business because of the Commission's latest order. The order, therefore, he figured, would appear to represent an actual reduction from the rates in force to-day of perhaps 6%.

The reductions called for in the Commission's decision of this week follow an investigation begun on its own initiative last fall into the reasonableness of existing freight rates. The Commission after reviewing the arguments for and against rate reductions as made before it by shippers, railroads and representatives of geographical areas of the country, declared that as rates had been pushed up by horizontal percentage increases "a similar process should be followed" in bringing them down "to meet lowered expenses of operation." The arguments which President Harding advanced before the railroad executives at the dinner conference of last Saturday suggested rate reductions affecting sharply basic commodities, but leaving untouched existing rates on high priced finished commodities which generally take class rates. It is pointed out that it was chiefly on this point that supplemental and dissenting opinions were filed. Chairman McChord (who assented to the majority views, but filed a supplemental report) and Commissioners Lewis and Cox advocated sharper commodity reductions rather than the horizontal fashion cuts decided upon by the majority. Mr. McChord likewise dissented to the 5.75% fair return allowance, while Commissioner Potter suggested also reductions in passenger rates. Commissioner Eastman held that on the present record the Commission, "if mindful of the Transportation Act of 1920," can lawfully go no further in requiring reductions. We give the full text of the decision with the supplemental opinions on pages 2317 to 2329.

RAILROAD VIEWS ON PROPOSED FREIGHT REDUCTIONS.

In a statement commenting on the Inter-State Commerce Commission's proposed reduction in freight rates, Lewis J. Spencer, Director of Traffic of the Southern Pacific RR., declared on the 25th inst. that "no anticipated reduction of wages by the Labor Board can approximate the loss of revenue resulting from the rates proposed by the Commission and there will be no conceivable stimulation of traffic by the reduced rates to compensate for the loss."

L. F. Loree, President of the Delaware & Hudson, said that the 5¾ percentage figure was too low and out of line. He doubted whether the railroads could earn 5¾% on their property value without the present rate cut, and certainly not with it. Mr. Loree also held that the property valuation of approximately $19,000,000,000 fixed for all the carriers was too low.

Julius Kruttschnitt, Chairman of the Southern Pacific, had the following to say:

We must necessarily compute the difference between the rate cuts which we have already instituted, and the amount contemplated by the Commission's announcement before any estimate can be made as to the ultimate effect. The Southern Pacific was among the first of the railroads in voluntarily readjusting rates during the past year, and it is possible that we have done enough to relieve us from the Commission's decision.

Commenting on the 5¾% figure set by the Commission as a fair return on the valuation of the roads, Mr. Kruttschnitt said:

In comparison with what other corporations are permitted to earn, it is questionable whether this figure will attract additional investment capital, as the Transportation Act intended. Moreover, the conclusion cannot be escaped that if the railroads can not attract added investment they will not be in a position to give good service.

SECRETARY MELLON'S SUGGESTION FOR RAILROAD RATE HOLIDAY.

The declaration of a "railroad rate holiday" (of five years, it is said, during which railroads could make their own rates without Government restriction, was suggested at the Treasury on May 25 as a possible solution of the country's transportation problem, according to Associated Press dispatches, which further said:

High Treasury officials, discussing the 10% rate cut ordered yesterday by the Inter-State Commerce Commission, said that industrial benefit might be expected if the earning power of the railroads under the new rates is sustained, but that the real answer to the railroad problem would be to allow the carriers to make rates to suit themselves.

If the transportation problem could be attacked along the lines of the armament conference, and a holiday of Government railroad rate regulation of five years or more declared, the belief was expressed that the railroads could fix their rates to meet varying conditions in the different sections of the country somewhat on a basis of "what the traffic would bear," and better railroad sarvice and greatly improved industrial and commercial conditions would result.

Secretary Mellon was represented as favoring the removalof rate restrictions from the railroads and a return to the old competitive basis when, he was understood to beleive the country had the cheapest and best transportation facilities in its history.

The suggestion advanced at the Treasury was made merely as one of the possible solutions of the national transportation problem, but was taken as significant in view of the known intention of President Harding to recommend changes in the Transportation Act some time next winter. Business conditions throughout the country at present are "very promising," in the view of the Treasury, and improved railroad conditions are expected to materially aid the situation. The coal strike is the only cloud on the country's industrial horizon seen by the Treasury, but it is not regarded of sufficient size to interfere with the gradual betterment of the nation's business.

Secretary Hoover, however, expressed the opinion that the country would never stand for a railroad rate holiday.

Mr. Hoover added instead of a 10% reduction in the rates on luxuries, such as silk gowns, revenues received from such commodities might have been of more benefit if applied to the employment of railroad labor or the addition of equipment to the lines. He said he appreciated, however, that the commission was faced with a mass of technical difficulties in reaching its decisions.

HOWARD ELLIOTT OPPOSES REPEAL OF RATE-MAKING SECTION OF TRANSPORTATION ACT.

Howard Elliott, Chairman of the Board of the Northern Pacific RR., before the House Inter-State and Foreign Commerce Commission on May 16 opposed proposed legislation providing for the repeal of the so-called rate-making section of the Transportation Act and the amendment designed to restore to the State Commissions the same powers over rate matters held by them prior to enactment of the Transportation Act. Mr. Elliott said that it is in the public interest to look upon transportation questions from the national standpoint and not from "the divergent views of the various States. The executives as a whole have practically as a unit come to the conclusion that if you are going to have a first-class transportation machine, you have got to have somebody who is supreme in this regulatory system and that must be the Federal Government," said Mr. Elliott.

As an illustration of the need of this, Mr. Elliott called attention to the fact that the rates fixed on freight shipments between Hannibal and St. Joseph, Mo., a distance of 206 miles, is the keystone affecting all rates on all railroads between the Mississippi and the Missouri rivers, and between Dubuque and Sioux City, Ia., on the north, and St. Louis and Kansas City on the south. In addition, he said, these rates also affect rates extending from the Atlantic seaboard and as far west as Denver and some of the mountain States. The rates between Hannibal and St. Joseph, Mo., are intra-State rates, but to give the Missouri State Commission the proposed control over them would vitally affect the entire rate structure if that Commission should see fit to modify rates within that State. Mr. Elliott pointed out that statistics show that only about 15% of the freight traffic is intra-State, but said that any change made in rates on that 15% would affect the remaining 85% which constitutes inter-State traffic.

The hearing before the House committee is being conducted on the Sweet and Hoch bills, the purpose of which is to repeal the section of the Transportation Act providing for the establishment of rates which would yield a reasonable return to the carriers as a whole on the valuation of their properties and modifying the present powers of the Inter-State Commerce Commission over intra-State rates which discriminate against inter-State commerce.

On the 17th inst. Mr. Elliott told the House committee that the real purpose of the States in wanting the power now proposed in the bills pending before the committee is to enable them to establish lower rates. The power is not being sought for the purpose of making higher rates, added Mr. Elliott, who said the Federal Government wants the power in order to enable it to maintain an adequate system of transportation. Mr. Elliott cited numerous instances where burdens have been placed upon inter-State commerce by action of the State Commissions. There are State Commissions, however, which desire to co-operate with the Federal Government in maintaining adequate transportation systems, but they are frequently held down by State laws. An instance where a burden was placed on inter-State commerce by a State Commission and a barrier erected to the detriment of other States was cited by Mr. Elliott in the action of the Iowa authorities in 1909, in reducing freight rates below those of other States on hogs so as to bring about the establishment of slaughter houses within the State to obviate the necessity of making such shipments to points outside that State. If each State is going to be permitted to act independently, delays are going to result, Mr. Elliott said, and barriers are going to be erected between States. "It took six years to iron out the Shreveport case," he said. "I cannot see how you are going to have a homogeneous system of transportation if this regulatory power is broken up among the 48 States."

A. P. THOM DECLARES STATE RAILROAD COMMISSIONS HAVE RATE-MAKING AUTHORITY JUST AS BEFORE ENACTMENT OF TRANSPORTATION ACT.

The State Railroad Commissions have the same authority to initiate and establish freight rates that they had prior to the enactment of the Transportation Act, according to witnesses for the railroads who appeared before the House Inter-State and Foreign Commerce Committee in opposition to legislation designed to repeal the so-called rate-making section of the Esch-Cummins Act and limit the jurisdiction of the Inter-State Commerce Commission over State rates. Alfred P. Thom, General Counsel of the Association of Railway Executives, told the committee that the initial power of action in the matter of State rates lies with the State Commissions, just the same as it did before the Transportation Act became a law. Whenever a State, he said, has accepted the general principles laid down by the national Government, as embodied in the Transportation Act and administered by the Inter-State Commerce Commission, the State Commissions have retained absolute control over rates within that State. It has only been where States have refused to accept the national standard and have insisted on retaining in effect rates that discriminated against inter-State commerce, that the Federal Commission has been forced to act, according to Mr. Thom. Under the Transportation Act, Mr. Thom said, the final decision as to whether intra-State rates discriminate against inter-State rates is given to the Inter-State Commerce Commission, the purpose of the Act being to establish the transportation systems of the country on a national basis. "The Esch-Cummins Act has said that if it is an evil for a railroad to discriminate against some of its patrons, it is no less an evil if a railroad is made to do so by action of a State," said Mr. Thom. The statements of Mr. Thom were precipitated by an inquiry from a member of the committee as to the extent of the powers now held over intra-State rates by State Commissions.

RAILWAY LABOR DISPUTES AND THE FEDERAL POWER.

A timely discussion of the "use of Federal power in railway labor disputes," by Clyde O. Fisher, has just been issued by the U. S. Department of Labor through its Bureau of Labor Statistics, as Bulletin No. 303. In this bulletin the experience of this country in the development of Governmental authority in the settlement of railway disputes through the enactment of a series of laws is discussed. The law of 1888, providing for voluntary arbitration; the Erdman Act, the Newlands Act, the Adamson Law, and the Esch-Cummins law, all progress, although not in equal degree, towards the recognition of the principle of the paramount interests of the

public in these conflicts. The usefulness of a bulletin tracing the development of this legislation is apparent since it brings together the reactions of the different factions, that is, the unions, the railroad operators, and the public, through the period of more than three decades that this question has been actively before the public. The present law, which marks the final stage in the establishment of the primacy of the public interest, would seem to indicate that public opinion has crystallized to such a point, the author says, that "controversies on the railroads will never again be settled as though the contending parties were alone involved."

NEW ENGLAND ROADS WIN RATE DISPUTE—INTER-STATE COMMERCE COMMISSION SUSTAINED.

Federal Judges Hough, Manton and Mayer, sitting as a statutory court on May 25, denied the application of the trunk line railroads operating east of the Mississippi River for an injunction restraining the Inter-State Commerce Commission from putting into effect an order made on Jan. 30 1922, increasing by 15% the divisional rates allowed the New England lines for through freight. The New York "Times" on May 26 gave the particulars as follows:

The petitioning lines contended that the order of the Commission was discriminatory and contrary to the purpose of the Inter-State Commerce Act, which provides that the Commission shall see that just, reasonable and equitable rates are upheld. Counsel for the petitioners stated that the reason for increasing the rates in behalf of the New England lines was to help them along financially and that in effect the order of the Commission, if executed, would take money from one group of railroads in order to aid another group.

Charles F. Choate Jr., counsel for the Inter-State Commerce Commission, stated in his argument that the New England lines emerged from Government control in worse condition than the roads in any other part of the country and that they were not earning enough to pay operating expenses. He said that the roads were only asking for a fair share of what they helped to earn, and referred to the harm that would follow any inability of the New England lines to pay their employees.

The opinion of the Court calls attention to the heavy costs of operating the New England lines because of terminal characteristics, a density of branch lines, stations, switches, yards, &c., and states that the standardization of wages on the railroads by the War Labor Board had increased the cost of operation of the New England lines relatively more than other lines, and that its fuel expense was heavier than that of roads within easy reach of the coal producing territory.

It states that nothing was found in the record to justify any claim of abuse of discretion in rate making, and that sufficient study had been made of the situation to warrant the action that had been taken by the Commission, that for three years preceding the order there had been a heavy and far-reaching increase in railroad operating expenses throughout the country, and that because of this the Inter-State Commerce Commission made an increase in rates through the Eastern district amounting, in actual practice, to about 37%.

"We are satisfied," the opinion continues, "that a reasonable investigation was made by the Commission, finding that the existing divisions accruing to the New England lines were unjust, unreasonable and inequitable, and it was warranted in making its temporary order."

Concerning the existing relations between the Courts and the Commission, the opinion reads:

"The law is very well settled that the courts will not set aside an order of the Commission in proceedings such as this, unless it is in violation of the Constitution, or does not conform to the statutory authority of the Commission, or is not supported by evidence. The Courts will not review the wisdom or the expediency of the Commission's order and will not substitute their judgment for that of the Commission, even though it might be said an opposite finding would be supported by evidence."

The opinion was written by Judge Manton and concurred in by the other two Judges. It was said that an appeal would be taken to the United States Supreme Court.

APPROVAL BY EXECUTIVE COUNCIL OF A. B. A. OF BILLS AMENDING FEDERAL RESERVE ACT.

The following bill introduced in the United States Senate by Mr. Harris was read and discussed and its passage by Congress unnanimously recommended at the recent meeting of the Executive Council of the American Bankers' Association:

The paragraph 9 of Section 9 of the Federal Reserve Act as amended is amended to read as follows:

"No applying bank shall be admitted to membership in a Federal Reserve bank unless (a) it possesses a paid-up, unimpaired capital sufficient to entitle it to become a national banking association in the place where it is situated under the provisions of the National Bank Act, or (b) it possesses a paid-up, unimpaired capital of at least 60 per centum of the amount sufficient to entitle it to become a national banking association in the place where it is situated under the provisions of the National Bank Act and, under such rules and regulations as the Federal Reserve Board may prescribe, it sets aside annually in a fund an income not less than 20% of its net income for the preceding year and it increases its capital from such fund from time to time until it possesses a paid-up and unimpaired capital not less than the capital which would have been required if such bank had been admitted to membership under the provision of subdivision (a) of this paragraph."

Chairman Charles deB. Claiborne of the Committee on Exchange, submitted the following report, which was duly received and the committee commended for its earnest and conscientious work:

Considering judicial interpretation of the Federal Reserve Act thus far and the State Legislation adopted by eight states, we believe that the wisest solution of the matter at this time would be the adoption of the McFadden bill as amended by your committee, which amendment is:

"Subject to such regulations as the Federal Reserve Board may prescribe, any Federal Reserve bank may collect any check or draft by sending it direct to the bank on which it is drawn and may charge to the bank from which such check or draft was received, such exchange or remittance charge incurred in the collection of such check or draft—Provided, that nothing in this or any other section of this act shall be constructed as prohibiting any bank from making reasonable charges, in no case to exceed 10 cents per $1, or fraction thereof, based on the total of checks and drafts presented at any one time for collection or payment of checks and drafts and remission therefor by exchange or otherwise. That Section 16 of the Federal Reserve Act be amended to strike out the words 'at par' which occur in paragraph 14 of said section.

"Which amendment is in substitution of lines 16 to 22, inclusive, of the McFadden bill which reads, 'When a bank sends to the Federal Reserve bank for deposit or collection a check or draft indorsed by or originating with any other bank, the Federal Reserve bank shall, subject to the regulations of the Federal Reserve Board, make an additional charge on account of such item at a rate of exchange charged the Federal Reserve bank by such other bank when remitting for items drawn upon it.'"

Your committee has approved the suggested amendment because of the sincere belief that the McFadden Bill as proposed, owing to the extra penalty, would likely have one of the three following effects:

First: To force the bank to remit at par or submit to a penalty of the additional charge if items are collected by city correspondents.

Second: That city correspondents would be compelled to clear their out-of-town items through other channels than the Federal Reserve bank or absorb the additional charge.

Third: To have the out-of-town bank establish its own collection department.

All of which is impractical at the moment and would have the only effect of further complicating and delaying the ultimate solution of this complicated problem.

EXECUTIVE COMMITTEE OF A. B. A. RECOMMENDATIONS IN BEHALF OF FARMERS.

In another item we refer to the declaration of principles of the Executive Council of the American Bankers' Association at its recent annual meeting at White Sulphur Springs, this embodying its enunciations on the question of agriculture. The determination to extend all sound and practical banking co-operation to the farmer was a leading feature of the sessions of the Executive Committee, State Bank Division, of the American Bankers' Association at the Executive Council's meeting. The Special Committee on Farm Finance submitted a report, which was approved, in which it was declared that "After due consideration, we believe the Federal Farm Loan System to be of great benefit to the American farmer and recommend the development of the joint stock land banks and the Federal land banks whereby the farmers may be able to secure the proper amount of long-term land credit for their fixed investments." It was further recommended "that the State and National laws be so amended that incorporated banks may be permitted to invest in the stock of joint stock land banks not to exceed 3% of their capital and surplus." It was also set out that "the War Finance Corporation has and is serving a great need in this country and in our opinion, should be extended for a period of one year." The report likewise stated:

Your committee met in Washington, D. C., April 12, 1922, at a hearing before the Banking and Currency Committee of the House and went on record, assuming that the War Finance Corporation was to be discontinued, as favoring an intermediary credit whereby the farmers and livestock men might be enabled to establish credit through their respective banks to enable them to market their products in an orderly way. The committee did not indorse any particular bill, but recognized in a general way the good features and objectional features that all bills that have been presented seem to contain.

The committee differed as to the plan of securing the so-called intermediary credit, the chairman of the committee believing it should be handled in some way through the Federal Reserve banking system and other members believing a separate organization should be established for this purpose. Therefore, all members of the committee that were present were unanimous in their opposition to placing it in the Federal land bank system for the reason that discount banking and investment banking should be entirely distinct.

SILVER ANNIVERSARY OF PENNSYLVANIA BANKER'S ASSOCIATION—PRESIDENT DUNBAR'S ADDRESS.

At the silver anniversary convention of the Pennsylvania Bankers' Association at Pittsburgh, this week (May 24, 25 and 26) Alexander Dunbar, President of the Association, and Vice-President and Cashier of the Bank of Pittsburgh N. A., stated that "excepting two banks which have not yet 'caught the vision' our Association has a 100% membership, backed by State-wide enthusiasm, complete harmony in the ranks, and a sincere desire for larger service and achievement. What more potent combination," he said, "than this for the 'Forward March?' Shall we now mark time, satisfied with the accomplishments of our foundation builders, or shall we go on to the completion of a still more stately and serviceable structure? There is but one answer—we must carry on." Mr Dunbar also said in part:

The "get together" spirit, the desire to meet on common ground, to exchange experiences and confidences, which prompted the creation of the Pennsylvania Bankers' Association has continued to nourish and animate it through the quarter century of its history.

The remarkable development of Pennsylvania's great banking and industrial resources, in which our members have so large a part, must not obscure our vision of the greater things yet to come. The thought

of sufficiency must not dull the keen edge of our honest ambition. What shall be the aim and purpose of this ambition? It must be *service* in the broadest implications of that term. Its interpretation rests upon the fact that the banker lives, moves and has his being in the needs of the community; the final measure of his reward will depend upon how well he meets these needs.

Limitations of time does not permit of extended reference to the numerous and important activities in the year's march of progress. Special mention should be made, however, of the Committee on the new Banking Code for Pennsylvania, which is completing one of the most laborious and promising pieces of work in the history of our Association. Grateful mention is made of the splendid work of the Legislative Committee on Protective Information, the Committee on Advertising, the Committee on Publication, the Committee on Membership, the Committee of Finances, the Auditing Committee, the Budget Committee, the Committee on Resolutions and the Committee on Robert Morris Memorial.

Mr. Dunbar referred to the fact that "the banking and credit situation is to-day very much more secure than anyone would have dared to hope a year ago," adding in part:

The easing of money rates, the increase of reserves against notes, the decline in circulation, the steady reduction of discounts and the thawing out of frozen credits all tend to bring about a better feeling in business based not upon expectancy but upon fundamental improvements that are now tangible and visible.

It must be recognized that the highway of business prosperity so long sunless and out of repair is not yet wholly free from shadows and obstacles. Such domestic questions as the coal strike, the proposed soldiers' bonus and pending tariff legislation, and such international problems as the economic restoration of Europe and the stablization of the world's exchanges throw their shadows athwart the road ahead. But slowly, if painfully, these problems are being solved. Certainly there is in the outlook much more of sunshine than of shadow.

Grateful for our escape from many of the serious economic ills that afflict much of the outside world; careful as always of the trust reposed in us as custodians and conservers of the credit of our communities, let us go forward confident in our strength and our integrity along the business highway which leads to larger service and to increased prosperity.

COMMITTEES ORGANIZED FOR A. B. A. CONVENTION.

Organization of a finance committee and a committee on convention information to take charge of arrangements for the American Bankers Association convention to be held in New York October 2 to 6, of this year has been announced by Seward Prosser, President of the Bankers Trust Company, and Chairman of the Committee of One Hundred, which has general charge of all preparations for the gathering. The Finance Committee, responsible for preparing a budget and providing for the expenses of the convention, will be under the direction of Gates W. McGarrah, Chairman of the Board of Directors of the Mechanics and Metals Bank, His associates will be James S. Alexander, President of the National Bank of Commerce; Charles E. Mitchell, President of the National City Bank; William C. Potter, President Guaranty Trust Company; Jackson E. Reynolds, President First National Bank; Albert H. Wiggin, President of Chase National Bank, and William Woodward, President of Hanover National Bank. Guy Emerson, Vice-President of the National Bank of Commerce, has been selected to head the commitee on convention information. His associates will be Shepherd Morgan, Assistant Federal Reserve Agent in New York; George E. Roberts, Vice-President National City Bank; Francis H. Sisson, Vice-President Guaranty Trust Company and Grosvenor Farwell of Hitt, Farwell & Park. Mr. Emerson who has established headquarters for his committee in the Equitable Building says:

"It will be the duty of this Committee, to supply complete information to the 23,000 members of the Bankers Association in all parts of the country on all matters connected with the convention. We mean to emphazise the importance of the October meeting to the banking interest of the United States in view of the serious national and international problems that will come up for discussion. We also hope to show the fundamental hospitality of New York as a city and to make plain to all of our guests the attractions available to visitors here. We believe that more than 7,500 members of the Association and their friends will attend."

ITEMS ABOUT BANKS, TRUST COMPANIES, ETC.

Four hundred and ninety shares of National Bank of Commerce stock were sold at the Stock Exchange this week. No sales of trust company stock were made either at the Stock Exchange or at auction. The National Bank of Commerce stock sold at 267. This is the same price as the syndicate offering of 40,994 shares, to which reference is made further below, and an advance of 57 points over the last previous sale in Feb. 1921, at 210.

Shares.	*Bank—*	*Low.*	*High.*	*Close.*	*Last Previous Sale.*
490	Nat'l Bank of Commerce	267	267	267	Feb. 1921 210

Two New York Stock Exchange memberships were reported posted for transfer this week, the consideration being stated as $99,000 and $98,000, respectively. Last previous sale was for $97,000.

A New York Curb Market membership was reported sold this week for $7,000. The last previous sale was at $6,900.

The New York Coffee & Sugar Exchange will be closed Monday next, May 29, the day preceding Decoration Day, the Board of Managers of the Exchange having approved the petition for the extra holiday. The Coffee & Sugar Exchange has also decided to close the Exchange on all Saturdays in June, July and August and on Sept. 2, one exception, however, being made, on July 1. The New York Stock Exchange has taken no action on Monday's closing and that Exchange will be open for business as usual that day. The petition of the members of the N. Y. Cotton Exchange to close on Monday was rejected by the Board of Managers this week.

A syndicate consisting of Heidelbach, Ickelheimer & Co., Lazard Freres, Lehman Bros., Hallgarten & Co., Goldman, Sschs & Co., Kidder, Peabody & Co., and Salomon Bros.& Hutzler on May 22 offered 40,994 shares of the capital stock of the Natonal Bank of Commerce in New York, at $267 a share, yielding on the basis of last year's dividends, about 6%. Heidelbach , Ickelheimer & Co. announced on the 23rd inst. that applications having been received in excess of the amount offered for subscription, the books had been closed and that allotments would be made on the basis of 50% of the amount of stock applied for. The stock was acquired by the banking group from the Equitable Life Assurance Society of the United States and the Mutual Life Insurance Company of New York, representing their entire holdings. James S. Alexander, President of the National Bank of Commerce in New York, on May 17 addressed the following letter to the banking group which purchased the stock and made the public offering.

Dear Sirs—Referring to your advice that you have purchased a block of stock of this bank and to your request for information respecting its history, growth and condition, I beg to advise you as follows:

The Bank of Commerce in New York was organized in 1839 and entered the national banking system in 1865. From the outset it has been essentially a commercial bank and its development and growth have coincided with the development and growth of the business and commerce of the United States. Its present business is national and international in scope.

The bank in the last ten years has, in round figures, increased its net deposits from $104,259,000 to $302,190,000. The capital during these years has remained unchanged at $25,000,000. Its surplus and undivided profits, which stood at $16,257,000 ten years ago, now amount to $36,-206,000. The assets of the bank are conservatively valued and the figures of its capital, surplus and undivided profits are, therefore, not subject to reduction.

The bank has an unbroken dividend record. For thirty-eight years prior to 1916 the dividend rate was 8% per annum. Its capital during that period was several times increased. In each of the years 1916 and 1917 extra dividends of 2% were paid. In 1918 the regular dividend rate was increased to 10%. In 1919, in addition to the regular dividend of 10%, an extra dividend of 2% was paid. During 1920 the regular dividend rate was increased to 12% and an extra dividend of 3% was paid. In 1921, in addition to the regular dividend of 12%, and extra dividend of 4% was paid.

Stock of the Bankers Trust Co. of this city to the amount of 9,277 shares (par $100) was sold at public auction through Adrian H. Muller & Sons on Thursday of this week (May 25) at prices ranging from $328 50 to $338 50 per share. The stock was sold for the account of the estate of E. C. Converse, deceased. Regarding the sale, the "Wall Street Journal" of May 25 said:

One block of 50 shares sold at 338½, while a majority of the sales were made at prices from 332½ to 336. The opening sale was 333 for 21 shares.

Stock was offered in lots of one share, with the privilege to the successful bidder of taking up 49 additional shares at the same price.

It was announced before the sale that a syndicate in which officers and directors of the Bankers Trust were participants, had bid $310 per share on each lot to be offered, and that the sale would start at that price.

Shortly after the opening of the sale, it became evident that the stock was going to command fair figures. During the morning it became known that several other syndicates were prepared to bid figures in excess of that of the Bankers Trust syndicate.

The over-the-counter market in the morning quoted Bankers Trust Co. shares at 330@345. Some brokers later hesitated to quote the stock, while the auction sale was in progress.

Last Saturday, Bankers Trust shares were nominally quoted 320@325.

The bidding at the auction was indulged in by parties representing various interests, and the identity of the actual purchasers was not made known. It is thought, however, that interests identified with the Bankers Trust purchased a good part of the offering.

The American Exchange National Bank of this city, has recently issued a booklet, styled "Better Banking Under the Federal Reserve System," which describes in simple and interesting terms the exact operations of the Federal Reserve Banks. The bank says:

The tremendous increase in agriculture and manufacturing within the past 25 years made it absolutely necessary that there should be evolved a sound banking system which would enable us to take proper care of our constantly expanding trade, and it is a matter of extreme gratification that our Government was able to create an Act under which the Federal Reserve Banks are to-day giving our entire population facilities of the most highly satisfactory and useful character.

The booklet is described as "a short story without figures;" among other things it tells of " the kinds of loans Federal Reserve banks make;" "how one District helps another

District;" "the power to issue currency;" "local self-government in banking," &c.

The New York Chapter of the American Institute of Banking, at its annual meeting held on May 18th, elected the following officers to serve from June 1 1922:

Frank M. Totton of the Fidelity-International Trust Co., President; Ernest T. Love of Chase National Bank, 1st Vice-President; Wm. G. F. Price of the National City Bank, 2nd Vice-President; L. H. Chirogge of the National Park Bank, Treasurer; N. M. McKernan of the Irving National Bank, Chief Consul.

The Imperial Ottoman Bank, in addition to the opening of a branch at Hamadan, Persia, as stated in our issue of March 11, and of a sub-agency at Ramallah, Palestine, as announced Feb. 25, has opened a sub-agency at Bethlehem, Palestine, and will open shortly a sub-agency at Nablous, Palestine. The bank is associated also with the Bank of Roumania, Ltd., Banque de Syrie, Banque Franco Serbe.

The National Butchers and Drovers Bank of New York announces the election of Leonard L. Rothstein as Vice-President. Mr. Rothstein has been a director of the institution for many years.

It is understood that negotiations are pending for the acquisition of the stock of the First National Bank of Ozone Park, Queens, N. Y., by the Bank of the Manhattan Co. of this city. The plans propose the merger of the First National with the Bank of the Manhattan Co. The stockholders of the Ozone Park institution, it is understood, have been offered $800 for their stock, subject to certain conditions, and have agreed to accept the offer. The First National Bank has a capital of $50,000 and surplus and undivided profits of $125,000. The deposits of the institution approximate $3,000,000. The bank was formed in 1907 with $50,000 capital. John B. Reimer, who is one of the largest stockholders of the institution, has been President since its organization.

Negotiations have been completed by The Peoples Trust Co. of Brooklyn, N. Y., for the purchase of the Homestead Bank of Brooklyn, located at Pennsylvania and Liberty Aves., East New York. The directors of both institutions have agreed to the terms of the acquisition and a merger agreement will be adopted at meetings of the respective board to be held on June 1. Stockholders meetings will be held about two weeks thereafter to ratify the agreement. The offer of The Peoples Trust Co. to the stockholders of The Homestead Bank is $150 in cash and ½ share of Peoples Trust Co. stock for each share of Homestead Bank stock. Stockholders of The Homestead Bank who prefer to receive all cash, may dispose of their Peoples Trust Co. stock at $300 per share. The stock of the trust company will be increased from $1,500,000 to $1,600,000. The Homestead Bank was organized in 1907 and has a capital of $200,000, surplus and undivided profits of $200,000, and deposits exceeding $5,000,000. Rudolph Reimer Jr. is the President and one of the largest stockholders. Resources of The Peoples Trust Co. are approximately $50,000,000. The Homestead Bank will be continued in its present location as the Homestead Branch of The Peoples Trust Co. The personnel will remain unchanged.

At a special meeting of the stockholders of the Twenty-Third Ward Bank of Bronx, N. Y., on May 23 the proposal to increase the number of directors from 10 to 16 was ratified.

On Monday, May 22, the Slater Trust Co. of Pawtucket, R. I., became the "Industrial Trust Company, Slater Branch," the institution having been taken over by the Industrial Trust Co. of Providence on May 20. The Slater Trust Co. had a capital of $500,000 and was the largest independent bank in the Blackstone Valley. A special meeting of the stockholders of the Industrial Trust Co. has been called for June 1, at which time the directors will recommend that the capital of the institution be increased from $3,000,000 to $4,000,000 by the issuance of 10,000 shares of new stock (par value $100 per share), to be offered to the stockholders at $200 a share, in the ratio of one share of new stock for every three shares now held; the premium of $1,000,000 thus obtained to be added to surplus. The directors will also recommend that $1,000,000 be taken from the undivided profits account and added to surplus. If the stockholders ratify these recommendations, the Industrial Trust Co. will have a capital of $4,000,000, surplus of $6,000,000 and undivided profits and reserves of $2,698,464. For some time the Industrial Trust Co. has maintained a branch in Pawtucket. This branch is to be consolidated with the Slater branch as soon as extensive aiterations are made in the building now occupied by the latter branch. Howard W. Fitz, formerly a Vice-President of the Slater Trust Co., has been made a Vice-President of the Industrial Trust Co. and Manager of the Slater branch. Henry C. Jackson, heretofore Treasurer of the acquired bank, has been elected Assistant Manager and Trust Officer of the Slater branch, and Homer W. Gray and Jeremiah F. Browning, formerly Secretary and Assistant Treasurer, respectively, of the Slater Trust Co., have been made Assistant Managers of the branch. Charles O. Read, formerly President of the Slater Trust Co., and Andrew E. Jencks, formerly a Vice-President, have been elected directors of the Industrial Trust Co. The following is the complete list of officers of the Industrial Trust Co.:

Samuel M. Nicholson, Chairman of the board of directors; H. Martin Brown, President; Joshua M. Addeman, Florrimon M. Howe, Eben N. Littlefield, James R. MacColl, Ward E. Smith, Henry B. Congdon and Elmer F. Seabury, Vice-Presidents; J. Cunliffe Bullock, Vice-President and Trust Officer; William G. Roelker, and Howard W. Fitz, Vice-Presidents; Chester R. Martin, Treasurer; Harry C. Owen, Secretary; Ellery Holbrook, Assistant Treasurer; Earl S. Crawford and Nicholas E. Carr, Assistant Secretaries, and Carleton E. Taft, Auditor.

At a meeting of the directors of the Industrial Trust Co. of Providence on May 19, Charles O. Read and Andrew E. Jencks were elected directors of the company. Howard W. Fitz was also elected a Vice-President of the company.

At a special meeting of the stockholders of the National Bank of Commerce of Rochester, N. Y., on May 10, it was voted to increase the capital stcok of the bank from $750,000 to $1,500,000. The increase, as stated in our issue of April 22 was recommended by the directors at a meeting on April 4. The new stock is being disposed of at par $100 per share, to existing stockholders only. The enlarged capital will become effective Sept. 30 1922.

H. Edmund Machold, heretofore Vice-President was elected President of the Northern New York Trust Company, of Watertwon, N. Y. on May 16. Mr. Machold is at present the Speaker of the N. Y. Assembly.

Colonel David Flyn has been elected President of the First National Bank of Princeton, N. J., to succeed the late Albert S. Leigh. Mr. Flynn entered the bank as a clerk in 1899, and served as Assistant Cashier, Cashier and Vice-President. He resigned as Cashier in 1917 to enter the World War as Division Ordinance officer of the 8th Division regular army. On May 5 the First National of Princeton reported a capital of $50,000; surplus and net undivided profits of $80,489; deposits of $1,609,217, and aggregate resources of $1,789,707.

The Cobb's Creek Title & Trust Co. of Philadelphia, Pa., opened its doors for business on May 20. The new institution is located at Fifty-eight St., Baltimore Ave.and Cobb's Creek Parkway. It has a capital of $125,000 and a surplus of $12,500. The officers of the new institution are: President Richard Purdy; Vice-Presidents, Walter M. Groshon and John A. Thomas; Secretary and Treasurer, George C. Rudolph; Assistant Secretary, Colin D. Smith; Assistant Treasurer, George Wolfe; Title Officer, Joseph K. Nicholls; Trust Officer, Joseph Newman. The stock is in shares of $50 each, and it was placed at $60 per share.

Livingstone E. Jones, President of the Savings Fund Society of Germantown, Pa., has been elected President of the First National Bank of Philadelphia. In the latter post he succeeds William A. Law, who will become President of the Penn Mutual Life Insurance Company, July 1st.

R. Gordon Finney has been elected a Vice-President of the Commerce Trust Company of Baltimore, Md. Mr. Finney is at present superintendent of supervisors of national bank examiners. He has been for some years a bank examiner and has been in the service of the Government for 7 years.

On May 8th the board of directors of the Riggs National Bank of Washington, D. C., and the Hamilton National Bank of Washington, D. C., signed an agreement to consolidate the two institutions under the name and title of the Riggs National Bank of Washington, D. C. This

merger to become effective on June 10th if ratified by the stockholders of the two institutions at a special meeting to be held by the stockholders of both institutions on June 8th. The Riggs National Bank has a capital of $1,000,000 and a surplus of $2,000,000, and resources of over $28,000,000. The Hamilton National Bank has a capital of $200,000 and resources of over $900,000. The Hamilton National Bank was formerly the Hamilton Savings Bank but preliminary to the consolidation has been converted into a national institution, the Comptroller of the Currency, having recently approved its application and granted it a charter. The officers of the consolidated institution will be the same as the officers of the Riggs National Bank. Managers will be elected for the additional offices of the Riggs National Bank but up to the present time, this has not been done.

On May 8 the Modern Savings & Trust Co. at 6317 Franhistown Ave., Pittsburgh, was closed after an investigation by the State Banking Department, according to the Pittsburgh "Gazette" of May 9. The bank, it is stated, was organized by, and almost exclusively served, negroes. Its capital was $125,000. According to a statement issued by P. G. Cameron, the Deputy Commissioner of Banking, Bank Examiner, M. P. Clancey, had found losses and doubtful loans in such amounts as to necessitate the closing of the bank in order to determine the true condition ot its affairs. The President of the bank, J. L. Phillips, stated, it is said, that a meeting of the stockholders would be called and an effort made to meet the requirements of the Banking Department.

The Comptroller of the Currency announced on May 9 that the Clinton County National Bank of Wilmington, Ohio, had changed its name to the Clinton County National Bank & Trust Company of Wilmington.

The charter of the National Bank of Delphos, Ohio, (capital $60,000) expired by limitation on May 14 1922; the institution has been succeeded by the Old National Bank of Delphos.

The National City Bank of Evansville, Ind., began business on March 8, as successor to the City National Bank of Evansville. The stock of the institution, par value $100, was disposed of at $110 per share. It has a capital of $500,000. The officers of the bank are: Francis J. Reitz, President; C. B. Enlow, Vice-President; Bernard S. Alnutt, Cashier; Syl. H. Kuhn, Asst. Cashier, and John H. Dippei, Asst. Cashier.

The Prairie State Bank of Chicago, Ill., opened its doors for business on May 6. The new bank has a capital of $100,000 with $20,000 surplus; its stock (par $100) was disposed of at $120 per share. Ernest B. Tomlinson is President and Arvid L. Peterson is Cashier.

On April 21 the Marshall & Ilsley Bank, the oldest bank in Milwaukee and one of the pioneer banking institutions of the Northwest, celebrated its 75th anniversary. The institution had its beginning back in 1847 when on April 21 with but a few thousand dollars capital Samuel Marshall opened a little banking office in a small store on East Water Street; Milwaukee at that time being a city of not over 10,000 inhabitants. Since that time the bank has kept pace steadily with the growth of the city and to-day is one of the largest banking institutions in Milwaukee with a capital of $1,000,000 and deposits in excess of $21,874,000. Shortly after Mr. Marshall opened his banking office, William J. Beil entered into partnership with him under the firm name of Marshall & Co. Two years later (1849) Charles F. Ilsley became associated with Mr. Marshall and the name of the firm was changed to Marshall & Ilsley, its present title. In 1888 Marshall & Ilsley was incorporated under the Wisconsin Banking Law with a capital of $200,000. During its 75 years of existence the bank has outgrown several buildings. At present it occupies a handsome building on East Water Street which it erected about 9 years ago. In 1906 the business of the bank was expanded by the opening of a branch on the South side of Milwaukee, a building being erected for that purpose at 374 National Ave. This building was recently remodelled and improved and its formal opening formed a part of the anniversary, celebration. An important feature of the new building is the vaults which are absolutely fire and burglar proof. They were built and erected under the supervision of E. A. Strauss of Chicago. The great doors fit with an air and water joint and because of the materials used in their construction, are practically immune to explosives and the acetylene torch. In 1901, after holding the Presidency for 54 years, Mr. Marshall retired on account of failing health and was succeeded by Mr. Ilsley who held the position until his death in 1904. The present head of the institution is John H. Puelicher who was elected to the office in 1920. Mr. Puelicher entered the bank as a discount clerk in 1893 and is to-day not only one of the prominent bankers of Milwaukee, but, as First Vice-President of the American Bankers' Association and Chairman of the Educational Committee of that organization, one of the well known bankers of the country. The other officers of the Marshall & Ilsley Bank are: John Campbell, G. A. Reuss, F. X. Bodden and J. H. Dagget, Vice-Presidents; John E. Jones, Cashier; H. J. Paine, Joseph C. Moser, A. B. Nichols, Jr., Charles F. Ilsley and A. S. Puelicher, Assistant Cashiers and Carl R. Jeske, Assistant Manager of the South side branch. Vice-President G. A. Reuss is the Manager of the South side branch. Mr. Reuss, who is the son of one of the former Presidents of the institution, has been in charge of the branch since it was opened 26 years ago and the continuous increase in the volume of its business is due to his able management.

William S. Ryland, Vice-President and Cashier of the National State and City Bank of Richmond, Va., has been elected Vice-President of the Old Dominion Trust Company of Richmond, Va., which was recentlly acquired by the National State and City Bank interests. S. Young Tyree, Assistant Cashier of the National State and City Bank, has been made Manager of the trust company's branch at the corner of Broad and Harrison Streets.

The National State & City Bank of Richmond, Va., recently purchased the controling interest in the Broad Street Bank of that city. The Broad Street Bank, of which the late W. M. Habliston was founder and President, has a capital of $200,000; surplus and undivided profits of $257,909 and deposits of approximately $3,220,889. The following, we are advised, have been elected officers of the Broad Street Bank: W. S. Rhoads, Chairman of the Board; Oscar E. Parrish, President, and E. L. Word, Vice-President and Cashier (formerly cashier).

The First National Bank of Lancaster, S. C., (capital $50,000) was placed in voluntary liquidation, effective May 15. The business of the bank has been absorbed by the First Bank & Trust Company of Lancaster, S. C.

L. M. Lord, Chairman of the Board of the Livestock National Bank of Omaha, Neb., died on May 10. He was 54 years of age. He organized the Livestock National in 1907 and was the first Cashier of the institution. He later was elected President which position he held till last year, when he resigned to become Chairman of the Board of Directors.

The Fidelity Savings State Bank, a new Topeka, Kan., institution, opened for business on April 29 in temporary quarters at 610 Kansas Ave. It has a capital of $200,000. A building for the new bank is in course of construction at the southeast corner of Sixth and Kansas avenues. The officers of the Fidelity Savings Bank are J. H. Collingwood, President; Matt Weightman Jr., Vice-President, and Russell Frost, Cashier. Mr. Collingwood went to Topeka from Plains, Kan., four years ago to become Vice-President of the Farm Mortgage Trust Co., which position he continues to hold. He is in addition President of several banks in Southwestern Kansas.

The First National Bank of Bakersfield, Calif., (capital $400,000) was placed in voluntary liquidation, effective May 3 1922. Its business has been absorbed by the Bank of Italy, San Francisco, Calif., with the exception of the Maricopa branch office, the business of which has been taken over by the Bank of Maricopa, Maricopa, California.

TEXT OF DECISION OF INTER-STATE COMMERCE COMMISSION IN FAVOR OF A 10 PER CENT REDUCTION IN FREIGHT RATES.

We give on this and succeeding pages the full text of the decision and opinion of the Inter-State Commerce Commission, as made public the present week, in the matter of the readjustment to a lower basis of the transportation charges on United States railroads. As outlined in the preceding article, the conclusion of the Commission is that there should be a horizontal reduction of 10% in freight rates, to become effective July 1, with no change in passenger rates. This conclusion has not yet been embodied in a definite order, but the carriers are asked to advise the Commission "promptly, and not later than May 31 1922, if possible, whether the findings herein will be carried into effect without formal order or orders."

We devote so much space to the publication at length of the remarks and discussions of the Commission because the matter is of deep concern to the entire population. This follows not alone from the fact that transportation charges enter into the cost of everything, but also from the circumstance that the process of reasoning employed by the Commission in reaching its findings is itself a subject of vital importance. In considering the question of a rate reduction, and its extent, the Commission had to take into account many collateral factors, and the discussion and treatment of these forms an important feature of the discussion. In effect, the report of the Commission is a discussion of the entire economic situation, and for that reason it should command wide interest outside the confines of railroad and shipping circles.

REPORT OF THE COMMISSION.

By the Commission:

This proceeding was instituted upon our own motion for the purpose of determining whether, and to what extent, if any, further general reductions in rates, fares, and charges of carriers by railroad applicable to inter-State or foreign commerce may lawfully be required under Section 1 or other provisions of the Inter-State Commerce Act upon any commodities or descriptions of traffic; and also to determine what will constitute a fair return on and after March 1 1922, under Section 15a (3) of the Inter-State Commerce Act.

The important questions for determination are whether present rates, fares, and charges, in the aggregate, as a whole or in the several groups defined in *Increased Rates*, 1920, 58 I. C. C., 220, 489, *Authority to Increase Rates*, ibid., 302, or upon specified commodities or descriptions of traffic, are or will be unreasonable under Section 1 or other provisions of the Act; whether such rates, fares, and charges are those which will most nearly produce a fair return, as provided in Section 15a; and what the fair return shall be on and after March 1 1922. When this proceeding was instituted there were pending before us several petitions filed by carriers and by various organizations of shippers in which we were asked to enter upon general investigations into the reasonableness of existing rates and charges.

A copy of our order instituting this investigation was served upon all common carriers by railroad subject to the Inter-State Commerce Act which file annual reports with us, including the more important electric railroads, upon the Governor of each State, and upon the tribunal thereof having regulatory powers over common carriers by railroad. General notice was given to shippers and the public. Prior to the hearings the carriers were requested to include in their evidence data designed to develop, *inter alia*, to what extent since August 1920: (*a*) carriers have realized the fair return contemplated by Section 15a; (*b*) operating expenses have been reduced; (*c*) the cost of fuel to carriers has declined; (*d*) rates and charges have been further increased or decreased; and also to what extent (*e*) net income can be increased by enhanced economy and efficiency of operation. Hearings were held in Washington in December 1921, and January, February and March 1922, at which everyone desiring to offer evidence was heard. The case was submitted upon oral argument and briefs.

In *Increased Rates*, 1920, *supra*, decided July 29 1920, we designated rate groups as provided in Section 15a, and authorized substantial increases in freight rates, passenger fares, and certain charges. Late in that year there developed in this country a pronounced and long-continued business depression, nation wide, a phase of the general post bellum adjustment throughout the world. Practically all traffic and all industry have been affected. There has been substantial reduction in the price of most commodities without a corresponding reduction in rates. There is a definite conviction in the minds of the shipping public that the present rate level is unreasonably high, is an effective barrier to the return of business activity, prosperity, and the usual volume of traffic, and that it should be substantiaaly reduced.

Fair Return.

Section 15a (3) of the Inter-State Commerce Acts provides:

The Commission shall from time to time determine and make public what percentage of such aggregate property value constitutes a fair return thereon, and such percentage shall be uniform for all rate groups or territories which may be designated by the Commission. In making such determination it shall give due consideration, among other things, to the transportation needs of the country and the necessity (under honest, efficient and economical management of existing transportation facilities) of enlarging such facilities in order to provide the people of the United States with adequate transportation: *Provided*, That during the two years beginning March 1 1920 the Commission shall take as such fair return a sum equal to 5½% of such aggregate value, but may, in its discretion, add thereto a sum not exceeding one-half of 1% of such aggregate value to make provision in whole or in part for improvements, betterments or equipment, which, according to the accounting system prescribed by the Commission, are chargeable to capitl account.

In *Increased Rates*, 1920, *supra*, we exercised the discretion conferred upon us and to the 5½% return added the one-half of 1% during the two-year period to make provision for improvements, betterments, or equipment.

Since August 1920 the carriers as a whole, or as a whole in their respective rate groups, have failed by a considerable margin to earn the authorized return. It is urged by some that under existing conditions the question of a fair return for the future is academic and that it is not necessary for us to determine a percentage of return at this time. We do not take this view. The operation of economic forces which have prevented, or which may hereafter prevent, carriers from earning a fair return under the adjustment of rates then prevailing does not constitute a bar to determination of what a fair return should be. By the qualifying words "as nearly as may be," Congress recognized that conditions during certain periods might prevent such realization under any adjustment of rates.

The provisions of Section 15a in this respect have been framed in recognition of constitutional guaranties of fair return upon property devoted to public use. They also declare the policy of Congress—

in its control of its inter-State commerce system . . . to make the system adequate to the needs of the country by securing for it a reasonable compensatory return for all of the work it does. *Railroad Commission of Wisconsin et al.* v. *C. B. & Q. RR. Co.*, 66 L. ed. (U. S. Sup. Ct.) 236, 42 Sup. Ct. Rep., 232, decided Feb. 27 1922.

The determination of what will constitute a fair return under paragraph (3) of Section 15a is, in our judgment, a function distinct from that of initiating and adjusting rates under Paragraph (2) of that section. Section 15a, reasonably construed, contemplates the determination of a return which the carriers, collectively or in rate groups, may attain over a period of time under rates adjusted from time to time with that object in view. The phrase "from time to time" does not mean that we should adjust and readjust rates to meet business fluctuations. Whether carriers may be able to earn an aggregate net railway operating income equal to a fair return must depend to a large extent upon business conditions. In the *Wisconsin case*, *supra*, the Court said:

The new measure imposed an affirmative duty on the Inter-State Commerce Commission to fix rates and to take other important steps to maintain an adequate railway service for the people of the United States. This is expressly declared in Section 15a to be one of the purposes of the bill.

We have before us a practical problem. The record emphasizes the need of a constant influx of capital to meet the country's growing transportation needs. In the 10-year period ending June 30 1916, a period of relatively low costs of materials, supplies, and labor as compared with present costs, there was a net addition to capital account for new lines and extensions, additions, betterments, and general expenditures properly chargeable, to that account which aggregated about 5¾ billion dollars, or an average of 574 millions per annum. According to an exhibit of the carriers, expenditures for such purposes in the 12 months ended Sept. 30 1921, aggregated about 365 millions, an average of 1 million a day. This omits certain roads not reporting. The carriers estimated that, based on the volume of traffic which they were then handling, capital expenditures in the year 1922 should approximate 458 millions, and that if transportation facilities are to be expanded in 1922 as they should be to provide for a materially increased volume of business, the expenditure this year should be approximately 858 millions, or an average of 2 1-3 million dollars a day. Others estimate lesser amounts. Some authorities on transportation and economic conditions place the requirements for the next few years at even higher amounts, to come in part out of earnings, and predict that, unless there is immediate resumption of new construction, a return of anything like normal business will result in "strangulation for lack of transportation." Others are of opinion that the existing transportation machine, if properly maintained, with necessary additions in the way of terminals and trackage facilities, is adequate to handle the business which may reasonably be expected in the immediate future.

It is obvious that large additions to capital must continually be made. Most of the capital will have to be acquired through the issuance of securities which must be sold in the markets of the world in competition with other classes of securities. Within the next few years the Government must provide for the refunding of some 6 billions of its indebtedness. The carriers must attract money by rates of return and stability of investment. While return must not exceed a reasonable charge against the public served, it must be such as to obtain the needed new capital. It is necessary to determine and make public, as required by Section 15a, a percentage of fair return. Determination of the percentage implies, or carries with it, no guaranty. Read in connection with the provision for recapture of one-half of the excess above 6%, it is, instead, a limitation.

Because the yield on some railroad bonds has declined to something over 5% it does not follow that a fair return should approximate that percentage. We do not deal alone with interest rates on mortgage obligations, or with the more favorably located and prosperous carriers whose credit conditions may enable them to obtain money at relatively advantageous rates. In the recapture provisions Congress recognized that uniform rates on competitive traffic which would adequately sustain all the carriers would produce substantially and unreasonably more than a fair return for some carriers. We should not take the few, and the highest type of their securities, as the basis for determining what shall be a fair return for all. It can hardly be disputed that the carriers of this country should not continue to provide for all needed capital by successive bond issues. Issuance of bonds in a disproportionate degree unduly increases fixed charges and tends to weaken the credit of the carriers. In such a process eventually a point must be reached where no new capital can be raised, except for short terms at high rates. No substantial proportion of the new capital has been raised by issuance of stock since 1907.

Notwithstanding the failure of the carriers to earn the 6% allowed in the first two years of operation under Section 15a, there is an upward trend in railroad securities, which share in the improved conditions that have prevailed generally in the money market. This is urged upon us as an argument for reduction in the percentage to be determined. Other elements, however, are to be considered. The intent of Congress was to create a steady and reliable flow of money "for enlarging such facilities in order to provide the people of the United States with adequate transportation." A substantial reduction in the percentage of return might be unsettling in its effect, particularly in light of the fact that the return allowed in 1920 was not realized. The fact that a utility may reach financia success only in time or not at all is a reason for allowing a liberal return on the money invested in the enterprise. *Galveston Electric Co.* v. *City of Galveston*, 42 Sup. Ct. Rep., 351, decided April 10 1922.

In numerous cases cited, courts and regulating authorities of States have recognized that public utilities and railroads may be permitted individually to earn under reasonable rates at least 6% upon fair value. In some in-

stances higher rates of return have been approved. But we are here considering return upon "the aggregate value of the railway property."

The Inter-State Commerce Act in many provisions other than those quoted indicates that 6% may be regarded as a fair return. Paragraph (6) of Section 15a provides for the disposition of net railway opreating income in excess of 6% of the value of the property held for and used in the service of transportation. One-half of the excess goes into a reserve fund, which may be drawn upon for certain purposes, in accordance with paragraph (7), when net railway operating income for any year is less than a sum equal to 6% upon the value. Under paragraph (12) we may make loans from the general railroad contingent fund, such loans to bear interest at the rate of 6% per annum. Under paragraph (14) we may lease equipment or facilities purchased from the general railroad contingent fund, the rental charges to be at least sufficient to pay a return of 6% per annum plus allowance for depreciation. That Congress by direct legislation fixed the fair return for the period of two years beginning March 1 1920, at the rate of 5½%, to which, in our discretion, we might add not exceeding ½ of 1%, is a matter which may fairly be considered in the determination of the rate for the period immediately ensuing. But, taken in connection with the other provisions of Section 15 (a), it does not constrain us to consider 5½% as maximum in determining a fair return for the ensuing period.

Under our system of accounts all charges to the account "railway tax accruals" are deducted from railway operating revenues before arriving at railway operating income, and all State and Federal taxes, income or other, relating to carriers' railway property, operations, and privileges, are charged to that account. This method of accounting was recently sanctioned by the Supreme Court of the United States in *Galveston Electric Co.* v. *City of Galveston, supra*. As indicated by the Court, the net income under this accounting procedure is to the stockholder a tax-exempt income, and this fact should be considered in determining what return shall be deemed fair.

The railway operating income, increased or diminished, as the case may be, by the credit or debit balances in the accounts known as equipment rents and joint facility rents, becomes net railway operating income, the amount of which is less than it otherwise would be by the amount of income tax accrued or paid. The term "net railway operating income" is defined in paragraph (1) of Section 15a. Under Paragraph (3), above quoted, rates are to be so adjusted that carriers as a whole or in designated rate groups will earn an aggregate annual net railway operating income equal, as nearly as may be, to a fair return. If this were realized in any instance the carrier would receive that return over and above all taxes, including the Federal tax on income, and if the fair return as determined and made public by us was 6% the carrier would hold that return "tax free" in the sense that after payment of its income tax it would still have left the 6%.

Railway corporations, like all others, are subject to income taxes which, since Jan. 1 1922, amount to 12.5% on their net income less deductions computed as provided in the income tax law, 42 Stat. L., 277. In our view railway corporations should, like other corporations, pay their Federal income taxes out of the income, rather than collect it, in effect, from the public in the form of transportation charges adjusted to enable it to retain the designated fair return over and above the tax. We may observe that a fair return of 5.75%, representing an aggregate annual net railway operating income arrived at after deducting, among other things, the Federal income tax on a return of 6%, would be approximately the equivalent of a fair return of 6%, out of which the Federal income tax was payable.

Railway Property Value.

In *Increased Rates*, 1920, *supra*, one of the material facts to be determined was the aggregate value of the properties of the carriers held for and used in the service of transportation. As was pointed out, the territorial grouping designated by us differs somewhat from that proposed by the carriers; but, inasmuch as the record dealt principally with the three major groups as defined by the carriers, the evidence was considered, in respect to grouping, as presented by the carriers and others then before us.

Upon consideration of all of the facts and matters then of record, and those which, under Section 15a, we were either required or authorized to consider, we found—

that the value of the steam railway property of the carriers subject to the Act held for and used in the service of transportation is, for the purposes of this particular case, to be taken as approximating the following:

Eastern group, as defined by the carriers	$8,800,000,000
Southern group, as defined by the carriers	2,000,000,000
Western group, as defined by the carriers, including both the Western and Mountain-Pacific groups herein designated	8,100,000,000
Total	$18,900,000,000

For reasons there stated no apportionment of the aggregate value of the properties in the Western group, as defined by the carriers, was made to show the value of the properties in the Western and Mountain-Pacific groups, as we defined them. Nor was there any estimation of the aggregate value of the properties of electric railways other than those operated by steam roads, or of the boat lines.

In the instant proceeding there is little of record which goes directly to the subject of value. There has been a general acceptance by carriers and shippers of the value taken in our former determination as an appropriate basis for the purposes of the present proceeding. The respondent carriers have not attempted to show that that value should be increased, other than by appropriate consideration of the subsequent increments to the transportation plant. We have before us deductions made by certain of the State commissions and shippers, based upon the results of the valuation work under Section 19a of the Inter-State Commerce Act so far as announced, and also computations based upon the market value of outstanding stocks and bonds.

More than twenty months have passed since our former determination, and in that period the valuation of the railroads under Section 19a has gone forward. The work is still incomplete, but has progressed to such an extent that we may accept the results with fuller assurance, both as to particular roads and as showing general trends and principles. In our administration of various sections of the Act, and in our certification of standard return for the purposes of the Federal Control Act, we have had occasion to make further investigation and corrections of investment accounts of the carriers.

The various other values and elements of value, as set forth in *Increased Rates*, 1920, *supra*, pages 228-229, have been re-examined in the light of the present record and the requirements of section 15a. We find no present reason to disturb the value taken by us in that proceeding as approximating the sums there stated, except to the extent that subsequent additions to or withdrawals from the property in service, including materials and supplies and working capital, and further depreciation, make adjustment necessary. Whether the value taken by us in 1920 should stand without consideration of these later items or not, the difference would be reflected only in fractions of per cents of the returns hereinafter indicated as the results of operation.

Revenues and Expenses.

For the purposes of the increases of 1920 we designated four rate groups. The Eastern and Southern groups corresponded approximately with official and Southern classification territories, respectively. West of these were the Western and the Mountain-Pacific groups, the division between the last two being made on a line following the western boundaries of North Dakota, South Dakota and Nebraska, thence southward through Colorado and New Mexico along the lines of the Union Pacific and the Atchison Topeka & Santa Fe. Theretofore our current statistics were compiled according to a threefold division only, namely, for the so-called Eastern, Southern and Western districts. The Eastern and Southern groups differed from the Eastern and Southern districts chiefly in that the Norfolk & Western and the Chesapeake & Ohio, except certain branches, the Illinois Central north of Cairo, and a few other roads in the Southern district were included in the Eastern group. The Western and Mountain-Pacific groups covered approximately the Western district. In order to facilitate comparison with statistics of past years, and presentation of data in approximate accordance with the rate groups so designated, our statistics were modified by segregating the data for the roads above mentioned, not including the Illinois Central north of Cairo, as a so-called Pocahontas region. The Illinois Central, both north and south of Cairo, is still included in our statistics for the Southern district. In this proceeding the parties generally presented statistical data in accordance with our statistics as now currently compiled, and not strictly in accordance with the rate groups designated. We shall hereinafter refer to the Eastern district and Pocahontas region combined as the Eastern group; the Southern district, excluding the Pocahontas region but including all of the Illinois Central, as the Southern group; and the Western district as combining both Western and Mountain-Pacific groups.

Federal control terminated with the month of February 1920. In the succeeding six months a definite income was guaranteed to most rail carriers by the Transportation Act, 1920. The net railway operating income for 1921 of Class I carriers, including large switching and terminal companies, yielded returns of 3.30% in the Eastern group, 2.60% in the Southern group, 3.50% in the Western and Mountain-Pacific groups, and 3.31% for the United States as a whole, on the valuation for all roads taken by us in *Increased Rates*, 1920, *supra*, for the purposes of that proceeding, adjusted by the carriers to cover Class I roads only, together with additions and betterments on Class I roads, aggregating $605,000,000 for the year ended Dec. 31 1920. The following tables reflect for Class I carriers, including switching and terminal companies, the trend of operating revenues, expenses and income by calendar years 1916-1921, and of net railway operating income since Sept. 1 1920 by months, the rate of return being adjusted to an annual basis according to seasonal variations:

Calendar Year.	*Freight Revenue.*	*Passenger Revenue.*	*Mail Revenue.*	*Express Revenue.*	*All Other Oper. Rev's.*
1916	$2,574,740,215	$707,757,469	$61,227,765	$90,311,885	$191,215,037

a The value upon which this return is computed is that taken by the Commission for the purpose of *Increased rates* 1920, *supra*, prorated by the carriers upon the basis of the recorded investment in road and equipment, increased by the additional investment of 1920; annual basis after allowing for seasonal variations. b Computed on recorded investment in road and equipment of Class I carriers in the New England region as of Dec. 31 1920, including material and supplies on hand amounting to $824,286,062. c Totals include certain corrections not appearing in the monthly figures.

The decrease in net railway operating income shown between October 1920 and July 1921 was due to decline in traffic. The marked increase in that income during the last six months of 1921 was due to increased traffic and lowered operating costs. Deficits were experienced in January and February 1921 in the Eastern group and in January 1921 in the Western district. In the Southern group the rate of return in those months was less than 1%, although the tonnage handled in January was high as compared with the remainder of the year, bearing in mind ordinary seasonal variations. Ordinarily, except in the Southern group, traffic begins to increase in the spring months and reaches its peak in the harvest months, August to October. In the South traffic during the summer months is light and the heavy months are October, November and December. The principal reductions in costs accomplished during 1921 were brought about by reductions in force, wage reductions ordered by the Railroad Labor Board effective July 1, and gradually receding prices of materials and supplies. As the combined result of the higher level of rates, fares, and charges and of these reductions in operating costs, the net railway operating income of the carriers as a whole for 1921 was substantially greater than that for 1920, although the ton-mileage in 1921 was less than in any year since 1915 and approximately 25% below that of 1920.

The carriers state that they have applications pending before the Railroad Labor Board, seeking reductions in wages of their employees; and signify that if these applications are acted upon favorably corresponding reductions will be made in freight rates, taking credit for reductions previously made. They urge that if, in our judgment, the present high level of rates is made necessary by wage scales higher than those of comparable labor in other industries, we should make that fact known to the public. Railway labor organizations contend that there is no necessary relationship between transportation charges and wages of employees. They challenge the position taken by carriers and some shippers that reductions in transportation charges can not be made without contemporaneous wage reductions.

In the calendar year 1916 the compensation to employees of Class I carriers was $1,468,576,394. Although the revenue ton-mileage and the number of employees was considerably less in 1921 than in 1916, the pay-roll in 1921 was $2,800,896,614, an increase of $1,332,320,220, or nearly 91%. This increase constitutes more than 20% of the operating revenues of 1921 and equals more than one-third of the operating revenues of 1916. Reductions in wages have been made since June 30 1921. Based on wage rates and working conditions prevailing at the close of 1921 the per cent of increase in pay-roll, 1921 over 1916, making no allowance for the small traffic in 1921, would be 77.7%. The present wages are still far above the pre-war level. The exact percentage depends, among other things, on whether the computation is made on an hourly or a monthly basis, the rate per hour having increased relatively much more than monthly earnings on account of the reduction in hours per employee. The hourly basis is the more significant in effect on operating costs, although the monthly basis is of more importance to employees. It is not our function to deal with wage scales and we express no opinion as to what the rates of pay should be. But we must recognize the connection between necessary revenues and present relatively high operating expenses.

Efficiency and Economy in Operation.

The statute provides that in exercise of our power to prescribe just and reasonable rates we shall establish rates such that carriers collectively shall earn a fair return under honest, efficient and economical management. One of the matters for consideration in this proceeding is the extent to which net income can be increased by enhanced economy and efficiency in operation. The record indicates that the railroads individually, and collectively through their associations, have been and are devoting their attention to this matter. Substantial progress has been made in standardizing the various parts of equipment, thus increasing their interchangeability and promoting economy in equipment repairs. Committees of these associations are engaged upon plans to lower the unit cost of car repairs, fuel, and other items, and to reduce loss and damage. The evidence indicates realization of certain savings and improvements in operation. We are investigating methods of increasing economy and efficiency of operation.

During the war various Governmental agencies, in co-operation with shippers, brought about material increases in car loading. The carriers direct our attention to the fact that the loading per car during the 12 months ended Sept. 30 1921 was 28.5 tons, which is substantially the same as that during the war years. Since February, 1921, for various causes, some of which are temporary in character and beyond the carriers' control, the average car loading has declined.

The percentage of empty-car mileage to loaded-car mileage was greater during the 12 months ended Sept. 30 1921 than during any corresponding period within the past nine years. The carriers' existing car-service rules are based upon ownership and control by each carrier of its cars. The increase in the movement of empty cars resulted from the carriers' practice, then and now, of returning cars empty to the owning carrier when loads are not available. The business depression which then prevailed prevented the usual number of loaded movements, and thus brought about the increase in empty-car mileage.

Representatives of owners of railroad securities appeared and urged adoption of a plan which contemplates co-ordination and unification of operations of carriers, more particularly with respect to the purchase, repair, distribution and control of freight cars. The proponents estimate that this plan would result in large economies. Respondent carriers introduced little testimony with respect to this plan and gave no indication of intent to adopt any similar plan. It is evident that the full economies predicted would not be immediate, that there would be difficulties in attainment, and that heavy expenditures of capital would be required. Manifestly one of the greatest problems confronting the carriers to-day is to provide efficient service at a reasonable cost. If the purpose of Section 15a to afford carriers a reasonable return is to be attained, earnest efforts toward reduction of operating expenses in all possible ways consistent with good service must be continued. The far-reaching importance of such proposals calls for a more intensive study by carriers and the proponents than appears to have been made.

Consideration is being given by the carriers to co-operation in the use of facilities. The joint use of facilities established during Federal control has been continued in many instances, and some progress is being made in the direction of further co-operation. The record does not disclose any general lack of efficiency.

Maintenance.

The significance of the return of 3.31% given above for Class I. railroads during 1921 depends to a considerable extent on whether the maintenance charges for that year represented adequate upkeep. Certain executives testified that the net railway operating income which resulted from the operations of 1921 was obtained only by forced economies which are neither in the public interest nor susceptible of indefinite continuance; that these economies took the form of inadequate maintenance; that the hours of labor consumed and the quantities of material applied in maintenance of way and structures on certain lines was less in 1921 than during the average of years in the test period; and that in general no more was done than was necessary to keep the lines in a condition safe for operation.

The carriers generally seem to have taken the fact of undermaintenance during 1921 for granted rather than to have undertaken to prove it. Individual carriers have proved its existence in their own properties. Maintenance charges of Class I. roads aggregated $2,017,700,867 in 1921, more than in any preceding year except 1920, when the total was $2,623,985,448. The decrease of 1921 under 1920 was $606,284,581, or 23.1%. The volume of traffic in 1921, as measured by ton-miles, was about 25% less than in 1920. Unusual features in the operations of 1920 make that year unreliable as a measure of what the annual outlay for maintenance should be. It was a period of peak prices, when the greatest ton-mileage and passenger-mileage in the history of the railroads moved under most adverse conditions. Moreover, labor and material costs were lower in 1921 than in 1920. In relation to total operating expenses, maintenance charges in 1921 were almost the same as in 1920, the percentages being 43.6 and 44.1, respectively.

The record does not disclose whether the actual quantities of material applied were as great in 1921 as in previous years. It does not appear that, taking the country as a whole, such applications in 1921 compare unfavorably with those of 1920 or of the test period. Returns from carriers representing more than half of the tie and rail applications for 1920 indicate that their 1921 applications are within 1% of those of 1920, the East and South being greater than in 1920 and the West being less. Maintenance expenses are made necessary by two factors, the action of the elements and the movement of traffic. In a year in which the movement of traffic is light, somewhat less maintenance is required than in years of heavy traffic, although it would be in the public interest if surplus from prosperous years were expended on maintenance in years of light traffic.

Statistics are available regarding the condition of locomotive equipment. They indicate that in the aggregate locomotives were in substantially the same condition at the end of the year as at its beginning. The percentages of unserviceable locomotives as reported to us do not agree exactly with those reported to the American Railway Association, on account of differences in method, but they are not far apart. According to the reports to us, 24.5% of the locomotives were held for repairs more than 24 hours in January, 1921, as against 23.5% in January, 1922. The corresponding figures from the reports of the American Railway Association are 18.2 for January, 1921, and 19.8 for January, 1922. The view that locomotives needed to handle the traffic of 1921 were well maintained is not inconsistent with what appears to be the fact, that a not inconsiderable amount of deferred maintenance in locomotives exists which should be made up in anticipation of a greater volume of traffic.

The statistics of the number of bad-order cars are less satisfactory. On their face they indicate that deterioration of freight cars proceeded at an alarming rate during 1921. According to reports of carriers to us, the percentage of freight cars unserviceable was 8.8 in January, 1921, and 13.6 in January 1922, but at the same time there was an increase in the percentage of home cars on home roads from 51.7 to 71.2. It is admitted by carriers that the reported percentages of bad-order cars are not comparable because of the different methods or standards employed by carriers reporting foreign cars on their lines and cars on home lines. The figures by months from Jan. 1 1920 to Jan. 1 1922 follow:

	Freight cars unserviceable.	*Home cars on home lines.*		*Freight cars unserviceable.*	*Home cars on home lines.*
1920.	*Per cent.*	*Per cent.*	1921.	*Per cent.*	*Per cent.*
January	6.5	21.7	January	8.8	51.7
February	6.5	21.5	February	9.8	61.3
March	6.9	22.3	March	10.8	66.0
April	6.5	24.3	April	12.3	68.8
May	6.6	24.7	May	13.6	69.5
June	7.1	24.5	June	14.5	69.8
July	7.2	25.0	July	15.4	70.1
August	7.2	25.8	August	15.4	68.1
September	7.2	27.7	September	15.5	66.5
October	7.2	29.3	October	14.8	62.1
November	7.5	31.8	November	13.8	62.0
December	7.9	39.2	December	13.0	69.1
			1922.		
			January	13.6	71.2

There is obviously a relationship between the number of cars reported as unserviceable and the number reported as on home roads. Under the policy adopted by the Director-General, home routing of empty cars was not adhered to. As traffic declined late in 1920 and early in 1921, the cars not needed were returned as rapidly as possible to their owners. Non-owning lines made only running repairs and kept cars moving under load with the result that they were not included in bad-order reports, nad when the cars were returned to home lines the extent of the bad-order situation was reported. It is true that between certain months in 1921 there was an increase in bad-order cars along with a decline in percentage of cars on home lines, but the figures as a whole do not show that the cars used in handling the traffic of 1921 were not fairly maintained. It is not necessary for us to determine in this connection to what extent deferred maintenance inherited from 1920 and prior years exists.

When we consider the conditions which prevailed during 1921, the carriers' contention that current maintenance was deferred may have basis, but they have not supported their contention with such facts of record as would warrant us in making a definite finding of the extent to which it was deferred. Carriers could not and did not escape the compelling influences which affected other forms of industry during that lean year. The number of their employees was reduced by a fifth, sometimes more; outgo was pared and upkeep skimped where possible; the "bad-order" figures cover an increasing number of cars requiring heavy repairs, as well as the obsolete and obsolescent, which were not being replaced to the requisite extent; and, in brief, we are left with the abiding, if composite, impression that, on the whole, the railway plant of the country was not at the end of 1921, and is not now, in as good condition as it should be, and is far from ready to meet the demands which will come with resumption of general business activity. There are, of course, some notable exceptions.

We are of opinion that if the return of 3.31% for Class I. roads for the year 1921 were corrected, such corrected return would not vary so materially from 3.31% as to make unsafe or unreliable the adoption of that figure as approximating the result of actual operation in 1921.

Constructive Year.

Rapidly changing conditions since August 1920 make the actual results of operation and the percentage earned of little value as a guide for thef uture, unless viewed in the light of present and prospective conditions. The carriers, in response to our request, introduced statements indicating what the results of the operations of Class I. roads would be for a constructive year, based upon the traffic of 1921, under rates and costs prevailing in February, 1922. The statements reflect net railway operating income of $443,609,800, or a yield of 5.06% on a valuation of $8,775,000,000 for the Eastern group; $95,350,869, or a yield of 4.25% on a valuation of $2,243,499,045 for the Southern group; $368,732,961, or a yield of 4.49% on a valuation of $8,206,000,000 for the Western district; and $907,693,630, or a

yield of 4.72% upon a total of $19,224,499,045 for Class I. carriers in the United States as a whole. The valuation used is that taken by us in *Increased Rates, 1920, supra*, for all railroads, as adjusted by them in their estimates to cover Class I. roads, with additions and betterments of $330,000,000 to Sept. 30 1921 for the Eastern group; $116,449,045 to the same date for the Southern group; and $332,000,000 to Dec. 31 1920 for the Western district, a total of $778,449,045.

During 1915 and 1916 net railway operating income of Class I. roads constituted the following percentage proportions of that for all "carriers," as defined in Section 15a (1), hereinafter referred to as all carriers: Eastern group, 98.39; Southern group, 97.68; Western district, 98.36. Upon the basis of these percentages for Class I. carriers, the net railway operating income of all carriers for the constructive year, with certain guaranty period adjustments eliminated, would be $448,776,952 for the Eastern group, $92,328,072 for the Southern group, $382,678,316 for the Western district, and $923,783,340 for the United States. Predicated upon these figures, the percentage rates of return for the constructive year would be 5.23 in the Eastern group, 4.16 in the Southern group, 4.72 in the Western district, and 4.89 in the United States as a whole, on the valuation taken by us in *Increased Rates, 1920, supra*, modified by the transfer from the Eastern to the Southern group of $220,000,000 representing the Illinois Central north of Cairo. With due allowance made for the net changes in the carriers' properties in 1920, the rate of return for the carriers as a whole would approximate 4.7%.

The results of the constructive year for Class I. carriers as determined by them were obtained by adjusting the 1921 figures for freight revenue, operating expenses and railway tax accruals in accordance with certain estimates determined separately for the Eastern group, the Southern group and the Western district. The effect of these adjustments for Class I. cariers upon the actual results of operation in 1921 is set out hereunder:

Item.	Eastern Group.		Southern Group.	
	Additions to Income.	Deductions from Income	Additions to Income.	Deductions from Income

The estimates upon which the constructive year is based were criticized. The carriers estimated what the reductions in freight revenue would have been if rate changes made since Jan. 1 1921 had been in force during all of that year. Thus estimated, the reductions constitute the following proportions of the freight revenue for 1921: Eastern group, 2.8%; Southern group, 3.1%; Western district, 4.9%. In the Southern group carriers obtained the data by telegraph. In the Eastern group and Western district the amounts were based upon estimates of traffic witnesses. In some respects the data submitted by carriers in response to our request do not accord with these estimates. Witnesses for the carriers in the Southern group stated that recent rate changes there were more in the nature of general adjustments, involving both increases and decreases than general reductions, such as those effected in the East and West. In view of these facts representatives of Southern shippers contend that the estimate in that group is overstated. Quite apart from the infirmities which attach to a constructive year, the circumstances under which the estimates were made by the carriers impair their probative value.

The estimated reductions in labor costs are intended to cover decreases in rates of pay made by the Railroad Labor Board on July 1 1921, and changes in rules and working conditions ordered by that body to become effective on January 1 1922, and subsequently. The carriers in the Eastern group determined the percentage of reduction by comparing the actual pay rolls for the first two weeks of January, 1922, with the same pay rolls increased to the basis in force prior to July 1 1921. This study developed decreases of 11.2% due to wage reductions and 1.1% due to changes in rules and working conditions. In preparing the constructive year the Eastern carriers reduced the pay for labor in the first half of 1921 by 11.2% for wage changes and in the whole of 1921 by 1% for changes in rules and working conditions. The Southern and Western carriers used 11.5% for wage reductions and 1% for changes in rules and working conditions, applied in the same manner.

The total adjustment on account of changes in rules and working conditions aggregated $27,180,854, of which $13,448,343 covered the Eastern group; $3,457,000 the Southern group; and $10,275,511 the Western district. Certain shippers assert that these figures are understated but do not show the extent of the discrepancy. It was developed that the carriers' estimates do not cover changes ordered by the Railroad Labor Board since Jan. 1 1922, including those affecting stationary engineers and telegraphers.

The bases of estimated reduction in fuel costs vary in the three groups. In the Eastern group the saving in coal is based upon the application to the total consumption of 63,408,793 tons in 1921 of the difference between the average price of $4 17 per ton, including freight and handling costs, at which coal was charged out during 1921, and $3 46 per ton, the estimated charge-out price for January, 1922, including freight and handling costs. In the Southern group it is based upon the application to the total consumption of 18,800,000 tons in 1921 of the difference between the average price of $3 95 per ton, including freight and handling costs, at which coal was charged out during 1921, and $3 54 per ton, the estimated charge-out price for December, 1921, including freight and handling costs. In the Western district it is based upon the application to the consumption of 45,000,000 tons in 1921 of the difference between $4 08 per ton, the average purchase price for 1921, including cost of freight but not of handling, and $3 73 per ton, the average purchase price in October, 1921, computed in like manner.

Shippers directed our attention to the low prices of spot coal prevailing at the time of the hearing. They urged that on April 1 1922, when existing coal contracts would expire, carriers would be in position to negotiate purchases at greatly reduced prices, and contended that the carriers' estimates were too high to be used by us in forecasting future operating expenses. The average mine price of bituminous coal received by 532 operating companies declined from $3 52 per ton in January, 1921, to $2 73 per ton in October of the same year. The average spot mine price of bituminous coal, as reported by "Coal Age," fell steadily during Jan. and Feb., 1922. For the week ended January 2 it was $2 32 and for the week ended Feb. 27, $2 18.

In recent months many railroads have stored large quantities of coal bought at spot prices ranging from $1 75 to $2 10 per ton. Their charge-out prices for future months will be lowered by the effect of recent purchases at spot prices. A witness for the national association of coal operators testified that under prices prevailing during the period April 1 to Oct. 1 1921, the bituminous-coal industry generally operated at a loss; and, while confident that lower mine wages would be established during the ensuing coal year, said that the coal industry would not agree to make railroad coal contracts at spot prices then prevailing or upon the basis of anticipated reductions in mine labor costs.

During October, 1921, the Eastern carriers paid an average of $2 75 per ton for coal at the mine. Their estimate for the constructive year is 15 cents less per ton. The estimate of the Southern carriers for the constructive year is $3 54 per ton, which includes freight and handling charges. This is 8 cents per ton in excess of the estimate of the Eastern carriers, although statistics submitted by the carriers indicate that usually mine prices of coal are lower in the South than in the East. This difference is occasioned in part by the fact that the estimates of the Southern carriers are based upon December, 1921, prices and those of the Eastern carriers upon January, 1922, prices. The estimate of the Southern carriers is only 4 cents per ton less than the charge-out price for October, 1921, which undoubtedly included coal purchased at higher prices than those prevailing in that month. The cost of coal to the Southern carriers in October, 1921, including freight charges, was $3 36 per ton, and the average handling cost during the 12 months ended Sept. 30 1921, was 15 cents per ton, which is now lower owing to wage reductions already made. On the basis of prices paid in October, 1921, the charge-out price per ton would be about $3 49, as compared with the estimate of $3 54 used in the constructive year. The estimate of the Eastern group, if not low, undoubtedly is conservative. Measured by that estimate, the prices used by the Southern and Western lines appear high. The estimates of the carriers, excluding freight and handling charges, are higher than the average spot coal price of $2 18 in the week ended Feb. 27 1922, by the following amounts: Eastern group 42 cents; Southern group 63 cents; Western district $1 22.

The Eastern carriers consumed 22,438,371 gallons of fuel oil during the 12 months ended Sept. 30 1921. Their average charge-out price during this period was 7.2 cents per gallon. These carriers did not estimate what saving would have been effected at prices of oil prevailing at the time of the hearing. The estimates of the Southern group and Western district are 3.54 cents and 3.25 cents per gallon, respectively. The estimate of the Southern carriers is but 0.6 mill lower than the average purchase price per gallon for October, 1921; and it is 0.4 mill in excess of the average charge-out price per gallon for 1920. The estimate of the Western carriers is 1.5 mills higher per gallon than the purchase price of fuel oil for the Western district for October, 1921. The charge-out price in October, 1921, was 3.3 cents per gallon, which is but 0.5 mill more per gallon than the estimated price. There is evidence which tends to show that, on the average, delivered prices of oil were, at the time of the hearing, considerably below the estimates of carriers in the Southern group and Western district.

Coal, next to labor, is the largest single item of expense to the railroads. If, as seems fairly inferable from the record, the average mine price per ton for railroad coal during the constructive year be taken at not to exceed $2 50 for the Eastern group, $2 40 for the Southern group, and $2 75 for the Western district, the coal bill of the railroads as recast by them in the constructive year would be reduced by approximately $6,340,000 in the Eastern group, $7,300,000 in the Southern group, and $29,250,000 in the Western district. If the fuel-oil price should not exceed 2.75 cents per gallon, further reductions of $145,000 in the Eastern group, $350,000 in the Southern group, and $8,750,000 in the Western district would be possible.

The decrease of 20% estimated by the carriers in prices of material and supplies is based upon the decline in charge-out index prices of the Baltimore & Ohio, New York Central and Pennsylvania Railroads. On Jan. 1 1921, this index price was 208% of the average index price of the same roads for the test period. On July 1 1921, it was 158, on Oct. 1 1921, 160, and on Nov. 1 1921, 149. The average index for the period July 1 to Dec. 1 1921, was determined to be 156 on the basis of a composite average of the index figures of July 1, Oct. 1, and Nov. 1. By averaging 208, the index at the beginning of the year and 156, the average index for the last six months, the carriers fixed the index for 1921 at 182 as compared with 100 during the test period. They estimated the index for Jan. 1 1922, to be 149, which was the index of Nov. 1 1921; they estimated the index on Feb. 1 1922, to be 137; they considered that the average of these two 1922 index figures, or 143, would represent the fair prevailing price index of material and supplies, as compared with the test period. This figure is 21.4% under 182, the average index determined for 1921, and the carriers deduce therefrom that the average prevailing price of material and supplies was 20% below that of 1921.

Carriers purchase or contract for material and supplies many months before using them. Because of the large stock of materials purchased at high prices and carried over into 1922, the effect of reduced material prices will not be reflected fully in charge-out prices for many months. The estimates of carriers are based solely upon charge-out prices, rather than purchase prices. While the index of 137 for February, 1922, if accurate, undoubtedly exceeds the average index of purchase prices prevailing at the time of the hearing, it more nearly approximates that index than the composite figures used by the carriers. If 137 had been used in the calculations of the carriers for the constructive year, the reduction in the price of material and supplies would have been 25% instead of 20%. If 25% had been used the operating expenses of the carriers would have been further reduced for the constructive year by $23,800,000 in the Eastern group, $6,500,000 in the Southern group, and $15,800,000 in the Western district, a total of $46,100,000.

Miscellaneous charges to operating expenses were decreased in accordance with the composite percentages upon the basis of which labor, fuel, and

material and supplies were reduced. The reductions so determined were 11.14% in the Eastern group, 10.99% in the Southern group, and 10.1% in the Western district. This estimate is wholly arbitrary as applied to different items which would be influenced by varying factors. Nevertheless it is accepted as the best which the carriers were able to submit in the limited time afforded.

On Jan. 1 1922, the Federal income tax rate applicable to all corporations, including carriers, was increased from 10 to 12.5%. In computing the constructive year the carriers have deducted the following amounts to cover the increase in income taxes due both to the increase in Federal tax rate and the increase in income: Eastern group, $25,000,000; Southern group, $6,069,000; Western district, $25,694,332; total, $56,763,332. These estimates are in addition to the amount of income taxes actually accrued during 1921 and deducted from net revenue from railway operations in the determination of $614,610,531, the actual net railway operating income for that year. The amount of this accrual in 1921 is not before us, but is probably in excess of $30,000,000. The amounts of Federal taxes accrued by all Class I carriers and lessor companies in recent years are as follows: 1917, $57,957,420; 1918, $53,507,951; 1919, $41,742,113; 1920, $50,542,597. It appears from a comparison of the net railway operating income of 1918, 1919 and 1920 with the net railway operating income as estimated by the carriers for the constructive year, that the income tax applicable to the latter would not greatly exceed that actually accrued in 1918, 1919 or 1920. In the Eastern group the increase due to increase in tax rate was obtained by applying 2.5% to the net railway operating income for 1921 instead of to the net taxable income, which was considerably less. The increase due to increase in income was obtained by applying 12.5% to the aggregate additional income of the constructive year. If this calculation had been made by individual carriers, the estimate would have been substantially less.

On Jan. 1 1922 coincident with the increase in the carriers' income-tax rate, the transportation tax of 3% on freight was repealed. Carriers annually pay considerable sums as freight charges to other carriers upon their material and supplies, and, to the extent that transportation taxes accrued thereon, carriers' expenses will be less in 1922 than in 1921.

Passing from the constructive year to the prospects for the immediate future, the carriers estimate that the revenue tonnage for 1922 will not exceed that of 1921. In support of this position they assert that in the Middle West the winter wheat crop of 1922 will be less than that of 1921; that there is prospect of a considerable decline in the California citrus crop due to damage by frost; and that in the South the acreage of cotton has been reduced by various factors. We are not ready to accept February crop estimates as accurate, but, even if their forecasts of these three crops are realized, this is far from conclusive that the aggregate tonnage of agricultural products will be decreased. Yields of various crops vary from year to year. Some are good and others are poor, and large yields of other crops may more than offset any deficiency in these three. Moreover, facts of record indicate that in the South cotton growing is being supplanted to some extend by diversified farming.

The carriers assert that there was no evidence of a revival of business sufficient to warrant a prediction of increased traffic in the near future. Since the second week in January the number of cars of revenue freight loaded had been steadily increasing, but this the carriers in part discounted on the ground that the increased car loadings were caused largely by emergency shipments of coal designed to guard against the contingency of a strike in the coal fields on April 1. The strike has occurred and still continues; and the revenue freight loaded has somewhat decreased.

Taking the charted trend as normal, freight traffic for 1921 was subnormal. Revenue ton-miles for that year aggregated 306,755,332,000 for Class I carriers, or about 309,500,000,000 for all carriers. The trend of tonnage, 1890-1915, if projected through 1922, will aggregate 362,557,000,000 revenue ton-miles for that year. To equal that ton-mileage in 1922 would require an increase over 1921 of about 17%, and to equal the ton-mileage of 1920 would require an increase of over one-third. The first three months of 1922, as evidenced by the operations of Class I carriers, show a definite upward trend compared with the corresponding period of the preceding year. Revenue car loadings in January 1922 were only 3.3% over those of January 1921, but net railway operating income aggregated $29,476,422, as compared with a deficit of $958,399 in January 1921. Revenue car loading for February 1922 were 12.1% in excess of those of February 1921, and net railway operating income was $47,770,897, as compared with a deficit of $7,398,307 in February 1921. In March 1922, revenue car loadings exceeded those of March 1921 by 19.9%. Undoubtedly, anticipation of a general coal strike influenced March loadings, but the upward trend of traffic is apparent notwithstanding this fact. We feel justified in accepting increased revenue car loadings as foreshadowing an increased volume of freight traffic. The effect of the coal strike, which began April 1, can not be forecast. It may affect traffic other than coal and coke. The increase in loading for all freight traffic during the first three months of 1922 was 11.9% over that of 1921. The subjoined table indicates by months and in the aggregate the increase in loadings of cars of revenue freight other than coal and coke for the first three months of 1922 compared with the same period of 1921:

	Grain and Grain Products.	*Live Stock.*	*Forest Products.*	*Ore.*	*Merchandise and l. c. l.*	*Miscellaneous.*	*Total of Six Items Designated.*
January 1922	210,244	135,706	203,996	18,386	875,296	881,889	2,325,517

Incease, per cent	21.8	1.0	1.9	*39.7	14.2	5.8	8.7

* Decrease.

These figures indicate that the increase in revenue car loading diring the first three months of 1922 was general, and not confined to coal and coke. It appears reasonably certain that, with increased traffic and lowered operating expenses, the net railway operating income of the carriers in 1922 would be more favorable, under present rates, than in 1921.

Freight Rates and Charges.

In *Increased Rates*, 1920, *supra*, we permitted percentage increases in the charges for freight service, including switching and special services, as follows: In the Eastern group, 40%; in the Western group, 35%; in the Southern and Mountain-Pacific groups, 25%; and upon inter-territorial traffic, 33 1-3%. In *Authority to Increase Rates*, *supra*, the 40% increase was authorized within Illinois territory as there defined and between that territory and the Eastern group, and a 35% increase between that territory and the Western group. The average revenue per ton-mile in 1921 was greater than that for the fiscal year ended June 30 1914, by the following percentages: Eastern district, 96.1; Southern district, 61.4; Western district, 59.3; and United States as a whole, 76.2. In 1914 the average-distance haul per revenue ton per road was 155 miles and in 1921, 187 miles.

One important subject of inquiry is the extent to which readjustments have been made and their effect upon the rate level. In giving our approval to the rates authorized in *Increased Rates*, 1920, *supra*, we said at page 256:

> The rates to be established . . . must necessarily be subject to such readjustments as the facts may warrant. It is conceded by the carriers that readjustments will be necessary. It is expected that shippers will take these matters up in the first instance with the carriers, and the latter will be expected to deal promptly and effectively therewith, to the end that necessary readjustments may be made in as many instances as practicable without appeal to us.

General reductions ranging from 10 to 22% ordered by us with respect to carload rates on grain, grain products, and hay in the Western and Mountain-Pacific groups became effective during January 1922, and upon our recommendation rates on live stock in the same groups in excess of 50 cents per 100 pounds had been reduced 20%, but not below 50 cents, in October 1921. Practically all other carload rates upon products of the farm, garden, orchard, and ranch throughout the country were reduced 10% in January 1922. All of these reduced rates, other than those on grain, grain products, and hay in the Western and Mountain-Pacific groups, expire by tariff limitation on June 30 1922. Only in these three instances have reductions been made covering the entire country, or the whole of any one or more rate groups, since the increases of 1920 became effective.

Many rate readjustments, resulting in reductions, have been made since the increases of 1920. Some affected a substantial volume of traffic such as export grain, bituminous coal to Lake Erie ports for the Northwest, sand and gravel in Eastern territory, ore, lumber, and petroleum and its products. In some instances the volume of traffic after the reduction was less and in others more than before the reductions. Protests, usually alleging undue prejudice, have been filed by shippers against many of these readjustments, and in some cases have resulted in suspension proceedings. Some readjustments have been made hastily under pressure from particular shippers, or for the purpose of retaining traffic or deflecting it from one group of carriers to another.

In their constructive year, which is based on 1921 tonnage, the carriers estimated the net effect of the reductions in the revenue of Class I roads at $186,700,000, distributed as follows: Eastern group, $75,000,000;*a* Southern group, $15,200,000;*b* Western district, $96,500,000.*c* These estimates represent but 4.7% of $3,963,900,000, the freight revenue for 1921, as adjusted by carriers to cover rate reductions made prior to Jan. 1 1922. The total amount paid by shippers and passengers for transportation has also been reduced by the amount of the transportation taxes, repealed Jan. 1 1922, which in 1921 aggregated approximately $186,000,000.

The positions of shippers and representatives of the public in this proceeding are diverse. Many urge immediate radical reductions, contending that rates in the aggregate or on particular commodities are unreasonable; that the increases of 1920 contributed to the depression which followed by a few months the date of their establishment; that notwithstanding some readjustments and reductions subsequently made, the existing rate level is preventing a revival of commerce, and, by diminishing the flow of traffic, defeats the desired end of producing adequate net return for the carriers. Others urge that rates be reduced as soon as possible, but express no opinion as to whether reductions should now be made. Most of the general commercial and shippers' organizations urge that reductions when made should apply generally to all rates, as did the increases of 1918 and 1920, but no shipper or shippers' organization urged reductions in fares as well as in rates. Numerous State commissions in the West and South contend that reductions should be made both in rates and in fares. The representatives of certain industries and of a few general organizations urge that reductions be applied only to basic commodities, the staples which are recognized as most important to the economic situation of the country, and which usually constitute low-grade freight.

The carriers are unanimous in the opinion that increased rates have not caused the business depression, which they attribute to generally recognized world-wide readjustments resulting in unfavorable trade and credit conditions, restricted purchasing power, contraction of consumption, and , in many instances, collapse of demand. The carriers contend that the increased rates were not even an important contributing factor in the lessening of traffic in 1921, and that reduction in rates will not restore normal traffic. They do not, however, advocate rate increases as a means to increase net revenue. They admit that rates are too high and must come down, but they insist that rates can not be further reduced until the costs of transportation are further reduced.

Rates generally have been increased twice in the past four years, the increase of 1920 alone having been intended to produce more than one billion dollars additional revenue from the transportation of freight. As wages and cost of materials have been materially reduced since the increases of 1920, it is the position of shippers generally that the inability of the carriers to earn a fair return since these reductions were made is due largely to the failure of traffic to move in normal volume, and that the most important problem before us is to devise rates that will move more traffic and at the same time be compensatory to the carriers. It is generally recognized that existing high rates are a burden upon commerce, and many shippers insist that they are forcing movement to other forms of transportation, tend to restrict traffic, and in some instances to prevent particular movements. Many complaints are also made relative to the disturbance of relationships between producing or consuming districts due to the manner in which rates have been increased, and to partial readjustments which have subsequently taken place. The belief is general that traffic has been localized and the radius of distribution reduced. One representative witness testified that while his trade in territory within a radius of a hundred

a During the December hearings, a traffic witness estimated that, base of on the traffic of a normal year, rate reductions after Aug. 26 1920 would aggregate $100,000,000 in official classifiaction territory; during the January hearings the same witness gave detailed figures estimating the effect of reductions in the same territory at $101,145,000; in their constructive year, placed in evidence in March, Class I carriers of the Eastern group estimated that rate reductions since September 1920 would amount to 4% of the freight revenue, or, in round figures, $75,000,000, for 1921.

b During the December hearings, a traffic witness estimated that the reduction of 10% in rates on products of the farm, garden, orchard, and ranch would aggregate $6,000,000 to Southern carriers during the six months' period January-June 1922; in their constructive year, placed in evidence in March, Class I carriers of the Southern group estimated that all rate reductions since Jan. 1 1921 would amount to $15,200,000 for 1921.

c During the December hearings, a traffic witness estimated that, upon the basis of the tonnage for the 12-month period ended Sept. 30 1921, rate reductions since Aug. 26 1920, would aggregate $96,500,000.

miles declined 16% in 1921, as compared with 1920, the volume of his business in territory distant from 500 to 800 miles declined from 30 to 50%.

Some shippers contend that the psychological effect upon industry of existing high transportation charges is as important as the effect in dollars and cents. Agitation of the freight-rate question has been continuous, and the shipping public, aware that transportation charges are still on a high level, is discounting price deflation and withholding purchases in the expectation of lower delivered costs. This has a substantial effect upon the volume of traffic and revenues of carriers. Rate stability is one of the important needs of commerce. It is a fundamental law of business that the anticipation of a falling market tends to restrict purchases. The public does not accept the present rate level as stable because of the belief that rates are too high and must come down.

In the year 1920 there culminated a period of extreme inflation which was followed by a period of depression. At the close of the hearings the depression had existed for approximately a year and one-half. Factors other than transportation charges have been showing a tendency to stabilize upon a level considerably below that of 1920 but higher than the pre-war level. Shippers urged that although rate reductions if made a year ago might not have stimulated traffic, there are reasons for believing that reductions, if made now, would hasten business recovery and result in increased tonnage.

Many shippers contend that such reductions as are made should apply upon traffic generally rather than upon specific commodities. The rate increases of 1918 and 1920 affected all commodities. These shippers say that prior to the general increases the differences between carload rates on low-grade basic commodities and rates on other commodities were a great as were justified by conditions then existing. Those differences have been widened by the percentage method of increasing rates, presumably in accord with changed conditions. The volume of traffic in the various commodities handled by different carriers is far from uniform. For example, the percentage of coal tonnage to total tonnage ranges from 4% on some lines to 85% on others. These shippers urge that, in the absence of proof that rates on particular commodities are unlawful, reductions confined to particular commodities will result in unfair distribution of the transportation burden and deplete the revenues of one set of carriers for the benefit of others. They refer to the many practical difficulties encountered in any attempt to select particular commodities for a general reduction to the exclusion of others, and to the tariff confusion and new commodity rates which will result. One of the needs of commerce is the lessening of the spread in rates between commodities and localities created by the percentage increases of 1918 and 1920. This applies to commodities in general and not merely to basic commodities. Shippers say that carriers' revenues have been depleted in the aggregate by piecemeal reductions, but that the public generally does not recognize such changes as a general lowering of the rate level that the restoration of confidence and stabilization of business cannot be attained by such a process; and that any anticipation that reductions in freight rates will tend to increase confidence and a willingness to purchase can only be realized by reductions more general in extent than if limited to basic commodities.

Evidence was introduced concerning a wide range of commodities. Particular attention was directed to basic commodities, among which may be mentioned coal, iron and steel and the materials which enter into their manufacture, stone, sand and gravel, brick and clay products, cement, forest products, foodstuffs, agricultural products and live stock.

Shippers of basic commodities submitted the same general character of evidence relative to the necessity of rate reductions as other shippers, but advocated large reductions upon the basic commodities even though as a result no reductions may now be made upon other commodities. They urged that generally these commodities constitute low-grade freight which moves in any class of equipment, loads heavily, is subject to little loss or damage in transit, and consequently is desirable traffic for the carriers and entitled to the lowest rates. They also urged that, since the existing rates were authorized, price declines on basic commodities had been more severe than on higher-grade commodities; that their industries as a whole were in a depressed condition; that in some cases the commodities were being sold at a loss; that many basic commodities are important raw materials used in manufacture; that rate reductions thereon will do much to reduce cost of production and to stimulate business; and that generally transportation charges thereon were and are out of proportion to the value of the property transported, and restrict production and movement.

Particular stress was laid upon the rates on commodities used in the construction of buildings, bridges and roads. Shippers of road materials pointed to the need of many miles of improved highways and urged that road construction should be undertaken on a large scale during times of depression and unemployment. Building construction needs for the present year are greater than those incident to years in the period immediately preceding the war. Not only has the population of the country increased, but during the war building and other construction, except for war purposes, was largely suspended and the shortage then created has not yet been supplied. This is particularly true of dwellings, the shortage in which is reflected in the high rents prevalent for living apartments and dwelling houses. The President's conference on unemployment in its report of Sept. 29 1921 said: "We are short more than a million homes; all kinds of building and construction are far behind national necessity." A representative of building-material manufacturers and building contractors presented evidence to the effect that lowered building costs must be brought about if the housing shortage is to be overcome; and that prices of material and labor in the construction industry have fallen much below the peak, whereas freight charges on building materials generally have not been reduced. Figures presented by him indicate that, using 1913 as 100, the index of building-material prices reached 310 during 1920 and had receded in December 1921 to 163.2; and that, although no general statistics on building labor are available, the December labor index, again using the year 1913 as 100, was probably not far from that on building material, 163.2, which represents reduction from a peak of somewhere between 300 and 400 in 1920. The figure 163.2 has not been reconciled with that of 203 published by the United States Bureau of Labor Statistics. The efficiency of labor appears also to have greatly increased since war years. Shippers of building materials further urged that the increases in freight charges as made affected heavy low-priced construction materials far more than commodities of higher value, upon which the percentage of freight charge to value was comparatively small; that the heavier construction materials, considered as a group, are important money-earning freight for the railroads, and that revival in the construction industry will do much to build up the earnings of the carriers. These shippers, as men experienced in business, expressed their conviction that sound public policy demands a reduction of rates of transportation on basic commodities which will tend to encourage production, create employment and reduce the general level of the cost of living. They emphasized the contention that the public welfare requires that these indispensable commodities be moved as cheaply as possible.

According to figures published by the United States Bureau of Labor Statistics, the relative prices of principal commodity groups in December 1921, compared with average prices in 1913 taken as 100, were as follows: Farm products, 113; food, 139; cloth and clothing, 185; fuel and lighting, 187; metals and metal products, 119; lumber and building materials, 203; chemicals and drugs, 161; house-furnishing goods, 218; miscellaneous, 148; all commodities, 149. The price index for February 1922, all commodities, is 151. If the average freight revenue per ton-mile for the year ended June 30 1913 Class I roads, be taken as 100, the relative figure for freight charges in December 1921 was 172. It is evident that price deflation has taken place on most commodities, but has been far from uniform.

The following table reflects the wholesale index prices, all commodities, compared with the ton-mile revenue for Class I roads by years for 1916, 1917, 1918 and 1919, and by months for 1920, 1921 and January and February 1922. Relative figures for 1913 are taken as 100, the calendar year being used for prices and the year ended June 30 1913 for revenue:

Period—	Wholesale Prices.	Average Revenue per Ton-Mile.
Year end. Dec. 31:		
1916	124	98
1917	176	99

Jan. 1922	148	162
Feb. 1922	151	160

Although our announcement with respect to the scope of this proceeding stated that relationships between particular points under existing rates were not in issue, some evidence was introduced concerning particular rate situations and relationships. The record is inadequate as to most of these special situations and no finding will be made regarding them. In some, suggestions as to needed readjustments are hereinafter made.

Numerous shippers in various lines of business sought reductions in rates on commodities manufactured or handled by them. Most of these shippers contended that their commodities are basic and accordingly entitled to first consideration; or that, if any reductions are to be made, such reductions should apply upon their commodities quite as much as upon commodities generally recognized as basic. Some shippers stressed the relatively high level of class rates, and pointed to increases therein as well as in classification ratings of many articles, in addition to general increases. They stated that the net result of the various changes had been to widen unduly the differences between carload and less-than-carload rates, and urged that to widen further these differences by reducing carload commodity rates and not class rates would have a serious effect. Some of the miscellaneous commodities move generally on class rates, others on commodity rates. Commodities which more on class rates in some territories move on commodity rates in others. The wide range of evidence presented, the numerous and diverse interests concerned, and the competitive relationship of many commodities, accentuate the difficulty of selecting individual commodities for specific reductions.

Coal and Coke.

The annual production of bituminous coal during the five-year period ended with 1920 averaged approximately 530 million tons. Unlike the production of anthracite coal, which is more or less stable, the production of bituminous coal is greater or less according to industrial activity. Approximately 40% is used by industries, 28% by railroads, and the remainder for domestic and miscellaneous purposes.

Shippers who oppose a horizontal reduction and favor reductions on basic commodities with few exceptions select coal as one of the commodities upon which reductions should be applied if any are made.

To illustrate the importance of coal freight charges in determining production costs of other commodities, coal operators selected clay products, lime, cement, artificial heating and illuminating gas, manufactured ice, iron and steel articles, and glass. They testified that power and fuel costs entering into the manufacture of these commodities range from 10 to 28% of the total production cost. Transportation costs probably do not average more than half of the total delivered fuel cost, from which it would appear that, for example, a reduction of 15% in coal rates would not reduce production costs of the selected commodities by more than 0.75% to 2%. Data introduced by coal operators indicate that the average mine price of coal declined from approximately $3 77 per ton in June 1920 to $2 56 per ton in December 1921. Spot prices in February 1922 were in the vic nity of $2 20 per ton. The average annual mine price in the years 1904 to 1915 appears to have ranged from $1 06 to $1 18. It is stated that at the end of the year 1921 the average delivered price for spot coal for industrial use was approximately $4 40 per ton, as compared with $2 50 in 1916. Generally speaking, transportation charges on coal have not increased since 1915 in any greater ratio than mine prices, nor does it appear that on the average the ratio of transportation charges to mine prices was greater in February 1922 than in the period 1904-1915.

In 1921 carriers used approximately 130 million tons of coal. Many do not obtain their fuel supply upon their own rails and pay transportation charges thereon to other carriers. Coal operators urged that the reduction in these charges would to a considerable extent offset any loss in revenue resulting from rate reductions on coal. A witness for the carriers testified that a 10% reduction in coal rates in the Eastern group, based upon 1921 tonnage, would result in loss in revenue approximately $72,740,000, whereas the reduction in transportation charges paid by Eastern carriers would be less than $4,700,000. As previously stated, the ratio of coal traffic to other traffic on different roads varies materially, being in some cases 85% and in others as low as 4% of the total tonnage. It is evident, therefore, that loss in revenue from coal-rate reductions would affect some carriers greatly and others but little. Some of the less prosperous carriers are among those carrying a high proportion of coal.

Rates on coke are frequently related to rates on bituminous coal. Complaint has been made with respect to the existing relationship, but the record affords insufficient basis for conclusions as to what, if any, readjustment should be made.

Anthracite coal is produced in a restricted area and moves in much less volume than bituminous coal. Prices have not receded materially from the peak of 1920. The present rates represent a smaller percentage of the mine price than prior to 1915.

Iron, Steel and Ore.

The iron and steel industry usually employs several hundred thousand men and produces a large tonnage for the carriers. The industry as a whole was highly prosperous in the years 1914-1920, and many companies were able during that period to pay large dividends and to accumulate substantial surplus funds. Beginning in the latter part of 1920 the industry ncountered one of the most serious depressions in its history. By the end

of 1921 many plants were closed and others were being operated at from 30 to 75% of capacity. Prices had dropped materially since 1920, and were from 15 to 50% above the 1913 level. In some cases prices were said to be less than the cost of production. We feel warranted in taking notice of the fact that since this case was submitted the general condition of the iron and steel industry has materially improved.

The principal raw materials used are coal, coke, dolomite, limestone, and iron ore. These are rarely all produced in any one locality, and in consequence some plants are located near the source of certain raw materials and other plants near the source of other raw materials. Transportation charges on the different raw materials are therefore of varying importance to the different manufacturers. Manifestly changes in rates on one raw material unaccompanied by like changes on others tend to cause dislocation of relative production costs. A number of readjustments resulting in reductions of rates on raw materials and finished products have been made by the carriers since 1920. The reductions were not applied uniformly upon all the raw materials, and have resulted in complaints of unjust discrimination and undue prejudice. Except in particular situations, or to the extent that rates on one or more raw materials are from a transportation standpoint too high as compared with rates on others, it would appear that reductions in rates on the raw materials should, in so far as possible, be made upon all alike.

Practically all of the ores produced in the United States, other than iron ore, are mined in the Western district. Many smelters reducing copper, lead, zinc, silver, and other ores are there located, and the products are in large part shipped to industries in the East. Mining and smelting are of great economic importance to many Western States. These industries were greatly stimulated during the war period, and the output increased materially. The serious depression in these industries which developed in the latter part of 1920 was attributed by the shippers in large measure to the rate increases of that year. They contended that the increased rates were so out of proportion to the value of the commodities as greatly to restrict movement. They pointed particularly to the situation as to low-grade ores, the movement of which, it was stated, had almost ceased.

The record shows that rates on low-grade ores in many of the inter-mountain States were not increased in 1920. Other rates, both on low-grade and high-grade ores, have since been materially reduced, in many cases eliminating the entire increase of 1920. In addition, material reductions have been made in rates on copper and lead bullion from Utah, Colorado, Montana, Arizona, and other States to Eastern destinations, which is most cases resulted in rates as low as or lower than those in force immediately prior to the increases of 1920. In some instances the rates on coal used by these industries were not increased, but generally rates on fuel remain upon the level established by the increases of 1920. Manifestly, rates on fuel and other materials and supplies, which in many cases are obtained from distant sources, are of importance in determining production costs. There has been some improvement in these industries since the autumn of 1921, but, until overstocked markets shall have further readjusted themselves, the volume of movement can hardly be materially increased by establishment of any ore and smelter product rates which would be fairly compensatory to the carriers.

Road and Building Materials.

Evidence was introduced with respect to a number of low-grade materials used in the construction of highways, bridges, and buildings, including sand, gravel, crushed stone, chats, slag, cement, asphalt, brick, tile, plaster and lime.

Sand, gravel and crushed stone move in large volume, usually for short distances, load to capacity, and are of the lowest grades of freight, with little risk of damage or loss. Shippers contended that rates thereon have been increased during the last five years in greater proportion than on other commodities because of the flat increase of 20 cents per ton made in 1918; that in Eastern territory increases on short-haul fraffic have ranged from 43 to 96 cents per ton since 1917, whereas the price at point of origin in 1921 was 75 cents per ton; that many projects for construction, particularly of highways, have been deferred because of the high level of existing rates; that in times of depression public construction should be at its peak instead of at its minimum; that the railroads are losing traffic in these commodities because of motor-truck competition and the opening of local pits in the vicinity of large consuming points; and that these wayside pits produce inferior material to the exclusion of the standard material which otherwise would be selected and transported by rail. They requested that the entire increase of 1920 and an additional 10 cents per ton be eliminated from the present rates.

Computations from carriers' reports on file with us disclose that the revenue tons of clay, sand, gravel, and crushed stone originated by Class I carriers in 1921 were over 88 millions, a decline of less than 11% from the tonnage of 1920, the year in which producers of these commodities shipped their greatest tonnage. The decline in all freight traffic in 1921 compared with 1920 was 25%. Prices of sand and gravel in 1921 were much higher than in former years, averaging 75 cents per ton at the pit or quarry compared with 37 cents in 1914, 61 cents in 1918, and 65 cents in 1919. Many reductions in rates have already been made, principally in the Eastern group.

Slag, a residue from the manufacture of pig iron, is largely used for the same purposes as gravel and crushed rock. It is also used by some plants as the basic material in the production of cement. Slag shippers suffered from the business depression like many others and attribute their unfavorable situation in part to freight rates. In 1917 and 1918 the production of slag was greatly stimulated by the effect of war conditions upon the iron and steel industry. The production in 1918 was the greatest of record. Prior to the increase of 1920 many of the plants now closed down had ceased to operate or were operating at much less than capacity. The aggregate production in 1921 was equal to that of 1916, which the testimony indicates was a normal year.

Cement is of great and growing importance in the construction of highways, buildings, and other structures. Unlike most other commodities, its movement in 1921 was almost equal to that in 1920, the peak year for this industry. In 1921 cement plants shipped by rail and otherwise 94,672,000 barrels as against 96,329,000 in 1920. The annual shipments of cement during the period 1911 to 1919, inclusive, ranged from 70 to 94 million barrels. Reports of Class I carriers on file with us disclose that the tons originated on their lines were 15,610,486 in 1921 and 15,400,210 in 1920. Cement shippers testified that the tonnage of cement in 1921 was maintained largely because of the road-building programs of the Federal and State Governments. One of their exhibits indicates that, aside from the cement transported for road-building purposes, the movement in 1921 was, except for 1918, the smallest in the past eleven years. Prices have not fallen to as great an extent on cement as on many other commodities. The average price at the mill during 1921 was $1 66 per barrel compared with 92 cents to $1 10 per barrel during the years 1913, 1914 and 1915. The price in February 1922 was $1 50 per barrel.

Large quantities of coal are used in the manufacture of cement. Shippers of cement urged reductions in rates on coal as well as on cement. They estimated that, on the average, transportation charges on the quantity of coal required to produce a barrel of cement increased from 13.6 cents in 1913 to 24.9 cents in 1921, or 11.3 cents. Of this about one-half was added by the increase of 1920. Taking these figures as a base, a reduction of 15%, for example, in coal rates would reduce the production cost of cement by less than 4 cents per barrel. Shippers contended that cement rates are unduly high because increased in greater proportion during recent years than rates on other commodities; that cement loads more heavily than the average of all freight and yields higher car-mile revenues; and that present freight charges on the materials constitute too great a proportion of the production cost. They testified that from 13 representative producing points car-mile revenues on cement averaged 89.29 cents in 1921 and 51.82 cents in 1915. These figures were based upon short-line distances and computed upon a loading greater than the average for cement, which makes comparison with statistics of average car-mile revenues on all freight of little probative value. The car-mile revenue shown for 1921 on cement is 72% greater than for 1915. This increase is approximately the same as the average increase in the ton-mile revenue from freight traffic for the country as a whole. Other exhibits indicate that the increases in cement rates since 1913 range from 55% on long hauls to 133% on hauls of 25 miles and less. The increase for the average haul of 180 miles is 73.3%. The averages used for cement were not weighted.

The evidence with respect to brick, building tile, and other low-grade clay products, is similar to that as to other basic commodities. These articles load heavily, are transported in almost any kind of equipment, and the risk of loss or damage is small. Prices have receded materially from the peak of 1920, and the industry as a whole showed marked depression in 1921. The situation of the paving-brick industry was particularly stressed. It was urged that because the weight per unit of roadway surface, when paved with brick, is greater than when paved with other materials such as asphalt and concrete, the effect of the general rate increases has been almost to prohibit the use of paving brick except where it moves to the point of consumption by forms of transportation other than rail. In *National Paving Brick Mfrs. Asso.* v. *A. & V. Ry. Co.*, 68 I. C. C., 213, consideration has been given to rates and commodity descriptions on brick and certain other clay products throughout the country east of the Rocky Mountains. A revised list of articles subject to brick rates was prescribed, rates were provided on common brick lower than on other clay products for distances up to 150 miles, and revisions in rates were made in the Eastern group approximating a 10% reduction in the aggregate. In view of the findings in that proceeding more extended discussion of rates on clay products is unnecessary in this report.

Evidence was introduced with respect to sewer pipe, segment sewer blocks, drain tile, wall coping, flue lining, and chimney pipe. Clay, coal, and labor are the principal items of cost in their manufacture. The business for 1920 was the largest experienced. After September 1920 fewer orders were received than during prior years. Early in 1921 municipalities and dealers complained of the increased freight rates and refused to buy in excess of actual needs, with the result that sales were only about 80% of production.

Evidence was also introduced with respect to plaster, lime, and asphalt which differs little from that as to other materials already discussed. Shippers of asphalt contend that rates thereon should not exceed cement rates. We will not pass upon that contention in this proceeding.

Forest Products.

Practically all important regions producing either hardwood or soft wood lumber, including the Pacific slope, the Great Lakes region, and the South, were represented at the hearing. Many reductions of lumber rates have been made since August 1920, notably from the Pacific slope to points on the east of the Missouri River, ranging from 7 to 16 cents per 100 pounds, and from the Southeast and Southwest, mainly to certain territory west of the Missouri River. Reductions tending to restore former relationships as between long and short hauls were ordered by us in rates on hardwood lumber from the South to the territory north of the Ohio River in *Southern Hardwood Traffic Asso.* v. *I. C. RR. Co.*, 66 I. C. C., 68. The carriers have indicated their intention to make reductions in like amounts in the rates on pine and other soft woods from and to substantially the same territories, and some of these reductions have been made effective. The full facts are lacking as to the effect of reductions in rates on forest products but they appear to have been followed by increase in rail movement. Whether the aggregate consumption was increased thereby does not appear.

The evidence shows that depression in the lumber trade had existed since the latter part of 1920, but on the whole, with local exceptions, the volume of lumber traffic had fallen off to a slightly less extent than freight traffic in general. There had been increase in the relative movement by water as compared with rail.

Much of the evidence dealt with the relative rate situation of the different competing lumber-producing regions and the effect thereon of rate readjustments which carriers have made, but practically all representatives of the lumber industry who appeared advocated general reductions in lumber rates substantially to the basis existing prior to the increase of 1920. Some urged that these be made at least on low grades which under prevailing conditions present the greatest difficulty in marketing lumber, whether of hard or soft wood. The hardwood producers especially assail the rates on logs. Three or four cars of logs are required to produce one car of lumber, and therefore the increases in log rates have substantially affected the cost of producing lumber.

A representative of the Board of Railroad Commissioners of South Dakota presented evidence tending to show that, following the general increase of 1920, rates on lumber from practically all producing regions to South Dakota were relatively higher than to other States, and that reductions subsequently made, with few exceptions, have not applied to South Dakota but to destinations already taking lower rates, distance considered. More than 90% of the lumber consumed in South Dakota originates on the Pacific slope. Prior to the reductions from the West, above mentioned, rates to South Dakota were in many cases as high as to points much farther east, are now higher than to the Missouri River or Chicago, and are almost as high as to points in central and trunk line territories. It is not possible upon this record to prescribe specific rates to South Dakota, but the attention of carriers is called to the apparent necessity for some readjustment. In making reduction of rates to readjust competitive situations at points of production due regard should be given to the situation at consuming points.

Agricultural Products and Live Stock.

Agriculture was the first industry to feel the depression in 1921. Prices of farm products fell in some instances even below those of 1913, and the general average of farm prices in one month of the summer of 1921 reached a point only 6% above that of 1913. The rapid and marked decline in prices without similar reduction in production costs created a serious situation and resulted in a heavy falling off in the purchase of manufactured articles of all kinds in rural sections. This impairment of purchasing power, combined with the falling off in foreign demand, contributed largely to the general business stagnation of 1921.

In *Rates on Grain, Grain Products, and Hay*, 64 I. C. C., 85, reductions were ordered on those commodities in the Western and Mountain-Pacific groups, removing one-half of the increases permitted in 1920, with an additional 10% reduction on grains other than wheat. The effect was to bring down rates on the coarse grains nearly to what they were before the increases of 1920. Material downward readjustments have been made by the carriers voluntarily in export rates on grain and its products to North Atlantic and Gulf ports. Upon these rates a large tonnage is moved. Reductions have been made in particular instances in rates on fruits, vegetables, and other agricultural products. Following recommendations by us in *National Live Stock Shippers' League* v. *A. T. & S. F. Ry. Co.*, 63 I. C. C., 107, carload rates on live stock between points in the Mountain-Pacific and Western groups which in September 1921 were 50 cents per 100 pounds or more, were reduced 20%, but not below 50 cents.

We have referred to the general reductions in practically all carload and a few less-than-carload rates on the principal products of the farm, garden, orchard and ranch applicable during the first six months of 1922. These reductions resulted in rates not exceeding 90% of the rates established Aug. 26 1920. Among the articles affected are grain and grain products, rice and rice products, hay and straw, butter and cheese, eggs and live poultry, peanuts, fruits and vegetables, live stock, cotton and cotton linters, cottonseed and cottonseed hulls, unmanufactured tobacco, wool, and mohair.

Complaint has been made of a number of exceptions or omissions in applying these reductions in the various rate groups. Cotton rather generally moves on any-quantity rates. The reductions were applied to cotton, any quantity, in the Southern group, and in the portion of the Western District known as Southwestern Territory, but not in the remainder of the Western group, in the Eastern or Mountain-Pacific groups. or on interterritorial traffic except between points in the Southwest and points in the Southern group. Peanut rates were reduced in the Southern group, but not in the other groups, and the reductions were confined to peanuts, "raw in the shell." It is said that peanuts shelled and certain products such as peanut butter, should have been included. Cottonseed and peanut meal and cake in the Western District and Eastern group are generally subject to grain-product rates and therefore received the benefit of the reductions, whereas in the Southern group specific commodity rates apply which were not reduced. Shippers contend that this has resulted in undue prejudice to industries in that group.

Rate reductions on rice and its products were not made in New England or in Western trunk line territory. Transcontinental class rates applying on farm products were not reduced. The schedules filed did not cover watermelons from Georgia and other Southern States to Northern markets or potatoes from Aroostook County, Me., to New England and trunk-line territories. Rates on potatoes from that part of Maine to important Eastern markets such as New York and Philadelphia, were left on a materially higher basis than from Wisconsin and other more distant Western producing points. In some instances they were higher from Presque Isle, Me., than from Waupaca, Wis., and Cadillac, Mich., to the same destinations. Among the typical commodities not covered by the reductions in any group were broom corn, seeds, nursey stock, coconuts, pickles, preserves, canned goods, milk, oleomargarine, and frozen eggs. Certain shippers urged inclusion of these commodities on the ground that they were analogous to other articles upon which the rates were reduced. Thus shippers pointed out the importance of seeds to agricultural interests and urged that seed rates should be reduced in order to stimulate production.

In the late months of 1921 and in January and February 1922 there was an appreciable advance in prices of live stock, and of grain, cotton, and other important agricultural products, and the situation in producing regions has materially improved. As stated, the reduced rates on farm products and live stock other than those prescribed by us in *Rates on Grain, Grain Products, and Hay, supra*, are scheduled to expire June 30 1922. The failure to apply the reductions more uniformly has created difficulties which in our judgment should be corrected. We are of opinion that the reductions should include carload rates on nursery stock and farm and field seeds in all rate groups; rates on potatoes from Maine, watermelons from points in the Southern group, peanuts "raw in the shell" cottonseed and peanut cake and meal, rice and rice products in carloads, and on cotton and leaf tobacco, any quantity, where not now included.

Packing-House Products.

Packing houses located at East Cambridge, Mass., New York, and other Eastern points draw a considerable portion of their live stock from the West. Packing houses in the interior, Iowa, for example, compete with them in Eastern markets. Immediately prior to the general increase of June 25 1918, rates on cattle and hogs from the Mississippi River to East Cambridge were from 1 to 17 cents per 100 pounds lower than the rates on cured or fresh meats. These differences have been widened by the general rate changes of the last four years until, following the 10% reduction on live stock effective in January 1922, the differences now range from 12 to 40.5 cents, and seriously handicap interior independent packers in the Eastern markets.

Upon this record it is not practicable to prescribe a specific relationship between the rates on the live animal and on the product, but the carriers should make some revision of these rates from the Mississippi River eastward.

Fertilizers and Fertilizer Materials.

Commercial fertilizers and fertilizer materials are used extensively in the South and East. The use of fertilizer was greatly reduced in 1921. The States of Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, Tennessee, and Virginia consumed 2,625,505 tons of fertilizer as compared with 4,794,659 tons in 1920, 4,742,406 tons in 1914, and 4,159,047 tons in 1911. The decreased use of fertilizer in 1921 was accompanied by decreased yield per acre of many crops, with a resulting decline in traffic for the carriers. The widespread and increasing ravages of the boll-weevil in the South, with consequent restriction in the acreage of cotton planted and lessening of the product, have greatly decreased the tonnage carried by rail. The direct effect has been to decrease the buying power of the whole of that region. This condition is a matter of grave concern to Southern shippers and carriers. The liberal use of fertilizer is one of the most practical and effective methods of combating the boll-weevil.

Commercial fertilizer consists mainly of a mixture of acid phosphate, ammoniates, and potash. Nitrate of soda is the chief mineral ammoniate and is imported from Chile. Tankage from the packing houses and cottonseed meal supply the organic ammoniates.

The fertilizer manufacturers pay the transportation charge on raw materials, and usually the outbound charge on the product. The price of fertilizer at the time of the hearing approached the price in 1914. The extent to which fertilizer is used is determined to a considerable degree by the farmer's ability to obtain credit. This is confirmed by the carriers. Local dealers or distributors have been accustomed at the beginning of the planting season to extend such credit to mature with the crops, in turn depending upon the fertilizer manufacturers for credit. Some of these manufacturers said that since the price to the farmer is practically upon a pre-war level, rate reductions must be made, and the benefit retained by them in order to enable them to continue the customary extension of credit, thereby indirectly benefiting the farmer. Others said that a reduction will immediately inure to the purchaser.

The fertilizer for use in production of this year's crops has already moved, but the annual movement of raw materials into the fertilizer plants does not begin until May. Fertilizer manufacturers asked that reductions ranging from 20 to 25% be made on fertilizer materials and that on fertilizer we prescribe for the Southern group a distance scale of rates suggested by them. This scale would involve a reduction of approximately 22% under the scale prescribed by us in *Royster Guano Co.* v. *A. C. L. RR. Co.*, 50 I. C. C., 34, as subsequently increased.

Waste Materials.

Dealers in junk, scrap iron, waste paper, and similar waste materials urged that the level of freight rates thereon was wholly out of proportion to the value of the commodities, that their movement except for short hauls had materially declined, and that such movements were being made to a large extent by motor trucks or other forms of transportation. Many rates in the Eastern group are higher on scrap lead than on pig lead, on scrap iron than on pig iron. Rates on waste paper in the same group are higher in some instances than on paper and paper products.

The utilization of waste materials is of economic value to the country. Dealers contend that such materials are quite as basic as the new materials and that this should be recognized in adjusting rates.

It is not possible upon this record to prescribe a definite adjustment, but carriers should promptly revise their rates on waste materials.

Petroleum and Products.

In the United States 469,639,000 barrels of crude oil were produced in 1921, an increase of 5.9% over 1920, and 125,000,000 barrels were imported from Mexico. The crude oil refined in 1921 aggregated 443,000,000 barrels, an increase of 2.2% over 1920, and the total amount of gasoline, kerosene, fuel, gas, and lubricating oils shipped was 405,204,000 barrels, an increase of approximately 1%.

Exhibits introduced by shippers indicated that the crude oil moved by rail in 1921 was 25% less than in 1920, and that in 1921 only 6.6% of the crude oil received at refineries came by rail as compared with 9.9% in 1920. According to reports of carriers on file, the tons of crude oil originated on Class I carriers in 1920 were 6,435,074, and in 1921, 5,044,513 tons, or 22% less. According to shippers, the number of carloads of petroleum products shipped by rail in 1921 was 735,000, or 8.5% less than in 1920. The number of tons of petroleum products originated on Class I carriers as appearing in their reports was 29,615,954 in the year 1920 and 27,216,185 tons in 1921, a decrease of 8%.

Fuel oil, gasoline, and other petroleum products are important elements of cost in mining, agriculture, and industry, being used as fuel or motive power for mine machinery, irrigating plants, tractors, and trucks. Petroleum loads heavily, moves in large volume with little loss or damage, and shippers usually furnish the tank cars. They say that their compensation from the carriers for use of the cars is less than cost. The carriers pay at the same mileage rate on empty as on loaded cars, and the movement empty is practically 100% of the loaded movement.

In August 1918, at the solicitation of the petroleum industry, the Director-General of Railroads substituted a flat increase of 4.5 cents per 100 pounds in all carload rates on petroleum and its products for the 25% increase previously applied under his General Order No. 28. This resulted in comparatively small percentage increases in long-haul rates, but the percentage increases in short-haul rates were greater than on commodities generally and in many cases ranged from 100 to 200%. Shippers stated that as a result most short-haul rates upon petroleum, especially upon crude and fuel oil, are greatly out of proportion to the cost of transportation.

Petroleum and its products are consumed generally throughout the country, but the greatest consumption is in the States east of the Mississippi and north of the Ohio and Potomac rivers. At one time most of the refineries were located in the Eastern group. In recent years many refineries have been constructed in the Southwest and at Atlantic, Gulf and Pacific Coast points. In 1921 there were approximately 250 refineries in the Southwest, of which 130 were shut down. Less than 50% of the total capacity of the interior Southwestern refineries was in operation during that year, but refineries on the Gulf Coast and east of the Mississippi River were operated to approximately 85% of capacity. Some of the southwestern refineries appear to be of inferior construction, but nothing of record indicates that, capacity considered, most of them are not as efficient in operation and equipment as refineries generally.

Shippers urged that the greater extend to which interior Southwestern refineries were idle in 1921 was due to the percentage increases in rail rates on petroleum products from these refineries to Northern and Eastern markets, which had widened the spread in transportation charges to the disadvantage of Southwestern refiners. For example, the rates from Tulsa, Okla., and Wood River, Ill., to Cleveland, Ohio, prior to the increase of 1920 were 45 cents and 25 cents, respectively, a difference against Tulsa of 20 cents. That increase resulted in rates of 62 and 35 cents, respectively, increasing the difference to 27 cents. The record indicates that although more than 55% of the crude petroleum produced in the United States in 1921 came from wells in the Southwest, less than 20% of the total crude produced was refined by the interior refineries in that region; and that, of the crude produced in the Southwest, 57% moved either by pipe lines to refineries elsewhere, or by pipe lines and tank vessels to Atlantic ports, thus depriving the rail lines of much revenue. Shippers say that such readjustments as the carriers have made since August 1920, instead of lessening the burden placed upon the Southwestern refineries by the percentage increases, have augmented that disadvantage to the extent of 3.5 cents per 100 pounds, the amount of a flat reduction in rates between points in central territory and from central to trunk-line territory. Following that reduction the advantage of Wood River over Tulsa in reaching Cleveland became 30.5 cents.

Rail lines are not obtaining as great a proportion of the total movement as they did in former years. This is due chiefly to the rapid development and increased use of other forms of transportation, notably pipe lines, motor trucks, tank vessels, and accessorial storage facilities. While transportation by these other forms of carriage is undoubtedly in many cases more economical than by rail, and while rail lines may not expect to retain the entire traffic, use of the other forms of transportation is enhanced by the existing level of rail rates. The increases in many short-haul rates over the 1917 basis are now from 5 to 6.5 cents per 100 pounds, which in themselves would be high rates in many cases. Many short-haul rates are materially higher than on other commodities of like transportation characteristics. The rail lines are losing some short-haul traffic which they might retain at lower but still remunerative rates. Self-interest would seem to dictate revision by them of their short-haul rates.

Shippers of petroleum throughout the country have agreed upon a plan contemplating reductions in and readjustment of practically all petroleum rates on the following basis:

1. In official classification territory.	Readjusted to rates of January 1, 1917, plus 40%.
2. In New England.	4.5 cents per 100 pounds.
3. Between trunk-line territory and New England.	4.5 cents per 100 pounds, with 90% of fifth class as a maximum.
4. Between central freight association territory and New England.	Readjusted to basis of 2 cents per 100 pounds over the New York rates (No. 1 above).
5. Southern and Western classification territories, except Pacific Coast.	(1) Local rates—15%, plus a specific reduction of 4.5 cents per 100 pounds. (2) Proportional rates—15%, plus 2 or 2.5 cents per 100 pounds, whichever was authorized in freight rate authority No. 96.
6. Pacific Coast territory.	15%, plus specific reduction of 4.5 cents per 100 pounds.
7. All territories.	Application of any minimum rate for short hauls eliminated.

It is not necessary to discuss this plan in detail. Little specific information was presented relative to its effect upon existing rate structures or the revenues of the carriers. Evidently important changes in relationships and decrease in revenue would result from its adoption, unless accompanied by an increase in tonnage hardly to be anticipated. In official classification territory the reduction would be about 30% and carry the rate level below that obtaining immediately prior to August 1920. The rates could be made effective only by recomputing all existing rates and reissuing the schedules. This would take much time.

The percentage increase of 1920, coupled with the subsequent reduction of 3.5 cents in central territory, has tended to lessen the rail movement of refined products and fuel oil from Southwestern refineries to Northern and Eastern markets and to increase the movement of crude oil by pipe line from Southwestern producing territory to Northern refineries, and also to Gulf Coast refineries from which the movement is by water to North Atlantic ports and thence by short rail hauls into the interior. As a result the Southwestern refineries are suffering while other refineries are operating more nearly to capacity.

This situation appears to clearly fall within the class of readjustments contemplated when the increases of 1920 were authorized. Carriers should promptly revise their rates from the Southwest to the Eastern group in order to lessen the spread as compared with rates between points in central and trunk-line territories. This should not be construed as requiring reestablishment of the precise differences which existed immediately prior to the increases of 1920.

Roofing Slate.

Shippers of roofing slate assailed the rates on that commodity from Vermont, Pennsylvania and other Eastern States to destinations in central territory and on the Pacific Coast. Slate moves to central territory on class rates which are substantially higher than the commodity rates generally applicable on quarry products, prepared roofing, asphalt shingles and other roofing materials. No justification for this disparity was offered, and carriers should promptly revise their rates on roofing slate to central territory so as to bring them into better accord with rates on other roofing materials.

Groceries.

A national organization of wholesale grocers introduced evidence to the effect that wholesalers are not only distributors, but, in a sense, warehousemen and bankers as well, extending credit to retailers and general country stores, and that their ability to continue this credit had been impaired by heavy losses incurred through recessions in price. These shippers urged that groceries are entitled to reductions quite as much as farm products, in that groceries are among the necessaries of life, and many, such as canned goods, are farm products at a later stage.

Canners of fruits, vegetables, milk and other commodities, located in California, Indiana, Maryland, Utah and other States, urged reductons on canned goods for similar reasons. Canning conserves foodstuffs and permits a wider distribution than would otherwise be possible. The evidence indicates that prices have declined appreciably since 1920. Utah shippers testified that their prices in 1921 were 50% of those in 1920, owing, in part, to a large surplus carried over from that year; and that they had experienced heavy losses in consequence, even though their shipments in 1921 did not diminish in volume. A shipper of pickles insisted that any reduction made upon canned goods should apply to sauerkraut and pickles in barrels or bulk.

The wholesale grocers said that staple foods move, for the most part, to retail dealers in less-than-carload lots, generally at class rates. They urged that it would be a mistake to confine rate reductions to carload traffic, as to do so would favor large dealers at the expense of small and would result in little benefit to the great mass of consumers. Generally transportation charges on movements from jobbers to retailers are paid by the latter. The wholesale grocers claimed that they would not gain financially by reductions in less-than-carload rates, but that they favored such reductions in the public interest, and asked that reductions be required in all rates on foodstuffs, both in carloads and less than carloads, to a basis "somewhere near their pre-war level."

Milk, Cream and Dairy Products.

The evidence as to milk, other than canned, dealt largely with rates into certain great cities. Particular readjustments to New York, Chicago and other centres were advocated,but will not be here discussed. The milk shippers pointed out that when rates on products of the farm were reduced by the carriers in January butter, eggs and cheese were included, but not milk. They apparently disregard the greater increase applied in 1920 to butter, eggs and cheese.

Dairy products are produced chiefly in the States west of the Indiana-Illinois State Line, and, inasmuch as the chief markets are in the East, their transportation involves comparatively long hauls. In Eastern seaboard cities competition is encountered with imported commodoties, particularly butter from Denmark, upon which the transportation charge is approximately 3 cents per pound. Shippers of dairy products urged reductions greater than those already made on the ground that these commodities are necessaries of life and that reductions are needed to meet the competition of importers. Danish butter is said to be of high quality.

Paper and Paper Products.

Manufacturers of newsprint and other kinds of paper box board and paper board urged reductions in rates on those commodities. At the beginning of 1922 paper mills were being operated at about 60% of capacity. The prices of paper had declined to approximately 50% over those obtaining just prior to 1916. At that time the contract price of newsprint paper was about $40 per ton; in 1920-21 it reached $130 per ton and by February 1922 had declined to $70 per ton.

Rate reductions were urged by paper manufacturers not only on the finished product but on raw materials used in the manufacture of paper such as pulp wood, coal, clay, sulphur, resin and tallow. Between 3 and 4 tons of these materials are required to produce 1 ton of newsprint paper. Rates on paper from New England were especially assailed on the ground that relatively lower rates were in effect from Western mills. The New England shippers urged us to prescribe rates on newsprint paper not exceeding 80% of the rates on book printing and wrapping paper, with sixth-class rates as maxima, and further urged that reductions should be made from New England to Chicago and Western points even though reductions were not made from the Western mills. They also contended that if reductions are to be general, the rates from New England to points in the Eastern group should be lowered to a greater extent than rates from Western mills. The evidence does not warrant fixation of the proper rate relationship between these competing mills.

Cottonseed Products, Vegetable Oil and Soap.

There are about 750 cottonseed-oil mills in the cotton-growing territory of the South. They represent an investment of about 250 million dollars and crush 85% of the cottonseed produced. The products are cottonseed oil, meal, hulls and linters. Cottonseed oil is largely used in the manufacture of soap and also is refined to produce lard substitutes. In 1921 this industry brought its costs down materially below those of 1920. About 500 of the mills were operated in the season 1921-22, 300 of them continuously. The failure to operate more nearly to capacity is attributed in part to high freight rates.

Soap moves for the most part in car lots from factories to distributing points, but there is also a considerable less-than-carload movement from factories. From distributing points the movement is in less than carloads. The principal raw materials used are fats, greases and oils. Caustic soda, soda ash, lime and borax are also largely used. The aggregate inbound and outbound tonnage of materials and product was estimated at 3,000,000 tons annually, much of it moving for considerable distances. Delivered prices of soap were said to be about 33 1-3% over those of 1914. The soap manufacturers asked that as soon as a reduction in rates is possible it be made horizontally in all rates. They say that a reduction in coal rates of at least 65% would be necessary to benefit them as much as a 5% reduction in all rates.

Miscellaneous Commodities.

Shippers of many other commodities appeared in this proceeding. Their testimony covered a wide range. It dealt extensively with the prices then prevailing as compared with those of 1920 and prior years, the effect of price declines and the business depression of 1921 upon producers, manufacturers and dealers, the transportation characteristics of their commodities and other matters deemed by them to bear upon existing rates and the need for reductions. Their contentions fall into two main classes: one that the prosperity of their particular industries, or of the country as a whole, depend as much upon reductions on their commodities as on others and that their commodities are either basic or quite as basic as those generally so considered; the other, that any reductions required should be in all rates in order to obtain the greatest good for the greatest number. These contentions, of either class, were made by many witnesses upon the premise that we should find it possible under prevailing conditions to require further rate reductions, as to which they expressed no views. The varied character of the commodities covered by the evidence is apparent from the following partial list of those not already discussed: Agricultural implements, alkali products, bauxite ore, beverage containers, burial goods, chewing gum and candy, clam and mussel shells, coffee, creosote oil, explosives, feldspar, furniture, glass and glassware, granite and marble, ice, insecticides, naval stores, plumbers, earthenware, pottery, shoes, soda ash, soil conditioners, syrup and molasses, tanks, terra cotta, tin cans, wood pulp and pulp wood. and wool.

In view of the conclusions hereinafter reached individual discussion of each of these various commodities is unnecessary. Summarized it appears that shippers of practically all commodities have been suffering from the business depression of 1921 and that in varying degrees nearly all ascribe this prolonged depression in part to the existing high level of rates and feel that until downward revision is made, return to a volume of business equal to that of years prior to 1921 probably will not be attained. Many of these commodities compete with one another for various uses, and to reduce rates on one and not upon the other will, it was claimed by some, result in unjustifiable discriminations between particular shippers or commodities and in disturbance of business conditions. Many move on class rates in some portions of the country and on commodity rates in others. Many move in less-than-carload lots at some stage before reaching the point of consumption. In many cases the transportation charges on the final less-than-carload movement nearly equal the aggregate of the previous charges on raw materials and finished product in carloads. Although shippers of most manufactured articles seek reductions upon the raw materials which enter into the manufacture, practically all insisted that reductions are necessary on the product as well. Taken as a whole the evidence relative to the miscellaneous commodities indicates that reductions confined to a few so-called basic materials would not satisfy many shippers and would bring about numerous complaints of discrimination between particular shippers or communities.

Passenger Fares.

During the 10-year period, 1911-1920, the number of revenue passenger-miles substantially increased, as evidenced by the following figures compiled by our bureau of statistics, showing the number of revenue passenger-miles for each year, 1911 to 1921, Class I roads, stated in millions:

Year—	*Eastern*	*Southern*	*Western*	*United*
Fiscal year ending June 30:	*District.*	*District.*	*District.*	*States.*
1911	15,162	4,072	13,137	32,371
1912	15,402	4,221	12,693	32,316
1913	16,087	4,384	13,404	33,875
1914	16,349	4,585	13,633	34,567
1915	14,961	3,988	12,841	31,790
1916	15,628	4,116	13,902	33,646
Calendar year:				
1916	16,627	4,574	13,385	34,586
1917	18,408	5,777	15,292	39,477
1918	19,517	7,405	15,755	42,677
1919	21,471	7,099	17,788	46,358
1920	21,927	6,618	18,304	46,849
1921	18,719	5,085	13,525	37,329

For the country as a whole the increase from 1911 to 1920 was over 44%, but the year 1921 showed a decrease as compared with the years 1917, 1918, 1919 and 1920. The charted trend of the years 1890-1915 would have carried the revenue passenger-miles for all carriers in 1920, 1921 and 1922 to slightly in excess of 43, 44 and 45 billions, respectively. The movement in 1921 was approximately 6 billions below and in 1920 approximately 4 billions above that trend. To equal in 1922 the revenue passenger-miles indicated by the trend would require an increase over 1921 of about 19%, and to equal those realized in 1920 an increase of about 25%.

In 1918 standard passenger fares were increased to a minimum basis of 3 cents per mile. This resulted in an increase of 50% where 2 cents per mile was the basic fare, 20% where 2.5 cents applied, an d no increase where the fare was 3 cents or higher. In 1920 we authorized an increase of 20% in passenger fares and a surcharge upon passengers in sleeping and parlor

cars equal to 50% of the charge for space in such cars. No increases were proposed by carriers upon passenger traffic prior to the decision of the Railroad Labor Board, which prescribed wage increases estimated to be somewhat in excess of 618 million dollars. The average revenue per passenger-mile of Class I roads on all classs of passenger traffic was 1.976 cents in 1914 and 3.088 cents in 1921, an increase of 56.3%. During the same period their average revenue per ton-mile on freight increased 76.2%. The total charge to the public was decreased on Jan. 1 1922 by removal of the Federal tax of 8% on passenger and, as stated, 3% on freight traffic.

According to statistics compiled by us from annual reports of Class I roads, the operating ratio in 1920 for passenger and allied services was more favorable than that for freight service. For the 12 months ended Sept. 30 1921 the situation was reversed, and, except in the Southern district, the operating ratio for the freight service became the more favorable of the two. This is readily explained by the greater increase in freight rates than in passenger fares and by the fact that decline in traffic permits of greater reduction in freight-train than in passenger-train mileage. The operating ratios for the periods mentioned are given below. These ratios are not necessarily indicative of what the corresponding ratios would be for 1922 under present rates and fares.

	—Calendar Year 1920—		—12 Mos. end. Sept. 30 '21—	
District—	*Freight Service.*	*Passenger & Allied Services.*	*Freight Service.*	*Passenger & Allied Serv's.*
Eastern	102.77%	90.26%	85.28%	90.69%
Southern	97.27%	83.16%	89.27%	86.52%
Western	91.48%	82.96%	79.89%	85.45%
United States	97.50%	86.17%	83.57%	87.83%

Many causes contributed to the decrease in revenue passenger-miles in 1921. They include the business depression, the increased use of motor vehicles, the improvement of highways, and the high level of passenger fares. Reduction in fares would no doubt increase travel somewhat, but the record does not warrant the conclusion that under existing conditions this stimulus would suffice to offset the resulting loss in revenue. Eastern carriers estimated that restoration of the passenger fare of Aug. 25 1920, a reduction of 16 2-3%, would result in a revenue loss of $176,560,000 annually in the whole country, and that to offset that loss an increase of 20% in passenger traffic would be necessary, allowing nothing for the added expense incident to the additional traffic.

The Pullman Company sought removal of the surcharge, contending that it tended to reduce travel in sleeping and parlor cars. A sharp decline in such travel followed the application of the surcharge. Fluctuations since September 1920 in the number of Pullman passengers carried have almost paralleled those in the number of all revenue passengers carried, as shown by the following table:

Month.	*All Passengers.*	*Pullman Passengers.*	*Month.*	*All Passengers.*	*Pullman Passengers.*
1920.			1921.		
June	102,055,000	3,618,050	April	83,366,000	2,443,961
July	114,698,000	3,892,896	May	86,887,000	2,553,188
August	116,458,000	4,126,186	June	84,168,000	2,774,177
September	104,642,000	3,422,673	July	90,899,000	2,903,775
October	99,251,000	2,974,833	August	90,120,000	2,970,079
November	96,921,000	2,692,723	September	84,482,000	2,890,136
December	99,308,000	2,759,442	October	80,761,000	2,476,852
1921.			November	78,165,000	2,245,621
January	94,661,000	2,657,771	December	82,938,000	2,369,431
February	83,474,000	2,307,168	1922.		
March	90,867,000	2,633,165	January	81,278,000	2,444,584

The record indicates that travel in sleeping and parlor cars has not decreased in substantially greater ratio than travel generally, and does not warrant a conclusion that the decrease in travel in sleeping and parlor cars is traceable to the surcharge.

Theatrical and Chautauqua interests introduced evidence on which they sought establishment of party fares lower than the prevailing individual fares, and lower charges for the movement of baggage and baggage cars. Prior to Federal control carriers generally maintained party fares on a lower basis than individual fares. We have no authority to require carriers to establish for particular passengers or particular occasions special fares lower than the regular fares. The record affords no adequate basis for dealing with the carriers' charges or practices in respect of baggage. But the carriers may themselves establish party fares, or change their practices in the handling of baggage, if they do so without unlawful discrimination.

Electric Railroads.

The only evidence as to the rates, fares, and charges of electric railroads was introduced on behalf of a national association of carriers. This was substantially to the effect that most electric lines do not fall within the purview of Section 15a of the Inter-State Commerce Act; that while generally their freight rates and charges were increased pursuant to *Increased Rates*, 1920, *supra*, the authority thereby granted did not extend to passenger fares; and that no reductions in their charges are warranted at this time. This evidence stands uncontroverted upon the record.

In the case cited we said at page 253:

> Petitions have been filed in this proceeding by a national organization of electric lines, seeking permission to increase their rates in the same proportion as the rates of trunk lines are advanced. The operating costs of these lines have, on the whole, increased in approximately the same ratio as those of steam railroads. In some instances there is competition between the electric lines and the steam railroads. We conclude that the freight rates of electric lines may be increased by the same percentages as are approved herein for trunk lines in the same territory. This is not to be construed as an expression of disapproval of increases, made or proposed in the regular manner, in the passenger fares of electric lines.

Thereafter many passenger fares were increased by electric lines in the same proportion as those of steam lines. On the whole, these carriers have had substantially the same relief as the steam carriers. The influences affecting their charges are much the same and it would seem that they should receive like treatment. But the evidence is too meager to permit of specific findings as to individual electric lines, or electric lines as a whole.

Conclusions.

The carriers take the position that we must be guided solely by those things which are definite and certain in the past. With this we can not agree. Our function under the law is not that of mere computers and can not thus be atrophied. The duty to prescribe rates for the future carries with it the obligation to exercise an informed judgment upon all pertinent facts, present and past, in order to forecast the future as best we may. In *Rates on Grain, Grain Products, and Hay, supra*, we said at page 99:

> . . . The duty cast upon us by Section 15a is a continuing duty and looks to the future. It does not constitute a guaranty to the carriers, nor is the obligation cumulative. We are not restricted by past or present statistics of operation and earnings. These are serviceable only as they illuminate the future. What is contemplated by the law is that in this exercise of our rate-making power the result shall reflect our best judgment as to the basis which may reasonably be expected for the future to yield the prescribed return.

When we decided *Increased Rates*, 1920, *supra*, the country was still in a period of steadily rising prices. We then resolved doubts as to future operating costs in favor of the carriers. In recent months costs have been declining and traffic increasing. Rates of pay for employees have been reduced to an extent which, based upon the light traffic of 1921, is estimated by carriers to aggregate more than $350,000,000 per annum. The Railroad Labor Board has estimated that the reduction exceeds $400,000,000 per annum, without taking into account changes in rules and working conditions. The tendency is toward increased revenues, lowered costs, and higher net income for the carriers.

Under the adverse conditions of 1921 the net railway operating income of Class I carriers of the United States totaled $614,810,531. Based upon the subnormal traffic of that year, and the wage rates, and prices of materials and supplies, prevailing at the end of the year, the carriers in their constructive year estimated an aggregate net railway operating income of $907,693,630, equal to 4.72% upon the valuation used by us in *Increased Rates*, 1920, *supra*, as adjusted by carriers to cover Class I roads only, including additions and betterments since Jan. 1 1920 amounting to $778,499,045. Adopting the ratio of net railway operating income of all carriers to that of Class I carriers in 1915 and 1916 as being approximately correct for 1921, the net railway operating income in the carriers' constructive year would be for all carriers $923,783,340, or 4.89% upon the valuation taken by us in *Increased Rates*, 1920, *supra*.

We do not accept the adjustments made by carriers in their constructive year as correct or complete. We have indicated that further adjustments are necessary in order better to reflect probable expenditures for Federal income tax, fuel, and materials and supplies. And in considering the estimates of that constructive year in their bearing upon what may be anticipated in the immediate future we must take into account other factors. Reductions in rates will carry with them reductions in operating expenses of carriers through lessened transportation charges paid by them on their fuel and materials and supplies. Thus it is estimated that a reduction of 10% in transportation charges on coal would effect a saving of over $7,000,000 on the amount of coal consumed by Class I carriers in 1921.

The net railway operating income of all carriers has exceeded $900,000,000 in only two years, 1916 and 1917. In 1916, the most prosperous year in the history of the railroads, it aggregated $1,051,543,860, and during the three years of the test period the average for Class I carriers was $906,524,492, approximately the amount which accrued as annual rental to the carriers under Federal control.

The figures heretofore given include no estimate for increased traffic over that of 1921, which clearly was subnormal. In that year the revenue ton-miles aggregated about 309.5 billions, or 25% less than in 1920. We do not anticipate return to the tonnage of 1920 for some time to come, but there are many indications of greater tonnage than in 1921. The gradually ascending trend of traffic during the first three months of 1922 has been mentioned. The car loadings for February and March 1922 exceeded those of the corresponding months in 1921 by 11.7% and 19.9%, respectively. During the first three months of 1922 car loadings exceeded those of the same period of 1921 by 11.9%.

If the trend of tonnage during the period 1890-1915 were reached in 1922, revenue ton-miles would aggregate 362.5 billions. This aggregate is substantially less than that of any year from 1917 to 1920, inclusive, and is approximately the same as that of 1916. A tonnage equal to that indicated by the trend in 1890-1915 is not beyond the realm of possibility during the next 12 months.

Any additional tonnage realized should be handled under a favorable operating ratio. Shippers and carriers alike agree that if the freight traffic of 1921 is increased by a given percentage, the percentage of increase in operating expenses should be one-half as great. It appears that under present rates, and with an increase of 10% or more in traffic over that of 1921, not only would the net railway operating income of the carriers as a whole for the next 12 months be substantially in excess of the fair return herein determined, but it would greatly exceed the corresponding figure for any year in the history of railroad operation.

It is our duty to initiate such rates as will enable the carriers to earn as nearly as may be a fair return, qualified as provided in the Act. In 1920 we authorized large increases in freight rates and passenger fares designed to produce the necessary revenues under the conditions then prevailing. There was then little doubt of the ability of industry to bear the increased charges. The situation has since changed. The country has been passing through a period of abundant supply and slack demand, in which prices at the source have fallen off sharply. High rates do not necessarily mean high revenues, for, if the public can not or will not ship in normal volume, less revenue may result than from lower rates.

Shippers almost unanimously contend, and many representatives of the carriers agree, that "freight rates are too high and must come down." This indicates that transportation charges have mounted to a point where they are impeding the free flow of commerce and thus tending to defeat the purpose for which they were established, that of producing revenues which would enable the carriers "to provide the people of the United States with adequate transportation." In 1921, freight traffic was only slightly more than 10% in excess of that in the year ended June 30 1915, which was not an unusual year. But the charges for moving freight traffic in 1921 totaled nearly four billion dollars, or about two billion dollars in excess of 1915. Railway operating revenues in 1921 aggregated about 5½ billion dollars, or more than 2½ billion dollars in excess of 1915. If the traffic in 1921 had equaled that indicated as normal by the trend during the 26-year period preceding the war, freight revenues and total railway operating revenues would have exceeded those of 1915 by approximately 2½ billion and 3½ billion dollars, respectively. Without any allowance for pyramiding of transportation charges in goods passing from hand to hand, these figures are significant as explaining, at least in part, existing wide spreads between the amounts received by producers and those paid by consumers.

Manifestly the depression of 1921 resulted primarily from causes other than transportation charges. But it does not follow that under present conditions existing high rates do not tend to retard the return to a more normal flow of commerce. Deflation has taken place to a greater or less extent in wages and origin prices of commodities in nearly all branches of industry but most transportation charges are still near the peak. In *Rates on Grain, Grain Products, and Hay, supra*, we said at page 100:

> The really vital concern of the carriers, in this situation, is to promote the return of what may be deemed normal traffic, and anything which will help toward this end is greatly to their benefit. So far as a tendency downward in their rates can be induced, and so far as the reductions in wages and prices which have already been made effective can be converted into rate reductions, we are assured that the full return of prosperity will be hastened for both industry and labor.

Practically all agree that stability of freight rates is highly desirable and that normal traffic may not well be expected until the present widespread expectation of rate reductions is realized or dispelled. To assume that rates can or should be stabilized on the present high basis is futile. As already observed, the anticipation of a falling market tends to restrict purchases, and until the public is convinced that there is little likelihood of immediate further material reductions in prices or transportation charges, the confidence necessary to normal business will to that extent be impaired. The period of deflation has been in progress more than 15 months; demand is reviving; prices are showing a tendency to stabilize upon a level much below that of 1920 but above that of pre-war years; and conditions of the

agricultural and manufacturing industries have greatly improved in the past few months.

We are of opinion that general reduction in the rate level, as substantial as the condition of the carriers will permit, will tend not only to lessen the transportation burden but also to equalize and stabilize the conditions under which commerce and industry are carried on, with consequent fuller assurance to the carriers of realizing the fair return contemplated by the law.

The results of the three-year period ended June 30 1917 were by statute made a criterion for just compensation to the carriers taken under Federal control. The raising of the rate level by the Director-General of Railroads in June 1918, and again under our authority in August 1920, were necessitated by increases in operating expenses. The latter have now partially receded. The rate increases were general and justified by the increase in general cost of service, and with decrease in that cost a rate decrease, also general, is justified. The justification for decrease is to be found in the rate structure as a whole rather than in individual rates, or in rates on individual commodities. It is true that the prices of some commodities have receded more rapidly and to a greater extent than others, even as some went up more rapidly and to a greater extent than others. Readjustment, however, is not complete and the process of equalizing prices is still in progress, some coming up and others going down, which will probably result in a more equal price level in the near future. The needs of commerce can not be met if rates are to fluctuate with market prices of commodities. In bringing down the rate level to meet lowered expenses a similar process should be followed and the reduction made generally upon all commodities n substantially equal ratio.

After considering all the facts of record, including the necessity of reasonable expenditures for additions and betterments, we find and determine:

1. That on and after March 1 1922 a fair return upon the aggregate value of the railway property of the carriers defined in Section 15a of the Inter-State Commerce Act, determined as therein provided, will be 5.75% of such aggregate property value as a uniform percentage for all rate groups or territories designated by this Commission.

2. That the existing freight rates and charges, including charges for switching and other accessorial services and all other charges applicable to freight service which were increased by authority of *Increased Rates*, 1920, *supra*, will be on and after July 1 1922 unjust and unreasonable to the extent that they may respectively include more than the following percentages of increase over the rates in effect immediately prior to Aug. 26 1920, in and between the various rate groups as defined in *Increased Rates*, 1920, 58 I. C. C., 220, 489, and *Authority to Increase Rates*, ibid., 302:

In the Eastern group, also between points in Illinois territory and between Illinois territory and the Eastern group, 26% instead of the 40% authorized in the decisions last cited.

In the Western group, and between the Western group and Illinois territory, 21.5% instead of the 35% so authorized.

In the Southern and Mountain-Pacific groups, 12.5% instead of the 25% so authorized.

On interterritorial traffic, except as otherwise provided herein, 20% instead of the 33 1-3% so authorized.

3. That the freight rates and charges herein determined will enable the carriers in the respective rate groups, under honest, efficient, and economical management and reasonable expenditures for maintenance of way, structures, and equipment, to earn an aggregate annual net railway operating income equal, as nearly as may be, to a return of 5.75% upon the aggregate value, as taken for the purposes of this proceeding, of the railway property of such carriers held for and used in the service of transportation.

4. That in applying the reductions above prescribed, rates between points within a group and points on the border line of that group shall be reduced as provided for the group. Where a river constitutes a boundary line between two groups, points on both banks thereof shall be considered as border-line points. Where rates are constructed by the use of combinations upon gateways between any two groups, each of the factors comprising such through rates shall be reduced separately according to the group in which it accrues.

5. Under the circumstances described in paragraphs (*a*), (*b*), and (*c*), below, carriers should consider existing freight rates and charges as representing those made effective by authority of *Increased Rates*, 1920, *supra*, and shall apply the reductions herein prescribed accordingly, even though in such instances some individual rates or charges may be higher and others lower than those which would result from exact application of the bases above presecribed:

(*a*) Where, since Aug. 26 1920, rates or charges have been readjusted primarily to remove discriminations, prejudices or discrepancies without material effect upon the aggregate level of the rates or charges so adjusted. This does not apply to rates or charges which have been reduced since Aug. 26, 1920, primarily for the purpose of removing all or a part of the general increase of 1920.

(*b*) Where previously existing recognized rate relationships were maintained in applying the increases of August, 1920, or where rates have been readjusted since Aug. 26 1920, to restore previously existing recognized rate relationships. In these cases, such recognized rate relationships should be maintained in applying the reductions herein prescribed; or, if that is impracticable in the first instance, the rates should be readjusted to restore such relationships as soon as practicable.

(*c*) Where, pursuant to decisions by us, rates or charges shall have been changed since Aug. 26 1920. This does not apply to rates resulting from *Rates on Grain, Grain Products, and Hay*, 64 I. C. C., 85; *National Livestock Shippers' League* v. *A., T.& S. F. Ry. Co.*, 63 I. C. C., 107; *Southern Hardwood Traffic Asso.* v. *I. C. R. R. C.*, 66 I. C. C., 68.

6. Where outstanding decisions by us require changes in rates or charges subsequent to June 30 1922, the rates or charges existing on June 30 1922, shall be reduced as herein provided, effective July 1 1922. In proceeding thereafter to comply with such outstanding decisions, the rates or charges which would result therefrom shall be considered as those effective by authority of *Increased Rates*, 1920, *supra*, and the reductions herein prescribed shall be applied thereto, except that this provision shall not apply to rates on brick and related articles as prescribed for application between points in the Eastern group in *National Paving Brick Mfrs. Asso.* v. *A.& V. Ry. Co.*, 68 I. C. C., 213. Those rates are not required to be further reduced hereunder.

7. Where rates on live stock have been reduced pursuant to our recommendations in *National Live Stock Shippers' League* v. *A. T.& S. F. Ry. Co.*, *supra*, and are now less than the rates herein prescribed, the expiration date thereon should be canceled and the rates maintained in effect.

8. In computing and applying all reduced rates and charges prescribed herein, fractions will be treated as follows:

(*a*) Where rates or charges are stated in amounts per 100 pounds or any other unit except as provided in the succeeding paragraphs, fractions of less than ¼ of a cent will be omitted. Fractions of ¼ of a cent or greater but less than ¾ of a cent will be stated as ½ cent. Fractions of ¾ of a cent or greater will be increased to the next whole cent.

(*b*) Where rates or charges are stated in amounts per ton, or in cents or dollars and cents per carload, including articles moving on their own wheels, when not stated in amounts per 100 pounds or per ton (except as provided in (*c*)), fractions of less than ½ cent will be omitted. Fractions of ½ cent or greater will be increased to the next whole cent.

(*c*) Where rates or charges are stated in dollars or dollars and cents per carload, including articles moving on their own wheels, when not stated in amounts per 100 pounds or per ton, amounts of less than 25 cent will be dropped; thus $25 24 will be stated as $25 00 Amounts of 25 cents or more but less than 75 cents will be stated as 50 cents; thus $25 65 will be stated as $25 50. Amounts of 75 cents or more but less than one dollar will be raised to next dollar; thus $25 80 will be stated at $26 00. This rule will apply only in cases where the present rate is $10 00 or more.

(*d*) Where carriers elect to comply with the finding herein by making percentage reductions in existing rates or charges, the rules prescribed in (*a*), (*b*), and (*c*) shall apply.

9. Where carriers earn specific amounts as their divisions or compensation out of joint rates or charges, such amounts shall be reduced in the same manner as provided for the through rates or charges. Where the divisions of carriers participating in joint rates or charges are in fixed amounts per unit and are absorbed by other carriers, such absorptions shall be reduced in the same manner as the through rate or charge.

10. In instances where application of the bases herein prescribed results in departures from the provisions of the fourth section of the Act, the carriers will be expected to correct such departures by tariffs filed not later than Oct. 1 1922. Temporary fourth section relief will be granted by appropriate order. If necessary, interested parties may bring to our attention any of our outstanding orders which may require modification to permit prompt and full compliance with the findings herein.

11. It is important that the reduced rates and charges be made effective at as early a date as practicable. Those herein prescribed shall be made effective on or before July 1 1922, upon not less than 10 days' notice to the Commission and to the general public by filing and posting in the manner prescribed in the Inter-State Commerce Act.

12. The findings in Paragraphs 2 to 11, inclusive, apply to all respondents other than electric lines not operated as a part of a steam railroad system. They do not apply to milk and cream when the revenue from transportation thereof is not included in freight revenue. Nothing herein shall be construed as applying to the proportions of joint through rates or charges to or from points in foreign countries accruing in such foreign countries, or as authority to increase any existing rates or charges.

The respondents should advise us promptly, and not later than May 31 1922, if possible, whether the findings herein will be carried into effect without formal order or orders by us.

McChord, *Chairman:*

In so far as it results in a reduction of rates I assent to the report in this case, but I am not in full accord with it.

At this time I am oppposed to fixing a rate of annual return on the aggregate value of the railway property, and in any event to a rate of 5.75%. If a rate of return is to be fixed at all, I think it should not exceed 5.5%, which was that fixed by Congress at a time when conditions were at their worst and which seems to me not only adequate for present purposes but for future adjustments.

I think that the times and conditions plainly demand reductions in rates on all materials and products that are basic in industry and in our existence as a people to a level that business interests will recognize as the lowest available for some time to come. Nothing less will quiet the prevalent unrest and agitation for lower transportation costs and encourage the needed healthy flow of traffic. The more nearly we approximate the admissible limits of reduction the more effectually will we obtain that stabilization of rates which is conceded to be essential to a full and country-wide resumption of business. In my judgment the general reductions, now decreed, fall short of full attainment of the desired end. The record convinces me that the present level of rates on the basic articles is now operating as a serious burden upon commerce and should be materially reduced, and that upon a considerably lower level of rates, with an induced higher level of traffic activity, not only will the carriers secure more net revenue but the prosperity of the country as a whole will be greatly enhanced. The pulse of both industry and transportation is still below normal, although there is and has been for several months marked improvement, and their mutual interests demand a 50-50 readjustment of the very material rate increases under *Ex parte* 74, if reductions are to be made on all classes and commodities, and a still greater reduction if confined to selected commodities. I entertain no doubt of our power and duty under the law to do this. Reductions on that general basis should also be applied to passenger fares.

There is every reason to believe that, with decreases on that basis and the more effectual stabilization of rates, the full amount of the apparent shrinkage in revenues would be more than made up by the expansion of traffic. One-half of the increases by *Ex parte* 74 were made the measure of the reductions we prescribed in *Rates on Grain, Grain Products, and Hay*, 64 I. C. C., 85, in the territory embraced within the Western and Mountain-Pacific rate groups; and, certainly as to those commodities, which move in large volume from the West to the East, there can be no defensible prescription of reductions in any less degree in the Eastern group, which enjoyed a higher percentage of increase. The report in this case quotes an extract from the report in that case, to the effect that the vital concern of the carriers is in whatever will promote a return to normal traffic movement, which a downward trend in rates will tend to accomplish. The observations there made impress me as having an application commensurate with the wider scope of this case, and the present record presents to my mind no less cogent reasons for equal reductions on other traffic of the country entering essentially into our national welfare.

Eastman, *Commissioner*, concurring:

In 1920 Congress provided in the Transportation Act for the return of the railroads, which were then in the possession of the Government, to their owners in order that they might be privately managed and operated. I was opposed to this early termination of Federal control for the reasons briefly stated in my concurring opinion in *Increased Rates*, 1920, 58 I. C. C., 220, 257, and have since had no occasion to change my views in this respect. But it is clear that we have no more important duty than to administer the provisions of this Act in an endeavor to carry out, as nearly as possible, its spirit and intent. The policy which was then adopted, after long deliberation, is entitled to the best and fairest test that can be given it, for only in this way can its strength or weakness be fully developed as a guide for future action.

In the *Wisconsin Passenger Fare case*, decided in October, 1921, the Supreme Court has said that the "most novel and most important feature f the Act" is Section 15a, which "requires the Commission so to prescribe rates as to enable the carriers as a whole or in groups selected by the Commission to earn an aggregate annual net railway operating income equal to a fair return on the aggregate value of the railway property used in transportation." It declared that "Congress in its control of its inter-State commerce system is seeking in the Transportation Act to make the system adequate to the needs of the country by securing for it a reasonably compensatory return for all the work is does."

Prior to the passage of the Transportation Act, one of the great complaints of the railroads was that this Commission, in the exercise of its control over rates, had been unduly repressive and had not permitted a level high enough to sustain the credit of the carriers and enable them to secure the capital necessary if an adequate transportation system were to be maintained. I think it clear, both from its history and from the internal

evidence which it offers, that it was the intent of Section 15a to quiet the apprehension of investors and provide a "service-at-cost" system of regulation under which our duties with respect to general changes in rates would be reduced, as nearly as practicable, to a mathematical process.

In one important respect the process is more than mathematical, for it requires speculation as to the future. I entirely agree with what was said in *Rates on Grain, Grain Products, and Hay*, 64 I. C. C., 85, that the "rate adjustment can not with advantage be made dependent upon fluctuations in traffic," that past and present statistics of operations and earnings are "serviceable only as they illuminate the future," and that the law contemplates that "in the exercise of our rate-making power the result shall reflect our best judgment as to the basis which may reasonably be expected for the future to yield the prescribed return." But it is the fair return which we must keep constantly in view, our speculation as to the future must be held within conservative limits, and we cannot properly allow ourselves to be influenced by conceptions, dissociated from the Act, as to what may or may not promote the general welfare.

At the time of the increase of 1920 I was of the opinion that any valid determination of "aggregate value" was then impracticable. I am of the opinion that it is now impracticable, although more data are at hand, for we have not yet finally determined the principles by which value is to be estimated from the data accumulated. However, the Commission has approximated "aggregate value" for the purposes of Section 15a, and it is upon this value that the fair return must be based. Using this basis, I am convinced that upon the present record we can lawfully go no further in requiring reductions, if we follow the spirit and intent of Section 15a, than we now go.

In this connection, a word as to passenger fares. Neither the statistics before us nor the apparent trend of traffic, in my opinion, justify a reduction in these fares at the present time. The main argument in support of a reduction is that the carriers would gain by the stimulus to traffic more than they would lose by the decrease in rate per mile. This, however, is not a matter which can be determined with any degree of certainty. It is rather a question of business judgment or wisdom. One of the chief objects of the return of the railroads to their owners was to reap the advantages of the exercise of private initiative. While public regulation is necessarily an interference with management, it was not the intent of the Act, as I read it, that we should substitute our judgment for the judgment of the managers under such circumstances as these. But it is not unfair to say that the private managers have here an opportunity to demonstrate to the country the benefits of their initiative.

One further comment. The Transportation Act provides for the regulation not only of rates and fares but of the wages and working conditions of employees. The latter duty is intrusted to the Railroad Labor Board. While the Labor Board and this Commission are independent bodies, I believe that if the administration of the Act is to be as successful as it can be made, the two bodies must act in some degree of co-operation. This was done very successfully in 1920, when the Labor Board was considering wages at the same time that we were considering rates. It rendered its decision before we rendered ours, so that we were able to cover in our increase in rates and fares the increase in wages which had been found reasonable.

As I understand the law, the regulation of wages is independent of any action that we may take as to rates, but the regulation of rates is necessarily influenced by any action that the Labor Board may take as to wages. At the present time the Labor Board has the wages of all railroad employees under consideration; but we are acting without awaiting its decision and our action is, and must necessarily be, based upon existing wages. We have no right to assume or to conclude that wages will be or ought to be reduced. Nevertheless, these wages, which constitute the chief factor in railroad operating expenses, are now on trial and it is at least possible that they will be reduced. If they should be, we must either re-open our proceedings and make a new determination, to the confusion of industry, or the country must forego for a time so large a reduction in freight rates as would have been possible if we had postponed our decision.

It is my best judgment that it would have been wiser and better if we had announced several weeks ago that our decision would be deferred until after the Labor Board had acted, not for the purpose of in any way prejudging the question of wages or of influencing the action of that body, but for the purpose of so timing our own action that we might be assured that the rates which we were prescribing would be the lowest possible under the law and the rates most likely to remain stable for some considerable period of time.

Potter, *Commissioner*, concurring:

The determination that rates and charges will be, on and after July 1 1922 unjust and unreasonable to the extent that they may respectively include more than the percentages mentioned of increases over the rates in effect immediately prior to Aug. 26 1920, readjusted as mentioned in the report, is in effect a requirement that present rates and charges shall, generally speaking, be reduced 10%—certain reductions heretofore made to be treated as part of such 10% reduction. The support for the finding that rates and charges should be thus reduced is the belief that the prospective net operating revenues of the carriers for the year commencing July 1 1922, if under the existing rate basis, would exceed a fair return by the amount involved in the reduction required. This conclusion has been arrived at by calculating what would have been the net operating revenues of the carriers during the year 1921 if there had been in effect during that year the bases of rates and expenses which were in effect at the time of the hearing, say, Feb. 1 1922, and by adding thereto amounts sufficient to represent the additional net revenue to be derived from a 10% increase in traffic and from further reduced operating expenses in the ensuing year.

While results of future operation are in doubt, due to uncertainty as to the duration of the existing coal strike and other factors, I am convinced that the forecast which we are required to make is justified by present prospects. So far this year there has been a substantial increase of traffic and conditions are improving. There is warrant for the expectation that further reduction of expenses in substantial amount will be realized. In view of the favorable prospect and the industrial and commercial need for lower rate levels, I concur in the conclusion that reductions should be made. If, later, we are convinced that our estimate respecting increased net earnings is not warranted by increased traffic or further reduction of expenses, existing rates can be restored to the extent which then seems necessary.

Notwithstanding the need, which is decreasing, for lower rates, I am not certain that we render a real service to the shipping public in requiring reductions unless and until there is further reduction of operating expenses. Efficient transportation is more important than cheap transportation. Better service was the demand in the busy and prosperous summer of 1920. The increases then authorized were accepted generally without complaint. Returning prosperity will bring its demand for better service and, unfortunately, the need will be acute. I apprehend that in the near future shippers will lose and suffer more from inadequate service than could result from the continuance of present rates. But responsibility for ultimate results is not upon us. The Transportation Act in Section 15a limits the return we may allow the carriers. We must accord to shippers the supposed benefit of that limitation.

While the conclusions of the report have the support of the majority of the Commision, as most nearly representing the concensus of opinion, it is apparent from the individual expressions that to a considerable extent the views of the majority differ. I call attention to certain respects to which I have preference for different conclusions. Assuming that there is a prospective excess earning available for rate reduction, I think different treatment was required for the following reasons:

1. The percentage increases authorized by *Ex parte* 74 resulted in disproportionate increases upon long-haul traffic. The effect was seriously to disturb relationships between competing communities with resulting prejudice and injustice. The short-haul, class rate, and the less-than-carload traffic is less remunerative than the long-haul carload commodity traffic. Therefore, when called upon to eliminate a portion of the increase authorized by *Ex parte* 74 we should first correct the injustice of that decision by giving preference in reduction to carload and long-haul traffic.

2. The theory upon which reductions have been made since *Ex parte* 74 on certain traffic, instead of on all, was that such reductions were required in justice to the traffic to which they applied, and in order to bring such traffic into proper relation with traffic as a whole. No unlawful preferential treatment was intended when such reductions were made. The reductions now required do not increase the reduction heretofore made upon agricultural products, live stock, and certain other commodities. As the reductions heretofore made were to remove injustice and establish a proper level and relation as between commodities, it seems to me that in distributing the prospective surplus now available for reduction, such commodities should share.

3. I favor a reduction in passenger fares other than commutation fares and without removing the Pullman surcharge.

4. There are not many, familiar with the conditions in the financial world, who would question the propriety of naming 6% as a fair return upon the property values of the carriers which are devoted to the public service. We should have fixed the return at 6%. In *Ex parte* 74 we, in effect, fixed the return at 6%. The return contemplated by the Transportation Act to prevail for two years, if we approved, was 6% and not 5.5%. Within the spirit of the Transportation Act applicable to present conditions and needs, a proper return would be 6%. We should not be influenced in naming a fair return by our views upon the subject of taxation. Our function is to name a fair return without regard to how much of it the Government may decide to take from time to time in taxes.

During the early stages of our deliberations, I was impressed with the notion that in making reductions we should give preferential consideration to a selected list of so-called basic commodities. Further consideration developed objections to this course which to my mind are convincing. It appears impossible at this time to select a list of so-called basic commodities to which reduction could consistently and lawfully be limited. We cannot determine upon specific basic commodities which do not so relate in a competitive way to other commodities, as to make it impossible a reduction of the rates on those selected and not on others. The result of applying reductions to a particular list would be to deluge us with complaints from shippers of related commodities who would make charges of discrimination which we would be required to sustain. The effect would be to create intense confusion and discontent and to work great injustice. Concluding that there is a prospective surplus available for rate reductions, I know of no theory on which the surplus, resulting largely from hauling certain traffic, can be made the basis for a finding with respect to the reasonableness of rates on other traffic. If we were to select a list, our difficulties would not be reduced. Some situations are more acute than others. Different commodities and different conditions require different treatment. Some rates are not high enough; others are too high in varying degrees. We would not do justice in requiring horizontal reductions limited to particular commodities. If I were persuaded of the practicability of limiting reductions to the so-called basic commodities, I would favor an announcement of the amount available for rate reduction and have a further hearing upon the question as to how specific application should be made. The present record is not sufficient to indicate what selections should be made. If further hearings were to cause delay, the result might well be more harmful than to proceed as the report prescribes.

Remaining instances of maladjustment should be corrected upon specific applications. Carriers should not regard our general conclusions as dealing correctly in detail with all situations. Their further consideration in the light of constantly changing conditions, with which they are more familiar than we can be, should lead to sounder treatment than we have directed to be applied.

Lewis, *Commissioner*, dissenting:

The decision of the Commission that rates be reduced is unananimous. My dissent is limited to what appears to me to be unjustified economic waste. The times demand adjustments—even radical adjustments—rather than horizontal reductions, and the record in this case justifies such action.

The margin available for reductions or adjustments that may be required by us is not sufficient, if spread over the entire freight traffic, to give to the country the relief and to business and industry the stimulation that is urgently needed. A 10% reduction will, in the case of many commodities, have no perceptible influence in lowering costs of living, stimulating industry, ameliorating economic conditions or bringing us into more favorable and equitable relationships at home and abroad.

It may be said that, measured by the standards of value or service, many commodities are not now bearing too great a share of the transportation burden. Rates in some instances, and on certain services, might be increased rather than lessened as the result of a more detailed study than is afforded in this investigation. The horizontal lowering of transportation charges in many instances will, so far as the public interest is concerned, mean nothing. In some instances it may be said to be detrimental, for it will only serve to transfer to profits of private business revenues which the carriers would much better employ in improvement and extension of the public facility of transportation and in extensive employment incidental thereto, or prevent us or them from affording reductions to meet new conditions.

On the other hand there are commodities and raw materials that are basic to existence, to industry, and to readjustment, on which transportation charges are relatively and absolutely too high. They are out of proper relationship to the selling prices of the commodities and constitute not only maladjustments at home, but most unfavorably affect us in world competition. Making these commodities and materials more cheaply available to consumers and manufacturers would contribute to reduction of costs of living, relief in the housing situation, maintenance of productivity of the soil, increased employment, and stimulation of buying. The combined effect of such changes could reasonably be expected to increase traffic and speed an earlier adjustment of other or all transportation charges to proper relationships with new levels of values.

The fullest possible measure available for reductions should be applied in conformity with the guiding principles which were the foundation of our order in *Rates on Grain, Grain Products, and Hay*, 64 I. C. C., 85, and of our recommendations in *National Live Stock Shippers League et al.*, 63 I. C. C., 107, on which the carriers acted, and which the carriers accepted as the basis for their voluntary 10% reduction in rates on products of the soil.

Cox, *Commissioner*, dissenting:

To the extent that a measure of relief has been granted to the public generally in the disposition of this case I fully concur, but I am not in full ac-

cord with the manner and measure of the reduction as set forth. I desire to refer briefly to existing conditions in the light of the record before us.

It is unnecessary for us at this time to review the causes which have brought about the present situation, nor is there place in the record for criticism of what has happened in the past except in so far as it may serve as a guide for the present or future. Neither is it necessary, except in passing, to refer to the fact that the carriers were not permitted to realize the present rate for transportation service at a time when the traffic was in a better position to bear the burden than at the present time, but the question which concerns us most is: What is our duty in the light of the present record?

Our railroads are national institutions and are vitally necessary to the industrial prosperity of the nation, but if our transportation systems fail to provide a comprehensive and efficient service to the people of our country at a rate which will bear a proper relation to the value of the service and price of the commodity, then must all industry suffer in the same proportion as our transportation systems fail to measure up to their opportunity and responsibility.

Statisticians, who have made a careful study of the trend of industrial activities covering a period of a century or more, have proved beyond all question of doubt, that following a period of abnormal inflation of commodity values, in the process of a return to a normal condition, new levels of values are established which are invariably higher than the old, but in the establishment of new levels careful consideration must be given to the economic conditions, both home and abroad, and we should continually keep before us our need of foreign markets for the products of our farms and factories.

The productivity of the soil is one of our country's greatest assets, and the prosperity of our agricultural interests is reflected in all other lines of industry, including transportation. Agriculture was one of the first industries to feel the depression in 1921. Prices of farm products fell, in some instances, far below pre-war levels.

The rapid and marked decline in prices without similar reductions in production and distribution costs created a serious situation, and resulted in a heavy falling off in the purchase of manufactured articles of all kinds, thereby contributing largely to the general business depression, and freight and passenger traffic has receded far below normal levels. Nothing, perhaps, is more desirable at this time than a return to normalcy, and adjustments must be made which will tend to stimulate the agricultural and industrial situation which has been in a state of depression since the readjustment period began.

I do not concur in the views of the majority that rates on all commodities should be reduced at this time and it is a matter of record that many commodities at present rate levels are not bearing more than a just share of the transportation burden.

It is my judgment that the amount available for reduction at this time should be applied to agricultural products, raw materials and basic commodities which are essential to the re-establishment of industry, the re-employment of labor, and which could at once be reflected in reduced living costs.

Passenger fares at present rate levels have been reflected in a marked falling off in traffic. No further argument should be necessary than the fact that passenger travel is over seven billions of revenue passenger-miles below normal. Representatives of industrial and commercial interests have made requests for reduction in rates repeatedly, and they are unanimous in their opinion, in which I fully concur, that the issuance of a mileage book at a reduced rate of fare would not only stimulate travel but would also increase the present revenues of the carriers.

By the Commission.

[Seal.] GEORGE B. McGINTY, *Secretary.*

THE ENGLISH GOLD AND SILVER MARKETS.

We reprint the following from the weekly circular of Samuel Montagu & Co. of London, written under date of May 21 1922:

GOLD.

The bank of England gold reserve against its note issue is £127,055,445, as compared with £127,052,935 last week.

The small amount of gold on offer has been taken for the East.

Gold to the value of $4,287,000 has arrived in New York from Sweden.

SILVER.

Some demand arose from the Indian Bazaars, though rather of an intermittent character. Failing any unwillingness on the part of the United States to feed the market, the bulk of the supplies came from Continenta sources, and the trend of prices was upward. Competition to buy is almost altogether absent, hence it may be inferred that the steady tendency during the week should be attributed to the smallness of offerings, rather than the strength of enquiry. The development of events in the Far East has not brought China into the market either as a buyer or as a seller. To-day several Indian orders for shipment imparted some firmness and prices rose ⅛d. to 35 5/16d. for cash and 35 ½d. for 2 months' delivery.

We have on occasion referred to the bonus paid to the mining industry in the United States of America, owing to the provisions of the Pittman Act. Mr. John Parke Young of Princeton University, in the "Journal of the American Bankers Association" thus alludes to the public expense involved: —"If the silver dollars are to be recoined, the policy of aiding the silver producers by purchasing this silver at the price of $1 an ounce, when the market price is around 65c. an ounce, is a policy of doubtful necessity. It is, in effect, subsidizing the silver industry and unless there appears a valid reason why this industry should be especially favored by a bounty, the policy is to be condemned . . . As regards government economy, assuming it were desirable to coin silver dollars, if the silver were purchased at the market price of 65c. an ounce instead of at $1 an ounce, there would be a saving of $73,000,000 on the total purchase . . . If the purchases were discontinued completely, there would be a saving of $113,000,000. If they were continued, but at the market price, the saving would amount to $40,000,000."

At the present time the consumption of silver for trade manufacture in this country is remarkably small. As as indication of lessened expenditure upon articles of luxury, the circumstance is satisfactory, but inasmuch as it implies a cessation of the export trade in silver goods,—in former years of some importance,—it is bad for those engaged in the trade and causes serious hardship to skilled workmen bred to the industry. Nor can a speedy recovery be anticipated with any degree of certitude even though there may be a stirring among the dry bones of international trade. The goods provided by gold and silver smiths are not in request until people are in a position to become willing purchasers. The buying public must first recover from a period of bad trade, and then make considerable gains from a period of good trade, before they can feel disposed to buy articles for the adornment of the person or of the home. The statistics of the amount of silver furnished for use in manufacturing and the arts in the United States of America are not yet available for 1921, the period when industrial depression began to be experienced in that country; it will be interesting to see how it will compare with the amount officially returned for 1920. This was given as 19,280,129 ounces of new and 8,694,392 ounces of old material—together 27,974,521 ounces, a very substantial total. Old material, (as also that mentioned in our letter of the 6th inst. in connection with gold), consists of discarded jewellery, plate, &c., and metal derived from sweepings of workshops.

It will be observed from the details given below that the last Indian Currency Reserve did not include the 200 lacs of Inland Commercial Bills of Exchange which recently have formed part, and that the notes in circulation have been reduced to about the same extent.

INDIAN CURRENCY RETURNS.

(In Lacs of Rupees)—	*Apr.* 15	*Arp.* 22	*Apr.* 30

COURSE OF BANK CLEARINGS.

Bank clearings continue to show moderate ratios of gain. Preliminary figures compiled by us, based upon telegraphic advices from the chief cities of the country, indicate that for the week ending to-day (Saturday, May 27) aggregate bank clearings for all the cities in the United States from which it is possible to obtain weekly returns will show an increase of 12.3% over the corresponding week last year. The total stands at $7,042,373,644, against $6,272,733,698 for the same week in 1921. This is the tenth successive week in which our weekly aggregates have shown an improvement as contrasted with last year. Our comparative summary for the week is as follows:

Clearings—Returns by Telegraph. Week ending May 27.	1922.	1921.	*Per Cent.*
New York	$3,435,700,000	$3,004,946,253	+14.3
Chicago	440,959,316	385,554,652	+14.4
Philadelphia	334,000,000	307,091,701	+8.8
Boston	248,000,000	209,000,547	+18.7
Kansas City	97,090,897	107,140,567	—9.4
St. Louis	a	a	a
San Francisco	107,600,000	92,000,000	+15.8
Pittsburgh*	90,000,000	108,844,965	—17.3
Detroit	87,142,021	63,925,963	+36.3
Baltimore	59,246,784	61,017,752	—2.9
New Orleans	40,782,446	35,130,680	+16.1
Ten cities, 5 days	$4,940,521,464	$4,375,553,080	+13.4
Other cities, 5 days	928,123,240	851,625,002	+9.0
Total all cities, 5 days	$5,868,644,704	$5,227,278,082	+12.3
All cities, 1 day	$1,173,728,940	$1,045,455,616	+12.3
Total all cities for week	$7,042,373,644	$6,272,733,698	+12.3

* Estimated. a Refuses to furnish figures of clearings.

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them to-day, inasmuch as the week ends on Saturday and the Saturday figures will not be available until noon to-day, while we go to press late Friday night. Accordingly in the above the last day of the week has in all cases had to be estimated.

In the elaborate detailed statement, however, which we present further below we are able to give final and complete results *for the week previous*—the week ending May 20. For that week the increase is 9.2%, the 1922 aggregate of the clearings being $7,384,667,950 and the 1921 aggregate $6,762,609,179. Outside of this city, however, the increase is only 7.0%, the bank exchanges at this centre recording a gain of 10.8%. We group the cities now according to the Federal

Reserve districts in which they are located, and from this arrangement it appears that in the Boston Reserve District the increase is 16.7%, in the New York Reserve District (including this city), 10.7% and in the Philadelphia Reserve District 4.4%. In the Richmond Reserve District the increase is 17.5%, and in the Atlanta Reserve District 5.3%, but in the Cleveland Reserve District there is a decrease of 3.9%. The Chicago Reserve District and the St. Louis Reserve District both record improvement, the former to the extent of 7.8% and the latter 14.5%. The Dallas Reserve District records an increase of 0.6%, while the Kansas City Reserve District has a decrease of 3.7% and the Minneapolis Reserve District a decrease of 1.6%. The San Francisco Reserve District enjoys a gain of 16.5%.

In the following we furnish a summary by Federal Reserve Districts:

SUMMARY OF BANK CLEARINGS.

Week ending May 20.	1922.	1921.	Inc.or Dec.	1920.	1919.
Federal Reserve Districts	$	$	%	$	$

Philadelphia Banks.—The Philadelphia Clearing House return for the week ending May 20, with comparative figures for the two weeks preceding, is given below. Reserve requirements for members of the Federal Reserve System are 10% on demand deposits and 3% on time deposits, all to be kept with the Federal Reserve Bank. "Cash in vaults" is not a part of legal reserve. For trust companies not members of the Federal Reserve System the reserve required is 10% on demand deposits and includes "Reserve with legal depositaries" and "Cash in vaults."

Two Ciphers (00) omitted.	*Week ending May 20 1922.* Members of F.R. System	Trust Companies	Total.	*May 13 1922.*	*May 6 1922.*

CURRENT NOTICES.

—Bowerman Bros., Inc., 110 Wall St., New York, state that they will be glad to advise "Chronicle" readers with reference to refined and raw sugar markets.

—The Equitable Trust Co. of New York has been appointed transfer agent of the stock of the Skelly Oil Co., effective June 1.

—Gilbert Elliott & Co. have prepared a folder giving quotations, interest dates and rates on Canadian provincial bonds.

WEEKLY RETURN OF THE FEDERAL RESERVE BOARD.

The following is the return issued by the Federal Reserve Board Friday afternoon May 26, and showing the condition of the twelve Reserve Banks at the close of business the previous day. In the first table we present the results for the system as a whole in comparison with the figures for the seven preceding weeks and with those of the corresponding week last year. The second table shows the resources and liabilities separately for each of the twelve banks. The Federal Reserve Agents' Accounts (third table following) gives details regarding transactions in Federal Reserve notes between the Comptroller and Reserve Agents and between the latter and Federal Reserve banks. *The Reserve Board's comment upon the return for the latest week appears on page* 2296 *being the first item in our department of "Current Events and Discussions."*

WEEKLY RETURN FOR THE MEMBER BANKS OF THE FEDERAL RESERVE SYSTEM.

Following is the weekly statement issued by the Federal Reserve Board, giving the principal items of the resources and liabilities of the 799 Member Banks, from which weekly returns are obtained. These figures are always a week behind those for the Reserve Banks themselves. Definitions of the different items in the statement were given in the statement of Dec. 14 1917, published in the "Chronicle" Dec. 29 1917, page 2523. *The comment of the Reserve Board upon the figures for the latest week appear in our Department of "Current Events and Discussions" on page* 2296.

1. Data for all reporting member banks in each Federal Reserve District at close of business May 17 1922. Three ciphers (000) omitted.

Bankers' Gazette

Wall Street, Friday Night, May 26 1922.

Railroad and Miscellaneous Stocks.—The outstanding event of this week has been the Inter-State Commerce Commission's announcement that an average cut of 10% in freight rates will go into effect on July 1. Railroad shares responded feebly to this bit of news. Evidently the result upon the earnings of the carriers is problematical. Perhaps increased tonnage will more than offset the reduced rate. That tonnage will increase there can be no question.

Monday was the banner day of the week at the Stock Exchange, but to-day was a close second. Over 1,500,000 shares were traded in on Monday and in most cases the highest quotations of the week were then recorded. Following that the market was irregular, both in the volume of business and fluctuation in values. As a result of the week's operations, 16 of a list of 20 most active stocks have advanced and a few are from 2 to 3 points higher. North American is exceptional in a jump of nearly 7 points, while Beth. Steel has dropped 2.

The bond market has been relatively active and steady. The average amount changing ownership day by day is over 15 million, par value, and included a large number of issues. Liberty Loans have been in request at advancing prices, the third 4¼s selling above par for the first time in their history They sold to-day at $100.06. Several other bonds have made a new record within the week.

The following are sales made at the Stock Exchange this week of shares not represented in our detailed list on the pages which follow:

Foreign Exchange.—Sterling exchange continues quiet but steady with quotations practically unchanged for the week. In the Continental exchanges more or less irregularity prevailed, although trading was light. Lire came in for good gains in the later dealings.

To-day's (Friday's) actual rates for sterling exchange were 4 42½@4 42 11-16 for sixty days, 4 44½@4 44 11-16 for checks and 4 44⅞@4 45 1-16 for cables. Commercial on banks, sight, 4 37½@4 37 11-16; sixty days, 4 31½@4 31 11-16; ninety days, 4 30½@4 30 11-16 and documents for payment (sixty days), 4 31¾@4 31 15-16, and grain for payment, 4 37½@4 37 11-16.

To-day's (Friday's) actual rates for Paris bankers' francs were 9.00½+ 9.03¾ for long and 9.06½@9.09¾ for short. Germany bankers' marks are not yet quoted for long and short bills. Amsterdam bankers' guilders were 38.44@38.47 for long and 38.80@38.83 for short.

Exchange at Paris on London, 48.73 fr.; week's range, 48.73 high and 49.62 low.

The range for foreign exchange for the week follows:

Sterling Actual—	*Sixty Days.*	*Checks.*	*Cables.*
High for the week	4 42¾	4 44¾	4 45⅛
Low for the week	4 42⅜	4 44⅜	4 44¾
Paris Bankers' Francs—			
High for the week	9.08¾	9.16¾	9.17¾
Low for the week	8.86¾	8.94¾	8.95¾
Germany Bankers' Marks—			
High for the week	-----	0.35¾	0.36¼
Low for the week	-----	0.31	0.31½
Amsterdam Bankers' Guilders—			
High for the week	38.47	38.88	38.93
Low for the week	38.37	38.74	38.79

Domestic Exchange.—Chicago, par St. Louis, 15@25c. per $1,000 discount. Boston, par. San Francisco, par. Montreal, $9.3750 per $1,000 premium. Cincinnati, par.

The Curb Market.—The Curb Market continued active and firm this week until Thursday, when a slight setback was experienced, which was completely recovered in to-day's market. The bulk of the activity was in the oil and mining issues. Standard Oil issues were especially prominent. Standard Oil (Indiana) on heavy dealing advanced from 106⅝ to 112⅜, eased off to 110¼ and to-day ran up to 115. The close was at 114¾. Standard Oil (Kentucky) from 82 sold up to 96 and back on Thursday to 90¾. To-day it recovered to 94¾ and closed at 94. Prairie Pipe Line gained 21 to 248 and sold finally at 245. Fensland Oil, after a decline from 16½ to 15¾, recovered to 17 with a further advance to-day to 18. Maracaibo Oil dropped two points to 22 and recovered to 23. Mexican Seaboard continues heavily traded in, down from 46⅛ to 44⅝ and up to-day to 47¼. The close was at 46¼. In the industrial and miscellaneous group, shares were prominent. Moon Motor Car, traded in for the first time, down from 11 to 10¼ and up to 11⅝ with the close to-day back to 11. Hudson Motor Car was active, advancing from 21⅝ to 22½, then dropping to 20⅞ with a recovery to-day to 21½. The final transaction was at 21¼. Durant Motors fell from 37¼ to 35¼, and closed to-day at 36. Daniels Motor improved from 13¼ to 14¼, with the close to-day back to 13¾. Glen Alden Coal gained 2½ points to 55½, but reacted and closed to-day at 52¼.

A complete record of Curb Market transactions for the week will be found on page 2348.

Chicago and Pittsburgh Stock Exchanges.—*This week's record on the Chicago and Pittsburgh Stock Exchange will be found on page* 2332.

New York Curb Market.—Below is a record of the transactions in the New York Curb Market from May 26 to May 26, both inclusive, as compiled from the official lists. As noted in our issue of July 2 1921, the New York Curb Market Association on June 27 1921 transferred its activities from the Broad Street curb to its new building on Trinity Place, and the Association is now issuing an official sheet which forms the basis of the compilations below.

Week ending May 26— Stocks— Par.	Friday Last Sale. Price.	Week's Range of Prices. Low.	High.	Sales for Week. Shares.	Range since Jan. 1. Low.		High.

RAILROAD GROSS EARNINGS

The following table shows the gross earnings of various STEAM roads from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from Jan. 1 to and including the latest week or month. *The returns of the electric railways are brought together separately on a subsequent page.*

ROADS.	Latest Gross Earnings.			Jan. 1 to Latest Date.

New York Central Railroad.

(Report for Fiscal Year Ended Dec. 31 1921.)

The report is cited at considerable length, together with the corporate income account, statement, balance sheet, &c., under "Reports and Documents" on a subsequent page. President Alfred H. Smith further says in brief:

Changes in Property Investment Accounts.—Changes in the property investment accounts for the year were as follows:

Charges for owned railway property, net	$6,224,194
Charges for equipment, net	18,924,398
Miscellaneous physical property	2,068,097
Total	$27,216,689
Improvements on leased property (net credit)	1,981,713
Net increase in property investment accounts during the year	$25,234,975

Stockholders.—A table shows that whereas on Dec. 31 1915 the company had 25,042 stockholders averaging 100 shares each (22,270 in the U. S. with an average of 104 shares each, and 2,772 abroad with an average of 64 shares each), there were on Dec. 31 1921 34,328 shareholders averaging 73 shares each, and abroad 504 holders with an average of 70 shares each.

Capital Stock.—There was no change during the year. In 1916 the company authorized the issue of $25,000,000 capital stock to be sold at not less than par, the stockholders being given the right to subscribe at par. Shortly after the issue of this stock was authorized the market price of the stock fell below par and only $258,900 was disposed of.

By resolution adopted on Dec. 14 1921, the board amended the previous resolution for the $25,000,000 stock issue so as to limit the amount of capital stock authorized thereby to the total of $258,900. By the same resolution, the board authorized the issue of not exceeding $23,478,880 of stock for the acquisition of capital stock, common and preferred, of Cleveland Cincinnati Chicago & St. Louis Ry. (V. 113, p. 2614), the plan for which is described elsewhere in the report [under "Reports and Documents" below].

Revenues, Tonnage and Passengers.—Total operating revenues for 1921 were $292,130,995, a decrease of $46,493,461. These and the following figures exclude the results of operation of the Boston & Albany RR. [which are given separately below].

Freight revenue was $179,170,832, a decrease of $30,621,376. The total revenue tonnage decreased 36,278,248 tons. The principal items making up the decrease in tonnage were anthracite and bituminous coal and coke, 13,865,357 tons, and iron ore, 7,167,030 tons. The remainder of the decrease is well distributed among the other commodities.

Passenger revenue, $80,432,126, decreased $4,169,514. The total number of passengers carried was 54,188,310, a decrease of 6,494,341.

The heavy falling off in freight and passenger traffic during the year more than offset the benefit in earnings from increases in rates which went into effect Aug. 26 1920.

The revenue from the transportation of mail was $6,508,491, a decrease of $4,939,967. The mail traffic of the company increased in 1921. The decrease in mail revenue is the result of the inclusion in 1920 of large amounts for adjustments covering additional compensation for the entire period of Federal control.

Express revenues amounted to $6,311,136, a decrease of $5,386,434, which was due not only to the business depression but also to the operation of the new contract with the American Railway Express Co., effective Sept. 1 1920.

Rents of buildings and other properties decreased $1,096,040. The greater part of this decrease is due to a change in classification of certain rentals in the Grand Central Terminal area.

The decrease of $1,108,634 in miscellaneous revenue is largely in the revenue from the handling of ore at the docks at Buffalo and Ashtabula, a direct result of the business depression.

Operating Expenses.—In arriving at the railway operating income for the guaranty period the Transportation Act required that the maintenance allowance should be fixed with reference to the standards and price levels of the test period. The company worked out a tentative factor which resulted in charges to maintenance in excess of actual expenditures and the carrying forward of a reserve at the end of 1920. This factor, however, has proved to be larger than the Government is likely to accept. Therefore, entries were made in Dec. 1921, closing out balances in the maintenance reserves which had been accumulated in 1920; and as operating expenses for that year had been over-accrued by the amount of the reserves, it was necessary to adjust operating expenses in 1921 to offset the overcharge and preserve the continuity of the accounts.

In making this adjustment the amount tentatively charged against the Government for guaranty period operations was reduced and a corresponding charge was made against non-operating income, as a result of which the net corporate income for 1921 was not affected.

The operating expenses for 1921 by groups as compared with those for 1920, eliminating these adjustments, were as follows:

	Amount.	*Decrease.*
Maintenance of way and structures	$35,621,706	$5,334,300
Maintenance of equipment	64,455,871	28,840,877
Traffic	3,504,504	Inc.35,408
Transportation	112,561,539	46,641,490
Miscellaneous	3,894,424	912,204
General	8,825,925	315,589
Transportation for investment—*Cr.*	292,615	290,419
Total	$228,571,355	$82,299,471

The substantial decrease in operating expenses reflects the falling off in traffic, the economies effected by the company during the year, and reduction in wages and in costs of material and fuel.

Claims for Loss and Damage to Freight.—The charges to operating expenses for loss and damage to freight during the year amounted to $7,704,045, an increase of $236,041, over 1920. Of the claims settled during 1921 only about 25% accrued during that year, the balance being for account of the period prior to Federal control, the guaranty period, and the last four months of 1920.

Miscellaneous Operations.—In 1920 the results of operation of the stockyards at East Buffalo were included in miscellaneous operations, while in 1921 they were included in other accounts. This is the principal reason for the decrease in the net miscellaneous operating income of $168,009.

Non-Operating Income.—Pursuant to the final certificate of the I.-S. C. Commission, the annual compensation for the possession, use and control of the property of this company and its leased lines under the contract with the Director-General of Railroads, is $56,964,228. This is an increase of $1,161,597 over the amount stated in the contract and accrued during Federal control.

This increase and additional compensation, representing interest on completed additions and betterments put in service prior to Feb. 29 1920, account for the item of $4,281,608, shown in the income account as additional compensation and adjustment of standard return.

The increase of $282,777 in income from lease of road is mainly attributable to a redistribution in the accounts extending back to March 1 1920, of bills against the *Indiana Harbor Belt RR.* for trackage between Ivanhoe and Dune Park.

Miscellaneous rent income shows an increase of $2,313,059. Of this the greater part is accounted for by an adjustment extending back several years in method of distribution of bills for rental in connection with property in the Grand Central Terminal area and West Side Improvement property in New York City, these rentals having been included in other accounts in 1920.

The account "separately operated properties—profit" shows a decrease of $1,000,580. This decrease is accounted for by a deficit from operation of the *Pittsburgh McKeesport & Youghiogheny RR.* during 1921 as compared with a surplus in 1920.

Dividend income decreased $338,994. This is explained by the receipt of reduced dividends on the stock of *Mahoning Coal RR.*

Increase in income from funded securities of $2,162,570 is mainly due to income received from additional loans to affiliated companies and to the fact that income from such loans in 1920 was included in income from unfunded securities and accounts. This change in classification was made in compliance with a ruling of the Bureau of Accounts of the I.-S. C. Commission.

Income from unfunded securities and accounts shows a decrease of $1,906,956. A substantial part of this decrease is due to the change in distribution of income from loans made to affiliated companies as above explained and the remainder is accounted for by a decrease in interest accrued on deferred payments of compensation due from the RR. Admin.

The decrease in miscellaneous income of $1,062,114 is due in part to a rearrangement, for purposes of comparison, of the figures shown in the 1920 report and in part to adjustments in connection with the guaranty period March-August 1920.

Deductions from Gross Income.—The rental for leased roads decreased $466,702. Due to the falling off in freight traffic, there was a decreased rental, based on gross revenues, paid under the lease of the Mahoning Coal RR., and this was partially offset by an increase in the amount charged to this account for rental of the Lake Erie & Pittsburgh Ry. as a result of changing the status of that road in the accounts from a joint facility to a leased line, pursuant to a ruling of the Bureau of Accounts of the I.-S. C. Commission. The increase resulting from the Lake Erie & Pittsburgh adjustment is offset by corresponding changes in other accounts.

Miscellaneous rents increased $418,675. This increase is principally accounted for by adjustment account change in classifictation of charges for several past years in connection with West Side Improvement property, New York City, and which charges had been included in other accounts.

Miscellaneous tax accruals increased $107,876, largely due to increase in assessments during the year.

The increase in charges account "separately operated properties—loss," was $1,055,627, and is attributable to the fact that in the year 1921 a loss of $1,351,943 in operation of the Boston & Albany RR. was included as against a loss of $118,242 for the year 1920. For the last four months of 1920 the Boston & Albany showed a loss of $448,964, which was partially offset by the surplus accruing during the Federal control months (Jan. and Feb.) and the guaranty period.

The increase of $2,861,558 in interest on funded debt is caused by the accrual of a full year's interest upon the notes given to the U. S. Government for the loan of Dec. 23 1920, and on $25,000,000 collateral trust gold bonds issued Sept. 1 1920.

The increase of $1,419,787 in interest on unfunded debt is chiefly attributable to accruals of interest on indebtedness to the Director-General of Railroads for additions and betterments to road and equipment and on other accounts.

The increase of $113,755 in amortization of discount on funded debt is principally accounted for by the charge-out of a full year's proportion of the discount and expenses in connection with the $25,000,000 issue of 10-year collateral trust gold bonds.

The decrease of $247,409 in corporate general expenses is due to the inclusion in that account of the expense of maintaining the corporate organization in Jan. and Feb. 1920, during which period the transportation property of the company was under Federal control. Expenses of a similar character subsequent to Feb. 1920 have been included in railway operating expenses.

The increase of $535,117 in miscellaneous income charges is due in part to a rearrangement, for purposes of comparison, of the figures shown in the 1920 report and in part to adjustments in connection with the guaranty period.

Net Corporate Income.—The net corporate income of the company was $22,295,686, from which were declared dividends of 5%, amounting to $12,479,641. There were appropriations for sinking fund purposes of $68,457. After these deductions, there remained a surplus of $9,747,588, or an increase over the surplus for 1920 of $8,497,331.

If, however, additional compensation credited during the year under the contract with the Director-General of Railroads and additional amounts credited in connection with the guaranty under the Transportation Act, 1920, aggregating $5,613,183, are excluded from the income account, the amount representing the surplus on the basis of actual operation of the property would be $4,134,404.

Investments Aggregating $102,808,628 *on Impts. on Leased or Controlled Railway Property.*

Grand Central Terminal	$45,735,309	Beech Creek Exten. RR.	$1,510,456

Boston & Albany Railroad.

(Report for the Year Ended Dec. 31 1921.)

The report of the New York Central RR. (see above) shows the following results:

The operating revenues for 1921, compared with 1920, decreased $3,648,637, or 10.6%.

Freight revenue decreased $1,754,952, or 9.6%. Revenue freight decreased 3,695,781 tons. The average number of tons of revenue freight per train mile in 1921 was 375.71, as against 421.90 in 1920, a decrease of 15.2%. Total average train load, including company freight, amounted to 328.81 in 1921, as against 441.32 in 1920, a decrease of 60.04 tons, or 13.6%.

Passenger revenue decreased $666,473, or 5.8%; revenue passengers carried decreased 2,469,105, or 15%.

Rail operating expenses (exclusive of equipment retirements and depreciation) decreased $5,761,746, equal to 18.2%. Operating expenses including equipment retirements and depreciation decreased $5,650,064, or 17.6%. Expenses for maintenance of way decreased $900,588; maintenance of equipment expenses decreased $128,693 and transportation expenses decreased $4,414,150.

Fifteen all steel coaches and 7 all steel baggage cars were received during 1921 on 1920 orders. During the year 10 open platform combination cars and coaches were assigned as work cars. One wooden baggage car was destroyed and 6 others were assigned for service in the stores department as supply train cars.

During the period Dec. 26 1920 to April 19 1921, 6 eight-wheel switching locomotives were received and, later, 6 small locomotives that had been used in switching service were destroyed.

COMBINED FEDERAL AND CORPORATE INCOME ACCOUNT FOR CAL. YEARS 1920, 1919, 1918, AND CORPORATE FOR 1921.

Virginian Railway Company.

(12th Annual Report—Year Ended Dec. 31 1921.)

Pres. Clarence W. Huntington, N. Y., May 1, says in sub.:

Final Settlement With Govt.—By agreement entered into Sept. 9 1921 with the Director-General of Railroads, U. S. RR. Administration, covering the compensation to be paid for the use of the property during the period of Federal control, and including also final settlement of accounts in respect to charges for additions, improvements and equipment, as well as claims for under-maintenance, &c., the sum of $2,308,095 in excess of the amount originally certified by the I.-S. C. Commission as just minimum compensation on the basis of the standard return is included.

At the direction of the I.-S. C. Commission, this additional compensation has been credited to income account in 1921.

Under this agreement company received a net amount of $2,100,000 in full adjustment and satisfaction of all claims and accounts except the amount due in respect to guaranteed income for the 6 months ended Aug. 31 1920.

As a further consideration in this settlement, it was agreed that $2,000,000 charges included therein for additions and betterments made during Federal control would be funded upon a note of company, with collateral security, and it was further understood that if, in the future the U. S. RR. Administration has the power and an arrangement is made for general funding of additions and betterments, consideration will be given by the Administration to the funding of $2,000,000 additional. This funding privilege has not as yet been availed of, but the matter is in progress at this time.

Guaranteed Period.—A claim on behalf of company against the U. S. Govt. for guaranteed railway operating income for the 6 months ended Aug. 31 1920 has been prepared and filed.

Section 15a of the Inter-State Commerce Act requires that if, under the provisions of that section, any carrier receiver for any year a net railway operating income in excess of 6% of the value of the railway property held for and used by it in the service of transportation, one-half of such excess shall be placed in a reserve fund established and maintained by such carrier, and the remaining one-half thereof shall, within the first four months following the close of the period for which such computation is made, be recoverable by and paid to the Commission for the purpose of establishing and maintaining a general railroad contingent fund.

Under this provision, the I.-S. C. Commission issued an order dated Jan. 16 1922 that returns of income be made for the period from Sept. 1 to Dec. 31 1920 by carriers which accepted the provisions of Section 209 of the Transportation Act, 1920. Such return was duly made by company. The Commission has since issued an order dated Mar. 16 1922, requiring a return for the year 1921 which has also been filed. Neither shows any amount due the Commission.

Valuation.—The valuation of the property by the I.-S. C. Commission as of June 30 1916 had not yet been served on the company up to May 1. [Washington dispatches under date of May 22 reported that the Commission has placed a tentative valuation of $55,862,622 on the properties as of June 30 1916. The balance sheet as at Dec. 31 1921 gives the company's investment in road (less depreciation) at $84,554,826.—Ed.]

Virginian & Western Ry.—In Jan. 1922 the corporate name of Virginian-Wyoming Ry., a subsidiary, was changed to *Virginian & Western Ry.*, and changes were made in its termini and route.

The lease of May 17 1920 under which no operations had taken place has been canceled, and a revised lease for the term of 999 years from the Virginian & Western Ry. is now before the I.-S. C. Commission for approval and authorization. Pending approval and authorization of the lease mentioned, your company will operate over 14.45 miles of Virginian & Western road completed during the year under trackage agreement.

Funded Debt.—During the year $15,000 of the Virginian Limestone Corp. 1st Mtge. 5s were redeemed through sinking fund, leaving $250,000 bonds on hand at Dec. 31 1921.

Equipment.—The remaining equipment purchased under Equipment Trust Series "C," referred to in the 1920 report, was received and placed in operation during the year.

Road.—Mileage of lines owned was increased during the year 2.52 miles by construction of Upper Piney Creek Branch, which is an extension of Winding Gulf Branch.

Work on the double-tracking of Clarks Gap Hill, which was unfinished in 1920, has been completed. There are now 16.16 miles of double track in operation between Mullens and Clarks Gap.

Coal Mines Along Lines.—At the close of the year there were 107 coal mines (not including wagon mines) in operation on the main line, branches and connecting lines of company in Virginia and West Virginia, of which 4 began shipping during the year, and 2 additional mines were under way; 56 of the mines are served jointly by our railway and the Chesapeake & Ohio Ry. and one is served jointly by your railway and the Norfolk & Western Ry.

New Industries.—The following new industries were located on your line: Manufacturers of forest products, 8; manufacturers of fruit and vegetable baskets, 1; canning factories, 1; total, 10.

CLASSIFICATION OF FREIGHT—PRODUCTS OF (TONS).

	Agricul.	*Animal.*	*Mines.*	*Forest.*	*Mfrs., &.*	*Total.*
1921	60,008	3.455	5,923,035	162,940	227,210	6,376,648

Stutz Motor Car Company of America, Inc.

(6*th Annual Report—Year ended Dec.* 31 1921.)

President Wm. N. Thompson, N. Y., May 1, says in subst:

The manufacturing and sales conditions which existed during the past year and which were by no means confined to our company's line of industry were not conducive to satisfactory operating results.

The large stocks of automobiles in dealers' hands during the early months of 1921 and the depressed market conditions of the latter months caused a substantial contraction in the volume of the class of business done by this company and necessitated a severe curtailment in its manufacturing program. Lower prices and contract cancellations made inventory reductions and factory economy imperative.

During this period of restricted operation your officers have devoted considerable attention to the improvement of the Stutz car, to the simpli-

fying of manufacturing operations and to the development of sales methods and the strengthening of sales organizations, in order that existing competitive conditions might be met with confidence.

Minor improvements have been made in the chassis of the car, a left-hand drive has been adopted and a new detachable head type of motor has been perfected and thoroughly tested. with satisfactory results. All cars are now being equipped with this motor, which insures a fast, powerful and strong car, the equal of any in the quality group as to comfort and appearance and the lowest priced car of that group.

The usual comparative income account was given in V. 114, p. 2250.

United Shoe Machinery Corporation.

(*Annual Report for Fiscal Year Ended Feb.* 28 1922.)

Pres. E. P. Brown, Patterson, N. J., May 19, says in sub.:

Results.—After paying dividends of $3,385,432 and setting aside a reserve of $1,500,000 for Federal taxes and contingent losses, the surplus at the end of the year is $24,142,156, a decrease for the year of $291,285 as contrasted with $3,237,174 for the year ending Feb. 28 1921.

General Improvement in Shoe Business.—It is gratifying to note a general improvement in the shoe manufacturing industry, which is directly reflected in the business of this corporation. The volume of sales in the merchandising department of our business has increased, the stocks, which were abnormally large at the time of the last report, have been substantially reduced. All merchandise inventories are based on replacement values.

Foreign Business.—Our foreign companies report fluctuating conditions throughout the year, but generally speaking business, which was dull during the first six months, has shown a marked improvement during the last half of the period.

U. S. Supreme Court Holds Lease Contracts Invalid.—The suit instituted in 1915, attacking certain clauses in certain of the forms of leases used by the company and seeking to have them declared unlawful under the provisions of the Clayton Act, has at last been decided in the U. S. Supreme Court.

The issues before the Supreme Court were those only which had been ruled upon adversely to the company's contentions in the District Court. From the decision of the District Court upon issues decided in favor of the company, the counsel for the United States instituted an appeal to the Supreme Court but abandoned this appeal without taking it to argument.

Argument upon the company's appeal had been heard in the Supreme Court in March 1921. On June 6 1921 the Supreme Court ordered the case restored to the docket for reargument. and it was reargued in Jan. 1922. On Apr. 17 the opinion of the Court was handed down, holding that the clauses in question before the Supreme Court were "embraced in the broad terms of the Clayton Act" and that their use must be enjoined. (V. 114, p. 1729.)

The Court held that the former decision of the Supreme Court in favor of the company under the Sherman Act did not control in the present suit, saying in part:—

"That the leases were attacked under the former bill as violative of the Sherman Act is true, but they were sustained as valid and binding agreements within the rights of holders of patents. . . .

"The issue whether the restrictive clauses were valid in view of the provision of the Clayton Act concerning machinery patented or unpatented was not and could not have been involved or deicded in the former suit. It is true that the Court speaks of the excellence and efficiency of the United Company's machinery as a sufficient inducement for its installation by the lessees, and we may add that there is much testimony in the record tending to show that it was the excellence of the United Company's machinery and the efficiency of its service which induced lessees to acquire its machinery, but these considerations are apart from the pertinent issues which here confront us.

"No matter how good the machines of the United Company may be, or how efficient its service, it is not at liberty to lease its machines upon conditions prohibited by a valid law of the United States. Congress has undertaken to deny the protection of patent rights to such covenants as come within the terms of the Clayton Act, and if the statute is constitutional, the sole duty of the Court is to enforce it in accordance with its terms." [For further extracts from opinion see V. 114, p. 1729.]

We regret that the majority of the Supreme Court has felt itself compelled to reach the conclusion which it has upon the construction of the Clayton Act and its application to certain of the clauses which were before it. Some of the clauses were entirely unimportant; in fact, as was pointed out, had been in use only to a very minor extent or were of very limited application or had even been entirely discontinued by the company long before the suit was brought.

Others were of greater importance, having come into existence early in the development of the leasing system as natural and normal incidents to that development, and having borne their part in accomplishing efficiencies and economies which have been material factors in the advance of the shoe machinery and shoe manufacturing arts.

It is, however, of importance to the corporation that this long-continued litigation has at last reached its conclusion and the corporation is already taking steps to adjust its leases so that they may be in accord with the full spirit of the decision which has now established the law. [Company asks modification of decree; see V. 114, p. 2250.]

Number of Stockholders.—On March 1 1922 the corporation had 14,346 stockholders.

Colorado Fuel & Iron Company.

(30*th Annual Report—Year Ended Dec.* 31 1921.)

President J. F. Welborn, Denver, March 3, reports in brief:

Results.—Gross receipts from sales were $27,485,938, being a decrease of $24,326,875, or 47%. Oper. expenses were $25,712,433, a decrease of $20,633,888, or 44½%. Net earnings were $1,773,506, a decrease of $3,692,987 or 67%. Income from other sources was $378,592, making total income $2,152,098, compared with $5,979,244 in 1920.

Fixed charges of bond interest, real estate sinking funds, general taxes and fire insurance fund amounted to $2,740,958, leaving a deficit of $588,860. Charges for depreciation and depletion reserves were made at the rates maintained during recent years and amounted to $1,523,599. Reductions in inventory values to replacement costs were $618,713, making final deficit, after all charges, $2,731,172.

By June orders for rails and coal were canceled and suspended to such an extent that radical curtailment in operation in all departments became necessary. In August we shut down all blast furnaces, the open hearth department and rail mill, as well as several coal mines. During the remainder of the year the steel plant was idle, except for intermittent work at mills making merchant bars, wire, nails and other small products.

Dividends.—Sales of both steel and coal made early in the year, for delivery through the first three quarters of the year, were of such volume as to justify the declaration of the first two quarterly dividends on both Common and Preferred stock. The last two dividends for the year on Preferred were paid out of accumulated surplus.

Shipments.—Shipments of steel decreased from 428,222 tons in 1920 to 226,664 in 1921, the latter being the smallest year's shipments since 1904. Shipments of coal decreased 35½%, from 4,266,507 tons to 2,770,249 tons.

Inventories.—Unfortunately, we could not cut off raw materials and supplies as suddenly as our customers stopped shipments of their orders with us. As a result, our inventories were larger and reductions in their book value at the end of the year greater than they would otherwise have been.

Outlook.—Railroads whose orders for rail had been suspended gave us permission to resume shipments in Jan. 1922, some new rail business has been secured, and the several departments of the steel plant are gradually being put on an operating basis with prospect that in March and for at least four months thereafter the output of all kinds of steel will be up to 60% of capacity.

Unseasonable weather in all of our coal markets and low buying ability in the agricultural sections have made our coal sales during the winter just past much lower than for many years.

Wages.—In addition to the 15% wage reduction made effective Jan. 16 1921, at the steel works, another one of 15%, effective Aug. 16 1921, and one of 10%, effective Jan. 1 1922, were made at joint meetings between representatives of the workmen and company officials.

A reduction in wages of coal mine employees to the scale applying during 1918 and 1919 was made effective Nov. 17 1921. This reduced the diggers' scale in the most important districts from $1 02 and $1 07 per ton to 78 cents and 83 cents per ton, and the typical occupations paid by the day from $7 75 to $5 25 per day, common labor outside the mines being changed from $6 65 to $4 15 per day. This reduction also was agreed to in negotiation between employees and officials at certain mines. It was opposed by the United Mine Workers of America and by some of our union employees. Gradually those men who then discontinued work asked to have the idle

mines reopened at the new wage scale, and as increasing business made it possible some of these mines were reopened on that basis. Because of light business, but 19 out of our 25 mines are now in operation, the remaining 6 having been idle for several months.

Finances Since 1906.—Since that year $5,615,000 of bonds of the parent company and subsidiaries have been retired, and the sum of $16,276,353 has been expended for entirely new equipment, all of which is required for normal business, and charged to property account. Property account has been credited with $8,271,331 for abandoned and dismantled equipment, and in addition a reserve for depreciation on equipment of $7,979,210 set up out of profits.

American Ship & Commerce Corporation.

(3*d Annual Report—Year ended Dec.* 31 1921.)

Pres. R. H. M. Robinson, New York, April 1, says in sub.:

Report.—The report for the year includes the operations and affairs of American Ship & Commerce Corp., incl. its subsidiary and affiliated companies—American Ship & Commerce Navigation Corp., Shawmut Steamship Co., William Cramp & Sons Ship & Engine Building Co., Federal Steel Foundry Co. and De La Vergne Machine Co.

Results.—The net results of the operations, after eliminating all offsetting accounts, was a loss of $711,445, as compared with a profit of $2,136,291 for 1920, or a decrease of $2,847,736.

The decrease in the net earnings for 1921 as compared with 1920 is due to the continued world-wide shipping depression, accompanied with declining freight rates, resulting in the laying up of a number of the cargo vessels of the ship-owning companies and a reduction in the volume of business of the shipbuilding and manufacturing companies. However, economies effected in practically all departments of all companies and the profitable showing made by the passenger vessels of the ship-owning companies made it possible for the corporation to pass through this critical period with the comparatively small loss shown above.

Capital Stock.—During the year 102 additional shares of the capital stock were issued in exchange for stock in affiliated companies. The amount of capital stock issued and outstanding at the close of the year was 669,243 shares (auth. $1,500,000 shares), no par value.

Funded and Long-Term Debt.—The total of all funded and long-term debt outstanding increased $424,400 during the year.

Outstanding Dec. 31 1920	$11,538,218
Issued during the year: William Cramp & Sons Ship & Engine Bldg. Co., notes payable to the U. S. Navy	$600,000
	$12,138,218
Retired during the year: (1) William Cramp & Sons Ship & Engine Bldg. Co. 1st M. Sk. Fd. bonds, due 1929, $25,000; (2) Serial Notes due 1923, $44,000	$69,000
(3) American Ship & Commerce Corp. 10-Yr. Sk. Fd. 10% Conv. Notes	106,600
Total funded and long-term debt outstanding Dec. 31 1921	$11,962,618

The issue of $600,000 serial notes of William Cramp & Sons Ship & Engine Building Co. was delivered to the U. S. Navy Dept. in payment of the purchase price of certain buildings erected at the company's plant by the Navy Dept. and purchased by the company. The notes are dated July 1 1921 and mature $30,000 annually.

Changes in Funded & Long-Term Debt Since Dec. 31 1921.

(1) Issued: Wm. Cramp & Sons Ship & Engine Bldg. Co. (*a*) Notes payable to U. S. for plant extensions, due 1922 to 1941, $253,175; (*b*) notes payable to U. S. for slips E and F, due 1923 to 1932, $350,000; (*c*) notes payable account of purchase Pelton Water Wheel Co., due 1923 to 1925, $296,385	$899,560
(2) Retired: Amer. Ship & Comm. Corp. 10-Year S. F. 10% Conv. Notes	291,500
Wm. Cramp & Sons Ship & Engine Bldg. Co. (*a*) 1st Mtge. S. F. bonds due 1929, $29,000; (*b*) Serial notes due 1923, $177,000; (*c*) Consol. Mtge. bonds due 1923, $107,000	313,000
Increase in funded and long-term debt since close of year	$295,059

Surplus Account.—The surplus account at Dec. 31 1921 was $5,466,561 as compared with $11,604,131 Dec. 31 1920, or a decrease of $6,137,569. This decrease is due principally to the acquiescence on the part of the corporation in the action of the Internal Revenue Bureau, U. S. Treasury Dept., in fixing an arbitrary original book value of $3,576,244 on the 7 vessels acquired by American Ship & Commerce Navigation Corp. on Sept. 3 1919 from the Kerr Navigation Corp.

This value is approximately $5,000,000 less than the original book value at which these vessels were carried on the books and the book value of vessel property and the surplus account have been adjusted accordingly.

Investments in Affiliated Companies.—Principal investments continue to be in shares of the capital stock of American Ship & Commerce Navigation Corp. and of William Cramp & Sons Ship & Engine Building Co.

During the year 12,548 additional shares of the Class A stock and 4,980 additional shares of the Class B stock of the Navigation Corp. were acquired. The holdings at Dec. 31 were 39,847 shares of the Class A stock (total outstanding 40,000 shares) and 110,961 shares of the Class B stock (total outstanding 111,000 shares), such holdings amounting to more than 99% of the outstanding stock of both classes.

During the year 717 additional shares, or v. t. c. therefor, of the capital stock of the William Cramp & Sons Ship & Engine Bldg. Co. were acquired. The holdings at the close of the year were 111,747 shares (total outstanding 152,450 shares), and since the close of the year 254 additional shares have been acquired, so that the present holdings are 112,001 shares, or about 74%.

Since the close of the year the corporation has acquired 2,500 shares of the capital stock of Atlantic Mail Corp., a corporation organized in New York with an authorized capital stock of $500,000, divided into 5,000 shares, par $100, of which 2,500 shares have been issued and are outstanding. Atlantic Mail Corp. has recently taken title to the steamships "Resolute" and "Reliance."

American Ship & Commerce Navigation Corp.—The holdings of this corporation include: Shawmut Steamship Co., 126,315 shares; United American Lines, Inc., 250 shares; Thirty-nine Broadway Corp., 3,800 shares. During the year it acquired for cash at par $3,481,000 Shawmut Steamship Co. 5-Year 7% Marine Equipment Mtge. bonds, due 1925, secured by a preferred mortgage on the steamships "Mount Carroll", "Mount Clinton" and "Sudbury."

William Cramp & Sons Ship & Engine Building Co.—There was no change in the holding of this company in the shares of the capital stock of De La Vergne Machine Co.; 6 additional shares of the stock of Federal Steel Foundry Co. were acquired; and since the close of the year the entire capital stock of the Pelton Water Wheel Co. of San Francisco has been acquired. The holdings in these corporations are as follows: De La Vergne Machine Co., 15,000 shares; Federal Steel Foundry Co., 1,981 shares pref. and 2,418 shares common; Pelton Water Wheel Co., 20,000 shares.

Operations of Affiliated Companies Engaged in Operation of Vessels.—American Ship & Commerce Navigation Corp. has not acquired any additional tonnage; but since the close of the year has disposed of 7 of its vessels.

Shawmut Steamship Co. has not disposed of any of its vessels. During the year the steamships "Mount Carroll" and "Mount Clinton" were completed by the builders and added to the fleet of this corporation.

The American Ship & Commerce Navigation Corp. has a total of 5 vessels with a total deadweight tonnage of 40,460 tons. Shawmut Steamship Co. has 5 vessels with a total deadweight tonnage of 46,700 tons.

United American Lines.—During the year the following freight and passenger services have been maintained by the ships of our affiliated companies under the operation of the United American Lines, as Managing Agents: (1) New York-Hamburg; (2) Atlantic Coast Ports-Bremen-Hamburg; (3) Hamburg-South America; (4) New York-Channel Ports-Hamburg.

During the year the general and operating agreements between corporation and the Hamburg-American Line were formally executed and have been in operation, the benefits thereof meeting all expectations of the directors.

New Tonnage.—Since the close of the year the corporation has added to its fleet, by the purchase of the entire outstanding capital stock of Atlantic Mail Corp., two fine 20,000-ton, oil-burning, triple-screw passenger ships, the "Resolute" and "Reliance." These steamers call at Plymouth and Boulogne on the east-bound voyage from New York to Hamburg, and at Southampton and Cherbourg on the west-bound voygae.

Settlement With United States Shipping Board.—Settlement has been made of the respective claims, each against the other, of American Ship & Commerce Navigation Corp. and the United States of America, arising out of negotiations for the purchase of the vessels "Montpelier," "Monticello" and "Kermit."

American Ship & Commerce Navigation Corp. has purchased from the United States of America the notes of Shawmut Steamship Co. secured by preferred mortgages on the steamships "Ipswich" and "Mystic."

Reduction of Fleet.—American Ship & Commerce Navigation Corp. has sold 7 of its vessels to the Oceana Sea Navigation Co., Ltd., of Budapest, Hungary, and the vessels have been transferred to the Hungarian flag. The vessels involved were of the freight type and had an aggregate deadweight tonnage of 45,555 tons.

This was the original fleet of this corporation, acquired in 1919 from the Kerr Navigation Corp. By reason of the depression in the shipping industry, these vessels were found to be of a type and size that could no longer be operated profitably in the transatlantic services, and particularly in the trades in which the corporation is engaged.

The Oceana Sea Navigation Co., Ltd., is organized under the laws of Hungary and is owned jointly by American Ship & Commerce Navigation Corp. and the Atlantica Sea Navigation Co., Ltd.

General Remarks.—The year 1921 proved disastrous to many industrial enterprises and difficult for all. Naturally our company did not escape its share of the hardships and perplexities incident to the world wide business depression, and especially the depression in the shipping industry, with freight rates at lowest levels and the movement of freight materially reduced, which resulted in the laying up of a large number of vessels and in the decrease of work at the plants of the shipbuilding and manufacturing companies.

However, on the whole, results were fairly satisfactory—the corporation passed through this period with a comparatively small loss; the fleets have been kept in good condition; several of the complex questions pending with the United States Shipping Board have reached a conclusion; the operating expenses for the year 1922 are materially reduced; and the adjustment of book value referred to above permit of a substantial reduction in depreciation charges.

The income account was given in V. 114, p. 2238.

GENERAL INVESTMENT NEWS

RAILROADS, INCLUDING ELECTRIC ROADS.

General Railroad and Electric Railway News.—The following table summarizes recent railroad and electric railway news of a more or less general character, full details concerning which are commonly published on preceding pages under the heading "Current Events and Discussions" (if not in the "Editorial Department"), either in the week the matter becomes public or shortly thereafter.

Freight Rate Cut of 10% on July 1 Ordered by I.-S. C. C.—Full text is cited on preceding pages.

Executives of Railroads Criticise I.-S. C. Commission's Freight Rate Cut at This Time.—Declare schedule makes 5¾% return impossible. "Times" May 25, p. 4.

New England Lines Win Rate Dispute.—I.-S. C. Commission order increasing their share 15% for through freight upheld by statutory court. "Times" May 26, p. 29.

Injunction Halts New York City Plan for Construction of Freight and Passenger Tube from Brooklyn to Staten Island.—Action brought by William J. Schieffelin, Chairman Citizens' Union, on grounds that such tube would be waste of from $60,000,000 to $100,000,000 of taxpayers' money on impracticable scheme. "Times" May 20, p. 16.

Brooklyn (N. Y.) Crosstown Subway Plan Praised by Civic Organizations.—Transit Commission's plan approved at first public hearing. "Times" May 24, p. 6.

City's Answer to Brooklyn Rapid Transit Suit for $30,000,000.—Charges that the company failed to live up to all of its agreements. "Times" May 23, p. 25.

Contract Between Railroads and American Railway Express Co. Under Discussion.—How to make package transportation self-supporting chief problem. "Times" May 21, Sec. 2, p. 9.

Inter-State Commerce Commission's Plan of Consolidation for Baltimore & Ohio, Reading-Jersey Central, Chicago Indianapolis & Louisville and the Cincinnati Indianapolis & Western Systems.—See "Financial America" May 22, p. 1.

National Association of Owners of Railroad Securities Reports New Plan for Unified Terminals at Chicago.—"Railway Age" May 20, p. 1179-1181.

Scores Swindled with 4% Bonds of Old Rock Island Co.—Despite warnings, many small investors are victimized by "bucket shops," &c. "Post" May 22, p. 1.

Canadian Rail Wage Agreement Reached.—Time and a half overtime for Sunday work and one day off in seven for workers in yards or on rolling stock, chief decisions by representatives of 30,000 to 35,000 employees and of Canadian Railway Association. "Boston Financial News" May 19, p. 3.

Canadian Rail Rate Reductions During Year Range from 3% to 60%.—Investigation at Ottawa ascertains that roads made reductions voluntarily. "Wall Street Journal" May 25, p. 7.

Idle Cars Further Decreased.—Freight cars idle on May 15 totaled 512,196, compared with 521,746 on May 8, or a decrease of 9,550 cars. Of the total, 343,689 were serviceable freight cars, while the remaining 168,507 were in bad order. Surplus box cars numbered 84,640, decrease 1,964 from May 8; coal cars, 218,466, decrease 7,810; coke cars, 5,190, decrease 160; stock cars 15,356, increase 1,259.

Idle Cars on or About 1st of Month, on April 8 '21 (Peak) and on May 15 1922.

	May 15.	*May '22*	*Apr. '22*	*Mar. '22*	*Feb. '22*	*Jan. '22*	*Apr. 8.*	*Jan. '21*
Good order	344	372	207	245	331	471	507	198
Bad order	168	158	161	173	159	148	111	---

Cars Loaded.—Loading of revenue freight totaled 777,359 cars, week ended May 13, compared with 755,749 cars the preceding week, or an increase of 21,610. This was an increase of 26,173 cars over the corresonding week in 1921, but a decrease of 65,786 compared with the corresponding week in 1920.

The principal changes compared with previous week follow: Grain and grain products, 42,070 cars, increase 2,145; live stock, 29,940 cars, decrease 556; coal, 97,170 cars, increase 3,760; coke, 8,813 cars, increase 689; merchandise and miscellaneous freight, 542,102 cars, increase 9,406; forest products, 60,661 cars, increase 3,529; ore, 14,403 cars, increase 2,637.

Matters Covered in "Chronicle" May 20.—(1) Railroad gross and net earnings for March (editorial), p. 2179.

Barcelona Trac., Light & Power Co., Ltd.—*Interest.*—The holders of the 7% Prior Lien "A" bonds are notified that interest coupon No. 14, due and payable June 1 1922, will be paid on and after that date at Bank of Scotland, 30 Bishopsgate, London, Eng., and at Canadian Bank of Commerce, 16 Exchange Place, N. Y. City. Payment will be made in New York in United States currency at the current rate of exchange.—V. 114, p. 1889, 2011.

Berkshire Street Ry.—*To Extend Bonds.*—The company has applied to the Massachusetts Department of Public Utilities for authority to extend for 5 years from June 1 1922 the $800,000 5% 20-Year Mtge. bonds dated June 2 1902, and to increase the interest rate from 5% to 7%.—V. 113, p. 1887.

Boston & Maine RR.—*Hearing on Injunction Against Voting New Haven Holdings of Stock—Bond Application.*—A hearing was held before Judge De Courcy of the Massachusetts Supreme Court at Boston May 23 on the petition of E. D. Codman for a restraining order to prevent the New Haven from voting its 226,000 shares of Boston & Maine stock held by the Boston RR. Holding Co. Counsel Schaefer, for the holding company trustees, said that at the annual meeting of the Boston & Maine RR. a vote has been taken but had not been counted, because of the court's order of notice. He opposed the issuance of any preliminary injunction and declared that no injunction would be effective because the Holding Co.'s stock had already been voted at the Boston & Maine meeting. Counsel Nash, for the New Haven, also opposed the issuance of an injunction, contending there is nothing in the law to prevent stockholders from voting stock to whomsoever they please.

Upon the completion of argument for a restraining order against the New Haven, Judge De Courcy stated that he had under consideration the issuance of a temporary injunction. He added, however, that in view of the importance and novelty of the issues involved in the case he would like to present the case before the full bench of the Supreme Court for consideration. He also instructed counsel for the parties involved to complete their pleadings and file them with the court.

The company has petitioned the Massachusetts Department of Public Utilities for approval of issue of $1,030,000 6% mtge. bonds, dated Jan. 1 1922 and maturing Jan. 1 1929, proceeds to be used for payment to Director-General of Railroads of the amount due on expenditures made by Government for additions, &c., while under Federal control.—V. 114, p. 2239, 1889, 1883.

Boston Elevated Ry.—*Traction Situation.*—The Mass. Department of Public Utilities has set June 6 as the date for hearing the petition filed by the company for approval of the use of $1,956,000 of proceeds of sale of Cambridge subway to the Commonwealth. The company proposes to use $900,000 for enlargement and improvement of the power plant at South Boston, and the remainder for the construction of certain units of the repair shops at Everett.

Mayor Curley's new bill for a uniform 5-cent fare on all street railway lines in the city of Boston was filed with the Clerk of the court May 23 by Representative John McCormack of Boston. The bill provides for the making up of any deficit in operation by the levying of taxes on cities and towns served. The bill, furthermore, provides that the matter shall go to the voters in the towns and cities served at the State election in the year 1922, and if accepted by the towns and cities shall then be submitted to the Elevated. If accepted by the Elevated it shall be in full force and effect Jan. 1 1923. [See full text of proposed bill in Boston "Evening Transcript" May 23, p. 6.]

Representative George Louis Richards of Malden for the Street Railway Committee formally filed in the House two reports which came as result of hearings by the committee on the Richards bill for a Metropolitan Transit Commission. The reports filed provide for the establishment of a metropolitan transportation commission, and for investigation of transportation facilities in metropolitan district. The section which refers to investigation has unanimous support of committee, but the other section, providing for transportation commission, has three dissenters.

See also West End Street Ry. below.—V. 114, p. 2115, 2239.

Brooklyn Rapid Transit Co.—*City Files Answer.*—The answer of the City of New York in the $30,000,000 suit of the company for alleged failure to carry out the obligations of the subway contract, asks the dismissal of the suit, blaming the company for failure to execute the contract and charging neglect in providing the proper service and equipment.—V. 114, p. 1764, 1532.

Canadian Pacific Ry.—*Usual Dividend.*—The directors have declared a dividend at 2½% on the Common stock, for the quarter ended March 31 last, being at the rate of 7% per annum, from revenue, and 3% per annum from special income account, payable on June 30 to holders of record June 1.—V. 114, p. 2115.

Central of Georgia Ry.—*Bonds.*—The I.-S. C. Commission May 9 granted authority to issue $1,313,000 Ref. & Gen. Mtge. 6% bonds, series A, to be pledged and repledged from time to time, until otherwise ordered, as collateral security for certain advances or notes.—V. 114, p. 1406.

Chicago Elevated Rys. Collateral Trust—*Plan to Consolidate Chicago's Elevated System.*—Application has been made by the Illinois Commerce Commission by the Northwestern Elevated Rd., Metropolitan West Side Ry. and South Side Elevated Ry. for authority to consolidate into a new consolidated company.

The plan also provides for the acquisition of the Chicago & Oak Park Elevated Ry. (now in receivership) by the new consolidated company, when the properties are offered at Judicial sale, which it is expected will shortly be ordered advertised by the Court.

The stockholders of the Northwestern, Metropolitan and West Side companies will vote on consolidating on July 11 next, and on authorizing the new consolidated company to issue the necessary stock and bonds to effect the merger.

Digest of Proposed Consolidation Plan.

Valuation.—The valuation placed upon the combined properties by the Illinois P. S. Commission for rate-making purposes as of June 30 1919 was $86,250,000, as follows:

Northwestern Company	$24,941,887	South Side Company	$23,013,294
Metropolitan Company	29,215,704	Oak Park Company	9,079,115

Between June 30 1919 and Feb. 28 1922, additions were made to the property so valued at a cost of $432,899, which gives a total of $86,682,899. The valuation made by the Commission excluded property costing $711,204, then and now owned but not used in the railroad business.

Oak Park Co. to be Consolidated—Treatment of Existing Debt, &c.

On Nov. 13 1911 a receiver was appointed for the Oak Park Co. A final decree has been entered directing the sale of the property subject to lien indebtedness aggregating $5,157,862, and the property will soon be advertised for sale by a special master appointed by the Court.

Of the indebtedness $5,000,000 is 1st mtge. 5% bonds, due July 1 1928, secured by a mortgage upon all the property.

The Northwestern Co. guaranties the payment of the principal and interest of the bonds. The mortgage is a lien upon the North Side of the Union Loop.

The receiver is indebted $2,984,581 as of Feb. 28 1922, on outstanding receiver's certificates and for power as follows:

6% receiver's certificates	$2,097,000	Indebtedness for power	$503,829
Accrued interest thereon	317,845	Accrued interest thereon	65,907

The holders of the receiver indebtedness are willing to surrender and cancel the same in exchange for $2,600,000 Capital stock of a consolidated corporation upon the terms below. It is believed that the consolidated corporation could, at the judicial sale, acquire the property of the Oak Park company subject to the above lien indebtedness (*a*) by issuing $2,600,000 Capital stock to be used for the purpose of retiring and cancelling the indebtedness of the receiver on receiver's certificates and for power, and (*b*) by paying or assuming the remaining liabilities of the receiver and any unpaid costs and expenses of the proceeding in which the receiver was appointed.

It is estimated that such remaining liabilities, costs and expenses, minus current assets of the receiver applicable to the payment thereof, will not, at the time of sale, exceed $400,000.

Total Capitalization of Consolidation Should Plan Become Operative.—Should the proposed consolidation be effected, the total amount of stock and bonds of, and assumed by, the consolidated corporation will be $76,106,500, which sum also represents the aggregate amount of the present outstanding stocks and bonds of the first three companies.

The proposed acquisition of the property of the Oak Park company would make the total stock and bonds of the consolidated corporation $83,706,500. The consolidation and acquisition, taken together, will result in eliminating $2,936,815 of floating debt and $2,984,581 of the receiver's liabilities.

Disregarding interest on the proposed new income bonds (which is payable only if earned), it will also result in a net reduction of fixed interest charges of about $262,000 per annum.

Detail of Capital Stock, Funded Debt & Equipment Obligations of Northwestern, Metropolitan and South Side Companies Feb. 28 1922.

(1) Capital stock—Northwestern Co., Com., $4,946,400; 5% Preferred, $4,944,400	$9,890,800
Metropolitan Co., Com., $7,462,800; 5% Preferred	16,170,300
South Side Co., Common	10,231,400
(2) Bonds—Northwestern Co. 1st M. 5s, due Sept. 1 1941 (exclusive of $611,000 in sinking fund)	11,889,000
Union Elevated RR. 1st M. 5s (assumed by Northwestern), due 1945	4,472,000
Metropolitan Co. 1st M. 4s, due Aug. 1 1938	10,000,000
Metropolitan Co. Ext. M. 4s, due July 1 1938	5,000,000
Union Consol. El. Ry. 1st M. 5s (assumed by Metropolitan Co.), due 1936	453,000
South Side Co. 1st M. 4½s, due July 1 1924	8,000,000
(3) Equipment obligations—Northwestern Co. 5% Equip. Tr., due semi-ann. Aug. 1 1922 to Feb. 1 1929, at rate of $68,333 p. a. for first 4½ years and $73,333 p. a. for remaining 2½ years	491,000
Metropolitan Co. 5% Equip. Tr. (due in like manner)	491,000
South Side Co. 5% Equip. Tr. (due in like manner)	491,000

Indebtedness of Oak Park Co. Feb. 28 1922.

The following statement shows (*a*) lien indebtedness of Oak Park Co. subject to which its property is to be sold, (*b*) liabilities of the receiver proposed to be retired in exchange for stock of the consolidated corporation, (*c*) remaining liabilities and current assets of the receiver other than amounts owing to or due from the Northwestern, Metropolitan and South Side.

(a) Lien Indebtedness Subject to which Property is to be Sold—Total $5,157,863.

First Mortgage 5s, 1928	$5,000,000	5% Real Estate Mtge	5,363
5% Equipment Notes	40,000	5¼% Real Estate Mtge	1,500
6% Equipment Notes	111,000		

(b) Liabilities of Receiver to be Exchanged for Stock—Total $2,984,581.

6% Receiver's certificates	$2,097,000	Indebtedness for power	$503,829
Accrued interest thereon	317,845	Accrued interest thereon	65,907

(c) Remaining Liabilities of Receiver—Total $399,688.

Debt to City of Chicago on account of Lake St. Bridge (excl. of interest)	$197,694
Balance unpaid on purchase price of machinery	20,504
Payroll and other accounts payable	73,901
Unpaid taxes for 1921	107,589

(d) Current Assets of Receiver—Total $151,413.

Cash	$98,096	Materials and Supplies	$32,799
Accounts receivable	20,518		

Outstanding Securities and Obligations to be Surrendered and Cancelled by Means of Securities to be Issued by Consolidated Corporation (Total $39,229,315.)

Entire outstanding stock Northwestern Co. (par $100)	$9,890,800
Entire outstanding stock Metropolitan Co. (par $100)	16,170,300
Entire outstanding stock South Side Co. (par $100)	10,231,400
Outstanding 5% Note Northwestern Co., dated Aug. 3 1916	290,000
Outstanding 5% Note Metropolitan Co., dated Aug. 3 1916	620,000
Indebtedness of Northwestern Co. for electrical energy	544,683
Indebtedness of Metropolitan Co. for electrical energy	1,055,959
Indebtedness of South Side Co. for electrical energy	426,173

New Securities to be Issued in Exchange for Above Surrendered & Cancelled Securities, &c.

(1) Adjustment Inc. bonds, dated Jan. 1 1922, due Jan. 1 1952, int. not exceeding 6% p. a. only if earned 17,120,000
(2) 1st Lien & Ref. bonds "Series A", dated Jan. 1 1922, due Jan. 1 1927, int. not exceeding 7% (but only on deposit with the trustee of the 1st Lien & Ref. Mtge. of an equal par amount of such obligations as may be the terms of such mortgage be deposited thereunder as a basis for the issuance of such bonds) x1,600,000
(3) Capital stock (authorized $23,000,000) 19,172,500

x 1st Lien & Ref. Mtge. bonds may be issuable in series, with such rates of interest, &c., as provided by mortgage.

Note.—The expenses include charges to replacement reserve of $156,207 for Metropolitan, $125,733 for Northwestern, $151,139 for South Side and $50,733 for Oak Park company.

The actual taxes payable for 1921 (ascertained after the expiration of the year) were $408,752 for Metropolitan, $549,682 for Northwestern, $242,275 for South Side, $116,058 for Oak Park.—V. 114, p. 2011, 2115.

Central Vermont Ry.—*Tentative Valuation*—

The I.-S. C. Commission has placed a tentative value of $22,665,787 on the properties of the company and its subsidiaries, as of June 30 1917.—V. 114, p. 1764.

Chicago Rock Island & Pacific Ry.—*Equip. Notes Offered.*—Freeman & Co. and Hayden, Stone & Co. are offering at prices to yield from 5.10% to 5.75%, according to maturity, $2,344,550 6% Equipment Trust notes. Stamped subordinate to $4,690,400 prior lien notes now outstanding (see advertising pages).

Dated Jan. 15 1920. Mature $180,350 annually Jan. 15 1923 to Jan. 15 1935 incl. Int. payable J. & J. 15 in N. Y. City. Denom. $1,000 (c*). Red. as a whole on any int. date on 60 days' notice at 103 and int. Guaranty Trust Co. of New York, trustee.

These notes are the direct obligation of the company and are issued under equipment trust agreements between the Director-General of Railroads, the company and the trustee.

Secured by a lien subject to $4,690,400 prior lien notes on the following standard railway equipment: 2,500 40-ton box cars, 20 light Mikado locomotives, 10 switching locomotives. The original cost of this equipment was $8,117,250.

The company directly operates lines of a system embracing approximately 8,100 miles, including a main line from Chicago to Santa Rosa, New Mexico, connecting through the El Paso & Southwestern with the Southern Pacific lines and the Pacific Coast.

A statement issued to the press says in substance:

A great deal of interest is being shown in the offering. This will be the first sale of this kind which the Director-General of Railroads has made. It will be remembered that the Director-General of Railroads through the U. S. RR. Administration during the past months sold to bankers approximately $250,000,000 equipment trust notes. About $100,000,000 of these notes represented two-thirds of the cost of equipment purchased by the Government for the railroads, the remaining one-third of these issues were stamped as subordinate in lien, in accordance with a special supplemental agreement. These stamped notes were taken by the Government and have been held by them since the sale of the prior lien obligations.

Having practically exhausted the available amounts of prior lien equipment trust notes, it has been a matter of much discussion in financial circles as to when the present investment market would be favorable enough to enable the Director-General of Railroads to dispose of the Government's holdings of subordinate lien notes.

The bankers have selected the notes of the Rock Island as the more attractive of the subordinated notes. The direct obligation of the Rock Island, even without taking into consideration the second lien on the equipment, constitutes a very high-grade investment obligation.—V. 114, p. 2240, 1764.

Cleveland Cincinnati Chicago & St. Louis Ry.—*Resumes Common Dividend.*—

A dividend of 2% has been declared on the outstanding $47,056,300 Com. stock, par $100, payable June 15 to holders of record June 2. On Sept. 1 1920 a similar disbursement was made; none since. The New York Central owns $30,207,700 of the $47,056,300 Common stock.

New York Central Railroad's Offer to Acquire Stock.—

See report of New York Central RR. under "Reports and Documents" on a subsequent page.—V. 114, p. 1286.

Cleveland (Electric) Ry.—*Wage Cut.*—

The employees have voted to accept a wage cut of 10%, retroactive to May 1. The new wage scale will be 50 cents an hour for the first six months, 53 cents an hour for the second six months and 55 cents an hour thereafter. This compares with the former rate of 55, 58 and 60 cents, respectively. The men accepted a 20% cut in 1921.—V. 114, p. 2115.

Connecticut Company.—*Earnings.*—

Calendar Years—	1921.	1920.	1919.
Operating revenue	$14,619,210	$13,089,317	$11,047,805
Operating expenses	11,837,325	12,417,141	9,210,376
Net revenue from operations	$2,781,885	$672,176	$1,833,429

—V. 114, p. 1406, 305.

Copper Range RR.—*Tentative Valuation.*—

The I.-S. C. Commission has placed a value of $4,610,000 on the property as of June 30 1916.—V. 107, p. 1192.

Corpus Christi Ry. & Light Co.—*Sale, &c.*—

The bondholders committee, John Gribbel, Chairman, in a recent notice to the bondholders says in brief:

"The electric light property belonging to the company was purchased by the bondholders' protective committee for and on behalf of the bondholders, and subsequently the electric light property as reorganized was sold to the *Gulf Coast Power & Light Co.* organized in Texas [which is owned by Central Power & Light Co. of St. Louis—Ed.] on the basis of $500 Mtge. 7% bonds, dated March 1 1922, interest payable March and Sept. 1, guaranteed as to interest by the Central Power & Light Co. as to each $1,000 old bond, assessment paid. The Merchants Union Trust Co., Phila., has been designated as the trustee under the mortgage of Gulf Coast Power & Light Co.

"In due course the bondholders who have subscribed to the plan of organization and paid the necessary assessment, will receive coupon bonds as above representing their respective interests. [The railway property of the Corpus Christi Ry. & Lt. Co. was acquired by the Nueces Ry. Co., a new company organized in Texas.]

The committee consisted of John Gribbel, Chairman; Louis J. Kolb, J. G. Neff, John J. Henderson, John J. Bowker, with John P. Connelly, Counsel, 1526 Land Title Bldg., Phila., and Phila. Trust Co., depositary.—V. 112, p. 2536.

Elgin Joliet & Eastern Ry.—*Contracts.*—

The company is reported to have awarded contracts for 500 steel freight cars, which will cost approximately $750,000.—V. 113, p. 1052.

Fort Smith Light & Traction Co.—*Guaranty, &c.*—

See Mississippi Valley Power Co. under "Industrials" below.—V. 113, p. 1155.

Georgia, Ashburn, Sylvester & Camilla Ry.—*Acquis.*

The I.-S. C. Commission May 10 authorized this company to acquire a line of railroad extending from Ashburn, Turner County, through Worth and Mitchell counties to Camilla, Ga., a distance of 51 miles.

The line in question was formerly operated as a part of the Hawkinsville & Florida Southern Ry., which extended from Hawkinsville, Ga., to Camilla, Ga., and also included the 51 miles above described. On Oct. 29 1921 the receiver of that company abandoned the operation of the entire line. The above company has been organized to purchase the section above described. The receiver has fixed the sum of $125,000 as an upset price for that portion of the property. It is proposed to issue $600,000 Common stock.

It is predicted that gross revenues for the first year will amount to $114,565, operating expenses $77,938, and net railway operating income $19,293. Available freight traffic is estimated at 51,468 tons for the first year of operation.

The people who are dependent upon the line for transportation facilities desire to preserve the service, if possible, and are prepared to finance the plan.

[A dispatch from Moultrie, Ga., says that the stockholders have perfected a permanent organization. J. N. Pidcock of Moultrie was elected Pres. & Gen. Mgr.; F. R. Pidcock, V.-Pres.; J. R. Hatchett, Treas., and C. W. P dcock Jr., Sec.

[Directors are: J. N. Pidcock, C. W. Pidcock, J. R. Hackett, J. J. Hill, C. W. Pidcock Jr., L. G. Cox, all of Moultrie; T. C. Jeffords and C. W. Hillhouse, Sylvester; George Betts and J. L. Evans of Ashburn; J. W. Butler, J. E. Brooks and G. L. Wade of Camilla. General offices, Moultrie. Trains will be put on by new company about June 1.]—V. 114, p. 1765.

Hawkinsville & Florida Southern RR.—*Sale.*—

The sale of the southern end of the road, extending from Ashburn to Camilla to the Pidcock interests of Moultrie and citizens of Worth, Turner and Mitchell counties for $125,000 was confirmed May 14 by Judge H. A. Mathews in Bibb Superior Court. An order was also signed by Judge Mathews permitting the foreclosure of a mortgage held by the Union Savings Bank & Trust Co. The proceeds of the sale will be applied against the mortgage.

See Georgia, Ashburn, Sylvester & Camilla Ry. above.—V. 114, p. 2011.

Illinois Central RR.—*Pref. Stock Authorized.*—

The I.-S. C. Commission has granted permission to the company to issue not exceeding $10,929,600 Preferred stock, par $100, proceeds to be used for construction purposes.

The Commission's order said that the new issue contemplated was underwritten by the Union Pacific RR., the Railroad Securities Co. and Kuhn, Loeb & Co., New York.

The New York Stock Exchange has listed $10,929,600 6% Non-Cumul. Preferred stock, Series "A", when issued.—V. 114, p. 2011, 2115.

Indiana Columbus & Eastern Traction Co.—

The Ohio Public Utilities Commission has issued a tentative order denying the application of the company for authority to abandon its Columbus-Orient, Lima-Defiance and Carlisle Junction-New Carlisle branch lines.

The Commission also authorized the company to continue service until September.—V. 114, p. 1890.

Interborough Rapid Transit Co.—*Judgment.*—

Two holders of notes included in the 3-Year Conv. gold notes have entered judgment in the County Clerk's office against the company for unpaid principal and interest. One of these, Martin Erdmann, a holder of 100 $1,000 bonds, entered judgment for $105,123 and the other, William Erdmann, a brother, holder of 62 notes, entered judgment for $65,195.

Supreme Court Justice Richard P. Lydon granted a motion to strike out the answer of the company, thus leaving only the determination of the amount to be awarded for a jury's determination.

The complaint sets forth that the notes mature Sept. 1 1921 and that they were to be paid at the office of J. P. Morgan & Co. In the answer which was stricken out the defendant sets forth that holders of more than 98% of the notes have extended the time for payment until Sept. 1 1922.

Judge Julius M. Mayer, in the Federal District Court May 23, extended until June 23 the time for the Continental Securities Co. to file interrogatories in the proceedings instituted for the designation of a receiver for the company.

See also Manhattan Ry. below.

Robert C. Rathbone, President of R. C. Rathbone & Son, Inc., has been elected a director to succeed the late Alexander J. Hemphill.—V. 114, p. 2240.

Ironwood & Bessemer Ry. & Light Co.—*Notes.*—

All of the outstanding Collateral Gold notes, due June 20 1922 will be paid at maturity at par and int. at the Continental & Commercial Trust & Savings Bank, Chicago, Ill.—V. 114, p. 1890.

Lynchburg (Va.) Traction & Light Co.—*Wages.*—

The company has announced a cut of 5 cents an hour for street car conductors and motormen, the reduction to be effective at the rate of 1 cent an hour each semi-weekly pay day until the full decrease is in effect. A similar cut was made last October.—V. 114, p. 1063.

Manchester Trac., Lt. & Power Co.—*Notes Called.*—

All of the outstanding 6% 3-Year Coll. Trust Conv. gold notes, dated Nov. 1 1919, have been called for payment June 19 at 101 and int. at the American Trust Co., trustee, 50 State St., Boston.—V. 114, p. 1890.

Manhattan Railway Co.—*Readjustment Plan.*—In connection with the readjustment of Interborough Co. and Manhattan Ry. affairs, the stockholders' protective committee has submitted a brief statement "of facts and reasons, founding our statements ond conclusions on reports of the Manhattan company's own engineers and accountants and on other information believed to be accruate." The statement to the stockholders (condensed) says:

Interborough In Default.—While for 15 years the Manhattan lease to the Interborough was highly profitable to the lessee, for the past 3 years the earnings of the leased property have been insufficient by about $5,500,000 to pay the stipulated div. rental of 7% on the $60,000,000 of outstanding Manhattan stock.

The Interborough was, on May 1, in default under the lease $6,903,000 as follows:

For taxes in arrears besides interest	$2,753,000
For dividends due Jan. 1 and April 1 1922	2,100,000
Besides this amount further taxes become due May 1922	1,000,000
And a further payment of div. rental due July 1 1922	1,050,000

Receivership for Interborough if Plan Fails.—It is generally admitted that unless some plan of readjustment is shortly adopted the Interborough company will fall into receivership.

Benefits for Manhattan Stockholders.—Under the proposed plan Manhattan stockholders will receive:

(1) $2,500,000 will be paid by the Interborough prior to July 2 1922, toward the discharge of taxes on Manhattan properties. As required by and as a consequence of the plan the interborough, on May 4, paid $1,500,000 on account of these taxes and int. thereon; $500,000 more will be paid June 1, and $500,000 additional on July 1 1922; and the Manhattan 2d mortgage int., $94,000, due June 1 will be met.

(2) The three installments of divs. on Manhattan stock due Jan. 1, April 1 and July 1 1922, amounting to $3,150,000, will be paid in scrip of the Interborough, payable in cash within 12 months after the consummation of the plan, which it is contemplated will become effective about Aug. 1 1922.

(3) The balance of unpaid Manhattan taxes, approximately $1,370,000 and int., will be paid within 12 months after the consummation of the plan.

(4) At least $2,000,000 will be expended on Manhattan properties prior to June 30 1923, for deferred maintenance and improvements.
(5) The Manhattan company will have due representation on the board of directors of the Interborough company.
(6) The important and highly contentious questions relating to the expenditure by the Interborough company of $27,000,000 in improvements of Manhattan property will be waived and surrendered by the Interborough company so far as it may lawfully do so without the consent of the Interborough 5% bondholders and mortgage trustee; and in this connection it is to be remembered that the payment of the Interborough bonds in question through the operation of the sinking fund within approximately 34 years is provided for under the plan.
(7) The stock interests of the Interborough company will contribute $10,500,000 in cash to the Interborough company by the purchase of that amount of new 6% notes, and this purchase has been underwritten.
(8) The bondholders of the Interborough company will waive for 5 consecutive years payment of the sinking fund under their mortgage. thus securing to the Interborough in the immediate future about $10,000,000 for expenditure in equipment and improvements on Interborough properties.
(9) Beginning July 1 1922, divs. on Manhattan stock will be at the rate of 3% for first year, 4% for second year, 5% for third and succeeding years. These dividends will be payable out of the combined Manhattan and Interborough properties if earned by the system and their payment is cumulative and mandatory, if earned.
(10) No dividends may be paid on Interborough stock until after the foregoing divs. are paid on Manhattan stock, and beginning with July 1 1926, after the payment of 4% div. on Interborough stock, an additional 1% will be payable, if earned, on Manhattan stock, making a total of 6%; and after payment of a further 1% on Interborough stock an additional 1%, if earned, will be payable on Manhattan stock, making a total of 7%.
[For further strict limitations placed upon the amount of dividends payable on Interborough stock and on the distribution of capital assets by the Interborough company, see plan in V. 114, p. 2013.]
(11) On the failure of the Interborough company to make payments provided for by the plan, or on its failure to pay the Manhattan dividends if and when earned, the Manhattan company may retkae its properties.

Results to Manhattan Stockholders if the Plan Should Be Rejected.

(1) A receiver of the Interborough company would be appointed, who would take possession of and operate the Manhattan properties for a period of probably 2 years, during which it is probable that no Manhattan dividends would be paid.
(2) If the Manhattan company should retake its property the stockholders would have to raise the $7,253,000 cash necessary for independent operation. This would involve:

For back taxes besides interest	$2,253,000
For improvements and deferred maintenance	2,000,000
For restoring independent power facilities	2,500,000
For working capital	500,000

(3) Litigation concerning the Interborough improvements to Manhattan properties would ensue, which would be serious and prolonged and a successful result could certainly not be guaranteed.
(4) The future growth of Manhattan traffic would naturally depend considerably upon the Interborough elevated extensions into the Bronx and Queens, and with independent Manhattan operation the Manhattan company would be obliged to make arrangements for the use of these Interborough extensions.
(6) Under separate operation the Manhattan properties would probably earn dividends at the rates proposed in the plan, and might during certain periods preceding completion of new competitive subways earn an amount substantially in excess of the proposed new dividend rates.
On the other hand, any possible excess of earnings would not necessarily result in a greater distribution by way of dividends to stockholders, as ordinary prudence would dictate a setting up of reserves to provide the means for compliance with increased service orders and to meet the inevitable dip in the net earnings involved in the progressive development of new competitive transit facilities. In fact, this consideration is one of the fundamentals of the committee's recommendation—namely, that what may be called the proposed copartnership of the Interborough with the Manhattan in a large degree relieves the latter of the menace of new competition in that it distributes the effect thereof over the whole system.
The stockholders' protective committee recommends the plan to stockholders and requests that they promptly deposit their certificates of stock with Equitable Trust Co., New York, depositary. This deposit will bind the depositors to the plan. There will, however, be a right of withdrawal, without expense, if the plan now proposed should be abandoned or a new plan proposed. See also V. 114, p. 2241, 2013.

Memphis (Tenn.) Street Ry.—*Operating Costs, &c.*—
See 4-page article entitled "Measuring the Service in Memphis," together with map of Memphis showing lines of the company, and tables of statistics, in the "Electric Railway Journal" May 13, pages 779 to 782.—V.114,p.1179.

Minn. St. Paul & Sault Ste. Marie Ry.—*Div. Suit.*—
Federal Judge Wilbur H. Booth, Minneapolis, has reserved decision in the petition of the Continental Insurance Co. and the Fidelity-Phoenix Fire Insurance Co. for a permanent injunction to restrain the directors from paying a 2% div. to Pref. and Common stockholders.—V. 114, p. 2241, 2110.

New York Central RR.—*To Build Castleton Bridge.*—
The company has authorized the immediate commencement of the Castleton bridge and cut-off calling for the ultimate expenditure of approximately $20,000,000, the expenditure in the next two years being about $12,000,000. The improvement work includes a high-level steel bridge across the Hudson River about 12 miles south of Albany, N. Y., a large freight classification yard in the vicinity of Feura Bush, N. Y., and about 20 miles of double-track connections linking up the railroad with the West Shore and the Boston & Albany by easy grades.
The railroad properties of the Chicago Junction Ry. & Union Stock Yards Co. have passed into the hands of the New York Central RR., the Chicago River & Indiana RR. being purchased and the Chicago Junction Ry. being leased by the same road. The I.-S. C. Commission last week authorized the transaction, initial payments were made and control actually passed to New York Central May 20.
See also annual report under "Reports and Documents" on subsequent pages. See also offering of bonds of New York State Realty & Terminal Co. under "Industrials" below.—V. 114, p. 2241, 2013.

N. Y. New Haven & Hartf. RR.—*Sale of Real Estate, &c.*
E. M. Statler has purchased from the company for $1,750,504 a plot of ground containing almost 58,000 sq. ft. at the insersection of Providence St., St. James Ave., Arlington St. and Columbus Ave., in the Park Square section of Boston, upon which site a new Hotel Statler with 1,200 rooms will be erected
The "Boston News Bureau" says: "The New Haven, for many years a large holder of real estate in the Park Square district of Boston, is now getting plenty of opportunities to dispose of lands not needed for transportation. Some weeks ago the New Haven sold a parcel of 16,654 sq. ft. of land, bounded by Providence and Arlington streets and St. James Ave., on which site an 11-story office building is to be erected. This was sold for about $500,000. Since the first of 1922 the New Haven has sold or contracted to sell land in the Park Square district from which it will realize about $2,500,000. This includes about $250,000 for a mortgage held by the New Haven on land of the Park Square Real Estate Trust which also has been sold to the Statler interests.
"The New Haven has two plots of land left in the Park Square district, one containing 6,744 sq. ft. and the other 28,793 sq. ft. Including this land and other land on waich it has a mortgage, the value of its land holdings there is now in the vicinity of $2,350,000.
"These properties are not covered by the New Haven's First & Refunding Mortgage and are free assets. The mortgage provides, however, that any proceeds received from sale of real estate shall be used for additions and betterments to the railroad property or for reduction of the debt."
See also offering of bonds of New York State Realty & Terminal Co. under "Industrials" below.—V. 114, p. 2241.

New York & Queens County Ry.—*Extra Fare Upheld.*—
Justice James C. Cropsey, in the Queens Supreme Court, L. I. City, has sustained the writ of habeas corpus sought in behalf of Slaughter W. Huff and Robert C. Lee, receivers for the Steinway Trolley Lines, and freed them from custody.
This is a victory for the receivers over District Attorney Dana Wallace, who endeavored to prevent the receivers from charging a separate fare on the Steinway lines. The lines, until the receivership, were a part of the New York & Queens County Ry.
The two receivers were arrested and held under complaints that they had violated the Transit Act by separating the two roads and imposing a separate 5-cent fare on each without the authorization of the Transit Commission.—V. 114, p. 2116.

Nueccs Ry., Texas.—*Acquisition of St. Ry. Property.*—
See Corpus Christi Ry. & Light Co. above.

Ohio Electric Ry.—*Sells Plant.*—
See American Gas & Electric Co. below.—V. 114, p. 198.

Oregon Short Line RR.—*Tentative Valuation.*—
The I.-S. C. Commission has placed a tentative value of $15,049,086 on the property as of June 30 1916.—V. 114, p. 2116.

Pennsylvania RR.—*Stockholders—Opens Freight Terminal.*
Total number of stockholders on May 1 1922 was 140,393, a decrease of 1,417 from April 1. The average holdings on May 1 was 71.12 shares, compared with 70.41 on April 1. Since Jan. 1 1922 the number of stockholders have decreased 1,306, and on April 1 1922 shareholders were only 234 more than on April 1 1921.
The foreign holdings on May 1 1922 were 3.83% of the outstanding stock, an increase of 2.31% over the same date last year.
The company on May 22 officially opened for service the enlargement of its freight handling facilities at South Kearney, N. J., establishing there a terminal for the delivery of perishable foodstuffs for distribution and consumption in the Metropolitan district, to be known as the Manhattan Produce Yard.
President Samuel Rea, speaking May 25 before the Board of Commerce at Detroit, announced the completion of plans for the entry of the Pennsylvania into the Detroit field, at an expenditure approximating $20,000,000. (See also N. Y. "Times" May 26.)—V. 114, p. 2116, 2013.)

Philadelphia Belt Line RR.—*New President.*—
George W. Norris, Governor of the Federal Reserve Bank of Philadelphia, has been elected a director and President, succeeding Francis B. Reeves, who has been elected Chairman. H. De Witt Irwin has been elected First Vice-President.

Public Service Corp. of N. J.—*Stricken off List.*—
The Phila. Stock Exchange on May 19 struck off the regular list $108,000 Gen. Mtge. 5% bonds, due 1959, reported purchased for account of the sinking fund, leaving the amount of said bonds listed May 19, $34,303,000, and making a total of $3,197,000 of said bonds acquired for the sinking fund to May 17 1922.—V. 114, p. 2242.

Reid-Newfoundland Co.—*Offers To Sell Road.*—
The company has made an offer to sell its property to the Canadian Government for about $2,500,000, as a means of terminating the present transportation deadlock which has tied up railway traffic since May 15. On the aforesaid date, the employees were notified of the company's inability to meet the April wages, owing to the delay of the Canadian Government in advancing sums guaranteed to meet operating deficits.—V. 114, p. 2242.

Rockingham County Light & Power Co., Portsmouth, N. H.—*Bonds Offered.*—Coffin & Curr, Inc., and Merrill Oldham & Co., Boston, are offering at 90 and int., to yield about 6.05%, $650,000 (Closed) Mtge. 5% Gold Bonds, due 1936.
The company, operating without competition, serves with electric light and power the city of Portsmouth, N. H., and surrounding towns, and also supplies power over its own high tension lines to a number of important street railway and lighting companies.
The property includes a well-built modern steam station of 16,000 h.p. installed capacity located at tidewater, together with necessary transmission lines and substations. The property has been well maintained and is in good operating condition.—V. 105, p. 73.

St. Louis & Suburban Ry.—*Extension of Consolidated Mortgage 5% Bonds.*—Rolla Wells, receiver of United Rys. Co. of St. Louis, in a notice to the holders of the Consol. Mtge. 5s of St. Louis & Suburban Ry., due Feb. 1 1921, says:
Acting under authority of the U. S. District Court, arrangements have been made through approved contract with the Mississippi Valley Trust Co., United States Bank, Lafayette-South Side Bank, St. Louis, and Mercantile Trust & Deposit Co., Baltimore, for the extension of the above bonds to Oct. 1 1923.
Present holders will be given the privilege, for a limited time, to have their bonds extended. Those desiring to avail themselves of this privilege should deposit their bonds. Holders not desiring to extend their bonds may present them on June 1 1922 and receive payment for full amoont of principal and interest from Feb. 1 1921 to June 1 1922 at the rate of 5%. Int. will cease on June 1 1922 on any bonds not extended.

The banking houses mentioned below will grant to holders of the Consol. 5% bonds the privilege of having their bonds extended to Oct. 1 1923 at the rate of 8% from June 1 1922 to Oct. 1 1923. On such bonds as are presented for extension, interest will be paid in cash at the rate of 6% for that period from Feb. 1 1921 to June 1 1922. Holders desiring to accept cash in lieu of extension, will receive same upon presentation of bonds on or after June 1 1922 at the office of the Mississippi Valley Trust Co., depositary, with interest at the rate of 5% from Feb. 1 1921 to June 1 1922.
Bondholders desiring to avail themselves of the extension privilege should deposit their bonds on or before May 31 with Mississippi Valley Trust Co., Stifel-Nicolaus Investment Co, Lafayette-South Side Bank, United States Bank, Mark C. Steinberg & Co., St. Louis, or Mercantile Trust & Deposit Co., Baltimore, Md., in order that the extension may be duly stamped thereon and proper coupons affixed. Adjustment of interset for past due period will be made in cash at the time of delivery of the extended bonds.
The security of the extended issue remains unimpaired and stands in the same relation as heretofore and will carry the guarantee both as to principal and interest by the United Railways Co. of St. Louis by endorsement.—V. 113, p. 1773.

St. Louis-San Francisco Ry.—*Acquisition.*—
The stockholders on May 9 assented (1) to the purchase of the West Tulsa Ry., the entire capital stock of which is owned by the company; (2) to the purchase by Kansas City Fort Scott & Memphis Ry. of the Tyronza Central RR. and Bonnerville & Southwestern RR., the entire capital stock of which companies is owned by the Kansas City Co.—V. 114, p. 2117.

Sacramento Northern Ry. (Calif.).—*Denied.*—
See Western Pacific RR. below.—V. 114, p. 1064.

Southern Railway.—*Orders New Equipment.*—
The company has placed orders for new equipment consisting of 20 locomotives, 5,390 steel freight cars, 500 steel automobile cars, 100 steel passenger cars and 250 caboose cars. The equipment, it is stated, will be ready for delivery by fall.—V. 114, p. 2242, 1892.

Spokane & Eastern Ry. & Power Co.—*Fares Cut.*—
See Washington Water Power Co. below.—V. 114, p. 948.

Tennessee Ry., Light & Power Co.—*Plan Approved.*—
The plans for the consolidation of subsidiaries into a new company, to be known as Tennessee Power Co., was approved by stockholders May 19.

No Further Deposits After May 29.—A notice to the holders of the Nash. Ry. & Light Co. Ref. & Ext. 5s, Chattanooga Ry. & Lt. Co. 1st & Ref. 5s., and Tennessee Power Co. 1st Mtge. 5s, says (see advertising pages):
"The Bankers Trust Co., New York, First National Bank, Boston, Fidelity Trust Co., Philadelphia, and Nashville Trust Co., Nashville, Tenn., the depositaries under the plan for the organization of Tennessee Electric Power Co., have, under instructions of the undersigned, continued to receive deposits of the above bonds under the plan and the total number of bonds deposited and promised to date amounts to $5,784,000, which is sufficient for the purposes of the plan. The depositaries have therefore been instructed to receive no further deposits after 1 p. m. Monday, May 29 1922."

[Signed by Bonbright & Co., Inc., New York; E. W. Clark & Co., Philadelphia; H. M. Byllesby & Co., Inc., Chicago, and Hodenpyl, Hardy & Co., Inc., New York.] For outline of plan, &c., see V. 114. p. 1653, 1892, 2117, 2242.

Toledo & Ohio Central Ry.—*Proposed Lease of Company and Its Subsidiaries by New York Central RR.*—

See report of New York Central RR. under "Reports and Documents" on a subsequent page.—V. 114, p. 411.

United Rys. Co. of St. Louis.—*Extension of Bonds.*—

See St. Louis & Suburban Ry. above.—V. 114, p. 2242.

United Rys. & Elec. Co. of Baltimore.—*Holders of 1st Consol. Mtge. 4% Bonds Given Right to Exchange for Consol. Mtge. 6s.*—Alex. Brown & Sons of Baltimore, fiscal agents, in a letter dated May 20 to the holders of the 1st Consol. Mtge. 4s, say in substance:

Following the over subscription [amounting to $17,000,000] to the recent issue of $6,000,000 1st Consol. Mtge. bonds bearing 6% int. (V. 114, p. 1653), a number of the holders of the 1st Consol. 4s expressed to the company and to investment houses their desire to change their bonds to 6% bonds on some basis, fair to the company as well as to the bondholder.

The market price, as of the date of the actuary's report (May 8 1922) of the 4s was 73 and of the 6s 99½, showing a diffreence in favor of the 6s of $265 per bond.

A committee (see below) representing holders of 4% bonds conferred with officials of the company to ascertain if this exchange could be arranged on payment of $250 per $1,000 bond.

Provided the basis was fair and the privilege granted to a limited number of bonds, the advantage to the company was demonstrable. The Railways company's officials expressed a willingness to meet the views of the committee, and after conference the following understanding was reached, subject to the approval of counsel and the Maryland P. S. Commission:

(1) The company will agree to detach 4% coupon sheets from outstanding 1st Consol. 4s and to attach 6% sheets in their place (thus giving the holder $60 per ann. in place of $40 per ann.), the holder to pay the company $250 per $1,000 bond for the exchange.

(2) The privilege, however, will be limited to the holders of a portion only of the 4s, as the company could not now profitably use such an amount of cash as would be received if the privilege were accorded to and accepted by all.

(3) Bondholders desiring to avail of the privilege must file their applications and at the same time deposit their bonds at Continental Trust Co., Baltimore, on or before June 7, or such earlier date as the company may determine upon. Payment of $250 for each bond exchanged plus cash adjustment of interest to date of delivery is to be made upon delivery of the 6% bonds.

The bonds bearing 6% interest thus received in exchange will be identical with those recently issued, principal and interest at the rate of 4% per ann. being secured by the Railway company's 1st Consol. Mtge., and the additional interest at the rate of 2% per ann. being provided for by a supplemental indenture dated Mar. 1 1922.

Exchanges will be made in the order in which applications are filed and bonds deposited, and exchange may be made through holder's own investment banker or broker.

The right of exchange will not necessarily remain open until June 7. Upon receipt of applications from holders representing 40% of outstanding 4% bonds, no further applications will be considered except upon such terms and conditions as the company may require.

Committee.—William G. Baker Jr., Chairman (Baker, Watts & Co.); John P. Baer (Hambleton & Co.); W. Graham Boyce (V.-Pres. Union Trust Co. of Md.); John G. Brogden (Strother, Brogden & Co.); James C. Fenhagen (Robert Garrett & Sons), with W. Graham Boyce, Sec'y, Charles St. at Fayette, Baltimore.

Extract from Report of Actuary.—Arthur M. Siegk, consulting actuary, in a letter to the committee, May 8, says in brief:

The following figures, showing the advantages to bondholders of the exchange, are correct, and I recommend to bondholders that they make the exchange on the terms arranged by the committee.

The present market price (varying slightly from day to day) of the 4s is 73 and of the 6s 99½, showing a difference in favor of the 6s of $256 per bond. The basis of exchange, however, is $250 per bond, thus representing at once an advantage to the bondholder of $15 in making the exchange.

In view of the fact, however, that after this offer is made the 4% bonds will probably adjust themselves in price to the 6s, the above advantage of $15 in making the exchange is disregarded in these calculations. There is still, however, an additional monetary advantage in making the exchange.

The price assumed for the 6% bonds is 99½ and for the 4% bonds 74½, a difference of $250 per bond. The holder of a 4% bond who pays $250 in order to secure a 6% bond therefore pays about 25% of the principal of his 4% bond and approximately 33% of its present market value, and secures in return $60 per annum in place of $40 per annum.

By the payment of $250 the investor receives $540 additional in coupons. The increase in the coupons amounts to $20 per annum, which is equivalent to 8% annually on the payment. The investor may regard this $250 payment, then, as similar to the purchase of a negotiable annuity.

If, however, the $540 in coupons is regarded as a return of principal as well as a payment of interest, the ordinary annuity tables indicate that the bondholder receives (*a*) the return of his original payment of $250 plus (*b*) interest at the rate of about 6½% per annum. Thus the investor who pays $250 for the additional coupons not only obtains an increased interest return but also on account of the repayment of this amount in the additional coupons, possesses the same advantages resulting from the difference between the present market price and maturity value, as the holder of the 4s. (See offering of 6s in V. 114, p. 1653, 1762.)

Utah Light & Traction Co.—*Bonds Offered.*—E. H. Rollins & Sons, Harris, Forbes & Co., and National City Co. are offering at 91 and int., yielding over 5.70%, $12,471,000 1st & Ref. Mtge. 5s Series A. (see adv. pages.)

Dated Sept. 18 1914. Due Oct. 1 1944. Int. payable A. & O. in New York. Red. on any int. date on 4 weeks' notice at 105 and int. Denom. $1,000 (c*&r). Bankers Trust Co., New York, trustee. The mortgage provides for a strong sinking or improvement fund.

Guaranty.—Unconditionally guaranteed as to principal and interest by endorsement by the Utah Power & Light Co.

Listing.—Application will be made to list these bonds on the N. Y. Stock Exchange.

Data from Letter of D. F. McGee, V.-Pres. of Utah Power & Light Co.

Company.—Owns (1) electric light and power properties in Salt Lake City and Ogden; (2) street railway properties in Salt Lake City and vicinity, and (3) gas properties in Ogden, which, together with certain properties owned by the Utah Power & Light Co., serve without competition under long-term franchises about 150,000.

The electric light, power and gas properties of the company are leased for a period of 99 years from 1915 to the Utah Power & Light Co., for a rental which must at all times be sufficient to provide for the payment of interest on all bonds issued under existing mortgages. The properties so leased serve over 44,000 electric light and power customers in Salt Lake City and Ogden.

The Utah Power & Light Co., which owns the entire capital stock of the Traction company, constitutes with its subsidiaries one of the largest light and power systems in the United States, having an installed generating capacity of over 208,000 h. p., of which 88% is hydro-electric. The system serves over 77,000 electric light and power customers and operates without competition in a business field of an estimated population of 335,000.

Consolidated Earnings of Utah Power & Light System. Inter-Company Charges Eliminated—12 Months Ended March 31 1922.

Gross income	$8,519,227
Net after operating expenses, maintenance and taxes	4,163,943
Annual interest on all outstanding mtge bonds, incl. this issue	2,227,220
Balance	$1,936,723

Security.—Secured by direct mortgage on all properties of the company subject only to $3,746,000 divisional closed mortgage bonds, in the liens of which this issue shares through deposit with the trustee of $1,005,000 additional of these divisional bonds.

This Issue.—Of the bonds offered, $12,136,000 were acquired in 1914 and 1915 in part payment for these properties by the Oregon Short Line RR. (Union Pacific System) and have in the interim been in the treasury of that company.

Capitalization of the Utah Power & Light Co. and Sub. Cos., Outstanding with Public, Inter-Co. Items Eliminated.

Common stock	$30,000,000	Utah Pow. & L. Co.—	
Second Preferred stock, 7% cumulative	3,099,000	1st Lien & Gen. M.	$3,156,000
Pref. stock, 7% cum.	x11,538,000	1st Mtge. 5s, 1944	23,691,000
Debentures, 6% due 2022	x5,000,000	Utah Lt. & Tr. Co.—	
		1st & Ref. M. bonds	12,471,000
		1st M. Coll. bds., 1934	1,401,000
		Div. bonds (closed)	2,345,000

x Proceeds from the sale of these debentures, together with the sale of an additional $1,000,000 7% Cumul. Pref. stock (incl. in the figures shown above) will leave the Utah Power & Light Co. free of all floating debt.—V. 114, p. 2014.

Utah Power & Light Co.—*Guaranty, Earnings, &c.*—

See Utah Light & Traction Co. above.—V. 114, p. 2014, 739.

Virginian Ry.—*Annual Report—Tentative Valuation.*—

See annual report under "Financial Reports" above.

The I.-S. C. Commission has placed a tentative value of $55,862,622 on the property as of June 30 1916.—V. 114, p. 2117.

Virginia Ry. & Power Co.—*Valuation—Directors.*—

The Virginia Corporation Commission April 14 placed a value of $16,019,398 on the company's light and power property. The new valuation was made by the Commission following a rehearing from a decision returned in March, 1921, with which the company showed dissatisfaction. As a net result, the sum of $1,400,000 is added to the figures arrived at in the former case, which was of property as of June 30 1920. The additions represent new property added since that date and certain water power rights which the company had failed to include in its claims in the former case. No rates for electric service are involved in the valuation.

Street railway properties are not included in the valuation figures. The Richmond-Petersburg interurban line, which was valued separately last year by the Commission, also is not included.

John T. Williams of Richmond, Va., and Daniel Stafford of New York were recently elected directors, to succeed C. B. Buchanan and Finley J. Shepard.—V. 114, p. 739.

Wabash Railway.—*Definitive Notes Ready.*—

Definitive Equipment Trust 6% gold notes are now ready for delivery at the office of Speyer & Co., 24-26 Pine St., N. Y. City, in exchange for outstanding temporary receipts. (See V. 114, p. 1409, 1536.)—V. 114, p. 2117.

Washington Water Power Co.—*Fares Reduced.*—

Street car fares in Spokane, Wash., will be reduced from 8 cents cash fare to 7 cents cash fare and 6 cents ticket fare beginning June 1.

The traction companies in Spokane are to be consolidated July 1 as a result of the recent election, which authorized a new franchise with the lower fare. See V. 114, p. 2242.

West End Street Ry.—*Instructions Issued for Deposit of Stock Under Consolidation Plan with Boston Elevated Ry.*—

Pres. Joseph B. Russell has issued a circular to the stockholders containing instructions for the deposit of the securities under the plan for consolidation of the Boston Elevated and West End Street Ry., to be effective June 10 1922. The circular says:

"On June 10 the Boston Elevated will deliver to the West End the former's 1st and 2d Pref. stock for exchange for West End Pref. and Common stock, respectively. One share of Boston Elevated 1st Pref. will be exchanged for 2 shares of West End Pref., and one share of Boston Elevated 2d Pref. will be exchanged for 2 shares of West End Common. The return to the stockholder on one share of new stock will be the same as it has been on two shares of old stock."

The Old Colony Trust Co., Boston, has been appointed transfer agent, and as soon after June 10 as possible will issue Boston Elevated 1st and 2d Preferred stock to depositors of West End stocks. To take care of odd shares of either class of West End stock, fractional receipts will be issued. As the first dividend date of Boston Elevated 1st Pref. will be July 1 1922, and of the 2d Pref. Oct. 1 1922, the West End stockholders are urged to deposit their certificates as far ahead of June 10 as possible, in order that there may be no confusion or interruption in receipt of dividends by stockholders. (For full terms of Merger Act see V. 93, p. 344-345.)—V. 114, p. 1892.

Western Pacific RR.—*Acquisition Denied.*—

Acquisition by the company of control of Sacramento Northern RR., upon the transfer thereof to the Sacramento Northern Ry., by the purchase of capital stock of Sacramento Northern Ry., and the purchase of the bonds of Sacramento Northern RR., was denied without prejudice by the I.-S. C. Commission May 18.

The report of the Commission says in part:

"The applicant proposes to acquire control of the property of the Sacramento Northern through the purchase of its outstanding bonds and of the capital stock of a new company which will become the owner of the old company's lines and other property.

"The purchase price of the property and necessary working capital will be provided by the issuance of $1,000,000 capital stock, of which the applicant has subscribed at par $995,000, being all of the capital stock except directors qualifying shares, the latter of which have already been issued.

"It is asserted that the lines of the Northern will be 'independently' operated by a separate operating organization. The record shows questionably, however, that the cw company would be merely an instrumentality of the Western Pacific organization, responsive necessarily to the policies established by it and operated primarily in its interests. The acquisition of control by the applicant under the circumstances proposed would ipso facto establish the status of the new company as part of the Western Pacific system and so long as the control continued its operation would necessarily be a part of that system.

"The carriers which must make application to us for authority to issue securities and to assume obligations with respect to securities are defined in Section 20a of the Inter-State Commerce Act.

"According to the applicant, the Sacramento Northern is an interurban electric railway. Congress obviously did not intend to exclude all electric railways from the operation of Section 20a. If the Western Pacific were to completely electrify its system it would not thereby become a 'street, suburban or interurban electric railway.'

"It follows from what has been said that the new Sacramento Northern Co., whether or nor regarded as part of the Western Pacific system, must make application to us under section 20a for authority to issue its stock and to assume the obligations of the old company. Until such application is made we are unable to pass upon the public interest involved in the acquisition of control of such company by the Western Pacific. The stock proposed to be acquired by the applicant would have no validity without our authorization. The application will be denied without prejudice to its renewal later if the new Sacramento Northern Co. should apply to us for authority to issue its securities and to assume the liabilities proposed."

Listing of $3,000,000 *First Mtge. 6% Gold Bonds.*—

The New York Stock Exchange has authorized the listing of $3,000,000 1st Mtge. 6% gold bonds, Series B, due Mar. 1 1946, making the total amount of Series A and B applied for $27,180,000.—V. 114, p. 2004.

INDUSTRIAL AND MISCELLANEOUS.

General Industrial and Public Utility News.—The following table summarizes recent industrial and public utility news of a general character, such as is commonly treated at length on preceding pages under the caption "Current Events and Discussions" (if not in the "Editorial Department"), either concurrently or as early as practicable after the matter becomes public.

Steel and Iron Production, Prices, &c.

"Iron Age" May 25 says in brief:

Operations.—"Since some steel producers, notably the Steel Corporation, have been able to increase their operations, with the coal strike still going on, the flurry of protective buying is diminishing, but demand keeps up and in some directions it is urgent. The Steel Corporation, with the resumptions at its Mingo and Farrell plants, is on a 75% basis this week, and there have been small increases by several independent companies.

Production.—"Connellsville coke production increased slightly last week and coal loadings from non-union mines were better, but this tendency is not pronounced as yet. In view of the Washington conference on the soft coal situation, May 31, consumers have withdrawn from the market and prices have fallen by 50 cents to $1, with some easing also in the coke market.

Automobile plants are crowding for bar deliveries, their stocks in some sizes being down to a few days' supply. In the West, in view of the larger call for hard bars for agricultural implements, one mill that has been idle for nearly 18 months is about to start up.

"At Chicago plates, structural shapes and bars have advanced to a minimum of 1.70c. on orders without definite delivery. Premium prices are appearing in all three products.

Prices.—"Bars are in greater demand than at any time since the spring of 1920. On new business 1.60c. is minimum, and some independent mills ask 1.70c. A conservative price level is indicated for Steel Corporation products when books are opened for the third quarter and last half. Sheets are expected to be but slightly above to-day's level, and the present base of $4 75 per box for tin plate is predicted.

Orders.—"The Ford Motor Co. is now inquiring for a three months' supply of sheets for car frames, as against month to month buying for a long time.

Of 5,100 freight cars bought in the week, 2,500 are for the Missouri Kansas & Texas.

The sizeable structural jobs just put under contract will take 26,000 tons of steel work and new projects involving 19,000 tons came into the market. The bridge and structural shop capacity of the country is placed at 41,000 tons per week.

"Sales of basic in St. Louis, Cleveland and Philadelphia markets amounted to about 20,000 tons and the foundry iron market has been fairly active in Philadelphia and several other centres. No Alabama iron is now available at less than $18 and some sales have been made at $18 50, but some Tennessee iron was offered early this week on a basis of $17 50 Birmingham. An early advance to $18 50, Birmingham, is predicted.

Steel Executives Agree to Consider Abolition of 12-Hour Day at Conference with President Haraing.—"Times" May 19, p. 1.

Independent Steel Merger Not to Be Consummated Without Full Knowledge of Dept. of Justice. "Times" May 25, p. 21.

Coal Production, Prices, &c.

The "Coal Trade Journal," May 24, said in brief:

Production.—"Bituminous production for the seventh week of the coal strike failed to show any further advance. In fact, preliminary estimates placed the week's output at only 4,421,000 tons as compared with 4,500,000 the previous week. Anthracite production showed little change, totaling 7,000 tons. No further advance was reported in shipments out of Southeastern Kentucky and Tennessee. Some districts were producing at a maximum, but in others, particularly the Southern Appalachian and the fields of the Rocky Mountain States not affected by the strike, demand was not active enough to call out full-time production.

Prices.—"Rising spot prices indicate a definite quickening of the market to an even greater extent than was the case during the preceding period. Comparing prices with those for the week ended May 13, changes were shown in 73.5% of the quotations. Of the changes reported, 98.66% represented advances. The average advance was $1 13; the average reduction 25 cents.

Operations.—"Reports from the various mining centres, so far from showing any gains won by the union forces, indicated that the latter are rapidly losing ground and their leaders are becoming agitated by the prospect. The number of mines in active operation is increasing steadily. A significant factor was the resumption of wagon mine operations in the Connellsville region, which is expected to materially aid in ending the present deadlock.

Demand.—"The bulk of demand, as has been the case for some time, continued to be industrial. As indicated above, buyers representing railroads and the steel interests were especially active, and an increasing number of buyers representing other industries are steadily entering the market.

Anthracite Operators Reply by Open Letter to Miners' Demand.—Reply embodies plan for avoiding future suspensions. "Times" May 22, p. 9.

Union Miners Reject Wage Offer.—Formal reply a flat refusal of operators' offer. Again demands 20% wage increase. "Times" May 26, p. 13.

Oil Production, Prices, &c.

Negotiations for Merger of Standard Oil of Indiana and Gulf Oil Corporation Pending.—"Times" May 24, p. 1.

Mexican Oil Taxes to Be Reckoned at 10% of Market Value of Oil.—Bunker crude oil price at New York to be criterion. "Phila. News Bureau" May 19, p. 3.

The Bureau of Foreign and Domestic Commerce Reports Exports as follows:

Total exports	264,010,149	201,141,156	2,071,792,887	225,551,277	2,389,991,585

Prices, Wages and Other Trade Matters.

Commodity Prices.—Wholesale cash prices in New York reached the following high points during the week ended May 25: wheat, May 19, $1 48; sugar, May 24, 5.6c.; lead, May 24, 5.75c.; copper, May 23, 13.75c.; cotton, May 22, 21.80c.

Copper Market.—Substantial tonnage of copper for June domestic shipment has brought 14 cents delivered (highest price reached since 1920, 20.5c.) "Boston News Bureau" May 25, p. 1.

Situation in Shoe Industry.—(a) Lynn (Mass.) shoe factories resume operations under temporary agreement for wage reduction. (b) Brockton (Mass.) Shoe Manufacturers' Association and the Boot and Shoe Workers' Union accept general 10% wage cut decided by State Board of Arbitration. (c) Cincinnati shoe workers' strike takes effect, leaving 7,000 without employment.

Textile Strike Developments.—(a) Rhode Island strike now in 18th week, with about 50% of mills open and averaging 33 1-3% capacity operations. Operatives steadily returning since injunctions against picketing were obtained. (b) New Hampshire situation remains unchanged. (c) Lowell (Mass.) mill (Hamilton Mfg. Co.) reopened with 20% cut and is now operating full in cloth department. (d) Lawrence (Mass.) remains unchanged, none of the big mills contemplating opening. Patchogue-Plymouth offers compromise of 9% wage cut, involving immediate cut of 5% and additional cut of 4% in September if business conditions warrant. This mill employs about 400 and manufactures fiber rugs—totally unlike productions of other mills in city.

Garment Workers' Agreement under Consideration.—New agreement to take place of existing one which expires June 1. "Times" May 26, p. 13.

International Paper Co. Refuses to Deal with Officers of Paper Workers' Union Who Are Not Employees of the Company.—"Times" May 26, p. 30.

New York City Unemployment Decreases 300,000 from October 1921.—New York State has 400,000 idle compared with 1,000,000 October 1921. "Boston News Bureau" May 26, p. 9.

Reductions on Tires by Seiberling Rubber Co.—12½% cut effective immediately. "Wall Street Journal" May 25, p. 1.

National Automobile Chamber of Commerce Reports Production of Automotive Industry.—Full facts cited on preceding pages of this issue.

Mexico Encourages Motor Transport.—Exempted from import duty by Presidential decree.

Matters Covered in "Chronicle" May 20.—(1) Federal suppression of child labor held unconstitutional by U. S. Supreme Court (editorial), p. 2175; (2) Further developments in failure of Cuban banking house of H. Upmann & Co., p. 2185; (3) Offerings of $500,000 First Joint Stock Land Bank of Minneapolis, p. 2190; (4) Offering of $500,000 Minneapolis Trust Joint Stock Land Bank 5% Farm Loan bonds, p. 2190; (5) offering of $4,000,000 Kansas City Joint Stock Land Bank (Mo.) 5% farm loan bonds, p. 2190; (6) offering of $500,000 Montana Joint Stock Land Bank 5½% bonds, p. 2190;

(7) Advances approved by War Finance Corporation, p. 2191; (8) Amendments by New York Stock Exchange affecting stock clearing facilities, p. 2191; (9) Seymour L. Cromwell re-elected President of New York Stock Exchange, p. 2191; (10) President Harding asks steel men to abolish 12-hour day, p. 2202; (11) Secretary Hoover takes steps to stop coal profiteering, p. 2202; (12) course of wholesale prices in April, p. 2204.

Alabama Power Co.—*Muscle Shoals Offer.*—

The company has submitted an offer to the Secretary of War to purchase the Gorgas Steam Plant at Muscle Shoals, Ala., for $2,500,000.—V. 114, p. 1655, 741.

American Car & Foundry Co.—$5,000,000 *Order.*—

The company on May 18 announced that it has received an order for 2,000 refrigerator cars from the American Refrigerator Co., to cost approximately $5,000,000. Under the contract, the equipment is to be delivered by September to take care of a large increase in the transportation of fruits, vegetables and dairy products, which is done by the American Refrigerator Transit Co.—V. 113, p. 2617.

American Gas & Electric Co.—*Acquisition.*—

The company, it is reported, has purchased the city lighting and power plant of the Ohio Electric Ry. of Lima for a sum stated to be $1,000,000. —V. 113, p. 2617.

American Railway Express Co.—*Earnings.*—

Earnings for the calendar year 1921, as filed with a leading Public Utility Commission, compare as follows:

Calendar Years—	1921.	1920.	1919.
Charges for transportation	$294,663,581	$333,890,026	$285,905,404
Express privileges	113,490,662	141,829,491	143,429,820
Revenue from transportation	$181,172,925	$192,060,535	$142,475,585
Other revenue	3,723,836	3,604,509	8,560,310
Total operating revenue	$184,896,761	$195,665,044	$151,035,895
Operating expenses	182,265,283	234,809,540	174,081,557
Uncollectible revenue	2,123,735	37,101	2,060,284
Express taxes		2,182,462	1,092,705

Interest on unfunded debt		363,792	
Dividends	a($4½)1,558,890	------	------
Net income	$750.330	df$39835887	df$24209297

a [In April 1921 the company also paid a dividend of $2 per share on its $34,642,000 Capital stock for the last 4 months of 1920—Ed.]—V. 114, p. 950.

American Ship & Commerce Corp.—*Director.*—

William H. Woodin, President of the American Car & Foundry Co., has been elected a director.—V. 114, p. 2238.

American Shipbuilding Co.—*Extra Dividend of 10%.*—

An extra dividend of 10%, in cash, has been declared on the Common stock, payable June 20 to holders of record June 6. On April 24 last an extra dividend of 20% was paid in cash on the Common shares (see V. 114, p. 1410).—V. 114, p. 2118.

American Smelting & Refining Co.—*Annual Meeting.*—

The annual meeting will be held June 27 at No. 1 Exchange Place, Jersey City, N. J. Transfer books will close June 6. It is expected that there will be three tickets up for election. A call for proxies has been sent out by the present management. The committee appointed by the management to solicit proxies includes Simon Guggenheim, Edwin C. Jameson, Wilfred Shore, William Loeb Jr. and F. H. Brownell.

Karl Eilers, leader of the opposition to the Guggenheim interests at the last annual election and former V.-Pres. of the company and a member of its executive committee, has issued a call for proxies. A circular letter to the stockholders accompanies the call.

In a letter accompanying its report, the majority members of the Evans committee [Henry Evans, Clarence H. Kelsey, Henry K. Pomroy and Willis D. Wood] investigating affairs of the company, recommend the election of directors, a clear majority of whom shall be independent of the present management. They also solicit proxies for the annual meeting.

U. S. Supreme Court Decision.—

The company May 15 lost its appeal in the U. S. Supreme Court from the decision of the Court of Claims involving a claim for $512,515 for copper furnished to the Government for war purposes. The $512,515 was the price of 20,500,620 lbs. of copper at 26c. per pound, less payment received at 23½ cents.

The Boston "News Bureau" May 22 says: "It has been made to appear that the American Smelting & Refining Co. was alone concerned in the decision of the U. S. Supreme Court refusing to uphold claims for $512,515 involving sale of more than 20,000,000 lbs. of copper at 23½ cts. a pound. As a matter of fact practically all of the mining companies had a pro rata interest, as the Smelting Co. was acting as their agent on export sales during the war period. The United Metals Selling Co. booked all of the domestic business. Both of these agencies got their orders from the Copper Producers' Committee, which apportioned the business among the individual concerns."—V. 114, p. 2244.

Anglo-Persian Oil Co., Ltd.—*Listing.*—

The London Stock Exchange has granted an official quotation to £2,000,000 8% Cum. First Pref. shares of £1 each, making the total amount of said stock listed May 12, £7,000,000.—V. 114, p. 413.

Anton Jurgens United Works, Holland.—*New Financg*

It is understood that White, Weld & Co. will head a syndicate which will offer portion of the 40,000,000 guilder issue of the 25-Year 6% Secured bonds of the Anton Jurgens United Works, recently purchased by an international group. The Dutch portion will probably be offered by the Rotterdamsche Bankvereeniging and Messrs. Hope & Co. of Amsterdam. The company is reported as one of the largest industrial corporations of Holland.

Arkansas Natural Gas Co.—*Annual Report.*—

Calendar Years—	1921.	1920.	1919.	1918.

—V. 114, p. 2016.

Armour & Co.—*To Fight Sale Order.*—

The company, it is stated, will resist the Federal Trade Commission's order to dispose of its interest in the E. H. Stanton Co., Spokane.—V. 114, p. 2245, 1769.

Associated Producing & Refining Corp.—*Petition for Receiver Dismissed.*—

HJudge Hugh M. Morris, in the U. S. District Court at Wilmington, Del., on May 16 dismissed the petition of Gustave L. Morris, of Chicago, for a receiver for this company.

The suit was dismissed after the complainant had submitted an affidavit to the effect that he was induced to sign the bill of complaint upon a misapprehension of facts and that he desired the bill of complaint be dismissed. —V. 114, p. 2119.

Associated Dry Goods Corp.—*Sales—Earnings.*—

Month of—	Gross Sales 1922.	Gross Sales 1921.	Net Earns. Before Tax- 1922.	Net Earns. Before Tax- 1921.
January	$3,790,316	$4,631,031	$84,791	$144,250
February	3,363,162	4,048,530	27,488	118,546
March	4,237,570	4,880,523	235,552	358,369
April	4,662,649	5,227,663	328,754	321,269
Total 4 months	$16,053,697	$18,787,747	$676.585	$942,434

The gross sales and net earnings of Lord & Taylor (not included above) for the 4 months ending April 30 are:

	1922.	1921.		1922.	1921.
Gross sales	$5,628,389	$6,159,089	Net earnings	$233,573	$219,816

The Associated Dry Goods Corp. owns approximately 82% of the 6% First Pref. stock and 81% each of the 8% Second Pref. and Common stocks of Lord & Taylor.—V. 114, p. 734.

Atlantic City (N. J.) Electric Co.—*Stock Authorized.*—The New Jersey P. U. Commission has authorized the company to issue $300,000 6% cumulative non-voting preferred stock, proceeds to be devoted to reimbursement for improvements.—V. 113, p. 964.

Atlantic Gulf & West Indies Steamship Lines.—The stockholders on May 23 authorized the creation and execution of $1,800,000 6% 5-year gold bonds and the First Lien Pref. Trust Indenture of Mortgage upon the steel tank steamers Agwistone and Agwismith. The builders of these ships, the Newport News Shipouilding & Dry Dock Co., agreed last year to take a 2-year 7% mortgage and bonds on these boats for $2,000,000, the amount then due. Since then more advantageous arrangements have been made with the Newport News Co. See V. 114, p. 2245.

Francis Merrill and A. J. Miller of N. Y. have been elected directors, succeeding A. R. Nicol and Oliver P. Brown.—V. 114, p. 2245.

Austin, Nichols & Co., Inc.—*Sales—Earnings.*—President C. W. Patterson says in substance: "Net sales of the grocery houses for the first quarter of its fiscal year, ended April 30 last, were about 5% in excess of the sales of last year notwithstanding that values are on a lower level. Operating expenses for the period were 17% below those of last year.

"Net profits of the grocery houses are substantially in excess of Preferred dividend requirements for the period, as compared with a deficit for the same period last year, owing to inventory losses. The greater part of the annual earnings have in the past accrued during the fall months."—V. 114, p. 1762.

Baldwin Locomotive Works.—*Unfilled Orders, Etc.*—The company is reported to have unfilled orders on its books in excess of $10,000,000 as against $6,000,000 in February last. Incoming business is now at the rate of 30% of capacity, which is the present rate of operations.

An order, valued at approximately $500,000, for nine mountain type locomotives has been received from the Argentine Republic.

The following changes in the official personnel has been announced: John P. Sykes, Senior Vice-President in charge of plant and manufacture; Charles A. Bourgeois, Vice-President in charge of manufacture; Jacques L. Vauclain, Vice-President in charge of plant and equipment; Harry Glaenzer, Vice-President in charge of engineering, to succeed the late Kenneth Rushton, and Wm. A. Russell, Vice-President in charge of purchases. —V. 114, p. 2016.

Beacon Oil Co., Boston.—*Dividends of 50 Cents.*—A dividend of 50 cents per share has been declared on the 140,000 shares of Common stock, no par, payable May 31 to holders of record May 26. This is equivalent to $2 per share on the old $100 stock, which was recently exchanged on the basis of 4 shares of no par value stock for each $100 share held. A month ago a distribution of $2 per share was made on the $100 shares. For offering of Preferred stock see V. 114, p. 2119, 2245.

Blackstone Valley Gas & Electric Co.—*Gas Rates.*—The company on May 19 announced a 10-cent cut in the price of gas to become effective July 1. This cut reduces the gross rate for the first 4,000 cu. ft. to $1 30 per 1,000 cu. ft., with a 10-cent discount, making the net rate $1 20.—V. 113, p. 2315.

Booth Fisheries Co., Chicago.—*New Director.*—K. L. Ames Jr., Edward Clifford and Walter W. Ross have been elected directors succeeding C. H. Whitelaw, George R. Faust and Frank J. Carroll.—V. 114, p. 1656.

British-American Tobacco Co.—*Interim Dividend.*—The directors on May 17 decided to pay an interim dividend of 4%, free of British income tax, on the Ordinary shares on June 30 to holders of record June 13. Coupon No. 91 must be used for dividend.—V. 114, p. 1538, 742.

Brooklyn Union Gas Co.—*Bonds Sold.*—National City Co., New York, and Guaranty Co. of N. Y. have sold at 105 and int., to yield about 5⅝%, $6,000,000 1st Lien & Ref. Mtge. Gold Bonds, Series A, 6%, due 1947. Non-redeemable prior to maturity (see advertising pages).

Dated May 1 1922, due May 1 1947. Int. payable M. & N. at National City Bank, New York, trustee, without deduction of the normal Federal income tax up to 2%. Denom. $500 and $1,000 (c*&r*), $1,000, $5,000 and $10,000.

Listing.—Application will be made to list bonds on N. Y. Stock Exchange.

Issuance.—Authorized by New York P. S. Commission.

Data from Letter of Pres. James H. Jourdan, Brooklyn, May 23.

Company.—Company, together with Flatbush Gas Co., a subsidiary, supplies without competition, artificial gas to 573,000 customers in 30 of the 32 wards of the Borough of Brooklyn, and through 4 other subsidiaries, all of whose securities are owned, supplies a large part of the Borough of Queens. Flatbush Gas Co. also does the entire electric light and power business in the 29th Ward of the Borough of Brooklyn. Population is over 2,000,000.

Capitalization after this financing—	*Authorized.*	*Outstanding.*
Capital stock	$30,000,000	$18,000,000
10-year 7% Convertible Debs., 1932	5,579,000	5,579,000
1st Lien & Ref. Mtge. Series A 6s (this issue)	x	6,000,000
Conv. 7% Debs., 1929 (to be secured by the new 1st Lien & Ref. Mtge.)	2,000,000	2,000,000
1st Consol. 5s, 1945	Closed	14,736,000
Citizens Gas Light Consol. 5s, 1940	Closed	264,000

x Further bonds may only be issued subject to the conservative restrictions provided in the 1st Lien & Ref. Mtge.

Purpose.—Proceeds from the sale of this issue will reimburse the company in part for unfunded capital expenditures aggregating over $11,579,000 heretofore made to the properties of the company and its subsidiaries.

Additional Securities to be Offered.—For the purpose of reimbursing the company for the above expenditures, the P. S. Commission has authorized the issuance of $5,579,000 10-Year 7% Conv. Debenture bonds, which will be junior to the mortgage bonds. The proceeds from the sale of these securities will liquidate floating debt incurred during the period when gas rates were inadequate, and will leave a substantial balance in the treasury.

Security.—A direct mortgage, subject to prior liens, on the entire property now or hereafter owned. Also secured by the pledge of all stocks and $5,222,000 1st Mtge. 6½% bonds (the entire funded debt) of 5 subsidiaries, Flatbush Gas Co., Newtown Gas Co., Jamaica Gas Light Co., Woodhaven Gas Light Co. and Richmond Hill & Queens County Gas Light Co.

Consolidated Statement, Incl. Subsidiaries (Eliminating Inter-Co Items) 12 Months Ended March 31 1922.

Gross earnings	$21,838,358
Net, after operating expenses and taxes	3,391,370
Annual int. charges on Mtge. debs., including $6,000,000 new bds	1,250,000
Balance available for int. on unsecured debt, dividends, &c.	$2,141,370

Rates.—A recent decision of the U. S. Supreme Court held the so-called 80-cent gas law unconstitutional, and settled the right of the company to charge a rate for gas sufficient to provide a reasonable return upon its investment (V. 114, p. 1184, 1411).—V. 114, p. 2245, 2017.

Brooklyn Edison Co., Inc.—*New Directors.*—Harry Bronner of Blair & Co., Inc., has been elected a director to succeed the late Walton Ferguson.—V. 114, p. 2120.

Burns Bros. (Coal), N. Y. City.—*New Directors.*—Seven new directors, two of whom represent the Farrell interests, were elected at the annual meeting held May 25. The new directors are: T. L. Chadbourne, Gerhard Dahl, Harry V. Lake, Moritz Rosenthal, Mason B. Starring, Thomas F. Farrell and S. A. Wertheim, the last two named representing the Farrell interests.—V. 114, p. 2237, 2120.

Bush Terminal Co.—*No Stock Dividend.*—The regular semi-annual cash dividend of 2½% has been declared on the outstanding Common stock, par $100, payable July 15 to holders of record July 1. No action was taken on the stock dividend of 2½%. Special dividends of 2½% each in Common stock have been paid semi-annually on the Common shares from Jan. 1916 to Jan. 1922, inclusive.—V. 114, p. 1538.

—V. 113, p. 538.

Cities Service Co.—*Regular Dividends.*—The company has declared the regular monthly dividends of ½ of 1% on the Common, Preferred and Preference B stocks, payable in scrip, and the regular monthly dividend of 1¼% on the Common stock, payable in Common stock scrip. All dividends are payable July 1 to holders of record June 15. Like amounts have been paid monthly in scrip since Aug. 1 last.—V. 114, p. 2120.

Citizens Gas Co. (of Indianapolis).—*Rates.*—Federal Judges Francis E. Baker, Samuel Alschuler and A. B. Anderson, sitting en bloc, have granted the company a temporary increase in gas rates from 90 cents to $1 20 per 1,000 cu. ft., pending final hearing of the company's appeal from the Indiana Public Service Commission, where the increase in rates was denied.—V. 114, p. 2120.

City Water Power Co. of Austin, Tex.—*Sale.*—All title, rights and interests in the Lake Austin dam franchise and other property and appurtenances thereto were sold May 9 by Special Master J. Harris Gardner to Ike D. White, of Austin, representative of the bondholders, for $35,200. The sale was made under a Federal Court order foreclosing against the franchise and property. It is announced that a new Corporation will be organized.—V. 104, p. 1705.

City Ice Delivery Co., Cleveland.—*Name Changed &c.*—See City Ice & Fuel Co. below.—V. 112, p. 936.

City Ice & Fuel Co., Cleveland.—*Acquisition—Stock Offered for Subscription—New Bond Issue Proposed.*—Sec. J. M. Blum in a letter May 10 to the stockholders says in brief:

Pursuant to our policy to expand and stabilize our business, your officers and directors have decided:

(1) To purchase a going concern dealing in ice and refrigeration for $3,150,000.

(2) To provide funds for this purchase, to sell 14,000 shares (par $100) of unissued stock, which would make a total of 50,000 issued.

(3) To consolidate the Cleveland and Cincinnati properties [City Ice Delivery Co. of Cincinnati] and to distribute to the stockholders their just proportion of the 10 years accumulation.

(4) To authorize a $5,000,000 bond issue on the properties, with $3,000,000 released and available to retire all previous issues still outstanding and for acquisition of additional properties.

(5) To first offer to present stockholders the 14,000 shares at par, which is about 39% of their present holdings. Any stock not subscribed for will be offered to the public. All stock subscribed and paid for previous to May 29 will carry the quarterly dividend of 2% payable June 1.

Annual Report.—President H. D. Norvell in the annual report says in brief:

Early in 1921 we changed our corporate name [from City Ice Delivery Co.] to City Ice & Fuel Co. During the year two offerings of Capital stock of $300,000 each were made to the stockholders. The entire issue was taken without any public offering, making $3,600,000 outstanding.

Two new plants were completed and an additional plant of 125 tons capacity, besides 3 storage houses, are now nearing completion, increasing the daily capacity to 620 tons and the city storage to 60,000 tons.

The usual 8% div. was declared Dec. 21 last, payable 2% March 1, 2% June 1, 2% Sept. 1 and 2% Dec. 1 1922.

Calendar Years—	1921.	1920.	1919.	1918.
Gross earnings	$4,782,613	$4,821,205	$3,557,769	$2,824,172

a Before deducting dividends. See City Ice Delivery Co. in V. 112, p. 936.

Cleveland Electric Illuminating Co.—*Bonds Called.*—

All of the outstanding $4,853,000 15-Year 7% 1st Mtge. Collat. bonds dated July 1 1920 have been called for payment July 1 at 102 and int. at the Central Union Trust Co. of N. Y. See V. 114, p. 1411.

Coast Valleys Gas & Electric Co.—*Bonds Offered.*—

E. H. Rollins & Sons and Hunter, Dulin & Co., San Francisco, are offering at 96½ and int. $400,000 1st Mtge. 6% bonds, due March 1 1952.

Interest payable M. & S. without deduction for normal Federal income tax up to 2%. Callable at 105 and int. Denom. $1,000.

Purpose.—Proceeds are to be used to redeem on Nov. 1 1922 the $240,000 Collateral Trust 8% notes and to reimburse treasury for part of the cost of recent extensions and betterments.

Earnings.—Gross earnings for year ended March 31 1922 were $633,168 and net earnings were $178,836.—V. 113, p. 2618.

Coca-Cola Co.—*Sales—Earnings—Dividend.*—

It is reported that during April the company sold 1,400,000 gallons and earned approximately $700,000. The regular quarterly dividend of $1 per share has been declared on the Common stock, payable July 1 to holders of record June 15.—V. 114, p. 1895, 951.

Colorado Fuel & Iron Co.—*Quarterly Earnings.*—

—V. 114, p. 1895.

Commonwealth Power Co.—*Listing.*—

The Boston Stock Exchange, May 18, placed on the list "when, as and if issued," Interim Certificates for $12,500,000 25-Year 6% Secured Sinking Fund Gold Bonds, due May 15 1947. See offering in V. 114, p. 2246.

Computing-Tabulating-Recording Co.—*Div. Increased.*

A quarterly dividend of $1 50 has been declared on the outstanding capital stock, no par value, payable July 10 to holders of record June 23. The company has paid quarterly dividends of $1 per share each from Jan. 1918 to April 1922, incl.—V. 114, p. 1895.

Considine-Martin Oil Co.—*New Sub. Co.*—

In order to obtain funds for an intensive drilling campaign on its 3,000 acres of oil lands in Stephens County, Texas, the company has organized a new corporation under the laws of California, to be known as the Texas Consolidated Oil Co. This company intends to issue at once 600,000 shares of stock, par $10, and will exchange share for share with the 400,000 shares of the Considine-Martin stock outstanding.

The entire block of 100,000 shares of new stock, or any part thereof, not taken by the present stockholders has been underwritten by Sutro & Co. of San Francisco at $2 per share.

Stockholders are allowed until June 15 to avail themselves of their rights. —V. 114, p. 1290.

Consolidated Cigar Corp.—*New Directors.*—

James F. Shaw, of Knauth, Nachod & Kuhne, has been elected a director succeeding Edwin Wile. E. H. Clark and Benjamin F. Feiner have also been elected directors to fill vacancies in the board.—V. 114, p. 1185, 951.

Consolidated Textile Corp.—*Listing.*—

The New York Stock Exchange has authorized the listing of 4,013 additional shares of Capital stock, no par value, on official notice of issuance of same upon conversion of its 1st Mtge. 20-Year 8% Sinking Fund Conv. gold bonds, due June 1 1941, and 48,000 shares on official notice of issuance and payment in full, making the total amount applied for 998,757 shares.

The purpose of the additional issue of the 4,013 shares is to make available additional shares of Capital stock for the conversion of Convertible bonds, on account of the reduction in the conversion rate from $35 per share to $33.725 per share, which will occur upon the issue of the 48,000 additional shares.

The directors May 8 1922 authorized the issuance and sale of 48,000 additional shares, the proceeds of which will be used to improve the cash resources of the corporation.—V. 114, p. 1404.

* After giving effect to issue of $2,000,000 new debens. as of Feb. 1 1921. a Represents 200,000 shares of no par value. b Liability disputed subject to counterclaim of $192,425. c Book value. d Value of ore blocked out. e As of March 1 1922, $1,122,000 bonds were converted into 18,700 shares of stock of the Davison Chemical Co.

Note.—The above statement for 1921 does not include contingent liabilities on account of notes receivable discounted amounting to $295,363.

A verdict for $850,000 was rendered by a jury in Common Pleas Court at Cincinnati May 16 in favor of the Davison Sulphur & Phosphate Co. of Cuba, a subsidiary, against the Cienfuegos Palmyra & Cruces Electric Ry. & Power Co. Suit for about $2,000,000 had been filed for alleged failure to carry out a contract to build an electric railway from the interior of Cuba to Cienfuegos, and to furnish power for the operation of sulphur and phosphate mines in Cuba. The suit was filed in Cincinnati because cars were being built there for the defendant company.

It is reported that the company has secured basic patents on silica gel and various processes in which it is used in the United States and in every country in Europe, including Germany. Application has been filed in Washington for 20 more patents covering recent developments of processes, it is said.—V. 114, p. 952, 83.

(E. I.) du Pont de Nemours & Co.—*Listing.*—

The New York Stock Exchange has authorized the listing of (1) $69,521,200 6% Cumul. Non-Voting Debenture stock (auth. $150,000,000, par $100); (2) $63,378,300 Common stock voting (auth. $80,000,000, par $100); (3) $35,000,000 10-Year 7½% gold bonds, due May 1 1931.

Stock Sold.—Dominick & Dominick, New York; Laird & Co., Wilmington, and Gillespie, Meeds & Co., New York, announce that the $2,000,000 Common stock offered by them at $112 50 per share has all been sold. (See advertising pages.) Compare also V. 114, p. 2246.

Edison Electric Illum. Co. of Boston.—*Sales—Earns.*—

Month of—	K.W. Hrs. Elec. Sold— 1922.	1921.	Gross Income— 1922.	1921.

Total	82,185,714	72,130,066	$4,393,688	$4,579,180

—V. 114, p. 2122.

Electric Storage Battery Co.—*Listing.*—

The Stock List Committee of the Phila. Stock Exchange on May 15 admitted to the regular list 795,673 shares of Common stock, no par value.

Transfer agents, Philadelphia Trust Co., Broad and Chestnut streets, Phila. Guaranty Trust Co. of New York. Registrars, Fidelity Trust Co., Phila., and National Bank of Commerce, New York.

The old Common stock, $100 par, will remain on the list until further notice.—V. 114, p. 2122.

Famous Players-Lasky Corp.—*Earnings.*—

The consolidated statement (which includes the earnings of subsidiary companies owned 90% or more) reports for the three months ended April 1 1922 net operating profits of $1,210,251, after deducting all charges and reserves for Federal income and excess profit taxes. After allowing for payment of dividends on the Preferred stock, the above earnings are at the annual rate of $19 82 on the 206,834 shares of Common stock outstanding in the hands of the public. ("Official.")—V. 114, p. 1174.

Ford Motor Co., Detroit.—*Production, &c.*—

The production schedule for June has been advanced to 140,000 vehicles, against which the company has orders for 194,750 cars, trucks and tractors.

An official of the company is quoted as follows: "While present volume of our own wheel production in the Hamilton, O., plant is limited to about 600 sets a day we are planning to expand so that we can eventually make 2,000 sets a day."—V. 114, p. 2246.

Garment Center Realty Co.—*Bonds Called.*—

All of the outstanding 9% mortgage sinking fund gold bonds, Series "A" to "I," inclusive, dated Jan. 10 1921, have been called for payment July 20 at the Columbia Trust Co., 60 Broadway, N. Y. City.

Amounts which will be paid to the holders of the bonds will be as follows: Series "A" and "B," 100½ and int.; Series "C" and "D," 101 and int.; Series "E" and "F," 101¼ and int.; Series "G" and "H," 101½ and int.; Series "I," 102 and int.

Saul Singer is President.—V. 112, p. 1148.

General Baking Co.—*Listing.*—

The New York Stock Exchange has authorized the listing of 88,158 shares of Preferred stock, no par value, and 138,578 shares of Common stock, no par value, with authority to add 11,842 shares of Preferred stock and 11,422 shares of Common stock on official notice of issuance and payment in full, making the total amounts applied for 100,000 shares of Pref. stock and 150,000 shares of Common stock.

The company controls the Kolb Bakery Co., organized in New York, with a capital of $2,000,000 7% Cumul. Pref. stock, and $2,000,000 Common stock (all outstanding). All the Common stock is owned by General Baking Co. and the Preferred stock is being acquired by giving in exchange General Baking Preferred stock. On May 16 $1,758,000 had been so acquired, and steps will be taken to either acquire or redeem the balance of $242,000 of this stock with the ultimate object of merging the property and business of Kolb Bakery Co. with that of General Baking Co.—V. 114, p. 1531, 1186.

General Motors Corp.—*Production.*—

An official statement, May 21, says in substance:

"In April the automobile and truck divisions of this corporation produced and sold approximately 40,000 units, and this total will undoubtedly be exceeded in May. In the first four months of 1922 General Motors plants in the U. S. and Canada produced approximately 115,000 motor vehicles, which more than doubles their production for the corresponding period last year.

The *Chevrolet* is now pushing its production at a rate of 1,000 cars per day. The tremendous increase in the sales of this division is one of the outstanding developments in the automobile trade.

It is interesting to note that even with its great new plants operating at capacity, *Cadillac* is unable to supply the demands of the trade. Cadillac production schedules for the balance of 1922 indicate the largest output ever attained by that division in any one year.

Buick is operating at a rate of production 65% greater than last year and will undoubtedly reach a new high mark in May. *Oldsmobile* reports a retail demand exceeding their production and *Oaklana* shipments for April were practically double the output for that month last year."—V.114,p.2246.

Globe Shipbuilding & Dry Dock Co., Baltimore.—

Under date of May 24 the "Chronicle" was informed that "the affairs of the Globe Shipbuilding & Dry Dock Co. are in the hands of trustees in bankruptcy and the company is in process of liquidation, its property having been recently sold at public auction." [The Maryland Dry Dock Co., it was recently reported, took over the plant of the Globe company on April 1 from H. W. Williams, who purchased it at bankruptcy sale for $1,050,000.] —V. 114, p. 1539.

Gorton-Pew Fisheries Co.—*Receivership.*—

Federal Judge Anderson at Boston May 23 appointed Henry J. Guild, Cambridge, the present Treas., and Arthur J. Santry, Boston, as receivers.

Judge Anderson declared the figures presented at the hearing indicated gross waste on the part of the present management under direction of a creditors' committee. It had been shown that this management had been in operation for nearly two years with a gross loss of $2,700,000.—V. 114, p. 2247, 2122.

Granby Consolidated Mining, Smelting & Power Co., Co., Ltd.—*Listing.*—

The New York Stock Exchange has authorized the listing of $3,000,000 additional Capital stock, par $100, making the total applied for $18,000,420. The directors voted on Mar. 31 last to issue an additional 30,000 shares of the Capital stock at $25 per share, to be paid for as follows: 20%, or $5 per share, payable May 4 1922; 40%, or $10 per share, payable June 2 1922; 40%, or $10 per share, payable July 1 1922 (final payment).

The purpose of the issue is to provide funds for the construction of a storage dam at Anyox, B. C., for the impounding of water for winter use in the present hydro-electric plant at that point. See V. 114, p. 2247.

Great Western Power Co.—*To Issue Pref. Stock.*—

The company has applied to the California RR. Commission for authority to issue $3,873,600 7% Cum. Pref. stock at not less than 90 and accrued dividends. Proceeds, it is stated, are to be used to reimburse the company for expenditures of $3,486,303.—V. 114, p. 2020.

Gruen Watch Co.—*Initial Dividend.*—

An initial quarterly dividend of 43¾c. a share has been declared on the Common stock, no par value, payable June 1 to holders of record May 21. See offering in V. 114, p. 1540.

Gulf Coast Power & Light Co.—*Acquires Property.*—

See Corpus Christi Ry. & Light Co. under "Railroads" above.

Gulf Oil Corp.—*Merger Rumor Denied.*—

Pres. W. L. Mellon has denied the rumor that the Standard Oil Co. of Ind. was negotiating for the purchase of the Gulf corporation.

He is quoted as saying: "That story has appeared several times and denied each time. You can deny it again absolutely, as we are not going to sell out."

The reports stated that the Standard Oil Co. of Ind. has offered 5 shares of Indiana for each share of Gulf, and that the officers of the latter company have been holding out for an exchange on the basis of 8 shares of Indiana for one of Gulf. The Gulf Oil company officials are alleged to have informed the Indiana company that "the stock can be had for $800 a share, take or leave it."—V. 114, p. 1292.

Hartman Corp.—*Stock Sold.*—Hallgarten & Co. and Ames, Emerich & Co. have sold at 87.50 per share flat, yielding 8%, $2,700,000 Capital Stock, par $100. (See advertising pages.)

[This offering is not a new issue but represents a block acquired from interests who retired from active management some years ago.]

Capitalization.—Authorized and outstanding, $12,000,000. Company has no funded debt or Preferred stock.

Company.—Through ownership of entire Capital stock of the Hartman Furniture & Carpet Co. and affiliated companies, is engaged in the sale of household goods, generally on credit. Business was founded in 1888. Present corporation was organized in Virginia in 1916. A large part of the business is done through orders by mail. Company also has 9 large retail stores situated in the principal distributing centres of the Middle West.

Sales & Earnings.—Net sales have increased from $4,500,000 in 1911 to more than $15,000,000 in 1920. In 1921 sales were nearly $11,000,000.

Consolidated net earnings applicable to dividends, after all charges and taxes, increased from $803,000 in 1911 to $1,859,000 in 1920. In 1921 company reported a profit after all charges, including taxes and the writing down of inventories to market, of $373,574.

Dividends.—Company has distributed in dividends since its formation less than 44% of its net earnings. Dividends were inaugurated in 1917 at rate of 5% per annum, and were increased in 1920 to present 7% rate.

Outlook for 1922.—During the first 4 months of the current year sales have increased 7.18% over the corresponding months of 1921, and expenses have decreased 6.34%. Net profits for the year should be substantially in excess of the amount required for the dividend, no reduction of which is anticipated

Listed.—Listed on the New York and Chicago Stock Exchanges.—V. 114, p 1068, 2020.

Hayes Wheel Co., Detroit.—*Stock Div. of 22 2-5%.*—The stockholders on May 18 (*a*) recommended the payment of a 22 2-5% stock dividend, which will increase the number of shares outstanding from 163,332 to 200,000, the total authorized; and (*b*) voted to change the par value of the shares from $10 to no par.—V. 114, p. 2123.

Hershey Chocolate Corporation.—*Tenders.*—The National City Bank of New York, trustee, will until May 29 receive bids for the sale to it of First Lien 7½% 10-year sinking fund gold bonds to an amount sufficient to exhaust $125,010.—V. 114, p. 1896.

Hood Rubber Co.—*Sales.*—

Calendar Years—	1921.	1920.	1919.	1918.
Sales	$23,844,436	$32,867,000	$25,444,016	$22,341,018

Balance sheet Mar. 31 1922 shows: Cash, $1,090,578; acc'ts receivable, $7,144,697; notes payable, $3,585,000; accts. payable, $644,997; surplus, $461,370. Total assets and liabilities, $22,304,114.—V. 114, p. 2123.

Hudson Motor Car Co.—*Initial Dividend.*—An initial dividend of 50 cents has been declared on the new no par shares stock, payable July 1 to holders of record June 20. A dividend of $2 50 per share has also been declared on the old $10 par stock, payable July 1 to holders of record June 20.—V. 114, p. 2020, 1896.

Humphreys Oil Co.—*Initial Dividend—Earnings, &c.*—An initial dividend of 5% has been declared on the outstanding capital stock, par $25, payable June 15 to holders of record May 31.

B. G. Dawes, President of the Pure Oil Co., R. W. McIlvain, Vice-Pres., and W. D. Fairbanks, a director, also of the Pure Oil Co., have been elected directors to represent the Pure Oil Co.'s interest of 25% in the Humphreys Oil Co.

According to preliminary figures net income after all charges, including depreciation and depletion, amounted to $5,300,000 from beginning of company's operations to April 30 last and net current assets totaled about $8,000,000.

An official statement, May 18, says in substance: "During the first 10 days of May the company produced an average of 40,754 barrels daily from the Mexia, Texas, field. While a number of new wells were brought in during this period and in recent previous weeks, an important part of the yield was from ore settled wells. The Humphreys production is now nearly 50% of the Mexia pool's total output.

"With an aggregate of 7,282,757 barrels produced up to May 10 and its yield now at ther rate of more than a million barrels a month, at Mexia, the Humphreys-Pure Oil interest is one of the largest producers of light grade crued in this country."—V. 114, p. 1540.

Illinois Pipe Line Co.—*Dividend Decreased.*—A semi-annual dividend of 6% has been declared on the outstanding $20,000,000 Capital stock (par $100), payable June 30 to holders of record June 2. In June and Dec. 1921 semi-annual dividends of 8% each were paid. This compares with 10% paid in Dec. 1920 and 8% each in June 1920 and in June and Dec. 1919.—V. 114, p. 1292.

International General Electric Co.—*Receives Contract.*—Contracts aggregating $8,000,000 have been placed by Paris-Orleans RR. or 80 freight locomotives and 80 heavy high-speed passenger motor cars as part of the program for the electrification of the main lines with a 1,500-volt direct-current system. This equipment will be furnished by a group of French manufacturers headed by the Compagnie Francaise Thomson-Houston, representatives in France of the International General Electric.—V. 114, p. 1771.

International Paper Co.—*Lease.*—The company has leased two floors of the Pershing Square Bldg. at an annual rental of about $100,000. The space leased will be used as executive offices and possession will be taken in April 1923.—V. 114, p. 2020.

Island Oil & Transport Corp.—*Seeks Independent Comm.*—James Foley, 15 Whitehall St., N. Y., a stockholder, has addressed a circular letter to the stocknolders with a view to organizing an independent stockholders' protective committee. The circular letter reviews the history of the present receivership, together with some of the incidents of the past. It also contains a consolidated balance sheet of Nov. 30 1921, which is admitted to be substantially correct at the present time. The balance sheet shows total assets of $36,320,319 and total liabilities (exclusive of capital stock) of $13,634,819. The circular furtner says:

"The announcement made by the stockholders' committee (V. 114, p. 2247) indicates that a plan of reorganization will be proposed, and it is represented that their plan of reorganization will be substantially as follows, namely:

"The wiping out of unsecured claims and stockholders, and the organizing of a new company, and the present stockholders be invited to subscribe for stock therein at $1 per share, payable 25% down and the balance in installments within the year.

"There appears no proposal to investigate the past financing of the company with a view to locating some assets and the validity of the above settlement in which $3,209,500 of the capital stock of the company was paid out by the representatives of the company in the settlement of said claims."—V. 114, p. 2247.

Jones & Laughlin Steel Co.—*Acquisition.*—The company has concluded the purchase of 437 acres in the Becks Run district, Allegheny County, adjoining other holdings of the company, for $237,975. The acquisition, it is stated, will be used temporarily for dumping slag and othe. refuse from the South Side mills, and later will be utilized for building purposes.—V. 114, p. 1540.

(G. R.) Kinney Co., Inc.—*Listing.*—The New York Stock Exchange has authorized the listing of $2,500,000 15-Year 7½% Secured Gold Coupon Notes, due Dec 1 1936.

Income Account Year Ended Jan. 31 1921.

—V. 114, p. 1897.

Lake Superior District Power Co.—*Bonds Offered.*—Hill, Joiner & Co. (formerly McCoy & Co.), Chicago, are offering at 94¾ and int., to yield about 7%, $1,345,000 1st Mtge. & Ref. 6½% gold bonds, Series "A," dated Jan. 1 1922, due Jan. 1 1942, non-callable prior to Jan. 1 1927. (For further description of bonds see advertisement on another page.)

The company owns an important group of public utility properties operating in northern Wisconsin and upper Michigan. Embraced in the company's territory are the important Gogebic iron range and 21 communities, including and centring around Ashland, Wisc., and Ironwood, Mich., having a present aggregate population of 55,300. Approximately 80% of its earnings is derived from electric light and power.

For the year 1921 its properties earned 1¾ times the annual interest charges on present funded debt, including all bonds of this issue now offered.

In 1921 a controlling interest in the company's properties was acquired by the Middle West Utilities Co. (Further data should appear in another issue.)

Lee Rubber & Tire Co.—*Earnings.*—The company reports for the quarter ending March 31 1922 net earnings of $139,360, against $77,742 last year.—V. 114, p. 1069.

Lord & Taylor (Dept. Stores), N. Y. City.—*Sales, &c.*—See Associated Dry Goods Corporation above.—V. 13, p. 2826.

Lukens Steel Co., Coatesville, Pa.—*Tenders.*—The Bankers Trust Co., as trustee, will until June 8 receive bids for the sale to it of First Mtge. 20-year 8% gold bonds, dated Nov. 1 1920, at a price not exceeding 107½ and interest, and sufficient to exhaust $100,666 now in the sinking fund.—V. 112, p. 2542.

McCrory Stores Corp., N. Y.—*Stock Dividend.*—The directors have declared the usual quarterly dividend of 1% on the Common stock, payable in Common stock June 1 to holders of record May 20. Regular quarterly dividends of 1% each have been paid in stock since March 1921.—V. 114, p. 2124.

Maibohm Motors Co.—*Sale.*—The plant and other property of the company at Sandusky, O., was sold under an order of the United States Court by W. J. Corr, Receiver, May 15, to E. G. Kirby, of Toledo, for $35,000, who it is said acted for the Arrow Manufacturing Co.

The latter company was recently incorporated by local business men to buy in the property in the interest of the creditors.—V. 113, p. 2190.

Manati Sugar Co.—*Temporary Bonds Ready.*—Temporary Frist (closed) Mtge. 20-Year 7½% Sinking Fund gold bonds are now ready to be exchanged for outstanding interim receipts at the Central Union Trust Co. of N. Y. See offering in V. 114, p. 1414, 1772.

Manhattan Shirt Co.—*2½% Stock Dividend.*—A quarterly stock dividend of 2½% has been declared on the outstanding Common stock, par $25, in addition to the regular quarterly cash dividend of 2%, both payable June 1 to holders of record May 16. The company on March 1 last paid on the Common stock a special dividend of 10% and a quarterly dividend of 2½%, both in stock, in addition to a quarterly cash dividend of 2%.—V. 114, p. 859, 635.

Mathieson Alkali Works.—*Dividends Resumed.*—The directors have resumed dividends on the preferred stock by declaring a quarterly disbursement of 1¾%, payable July 1 to holders of record June 20. On April 1 1921 a distribution of 1¾% was paid on the Preferred stock; none since.—V. 114, p. 2247.

Maxwell Motor Corp.—*Earnings.*—President William R. Wilson May 24 says in substance: "The Maxwell Corporation, along with the usual practice of other companies does not intend to make monthly net earnings public. However, on account of the recent adjustment and rehabilitation of its finances and management, an exception is perhaps due at this time, indicative of results accomplished.

"Net earnings of Maxwell, consolidated, for April, after interest and charges, is more than $500.000."—V. 114, p. 1402.

Mayflower-Old Colony Copper Co., Boston.—*Earnings.*—Total receipts for the year ending Dec. 31 1921 amounted to $109,116; total payments, $104,726, leaving a surplus of $4,390.—V. 114, p. 312.

Merchants & Manufacturers Exchange of New York.—*Bonds Sold.*—Tucker, Anthony & Co., Otis & Co. and

Wm. Henry Barnum & Co. have sold at 99¾ and int., to yield over 7%, 20-Year Sinking Fund (Closed) Mortgage 7% gold bonds (see advertising pages).

Dated June 1 1922. Due June 1 1942. Int. payable J. & D. Denom. $1,000, $500 and $100 (c*). Red. in whole or in part for sinking fund at 105 to and incl. June 1 1932; at 104 to and incl. June 1 1937, and at 103 thereafter until maturity (incl. int.). Company agrees to pay normal Federal income tax up to 2% and to refund Penn. 4-mill tax. New York Trust Co., New York, trustee.

Security.—Secured by a closed mortgage on the leasehold covering the block extending from Park Ave. to Lexington Ave. between 46th and 47th streets, N. Y. City, and the present building thereon, known as Grand Central Palace, together with an adjoining 20-story office building to be known as the Park Avenue Annex, facing on Park Ave., to be constructed immediately.

This mortgage will be the first and only lien on the leasehold covering the and and buildings, and no lien, except taxes, can be created ranking prior to or equally with it during the life of any of these bonds. The lease, which contains very favorable terms, extends, with renewal privileges, until 1985.

Appraisal.—The leasehold and buildings, including the Annex at less than the contract cost, have been appraised by Douglas L. Elliman & Co. as having sound values in excess of $9,000,000 as of April 21 1922.

Income.—The present net income from existing contracts in the Grand Central Palace alone, for the year ending Dec. 31 1922, is in excess of total interest and sinking fund requirements of $257,500.

Estimated net income from the total property after completion of the Park Avenue Annex, available for int. and sinking fund charges, is $946,330, or 3½ times such charges.

Buildings.—The buildings will have their main entrance on Park Ave. within 400 ft. of the Grand Central Terminal. The Grand Central zone, with its railway terminal facilities and its ease of access by subway, elevated and surface lines, is assured of its permanence as a business and shopping center of New York City.

Purpose.—From the proceeds of this issue a 20-story office building will be constructed at an estimated cost of $2,000,000 and certain alterations will be made in the Grand Central Palace.

Sinking Fund.—A cumulative sinking fund, sufficient to redeem the entire issue by maturity through semi-annual purchase or redemption of bonds, will begin to operate immediately.

Mississippi Valley Power Co.—*Bonds Offered.*—H. M. Byllesby & Co. are offering at 91 and int., to yield about 6¾%, $400,000 1st Mtge. 6% gold bonds, Series "A," A circular shows:

Dated May 1 1922. Due May 1 1947, but red. all or part on 30 days. notice; during first 5 years at 105, and thereafter at 1% less for each succeeding five-year period, except that for the last 6 months prior to maturity, bonds may be red. at 100. Int. payable M. & N. at Continental & Commercial Trust & Savings Bank, Chicago, trustee, and First National Bank, New York, without deduction for normal Federal income tax, not in excess of 2%. Penn. 4 mills tax refunded. Denom. $1,000, $500 and $100 (c*).

Guaranty.—Guaranteed, principal, interest and sinking fund, by Fort Smith Light & Traction Co.

Company.—Incorp. in Arkansas. Will acquire approximately 60 miles of 33,000 and 13,200 volt transmission lines from Aima, Ark., to Clarksville, Ark., and Paris, Ark. Will also acquire distribution systems at Alma, Dyer, Mulberry, Ozark, Webb City, Altus, Denning, Alix, Hartman, Lamar and Spadra, all in Arkansas. Coal Hill and Clarksville will be served on a wholesale basis. In addition, the company will acquire lateral pole lines serving intermediate coal mining districts. Power will be purchased under a favorable 25-year contract from Fort Smith Light & Traction Co.

Earnings.—Net earnings of properties to be acquired for the 12 months ended Dec. 31 1921 were more than 1¾ times annual interest charge on this issue.

Capitalization Outstanding Upon Completion of Present Financing.

First Mortgage gold bonds, 6%, Series "A," due May 1 1947	$400,000
Gold notes, 6%, Series "A," due serially 1928 to 1932	50,000
Preferred stock ($100 par)	50,000

Moon Motor Car Co., St. Louis, Mo.—*Stock Sold.*—Lage Brothers & Co., New York, and Wm. H. Colvin & Co., Chicago, have sold at $9 50 per share 60,000 shares (no par value) Common stock.

Data from Letter of Pres. S. McDonald, St. Louis, Mo., May 3.

Company.—Organized in 1916 in Del. and took over, without change in ownership or property, the Moon Motor Car Co. of Mo., which was organized in 1907. Owns property in St. Louis. Buildings contain approximately 225,000 sq. ft. floor space and additional adjacent real estate is also owned in fee for suitable expansion. Present production 30 cars a day. Cars are distributed through approximately 360 dealers. The Moon car has also an export trade.

In addition to the regular line of cars the company has brought out this year a light six selling for $1,295, which has met with particular favor in the trade. The company is at present operating on a schedule of 5,110 cars for the calendar year. The production schedule for May is 578 cars. The sales for 1922 are estimated at $6,500,000, with an estimated profit of $415,000.

Earnings.—For the years 1919, 1920 and 1921 sales have averaged $3,600,000 per annum, the average number of cars produced being 2,100. Earnings before depreciation and taxes for 1919, 1920 and 1921 have been $549,745, or an average of $183,248 for three years. In 1921 company suffered very little shrinkage in business over the previous year and operated at a substantial profit.

New England Telephone & Telegraph Co.—*Bonds Sold.*—The bankers named below have sold at 97½ and int., to yield about 5.15%, $35,000,000 1st Mtge. 30-Year 5% Gold Bonds Series A.

Dated June 1 1922, due June 1 1952. Interest payable J. & D. in New York or Boston. Denom. $1,000, $500 and $100 (c*&r*). Registered bonds in denom. of $1,000, $5 000 and $10,000. Red. as a whole only on June 1 1949 or on any int. date thereafter, upon 60 days' notice, at par and interest. First National Bank, Boston, trustee.

Bankers Making Offering.—J. P. Morgan & Co., Kuhn, Loeb & Co., Kidder, Peabody & Co. First National Bank, N. Y., National City Co., N. Y.; Bankers Trust Co., Guaranty Co of New York, Harris, Forbes & Co and Lee, Higginson & Co.

Listing.—Bonds have been listed on the New York Stock Exchange "when issued."

Data from Letter of Pres. Matt B. Jones, Boston, Mass., May 24.

Purpose.—Approximately one-half of the proceeds of the sale will be used to pay for additions and betterments and the remainder will be applied to the repayment of advances theretofore made for such purposes to the company by American Telephone & Telegraph Co., which owns over 57% of the $66,472,700 outstanding Capital stock.

Company.—Incorp. in New York. With its subsidiary and connecting companies it operates telephone and telegraph lines in the States of Maine, New Hampshire, Vermont, Mass. and Rhode Island. Population, estimated, 6,000,000. On April 30 1922 there were 967,706 stations of the Bell system operated directly by the company and its local connecting companies, or more than 99% of all telephone stations in the States named.

Year Ended Dec. 31.	*Gross Revenues.*	*x Total Income.*	*Interest Charges.*	*Net Income.*

x After deducting oper. exp., Federal taxes and other taxes, rentals and miscellaneous income charge.

y Increase over year previous represents interest charges on advances made by the American Tel. & Tel. Co., which advances will be repaid out of the proceeds of the sale of the present issue.

Security.—Bonds are to be issued under a first mortgage covering all the real estate and other property, other than securities now owned or hereafter acquired in Maine, New Hampshire, Massachusetts and Rhode Island, and also all shares (except directors' qualifying shares) of stocks of New England Telephone & Telegraph Co. of Mass., Providence Telephone Co. of Mass., Southern Mass. Telephone Co. and Massachusetts Tel. & Tel. Co. The first mortgage is to secure ratably with the Series A bonds and other bonds issuable thereunder, the outstanding $1,000,000 4% debentures of 1900, due in 1930 and the $10,000,000 5% bonds of 1912, due in 1932.—V. 114, p. 2022.

New York State Realty & Terminal Co.—*Bonds Offered.*—J. P. Morgan & Co., First National Bank and National City Co., New York, are offering at prices ranging from 99.83 and interest to 94.70 and interest, to yield from 5% to 5½%, according to maturity, $2,475,000 4½% Mtge. gold bonds.

Dated Oct. 1 1916, due serially Oct. 1 1922 to 1928. Int. payable A. & O. Denom. $1,000 (c*&r*) or authorized multiples thereof. Authorized and issued, $3,400,000 matured and cancelled, $925,000, outstanding, $2,475,000. Guaranty Trust Co., New York, trustee.

Data from Letter of Pres. A. H. Smith, New York, May 24.

Company.—All the capital stock is owned by or in the interest of New York Central RR. Was organized in part for the purpose of improving with commercial or dwelling structures the surface of property in the Grand Central Terminal, the sub-surface of which is used for railroad and terminal purposes.

Security.—As security for these bonds the company has mortgaged to the trustee all its rights and interests under certain leases and contracts in respect of the property in N. Y. City bounded by 47th and 48th streets and Park and Madison avenues, such leases and contracts being:

(1) A lease dated July 12 1916 to company from New York Central RR. and New York New Haven & Hartford RR. jointly leasing the above property (excepting portions of the sub-surface included in the terminal system of the lessors) for the term of 21 years with renewals.

(2) Two leases by the company to the Vanderbilt Ave. Realty Corp., each for the term of 21 years and renewals.

(3) An agreement by New York Central RR. and New York New Haven & Hartford RR. with the company, whereby the railroad companies jointly and severally have covenanted to pay to the company any deficiency between certain rental income and certain specified sums, which sums exceed the amounts required to pay, as they accrue, the interest installments and serial principal maturities of the entire issue of these bonds.

Property, &c.—Pursuant to agreements made by company with the Vanderbilt Ave. Realty Corp., there has been constructed on the above property the 12-story apartment house known as No. 270 Park Ave., at an aggregate cost of over $4,868,000. Of such cost company provided $3,308,000, through the issue of these bonds, of which over one-fourth have been paid off as they matured. The Vanderbilt Ave. Realty Corp. provided the remaining sum.

Under the above leases the Vanderbilt Ave. Realty Corp. assumes all maintenance and upkeep charges on the leased property, including insurance and taxes on the buildings, and agrees to pay to the Terminal company $477,700 per annum, free and clear of all expenses. This rental, which commenced Oct. 1 1918, is more than sufficient to provide for interest on, and the serial principal maturities of, these bonds.

Additional Offering of Bonds.—The same bankers are offering at prices to yield from 99.09% to 96.21%, according to maturity, $1,000,000 5% Mtge. gold bonds.

Dated May 1 1922, due serially May 1 1924 to 1932. Int. payable M. & N. Denom. $1,000 (c*&r*), $1,000 or authorized multiples thereof. Guaranty Trust Co. of New York, trustee.

Security.—Company has mortgaged to the trustee all its rights and interests under certain grants, leases and contracts in respect of the property in N. Y. City, known as 385 Madison Ave., being the northerly one-half of the block bounded by Madison Ave., Vanderbilt Ave. if extended, 46th and 47th streets, viz.

(1) A grant to the company by the New York & Harlem RR. and New York Central RR. in this property (excepting portions of the sub-surfaces included in the terminal system) for the term of 21 years with renewals.

(2) A lease for a like period by the company to 385 Madison Ave., Inc., which company is constructing the building mentioned below.

(3) An agreement by New York Central RR. and New York New Haven & Hartford RR. with the Terminal Co., whereby the railroad companies jointly and severally have covenanted to pay to the Terminal Co. any deficiency between certain rental income and certain specified sums, which sums exceed the amounts required to pay, as they accrue, the interest installments and serial principal maturities of the entire issue of these bonds.

Property.—Pursuant to agreement made by the company with 385 Madison Ave., Inc., there is being constructed on the above property a 12-story building designed for use for stores, offices and showrooms, of an estimated cost of $1,800,000. Of such cost, the Terminal Co. is providing $1,000,000, through the issue of these bonds. 385 Madison Ave., Inc., is to provide the remaining sum.

Under the above mentioned lease, to the 385 Madison Ave., Inc., that corporation assumes all maintenance and upkeep charges on the leased property, including insurance and taxes on the buildings, and agrees to pay to the Terminal Co. a rental (which commenced May 1 1922), more than sufficient to provide for int. on, and the serial principal maturities of, these bonds.

North American Co.—*Increases Cash Div. on Com. Stock.*—A quarterly dividend of 2½% (in cash) has been declared on the Common stock, payable July 1 to holders of record June 5. In April last, paid on the Common stock a quarterly dividend of 2½%, of which 1½% was in cash and 1% in Preferred stock. The statement issued by the company Feb. 28 stated that "the 1% payable in Preferred stock was not an extra dividend and the company expects to maintain dividends on its Common stock at the rate of at least 2½% quarterly in the future."

The company in Oct. 1921 and in Jan. last paid dividends of 1½% each in cash on the Common stock. This compares with dividends paid at the rate of 5% per annum (1¼% quarterly) from 1910 to July 1921, incl., on the old capital stock.

Earnings.—For the 12 months ended April 30 the company and its subsidiaries report a balance for depreciation, dividends and surplus of $7,582,477, an increase of 31.79% over the 12 months ended April 30 1921. These figures include the North American porportion of the earnings of the Cleveland Electric Illuminating Co. for April only. Gross earnings for the 12 months ended April 30 last show a slight decrease but substantial economies in operating expenses resulted in a large increase in net income from operations.—V. 114, p. 1898, 1660.

Northern Iowa Gas & Electric Co.—*Capital Increase.*—It was recently reported that this company increased its authorized capital stock from $1,000,000 to $3,000,000.

Ohio Oil Co.—*Extra Dividend of 75 Cents.*—The directors have declared an extra dividend of 75 cents per share on the stock in addition to the regular quarterly dividend of $1 25 per share, both payable June 30 to holders of record May 31. Extra disbursements have been made as follows: March 1922 and Dec. 1921, $1 75 each; Sept. 1921, none; June 1921, $1 25; March 1921, $2 75; Sept. and Dec. 1 1920, $4 75 each; March and June 1920, $2 75 each; Dec. 1919, $4 75; Sept. 1919, $2 75; March 1916 to June 1919, inclusive, $4 75 quarterly.—V. 114, p. 1772, 1542.

Pacific Light & Power Co.—*Tenders.*—
The U. S. Mtge. & Trust Co., as trustee, will until June 8 receive bids for the sale to it of First & Ref. Mtge. 5% bonds, due Sept. 1 1951, to an amount sufficient to exhaust $1,990,000.—V. 114, p. 1070.

Pacific Telephone & Telegraph Co.—*Listing.*—
The New York Stock Exchange has authorized the listing on or after July 1 1922 of $25,000,000 additional 6% Cumul. Pref. stock, par $100 upon official notice of issuance and payment in full, making the total applied for $57,000,000.
The stock for the listing of which this application is made was offered to stockholders. See V. 114, p. 2022, 1898.

Parsons (W. Va.) Pulp & Lumber Co.—*Receiver.*—
U. S. District Judge Thompson May 19 appointed Arthur J. Stevens (Pres.) receiver. Company, it is said, owns extensive timber lands, lumber mills, pulp mills and logging railroads in Virginia, West Virginia and North Carolina. Receivership was a friendly one and joined by all of the larger creditors.—V. 99, p. 1377.

Pennsylvania Water & Power Co.—*Listing.*—
The London Stock Exchange has granted an official quotation to $245,000 additional First Mtge. sinking fund 5% gold bonds, due 1940, making the total amount of said bonds listed May 12, $10,639,000.—V. 114, p. 955.

Philadelphia Electric Co.—*Permanent Bonds Ready.*—
Permanent engraved 1st Lien & Ref. Mtge. gold bonds, 6% series, due 1941, are now ready for delivery at the office of Drexel & Co., Phila., in exchange for interim certificates.—V. 114, p. 2248.

Philadelphia Suburban Gas & Electric Co.—*Bonds Sold.*—Stroud & Co., Inc., and Bioren & Co. announce the sale of $700,000 Gen. Mtge. 6% gold bonds at 95 and int., to yield 6.35%. (See advertising pages.)

Dated Dec. 1 1919. Due Dec. 1 1969, but red. all or part on any int. date upon 30 days' notice at 105 and int. Denom. $500 and $1,000 (c*). Fidelity Trust Co., Phila., trustee. Company will pay int. without deduction of the normal Federal income tax payable up to 2%. Free of Penn. 4-mill tax.
Guaranty.—Guaranteed prin. and int. by endorsement by the American Gas Co.
Company owns and operates electric and gas properties serving the greater part of the suburban territory adjacent to the City of Philadelphia, including one of the greatest industrial centres of the State of Pennsylvania. Has 3 electric generating stations with a combined capacity of 15,000 h. p., and 7 gas plants with a daily capacity of 11,075,000 cu. ft. of gas, serving over 57,000 customers representing a population estimated at 500,000.
Earnings.—Gross earnings for the year ended April 30 1922 amounted to $3,954,344, and net earnings amounted to $1,235,133, or equal to over twice the annual interest requirements on the total bonded debt outstanding with the public, including the present issue.
This offering brings the total Gen. Mtge. 6s outstanding up to $2,700,000.
Purpose.—To provide funds for general corporate purposes. For original offering see V. 114, p. 1660, 1773.

Phillips Petroleum Co.—*Bonds Sold.*—Dominick & Dominick have sold at 103 to yield about 7.05% $600,000 10-Year 7½% Gold Debenture bonds (without stock warrants) being a part of the outstanding $3,500,000 bonds in the hands of the public. (See advertising pages.)

These bonds are dated Oct. 1 1921, and become due Oct. 1 1931. The bonds constitute the only funded debt of the company. The market equity of the outstanding 660,000 shares of Common stock is approximately $31,000,000.
Company's net earnings, after taxes but before depletion and depreciation, are at present at the rate of $10,000,000 per annum, which is over 16 times the maximum annual interest and sinking fund charges on these bonds and nearly 3 times the principal amount of bonds outstanding. (See original offering in V. 113, p. 1583.)
During the week ended May 20 the company brought in 8 new wells in various sections of Oklahoma and Kansas, the total flow from all being 4,664 bbls. a day. This brings the company's gross oil production, including some partnerships, up to between 29,000 and 30,000 bbls. a day.—V. 114, p. 2249.

Piggly Wiggly Stores, Inc.—*Stock Offered—Earnings.*—
The stockholders were recently given the rights to subscribe to 50,000 shares of Class "A" Common stock (no par) at $43 per share, $35 of which is to be credited to capital account and $8 to special surplus fund. This will bring the total number of shares outstanding to 200,000.

Earnings for the Quarter ending March 31 1922.

Sales, $6,701,803; cost of goods sold, $5,567,060; gross profits	$1,134,743
Other income	42,821
Gross income	$1,177,564
Operating expenses, $739,934; gen. & adm. exp., $83,431	823,365
Depreciation, $61,044; int. paid, $7,252; miscell., $22,620	90,916
Profits for three months	$263,283

Net earnings after all charges and depreciation for April amounted to approximately $97,000; for March, $104,000; for February, $87,000, and for January, $72,000, making a total for the four months ending April 30 1922 of approximately $360,000.
The company now has operating about 350 stores and has leases on approximately 100 additional store buildings which are to be occupied for business within the next two months. The company expects to have more than 600 stores operating by Dec. 31 1922.—V. 114, p. 1773.

—V. 113, p. 858.

Producers & Refiners Corp.—*Acquisition.*—
The corporation has acquired control of the Lyons Petroleum Co., assuming management of its properties and completely reorganizing the company. The Lyons company owns and controls oil and has leases covering 33,000 acres upon which there are 72 producing oil wells, having a daily production of 5,300 barrels. The Lyons company was incorp. in Dec. 1919. By this deal, Producers & Refiners materially augments its already substantial crude oil production and oil reserves.—V. 114, p. 2249.

Providence (R. I.) Gas Co.—*Definitive Bonds Ready.*—
Holders of temporary 1st Mtge. gold bonds, Series "A," may now exchange the same for definitive bonds at the Rhode Island Hospital Trust Co. See offering in V. 114, p. 86, 530.

Public Service Co. of No. Illinois.—*Bond Issue.*—
The company has applied to the Illinois Commerce Commission for authority to issue $7,000,000 1st Lien & Ref. Mtge. 5½% gold bonds. —V. 114, p. 2125, 2249.

Punta Alegre Sugar Co.—*Financing Report.*—
The company is reported to be considering some new financing to increase working capital.—V. 114, p. 2125.

Quaker Oats Co.—*Resumes Common Dividend.*—
The directors May 23 declared a quarterly dividend of 2% on the outstanding $11,250,000 Common stock, par $100, payable July 15 to holders of record July 1. On April 15 1921 a quarterly distribution of 1½% was made on the Common stock; none since.
The regular quarterly dividend of 1½% has also been declared on the Preferred stock, payable Aug. 31 to holders of record Aug. 1.
John Stuart has been elected President, succeeding Henry P. Crowell, who has been elected Chairman.—V. 114, p. 945, 860.

Rand Mines Co.—*Earnings.*—
The company reports for the year ending Dec. 31 1921 net profits of £518,671.—V. 114, p. 2249, 2023.

Remington Typewriter Co.—*New President, &c.*—
Frank N. Kondolf has been elected Chairman of the board and B. L. Winchell as President. This action was taken at the request of Mr. Kondolf, who for some time has sought to be relieved of the active management of the company, and who accepted the Presidency this year with the understanding that he would be required to serve only until a suitable successor could be found. Mr. Winchell was formerly President of the Rock Island lines, the St. Louis & San Francisco RR. Co.; also director of Traffic Union Pacific System, and, during the war, was Regional Director of Railroads in the South with headquarters at Atlanta, Ga.—V. 114, p. 2249, 2125.

Reynolds Spring Co.—*Listing.*—
The New York Stock Exchange has authorized the listing of 73,500 shares of Common stock, no par value.

Gross Sales, Earnings, &c., Calendar Years.

	Gross Sales.	*Net Profit.*	*Deprec'n.*	*Fed. Tax.*
1919	$918,209	$85,916	$16,809	None
1920	2,488,289	104,293	30,753	$8,754
1921	1,082,077	137,860	40,973	7,590
1922 (4 months)	283,313	41,856	7,235	-----

The Detroit Stock Exchange has admitted to the list the outstanding $477,800 Pref. "A" stock of an authorized issue of $2,000,000. The stock pays 7% per annum, payable quarterly.—V. 114, p. 2125.

Riordon Co., Ltd.—*May Reorganize.*—
Montreal dispatches state that a reorganization of the company will likely be the subject of an announcement within a short time. A statement from the creditors' committee, which will precede it, should indicate that the company is liquidating its inventory somewhat faster and more profitably than had been anticipated, and is also likely to intimate that negotiations are under way for the disposal of certain of the company's limits. —V. 114, p. 1416, 86.

Royal Typewriter Co., Inc.—*To Liquidate Accumulated Dividends on Preferred Stock.*—
The stockholders will vote June 9 (*a*) on issuing 42,323⅛ shares of Common stock, no par value, in exchange for 42,323⅛ shares of the present Common stock, par $100; and (*b*) on issuing 92,358⅛ shares of Common stock, no par value, in liquidation of the $2,308,971 88 dividends on the Preferred stock, which will be accumulated and unpaid on July 17 1922, at the rate of one share of Common stock in place of each $25 of accumulated and unpaid dividends.—V. 98, p. 241.

Salt Creek Consolidated Oil Co.—*Report.*—
President James Owen, Denver, Colo., May 16, says in substance:
"Since May 1921 the company has carried on an extensive amount of development work upon its Salt Creek acreage, so that at the present time there are approximately 60 producing wells in the first and second Wall Creek sands. Under the present pro-rating of runs, the company is only delivering between 5,000 and 6,000 barrels daily, although our interest in the production of these wells if operated to capacity, would amount to over 15,000 barrels daily. Even with the present curtailed production and at the present price of oil, the earnings are sufficient to continue dividends at the present rate and to maintain a fair surplus for development purposes.
"The company has just acquired 425 acres additional land in the proven area of the Salt Creek field, in exchange for 100,000 shares of stock. This, together with the other acreage acquired during the year, increases the number of shares of stock outstanding to 1,270,950, par $10. The company is now interested in about 3,200 acres in the Salt Creek field and has a net interest of approximately 2,300 acres.
"The initial dividend of 2½ cents, or 25 cents per share, was paid May 1 to holders of record April 20."

Balance Sheet Feb. 28 1922 and April 30 1921.

Assets—	*Feb.* 28'22. $	*Apr.*30'21. $	*Liabilities*—	*Feb.* 28'22. $	*Apr.*30'21. $

Salt Lake Pressed Brick Co., Salt Lake City.—*Bonds Offered.*—Bankers Trust Co., Denver, are offering at par and int. $400,000 1st (Closed) Mtge. Serial Gold 7½s.

Dated May 1 1922. Due serially, May 1 1928 to 1937. Int. payable M. & N. without deduction for normal Federal income tax, not to exceed 2% at Halloran-Judge Trust Co., Salt Lake City, Utah, trustee, or Bankers Trust Co., Denver, Colo., or Guaranty Trust Co., New York. Denom. $100, $500 and $1,000.
The bonds are unconditionally guaranteed by endorsement on each bond by John P. Cahoon and George B. Curley.
Security.—These bonds are secured by a first (closed) mortgage on the property. Company operates a large, modern plant, organized at Salt Lake City in 1891, manufacturing brick, tile and other clay products.
For the year ended Dec. 31 1921, earnings available for interest charges on this issue were approximately 3 times the interest requirements.

(G. A.) Soden & Co.—*Capital Decreased.*—
The company has decreased its authorized capital stock from $1,600,000 to $1,520,000.—V. 114, p. 2125.

Southern California Edison Co.—*Stock Rights.*—
The stockholders are given the right to subscribe for 50,000 shares of Common stock at $102 a share, payable in cash or $103 a share payable $5 per month per share until the full price is paid.

Stockholders of record May 15 are given the privilege of subscribing at the rate of one share for every share of stock now owned, but the company reserves right to allot such number of shares only as represents his pro rata portion of the entire issue of 50,000 shares.

Subscriptions will be received at Bankers Trust Co., New York; E. H. Rollins & Son, Boston; Harris Trust & Savings Bank, Chicago, or the securities department of the company in Los Angeles. Any portion of the issue not subscribed by stockholders prior to the close of business June 5 next will be offered for sale to the public.—V. 114, p. 2249.

Standard Oil Co. of Indiana.—*New Directors.*—

R. H. McElroy and Edward J. Bullock have been elected directors. Thomas J. Thompson succeeds Henry S. Morton as a director.—V. 114, p. 2249.

Standard Oil Co. of Ky.—*Dividend Rate Increased.*—

A dividend of 4% has been declared on the new stock, par $25, payable July 1 to holders of record June 15. This compares with dividdends of 3% each paid quarterly from July 1917 to April 1922 on the old $100 stock, which was exchanged early in April on the basis of 4 shares of new $25 par stock for each $100 share held. The stockholders in April last also received a 33 1-3% stock dividend. Compare V. 114, p. 1543.

Stewart-Warner Speedometer Corp.—*Bonds Called.*—

All of the outstanding Convertible gold bonds, due March 1 1926, have been called for payment Sept. 1 at 104 and int.—V. 114, p. 1774.

Tennessee Eastern Electric Co.—*Bonds Offered.*—

Charles H. Gilman & Co., Portland, Me., and Merrill Trust Co., Bangor, Me., are offering a block of 1st Mtge. 5% gold bonds of 1913, due Feb. 1 1943. A circular shows:

Capitalization Outstanding After Completion of This Financing

First Mortgage bonds (authorized $3,000,000)	$1,377,000
Preferred stock, 6% Cumulative	600,000
Common stock	1,000,000

Company.—Incorp. in Mass. Does entire electric light and commercial power business of Johnson City, Jonesboro and Greeneville, Tenn. Population about 20,000. Also controls Johnson City Traction Corp. through ownership of its entire capital stock and debt, all of which, except directors' shares, have been deposited under this mortgage.

Property includes modern concrete dam and hydro-electric station on the Nolichucky River near Greeneville, Tenn. This plant was designed and built for an ultimate capacity of 10,000 k. w. To meet the increasing demand for power, company is now constructing a new and modern steam turbine auxiliary station of 2,100 k. w. capacity near Johnson City and one new hydro-electric unit is also being installed at the dam.

Johnson City Traction Corp. operates 5.85 miles of street railway line in and about Johnson City.

Purpose.—Proceeds are to be used for paying for improvements now being made.

Combined Earnings, Years ended March 31.

	1921.	1922.
Gross earnings	$258,513	$288,088
Net, after operating expenses and taxes	$153,477	$173,729
Interest on $1,377,000 bonds as above		68,850
Balance		$104,879

—V. 98, p. 156; V. 95, p. 116.

Texas Consolidated Oil Co.—*Organized.*—

See Considine Martin Oil Co. above.

Union Electric Lt. & Power Co., St. Louis.—*Bonds.*—

The Missouri P. S. Commission has authorized the company to issue $600,000 5% bonds due May 1 1933.—V. 114, p. 1417.

Union Oil Co., Calif.—*Bonds Sold.*—

Blair & Co., Inc., Wm. R. Staats Co., Dillon, Read & Co., First Securities Co., and Bond & Goodwin & Tucker, Inc., announce the over-subscription of $10,000,000 20-year non-callable 6% gold bonds. Dated May 1 1922, due May 1 1942. An advertisement appeared as a matter of record in last week's "Chronicle," p. xxxvii. See also V. 114, p. 2024, 2250.

United Producers' Corp.—*Tenders.*—

The Coal & Iron National Bank, trustee, will until June 20 receive bids for the sale to it of 10-Year 1st Lien gold 8% and Participating Sinking Fund Production bonds sufficient to exhaust $80,000. With this additional call, redemptions will total $250,000, leaving $1,650,000 outstanding.—V. 114, p. 1544, 1296.

United Shoe Machinery Corp.—*Govt. Objects.*—

Vigorous objection by the Government to modifications of the decree entered against the company and its affiliated companies by the U. S. District Court at St. Louis was expressed in a brief filed May 24 by the Government in the U. S. Supreme Court in answer to a petition of the company seeking modifications.—V. 114, p. 2250.

United States Hoffman Machinery Corp.—*Listing*—

The N. Y. Stock Exchange has authorized the listing of temporary voting trust certificates for 69,500 shares Common stock without par value, with authority to add voting trust certificates for 7,500 shares upon official notice of conversion in pursuance of stock rights attached to debentures, and with further authority to add voting trust certificates for 73,000 shares on official notice of proper distribution.

Income for 4 months ended April 30 1922 shows: Sales, $1,444,559; less returns, $139,131; net sales, $1,305,427; cost of sales, $510,612; selling administrative and general expense, $444,616; balance, $350,198; other income, $43,058; gross income, $393,256; miscellaneous income charges, $102,812; net income before interest, amortization and Federal taxes, $290,444.—V. 114, p. 1662.

United Steamship Co., Ltd., of Copenhagen.—*Bonds Offered.*—

Brown Brothers & Co. and Lee, Higginson & Co. are offering at 95¼ and int., to yield 6½%, $5,000,000 15-Year 6% Sinking Fund bonds (see advertising pages).

Dated May 1 1922, due May 1 1937. Denom. $500 and $1,000 (c*). Principal and int. (M. & N.), payable at office of Brown Brothers & Co., New York, fiscal agents of the loan, in U. S. dollars, exempt from all Danish taxes. Red. at any time, as a whole only, at 105 and accrued int. Columbia Trust Co., New York, trustee.

Sinking Fund.—Annual sinking fund beginning May 1 1925 equal to 1-12 of the par amount of bonds issued to be applied to purchase of bonds, if obtainable, at not exceeding par and int.; any unexpended balance of such fund on Dec. 31 of each year shall revert to the company.

Information Furnished Bankers by Kay Reinhard, Pres. of the Company, Copenhagen.

Company.—Organized in 1866. Is by far the largest of the Danish steamship lines and one of the leading shipping companies in Continental Europe. Owns and operates the Scandinavian-American Line which has regular passenger and freight services from New York and other American ports to Copenhagen. Also maintains important routes from Copenhagen to most of the leading ports of Europe, Argentina and North Africa. Has a fleet of 113 vessels including two large Diesel motor ships in addition to 100 barges and lighters. This fleet aggregates 208,000 gross tons (British measurement) and the total funded debt, if calculated against the fleet alone without reference to docks, real estate and other assets, would figure at only $25 per gross ton.

Debt.—These bonds together with a small issue of debentures maturing in 1926 and certain real estate mortgages constitute the sole funded debt of the company. All the vessels owned by the company are entirely free from mortgage lien and the company agrees that no mortgage shall be created as long as any of the present issue of bonds are outstanding.

Cal. Yrs.	*Net Earns.*	*Cal. Yrs.*	*Net Earns.*	*Cal. Yrs.*	*Net Earns.*
1909	$1,064,000	1914	$2,391,000	1918	$10,034,000
1910	1,227,000	1915	8,241,000	1919	18,698,000

1912	1,873,000	1917	6,344,000	1921	3,325,000
1913	2,246,000				

Note.—Kroner are converted into dollars at par of exchange—$0.268, the present rate being about $0.21.

Assets.—After giving effect of the present financing to the balance sheet as of Dec. 31 1921 the company had net assets of more than $20,000,000 at the par of exchange, which is equivalent to over 4 times the amount of this issue of bonds.

Purpose.—Proceeds are to be used to provide for the requirements of the company's program of ship construction in the current year and in 1923.

Listing.—Application will be made to list the bonds on the New York Stock Exchange.

United Verde Copper Co.—*To Resume.*—

It is reported that the company will resume operations before the close of the month.—V. 112, p. 661.

Utah Copper Co.—*New Manager.*—

Louis S. Cates has been named General Manager, effective May 1, succeeding R. C. Gemmell, who will continue as assistant to Managing Director D. C. Jackling. Mr. Cates will continue his duties as director and assistant secretary.—V. 114, p. 2126.

Virginia-Carolina Chemical Co.—*Bonds Listed.*—

The N. Y. Stock Exchange has admitted to trading $22,500,000 1st Mtge. 7% S. F. gold bonds, series A, due June 1 1947, "when issued." See offering in V. 114, p. 2251.

Virginia Iron, Coal & Coke Co.—*Initial Dividend.*—

The directors have declared an initial dividend of 2½% on the 5% Cumulative Preferred stock distributed Feb. 15 as a 50% stock dividend on the $10,000,000 of stock then outstanding.—V. 114, p. 1900, 1402.

Western Canada Pulp & Paper Co.—*Sale.*—

The sale of the property has been ordered by the Supreme Court at Vancouver. Sale is set for June 15 next.

Robert Scott Jamieson was appointed receiver March 24 last.—V. 114, p. 2127, 1544.

Western Electric Co., Inc.—*Listing.*—

The N. Y. Stock Exchange has authorized the listing of $3,552,400 7% Cum. Pref. stock, with authority to add $25,047,600 additional on official notice of issuance upon conversion of its present outstanding 5-year 7% Conv. Gold bonds, due April 1 1925, or on official notice of issuance and payment in full, making the total applied for $28,600,000.—V. 114, p. 1544, 1418.

Wisconsin Edison Co., Inc., N.Y.—*Smaller Dividend.*—

A dividend of $1 per share has been declared on the outstanding 215,000 shares of Capital stock, no par value, payable June 30 to holders of record June 5. This compares with $2 50 per share paid in Dec. last; $1 in June 1921; $1 50 in Dec. 1920; $1 in June 1920; $3 in Dec. 1919, and $1 per share in July 1919.—V. 113, p. 2627.

Reports and Documents.

THE NEW YORK CENTRAL RAILROAD COMPANY

REPORT OF THE BOARD OF DIRECTORS TO THE STOCKHOLDERS FOR THE YEAR ENDED DEC. 31 1921.

To the Stockholders of The New York Central Railroad Company:

The Board of Directors herewith submits its report for the year ended Dec. 31 1921, with statements showing the income account and the financial condition of the company.

ROAD OPERATED.

The following is a comparative table of the mileage operated:

	1921. Miles.	1920. Miles.	Increase. Miles.
Main line and branches owned	3,699.19	3,699.19	
Leased lines	1,946.64	1,946.62	.02
Lines operated under trackage rights	452.37	432.37	20.00
Total road operated	6,098.20	6,078.18	20.02

The increase in the mileage of leased lines is the result of corrections in measurements of the Beech Creek Railroad. Mileage operated under trackage rights has been increased by the acquisition of rights over the Buffalo Rochester & Pittsburgh Railway from Rossiter to Clearfield and Mahoning Junction, Pa., 18.33 miles, providing a new route for coal traffic from the mines on the Beech Creek Extension Railroad, and by changes in the mileage of the Cherry Tree & Dixonville Railroad, 1.67 miles.

TRAFFIC CONDITIONS.

The year 1921 was one of business depression, reflected in the decreased freight and passenger traffic of the company. The tonnage fell off one-third in volume and the passenger traffic approximately one-tenth, as compared with 1920. This situation was met by economies in operation.

In co-operation with the Federal Government in its effort to lower costs of foodstuffs, voluntary decreases in rates on certain agricultural products were put in effect during the year. There was no general reduction in other freight rates but adjustments were made from time to time to remove inequalities. The company has co-operated with State authorities in a readjustment of rates on road-making material for the purpose of stimulating the building of good roads and to meet the unemployment situation.

There was no general readjustment of passenger rates, but the practice which obtained prior to Federal control of putting into effect reduced excursion rates during the summer months was re-established to some extent. By an order of the Interstate Commerce Commission made pursuant to the provision of the Transportation Act, 1920, the company in 1921 was given the full benefit of the increase in fares under the Commission's order of July 29 1920, Ex Parte 74, notwithstanding the limitation in the New York statute of way passenger fares between Albany and Buffalo to two cents a mile.

ACCOUNT WITH RAILROAD ADMINISTRATION.

The company's account with the Railroad Administration covering the period of Federal control will be completed in the early part of 1922.

CLAIM AGAINST UNITED STATES UPON THE GUARANTY.

The company's claim against the United States based upon its guaranty for the period March-August 1920 is approaching completion. It has been necessary to re-state this claim several times in accordance with tentative formulas. It will be ready for presentation in the early part of 1922.

WAGES.

Effective July 1 1921 the United States Labor Board issued its Decision No. 147 reducing the rates of pay of employees by an amount which aggregated approximately 11% of the payroll. A revision of rules and working conditions for shop employees so modified the lines of demarcation between the various crafts that it is now possible to use a mechanic in one class to do incidental work of another craft. The Board also discontinued the requirement that time and one-half be paid for necessary Sunday service, thus permitting the use of engine terminal and car repair forces for such necessary Sunday work without the payment of a punitive rate. During the Federal control period and up to July 1 1921 all overtime for maintenance of way employees was paid for at the rate of time and one-half, but, under the decision of the Labor Board, the ninth and tenth hours of service may now be paid for at the regular hourly rate. Pending final decision of the Board, certain other classes of employees for whom overtime rates were established by the Director-General of Railroads are now receiving the pro rata hourly rate for such overtime. Notwithstanding the reductions in rates of pay and changes in rules above mentioned, the average earnings per employee for the last six months of 1921 as compared with the average earnings per employee in 1917 indicate that wages are still much higher than prior to the Federal control period. The company is negotiating with its employees looking to further reductions in pay and further changes in working rules, and in some cases these matters have been referred to the Labor Board.

MODIFIED AGREEMENT FOR OPERATION OF PROVIDENCE WEBSTER & SPRINGFIELD RAILROAD.

Prior to Feb. 1 1921 this company, as lessee of the Boston & Albany Railroad, paid as rental for the use of the Providence Webster & Springfield Railroad 25% of the gross earnings of that line. By agreement of that date between the Providence Webster & Springfield Railroad Company and the Boston & Albany Railroad Company, the rental was revised so as to limit the annual rental to a maximum of $15,000. The new arrangement is effective for 10 years, and thereafter until terminated by either party on 90 days' notice.

STOCK OF THE PITTSBURGH McKEESEPORT & YOUGHIOGHENY RAILROAD COMPANY.

During the year the company acquired 10 shares, par value $500, of the common stock of The Pittsburgh McKeesport & Youghiogheny Railroad Company. Its total holdings of this stock at the close of 1921 were 31,347 shares, par value $1,567,350, or 39.6% of the amount outstanding. The Pittsburgh & Lake Erie Railroad Company owns a like amount of this stock.

STOCK OF THE MAHONING COAL RAILROAD COMPANY.

During the year the company acquired 575 shares, par value $28,750, of the common stock of The Mahoning Coal Railroad Company. Its total holdings in the stock of this company at the close of the year 1921 were 7,990 shares preferred, par value $399,500, or 60.4% of the total amount outstanding, and 17,893 shares common, par value $894,650, or 59.6% of the total amount outstanding.

PURCHASE OF STOCK BY EMPLOYEES.

Under authority of the Board of Directors the company adopted a plan under which its employees are given the opportunity to purchase shares of the company's stock at the market price, the purchase price of the stock being deducted from the payroll in equal monthly installments over a period of not exceeding 24 months.

CHICAGO RIVER & INDIANA RAILROAD—CHICAGO JUNCTION RAILWAY.

In the latter part of 1920 this company entered into an agreement with the Chicago Junction Railways and Union Stock Yards Company, subject to approval of the Interstate Commerce Commission, to acquire the Chicago Junction railway properties by the purchase of all of the capital stock of the Chicago River & Indiana Railroad Company and the lease thereto of all the properties of the Chicago Junction Railways Company. Pursuant to this agreement, this company has made application to the Interstate Commerce Commission for authority to consummate the acquisitions referred to. The application is still pending before the Commission.

PENSIONS.

In the operation of the Pension Department 333 employees were retired and placed upon the pension rolls. Of these retirements 202 were authorized because of the attainment of 70 years of age, and 131 because of permanent physical disability. One hundred and ninety-five pensioners died during 1921. At the close of the year 1,914 retired employees were carried upon the pension rolls. The average monthly pension allowance of these is $30 20. The total amount paid in pensions during the year was $686,354 92.

CHANGES IN FUNDED DEBT.

There were issued during the year, but classified as nominally outstanding, $7,000,000 of the company's 6% refunding and improvement mortgage bonds, series B, which were pledged as collateral for a promissory note of like amount given to the Director-General of Railroads in part payment for additions and betterments made by him during Federal control.

Additional notes amounting to $155,400 were issued under the equipment trust known as Equipment Trust No. 43 and given to the Director-General of Railroads in connection with final settlement for the equipment allocated to the company during the period of Federal control and described in the annual report for 1920. The total cost of the equipment was $18,468,507 59, of which $13,829,400 was financed by equipment notes.

Equipment trust certificates of 1911 of the Merchants Despatch Transportation Company amounting to $450,000, hitherto carried in suspense, were transferred during the year to the company's funded debt, as directed by the Bureau of Accounts of the Interstate Commerce Commission.

The changes in the funded debt of the company, in detail, were as follows:

The amount on December 31 1920		$748,354,477 42
has been increased as follows:		
N. Y. C. RR. Co. Equipment Trust 6 per cent notes of January 15 1920, given to the MDirector-General of Railroads	$155,400 00	
erchants Despatch Transportation Company Equipment Trust of 1911, 4½ per cent certificates	450,000 00	
		605,400 00
		$748,959,877 42
and has been reduced as follows:		
Payment of notes:		
Two-year promissory note—Gary Land Company	$211,759 04	
Two-year promissory note—C. L. S. & E. Ry. Co	78,567 21	
Serial note—Secretary of the Treasury of the United States, due December 23 1921	990,000 00	
Payments falling due during the year and on January 1 1922 on the company's liability for principal installments under equipment trust agreement as follows:		
N. Y. C. Lines Trust of 1907, installment due November 1921	1,492,884 74	
N. Y. C. Lines Trust of 1910, installment due January 1922	1,406,413 74	
M. D. T. Co. Trust of 1911, installment due July 1 1921	75,000 00	
N. Y. C. Lines Trust of 1912, installment due January 1922	688,398 90	
Boston & Albany Trust of 1912, installment due October 1921	500,000 00	
N. Y. C. Lines Trust of 1913, installment due January 1922	742,117 61	
N. Y. C. RR. Co. Trust of 1917, installment due January 1922	1,117,000 00	
Trust No. 43 of January 15 1920, installment due January 15 1921	911,600 00	
N. Y. C. RR. Co. Trust of April 15 1920, installment due April 15 1921	1,153,167 33	
		9,366,908 57
leaving the funded debt on December 31 1921		$739,592,968 85

LOANS AND BILLS PAYABLE.

In addition to the funded debt there were outstanding on Dec. 31 1921 the following loans and bills payable:

Secretary of the Treasury	$6,500,000 00
Director-General of Railroads	26,500,000 00
Miscellaneous	13,000 00
Total	$33,013,000 00

The indebtedness to the War Finance Corporation of $17,500,000 and all but $13,000 of the indebtedness of $2,432,866 68 to banks, trust companies and individuals, included in the list of loans and bills payable in the annual report for 1920, was paid during 1921.

The company gave to the Director-General of Railroads, in reduction of its indebtedness to him for additions and betterments during Federal control, its demand note for $19,500,000, thereby correspondingly decreasing the amount due him for additions and betterments and increasing the amount due him on notes from $7,000,000 to $26,500,000.

LOANS AND BILLS RECEIVABLE.

Included in loans and bills receivable, amounting to $13,303,954 37, are United States Certificates of Indebtedness aggregating $12,999,480 99, representing a temporary investment of moneys held to provide for certain authorized additions and betterments from time to time as made.

PROPOSED PURCHASE OF CAPITAL STOCK OF THE CLEVELAND CINCINNATI CHICAGO & ST. LOUIS RAILWAY COMPANY.

There is outstanding $9,998,500 of the 5% preferred stock and $47,028,700 of the common stock of The Cleveland Cincinnati Chicago & St. Louis Railway Company, not including $1,500 of preferred stock and $27,600 of common stock nominally issued but held in the treasury of that company. The New York Central Railroad Company owns $30,207,700 of the common stock but none of the preferred, or 52.97% of all of the outstanding stock. Pursuant to authority of the Board, the company, on Dec. 14 1921 made an offer, subject to the approval of the Interstate Commerce Commission, to the holders of preferred and common stock of The Cleveland Cincinnati Chicago & St. Louis Railway Company to purchase the stock on the following bases:

One share of this company's stock for one share of the preferred stock of The Cleveland Cincinnati Chicago & St. Louis Railway Company;

Eighty shares of this company's stock for 100 shares of the common stock of The Cleveland Cincinnati Chicago & St. Louis Railway Company.

Thereupon application was made to the Commission for its approval of the acquisition of such stock or so much thereof as might be offered upon the terms stated, and for authority to issue the company's stock up to $23,478,880 for the purposes of such acquisition.

PROPOSED LEASE OF THE RAILROADS OF THE TOLEDO & OHIO CENTRAL RAILWAY COMPANY AND ITS SUBSIDIARIES.

The Board of Directors of the company, by resolutions adopted on Dec. 14 1921 authorized, subject to the consent of the holders of two-thirds of the capital stock of the company and the approval of the Interstate Commerce Commission, the taking by the company of a lease, to be effective Jan. 1 1922 of the property and franchises of The Toledo & Ohio Central Railway Company for the term of the lessor's corporate existence, subject to termination of such lease by the lessee upon 90 days' notice. The proposed lease will include an assignment by the lessor of the leaseholds proposed to be acquired by it, through lease or assignment of lease, of the properties and franchises of The Kanawha & Michigan Railway Company, the Kanawha & West Virginia Railroad Company and The Zanesville & Western Railway Company, such leaseholds to be effective Jan. 1 1922 and to be for the corporate existence of the respective lessors, subject in each case to termination by the lessee upon 90 days' notice.

The lease will provide for the payment, as rentals, of the fixed charges and taxes of the lessor companies, and in addition thereto amounts annually equal to the net income of The Toledo & Ohio Central Railway Company for the year 1921 and to 6% upon the par value of the stock of The Kanawha & Michigan Railway Company, with a provision that the rentals beyond fixed charges and taxes may from time to time be applied by the lessee so far as necessary for payment of indebtedness of the lessors. This company controls all of the stock of the lessor companies except a few shares of the stock of The Kanawha & Michigan Railway Company. The lease of these properties will effect substantial economies in the expense of operation and accounting.

SUMMARY OF FINANCIAL OPERATIONS AFFECTING INCOME.

CHANGES IN ORGANIZATION.

On Jan. 26 1921 Mr. Abraham T. Hardin was elected a Director to fill the vacancy caused by the death of Mr. William K. Vanderbilt.

Mr. Samuel Mather resigned as a Director of the company on February 9.

Appreciative acknowledgment is made to all officers and employees of their loyal and efficient co-operation and service.

For the Board of Directors,

ALFRED H. SMITH, *President.*

CONDENSED GENERAL BALANCE SHEET, DEC. 31 1921.

Wholesale Grocers Corp., Chicago.—*To Reorganize.*—A statement issued May 19 says in brief: "On July 1 1921 a merger was consummated of three Chicago wholesale grocery concerns, consisting of Durand & Kasper Co., McNeill & Higgins Co. and Henry Horner & Co. These houses have been operating since that date under the above name, doing business at 251-315 East Grand Ave., Chicago, where they have one of the most complete and up-to-date grocery plants in America, having their own industrial terminal track and tunnel connections with all depots.

"It is proposed now to reorganize this business. The company will be renamed, and the good-will that goes with the name of these three well-known concerns that constitute this merger will be used in renaming the company. All of the present stockholders of the Wholesale Grocers Corp. will retain their present interests. [It is stated that the outstanding capital will consist of $650,000 7% 1st Pref., $1,300,000 7% 2d Pref. and 35,000 shares Common stock, no par.]

"Frank C. Letts, Pres. Western Grocer Co. of Iowa, which company operates 12 wholesale grocery houses in the States of Minnesota, Iowa, Missouri and Kansas, and who is also Pres. of National Grocer Co., which owns and operates 12 wholesale grocery houses in Michigan, one in Indiana and one at Decatur, Ill., will be Chairman of the reorganized Wholesale Grocers Corp. Fred C. Letts will be Pres. & Gen. Mgr. The new directors are F. C. Letts, Chairman; O. B. McGlasson, H. C. Durand, P. J. Kasper, M. L. Horner, Marvin J. McNeill, M. Gordon McNeill, R. J. Roulston, Herbert Delafield, C. C. Virgil and Fred C. Letts.—V. 113, p. 859.

CURRENT NOTICES.

—W. C. Langley & Co., 115 Broadway, have issued for distribution to investors a summary of the plan of readjustment of the Interborough Rapid Transit Co. and Manhattan Railway Co. affecting Interborough Rapid Transit Co. 1st and Ref. 5s, 1966, Interborough Rapid Transit Co. stock, Interborough-Metropolitan Co. Coll. Tr. 4½s, 1956, Interborough Consol. Corp. stocks, and Manhattan Railway Co. stock.

—A. E. Fitkin & Co. announce that having sold a very large portion of the recently issued 8% first mortgage 15-year non-callable sinking fund gold bonds of the Hudson Valley Portland Cement Corporation, the remainder will be offered at 100 and interest. Leading cement mills report greater production and output for the current season than at any corresponding period for the last ten years.

—The formation of Chas. W. Scranton & Co. to succeed the Chas. W. Scranton Co. is announced. The partners in the new firm are John J. McKeon, Wm. D. Scranton, Wm. J. Hickey and Paul W. Redfield. The change in the name and organization of the Scranton firm is occasioned by their becoming members of the New York Stock Exchange.

—McKinley & Morris, members New York Stock Exchange, 60 Broadway, announce that they have opened a Canadian securities department under the management of W. Sturgis Macomber, an authority and specialist in Canadian securities for the past decade. A private wire system links their offices with the principal Canadian markets.

—Wm. Carnegie Ewen, specialist in New York City traction securities, has prepared for distribution to investors a synopsis and explanation of the proposed plan of readjustment of the Interborough Rapid Transit Co. and the Manhattan Railway Co., giving the status of an outlook for the various bonds and stocks involved.

—Under the firm style of "Joseph P. Day, Industrial Department, Inc.," 67 Liberty St., New York, Joseph P. Day and J. R. Harbeck have become associated in a business specializing in commercial development, organization, consolidation and reorganization of industrial and commercial projects.

—Poe & Davies, members Baltimore and New York Stock exchanges, have moved into much larger quarters on the ground floor of the new Standard Oil Building, St. Paul Place and Franklin St., Baltimore, Md.

—The Irving National Bank has been appointed depositary under a creditors' protective plan and agreement for the receipt of bonds and creditors' claims of the Cushnoc Paper Co. and Kennebec Paper Co.

—Arthur Perry & Co., Boston, Mass., have opened an office at 120 Broadway, New York, under the management of Charles P. Bullard.

PACIFIC GAS AND ELECTRIC COMPANY

SIXTEENTH ANNUAL REPORT—FOR THE FISCAL YEAR ENDED DECEMBER 31 1921.

San Francisco, Cal., April 1 1922.

To the Stockholders:

Your Board of Directors submits herewith a statement of the affairs of the Company for the year 1921. Operations of the Mt. Shasta Power Corporation, all of whose capital stock is owned, are included.

* Decrease.

NOTES ON INCOME ACCOUNT.

GROSS OPERATING REVENUE.

With reduced gas and electric rates in effect during the latter two-thirds of the year, gross operating revenue in 1921 nevertheless reached an aggregate of $36,939,474, an increase of $2,457,514, or 7.12%, over the preceding year. As shown graphically on page 26 [pamphlet report], this establishes a new maximum in the volume of annual sales and adds another year to the unbroken record of growth which has characterized your Company's business since its organization. In view of the nationwide contraction in business, the retarding effects of which were noticeable in our business chiefly in deliveries of electric energy to the agricultural, mining and manufacturing industries, the year's showing is particularly gratifying. It is indicative not only of the stability ordinarily inherent in an essential industry such as ours, but again emphasizes the unusual stability of your Company's earning power by reason of the diversified character of its business, the great extent and varied character of the territory in which it operates, and the many widely different types of industry utilizing its services.

Department—	1921.	1920.	*Increase.*	*Decrease.*
Electric Department:

Total (1.05% of Total)	$389,033	$351,005	$38,028	------
Total All Departments	$36,939,474	$34,481,960	$2,457,514	------

The preceding table shows that 61% of the 1921 gross operating revenue was derived from sales of electricity, 34% from sales of gas and the remaining 5% from other activities. It also segregates and contrasts with the preceding year the chief sources of these revenues, and brings out clearly the sustaining influence upon revenues of the Company's diversified and widespread activities. Almost two-thirds of the Company's gross operating revenue is derived from its commercial and residential business and another outstanding fact of this analysis is the marked growth, under temporarily unfavorable business conditions, of this the major and most dependable source of the Company's income. In the Electric Department this retail business increased $1,027,759 (12.5%), and in the Gas Department $1,399,741 (12.9%). During the past five years the increase was $4,882,986 (112%) in the Electric Department, and $5,081,232 (71.3%) in the Gas Department. Aside from the steady addition of new customers, amounting to 29,637 in 1921, larger average consumption by customers already connected is also a contributing factor in the growth of revenues, as approximately indicated by the fact that in the last five years the average number of cubic feet of gas sold per customer increased 10% and kilowatt-hours of electricity sold per customer increased 23%.

1921	22,502,192	12,570,042	779,009	699,198	389,033	36,939,474	2,457,514
Gain in 5 years	$12,402,159	$5,131,787	$336,706	$271,682	$181,642	$18,323,976	$18,323,976

As shown in the foregoing table, the volume of our business has practically doubled in the last five years, having risen from $18,615,498 in 1916 to $36,939,474 in 1921. While the higher rates granted during the war period and the addition of other properties are partly responsible for this increase, it is preponderately a reflection of the very rapid development of the territory in which the Company operates and of the unremitting efforts of your management to enlarge existing and find new outlets for its products.

Your Company does 40% of the gas and electric business of the entire State of California, supplying service in 36 of its 58 counties and to more than one-half of its population. Although only eighth among the States in point of population—having advanced from twelfth in the last census period—California ranks as follows among the States in other respects:

First in output of hydro-electric energy.
First in value of horticultural products.
Fourth in value and volume of farm products.
Fourth in per capita net income.
Fifth in value of mineral products, easily leading all States in the variety of minerals and in the output of gold and of many other sources of mineral wealth.
Fifth in banking resources.
Fifth in number of industries.
Eighth in value of manufactures.

California's leading position with respect to hydro-electric resources insures for its industries an abundance of motive power at reasonable cost and is undoubtedly largely responsible for its unusual development in other respectst The State's hydro-electric output of 3,223,432,000 kilowat.

hours in 1921 was 21.6% of that of the entire country, and of this energy the Pacific Gas & Electric Company produced over 1,025,600,000 kilowatt hours, or 31.8%, the Company being the second largest producer of hydro-electric energy in America.

Nowhere else in the United States, in rural areas, is electricity so generally available at low rates for lighting, heating, cooking and power purposes as it is on the farms of California. This development, remarkable because of the great areas covered, has been made possible by the initiative of the electrical utilities of the State, coupled with the investment of many millions of dollars on their part in facilities necessary to develop this class of business; and it is indicative of the importance of electric energy in developing the agricultural resources of the State that, of the 1,402,000 acres of land brought under irrigation in the ten years from 1910 to 1920, 1,161,000 acres, or 83%, are irrigated by pumping. The following table, arranged by industrial groups, sets forth the growth during the past five years of the Company's sales of electric power. Similar information is graphically shown on page 27 of this [pamphlet] report.

SALES OF ELECTRIC POWER.

Industry.	Power Sales.		Increase.	
	1921.	1916.	Amount.	Per Cent.
Agriculture	$1,919,591	$584,301	$1,335,290	228.5
Mining	1,048,630	700,950	347,680	49.6
Transportation	2,586,827	822,220	1,764,607	214.6
Manufacturing	3,527,835	1,883,630	1,644,205	87.3
Commercial and Miscellaneous Power	1,526,499	606,356	920,143	151.7
	$10,609,382	$4,597,457	$6,011,925	130.8

While the growth of the artificial gas business in the past quarter of a century has been somewhat overshadowed by the spectacular development of the electrical industry, its progress has nevertheless been of the most substantial and uninterrupted character. The Company in 1921 sold over 11,483,000,000 cubic feet of gas—considerably the largest output in its history, and practically double the volume of sales in 1911. As in the case of electricity, science is constantly creating new devices for the utilization of artificial gas and increasing its popularity and usefulness, especially in the direction of house heating and industrial application. We may cite, for instance, the improved gas range with thermostatic control and automatic lighting; hot water, steam, and hot air heaters operated by electric buttons from any desired point; the gas torch that cuts metal faster and cheaper than the acetylene torch; the up-to-date gas oven, which is being largely adopted by bakeries to the exclusion of other forms of fuel; and so on indefinitely. The Company maintains at 241 Stevenson Street, San Francisco, the largest gas laboratory in the country for the display and demonstration of these and of almost every other known practical device for the utilization of this clean, flexible and economical heating agent. California's equable climate lends itself particularly to the efficient and economical heating of homes and other buildings by means of gas, and there is here, we believe, an almost illimitable field for the future expansion of this branch of our business.

OPERATING EXPENSES AND TAXES.

Operating expenses increased $821,444, or 3.5%. Of this increase $706,786, or upwards of 86%, was due to additional taxes, the combined increase of maintenance expenditures, general operating expenses (exclusive of taxes), rentals, and reserves for casualties and uncollectible accounts aggregating only $114,658. This increase in operating costs, relatively small in comparison with the greater volume of business, is mainly attributable to lower prices paid for fuel oil, and to reductions in the quantity used in the Company's steam electric generating stations—a result in large part of an increase of 163,892,602 kilowatt hours, or 19%, in our output of hydro-electric energy. The two new Hat Creek units and the Spring Gap plant, although in service only during the last three or four months of the year, aided materially in reducing the consumption of fuel oil, the former producing 28,485,672 and the latter 8,599,000 kilowatt hours of hydro-electric energy. In spite of reductions aggregating 50 cents per barrel in the cost of fuel oil, the average price of this commodity for the year 1921 was still 193% above the average paid by the Company in 1916.

Prices of material exhibited a downward tendency during the year, the average cost of thirty articles in common use by the Company at the close of the year being 20% lower than at the close of 1920, although still 49% above pre-war prices. The amount of $8,464,590 paid for operating labor constituted the largest single item of expense, aggregating 43.3% of all operating expenses, exclusive of taxes, reserves, and rentals.

The total of maintenance, operating and administrative expenses, taxes, rentals and reserves (excluding depreciation reserve), aggregated $24,279,084, or 65.7% of gross operating revenue, compared with 68.0% in 1921. The Company's consumers, as heretofore stated, benefited by this reduced operating ratio through a downward revision of gas and electric rates. Under the practice established by the State Railroad Commission in its decision of June 21 1921, future adjustments in gas rates will be made to conform to increases or decreases in fuel oil prices, one month after these new oil prices are made effective for the Company.

Taxes, which increased $706,786, comprised 14% of our 1921 operating expenses, and absorbed almost one-fourth of net operating income, as shown in the following table, which also affords a comparison with the preceding five years:

Year—	Amount of Taxes.	Required to Pay Taxes— Percentage of Gross Operating Income.	Required to Pay Taxes— Percentage of Net Operating Income (Before Deducting Taxes).
1916	$972,565 17	5.22%	11.08%
1917	1,253,239 40	6.33%	15.26%
1918	1,782,939 31	7.89%	18.48%
1919	1,962,038 39	7.56%	19.33%
1920	2,559,108 98	7.42%	21.69%
1921	3,265,894 62	8.84%	23.65%
Increase in 5 years	$2,293,329 45 or 236%		

MAINTENANCE AND DEPRECIATION.

Expenditures for maintenance and reserve for depreciation during the year aggregated $6,506,751. This reflects in an adequate measure, we believe, the Company's policy of maintaining its properties in such a high state of efficiency that the best possible service may be given to its consumers and the integrity of the physical assets underlying its securities may suffer no impairment.

Year—	Maintenance Expenditures	Depreciation Reserve.	Total Up-keep Provision.	% of Operating Gross.
1916	$1,125,115	$2,050,000	$3,175,115	17.0%
1917	1,207,121	2,250,000	3,457,121	17.4%
1918	1,170,841	2,700,000	3,870,841	17.1%
1919	1,748,483	2,500,000	4,248,483	16.3%
1920	2,740,639	2,788,302	5,528,941	16.0%
1921	3,437,673	3,069,078	6,506,751	17.6%

More than fifty-two and one-half millions of dollars have been expended for maintenance or appropriated for depreciation in the past sixteen years, as indicated by the following table:

Expended for Maintenance	$22,384,640
Appropriated for Depreciation	30,164,889
Total	$52,549,529
Average per year	$3,284,346

NET EARNINGS FROM OPERATION.

Net earnings from operation, amounting to $12,660,390, increased $1,636,070 or 14.8% over the preceding year, this increase representing two-thirds of the additional gross operating revenue. Miscellaneous income was $66,402 in excess of the 1920 figures, the amount available for the payment of fixed charges and depreciation being $13,230,622.

FIXED CHARGES.

Bond interest, after the deduction of interest on bonds held in sinking funds, and interest chargeable to construction account, aggregated $4,797,782, an increase of $286,531, net interest charges being earned 2.8 times. The following table shows the status of these charges compared with 1920:

	1921.	1920.	Increase.
Interest on Funded Debt	$6,077,222	$5,105,875	$971,347
Less:			
Interest on Bonds Alive in Sinking funds	369,175	308,206	60,969
Interest Accrued Account Construction	280,673	185,440	95,233
Interest on Advances to Mt. Shasta Power Corporation	629,592	100,978	528,614
Balance (Interest Charged to Operating Account)	$4,797,782	$4,511,251	$286,531

DIVIDENDS.

Preferred stock dividends at the rate of 6% amounted to $2,132,283, or an increase of $354,350, the greater amount paid in dividends being attributable to the additional preferred stock sold directly to consumers during the year. The proceeds from the sale of this additional stock were used for carrying on new construction necessitated by the growth of business.

Common stock dividends at the rate of 5% per annum amounted to $1,700,883, leaving a balance of $1,136,064, or $692,783 in excess of the 1920 figure, to be added to corporate surplus. An extra common stock dividend of 2%, payable in common stock at par, was declared payable to stockholders of record at December 31 1921; this dividend, calling for the issuance of $679,976 par value of common stock, being actually disbursed in 1922.

CONSERVATION OF ASSETS.

Of the aggregate gross revenue of $302,448,160 received in the past sixteen years, as shown in the first of the two following tables, $69,443,894 represents the balance remaining after the payment of interest charges. Of this amount only $24,116,000, or slightly more than one-third, was actually expended for cash dividends, the remainder being retained in the business as indicated in the second of the tables given below:

Year.	Gross Revenue Including Miscellaneous Income.	Maintenance Operating Expenses and Reserves.	Taxes.	Net Earnings Before Depreciation.	Interest.	Balance.
1906	$8,947,162	$4,139,233	$283,886	$4,524,043	$2,784,908	$1,739,135
1907	11,342,140	5,978,967	247,262	5,115,911	2,854,264	2,261,647
1908	12,657,305	6,517,930	274,789	5,864,586	3,021,722	2,842,864
1909	13,491,288	7,211,517	320,059	5,959,712	2,988,521	2,971,191
1910	14,044,596	7,538,461	382,880	6,123,255	3,006,256	3,116,999
1911	14,604,609	7,697,370	516,702	6,390,537	3,254,133	3,136,404
1912	14,651,786	7,808,592	622,969	6,220,225	3,476,078	2,744,147
1913	16,094,514	8,655,044	676,163	6,763,307	3,794,222	2,969,085
1914	17,100,534	8,170,874	743,047	8,186,613	4,071,432	4,155,181
1915	18,778,446	8,356,148	849,445	9,572,853	3,819,676	5,753,177
1916	18,941,427	8,586,318	972,565	9,382,544	3,660,976	5,721,568
1917	20,118,990	10,351,452	1,253,239	8,514,299	3,898,169	4,616,130
1918	22,870,194	11,247,391	1,782,939	9,839,864	3,881,542	5,958,322
1919	26,309,671	14,287,089	1,962,038	10,060,544	4,012,240	6,048,304
1920	34,985,791	20,898,531	2,559,109	11,528,151	4,511,251	7,016,900
1921	37,509,707	21,013,190	3,265,895	13,230,622	4,797,782	8,432,840
	$302,448,160	$158,458,107	$16,712,987	$127,277,066	$57,833,172	$69,443,894

To Retire Bonds	$13,036,000
Reinvested in Property	16,316,000
For Replacements and Rehabilitation	15,221,000
Cash Dividends	24,116,000
Other Purposes	755,000
Total	$69,444,000

RESERVES.

Reserves at December 31 1921, after charging off realized losses, stood as follows, compared with December 31 1920:

Description of Reserves—	*Dec. 31 1921.*	*Dec. 31 1920.*	*Increase (+) or Decrease (—).*
For Depreciation	$11,048,954 15	$8,652,408 58	+$2,396,545 57
Insurance and Casualty Funds	172,704 00	204,726 57	—32,022 57
Uncollectible Accounts Reserve	161,750 46	160,811 21	+939 25
Reserve for Earnings in Litigation	1,820,134 09	1,820,134 09	
Reserve for Northern California Power Company Consolidated Plant Adjustments and Accrued Depreciation	1,648,136 94	1,648,136 94	
	$14,851,679 64	$12,486,217 39	+$2,365,462 25

NOTES ON BALANCE SHEET.

PLANTS AND PROPERTIES.

Work on the Company's Pit River hydro-electric projects was continued throughout the year, the first units—Hat Creek plants Nos. 1 and 2, with an aggregate installed capacity of 33,512 horsepower—being completed in August and September, respectively. Other items of important construction work completed or in progress are outlined on page 17 [pamphlet report]. These developments, with the usual plant betterments and extensions required to supply service to the 29,637 new consumers added during 1921, involved a capital outlay of $18,651,563, of which $611,169 was charged against depreciation reserve, leaving $18,040,394 to be carried to capital account. Table showing the status of plants and properties account follows:

The Plants and Properties Account, at the close of the previous fiscal year, stood at		$164,655,623 97
Gross Expenditures for additions, betterments and improvements during the year 1921, amounted to	$18,651,562 75	
Of which there was charged to Operating Expenses through the medium of Depreciation Reserve	611,169 24	
Leaving Balance carried to Plants and Properties Account		18,040,393 51
The total of which at December 31 1921 stood at		$182,696,017 48

In the sixteen years since its organization the Company has increased its plant account by $109,916,183 76 through construction and the acquisition of additional properties. Detailed statement by years follows:

Year—	*Construction.*	*Other Properties Acquired.*	*Total.*
1906	$3,860,243 84	$13,820,125 00	$17,680,368 84
1907	3,674,474 69	47,861 17	3,722,335 86
1908	2,099,996 91		2,099,996 91
1909	1,746,705 64	90,632 46	1,837,338 10
1910	2,879,158 45	593,766 29	3,472,924 74
1911	2,248,521 31	4,768,949 31	7,017,470 62
1912	7,495,763 69	404,285 15	7,900,048 84
1913	7,406,415 80	389,208 36	7,795,624 16
1914	2,733,949 35	4,181 50	2,738,130 85
1915	2,089,447 17	120,478 44	2,209,925 61
1916	3,658,426 33	12,681 31	3,671,107 64
1917	2,778,535 82	1,800,055 76	4,578,591 58
1918	1,555,578 93	256,719 48	1,812,298 41
1919	3,106,667 71	11,631,540 89	14,738,208 60
1920	10,600,208 89	1,210 60	10,601,419 49
1921	18,040,060 51	333 00	18,040,393 51
Total	$75,974,155 04	$33,942,028 72	$109,916,183 76

FUNDED DEBT.

It is an obvious inference from the facts related in this and the reports of former years with respect to the growth of the Company's business, that increasingly large amounts of new capital will have to be provided from year to year to supply the additional facilities necessary to serve in an adequate and economical way the rapidly growing population and increasing number of industries in the Company's business field. At the close of the year 60% of our outstanding capitalization was represented by bonds and 40% by stocks. In order that this sound relationship between borrowed and proprietary funds may be maintained in future and the average cost to your Company of new capital kept at a minimum, your management as of December 12 1921 obtained the sanction of stockholders to the reclassification of its share capital, elsewhere referred to at greater length, and as of December 1 1920 to the creation of a new mortgage under which the joint obligations of the Pacific Gas and Electric Company and Mt. Shasta Power Corporation are issuable as required from time to time in amounts justified by sound financial policy and within the limitations imposed by the mortgage. This new "First and Refunding Mortgage" has been drawn to conform to sound, modern investment banking practice. It permits of the issuance of such bonds as the stockholders may authorize, in series of the same or different dates, and with such maturity dates, interest rates and redemption provisions as may be determined by the Board of Directors at the time of the original issuance of bonds of each series. While these provisions give the elasticity necessary to meet changing conditions in the money markets, the protective restrictions of the mortgage are such as we believe will appeal to the most conservative investors, and permit of the sale of bonds issued thereunder upon the most favorable terms and at prices commensurate with their high quality. The continued maintenance of the Company's high credit position and its utilization within sound limits through the medium of this new mortgage will, we feel assured, serve the best interests of the stockholders.

In March 1921 $10,000,000 par value of First and Refunding Mortgage Series "A" 7% Bonds were issued and sold to provide funds for carrying on the Company's large construction program, and in May an additional $720,000 Bonds of this series were sold, the proceeds being used in part to retire an equal amount of General and Refunding Mortgage 5% Bonds and in part for new construction.

In December 1921 an issue of $10,000,000 First and Refunding Series "B" Bonds were sold at a somewhat higher price than the Series "A" Bonds above referred to, this latter issue, however, bearing only 6% interest—a circumstance reflecting the improved market conditions as well as the Company's excellent financial standing. All of the funds secured from the sale of this latter issue were in the Company's treasury at the close of the year, having been received in reimbursement for construction expenditures, or were held by the trustee under this mortgage subject to withdrawal by the Company for future construction.

In addition to the retirement of $720,000 General and Refunding 5% Bonds above referred to, underlying issues outstanding in the hands of the public were decreased by $2,262,900 through the purchsae of bonds for sinking fund purposes, and the retirement at maturity on November 3 1921, of all outstanding Edison Light & Power Company 6% Bonds.

Following is a detailed list of bonds outstanding in the hands of the public at December 31 1921, compared with the preceding year:

BOND ISSUES.	*Rate.*	*Due Date.*	*Outstanding Dec. 31 1921.*	*Outstanding Dec. 31 1920.*	*Increase.*	*Decrease.*
P. G. & E. Co. 1st & Refunding Series "A"	7%	Dec. 1 1940	$10,720,000		$10,720,000	
P. G. & E. Co. 1st & Refunding Series "B"	6%	Dec. 1 1941	10,000,000		10,000,000	
P. G. & E. Co. General and Refunding	5%	Jan. 1 1942	35,822,000	$36,542,000		$720,000

CAPITAL STOCK.

The Company has continued the policy which it inaugurated in 1914 of the direct sale of its First Preferred Stock to those residing in its field of operations, disposing of $7,491,550 par value of this stock during the year to 6,399 subscribers.

In the seven and one-half years from June 1914 to December 1921, the number of the Company's stockholders (eliminating all duplications due to the same person owning more than one class of stock), increased from 2,898 to 18,204. During this period 17,030 individual sales, representing $25,917,600 par value of Preferred Stock, were made directly

to employees, customers, and others as indicated by the following table:

Year—	No. of Sales.	Par Value of Stock Sold.	
1914	3,739	$8,801,300	
1915	1,712	3,785,100	
1916	617	1,123,100	
1917	650	890,000	
1918	192	156,000	War Period
1919	52	35,900	
1920	3,669	3,634,650	
1921	6,399	7,491,550	
Total	17,030	$25,917,600	

At the close of January 1922 there were upwards of 49,000 holders of this Company's securities, of whom 32,622, or approximately two-thirds, reside in California. The following table shows the distribution of the holders of these securities:

	Inside California.		Outside California.		Total.	
	Number	Percent	Number	Percent	Number	Percent
Bondholders	17,466	58.56	12,356	41.44	29,822	100
Stockholders	15,156	78.87	4,058	21.13	19,214	100
	32,622	66.52%	16,414	33.48%	49,036	100%

Your management believes the widespread distribution of its securities in the field of its operations affords not only a safe and profitable means for the employment of savings in an industry dedicated to the upbuilding and development of our own communities and industries, but is also a most effective means of fostering sound public relations, especially if the plans and policies of the Company are understood by those who have taken a financial interest in it. To this end, it desires to extend to stockholders every facility for obtaining information about the Company's affairs and holds itself ready to respond at any time to inquiries or suggestions from its stockholders.

In the past year $9,430 of First Preferred Stock was exchanged for Original Preferred, only $47,600 par value of the latter security remaining outstanding at the close of the year.

RECLASSIFICATION OF CAPITAL STOCK.

On December 12 1921 stockholders formally approved an amendment of the Company's Articles of Incorporation reclassifying its authorized capital stock as follows, the par value of all shares being $100:

	Classification Prior to Amendment.	Amended Classification.
First Preferred Stock	500,000 shares	799,000 shares
Original Preferred Stock	100,000 shares	1,000 shares
Common Stock	1,000,000 shares	800,000 shares
Total	1,600,000 shares	1,600,000 shares

The above reclassification of stock was desirable in order that the policy of the direct sale of First Preferred Stock to customers, which has been so successfully followed for many years, might be continued without interruption.

The following table shows the status of stock outstanding in the hands of the public at December 31st:

Capital Stock—	Dec. 31 1921.	Dec. 31 1920.	Increase (+) or Decrease (—).
First Preferred Stock—6% Cumulative	*$41,128,810	*$33,628,230	+$7,500,580
Original Preferred Stock—6% Cumulative	47,600	56,800	—9,200
Common Stock	34,004,058	34,004,058	
	$75,180,468	$67,689,088	+$7,491,380

* Includes stock subscribed for but not fully paid.

SINKING FUNDS.

During the year the Company purchased in the open market bonds of its underlying issues suitable for sinking fund investments of the par value of $1,555,900. The unsettled conditions that prevailed generally throughout the greater part of the year in the markets for investment securities of all kinds made it possible to purchase these bonds for $162,450 less than their redemption price at maturity. Following the policy pursued for several years past, all payments into sinking funds during the year have been treated as a part of our depreciation reserve, and are included in the revenue deductions made for that purpose.

The condition of Sinking Funds is summarized in the following table:

Character of Sinking Fund Assets	Dec. 31 1921.	Dec. 31 1920.	Additions During 1921.
Bonds of Company—at par	$15,343,290 00	$13,971,590 00	$1,371,700 00
Liberty Loan Bonds—at par	364,400 00	364,400 00	
Cash and Accrued Interest—not yet invested	114,457 54	102,350 22	12,107 32
Total Assets	$15,822,147 54	$14,438,340 22	$1,383,807 32
Net Annual Interest Saving	$769,423 50	$700,116 50	$69,307 00

The $15,707,690 par value bonds held in Sinking Funds at the close of 1921 were acquired by the following means:

From Revenues	$14,173,490 00
In Exchange for overlying bonds	493,000 00
From proceeds of sale of Common Stock	1,041,200 00
	$15,707,690 00

CURRENT ASSETS AND LIABILITIES.

The Company's business was conducted on a cash basis throughout the year. Certain unmatured notes of the Northern California Power Company Consolidated, assumed in connection with the purchase of that property, were paid in 1921, before maturity, and at the close of the year there were no unpaid obligations except current accounts. As a result of the prompt payment of bills, a saving was effected of $41,082 in cash discounts.

The cash balance in the Company's treasury at the close of 1921 was $8,044,270, in addition to which $4,314,494, representing a portion of the proceeds of bonds sold in December 1921, was available for construction expenditures, and was held by the Trustee under the First and Refunding Mortgage, the total cash balance carried forward into 1922 being $12,358,764.

Net working assets at December 31 1921, computed on the basis indicated in the following table, amounted to $16,630,414, an increase during the year of $4,637,966. Against these assets there was a contingent liability, representing revenues involved in rate litigation which has been pending for several years, against which a reserve of $1,820,-134 has been set up.

Current Assets and Liabilities—	Dec. 31 1921.	Dec. 31 1920.	Inc. (+) or Decrease(—).
Current Assets:			
Materials and Supplies	$4,092,745	$4,575,609	—$482,864
Bills & Accounts Receivable (Less Reserve for Uncollectible Accounts)	3,642,551	3,532,724	+109,827
Due on First Preferred Stock Subscriptions	512,170	810,269	—298,099
Underlying Bonds Bought in advance for Sinking Funds	605,500	341,300	+264,200

Taxes Accrued, but not due	1,796,363	1,287,746	+508,617
Dividends declared, but not paid	425,222	425,217	+5
Total Liabilities	$7,567,314	$7,204,674	+$362,640
Net Working Assets	$16,630,414	$11,992,448	+$4,637,966

OPERATING DEPARTMENTS.

Matters relating to the Operating Departments are more fully dealt with in the following abstract of report presented at the annual meeting of the stockholders by Mr. John A. Britton, First Vice-President and General Manager.

REPORT OF VICE-PRESIDENT AND GENERAL MANAGER.

The following are some of the more important incidents occurring during the year:

March 12 1921—Additional steam electric generating unit at Station "C," Oakland, completed and placed in operation—capacity 16,756 H.P.

April 23 1921—High pressure gas transmission line between Sacramento and Woodland completed; Woodland gas plant shut down; and gas first supplied to City of Davis from this new line.

July 23 1921—Work of increasing capacity of 60 K.V. line from Cottonwood to Colusa Junction, completed. Length of line 95 miles.

July 30 1921—Work of increasing capacity of 60 K.V. line between Kennett and Cottonwood completed. Length of line 35 miles.

August 23 1921—Hat Creek No. 1 Plant completed and put into service—capacity 16,756 H.P. This is the first of the plants on the Pit River to be completed.

September 2 1921—Pit Transmission Line No. 2, between Hat Creek Plants and Cottonwood, completed and placed in service. Length of line 60 miles. Present voltage 60,000. Designed for ultimate voltage of 220,-000.

September 12 1921—Spring Gap Plant on Stanislaus River—additional capacity 10,054 H.P., completed and placed in operation.

September 19 1921—Pit River Railroad (built to facilitate construction of the Pit River Power Projects)—34 miles main line, completed, and first locomotive arrived at Pit River on September 20.

September 28 1921—Hat Creek No. 2 Plant completed and placed in operation—capacity 16,756 H.P.

October 21 1921—Additional gas generator at Station "B," Oakland, completed and put into service. Capacity five million cu. ft. per day.

November 1 1921—High pressure gas transmission line between San Jose and Los Gatos completed; Los Gatos gas plant shut down. Gas first supplied to Town of Campbell from this new line on March 17 1922.

The capacities of the plants of the Company generating electric energy are as follows, expressed in horsepower:

HYDRO PLANTS.

	H. P.		H. P.
Alta, Placer Co	2,681	Halsey, Placer Co	16,756
Centerville, Butte Co	8,579	Inskip, Tehama Co	8,043
Coal Canyon, Butte Co	1,341	Kilarc, Shasta Co	4,021
Coleman, Shasta Co	20,107	*La Grange, Stanislaus Co	1,206

STEAM PLANTS.

	H. P.		H. P.
San Francisco	85,791	Sacramento	6,702
Oakland	44,906	*North Beach	36,193
Total Steam			173,592
Total Hydro and Steam			481,836

* Sierra & San Francisco Power Company.

The following table shows the cubic feet of gas sold from each of the gas plants operated during the year:

	Sales in Cu. Ft.
San Francisco, two plants, supplying eight cities and suburban territory	5,542,378,600
Oakland, supplying ten cities and suburban territory	3,588,494,200
San Jose, supplying Los Gatos and suburban territory	396,704,600
Fresno	460,213,600
San Rafael, supplying four cities and suburban territory	114,736,200
Santa Rosa, supplying Petaluma and Sebastopol	130,204,200
Napa	40,834,400
Vallejo	129,300,400
Chico, supplying two cities	47,362,900
Grass Valley, supplying Nevada City and suburban territory	18,647,600
Sacramento, supplying Davis and Woodland	479,569,000
Marysville, supplying Yuba City	47,968,600
Colusa	15,789,500
Oroville	21,043,700
Los Gatos (supplied from San Jose after Nov. 1 1921)	17,941,200
Red Bluff	11,279,100
Redding	13,377,900
Redwood City (supplied from San Francisco)	392,575,000
Willows	15,130,400
Total sales in cubic feet, 1921	11,483,551,100

DEPARTMENTAL ACTIVITIES.

SALES DEPARTMENT.

The activities of our Sales Department, although somewhat handicapped by the lessened activity in business generally, have, nevertheless, been productive of excellent results, as indicated by the addition of 29,637 new customers, an increase of 123,199 horse power in connected electric load, and the sale of 838,901,100 cubic feet more of gas than in the preceding year. The total connected load in electric cooking and heating appliances was 16,385 horse power at the close of 1921, an increase of 33 1-3% during that year. These results indicate that the use of electricity for these purposes is firmly established and may be counted on as an important and constantly increasing source of revenue.

VALUATION DEPARTMENT.

The Company has been engaged for more than two years in a comprehensive inventory and appraisal of its properties, primarily for the purpose of establishing proper rate basis in hearings before the Railroad Commission of the State of California, and also for the purpose of providing an accurate foundation for future accounting and financial transactions. In this work the fullest opportunity was afforded to the engineers of the State Railroad Commission, and also to the representatives of the municipalities and agricultural communities in which the Company supplies its service, to acquaint themselves fully with the facts and methods of procedure followed by the Company's engineers in appraising the properties.

The appraisal of the electric properties was entirely completed during the year, and the results presented before the California Railroad Commission in connection with electric rate proceedings now pending. Some idea of the care and amount of detail involved in this work may be gained from the statement that the appraisal of electric properties alone involved a total of 35,000 man-days of work, and covered properties in twenty-nine counties and eighty-four incorporated cities. Valuations of the properties utilized in the Gas Department, Water Department, Street Railway Department, and Steam Sales Department were also completed during 1921.

DEPARTMENT OF ENGINEERING.

With the adoption of the extensive program of hydro-electric development on the Pit River and tributaries, the need was realized of a Department, the major activities of which would be directed especially to technical investigation and planning, as distinguished from construction and operation of the properties. As a result the Department of Engineering was organized in October, 1920.

This Department is charged particularly with the initiation of advance engineering programs designed to meet the demands arising out of the future growth of business. It is mainly concerned with the engineering features of electrical generation both by water power and steam, transmission to load centres and distribution therefrom. Civil engineering in relation to water supply for power, irrigation and domestic use; structural engineering and architecture in relation to housing of equipment and personnel are also within the scope of its activities.

During the year there was undertaken a careful study of the past growth of the electrical system over the ten-year period from 1911 to 1921 as a basis for estimates of growth to be anticipated for the period from 1921 to 1935 inclusive. This investigation revealed a growth during the past ten years of 7.44% compounded annually. Assuming that this rate of growth will continue, and we have every reason to believe that it will, and assuming also a load factor of 63%, the total output of electric energy for the year 1930 will be about double that for the year 1921.

PERSONNEL DEPARTMENT.

This Department was created on June 1st 1921 with the object of relieving management officers of burdensome detail in maintaining their staffs, to equalize opportunities for advancement in the Company's service and to carry out more effectively its civil service policies. Its first undertaking was an inventory of the Company's human material. This was obtained by means of "Personnel Records" voluntarily filed by employees, and which have proven of value both to the Company and to the employees. The Personnel Department, among other duties, interviews all applicants for employment, all employees leaving the Company voluntarily, and all employees discharged after five years' service; adjusts grievances and has charge of the physical examination of new employees. In a period of six months 3,054 persons were interviewed.

PUBLIC RELATIONS.

Your management throughout the year has diligently continued the policies of frankness, of efficient service and of fair dealing, through which it has consistently and for many years sought to deserve the confidence and good-will of its customers. While it believes it has succeeded in an unusual degree in these aims, it is, nevertheless, continually seeking to bring about a still further improvement in its public relations. During the year it has organized the territory served by it into twelve divisions, with authority vested in the managers of these divisions to decide promptly and upon their own responsibility all matters of service, except those requiring executive approval of heavy capital outlays, to adjust claims and complaints without delay, and to do generally the things necessary to preserve cordial relations with the communities served. It has given systematic publicity to the Company's policy of service, to the organization and facilities available for making it effective, and to the plans for enlargements and betterments adopted from time to time in the interest of continued good service, and of aiding in the growth and development of the territory served. It has actively continued the plan so successfully inaugurated eight years ago of bringing about a more widespread and diffused ownership of the Company among the people in the territory served by it. To bring about a better acquaintance and closer co-operation between the management and the thousands of local stockholders resulting from this plan, it has held a series of twenty-three stockholders' meetings during the course of the year at various points most convenient to these stockholders. Through addresses delivered at these meetings by the Company's chief executives, the stockholders were given full information respecting the Company's affairs, its policies and problems, and were thus placed in a position to take an active and intelligent interest in matters affecting the welfare of their property in the communities in which they constitute a substantial and influential element. As your Company was the first among American public utilities to institute the policy of local partnership and public ownership, so it has by means of these local stockholders' meetings initiated another forward step in corporate management. Your Company has also during the year continually kept before its employees the ideals of "Pacific Service" with the major emphasis upon their duty as representatives of the Company to deal fairly and courteously with its patrons and the public.

PHYSICAL AND OPERATING STATISTICS.

ELECTRIC GENERATING STATISTICS.

Year.	Hydro-Electric Plants. No.	Hydro-Electric Plants. Installat'n in H.P.	Steam-Electric Plants. No.	Steam-Electric Plants. Installat'n in H.P.	All Generating Plants. No.	All Generating Plants. Installat'n in H.P.	System Load Factor for Year (Per Ct.)	Peak Demand on System in H.P.
1911	11	92,973	4	58,266	15	151,239	57.3	142,228
1912	9	90,227	4	94,100	13	184,327	59.1	144,972

1920	2,649	227	6,842	135.5	921,018
1921	2,774	238	7,051	146.0	1,044,217

In the ten years covered by the above tabulation, the total mileage of transmission and distribution lines increased from 3,618 to 9,971, the increase in the year 1921 being 345 miles.

The table shows a total connected load of 1,044,217 horse power at the close of the year, an increase of 123,199 horse power, or 13.4 per cent. This large increase is particularly satisfactory when considered in connection with the slight decrease in sales of electricity during the year, affording a basis for the opinion that the improvement of general business conditions will result in sales of energy to correspond with this additional connected load.

STEAM ELECTRIC STATIONS.

Year—	K. W. Hours Generated.	Fuel Oil Used. Barrels.
1911	108,157,064	579,433
1912	100,749,286	529,193
1913	163,886,492	809,700
1914	101,639,560	549,451
1915	166,916,794	786,073
1916	163,130,488	777,707
1917	195,032,980	945,275
1918	236,268,840	1,165,170
1919	330,914,990	1,614,871
1920	487,896,760	2,435,030
1921	240,568,150	1,264,827

The output of steam electric stations in 1921 was the smallest since 1918 and less than one-half that of 1920—a result chiefly of better water conditions and of new hydro-electric plants placed in operation during the year. This reduction in the quantity of energy generated in steam stations made possible an economy of 1,170,203 barrels of oil in comparison with the year 1920.

GAS DEPARTMENT STATISTICS.

Year—	Number of Gas Plants.	Total Daily Capacity of Generators Cubic Feet.	Miles of Gas Mains.	Number of Gas Services Laid.	Cubic Feet Sold.
1911	16	34,680,000	1,917.71	171,934	5,751,000,000
1912	17	43,130,000	2,201.00	168,486	6,691,000,000
1913	18	43,130,000	2,374.18	182,914	7,429,480,300
1914	18	43,130,000	2,516.25	183,089	7,648,251,700
1915	17	54,220,000	2,645.62	190,354	8,325,618,900
1916	17	54,400,000	2,779.27	196,818	8,174,225,400
1917	18	60,744,000	2,878.60	203,553	8,537,925,100
1918	18	72,744,000	2,903.37	207,528	9,255,960,600
1919	20	71,594,000	2,996.34	215,077	9,792,385,600
1920	20	71,806,000	3,005.97	224,639	10,644,650,000
1921	19	72,470,000	3,167.92	234,953	11,483,551,100

The decrease in the number of the Company's plants operated during 1921 was due to the abandonment of the plant at Woodland, this city now being supplied through a high pressure transmission line from Sacramento, resulting in improved service and the addition of new customers in territory contiguous to the new transmission line not heretofore served.

Sales of gas during the year were considerably the largest in the Company's history, aggregating 11,483,551,100 cubic feet, an increase of 838,901,100 cubic feet, or 7.88 per cent.

SACRAMENTO STREET RAILWAY SYSTEM.

Year.	Miles of Street Railway Track.	Cars Owned.	Total Passengers Carried.	Car Mileage.	Car Hours.	Average Passengers per Day.	Gross Revenue.
1911	38.9	62	11,464,696	2,279,998	293,107	31,410	$533,520
1912	40.0	62	11,926,098	2,301,342	276,438	32,674	547,187
1913	42.0	60	12,508,744	2,469,745	301,930	34,270	572,913
1914	42.9	60	12,256,142	2,481,968	303,263	33,578	556,908
1915	43.1	66	9,485,490	2,684,508	294,739	25,988	425,338
1916	43.9	66	10,044,428	2,919,041	299,873	27,519	442,303
1917	43.9	66	10,616,953	3,069,408	313,040	29,088	491,021
1918	43.9	70	11,331,864	3,067,599	312,439	31,046	534,068
1919	43.9	70	14,079,372	3,228,306	331,704	38,574	671,105
1920	44.1	76	15,770,295	3,210,112	332,895	43,206	753,028
1921	44.2	76	16,021,805	3,380,119	349,840	43,895	779,639

16,021,805 passengers were carried during the year, an increase of 251,510 over the preceding year.

By a decision of the State Railroad Commission rendered in December, 1921, a number of important questions of long standing between the City of Sacramento and the Company were settled, and the Company placed in a better position with regard to its street railway properties than for some years past.

WATER DEPARTMENT (PUMPING SYSTEM).

Year.	Number of Pumping Stations.	Gallons of Water Pumped.	Miles of Distribution Mains.
1911	3	*1,201,358,695	55.79
1912	3	*1,326,628,526	62.77
1913	4	*1,510,417,976	96.15
1914	4	1,756,409,107	102.61
1915	4	1,650,419,301	108.73
1916	4	1,822,073,796	115.09
1917	4	1,920,657,036	121.03
1918	5	2,001,005,118	123.96
1919	8	2,332,839,396	156.98
1920	8	3,371,395,574	167.30
1921	8	3,053,916,405	172.04

* Stockton Pumping Plants only.

In addition to operating the eight pumping stations noted above, the Company irrigates by a system of seventy reservoirs, and 601 miles of ditches, over 20,000 acres of land in Placer, Nevada, and Butte Counties, besides supplying water in these counties in a minor way for power.

It is a pleasure to me again to express my sincere appreciation of the loyal and effective work rendered by all officers and employees during the year.

FOR THE BOARD OF DIRECTORS,
W. E. CREED, *President*.

ACCOUNTANTS' CERTIFICATES.

Messrs. Price, Waterhouse & Co., certified public accountants, have made the usual audit of the Company's books and their certified statements covering Income and Surplus Accounts for the year 1921 and Balance Sheet at December 31 1921 follow:

PACIFIC GAS & ELECTRIC COMPANY AND MT. SHASTA POWER CORPORATION.

CONSOLIDATED INCOME ACCOUNT YEAR ENDED DEC. 31 1921.

Gross Revenue		$36,939,474 40
Deduct:		
Maintenance	$3,437,673 45	
Operating, Distribution and Administration Expenses	17,575,516 60	
Taxes	3,265,894 62	
Depreciation	3,069,077 72	
		27,348,162 39
		$9,591,312 01
Add:		
Miscellaneous Income		570,232 39
		$10,161,544 40
Deduct:		
Interest on Bonds Outstanding	$5,672,019 69	
Interest on Notes Payable	12,219 33

We have audited the books of the Pacific Gas & Electric Company and Mt. Shasta Power Corporation for the year ending December 31 1921, and certify that in our opinion the above balance sheet is properly drawn up so as to show the true financial position of the companies at December 31 1921.

PRICE, WATERHOUSE & CO.

San Francisco, Cal., April 7, 1922.

WESTINGHOUSE ELECTRIC & MANUFACTURING COMPANY

ANNUAL REPORT—FOR YEAR ENDED MARCH 31 1922.

Pittsburgh, Pa., May 20 1922.

To the Stockholders of
Westinghouse Electric & Manufacturing Company:

The Board of Directors submits the following report of the operations of your Company and proprietary companies for the fiscal year ended March 31 1922, together with the usual financial and other statements as of that date.

During the year the remaining amount of the outstanding capital stock of the Pittsburgh High Voltage Insulator Company was purchased and its accounts, including its operations for a period of fifteen months ended March 31 1922, are included in this report.

INCOME ACCOUNT FOR THE YEAR.

Gross Earnings:		
Sales Billed		$99,722,026 09
Cost of Sales:		
Factory Cost, including all Expenditures for Patterns, Dies and New Small Tools and Sundry Other Betterments and Extensions; also Depreciation of Property and Plant, Inventory Adjustments and Depreciation, and all Selling, Administration, General and Development Expenses, and all Taxes		93,461,846 00
Net Manufacturing Profit		$6,260,180 09
Other Income:		
Interest, Discount, Royalties, &c	$1,831,079 00	
Dividends and Interest on Sundry Stocks and Bonds Owned	842,729 65	
		2,673,808 65
Gross Income from All Sources		$8,933,988 74
Deductions from Income:		
Interest on Bonds and Notes Payable		3,096,600 08
Net Income Available for Dividends and Other Purposes		$5,837,388 66

There is included in Cost of Sales a charge of $1,422,206, which represents the amount of depreciation of inventories in excess of the $5,000,000 reserve which was set aside in last year's report.

The general business depression during the year is reflected by the reduced volume of Sales Billed, but an extreme depression in certain important departments reduced the net profits to a greater proportional extent than would be usual on the diminished amount of business.

Following is a condensed comparative statement of operations for the past six years:

	Year Ended March 31.					
	1922.	1921.	1920.	1919.	1918.	1917.
Gross Earnings—Sales Billed	$99,722,026	$150,980,106	$136,052,092	$160,379,943	$95,735,407	$89,539,442
Cost of Sales	93,461,846	138,774,084	120,972,262	144,667,402	80,225,937	72,077,752
Net Manufacturing Profit	$6,260,180	$12,206,022	$15,079,830	$15,712,541	$15,509,470	$17,461,690
Other Income	2,673,809	3,679,464	1,721,334	1,623,262	1,325,263	1,386,547
Gross Income from All Sources	$8,933,989	$15,885,486	$16,801,164	$17,335,803	$16,834,733	$18,848,237
Interest Charges, &c	3,096,600	3,267,950	1,594,823	2,276,795	1,429,052	768,348
Net Income Available for Dividends and Other Purposes	$5,837,389	$12,617,536	$15,206,341	$15,059,008	$15,405,681	$18,079,889

Due to the low volume of business taken during the year, the value of unfilled orders in hand has been reduced from $65,621,000, as shown in last year's report, to $50,740,696, as of March 31 1922. The contraction in orders booked continued throughout the year until January 1922, when there began a substantial improvement which has since been maintained. In addition to the favorable indications for an increasing demand for the regular lines of your Company's product, a large demand for Radio telephone receiving apparatus has recently developed with a prospect of its continuance for an indefinite period. It should be pointed out, however, that the ensuing year promises to be a period of keen competition.

Following is a statement of the Profit and Loss Account:

Surplus as of March 31 1921		$42,265,280 12
Net Income for the year		5,837,388 66
Miscellaneous Adjustments (Net)		206,311 09
Total		$48,308,979 87
DEDUCTIONS:		
Dividends on Preferred capital stock	$319,896 00	
Dividends on Common capital stock	5,664,999 00	
Total		5,984,895 00
Surplus March 31 1922		$42,324,084 87

The Consolidated General Balance Sheet appears on the following page.

With one minor exception all of the properties acquired for the manufacture of munitions are now being utilized for the manufacture of the regular products of your Company. Advantage has been taken of the reduction in volume of business during the year to rearrange certain special facilities for future operations. Following an established practice, the cost of such work, together with all expenditures for repairs, alterations and general improvements of buildings and equipment, has been absorbed in Cost of Sales.

The total of the expenditures charged to the Property and Plant account during the year was less than the total of depreciations applied to buildings and equipment, resulting in a net decrease in the account as compared with March 31 1921. No important additions or extensions to the manufacturing facilities are under consideraiton.

In the report for the previous year you were advised of an investment in the capital stock of The International Radio Telegraph Company. During the current year negotiations were concluded by means of which your Company, through its investment in The International Company, acquired a substantial interest in the capital stock of the Radio Corporation of America. Your Board believes that this investment will not only be a profitable one in itself, but that the manufacturing rights which it has secured place your Company in a trade position of great value.

Your Company has already, by the establishment of Radio broadcasting stations at the following points—Pittsburgh, Pa., Chicago, Ill., Springfield, Mass., and Newark, N. J.—created a substantially new manufacturing field and the demand for Radio telephone receiving apparatus, which began to be of importance in January 1922, has already reached large proportions.

The amount invested in United States Government securities represents an investment of surplus cash beyond current needs.

Inventories have been verified and the values of both domestic and foreign inventories were adjusted to current costs for manufactured products and to market prices for raw materials and supplies. The aggregate book value of all inventories on March 31 1922 shows a reduction of more than 30% as compared with March 31 1921.

The $20,775,000 current notes payable which were outstanding as of March 31 1921 have been paid and your Company has now no notes outstanding except funded debt. Other current liabilities also show substantial reductions.

Since the inauguration in 1920 of the Group Insurance Plan, the death benefits paid by the Insurance Companies to the dependents of your employees aggregate over $331,300.

The Employees' Savings Fund established in connection with the Insurance Plan shows savings aggregating $1,417,998, practically all of which is invested in United States Government securities.

The certificate of Messrs. Haskins & Sells, Certified Public Accountants, covering the audit by them of the books and accounts of your Company and proprietary companies, is reproduced below.

The Board of Directors desires to express to the stockholders its appreciation of the loyal and efficient services rendered by the officers and employees of your Company and the several proprietary companies.

By order of the Board of Directors.

GUY E. TRIPP, Chairman.

May 6 1922.

To the Board of Directors,
Westinghouse Electric & Manufacturing Company,
New York.

We have made an audit for the year ended March 31 1922 of the books and accounts of the Westinghouse Electric & Manufacturing Company and proprietary companies, viz.: Westinghouse Electric International Company, Westinghouse Lamp Company, The Bryant Electric Company, Westinghouse Electric Products Company, The Pittsburgh High Voltage Insulator Company, R. D. Nuttall Company, Pittsburgh Meter Company, Krantz Manufacturing Company, Inc., and New England Westinghouse Company.

We have verified the stocks and bonds owned and the cash and notes receivable by count or by proper certificates from depositaries.

We have examined the accounts receivable and in our opinion the reserves created therefor are sufficient to cover probable losses.

The inventories of raw materials and supplies, finished parts, completed apparatus and work in progress were taken under our general supervision and are valued at cost or less.

We hereby certify that, in our opinion, the accompanying Consolidated General Balance Sheet of March 31 1922 and Consolidated Statement of Income and Profit & Loss for the year so ended are correct; and we further certify that the books of the companies are in agreement therewith.

HASKINS & SELLS,
Certified Public Accountants.

WESTINGHOUSE ELECTRIC & MANUFACTURING COMPANY AND PROPRIETARY COMPANIES.

CONSOLIDATED GENERAL BALANCE SHEET MARCH 31 1922.

CONSOLIDATED STATEMENT OF INCOME AND PROFIT & LOSS FOR THE YEAR ENDED MARCH 31 1922.

Gross Earnings:		
Sales Billed		$99,722,026 09
Cost of Sales:		
Factory Cost, including all Expenditures for Patterns, Dies and New Small Tools, and Sundry Other Betterments and Extensions; also depreciation of Property and Plant, Invnetory Adjustments and Depreciation, and all Selling, Administration, General and Development Expenses and all Taxes		93,461,846 00
Net Manufacturing Profit		$6,260,180 09
Other Income:		
Interest, Discount, Royalties, &c	$1,831,079 00	
Dividends and Interest on Sundry Stocks and Bonds Owned	842,729 65	2,673,808 65
Gross Income from All Sources		$8,933,988 74
Deductions from Income:		
Interest on Bonds and Notes Payable		3,096,600 08
Net Income Available for Dividends and Other Purposes		$5,837,388 66
Profit & Loss Credits:		
Profit & Loss—Surplus, March 31 1921	$42,265,280 12	
Miscellaneous (Net)	206,311 09	42,471,591 21
Gross Surplus		$48,308,979 87
Profit and Loss Charges:		
Dividends on Preferred Capital Stock	$319,896 00	
Dividends on Common Capital Stock	5,664,999 00	5,984,895 00
Surplus per Balance Sheet		$42,324,084 87

The Commercial Times.

COMMERCIAL EPITOME

Friday Night, May 26 1922.

Business continues its upward climb. The prospect on the whole brightens. It is not without some drawbacks, but in the main trade and commerce are forging ahead. The outlook for the grain crops is better. And the weather in the cotton belt has improved. The great rains in the Southwest have died down or disappeared. The tendency is towards somewhat higher temperature there, even if the nights are still rather cooler than could be desired for normal germination. Iron and steel are active beyond expectations and prices are strong. Even the importation of 4,000 tons of Scotch pig iron has not greatly disturbed the market, though it may tend to check an advance in prices. Taken for all and all, the great industries of the country show more life. Building is especially active. Some New England shoe factories are starting up again under the stimulus of lower wages. In the upper Lake regions iron and copper mines are resuming work. The automobile factories are very busy and the output of some makes of cars is close to the maximum, if it does not exceed it.

One feature is the urgency of the call from automobile manufacturers for prompt deliveries of steel. That is one of the outstanding features of the steel trade. Consumers in general are not so well supplied with steel as had been supposed. Some of the Western mills are running, it is said, at 75 to 80% capacity. It is even claimed that in some instances they are working up to 90%. Finished steel mills, it appears, have orders on hand for two to three months to come. Railroads are buying supplies, including cars on a liberal scale. And the product of the field and in the factory will be benefited from July 1 onward by a cut in rail freights of 10%. Prices for cotton goods have been very firm. It is true that business has been only fairly active and that mills are now ready to accept orders for July delivery, whereas recently they were unwilling to book that far ahead. But the trend of things in the textile trade of cotton, wool and silks is towards betterment. Southern cotton mills are invading Canada. She even asks for protection. Lancashire is plainly alarmed at the possibility of a short crop of cotton in this country and has been buying American cotton in Liverpool on a large scale and has also been in the Southern markets for desirable grades.

It is true that industry has to contend with high prices for fuel linked with high wages as a further handicap, but of late soft coal is reported somewhat lower, even if it is still considerably higher than 60 days ago. It is hoped that the coal strike will soon be ended. It is understood that another conference will consider the matter. The lumber trade is active at strong prices. Floods in parts of the country are subsiding. The West is especially cheerful. From that section come the most optimistic reports about retail and jobbing trade. Cold wet weather has held back Southern trade, although the feeling there is very cheerful after the recent advance of $15 a bale in cotton. The stock market to-day was active and higher. And on the whole has acted very well during the week. Prices of commodities in the main have been well sustained. Grain markets have fallen. May wheat dropped about 14c per bushel. May hedgers were not squeezed to the extent that had been predicted. On the other hand, collections are not quite so prompt. European politics are still more or less disturbed. The situation in Ireland causes uneasiness. And some think that American trade is not rallying as strongly as could be desired, even though it is admitted that it is moving upward. That is to say, the recovery from the post-war depression is not rapid. Nobody asserts that it is. But previous rallies from historic business depressions following great wars, as history shows, were not rapid either. After the Civil War business recuperation was very slow. At times it seemed to fail or almost to fail. Reactions appeared to be under way. But after a time the slow but persistent climb towards a normal state of trade was resumed. Human civilization had to go on then as it must go on now. And it is a part of history that after the Civil War an equilibrium was finally established. And in the present case it will be reached sooner or later, despite the world depression which has followed the World War. Both that war and the business collapse that has followed have dwarfed anything in human history. But human society on this globe is stronger than ever before. It will find in the ancient phrase that as its day is so shall its strength be. The process of cure is now going on slowly, but seemingly with irresistible momentum.

The Jenckes Spinning Company of Pawtucket, R. I., declares that despite the strike it has working 1,919 out of a total force of 2,200 and has gained 500 since the picketing injunction went into effect. The Hamilton Mill at Lowell claims to have 1,400 workers in the plant. The strike at Lawrence, Mass., goes on. The refusal of the strikers at the Patchogue-Plymouth Mill of a second compromise offer was a damper. Manchester, N. H., dispatches say that one of the textile mills there is likely to reopen soon for any employees who care to accept the new wages and hour schedules. Greenville, S. C., reports that operations in the cotton mills are on night and day shifts on one-half the capacity of the Orr Cotton Mills. The Pendleton Cotton Mills of Anderson, S. C., have shut down because of dull market conditions. The mills produce yarns. The Moore Cotton Mill, Lenoir Cotton Mill and Steele Cotton Mill of Lenoir, N. C., are operating on full time with a full force. All three plants are said to have plenty of orders ahead. Canadian cotton mills complain of successful competition in their home markets of Southern States mills. A revision of the Canadian tariff is suggested to meet the situation. The Department of Commerce, Bureau of Census, reports the following percentages of idle machinery to the total reported: On May 1 woolen spinning, 17.3; on April 1, 17.5; on March 1, 20.1; worsted spindles on May 1, 38.4; on April 1, 25.3; and on March 1, 14.4.

The strike of union shoe workers in Cincinnati went into effect last Saturday. More than 6,000 workers went out. Longshoremen in Portland, Ore., have refused to accept the recommendation of the State Board of Conciliation for the ending of the present strike. Akron tire production now is close to 90,000 tires daily, or about 90% of the peak. Reports received by the Department of Commerce show a further increase in the production of automobiles during April. New records were made for the output of both passenger cars and trucks compared with the preceding 10 months, for which figures are available. With the reports lacking for only a few small companies, the total April production of passenger cars amounted to 196,512, or an increase of nearly 30% over the March production of the identical firms. The April truck production totaled 21.944 machines, compared with 19,449 from the same firms in March.

At Pittsburgh, on May 22, the Cranegie Steel Company resumed making steel at the Mingo works. The two Mingo furnaces that were banked early in April were put in operation. The Farrell stack, that was banked early in April, is in operation again, and the attendant steel works is resuming. Both Mingo and Farrell make sheet bars, the supply of which was insufficient. Members of the anthracite miners' general scale committee met here to frame a refusal of the operators' demands that wages be cut 21%.

The weather in the Southern States has been too cool at nights for the cotton crop. Here it has been generally warm and clear. The Continent of Europe is having remarkable heat. On May 24 Paris reported the hottest May day in 116 years. The thermometer reached 91.1 degrees Fahrenheit in the shade at 3.45 p. m. Paris was one of many capitals to feel a heat wave that began sweeping Western Europe five days ago. The heat generated a peculiarly stifling haze, although the sky was blue throughout France. The Weather Bureau predicted even greater heat for Thursday. It was even 90 degrees Fahrenheit in the Alps. Geneva cabled May 24 that the heat wave in the Alps region had broken a 90-year record for May. Snow and glaciers are melting rapidly and the Rhine and Rhone rivers are rising. An avalanche released by the heat destroyed an Alpine clubhouse, it was reported, on the summit of Mount Ferginkogel, 1,700 feet above sea level.

LARD easier; prime Western, 12.20@12.30c.; refined to Continent, 13.25c.; South American, 13.50c.; Brazil in kegs, 14.50c. Futures declined with packers selling and hogs lower with the early top in the week $10 65 and most sales at $10 15 and upward. But on the decline a fair demand appeared for lard. And meats, it was noticed, were in good demand. There was active covering at one time in ribs. All of which had a certain tendency to steady the prices for lard. To-day prices were slightly higher at times, ending a trifle irregular. But hogs were 5 to 10 cents higher. The ending for lard was 3 to 15 points lower the latter on July, as compared with a week ago. The weight of hogs is running 8 to 10 lbs. heavier than for corresponding weeks in recent years.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May delivery----cts.	11.25	11.22	11.20	11.27	11.32	11.37
July delivery----	11.45	11.37	11.35	11.37	11.47	11.45
September delivery----	11.70	11.65	11.60	11.62	11.72	11.72

PORK quiet; mess $26 50@$27; family $27@$29; short clear, $22@$25. May closed at $24, a rise for the week of $1 05. Beef quiet; mess, $13 50@$14 50; packet, $13@$14; family $16@$17; extra India mess, $24@$26; No. 1 canned roast beef, $2 25; No. 2, $3 25; 6lbs., $15. Cut meats firm; pickled hams, 10 to 20 lbs., 25c.@25½c.; pickled bellies, 10 to 12 lbs., 15½c.@17c. Butter, creamery extras, 37c.@38c. Cheese flats, 15c.@19c. Eggs, fresh gathered extras, 28½c@31½c.

COFFEE on the spot quiet and lower; No. 7 Rio, 10¾@10⅞c.; No. 4 Santos, 14¼@14⅜c.; fair to good Cucuta, 14¼@14½c. Futures declined for a time with Brazilian prices. Rumors of political disturbances in Brazil were denied. They had at one time it appears a certain effect. The new President of Brazil is said to be strongly in favor of valorization. But selling has been persistent, if not always heavy. Spot markets have been quiet. Supplies meet present requirements. Speculation was slower and tired bulls sold from time to time, despairing of any immediate improvement in the general situation. It came later, however. Some think the important thing to keep in mind is the idea or fact that bankers control one-half of the world's

visible supply and that the coming crop is expected to be inadequate; that there can be no accumulation of reserve stocks; receipts are restricted. Cables report that the 1922-23 crop will be much later than usual and liberal early shipments of new crop will be perhaps out of the question. It is reported that sales for future shipment of new crop Santos have already reached about half a million bags, mostly to Europe. The deliveries of Brazil are quite large, although spot sales are limited. The visible supply for the United States of Brazil coffee is decreasing, and is 1,081,283 bags, against 1,798,094 a year ago. Of the visible 287,460 bags are afloat and 283,000 are Government holdings and not for sale. Stocks in Brazil seaports show no increase and are 2,776,000 bags at Santos and 1,650,000 bags at Rio, a total of 4,426,000 bags, against 3,640,000 bags last year and 2,563,000 bags two years ago. Coffee men have protested to the Inter-State Commerce Commission against the annoying delay in settling the rail rate on green coffee from Galveston to Chicago. To-day prices advanced sharply on a rise in Brazil; buying here supposed to be by Brazilian interests and a good deal of covering of shorts. Local interests bought July and September freely. Santos receipts, it is said, will be restricted. New coffee will not be moving in volume, it is believed, until late in August. Prices closed 11 points higher on July for the week. At one time they were 16 points lower on July than a week ago, so that the rise from the "low" of the week was 27 points. The Board of Managers of the New York Coffee & Sugar Exchange have voted to close the Exchange on Saturdays in June, July and August, and Saturday, Sept. 2 for trading purposes. The Exchange will be open Saturday July 1.

SUGAR.—Spot raws have been firmer. Old crop Cuba sold early in the week at 2½c. for first half of June shipment, Philippine, it is said, at 4⅛c., and Porto Rico mid-June clearance at 4⅛c. c.i.f. for some 70,000 bags. Refined sold fairly at 5.30@5.50c.; sales for export were made at 3.75c. to 3.775c. for late June-July. A New York refiner paid 2⅝c. c.&f. for 21,000 bags Cuba, second half June shipment. New Orleans refiners also paid that price for June shipment to New Orleans. Cables said that the British market paid 13s. 7½d. for two cargoes of Cuba (2.47c. f.o.b. Cuba); later sellers were asking 13s. 9d. Sales of Cuba to refiners totaled about 100,000 bags at 2 9-16c. c.&f. on Wednesday. It was also reported that an operator bought 25,000 bags of Cuba July loading at 2½c. f.o.b. Cuba. And 30,000 bags of Porto Rico was said to have been sold at 4 3-16c. c.i.f. with outport options, June shipment. Receipts at United States Atlantic ports for the week were 62,804 tons, against 101,419 last week and 57,755 last year; meltings 90,000 tons, against 96,000 last week and 60,000 last year; total stock 215,744 against 242,940 last week and 229,967 last year. To-day prices declined slightly, but July is 3 points higher than week ago.

Spot (unofficial)	4.17c.	July	2.67@ 2.68	December	2.93@ 2.94
May	@	September	2.88@ 2.89	March	2.92@ 2.94

OILS.—Linseed declined slightly. Although most crushers are said to be asking 88c., it is intimated that in some quarters linseed was available at 87c. Most people in the trade believe that the reaction was due after the recent steady advance. Many would not be surprised to see the upward movement resumed before long. English oil has of late been weak, offerings in some cases, it is declared, being made at as low as 82c. Dutch oil was quoted at 80c.; spot English oil, in barrels, 84½c. asked. Paint and varnish interests are believed to have covered their present and nearby wants. The distant deliveries are attracting the most attention. May carloads, 88@90c.; less than carloads, 91@93c.; less than 5 bbls., 94@96c. Cocoanut oil, Ceylon, bbls., 8¾@9c.; Cochin, 8½@9c. Corn, crude, bbls. mills, 12c.; tanks, New York, 12@12¾c.; bbls., 9¾@10c. Olive, pure, $1 10@$1 12. Lard, strained winter, New York, 11½c.; extra, 10¾c. Cod, domestic 58c., Newfoundland 57@58c. Spirits of turpentine, 95@96c. Rosin, $5.40@$8. The last Census report stated the receipts of cottonseed at the mills from Aug. 1 to April 30 at 2,871,620 tons, or fully 1,000,000 tons less than in the same time last season. Seed crushed during the 9 months ended April 30, 2,922,886 tons, against 3,762,873 tons in the same time last year. Production of crude oil from Aug. 1 to the close of April was 900,286,098 lbs., against 1,204,874,499 lbs. in the sametime last season; quantity refined was 790,735,385 lbs., against 986,925,953 lbs. Stocks of seed at the oil factories April 30, about 146,000 tons smaller than same date in 1921; stocks of crude oil at the mills, 31,682,376 lbs., against 116,363,896 a year ago; refined, 303,098,757 lbs., against 372,890,195 last year. Stocks of seed at the Southern mills April 30, only 45,970 tons, against 191,813 tons last year. The Census report on consumption revealed disappearance of only 120,600 lbs. during April and indicated that about 200,000 bbls. of oil will be available monthly up to the first of September, and leave a small carryover. Some called it a very bearish document. Cottonseed oil sales to-day, 4,600, including switches. Crude S. E., 10c. Prices closed as follows:

Spot	11.65@12.00	July	11.75@11.76	October	11.21@11.24
May	11.65@	August	11.82@11.83	November	10.00@10.02
June	11.65@11.74	September	11.78@11.80	December	9.82@ 9.84

PETROLEUM.—Kerosene steadier. Although no large actual business has been done, negotiations are under way with export buyers for quite large quantities of cased goods. Gasoline is still firm. A further advance in prices would not be surprising to most people in the trade. Of late light fuel oils have advanced. The demand for crude oils has improved. Stocks are not overburdensome. There is a fair export demand for gas oil. Local consumers, however, appear to be well covered for the present. New York prices, gasoline, cargo lots, 33.25c.; U. S. Navy specifications, 20c.; export naphtha, cargo lots, 22c.; 63-66 deg., 25c.; 66-68 deg., 26c.; cases, New York, 15½c. Refined petroleum, tank wagon to store, 13c.; motor gasoline to garages, steel bbls., 27c. Production of petroleum is still gaining. The daily average for the week ended May 20 was 1,429,700 bbls., against 1,422,400 bbls. in the preceding week, an increase of 7,300 bbls. This week last year it was 1,328,570 bbls. Oklahoma produced 380,500 blbs. in the week ended May 20, against 380,200 in the previous week and 291,010 last year; Kansas, 81,800 bbls., against 82,000 in the previous week and 100,150 last year; north Texas, 50,300 bbls., against 50,000 in the previous week and 69,630 last year; central Texas, 146,650 bbls., against 145,100 in the previous week and 122,490 last year; north Louisiana and Arkansas, 127,900 bbls., against 123,550 in the previous week and 92,620 last year; Gulf Coast, 111,550 bbls., against 108,650 in the previous week and 113,670 last year; Eastern, 119,000 against 118,500 in the previous week and 130,000 last year; Wyoming and Montana, 72,000, against 74,400 in the previous week and 69,500 last year; California, 340,000 against 340,000 in the previous week and 339,500 last year. Imports of petroleum at the principal United States ports for the week ended May 20 totaled 3,075,057 bbls., a daily average of 439,294 bbls., against 2,888,000 bbls., a daily average of 412,600 bbls., for the week ended May 13. Receipts at Atlantic Coast ports for the week ended May 20 were 1,690,000 bbls., a daily average of 241,437 bbls., against 1,292,000 bbls., a daily average of 184,571 bbls., for the week ended May 13. Receipts at Gulf Coast ports were 1,385,000 bbls., a daily average of 197,857 bbls. against 1,596,000 bbls., a daily average of 228,029 bbls., for the week ended May 13.

RUBBER declined reflecting continued weakness in London. The decline there was attibuted to heavy liquidation. Business here in the main was small. Smoked ribbed sheets and first latex crepe spot 14½c.; July-Sept., 14¾c.; Oct.-Dec., 15¼c. Para quiet; up river fine 18c.; coarse, 12½c. Central Corinto. 10c.

HIDES have been in fair demand and are generally reported firm. It is stated that 4,000 Uruguayan steers have sold 22c. c.&f. here. The River Plate reports that 4,000 Uruguayan steers sold at $43 75 which is figured as equivalent to 17½c. sight credit. Bogota, 16@17c. In Chicago packer hides were reported active. May light native cows sold at 13¼c.; heavy and light steers 15c. and 14c., respectively; also 5,000 April and May Colorado steers at the new price of 13c.; 2,500 April and May native bulls at 9c. Later on Jersey City packer hides included 7,500 Colorados sold, it seems at 11c. and 3,500 butt brands at 12¼c.; 1,200 dry salted San Domingo at 10½c., an advance of 1½c. over the last sale some time ago. Country hides are firm, especially centred on 45-lb. hides.

OCEAN FREIGHTS have been dull and more or less depressed. Grain charters have been more active than anything else. Last week 26 grain steamers were fixed. Coal and oil tonnage has been largely neglected.

Charters included sugar from Cuba to Vancouver, $6 50, early June; grain from Atlantic range to West Coast of Italy, 20c., spot loading; coal from Hampton Roads to Havana, $1 45, prompt; grain from Montreal to Antwerp-Hamburg range, 15½c., May-June; from Atlantic range to West Italy, 20c., one port, 21c., two, May; sugar from north side of Cuba to north of Hatteras, 14c., prompt; grain from Atlantic range to West Coast of Italy, 20½c., June 5th cancelling; option of two ports at 1c. extra; from Montreal to West Coast of Italy, 4s. 6d., one port, 4s. 7½d. two, and 4s. 9d. 3 ports, prompt; from Atlantic range to West Coast of Italy, 20c., prompt; deals from Campbellton to United Kingdom, 75s., June; lumber from Campbellton, N. B., to River Plate, $13, June-July; sugar from Cuba to United Kingdom, 22s., June; grain from Atlantic range to Antwerp-Hamburg range, 14c., one port, 14½c. two ports, June; option of oats at 20c.; grain from Montreal to a safe port in Black Sea, 29c., bulk, June; lumber from Savannah to Philadelphia, $5, free loading and discharge prompt.

TOBACCO has been in moderate demand at about steady prices. There is no doubt that buyers are refusing to buy heavily. There is unmistakably a policy of caution. The business is in small lots. Havana tobacco receives rather the most attention in some quarters. In general, however, the trade is light, although holders insist that recent prices are maintained.

COPPER higher. Electrolytic, 13¾c.@13⅞c. On the 23rd instant London advanced 5s for standard copper and 10s. for electrolytic. The copper Export Association is said to be firmly holding for 14c. f. a. s. New York. There is a good export demand. Yet there are those who believe that prices have reached their peak. And there are the reports that the Connecticut Valley brass industry is threatened with strikes and that there is a shortage of labor. The scarsity of coal too might tend to retard operations. Later however some producers were said to be asking 14c. Tin higher; spot 31⅛c. London advanced late in the week. Prices there advanced 15s. on the 24th instant and the next day gained 10s. more. Lead steady; spot New York 5.60@5.65; St.

Louis 5.40c.@5.45c. Early in the week sales were reported of as high as 5.75c. New York. Zinc firmer with a larger inquiry for June and July. Spot New York 5.45c.@5.50c. St. Louis 5.10c.@5.15c.

PIG IRON advanced $1 on charcoal; now $25 50 in the Lake Superior district. Connellsville coke is $5 25 for the second half of 1922. Rail freight will be cut 10% on July 1st. Theoretically, at least, it will cause a decline in pig iron of $1 through lower prices for coke ore and limestone. This with imports of British seems to set bounds to any possible advance in June. Besides American production will be stimulated by present prices. And foreign iron is attracting widespread attention. Two cargoes of Scotch iron sold at a price around $24 c.i.f. Atlantic ports compared with $25 54 the ruling price of Eastern No. 2X at Philadelphia., and 250 tons of Belgian iron sold on the Pacific Coast. London cabled the other day sales of 1,500 tons British iron for delivery at Baltimore with 10,000 tons under construction.

STEEL has been in good demand and firm. Higher cost of fuel and wages may neutralize the effect of rail freight reductions. At the same time the demand is better than had been expected. It keeps up in a way to encourage the mills. One company just got an order from the Japanese Government for 10,500 tons of rails. Steamship orders require 9,000 tons of shapes and plates. Oil storage tanks for Hawaii call for 7,000 tons of plates. But for bars the demand is the sharpest for two years past. On new orders 1.60c. is the lowest. Some independent mills ask 1.70c. Automobile plants want prompt deliveries of bars, as their stocks are much depleted. In the West there is a sharp demand for hard bars for farming implements. One mill which had been closed for a year and a half is about to resume work. In a word, while a good many had supposed that the big buying in March and April had pretty well supplied consumers, it turns out to be otherwise. Car orders are persistent. Most mills and furnaces are heavily booked for weeks ahead. Of late new business has lagged somewhat. Still the tone is cheerful.

WOOL has been rather firmer of late with a moderate business at the East. Western markets have been active and strong. Boston reported that much interest was felt in the sale at San Angelo, Tex., on May 22, where between 200,000 and 300,000 lbs. of the new clip were offered. It is understood that the wool is being sold by separate clips this year rather than as one large pool, as in other years. Reports were therefore less prompt. Best prices were reported strong. Some high prices were rumored. In Boston trade has been moderate at firm prices. Later advices from the wool sale at San Angelo, Tex., indicated the highest prices of the year in the West, i. e., 46c. to 52¼c., the latter for wool estimated to shrink about 61%, or somewhat better than $1 35, clean landed Boston, for the best staple wools. About 200,000 lbs. were offered, or less than was expected. Clean landed costs were stated at about $1 30 to $1 35 for the best stapled lots, $1 25 to $1 30 for French combing and about $1 20 for the clothing wool. Compared with the Eastern level these prices look rather stiff. Boston was heartened. It was said that fine scoured wools sold at $1 10. The withdrawal of its various lines by the American Woolen Co. is understood to be for the purpose of fixing a higher price basis unless wages are reduced. Of this there seems to be no great likelihood just now. Buyers are a bit wary at these prices for wool.

When trade is resumed between Australia and Germany, according to reports received by the Textile Division, Department of Commerce, efforts will be made to dispose of large stocks of coarse wools in Germany. On May 19 at Wanganui, N. Z., 7,400 bales were offered and 7,100 sold. Attendance good; demand excellent. Compared with the prices on Mar. 20, crossbreds medium advanced 1½d. to 2d. and coarse ½d. to ¾d.; inferior about unchanged. In London on May 19 the third series of wool auctions this year ended with a joint offering of 8,800 bales, a total for the series of 157,000 bales, of which 155,000 bales sold. British buyers took 102,000 bales, the Continent some 50,000 bales, and America 3,000. Compared with the previous series, held in March, super-merinos advanced 5%, medium to inferior merinos 10 to 15%, crossbreds, fine to medium, 10 to 15%, and coarse crossbreds 15 to 20%. The offerings on May 19 were all sold at prices equal to the best of the series.

At Napier New Zealand, on May 22, 4,714 bales were offered and 4,500 sold. Home, Continental and American operators bought in sharp rivalry. It was a fairly representative wool selection. Prices for cross breds were: Good to super 46-48s, 9¼d.; low to medium 8d.; good to super 44-46s, 8¾d. to 9d.; low to medium, 5¼@7d.; good to super 40-44s, 6½d. to 7½d.; low to medium, 4d. to 5½d.; good to super 36s (coarse), 5½d. to 6¼d.; low to medium, 4d. to 5d. In Liverpool on May 25 38,772 bales were offered and all sold. Attendance large. Demand sharp from British and Continental traders. Prices fully at London parity. Details: Sydney, greasy combings, 33½d.; fine crossbreds, 22½d.; scoured combings, 43½d. Queensland, scoured lambs, 43d.; clothing, 37d.; greasy super combings, 27d. Victoria, extra super comeback combings, 31½d.; greasy supers, 21½d. New Zealand scoured combings, 46d.; greasy fine crossbred, 15d. At Wellington, N. Z., on May 25 5,000 bales were offered and 4,750 bales sold. Attendance fair. Demand excellent. Prices ended ¾d. to 1½d. above those of April 5th.

COTTON

Friday Night, May 26 1922.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 109,273 bales, against 106,558 bales last week and 124,013 bales the previous week, making the total receipts since the 1st of August 1921, 5,493,815 bales, against 5,747,648 bales for the same period of 1920-21, showing a decrease since Aug. 1 1921 of 253,833 bales.

* Estimate.

Speculation in cotton for future delivery after weeks of activity died down somewhat, though to-day it was larger again. And fluctuations as a rule have been within narrower limits. Still, there has been some net advance in prices in the teeth of heavy liquidation and better weather. Crop reports, it is true, have been in the main bad. They have been for many weeks past. It will take more than a day or a week or two weeks to give the outlook a really better appearance. At any rate, that is the general idea. And the U. S. Agricultural Department has made a very important change in the list of its calculations of the par yield per acre for the report of June 25 and later reports this season. In other words, where it recently stated the 100% yield for the report of May 25 as 237.7 lbs. per acre, it has now put it at 221.5 lbs. And for June 25 it has reduced it from 232.4 lbs. recently, to 215.8 lbs.; for July 25, from 240.1 lbs. to 224.4 lbs.; for Aug. 25 from 268.7 to 256 lbs.; for Sept 25, from 293.8 lbs. to 280.2. One firm which had estimated the crop at 10,990,000 bales on the basis of 65% condition and an acreage estimated at 34,003,000 acres and a yield per acre on the Government's older figures of 237.7 lbs., promptly lowered its estimate of the crop to 10,243,000 bales. It is calculated that the lowered percentages per acre may make a difference in this year's Government reports of 500,000 to 700,000 bales decrease. In other words, it was a very important change. It was made after some sharp protest here and in New Orleans to the effect that the basis of 237.7 lbs. per acre for June 2 report was altogether too high. Apart from this there is a general fear that the crop this year will not come up to expectations. At least 12,000,000 bales, it is felt, are needed. One estimate just mentioned of 10,250,000 bales would be entirely too small. Many would feel safer with a crop of 13,000,000 bales. The weekly Government report was in the main unfavorable. There has been too much rain over most of the belt. Germination is slow in some sections. It seems a fair inference from the tenor of the report that the season is late. Private reports say that it is two to three weeks late, or even more than that. As the case stands, supplies are steadily disappearing. Consumption is steadily increasing. Weekly inroads on reserves excite comment. It is supposed that the available supply of American cotton in this country on Aug. 1 may not much exceed 1,500,000 bales, and that this will be sensibly reduced before cotton can begin to arrive in volume, say in October.

Of course, these calculations are based merely on estimates. Nobody can possibly know the future. But the evidence is clear enough to nine men out of ten that the drift is towards a rapid vanishing of much needed supplies. Af the same time the crop outlook is believed to be distinctly unfavorable. Good weather in June could do wonders, no doubt. At least, it could greatly improve the outlook. And June is apt to have that kind of weather. Will it have it this year? A good many are supposed to be banking on the fact that June is favorable in eight years out of ten. But, it is asked, is 1922 going to be one of the two bad years out of ten? Or one of the eight goods years out of ten? Some think that those who are selling on the chance of a bright June may find themselves reckoning without the real June. Meantime rallies are easy; reactions come none too easily. More than once of late prices have declined under a good "map." But only for a time. Often on the same day they would rally and close a little higher. It is noticed that on declines contracts suddenly become scarce. Prices did fall recently about 100 points from the "high." But they have regained about half of this. And the point is that most of the recent rise of 300 points is still held. That of itself is considered significant. The price refuses to go down and stay down. Liverpool's spot sales have continued large. They have recently been at the rate of 12,000 to 16,000 bales a day. This activity has continued for weeks past. It seems clear enough evidence that Manchester is alarmed. And Manchester is buying futures in Liverpool also. In this country spot markets have latterly been firmer. Fall River is doing a fair business at strong prices. Worth Street is firm. Foreign wool sales have been at rising prices. Wool in this country is strong. The tire industry is buying cotton steadily. It is said to use annually, allowing for wastage, about 500,000 bales. Pawtucket, R. I., cotton mills are said to be gaining hands. One of them has recovered, it seems, 500 workers since the picketing injunction went into effect. Determined efforts are being made to end the Lawrence, Mass., strike. They have not been successful thus far, but it is believed in some quarters that the end of the strike is not far off. On June 1 it is said it will be considered by a convention of cotton manufacturers at Fall River. Greenville, S. C., mills are said to be working night and day shifts, on one-half of capacity in mills employing 3,000 operatives. North Carolina mills are also said to be busy in some cases.

On the other hand, after a rise of $15 a bale and with June close at hand a good many are inclined to look for a reaction. The sold-out bulls want it. Others think that it is bound to come. Texas rains have died down. The outlook is for better weather in the Southwest generally. The minimum temperatures have latterly risen. A recent trouble was cold nights. Even now temperatures are not high enough at night and in the early morning, but there is some improvement. And some still smile at the idea of killing the crop in May, especially when planting has not yet been completed and development has not everywhere been up to the point where much real injury could be suffered. Some Southern people, as well as members of the trade here, take that view of the matter. Speculation has slowed down at New York, New Orleans and Liverpool. Manchester is reported less active. Spot markets in this country have been more quiet. Some think that there is a considerable long interest here. The Continent has at times been selling in Liverpool. Stop orders were reached there early in the week. One recent crop report put the condition at 73.8%, as against a 10-year average at this time of the year of 74.5%. A year ago it was 66%, and in 1920 62.4%. And it is recalled that the low June condition for 1920, the lowest on record for that month was followed by a sharp improvement later on and a crop that amazed everybody. That is to say it reached, according to one estimate, 13,300,000 bales. If we could get such a crop this year it would replenish supplies and ease prices, it is believed, very noticeably. Just now many are looking on. They are awaiting the June 2 report by the Government. They are also waiting to see how June weather will look. To-day prices advanced 30 to 45 points, the latter on July. July increased its premium over October to 39 points. On Tuesday last it was only 15 points. It turns out that too many had sold July in the expectation that it would break badly as soon as May trading ceased. That month went out on May 24 very strong. To-day there were heavy rains in Georgia, and reports of rains in Texas, though over night there were none. Weekly statistics were bearish: that is showing a falling off in spinners' takings. Some think recent big rains in Texas may, after all, turn out in the end to be quite as beneficial as otherwise. Crop reports to-day from various sources put the condition at 67 to 69.3%. One crop estimate, as stated above, was 10,470 000 bales. This would be too small for the world's requirements. Spot markets were firm. But there was less spot business in Liverpool. Manchester's business was again reported to have fallen off. The ending here was 38 to 63 points higher for the week, the latter on July. Spot cotton ended at 21.50c for middling, or 5 points higher than a week ago.

The official quotation for middling upland cotton in the New York market each day for the past week has been:

May 20 to May 26—	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
Middling uplands	21.45	21.80	21.60	21.50	21.50	21.50

NEW YORK QUOTATIONS FOR 32 YEARS.

The quotations for middling upland at New York on May 26 for each of the past 32 years have been as follows:

1922	21.50c.	1914	14.20c.	1906	11.90c.	1898	6.50c.
1921	13.05c.	1913	12.00c.	1905	8.50c.	1897	7.75c.
1920	40.00c.	1912	11.60c.	1904	13.05c.	1896	8.06c.
1919	34.00c.	1911	15.80c.	1903	11.70c.	1895	7.38c.

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and consequently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Friday), we add the item of exports from the United States, including in it the exports of Friday only.

May 26—	1922.	1921.	1920.	1919.

Continental imports for past week have been 72,000 bales.

The above figures for 1922 show a decrease from last week of 77,250 bales, a loss of 1,534,634 bales from 1921, a decline of 787,862 bales from 1920 and a falling off of 63,450 bales from 1920.

AT THE INTERIOR TOWNS the movement—that is, the receipts for the week and since Aug. 1, the shipments for the week and the stocks to-night, and the same items for the corresponding periods of the previous year—is set out in detail below:

Towns.	Movement to May 26 1922.				Movement to May 27 1921.

a Last year's figures are for Hugo, Okla. *b* Last year's figures are for Clarksville, Texas.

The above totals show that the interior stocks have *decreased* during the week 56,164 bales and are to-night 714,461 bales less than at the same time last year. The receipts at all towns have been 33,266 bales less than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE AUG. 1.—We give below a statement showing the overland movement for the week and since Aug. 1, as made up from telegraphic reports Friday night. The results for the week and since Aug. 1 in the last two years are as follows:

	1921-22		1920-21	
May 26—		*Since*		*Since*
Shipped—	*Week.*	*Aug. 1.*	*Week.*	*Aug. 1.*
Via St. Louis	9,385	743,718	17,755	701,752
Via Mounds, &c	6,305	339,386	3,540	227,710
Via Rock Island	----	7,918	643	34,190
Via Louisville	867	75,362	2,515	60,248
Via Virginia points	5,020	227,776	5,286	121,803
Via other routes, &c	8,736	370,720	19,948	424,194
Total gross overland	30,313	1,764,880	49,687	1,569,897
Deduct Shipments—				
Overland to N. Y., Boston, &c	3,125	161,878	5,932	115,765
Between interior towns	546	25,089	1,043	41,544
Inland, &c., from South	4,592	344,457	1,727	272,679
Total to be deducted	8,263	531,424	8,702	429,988
Leaving total net overland *	22,050	1,233,456	40,985	1,139,909

* Including movement by rail to Canada.

The foregoing shows the week's net overland movement has been 22,050 bales, against 40,985 bales for the week last year, and that for the season to date the aggregate net overland exhibits an increase over a year ago of 93,547 bales.

	1921-22		1920-21	
In Sight and Spinners' Takings.	*Week.*	*Since Aug. 1.*	*Week.*	*Since Aug. 1.*
Receipts at ports to May 26	109,273	5,493,815	119,852	5,747,648
Net overland to May 26	22,050	1,233,456	40,985	1,139,909
Southern consumption to May 26*a*	72,000	2,986,000	60,000	2,454,000
Total marketed	203,323	9,713,271	220,837	9,341,557
Interior stocks in excess	*56 164	*334,164	*23,072	636,716
Came into sight during week	147,159	-------	197,765	-------
Total in sight May 26	------	9,379,107	------	9,978,273
Nor. spinners' takings to May 26	24,663	1,960,834	51,922	1,695,320

* Decrease during week.

a These figures are consumption; takings not available.

Movement into sight in previous years:

Week—	*Bales.*	*Since Aug. 1*—	*Bales.*
1920—May 28	139,781	1919-20—May 28	11,249,039

WEATHER REPORTS BY TELEGRAPH.—Reports to us by telegraph from the South this evening denote that generally favorable weather has prevailed during the week. In the central and eastern States the nights have been too cool and in Oklahoma, although good weather prevailed during the early part of the week, heavy rains were reported to have fallen during the latter part. Fairly good progress is said to have been made in southern Texas, but in a great part of that State the soil is still claimed to be too wet for work. Most districts indicate a late crop. The boll weevil is reported at work in part of Oklahoma and throughout Georgia. Our Mobile correspondent reports nights somewhat too cool, but states that fair progress has been made and that stands are generally good. No weevil damage has

occurred in that district. Preparation of the lowlands is progressing satisfactorily. Planting continues.

Vicksburg	Above zero of gauge	49.4	38.3

WORLD'S SUPPLY AND TAKING OF COTTON.—

The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Aug. 1 for the last two seasons, from all sources from which statistics are obtainable; also the takings, or amounts gone out of sight, for the like period.

Cotton Takings. Week and Season.	1921-22.		1920-21.	
	Week.	Season.	Week.	Season.
Visible supply May 19	5,239,322	-------	6,737,658	-------
Visible supply Aug. 1	------	6,111,250	------	4,956,257
American in sight to May 26	147,159	9,379,107	197,765	9,978,273
Bombay receipts to May 25	65,000	2,973,000	90,000	2,291,000
Other India shipm'ts to May 25	17,000	197,000	12,000	220,000
Alexandria receipts to May 24	6,000	666,000	10,000	565,000
Other supply to May 24 *	*b*5,000	*b*323,000	4,000	543,000
Total supply	5,479,481	19,649,357	7,051,423	18,353,530
Deduct—				
Visible supply May 26	5,162,072	5,162,072	6,696,706	6,696,706
Total takings to May 26 *a*	317,409	14,487,285	354,717	11,656,824
Of which American	205,409	10,361,265	246,717	8,451,824
Of which other	112,000	4,126,020	108,000	3,205,000

* Embraces receipts in Europe from Brazil, Smyrna, West Indies, &c.
a This total includes the estimated consumption by Southern mills 2,986,000 bales in 1921-22 and 2,454,000 bales in 1920-21—takings not being available—and the aggregate amounts taken by Northern and foreign spinners, 11,501,285 bales in 1921-22 and 9,202,824 bales in 1920-21, of which 7,375,265 bales and 5,997,824 bales American. *b* Estimated.

INDIA COTTON MOVEMENT FROM ALL PORTS.—

The receipts of India cotton at Bombay and the shipments from all India ports for the week and for the season from Aug. 1 for three years, have been as follows:

May 25. Receipts at—	1921-22.		1920-21.		1919-20.	
	Week.	Since Aug. 1.	Week.	Since Aug. 1.	Week.	Since Aug. 1.
Bombay	65,000	2,973,000	54,000	2,244,000	81,000	3,027,000

Exports	For the Week.				Since August 1.			
	Great Britain.	Conti-nent.	Japan & China.	Total.	Great Britain.	Conti-nent.	Japan & China.	Total.
Bombay—								
1921-22	------	9,000	19,000	28,000	30,000	411,000	1,509,000	1,950,000
1920-21	------	------	70,000	70,000	22,000	434,000	932,000	1,388,000
1919-20	------	5,000	13,000	18,000	73,000	400,000	1,575,000	2,048,000
Other India—								
1921-22	1,000	16,000	------	17,000	10,000	169,000	18,000	197,000
1920-21	------	------	------	------	21,000	174,000	27,000	222,000
1919-20	2,000	7,000	4,000	13,000	48,000	171,000	226,000	445,000
Total all—								
1921-22	1,000	25,000	19,000	45,000	40,000	580,000	1,527,000	2,147,000
1920-21	------	------	70,000	70,000	43,000	608,000	959,000	1,610,000
1919-20	2,000	12,000	17,000	31,000	121,000	571,000	1,801,000	2,493,000

According to the foregoing, Bombay appears to show an increase compared with last year in the week's receipts of 11,000 bales. Exports from all India ports record a decrease of 25,000 bales during the week, and since Aug. 1 show an increase of 537,000 bales.

ALEXANDRIA RECEIPTS AND SHI MENTS.—

We now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, May 24.	1921-22.		1920-21.		1919-20.	
Receipts (cantars)—						
This week	45,000		115,092		5,447	
Since Aug. 1	3,983,211		4,274,707		5,629,964	
Exports (bales)—	*Week.*	*Since Aug. 1.*	*Week.*	*Since Aug. 1.*	*Week.*	*Since Aug. 1.*
To Liverpool	----	151,041	----	99,849	----	246,824
To Manchester, &c	7,000	128,040	4,017	79,522	1,250	143,743
To Continent and India	5,000	192,317	6,011	125,627	1,275	130,571
To America	----	166,276	----	44,323	1,250	282,597
Total exports	12,000	637,674	10,028	349,321	3,775	803,735

Note.—A cantar is 99 lbs. Egyptian bales weigh about 750 lbs.
This statement shows that the receipts for the week ending May 24 were 45,000 cantars and the foreign shipments 12,000 bales.

MANCHESTER MARKET.—

Our report received by cable to-night from Manchester states that the market for both yarns and cloths is dull, but steady in consequence of Liverpool news. We give prices to-day below and leave those for previous weeks of this and last year for comparison:

	1921-22.			1920-21.

SHIPPING NEWS.—

As shown on a previous page, the exports of cotton from the United States the past week have reached 97,905 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

	Bales.
NEW YORK—To Liverpool—May 19—Assyria, 10; Cedric, 171 ---May 24—Scythia, 202	383
To Havre—May 19—Lafayette, 50---May 24—Blair, 16	66
To Antwerp—May 19—Gothland, 23	23
To Bremen—May 19—America, 312	312
GALVESTON—To Bremen—May 18—Roman Prince, 6,746	6,746
To Havre—May 19—Effna, 9,283	9,283
To Liverpool—May 24—Chancellor, 11,185	11,185
To Oporto—May 23—West Chetac, 616	616
To Bilboa—May 23—West Chetac, 100	100
NEW ORLEANS—To Liverpool—May 20—Mercian, 13,760---May 25—Collegian, 2,930	16,690
To Bilboa—May 19—West Chetac, 50	50
To Oporto—May 19—West Chetac, 1,450	1,450
To China—May 20—Heffron, 3,250	3,250
To Venice—May 25—Kossuth Ferencz, 3,650	3,650
To Hamburg—May 23—Sachsenswald, 1,245—Hilde Hugo Stinnes, 100	1,345
To Genoa—May 25—Kossuth Ferencz, 1,150	1,150
To Havre—May 23—Jacques Cartier, 739	739
To Trieste—May 25—Kossuth Ferencz, 300	300
BALTIMORE—To Genoa—May 9—City of St. Joseph, 1,275	1,275
BOSTON—To Liverpool—May 11—Digby, 33	33
BRUNSWICK—To Bremen—May 24—Jacob Christensen, 1,600	1,600
CHARLESTON—To Bremen—May 20—Coldwater, 2,100	2,100
To Hamburg—May 20—Coldwater, 8,532	8,532
HOUSTON—To Liverpool—May 20—Chancellor, 2,918---May 25—Cripple Creek, 3,245	6,163
To Manchester—May 25—Cripple Creek, 144	144
MOBILE—To Bremen—May 18—Clavarack, 4,092	4,092
To Hamburg—May 18—Clavarack, 484	484
To Liverpool—May 21—Eastern Sun, 1,880	1,880
To Manchester—May 21—Eastern Sun, 319	319
NORFOLK—To Liverpool—May 20—West Quechee, 400	400
To Manchester—May 23—Conehatta, 1,090	1,090
To Bremen—May 25—Georgian, 500	500
To Rotterdam—May 25—Blijdendijk, 543	543
PENSACOLA—To Liverpool—May 25—Afoundria, 205	205
SAVANNAH—To Bremen—May 23—Balto, 3,312	3,312
To Hamburg—May 23—Balto, 83	83
To Liverpool—May 24—Tulsa, 5,432	5,432
To Manchester—May 24—Tulsa, 2,380	2,380
Total	97,905

COTTON FREIGHTS.—

Current rates for cotton from New York, as furnished by Lambert & Barrows, Inc., are as follows, quotations being in cents per pound:

	High Density.	Standard.		High Density.	Standard.		High Density.	Standard.

BREADSTUFFS

Friday Night, May 26 1922.

Flour has been firmer at times when wheat has rallied. But on declining wheat markets buyers have held aloof. In fact, all through the week there has been an absence of real activity in business. Buyers are more or less prejudiced by the erratic course of the wheat market. It is up one day and down the next. May wheat on Tuesday advanced 4½c. The next day it dropped 6c. July wheat has been equally volatile within a narrower range. It all makes for unsettlement, and caution on the part of buyers of flour. That is perfectly natural. Besides, it is conceded that a good many local dealers have quite a little flour due them for early delivery. They are in no immediate need of further supplies. At the same time export trade has been as a rule quiet. There was a rumor that 100,000 bbls. had been sold of Canadian wheat for export to a Black Sea port. But this was not fully confirmed. In fact, some people scouted it. Russia has recently been buying Canadian straights. But those who negotiated this business very much doubted the truth of reports of additional large transactions. Aside from this rumored business, actual export trade has been small. Exporters' bids have been too far below the asking prices for the commoner grades. The foreign demand has recently centred on these.

Wheat declined early in the week owing to large supplies, favorable crop news and a poor export demand. The quantity in passage to Europe increased nearly 4,000,000 bushels. May gave way more than July. Liquidation was heavy. On the 23rd inst. deliveries on May contracts were 710,000 bushels. The receipts at Chicago were liberal. The export trade, such as it was, appears to have been mostly in Manitoba wheat. Recent rains in Nebraska are described as highly beneficial. Early in the week Minneapolis premiums fell 1 to 3c. The Southwestern crop movement continues larger than that of last year. Buenos Aires prices fell ¾ to 1¼c at one time. But on the 23rd inst. prices suddenly turned upward, May becoming strong on renewed demand. Reports of export buying aslo helped to brace prices. Several cargoes are to be moved from Chicago for export. This caused instant covering of shorts. Shipments were large to consumers at the East and in Europe. The receipts at most primary markets were small. New crop months were firm. Liverpool at times has made little response to declines in prices in this country. Some rather less favorable private crop reports have come from parts of the Southwest. There was an intimation, none too clear, perhaps, that chinch bugs had made their appearance. Vague reports were heard, too, of sales of 100,000 bbls. of Canadian flour for export. Eastern interests have been covering in July in Chicago after having recently sold persistently. Europe also bought July from time to time. The milling demand here and at St. Louis has now and then improved somewhat. While May has been erratic, July has been inclined to be more steady. The United States visible supply decreased 1,576,000 bushels last week, against 1,685,000 in the same week last year. The total, it is true, is still 26,410,000 bushels, against 9,465,000 a year ago.

The receipts in Chicago on the 23rd totaled 398 carloads. In addition, railroads west of Chicago had, it seems, ordered wheat shipments rushed to Chicago and were guaranteeing a 24-hour schedule for such shipments from points on the Missouri River. Under such circumstances big deliveries at Chicago every remaining day this month were predicted.

On the 24th inst. May wheat broke 6c and July 3¼c on big selling. The Government weekly weather report was good as regards both the winter and the spring wheat belt. Export demand fell off, whether for new or old crop.

On the 25th inst. May wheat broke 4½c, with sentiment generally bearish at Chicago. Liverpool was somewhat lower. Crop reports were good, especially at the Northwest. Milling demand was poor.

Wheat on passage increased 3,800,000 bushels for the week, but the total is 64,000,000, as against 90,900,000 a year ago. Bradstreet's total wheat supply decreased 2,341,000, and is 139,168,000, against 122,677,000 a year ago.

To-day prices fell early ¾c to 2¾c, with May deliveries of 900,000 bushels. They came as a surprise and had all the more effect. They ended with May 1½c lower and July ⅝c higher. For the week May is down 13½c and July 2c.

Indian corn advanced a little on May, while July remained almost stationary. Both fell later. Rains in Illinois have interfered with planting, but they have had no marked effect. Nothing seems to be able to lift the market out of the rut into which it has fallen. Spot prices have not moved decisively. The visible supply in this country fell last week 1,241,000 bushels, against 2,419,000 last year. This still leaves the total, to be sure, 30,660,000 bushels, against 15,332,000 a year ago.

The Iowa crop report said corn planting was about completed. It estimated the acreage at 95%.

On the 24th inst. it seems that 500,000 bushels were sold for export. Exporters seem inclined to buy to some extent on any satisfactory decline. Also, it was noticeable on the 25th inst. that corn made very little response to the decline in wheat. To be sure, it dropped ½ to ¾c early, but this was recovered later on. Selling pressure is absent, partly, it seems, because prices for corn and cattle are still high.

On the 24th inst. prices fell with those for wheat. Chicago business with the seaboard lagged. Duluth was offering at lower prices. Corn germinated rather poorly in the extreme upper Mississippi Valley, but in most other sections early planted is coming up to a good stand. To-day prices showed little change. The close was ¼ to 1c lower for the week, the latter on July.

Oats declined at one time with wheat, but the fluctuations have been within very narrow bounds. Omaha interests have sold July rather freely. The visible supply in the United States fell last week 1,417,000 bushels, against 1,242,000 last year. The total is 51,509,000 bushels, against 28,035,000 a year ago. Cash interests have been buying at times in Chicago, presumably against sales in the East.

Later in the week the cash demand was somewhat better. Moreover, the Iowa weekly report on the crop prospects was none too favorable. Export sales on Wednesday were 150,000 bushels. This, of course, was small, but it indicated that there was at least some inquiry from foreign markets.

The Iowa report said that oats were making a fine growth and estimated the acreage at 100%.

On the 24th inst. prices followed those for other grain downward. The weekly report said that oats are generally backward in the interior valley States, but the crop improved during the week in most sections. Stands are reported thin in Iowa, but the crop is in good condition in central great plain States. Chicago has been selling. A moderate export trade was done at via Montreal, according to reports here. But the market lacked real life and snap. To-day prices advanced ⅛ to ¼c, ending, however, ⅜ to 1c lower for the week, the latter on July.

Rye has declined with other grain, especially as trade has been for the most part quiet. The visible supply increased in this country last week 146,000 bushels, against a decrease last year of 27,000. The total is now 6,354,000, against 1,578,000 bushels a year ago. There have been rumors of export business. The trouble as a rule was to confirm them. But on the 23rd inst. it was stated that sales within a week to foreign markets had reached about 1,250,000 bushels. The cash situation at that time looked pretty steady. As to futures, however, it is another matter. They have felt the undertow of other grain. As a rule, business for domestic account has been only moderate. And if there has been any business of importance for export this week it has been kept quiet. In truth, the market has lacked features of striking interest. Everybody is waiting for something new to turn up and give trading the much needed filip. On the 25th inst. May deliveries in Chicago were 95,000 bushels. To-day prices showed little change, but they are 5½c lower for the week.

On the 24th inst. export sales were reported of 300,000

bushels. And again it was emphasized that available supplies of cash rye were none too plentiful. Yet, on the 25th inst. prices declined 2½ to 3c in sympathy with a break in wheat.

WEATHER BULLETIN FOR THE WEEK ENDING MAY 23.—The influence of weather conditions on the crops is summarized in the weather bulletin issued by the Department of Agriculture for the week ending May 23 as follows:

Conditions favored continuation of satisfactory growth of winter wheat in practically all important producing areas. The crop received much-needed moisture in Nebraska and showers were beneficial in South Dakota, but at the close of the week rain was still needed in much of Iowa. Wheat was becoming very weedy in the western third of Kansas and stands are thin on many fields in Nebraska. Wheat was heading as far north as the latter State.

Cool and cloudy weather prevailed in the spring wheat belt, which was favorable for that crop. Considerable improvement was reported from South Dakota by reason of additional moisture, and germination was satisfactory in Minnesota.

Oats are generally backward in interior valley States, but the crop improved during the week and is in good condition in central great plains States.

Corn germinated rather poorly in the extreme Upper Mississippi Valley, but in most other sections the early planting is coming up to a good stand. Cultivation was delayed by wet soil in many Southern States. Planting made good progress in most central and northern areas.

Temperatures were mostly moderate in the cotton belt, although nights were too cool in the central and eastern portion for the best growth, while rainfall was unfavorable in many sections. Soil continued too wet for work in much of Texas, and heavy rains in Oklahoma during the latter part of the week were unfavorable. Conditions during the earlier part of the week, however, were favorable.

Stands are mostly good in North Carolina, but planting is not yet completed in the western portion. Stands are reported as poor to only fair in South Carolina, with too much rain in the north. Conditions continued fairly good in Georgia except in the northern portions, where it was poor.

Progress ranged from poor to only fair in most of Alabama, Mississippi and Arkansas. Cotton made good advance in Oklahoma until the latter part of week, but the crop is late with planting and replanting continuing. Cotton made fair progress in Southern Texas, but mostly poor elsewhere in the State, with much replanting necessary. Weevils are reported in all sections of Georgia and in south central Oklahoma.

THE DRY GOODS TRADE

New York, Friday Night, May 26 1922.

Demand for dry goods continued to display a broadening tendency during the early part of the week, but during the latter part quieter conditions prevailed, as buyers appeared to think that with the h liday approaching it was a good time to allow prices to settle. Developments during the week have been generally of a constructive character. Prices of textile raw materials have been firmly maintained, and the converting and manufacturing trades have shown a greater degree of confidence in values and in general prospects. The credit situation as it affects retailers is declared to be showing steady improvement. Bills are being paid more promptly and collections are said to be better in all sections of the country, and the need of making provision for necessary requirements is serving to emphasize the exhaustion of supplies that has resulted from curtailment and war starvation in many lines of commercial production. Purchases are now being made by concerns that heretofore have been contending with liquidation of old stocks or competing against stocks offered as war surpluses, and the necessity of providing against wants that will develop as a consequence of business coming to hand in general lines as conditions return to normal, is becoming more apparent. Many heavy cottons are being ordered for future consumption on a much more liberal scale than has been seen for months past, this being particularly true as regards goods wanted for auto, building, harvesting and railroad purposes. Mills are more willing than they have been for some time past to sell a month or two ahead, though the change in this respect is more noticeable among Southern than among Eastern manufacturers. Most of the latter are still disinclined to quote for contract deliveries of print cloths, sheetings and various other descriptions.

DOMESTIC COTTON GOODS: Moderate activity continues in markets for domestic cotton goods. Trading in a number of lines has been broader and more active, and prices have been well maintained. There has been more buying of wash goods by the retail trade, and jobbers are beginning to feel the effect of a renewed demand for special cloths of a novelty character. The progress being made in heavy cotton goods markets is giving promise of a healthier situation than has been witnessed in this divisi'on since the armistice. Such varieties of cloths as single filing duck, wide twills, drills, hose and belting duck, wide sateens and a number of other fabrics which are used for general manufacturing in building, agriculture, railroad and automobile work are reported as being freely ordered with the tendency of prices upward. Business in finished goods for the jobbing and retail trades is developing, especially on percales, bleached cottons and colored domestics. Jobbers are said to be receiving more requests for prompt shipment, and are also booking some orders for fall delivery. It is further reported that orders are beginning to come forward with the printers for new lines of cretonnes for spring delivery, as the drapery houses have done very well on the medium and low priced lines this season. A large yardage of narrow prints has been reported sold for export, and this has no doubt accounted in part for the activity in print works. Ginghams have been less active, and the general feeling is that they are not likely to be very steady again until the new spring season opens, when a new basis of valuation will be called for. Print cloths, 28-inch, 64 x 64's construction are listed at 6¾c, and the 27-inch, 64 x 60's, at 6⅝c. Gray goods in the 39-inch, 68 x 72's, are quoted at 9¼c and the 38-inch, 80 x 80's, at 11½c.

WOOLEN GOODS: Markets for woolens and worsteds, especially men's wear lines, continue active and firm. According to reports, manufacturing clothiers who have been canvassing for business have, in most cases, booked satisfactory orders. The sharp advances on piece goods announced in recent weeks, so far, have not resulted in any material rise in prices for clothing. Instead, prices on many lines have been reduced, owing to the ability of manufacturers to cut operating costs. Of late, there has been a marked drift toward worsteds. It is generally believed that so much of fancy fabrics has been sold that buyers are well stocked, and that a pronounced swing toward staple products is likely to result. The tendency toward hard-finished cloths is growing stronger, owing to the dissatisfaction which has been expressed with the wearing qualities of the soft finished fabrics made up last year. Business in the women's wear division of the market continues to show improvement, with most of the activity at present confined to jobbing channels, and the jobbers who have the desired goods in stock are asking, and in most instances getting, prices which they consider justified by existing conditions.

FOREIGN DRY GOODS: No particular change has been noted in markets for linens during the week. While there has been no improvement in the demand, there has been no falling off. A slight decrease in the request for household linens was offset by a better demand for dress goods. Prices hold steady, and it is claimed that there is no basis for expectations of concessions. Instead, advances are likely to take place when present stocks are exhausted and it becomes necessary to wait for further imports from abroad, where production has been greatly curtailed during the past few months. The new tariff rates continue to cause considerable apprehension in retail channels, where higher price levels are not looked upon with favor. Burlaps have developed additional strength during the week, with demand stimulated by continued firm advices from Calcutta. Cable advices reported the crop situation unimproved, with replacement prices higher. Spot light weights are quoted at 6.35c and heavies at 9.25c.

State and City Department

NEWS ITEMS

Louisiana (State of).—*Legislature Convenes.*—The Legislature convened in regular session on May 8.

New York (State of).—*Comptroller Wendell Dies.*—State Comptroller James A. Wendell, who had been ill about ten days, died at his home in Albany at 3 a. m. May 10, following an attack of apoplexy.

It is understood that Deputy Comptroller William J. Maier will be in charge of the office pending the appointment of a successor.

Oklahoma-Texas.—*Decision in Boundary Dispute.*—The Oklahoma City "Oklahoman" states that in a supplemental decision handed down May 1 by the United States Supreme Court in a suit by the State of Oklahoma for ownership of the entire bed of the Red River, half of which Texas claims, it is held that the United States owns the entire river bed, that Texas has no property interest in the bed or in oil and gas proceeds taken from it, that Oklahoma has civil and criminal jurisdiction over the river bed, that placer mining claimants have no claim, that the river in the disputed territory is not navigable, and that riparian owners on the north bank, including the State of Oklahoma, where school lands abut, this disputed territory own the land to the middle of the stream. It is further said that the final decision, settling the question of the location of the south bank of the river is expected before the Court adjourns in June, and it is noted that each side believes that the present decision indicates a final decision in its favor. The "Oklahoman" says in part:

In its original suit Oklahoma laid claim to the entire river bed, while Texas claimed half of it. The United States later intervened making the same claim as Oklahoma, which was granted in the decision.

Oklahoma's claim was based on the contention that Red River is a navigable stream. In ruling on this contention the Court pointed out that under constitutional rules of equity that a State owns the land under navigable rivers. "Navigability in fact," said Justice Vandeventer, who handed down the decision, "is a test of navigability in law. The statements that it was navigable for its entire length originated at a time when there was no reliable data for proof. We conclude that no part of the river in Oklahoma is navigable, and, therefore that the title did not pass to Oklahoma on its admission into the Union. If the State has a lawful claim to any part of the bed, it is only such as may be incidental to its ownership of riparian lands on the northerly bank. And so of the grantees and lessees of the State."

"One of the questions involved in the riparian claims relates to what was intended by the terms 'middle of the channel' and 'mid channel'; we think it was the channel extending from one cut bank to another which carries the water in time of substantial flow, that was the only real channel and therefore, the main channel.

"Other questions common to all riparian claims are, whether the disposal of the lands on the northerly banks carried with it any right to the river bed in front of them, and, if so, whether this right extends to the medial line of the stream or to the Texas boundary line along the opposite bank. On these questions the parties are far apart. The State of Oklahoma and the placer miners insist that no right to the river bed passed with the upland, the United States that such a right did pass, but extends only to the medial line, and the several riparian claimants that the right passed and extends to the Texas boundary along the opposite bank.

"Where the United States owns the bed of a non-navigable stream and the upland on one or both sides, it, of course, is free when disposing of the upland to retain all or any part of the river bed; and whether in any particular case it has done so is essentially a question of what is intended. The evidence shows that the United States intended to retain that part of the bed."

The Court held that tested by common law these conveyances of riparian tracts conferred a title extending not merely to the water line—but to the middle of the stream. In throwing out the placer miner claimants, the Court said that those men claimed the land under the right to explore public land. Justice Van Devanter explained that the land was originally in Indian Territory, to which the land laws on which the placer miners based their claim never extended.

"This section of the river bed land never was subject to location or acquisition under the mining laws nor, indeed, any laws, and therefore the locations are of no effect," Justice Van Devanter held. The parties at interest were given 20 days in which to submit proper forms for disposition of the disputed river bed lands under the ruling.

BOND PROPOSALS AND NEGOTIATIONS this week have been as follows:

ALAMO, Crockett County, Tenn.—*BOND SALE.*—I. B. Tigrett & Co. of Jackson have purchased the $15,000 street paving bonds—V. 114, p. 1327—at par plus a premium of $25, equal to 100.16.

ALAMOSA, Alamosa County, Colo.—*BOND SALE.*—The Bankers Trust Co. and the Benwell, Phillips & Co, both of Denver, have purchased at 100.71, $90,000 5% refunding bonds.

ALBANY, Linn County, Ore.—*BOND SALE.*—On May 10 $33,583 19 6% impt. bonds were sold to the Ladd & Tilton Bank of Portland for $35,340 18 (105.23) and interest. Int. A. & O. Bids were also received from the following: First National Bank, Albany; Western Bond & Mtge. Co., Lumbermens Trust Co., Ralph Schneeloch Co., Freeman, Smith & Camp Co., Commerce Mortgage Securities Co., Albany State Bank, Albany; Blyth, Witter & Co., and Morris Bros.

ALEXANDER COUNTY SCHOOL DISTRICT (P. O. Taylorsville), No. Caro.—*BOND SALE.*—Prudden & Co. of Toledo have purchased the $50,000 6% bonds offered on May 15—V. 114, p. 2041—at a premium of $2,155, equal to 104.31, a basis of about 5.45%. Date May 15 1922. Due $2,000 May 1 1925 to 1949, incl.

ALMA, Gratiot County, Mich.—*BOND SALE.*—The $35,000 5¼% street paving bonds offered on May 23—V. 114, p. 2265—were awarded to the Detroit Trust Co. of Detroit. Date May 1 1922. Due $7,000 yearly from 1923 to 1927 incl.

ANOKA COUNTY INDEPENDENT SCHOOL DISTRICT NO. 65 (P. O. Anoka), Minn.—*BOND SALE.*—Gates, White & Co. of St. Paul have purchased $55,000 5% school bonds at a premium of $550, equal to 101. Int. M. & N. Due in 15 years.

BIRMINGHAM, Ala.—*BOND ISSUES AND OTHER PROPOSITIONS DEFEATED.*—The Birmingham "Age-Herald" of May 23 had the following to say with regard to an election held on May 22 to vote on various propositions.

"Birmingham voters yesterday defeated the bond issues and special tax overwhelmingly.

"They also defeated the proposal to permit public dancing at Pershing Pier, but the defeat here was not so substantial.

"The votes which have already been tabulated indicate that the school issue of $5,000,000 was defeated by more than two to one, and if the ratio indicated by the returns received is maintained the bonds will have been defeated by a majority of approximately 6,700 out of nearly 19,000 votes cast.

"The exact totals as tabulated from 36 boxes covering every section of the city received up to the time this edition goes to press showed the following:

	"For."	*"Against."*
School bonds ($5,000,000)	2,064	4,446
Library bonds ($750,000)	2,206	4,296
Park bonds ($750,000)	1,896	4,668
Auditorium bonds ($500,000)	2,218	4,386
Interest and sinking fund tax	2,241	4,454
School maintenance tax	2,384	4,412
Pershing Pier dancing	2,734	4,029

"One of the striking features of the day was the enormous vote cast, showing the widespread interest in the subjects and the determination of both opponents and advocates of registering their positions on the issues presented."

BIRMINGHAM, Oakland County, Mich.—*BOND SALE.*—All bids received for the 5 issues of 6% bonds which were offered on March 25—V. 114, p. 1328—were rejected. The bonds were later sold to the Central Savings Bank of Detroit privately at par. The issues are described as follows:

42,700 5% John W. Farabee et al. Wayne Township bonds. Denom. $1,068.
39,280 5% Ambrose Rubey et al. Greenfork Township bonds. Denom. $982.
40,800 5% Jesse Bird et al. Washington Township bonds. Denom. $1,020.
38,520 5% William L. Brumfield et al. White River Township bonds. Denom. $963.
24,000 5% Moses Rupert et al. Ward Township bonds. Denom. $1,200.
24,000 5% Francis M. Cantrell et al. Green Township bonds. Denom. $1,200.
6,900 5% Clark D. Pearson et al. Washington Township bonds. Denom. $345.
4,000 5% Volney C. Amburn et al. Stoney Creek Township bonds. Denom. $200.
10,000 5% A. W. Hernley et al. Stoney Creek Township bonds. Denom. $500.

Int. semi-ann. (May 15 and Nov. 15). The 4½% bonds mature as follows: $870 each six months from May 15 1921 until all bonds are paid (although the first three maturity dates of this issue seem to be in error, this information has been taken from official sources). The 5% bonds are due as follows: 1-20 of each issue each six months from May 15 1923 until all bonds are paid.

RICHMOND, Henrico County, Va.—*BOND OFFERING.*—The Richmond "Dispatch" of May 20 had the following to say regarding the offering of $1,750,000 city improvement bonds on June 20:

"The Finance Committee, after hearing from Superintendent A. H. Hill and W. Floyd Reams and Dr. R. W. Miller, of the City School Board, last night, on motion of Councilman E. Lee Roden, directed the Clerk of the Committee to advertise a sale of city bonds amounting to $1,750,000, the bids to be submitted on June 20. The funds to be derived from the sale of these bonds will be 'turned loose' immediately. The occasion for the appearance of the city school officials was for the committee to ascertain the necessity or demand for further funds for school building construction. It was made clear that the funds arising from the Jones-Morton bond issue were needed to complete the program mapped out by the School Board for new buildings. This bond issue was for $1,500,000, in three installments. It was explained by Superintendent Hill that work was now progressing on much of the scheme and that all of the appropriation has been provided for, and most of it now being used.

How Money Will Be Used.

"In addition to the $500,000 for schools, a demand was indicated for another installment of $500,000 for the street improvements provided for under the Roden bonds of $2,500,000, and a similar sum was provided for water works extension, and $250,000 for gas plant purposes.

It was brought out at the meeting that in addition to the money to be derived from this sale, many thousands of dollars were now being expended in construction and street improvements and that all told more than $2,000,000 would be spent this year in permanent improvements.

"'This,' commented Sub-Chairman Carter C. Jones, 'will keep the city departments busy for months. And not only will they be busy, but no man out of work need go hungry, for there will be employment for all who want it.'

Funds in Circulation Soon.

"Comptroller Cofer will within a short while advertise for the bids on bond sale, and at a special meeting of the committee on June 20, the bonds will be sold so that the funds may be put into circulation on or shortly after July 1.

"The committee will meet next Thursday night to hear from all interested in the disposition of a number of petitions under the dependent widows and orphans fund. Chairman Grundy asks all applicants and others interested to be at this meeting."

RIDGEWOOD, Bergen County, N. J.—*BOND OFFERING.*—Thos. J. Foster, Commissioner of Revenue and Finance, will receive sealed bids until 8 p. m. (daylight saving time) June 6 for the following 4½% bonds:

$136,000 general improvement bonds. Due yearly on June 1 as follows: $4,000 from 1923 to 1931 incl., and $5,000 from 1932 to 1951 incl.

NEW LOANS

$2,000,000 LOAN
School District of Philadelphia, Pennsylvania.
4% Serial Gold Bonds,
Dated June 1, 1922

Free of All Tax, including the Federal Income Tax

The bonds will be registered in form.

The denominations will be $500, $1,000, $5,000.

$100,000 of Loan will mature each year from December 1, 1932, to December 1, 1951.

Interest payable June 1 and December 1 of each year.

SEALED PROPOSALS

will be received by William Dick, Secretary, in the office of the Board of Public Education, Keystone Building, 19th Street above Chestnut, Philadelphia, until 12 o'clock M.

MONDAY, JUNE 5, 1922,

for two million dollars ($2,000,000) school loan on conditions as follows:

TWO MILLION DOLLARS ($2,000,000)
SCHOOL LOAN

for the purpose of raising the necessary funds to procure sites and erect buildings and additions for elementary and high schools in the school district authorized by resolution of the Board of Public Education, School District of Philadelphia, Pennsylvania, approved May 9, 1922.

Proposals must be submitted upon blanks to be obtained from the undersigned.

No bid will be considered unless accompanied by a certified check drawn to the order of the School District of Philadelphia, Pennsylvania, for two (2) per centum of the par value of the bonds bid for.

Checks or certificates accompanying bids not accepted will be returned to the bidders within forty-eight hours after the opening of the bids. Deposits of successful bidders will be applied in partial payment of the amount of the loan awarded them.

Settlement in full for the loan awarded with accrued interest must be made with the Secretary on or before Thursday, June 15, 1922.

Bids at less than par will not be considered.

The Board of Public Education reserves the right to reject any or all proposals, or to award any portion of the loan for which bids shall be received, as it may deem best for the interest of the School District.

Being municipal bonds, certificates of the School District of Philadelphia constitute legal investments for trust funds and estates.

Bids may be made for "all or none" or for any portion of the issue.

THE BOARD OF PUBLIC EDUCATION,
School District of Philadelphia,
Pennsylvania.
WILLIAM DICK, Secretary.

NEW LOANS

$5,000,000

State of Michigan

Highway Improvement Bonds

The Administrative Board will receive sealed bids at their office in the City of Lansing, Michigan, until the 6TH DAY OF JUNE, 1922, up to 10:00 o'clock A. M. (Central Standard Time) of said day for the sale of Five Million Dollars ($5,000,000) of State of Michigan Highway Improvement coupon bonds in denominations of $1,000 each, to be issued by the State Administrative Board of the State of Michigan, pursuant to the provisions of Act No. 25 of the Public Acts of the State of Michigan, Extra Session of 1919, as amended. Said bonds will be dated July 1st, 1922, and will mature in ten, fifteen or twenty years and will bear interest at the rate of four, four and one-quarter or four and one-half per centum per annum, payable semi-annually.

Both principal and interest are payable at the office of the Treasurer of the State of Michigan, Lansing, Michigan, or at the office of the fiscal agent of the State of Michigan in the City of New York. Coupon bonds may be exchanged for registered bonds if desired.

A certified check in a sum equal to one per cent of the amount of the bid, payable to the order of the State Treasurer of the State of Michigan, must be submitted with each bid.

The right is reserved to reject any or all bids.

FRANK E. GORMAN,
State Treasurer.

The above issue is in addition to $5,000,000 of Soldier Bonus Bonds and $3,000,000 Highway Bonds already advertised to be sold on the date.

$3,000,000

State of Colorado

Highway Improvement Bonds

The undersigned invites sealed bids at his office in the Capital in Denver, until 10 A. M., MONDAY, JUNE 5th, 1922, for the purchase of all of Three Million Dollars ($3,000,000) State of Colorado Highway Bonds, bearing five per centum per annum, payable semi-annually at office o fState Treasurer or at banking house of Kountze Bros., N. Y. City. Said Bonds are dated June 1, 1922, issued in denominations of $50 or multiples thereof, as desired by successful bidder; due June 1, 1952, but optional June 1, 1932.

No bid considered unless accompanied by certified check or bank draft payable to order of State Treasurer equal to at least three per cent of amount bid. No interest will be paid on said draft or check, nor will Treasurer be responsible for loss in transit to or from his office. All bids must be accompanied by detailed statement of denominations required. The balance of price bid shall be payable in cash upon delivery of bonds, and successful bidder will be required to enter into written contract for purchase price thereof on date of sale upon said terms.

All bids will be opened at said hour and all of said bonds will be sold by State Treasurer to highest and best bidders if a bid satisfactory to State Treasurer be received; but right is reserved to reject any and all bids.

ARTHUR M. STONG,
State Treasurer, State of Colorado.

FINANCIAL CHRONICLE

Classified Department

INVESTMENT MEN WANTED

BOND SALESMEN

Boston and New York house specializing in high grade bonds desires the services of two or three capable salesmen in New England. Salesmen with a clientele preferred. Communications treated confidentially. References required. Box X-5, Financial Chronicle, 90 Pine St., New York.

BOND SALESMAN WANTED: An experienced salesman has an excellent opportunity with a well known investment house to sell high grade issues in New York City. Must give satisfactory references and prove distributing ability. Address box Y-14, "Financial Chronicle," 90 Pine Street, N. Y.

POSITIONS WANTED

COLLEGE GRADUATE, eight years Wall St. experience, wants opening with medium-sized New York Stock Exchange firm. Particularly familiar with bond or investment departments and can act as general correspondent. Will furnish moderate amount of capital if opportunity offers. Box W-18, Financial Chronicle, 90 Pine St., New York City.

SALES MANAGER

Who can create and manage retail-wholesale organization for distributing securities, is open to proposition from brokerage or investment house in any part of country where there is real opportunity for aggressive, able man. Box W-1, Financial Chronicle, 90 Pine St., N. Y.

POSITIONS WANTED

BOND TRADER.

Young man, two years' experience with two New York Stock Exchange firms desires position as Bond Trader. General experience in listed and unlisted bonds. Box Y-23, "Financial Chronicle," 90 Pine Street, New York.

CASHIER

Young man, married, twelve years broad experience in country and city banking, desires change for position with greater opportunity. My record will speak for itself. Box X-4, Financial Chronicle, 90 Pine St., New York City.

BOND TRADER

Trader, whose experience has been mainly in the listed and unlisted rails, desires an immediate connection with an established house. Would also consider position as assistant trader, if shown opportunity for advancement. Box X-20, Financial Chronicle, 90 Pine Street, New York.

WANTED

Wanted

A PUBLISHER wants a man who has had some experience in bonds, banking, or selling. This training is not absolutely necessary, but will help. CHARACTER, ABILITY AND A DESIRE TO WORK WILL MEAN A GREAT DEAL.

Early in January I started a service for banks and bankers. These say I have just what they want and seven hundred and fifty have subscribed. The mere mention of their names will convince anyone of its success. The business has so expanded with orders on hand and new business that can be developed, that ONLY ONE THING IS NEEDED—that one thing is CAPITAL; not a great deal but enough to insure a credit rating and to handle this business. $5,000 will do. The cost of building this business has turned all my capital into fixed assets and our daily profits have been absorbed by overhead, promotion, etc. What I want now is a young man to open an office in New York City and sell the banks and banking firms there (an excellent foundation has already been laid), and take an occasional trip. Our editorial detail and the general conducting of the business is thoroughly organized, but he will take an active part in the business as an officer and receive a salary. The money should only be advanced as an actual investment or for the purchase of stock, say a one-third interest. This interest should earn at least $5,000 the first year, double in 1923. You can make careful investigation. Publisher can show a record of eight and a half years of active work among this class and can give bank references. If interested, write "Publisher," Room 216, Forrest Bldg., Philadelphia.

Hang Out a Sign!

If you hung a sign on your building: "I have need for, or I am seeking a position as, a

STATISTICIAN
TRADER
SALESMAN
CASHIER OF A BANK
OR THE LIKE,"

possibly it would attract the attention of someone who could satisfy your wants. But why not hang that "sign" before everyone in the banking and investment field the world over by inserting an advertisement in the *Financial Chronicle* Classified Department? (opposite inside back cover.)

This will insure your getting an "above the ordinary man."

If you have occasion to "hang out a sign," draw up and send or telephone an appropriate ad to our Classified Department. Do it now.

Bankers, Brokers and Security Dealers

can locate the houses that will buy or sell many bonds and unlisted and inactive stocks by referring to the Trading Department (Pages XII, XIII, XIV, XV, XVI and XVII) of the Financial Chronicle.

In the advertisements on these pages, dealers and brokers list the bonds and stocks they wish to buy or sell and indicate the class of securities they specialize in. From time to time virtually every security having any degree of salability in the United States is bought or sold through this department, the advertisers in which are prepared to furnish quotations on thousands of securities.

Always refer to the Financial Chronicle Trading Department when you wish to buy or sell bonds or unlisted or inactive stocks.

Reprint of Article in Philadelphia Public Ledger by Richard Spillane its Business Editor

MEN AND BUSINESS

By RICHARD SPILLANE

A REMARKABLE work has been done by Philip B. Fisher, one of the partners of the banking house of Brooke, Stokes & Co., of Philadelphia.

He has analyzed the traffic, the costs of operation, of maintenance, the income and the ratio of costs to income on fifty or more of the railroads of the United States and brought all the details down to the simplest form, showing exactly the value back of every bond of these railroads.

* * * * * * * * * * * *

Mr. Fisher has been a railroad man, as was his father before him, so he had a particular interest in his work. Here is an outline of what he did—merely an outline—as given by him.

* * * *

"IN 1912 we determined, if possible, to investigate the railroads to a point which would determine, as far as possible, the relative value of all railroad bonds. For this purpose we went out to the University of Pennsylvania, to the dean of the college of civil engineering, who recommended six recently graduated engineers, who had specialized in railroad work. We started this force at work under the close supervision of a member of our firm.

"At first we used various sources of information;

* * * * * * * * * * * *

railroad annual reports and other sources of information. After we had been working for some time we found that all of these sources of information were unsatisfactory, either because of inaccuracies or because they were based on different methods of accounting in force with various railroads. This latter was the trouble with the railroads' annual reports, which, although correct enough, were of little value for comparative purposes, owing to the diverse methods of accounting.

"We threw away all of the work we had done and determined to use only one source of information, the sworn reports of the railroads to the interstate commerce commission. We therefore sent a man to Washington, who spent many months copying these reports by hand, as they are not published in detail. In addition, we obtained figures from H. H. Copeland & Son, of New York, who had in turn obtained them all from the interstate commerce commission in the same way that we did.

"Using the interstate commerce commission's reports as a basis, our force, which at times reached eight men and at other times fell as low as four men, worked steadily for four years. During this time we completed a detailed statistical analysis of fifty-one leading railroads, covering a period of ten years. In certain particulars, notably the question of maintenance, we went further into the subject than any one we know of had before. In addition, we compiled a study and classification of all of their bonds, covering some thousands of issues.

"In 1916 this work was interrupted, due to the fact that the member of the firm supervising the work and twelve other members of the organization went into government service. Last fall we re-commenced this work, and have just completed it.

"As we keep the quotations and yields of all of these bonds up to date, it is our thought that we will not only be able to recommend the purchase of good railroad bonds, but we will also be able to pick out from all the issues of all the railroads we have investigated the ones which are the most attractive, considering safety, marketability, yield and other desirable factors.

"The heads of some of the largest financial institutions in Philadelphia have shown considerable interest, and in some instances have assembled their most important officers and prolonged what we intended to be an interview of minutes into one of several hours. Two New York institutions have written asking for permission to send the heads of their statistical departments to our office to examine the work in detail."

* * *

NO ONE except a person who has had experience in analyzing properties can appreciate fully the magnitude of the job that Mr. Fisher undertook and put through so well.

It is doubtful if he appreciates its worth.

If there is anything so complete and so detailed elsewhere in America, it is not known to one individual who has a fair knowledge of railroads, and particularly of the statistical data relating to railroad securities.

RAILWAY AND INDUSTRIAL
SECTION
OF THE
COMMERCIAL & FINANCIAL CHRONICLE.

Copyrighted in 1922, according to Act of Congress, by WILLIAM B. DANA COMPANY, in office of Librarian of Congress, Washington, D. C.

Vol. 114. NEW YORK, MAY 27, 1922. No. 2970.

RAILWAY AND INDUSTRIAL SECTION.

The Railway and Industrial Section, issued twice a year on the last Saturday of May and November, is furnished *without extra charge* to every annual subscriber of the Commercial & Financial Chronicle.

The Railway Earnings Section, issued monthly, containing the sworn returns of earnings and expenses filed each month with the Inter-State Commerce Commission, is also furnished *without extra charge* to every annual Chronicle subscriber.

The Electric Railway Section, issued twice a year, in April and October, is likewise furnished *without extra charge* to every Chronicle subscriber.

The State and City Section, issued semi-annually on the last Saturday of June and December, is also furnished *without extra charge* to every subscriber of the Chronicle.

The Bank and Quotation Section, issued monthly, is likewise furnished *without extra charge* to every subscriber of the Chronicle.

The Bankers' Convention Section, issued yearly, giving the detailed proceedings of the annual convention of the American Bankers' Association, is also furnished *without extra charge* to Chronicle subscribers.

Terms for the Chronicle, including the six Supplements above named, are Ten Dollars per annum within the United States; $13 50 (which includes postage) in Europe, and $11 50 in Canada.

NOTICE.—On account of the fluctuations in the rates of exchange remittances for European subscriptions and advertisements must be made in New York funds.

File covers for the Chronicle are sold at $1.00 each (postage, 15 cents additional). File covers for Supplements can be had at same price.

THE TRANSPORTATION ACT OF 1920 IN MAY 1922.

On March 1 1920 the railroads of the United States, which on Jan. 1 1918, as a war measure, had been taken over for operation as one system by the United States Railroad Administration were, in so far as still under its control (the short lines having previously been surrendered), restored to their owners. Federal control was thus terminated pursuant to a proclamation issued on Dec. 24 1919 by the President of the United States and subject to the terms of the Transportation Act of 1920, approved by the President on Feb. 28 1920. The complete text of the Act was printed in the "Chronicle" of Feb. 21 1920, pages 715 to 732 with an amendment in V. 110, p. 2253.

On Sept. 1 1920 the Government guaranty of income which was granted to assenting roads for the six months following the end of Federal control expired by limitation.

On March 1 1922, two further provisions of the Transportation Act expired by limitation, namely: (1) The provision of Section 15 (*a*) making it incumbent on the Inter-State Commerce Commission when adjusting freight and passenger rates during the two years beginning March 1, to aim at establishing such rates for the railroads of the country as a whole or in districts as should afford "as a fair return" on the tentative valuation which was fixed by the Commission in July 1920; a sum equal to 5½% per annum and in addition at the discretion of the Commission an additional ½ of 1% to make provision for improvements, betterments or equipment; (2) The provision in Section 210 (*a*) permitting the carriers to apply for loans from the Federal Revolving Fund within two years from the termination of Federal control.

In April 1922 the Inter-State Commerce Commission, as required by the Act, was considering what would be a new reasonable rate of return on the investment of the roads, for use when fixing rates for passenger and freight transportation. At the same time certain farming and other interests were endeavoring to secure the repeal or amendment of the Transportation Act of 1920 so as to kill the provision respecting the maintenance of freight rates on a basis to afford the railroad a reasonable return. V. 114, p. 587, 485, 484; V. 113, p. 1730, 2154.

The Transportation Act of 1920 was designed to enable the railroads as a whole to meet their financial problems caused by the war and Federal operation, and to assist them in their future financing by giving them a reasonable, though extremely moderate, return on their investment. The immediate effect was most disappointing owing to an enormous increase in labor costs and a precipitate decline in railroad traffic. (V. 113, p. 1732 to 1734.) The railroads were therefore obliged to curtail their expenses drastically and to seek a reduction in the wages of their employees.

Comparative statistics show these results (see full data in V. 113, p. 1852 to 1854, 1739 to 1742; V. 114, p. 1492):

	Avge. Yearly Wage.	*Total Labor Cost.*	*Net Operating Income.*	*Return on Property Val.*
1916	$892	$1,468,000,000	$1,040,084,517	6.16%
1917	1,004	1,739,000,000	934,068,770	5.26%
1918	1,419	2,613,000,000	638,568,603	3.51%
1919	1,482	2,843,000,000	454,984,953	2.46%
1920	1,908	3,698,000,000	61,928,626	.32%
1921	----	2,800,896,614	614,810,531	-----

The average hourly earnings for all railroad employees for 1920 was 67.7 cents, or 172% more than in 1913. For the first quarter in 1921 the average was 72.2 cents per hour, or 190% greater than in 1913.

For the 12 months ended Aug. 31 1921 2.9% was earned on property valuation (in Aug. 1921, 5%), but largely as a result of extreme curtailment of maintenance charges. See V. 113, p. 2155.

In April 1921 the Railroad Labor Board ordered the abolition on July 1 1921 of some of the provisions of the "National Agreements" which the railroad managers claim have cost the railroads of the U. S. $300,000,000 per annum, but laid down 16 cardinal principles that must be maintained. (V. 112, p. 1580, 1581; V. 113, p. 34, 805, 893, 915, 916, 1326, 1429, 1644, 1731, 1732.)

Subsequently in 1921-22 the national agreements were revised by the Labor Board, removing some of their most burdensome features in the case of railroad labor other than trainmen's brotherhoods, and the cases of these last were in May 1922 shortly to be considered by the Board. See below.

The United States Railroad Labor Board, at Chicago, on May 10 handed down a decision holding the practice of contracting shop repair work to outside firms as a violation of the Transportation Act. This decision will be contested by the railroads. V. 114, p. 2084, 2174.

In May and June 1921 the Labor Board announced its decision that the exigencies of the situation demanded a substantial decrease in railroad expenses, and for that reason railroad wages on the larger roads should be reduced on the average 12%. A strike against this decrease and to forestall any further changes in wages and working conditions was ordered by the four trainmen's brotherhoods and the switchmen's union; but on Oct. 27 1921, on the eve of its becoming effective, was declared off, as below stated.

In Nov. 1921 many reductions in freight rates had already been made (since Aug. 1920), and the railway executives, in order further to reduce these rates as demanded by the public, posted notices of a proposed additional wage cut of about 10% with the intent of wiping out the remainder of the wage advance of 1920. This matter was still pending in May 1922.

The railroads agreed to pass on all benefit from this further wage cut to the public and in anticipation of same put in effect on Jan. 7 1922 an experimental reduction of 10% on agricultural products for all parts of the country, this reduction to stand during the six months in which the plan to reduce wages will come before the Labor Board. The saving to shippers from this rate cut if granted in full will represent about $55,000,000 annually, while the wage cut would save about $350,000,000 annually, leaving a large additional amount to be absorbed by further reductions in freight and possibly passenger rates. See also V. 113, p. 2153, 2470, 2786.

Late in 1921 and early in 1922 the Federal Government sold a large amount of its holdings of equipment trusts (see below), and was using the proceeds to settle its accounts with the railroads.

The sale of these equipment trusts and the improved financial outlook late in 1921 led the Federal Administration to withdraw their support of the so-called Funding Bill, which, as an amendment to the Transportation Act of 1920, would have permitted the settlement of the large amounts due by the Government to the railroads on account of compensation, guaranty, &c., and the funding of $500,000,000 of indebtedness due by them to the Government for expenditures made during Federal control on additions and improvement account. Compare V. 113, p. 2371, 2043, 2043, 2042, 1730, 1115, 910 to 914, 805, 696, 488, 487, 149.

For tentative valuations of 150 roads filed in 1921, see V. 113, p. 1008, 1011, 1539.

The general railroad consolidation plans submitted tentatively in 1921 were outlined in V. 113, p. 1429 to 1431, 1950 to 1952. Hearings on the so-called Ripley plan, approved with certain modification by the Inter-State Com-

merce Commission were scheduled to begin before that Commission on April 24 as regards the roads in the Southeastern region, but have been temporarily postponed. V. 114, p. 1369.

George B. McGinty, Secretary of the Inter-State Commerce Commission, in a letter to Senator Willis of Ohio in May 1921, said in part:

"It is not a question to-day whether or not the rates shall produce 5½ or 6% upon the value of the carriers' properties.

"More than one-half of the carriers are earning less than their operating expenses and taxes. A very few individual roads are earning their interest charges. Some of them are not even earning their operating expenses.

[Refutation of statements that railroad securities are badly watered. Penna. RR., "Chronicle" V. 112, p. 2712; N. Y. Central, V. 112, p. 2046.

The following outlines the Transportation Act of 1920:

GUARANTEED INCOME FOR SIX MONTHS.—Railroad companies signifying by March 15 1920 their acceptance of such guaranty shall be guaranteed by the United States Government for the first six months ending Sept. 1 1920 following the termination of Federal control, sums at the same rate as their compensation during that control.

Roads Declining Six Months' Guaranty (Inserted by Editor).

Alabama Great Southern	New York Chicago & St. Louis
Atlanta & West Point	Northwestern Pacific
Atlantic City RR. Co.	Pere Marquette
Bessemer & Lake Erie	Perkiomen Railroad Co.
Carolina Clinchfield & Ohio	Port Reading
Cinc. New Orleans & Texas Pacific	Rich. Frederick. & Potomac RR.
Duluth & Iron Range	St. Louis Southwestern Ry. Co.
Duluth Missabe & Northern	St. L. Southwestern Ry. of Texas
Elgin Joliet & Eastern	Southern Railway
Long Island	West Jersey & Seashore
Louisiana & Arkansas	Western Pacific
New Orleans & Northeastern	Western Railway of Alabama

RATES MUST BE ADJUSTED SO AS TO YIELD A FAIR RETURN.—Rates shall be adjusted from time to time so that the carriers as a whole, or as a whole in each rate group or territory, will, under honest, efficient and economical management and reasonable maintenance expenditures, earn an annual net railway operating income, as nearly as may be, to a fair return upon the aggregate value of the property of such carriers held for or used in the service of transportation.

To this end the Commission, pending the completion of its valuation of the railway properties in the United States, is required to make tentative valuations of the several roads as a basis for rate making.

RETURN ON CAPITAL FOR FIRST TWO YEARS.—During the two years beginning March 1 1920 the Commission shall adopt 5½% as a fair return on the actual value of railroad properties and at its discretion may add a sum not to exceed a total of ½% for improvements, betterments or equipment chargeable to capital account.

DISTRIBUTION OF EARNINGS IN EXCESS OF 6%.—Net railway operating income in any year in excess of 6% of the value of the property shall be utilized as follows: (*a*) One-half of such excess shall be placed in a *Reserve Fund* maintained by the railroad; (*b*) the remaining one-half shall go into a *General Railroad Contingent Fund.*

REFUNDING OF CARRIERS' INDEBTEDNESS TO THE UNITED STATES.—The net indebtedness of each carrier to the United States for additions or betterments may be funded for a period of ten years (or less at option of company) from the termination of Federal control with interest at 6% per annum, subject to the right of the carrier to anticipate the payment of the whole or any part of the indebtedness. Any remaining debt to U. S. to be evidenced by 6% notes running one year or less.

CONSOLIDATION OF RAILROAD PROPERTIES—STOCK CONTROL, &C.—The Inter-State Commerce Commission is directed to prepare and adopt a plan for the consolidation of railroad properties into a limited number of competing systems, and consolidations are authorized when in harmony with the plan so adopted and approved by the Commission. See plans as proposed in 1921, V. 113, p. 1429 to 1431 and 1950.

The Commission shall also pass on any proposed measures for the control of one road by another by consolidation, lease, stock ownership or otherwise. In any consolidation the total amount of outstanding stock and bonds of the consolidating company shall not exceed the value of the consolidated properties as determined by the Commission.

JOINT USE OF TERMINALS.—The Inter-State Commerce Commission whenever in its opinion there exists an emergency may require such joint or common use of terminals, including main-line tracks for a reasonable distance outside of such terminals as in its opinion will best meet the emergency and serve the public interest.

INTER-STATE COMMERCE COMMISSION MAY INITIATE RATES.—In the exercise of its power to prescribe just and reasonable rates, the Commission can initiate as well as modify and establish rates.

CONTROL OVER SECURITY ISSUES.—The Inter-State Commerce Commission is given exclusive control over the issuance of all railroad securities, except notes maturing in less than two years when the total issues of said notes of the railroad amounts to less than 5% of its capitalization. [See regulations. V. 111, p. 1814, 1049, 587.]

LABOR BOARDS TO ARBITRATE DISPUTES BETWEEN WAGE-EARNERS AND EMPLOYERS.—The law authorizes a system of labor boards of adjustment to be established by employers and employees. A central railroad labor board of appeal is created with power to hear disputes and initiate investigations.

The members of this board, three of whom are to represent labor, three railroad managers, and three the public, to be appointed by the President and confirmed by the Senate. There are no penal provisions for the enforcement of the decisions of this board. [See list of members on page 6.]

Federal Control—Standard Return.

The proclamation of President Wilson assuming control of the roads was dated Dec. 26 1917. See V. 105, p. 2509; V. 106, p. 35; V. 108, p. 2081.

CONTRACTS FOR GOVERNMENT CONTROL—RENTAL PAYMENTS.—The form of contract which the Government executed, with slight variations, with the railroads, will be found in V. 107, p. 1157, 956.

The Act of Congress approved March 21 1918 (cited in V 106, p. 1421) authorized the President "to agree with and to guarantee" to any carrier "that during the period of such Federal control it shall receive as just compensation an annual sum (herein called standard return), for each year . . . not exceeding a sum equivalent as nearly as may be to its average annual railway operating income for the three years ended June 30 1917." In a few cases for special reasons extra compensation was granted. Disputes, however, arose and when Federal control was terminated Feb. 29 1920 there still remained a number of roads concerning which the question of compensation, whether the standard return or a larger sum, was still to be determined.

Out of the aforesaid compensation as supplemented by the company's non-operating income, including interest and dividends on any bonds or stock owned, and other outside items each company was required to pay all Federal (war) taxes, interest and other fixed charges, and also any dividends allowed on their capital stock.

A list of the compensation contracts finally executed up to Sept. 15 1920 will be found, with the amounts of the compensation agreed upon, on pages 6, 7 and 252 of the issue of this Section for Nov. 27 1920. Others have been noted from week to week in subsequent issues of the "Chronicle."

United States Railroad Administration.

Director-General of Railroads and Agent of the President, James C. Davis; Assistant to the Director-General, E. M. Alvord; Chief Clerk, A. W. Stoll; Comptroller, L. J. Tracy. Division of Finance, D. C. Porteous, Director; Ralph Blaisdell, Treasurer; Division of Liquidation Claims, E. M. Alvord, Director; Short Line Section, Sidney F. Andrews, Chairman, H. W. Tweed, W. G. Goodrich. Headquarters, Hurley-Wright Building, 18th and Pennsylvania Ave., N. W., Washihgton, D. C.

LOANS, ETC., MADE BY FEDERAL AUTHORITIES UNDER CONTROL ACT, ACT OF 1920, ETC.

During the Federal control period from Jan. 1 1918 to Feb. 29 1920, and the guaranty period of 6 months from March 1 to Aug. 31 1920, and as a result of the financial operations called for by the Control Act of 1918, the Transportation Act of 1920 and the Act incorporating the War Finance Corporation, advances to a large amount were made to the railroads by the U. S. Treasury, the Director-General and the War Finance Corporation on account of additions and improvements, the funding and refunding of loans and in the case of the Boston & Maine for reorganization purposes.

The securities acquired on account of such advances by the U. S. Treasury and still held by it on recent dates were:

Note.—The War Finance Corporation is informed that its loan to the Chicago Rock Island & Pacific Ry. will be repaid shortly.

Compare also "Government Financing of Railroads" on page 6.

EQUIPMENT TRUST AGREEMENTS OF JAN. 15 1920.

Equipment trust agreements were executed early in 1920 by some 80 leading railroad companies with the Director-General of Railroads and the Guaranty Trust Co. of New York as trustee, covering approximately $323,000,000 worth of new rolling stock, built and building. This rolling stock was ordered by the United States Railroad Administration during the period of Federal control of railroads and has been allocated to the railroad companies named below and accepted by them. (Compare V. 109, p. 1668, 1955, 2406.)

The notes, while issuable from time to time as equipment is delivered to the roads, are all dated Jan. 15 1920, payable both principal and interest in gold of present standard. Each issue will mature in fifteen equal installments on Jan. 15 in each year, 1921 to 1935, both inclusive, and will bear interest at 6% per annum, payable semi-annually, July 15 and Jan. 15 at the office of the trustee in New York City. They will be subject to redemption at the option of the maker prior to maturity at 103 and interest on any interest date after 60 days' notice, but only as entire issues.

The War Finance Corporation, in a statement issued by Managing Director Eugene Meyer Jr., on Jan. 22 announced that the Director-General had addressed a letter to all railroads of which the U. S. Treasury still holds issues of equipment trust obligations no part of which has yet been sold by it, asking [in order to increase the saleability of its holdings] that he be permitted to subordinate to the remainder of the issue [which remainder he might then sell] not alone the last five maturities, 1931 to 1935, or any one or more of them, but such portion of the maturities of any year as he may determine. The official statement says:

The amended clause will read as follows:

" 'Eleventh: Upon request of the holder, or holders, of all the notes which by their terms shall be due and payable in any year, and upon presentation of such notes for that purpose, the trustee shall stamp thereon, or upon such part thereof as said holder, or holders, may designate and request, the following words:

" 'For value received and as an inducement to purchases of unstamped notes, the holder of this note has caused the same to be stamped pursuant to Article Eleventh of the Equipment Trust Agreement mentioned in the note, and, as provided in said Article Eleventh, the unstamped notes shall be payable in preference and priority to the stamped notes out of any moneys received or collected by the Trustee under said Equipment Trust Agreement upon enforcement of its rights or remedies in case of a default of the carrier.'

"For the present, it is the purpose of the Director-General, upon the execution of the supplemental agreements, making the amended clause operative, to makes sales of railroad equipment trust obligations under an arrangement, to subordinate, on the part of the Government, approximately 33 1-3% of the principal amount of each maturity; and the Director-General will be prepared to sell 66 2-3% of issues of equipment trust obligations, unsubordinated, at par and accrued interest to date of delivery. The Railroad Administration will thus retain the one-third subordinated part of all serial maturities."

NATIONAL RAILWAY SERVICE CORP. EQUIP. TRUSTS

This company was incorporated in Maryland July 29 1920 at the instance of the National Association of Owners of RR. Securities (S. Davies Warfield of Baltimore, President) to co-operate with the I.-S. C. Commission in assisting the railroads of the country to finance their needs for new rolling stock, as permitted by the amendment to the Transportation Act of 1920. (Compare V. 111, p. 458.)

The certificates were described by President Warfield substantially as follows (compare V. 111, p. 1661, 458, 493):

Corporation.—**A public corporation, operated without profit. The entire capital stock, which is nominal, has been subscribed by the National Association of Owners of RR. Securities and will be deposited with the Secretary of the Treasury.**

Description.—The initial certificates were issued in two series, not to exceed $30,000,000 each, maturing in 15 years in 30 semi-annual payments. Seven railroads or systems (see below) were to be included.

Class of Certificates.—**The Certificates of each series are divided into** (*a*) *Prior Lien* and (*b*) *Deferred Lien Certificates.* Trustee, Guaranty Tr. Co. on conditional sales basis; Bankers Trust Co. on lease basis.

The Prior Lien Certificates are prior in lien, bear int. at rate of 7% and will be taken by life insurance companies and investment institutions to the extent of 60% of the present issue of each series.

Deferred Lien Certificates to the extent of 40% bearing int. at 6% will be issued to secure the Government loans to the Service Corporation as the terms to each carrier are approved by the I.-S. C. Commission.

Security, &c.—**The Deferred Lien Certificates are deferred both as to principal and interest to the Prior Lien Certificates in the hands of investors. A contingent fund and a sinking fund are provided under the trust agreements, which, with the carrier contracts are to be administered by the Corporation and the corporate trustees. As additional security to the Certificates, each carrier deposits with the trustee its notes for the purchase or rental of the equipment.**

Railroads Included in Present Series.—The carriers which were to be included in one or the other of the initial series were as follows (compare V. 113, p. 183; V. 112, p. 1144, 372, 62):

Baltimore & Ohio RR.
Chicago Rock Island & Pacific Ry.
Bangor & Aroostook Ry.
Minneapolis & St. Louis RR.
New Orl. Tex. & Mex. (V.112,p.1144)
Wheeling & Lake Erie Ry.

In Nov. 1921 there had actually been issued (a) on the conditional sales basis $6,580,000 Prior Lien and $6,179,000 Deferred Lien Ctfs., and these had been created for the B. & O., N. O. Tex. & Mex. and Bangor & Aroostook; (b) on lease basis an additional amount for Chicago R. I. & Pac., Minn. & St. Louis and Wheeling & Lake Erie, viz., Prior Lien Ctfs., $7,760,000 (excl. $128,000 already paid); deferred lien ctfs., $5,258,730.

In March 1922 it was suggested that the National Railway Service Corp. should be allowed: (1) to borrow $100,000,000 from the Railroad Revolving Fund in order to provide means for rehabilitation of the rolling stock of United States railroads; (2) to conduct a pool for purchase and repair of railroad equipment, with a view to large economies for the railroads. V. 114, p. 1244.

RAILROAD WAGES.

On July 20 1920 the U. S. RR. Labor Board, acting under Transportation Act of 1920, granted wage increases to the 2,000,000 railway employees of the United States, retroactive to May 1 1920, which the Board estimated would add approximately $600,000,000 to the pay roll, but which the Association of Railway Executives estimated at $625,921,085, or 21%, but which appears to have aggregated possibly $720,000,000. Increases aggregating about a billion had been demanded. See V. 111, p. 347 to 350, 459, 460; V. 110, p. 2252, 2254, 2624.

On July 1 1921, after careful investigation, the U. S. Labor Board permitted the railroads, aside from the so-called short lines (which are in a class by themselves), to make a wage decrease of about 12%, as against the aforesaid wage advance of May 1 1920. (Compare V. 112, p. 2143 to 2150, 2377; V. 113, p. 33.) While the decrease was duly put in effect, the question whether it should be accepted or should be opposed by a strike was referred by the leaders of the 16 railroad unions to their local organizations (V. 113, p. 149), which, it appears, were quite generally in favor of a strike, both to recover the lost wages and prevent further unfavorable changes in wage or labor conditions.

When, however, it came to the actual declaring of a strike only the four trainmen's brotherhoods and the switchmen's union were prepared to take this step in the face of a strongly adverse sentiment on the part of the public and the Federal Government, and even in the case of these unions, on a number of roads, notably the Pennsylvania Eastern Lines, the necessary 66 2-3% vote was lacking. V. 113, p. 1326, 1706, 1718, 1730 to 1738.

The strike was scheduled to begin in the various sections of the country Oct. 30 to Nov. 5 (V. 113, p. 1735), but it was called off on Oct. 27 after a hearing before the Labor Board, in view of the vote by the latter that it would not take up the matter of wage decreases until all the questions relating to national rules and regulations have been disposed of by it. (V. 113, p. 1849 to 1852, 1943.)

In April 1922 the railroad executives were endeavoring to press their plan for an additional 10% reduction of wages (V. 113, p. 2040), in order to cover the proposed substantial reduction in freight rates (V. 113, p. 2154). In 1921-22 the national rules were rewritten by the Labor Board on somewhat more reasonable a basis for the shop crafts, and maintenance of way men, clerks and station employees, signal men, supervisors, firemen and oilers, train dispatchers, railway express employees, &c., but not for the Brotherhood of Locomotive Engineers, Brotherhood of Locomotive Firemen and Enginemen, Order of Railroad Conductors, Brotherhood of Railroad Trainmen and Switchmen's Union of North America. The efforts of the railroads to get these latter bodies to agree to a wage reduction of about 10% and to submit to various changes in the rules failed in April 1922 and in May the Labor Board was shortly to hold hearings on the matter. The rules as revised for the other unions in general add from one to two hours to the eight hours that must be worked at the regular pro rata rate before the punitive extra pay becomes operative. A vote was being taken by the unions in April 1922, notably the shop-craft men, as to whether they would submit to the changes made by the Labor Board. V. 114, p. 485, 625, 701, 917; V. 113, p. 1731, 2370, 2575, 2682.

In April 1922 the Delaware Lackawanna & Western RR. entered into an agreement with its locomotive engineers, firemen and enginemen, withdrawing till April 1 1923 all plans for wage reductions. V. 114, p. 1243. On March 9 1922, 5,000 clerks on the C. B. & Q. accepted a wage cut of from 2% to 6%. V. 114, p. 1244.

RAILROAD RATES.

On Nov. 17 1921 the Railroad Executives, in anticipation of a further wage cut of 10%, announced a 10% reduction in rates on farm products for all parts of the country, except New England (and in New England also it was voluntarily accepted by the leading railroads), the old rates to be restored at the end of six months in case the expected lowering of railroad wages is not accomplished. (V. 113, p. 2154, 2470, 2786.) This move follows numerous and important rate reductions on many products since Aug. 26 1920, when the general advance below described was ordered.

The 10% reduction in rates on farm products announced in Nov. 1921 will, it is estimated, save shippers about $55,000,000. The proposed wage cut if secured in full will amount to about $355,000,000, leaving a further $300,000,000, which, according to the announcement of the Railway Executives, will be passed on to the public by further lowering of freight and possibly passenger rates. The wage reduction of July 1921 effected a saving to the roads of about $375,000,000, but this had been, or has since been, offset to a total of $175,000,000 to $200,000,000 annually by sundry rate adjustments. See "Chronicle" Nov. 19, p. 2153.

The I.-S. Commerce Commission in July 1920 having placed a valuation of $18,900,000,000 upon the railroad properties, against a book value of $20,040,572,611, undertook to allow them 6% upon the property investment, which would mean a total of $1,134,000,000 with which to cover the increased cost of wages and supplies and to pay for improvements, &c. (compare V. 111, p. 653, 549, 459, 347 to 350, 329). The plan miscarried, a sudden decline in traffic and inflated labor costs causing an alarming falling

off in railway operating income, notwithstanding the higher rates received. V. 113, p. 2155.

The decision of July 1920 increased: (a) *Freight Rates*—40% in the East 25% in the South, 35% in the West and 25% in the Mountain-Pacific territory. (b) *Passenger Rates*—20%, the amount asked by the railroads or about ½ of 1 cent additional per mile. (c) *Pullman Rates*—A surcharge to the roads of 50% on rates. (d) *Excess Baggage Rates*—20% advance. (e) *Milk Tariffs*—20% advance. (f) Coastwise and inland steamship lines and electric railway companies may increase their freight rates in proportion to the increases of the railroads in the same territory. (V. 111, p. 848.)

While the inter-State rates went into effect on Aug. 26 1920, a number of State public service commissions declined to grant the increases with respect to local (intra-State) rates, but in general this opposition was, after some delay, overruled by the I.-S. C. Commission, backed up by the courts. The right, however, of the Commission to dictate intra-State rates is questioned and the States generally have combined in an appeal to the U. S. Supreme Court to declare such interference with local rates to be unconstitutional. Decisions early in 1922 in the suits brought by North Dakota and Wisconsin are expected to settle the matter.

As to increase in express rates see V. 111, p. 1338, 754, 654. For increase in Canadian wages and rates see V. 111, p. 1050, 848, 753; V. 113, p. 2041, and report of Canadian Northern Ry. system. V. 112, p. 2184.

The award of the I.-S. C. Commission in 1920 was printed in full in "Chronicle" of Aug. 7 1920, p. 549 to 556. The award of July 1 1921 was in V. 112, p. 2143 to 2150, 2377; V. 113, p. 33.

Because of the relatively disadvantageous position of the New England group of roads under the rate increase, a readjustment of the basis for division of through rates was authorized by the Inter-State Commerce Commission on Feb. 14, effective March 1 1922 by which the New England roads other than the Bangor & Aroostook, were to receive an increase of about 15% inthe amount coming to them from the division of revenue derived from most classes of traffic interchanged with the lines west of the Hudson River. (V. 114, p. 702, and V. 111, p. 1942; V. 112, p. 744, 987.) Compare remarks in Oldham merger plan, V. 113, p. 1950' 1951. In April 1922 the western connections generally, except the Pennsylvania and Baltimore & Ohio, brought suit to prevent the carrying out of this increase as discriminatory. (V. 114, p. 917, 1253.)

CONTRACTS EXECUTED AND COMPENSATION PAYABLE THEREUNDER.

The United States Railroad Administration as of Sept. 15 1920 reported the contracts actually executed by the companies and the Director-General and the compensation to be paid thereunder to the several roads as shown in the issue of this Section for Nov. 27 1920, p. 6. There have since been some few changes.

INTER-STATE COMMERCE COMMISSION.

This commission which, under the Transportation Act of 1920, is vested with new powers respecting rates, consolidations, securities, issues, &c., is constituted as follows:

Charles C. McChord, of Kentucky, Chairman; Balthasar H. Meyer, of Wisconsin; Henry C. Hall, of Colorado; Winthrop M. Daniels, of New Jersey; Clyde B. Aitchison, of Oregon; Joseph B. Eastman, of Massachusetts; Mark W. Potter, of New York; John J. Esch, of Wisconsin; E. [illegible] Lewis, of [illegible] and [illegible] Campbell, of Washington; (these last three men added in 1921—V. 112, p. 1826); Frederich I. Cox of New Jersey; with George B. McGinty, of Georgia, Secretary; Alfred Holmead, of the District of Columbia, Assistant Secretary; Thomas A. Gillis, of Pennsylvania, Assistant to the Secretary; T. Leo Haden, of the District of Columbia, Chief Clerk and Purchasing Agent.

GOVERNMENT FINANCING OF RAILROADS ON ACCOUNT OF FEDERAL CONTROL PERIOD.

In Nov. 1921 a so-called funding bill was pending before Congress (but probably to lie over till December session) to enable the Government to complete its settlement on some basis of the large amount of claims held against it by the railroads for compensation, guaranty, &c., at the same time permitting the funding for three to six years of some $500,000,000 due by the roads to the Government for additions and improvements (other than allocated equipment) made during Federal control. See V. 113, p. 2043.

The total amount of railroad claims settled and to be settled by the Federal Government was estimated by the Director-General on Nov. 15 1921 as about $1,100,000,000, of which $387,017,009 had been settled prior to Oct. 1 1921 as below shown, on a 30.416% basis for $117,715,840, so that a very large abatement is expected on the remainder in the ultimate accounting.

Director-General James C. Davis, in a letter dated Oct. 28 1921, addressed to Senator A. B. Cummins, who asked for a summary of certain financial conditions of the United States Railroad Administration, bearing on the proposed amendment to the Transportation Act of 1920, known as the Railroad Funding Bill, reported as follows (V. 113, p. 2042):

Definitive Railroad Securities, Held by U. S. Government Oct. 1 1921.

Definitive securities on hand Aug. 1 1921 (see p. 4)	$438,577,238
Additional securities taken up to and including Oct. 1 1921: Equipment trust ctfs., $11,590,800; oth. secur., $3,550,000	15,140,800
Total	$453,718,038
Less equipment trust certificates sold up to Oct. 1 1921	99,662,000
Definitive securities on hand Oct. 1 1921	$354,056,038

(2) *Claims of Carriers Settled to Oct.* 1 1921.

Total claims of carriers settled [out of an estimated $1,100,000,000—V. 113, p. 1541]	$387,017,099
Amount paid [by U. S.] in settlements [being 30.416% of aforesaid amount originally claimed, V. 113, p. 1541]	$117,715,840
Mileage of roads settled [out of a total of 189,394]	90,944

(3) *Additions & Betterments Effected through Advances by U. S. Government.*

Gross advances for additions and betterments	$1,144,681,582
Less equipment trusts as originally received or receivable on account of engines and cars allocated to RRs. at end of Federal control	381,649,957
Net additions and betterments, advances not including equipment trust	$763,031,625
Less additions and betterments funded	60,925,000
Balance	$702,106,625
Amount to be funded not to exceed	$500,000,000

(4) *Gross Advances Made by U. S. for Additions and Betterments During Federal Control (Excluding Allocated Equipment)—Status April* 30 1921.

Railroad Cos., &c.—	*Gross Advances.*	*—Settlement by Co's—* xCash.	*Notes, &c.*	*Final Settlement.*	*Balance Due.*

The entire bonded debt of the company, aggregating $1,936,900, falling due April 1 1921, was taken up on that date from the proceeds of $1,900,900 5-year 6% notes, dated April 1 1921, and maturing April 1 1926. Of these notes $542,900 were taken at par by holders of maturing bonds, and the remainder, $1,394,000, were issued to the United States Government to obtain a loan for the same amount at 6%. The $4,000,000 First Mortgage bonds and the bonds issued thereunder were created for the purpose of furnishing collateral to the holders of the 6% notes. The required amount will be deposited as collateral and the remainder will be retained in the treasury of the company for future needs.

The bonds will be dated April 1 1921; due April 1 1951, int. at rate of 6% p. a. Red. as a whole on any int. date prior to maturity at 105 and int.

ALASKA GOVERNMENT ROAD.—(V. 114, p. 625, 1405, 1531.)

ALBANY & SUSQUEHANNA RR.—(*See Map Delaware & Hudson.*)

ROAD.—Owns Albany to Binghamton, N. Y., 142 miles.

LEASED for term of charter, viz., 150 years from April 19 1851, to Del & Hudson Co.; rental was 9% per annum on stock (4½% J.& J.), V. 56, p. 774), but the courts having held that the stock was entitled to the benefit of refunding effected in 1906, $120,750 additional rental was paid in Jan. yearly, beginning 1910, making 3.45% available for corporate purposes. Jan. 1914 to Jan. 1918 20 cents was deducted yearly for co.'s Federal income tax. A special dividend of 30% ($1,050,000) was paid Nov. 16 1909 from the proceeds of the judgment for back rentals due by reason of refunding. A special dividend of 3.25% was paid Jan. 10 1916 and again Jan. 6 1917 and Jan. 4 1918, but no special payment was declared in Dec. 1918, owing to Federal taxation. In Jan. 1920 paid 1½% extra and in Jan. 1921 and Jan. 1922 paid 2% extra.—V. 107, p. 2374; V. 89, p. 1141, 1666; V. 90, p. 913.

BONDS.—The bonds are guar. p. & l., and until Apr. 1 1916 were convert into D. & H. stock—$500 stock for $1,000 bonds; $3,556,000 were so converted ($3,500,000 pledged by D. & H.; V. 105, p. 389). V. 80, p. 1174, 1362, 2343. Guaranty, V. 82, p. 989

Arthur W. Butler, Pres.; George Welwood Murray, V.-P.; W. L. M Phelps, Sec. & Treas.; C. F. Coaney, Asst. Sec. & Asst. Treas. Office, 7 Wall St., New York.—(V. 113, p. 2612.)

ALBANY & VERMONT RR.—Owns road from Albany to Waterford Jct., N. Y., 12 m. Leased to Rensselaer & Saratoga in 1860 and now operated by Del. & Hudson Co. Annual rental, $20,000.—(V. 106, p. 923.)

ALGOMA CENTRAL & HUDSON BAY RY.—Owns from Sault Ste Marie, Ont., and Michipicoten Harbor to a connection with the Can. Northern Ry., 272 miles; branch to Helen Mine, 12 m.; extension to Hearst on Grand Trunk Pacific Ry., 50 m; total, 334 miles. Cash subsidy, $6,400 per mile. Land grant, 2,137,144 acres. V. 103, p. 2076; V. 99, p. 1671; V. 101, p. 772. Lake Superior Corp. guarantee, see that company under "Industrials."

Owns stock and leases for 999 years Algoma Central Terminals, Ltd., with bonds secured on terminal properties and on $900,000 1st M. 5% bonds and $99,300 stock of Algoma Eastern Terminals, Ltd. V. 95, p. 1540; V. 96, p. 651, 1020, 1491; V. 99, p. 268, 536; V. 100, p. 7 2; V. 104, p. 1700; V. 105, p. 71.

PLAN.—In 1916 a reorganization plan was put into effect (V. 102, p. 885, 1058, 2076; V. 103, p. 843; V. 104, p. 1700, 2341; V. 105, p. 908).

Under this plan a committee including C. B. B. Smith-Bingham and J. C. Dalton, for the Railway bonds, and A. F. P. Roger and Andrew Williamson for the Terminals bonds, vote the common stock of both cos

The interest on the Railway 1st M. from June 1 1914, and interest and sinking fund on the Terminals bonds to be paid only if and to the extent that the joint net earnings available for the purpose permit (except as indicated below), but the interest to be cumulative up to 5%, with right to 6% per annum, if earned, in the following priority (*a*) Terminals bonds for current and all prior years 3% p. a., said payment, however, to be a fixed obligation for each year after Aug. 1 1921. (*b*) Both issues pari passu as though one issue, 2%. (*c*) Railway bonds, 3%. (*d*) Any arrears up to 5% on either issue. (*e*) Terminals sinking fund. (*f*) Railway bonds, 1% and Terminals bonds, ½ of 1%. While the guaranty of the Lake Superior Corporation remains, the committee alone can enforce it. V. 105, p. 1998.

Holders of the 5% bonds of Algoma Central Terminals received in April 1917, 3% for the year to Aug. 1915; April 30 1918 interest at 3% per ann. for period from Aug. 1 1915 to June 30 1917; Nov. 1 1918 5% for year 1917-1918; Nov. 1 1919, 4% for year to June 1919; May 1 1922, 1½% for six months from Aug. 1 1921. Railway 5s Nov. 1 1918 received 2%; Nov. 1 1919 received 1%. V. 107, p. 1669; V. 109, p. 1792. No interest was paid to either the Railway or Terminal bondholders in respect of the years ended June 30 1920 and 1921. V. 112, p. 157; V. 114, p. 1764.

Stock, common, $5,000,000, all owned by Lake Superior Corp.; pref., 5% non-cum., $5,000,000, including $3,000,000 new pref., represented by v. t. c. The pref. shares have a par value of $40 each. V. 105, p. 71. 1st M bonds, see V 91, p 93 1159, 1327, 1573.

REPORT.—For year ending June 30 1921:

June 30 Years—	*Gross. Earnings.*	*Net Earnings.*	*Deficit after Bond Int.*
1920-21	$2,715,679	$79,691	$594,210
1919-20	$2,059,588	def.$169,071	$921,032
1918-19	2,258,857	$263,294	$490,682

ALGOMA EASTERN RY.—Owns from Sudbury, Ont., to Little Current (Manitoulin Island) through nickel and copper districts, 86 m., completed Jan. 1 1913; branches, 3 m. Land grant 682,692 acres in Ontario and cash subsidies from Prov. and Dom. of Can. V. 92, p. 265; V. 95, p. 748. Leases for 999 years Algoma Eastern Terminals, Ltd., rental covering int. and sink. fund on $900,000 1st M. 5% bonds. See Algoma Central Terminals, Ltd., mtge., under Algoma Central & Hudson Bay Ry. above.

Common stock, $2,000,000, all issued, and pref. 5% non-cum., $1,000,000, all issued, all pref. and $1,000,000 common owned by Lake Superior Corporation. Bonds (Man. & No. Shore Ry.) auth., $3,000,000, issuable at $30,000 per mile (issued, $2,500,000), guar., prin. & int., by Lake Superior Corp. They are subject to call as a whole at par or may be drawn at 105. V. 92, p. 396, 462, 527, 1032; V. 93, p. 227, 406; V. 94, p. 1382.

REPORT.—For year ended June 30 1921 in V. 113, p. 957, showed: Net earnings, $167,259; interest and rentals, $216,372; net income, def., $49,113. Pres., G. A. Montgomery, S. S. Marie, Ont.; Sec., Alex. Taylor, Toronto; Treas., J. M. Alton, Sault Ste. Marie.—(V. 113, p. 959.)

ALLEGHENY & WESTERN RY.—(*See Map Buff. Roch. & Pitts.*)—Punxsutawney to Butler, Pa., 60 m. and br. 3 m. An extension of Buff. Roch. & Pittsb., to which leased in perpetuity for guaranty of bonds, taxes and 6% on stock. Uses B. & O. from Butler to New Castle and Pittsburgh under a trackage arrangement, making in all 144 m. V. 70, p. 849.—V. 106, p. 600.

ALLENTOWN RR.—Topton to Kutztown, Pa., 4.39 m. Stock, $1,268,884 (par $50), incl. $1,071,400 pledged under Reading Co. gen. M. No bonds.

ALLENTOWN TERMINAL RR.—Owns 3.27 miles of railroad in Allentown, Pa., connecting the East Penn. (Phila. & Reading) with the Cent. of N. J. Leased for 999 years to Phila. & Read. and Cent. of N. J. (by assignment from Lehigh Coal & Navigation Co.) at int. on bonds and 5% on $450,000 stock (par $50) taxes and corporate expenses.

Bonds were extended from July 1 1919 to July 1 1929, the interest rate being raised from 4% to 6%; the mortgage security remains unimpaired but the guaranty of P. & R. Ry. and Lehigh Coal & Nav. Co. was canceled. Callable after July 1 1920 at 102½ and int.—(V. 50, p. 422; V. 108, p. 2628.)

AMADOR CENTRAL RR.—Ione to Martell, Cal., 12 m. Stock, $400,000, par, $100. Mortgage, see V. 88, p. 156. Year ending Dec. 31 1920, gross, $70,758; net, after taxes, def., $4,831; bal. after int., rentals, &c., def. $17,210. Dividends 1911-12, 6 2-3%, $25,000 from accumulated surplus, 1918 and 1919, 1% each year. Pres., Meta J. Erickson, San Francisco.—(V. 88, p. 156.)

AMERICAN NIAGARA RR.—(V. 112, p. 160.)

ANN ARBOR RR.—Owns from Toledo, O., to Frankfort, on Lake Mich. 294 miles; operates car ferries between Frankfort, Mich., Kewaunee and Manitowoc, Wis., and Menominee and Manistique, Mich. Wabash and Pere Marq. use Toledo terminals.

Owns capital stock of Manistique & Lake Superior, Manistique, Mich., to Evelyn, 42 miles (with branch, 13 miles). V. 92, p. 1108; V. 107, p. 1344, 2156; V. 106, p. 2194, 2410. Tentative valuation, V. 113, p. 1052.

STOCK, &c.—Common, $3,250,000; pref., $4,000,000; 5% non-cum. par $100. Pref. stock cert., see issue Oct. 30 1897, p. 3. V. 94, p. 205.

BONDS.—The company in May 1921 received authority to issue $2,000,000 6% Impt. & Ext. bonds in lieu of similar 5% bonds, and for permission to retire $500,000 of its outstanding $2,500,000 5% bonds.

Equipment trusts issued to Director-General for rolling stock allocated to this company ($685,100 outstanding in May 1922). See article on page 3 and V. 114, p. 1764.

Government loan, V. 111, p. 1369; V. 112, p. 256, 371.

EARNINGS— (I.-S. C. C. figures)	——Jan. 1-Mar. 31—— 1922.	1921.	——Jan.-1 Dec. 31—— 1921.	1920.
Gross----------	$1,141,536	$1,123,899	$5,139,215	$5,385,992
Net after taxes--------	162,505	10,915	663,679	181,966

REPORT.—For calendar year 1921 gross oper. revenue, $5,122,112; oper. income, $655,620; other income, $56,161; deductions, $632,732; bal., sur., $79,049. V. 113, p. 1672.

DIRECTORS.—Newman Erb, J. S. Bache, F. Kingsbury Curtis, H. B. Blanchard, W. J. Wollman, W. M. Wadden, all of New York; Frederick Hertenstein, Cincinnati; E. F. Blomeyer, Toledo; Pres., Newman Erb; V.-Pres., J. S. Bache and E. F. Blomeyer; V.-P. & Treas., W. M. Wadden; Sec., H. B. Blanchard.—(V. 113, p. 1250, 1573, 1672, 2078, 2310, 2404; V. 114, p. 1061, 1531, 1764.)

ANTHONY & NORTHERN RR.—Reorganized in 1919 as the Wichita Northwestern RR., which see.

APALACHICOLA NORTHERN RR.—River Junction to Port St. Joe, 95.62 miles; Franklin Junction to Apalachicola, 3.06 miles; total main line owned, 98.68 miles. Main line leased from Atlantic Coast line, 0.44 miles and side tracks owned, 9.02 miles. V. 87, p. 935. Capital stock, $1,000,000.

Bonds, $2,000,000 (Ill. State Tr. Co., E. St. Louis, trustee) all held by committee, A. T. Perkins, St. Louis, Chairman; S. N. Kirby, T. S. Moffit, W. C. Fordyce and Wm. E. Bates, which collects interest only as earned. Mar. 1913 and subsequent coupons were not paid at maturity; in Dec. 1917, $37,600, and in Dec. 1918, $17,400 was paid on past due coupons; none thereafter to Dec. 1921, when $14,800 was paid.

For cal. year 1921, gross, $254,068; net, $7,937; other income, $21,743; interest, rentals, &c., $115,332; bal., def., $85,651. A. T. Perkins, Chairmand and President, St. Louis; Bryan Snyder, V.-P. & Gen. Mgr.; G. H. Williams, V.-P. & Gen. Counsel, St. Louis; R. R. Tompkins, Sec., St. Louis; F. V. Dubrouillet, Treas., St. Louis.—(V. 104, p. 763.)

ARIZONA EASTERN RR.—Owns Maricopa to Hassayampa, Ariz., 74 miles; Bowie to Miami, Ariz., 136 m.; Cochise to Gleeson, 35 m.; Tempe to Mesa, 8 m.; other, 36 m.; leases Phoenix, Ariz., to Winkelman, 92 m.; other, 1 m.; total, 383 miles. Stock auth., $40,000,000, of which $9,000,000 outstanding Dec. 31 1920, $8,999,100 owned by Southern Pacific Co.; with $1,728,000 of the $9,155,000 outstanding First Ref. 5s. The remainder of the bonds are held in sinking funds of proprietary cos. Calendar year 1920: Gross, $3,415,065; net oper. income, $212,969; other income, $824,341; deductions, $839,289; bal., sur., $198,021. V. 107, p. 1286; V. 108, p. 974; V. 113, p. 1052, 1887.

ARKANSAS & LOUISIANA MISSOURI RY.—Incorporated in Louisiana in Aug. 1920 as successor to Arkansas & Louisiana Midland RR. Compare V. 111, p. 790, 895, 1369; V. 112, p. 1143; V. 113, p. 69, 291.

ARKANSAS & MEMPHIS RAILWAY, BRIDGE & TERMINAL CO.—Owns double-track bridge (with wagon-way) across the Mississippi River at Memphis, Tenn.; opened for traffic July 15 1916. V. 103, p. 321.

Stock outstanding $2,520,000 owned one-third each by the St. Louis Southwestern Ry., Chicago Rock Island & Pacific Ry. and Missouri Pacific RR., which use the road under a 50-year operating agreement. These roads jointly and severally guarantee the 1st M. bonds, prin. and int., by endorsement. Of the $7,500,000 1st M. bonds, $3,750,000 are owned by the three proprietary companies. Of the remainder $2,250,000 are in the company's treasury subject to the indenture of Dec. 21 1917, $3,639,000 are outstanding; $111,000 have been retired through sinking fund and $1,500,000 are unissued. V. 108, p. 1721.

Pres., W. S. Martin; V.-P., J.M. Herbert; Sec. & Treas., Carl Nyquist.

ATCHISON & EASTERN BRIDGE.—Owns railroad and wagon bridge at Atchison, Kan., connecting with the union station. Used by the Atch. Top. & Santa Fe, the Chic. R. I. & P., the Mo. Pac. and the Chic. Burl. & Quincy. Stock, $700,000; par, $100 per share. Pres., H. A. Kelley Treas., H. P. Eells Jr.; Sec., W. P. Kelly, Cleveland, O.—(V. 67, p. 578.

(THE) ATCHISON TOPEKA & SANTA FE RY.—(*See Map.*)—On Jan. 1 1922 comprised 11,707 miles of railroad (11,509 m. owned), including an unbroken line from Chicago, Ill., via Kansas City, Mo., and Albuquerque, N. M., to the Pacific Ocean; also to Galveston, Tex., and the Gulf of Mexico. For operating purposes the 11,707 m. were divided as follows:

Atchison Topeka & S. F.----	8,862.47	Panhandle & Santa Fe-----	852.38
Rio Grande El Paso & S. Fe-	20.22	Grand Canyon----------	64.09
Gulf Colorado & Santa Fe--	1,907.64		

Also controls jointly with Southern Pacific Co. (Northwestern Pacific RR.—which see, &c.), 516.91 miles; Sunset Ry., 49.86 miles. V. 109, p 1987

The railway company on Dec. 31 1921 owned in fee 7,128 miles of system, and also all, or nearly all, the bonds and stocks of the other companies.

The shareholders voted Oct. 25 1917 to acquire several subsidiaries. V. 105, p. 908; V. 106, p. 2343. See V. 106, p. 2130.

In April 1915 the St. Louis Rocky Mt. & Pacific Ry., extending from Des Moines, N. M., west to Raton, with branches, 106 miles, was purchased for $3,000,000 Rocky Mtn. Div. 1st M. 50-yr. 4s. See V. 97, p. 363, 442; V. 95, p. 543, 1771; V. 97, p. 666; V. 100, p. 1169, 1591.

The Oklahoma Central RR., Lehigh, Okla., to Chickasha, 133 miles, was leased for 5 years from Aug. 1 1914, with privilege of renewal for 5 years. An option to purchase the $1,500,000 stock and $1,500,000 income bonds for $800,000 was exercised in 1917, about 80% of the $1,200,000 1st Mtge. 5% bonds due Aug. 1 1934 being also acquired. V. 106, p. 2130. V. 98, p. 1844; V. 99, p. 406; V. 101, p. 845.

In April 1921 was authorized to operate, pursuant to a lease dated April 7 1920, the Buffalo (Okla.) Northwestern RR., which includes 51 miles of road, extending from a point of connection with its main line at Waynoka, Okla., to Buffalo. V. 112, p. 1616. The stockholders in May 1921 also approved the leases of the Osage County & Santa Fe and the Barton County & Santa Fe. In Oct. 1921 received authority to lease the California Southern RR. V. 113, p. 1771.

ORGANIZATION.—Organized Dec. 12 1895 under laws of Kansas, as successor of Atch. Top. & S. Fe RR. Co., foreclosed. V. 60, p. 658.

STOCK.—The preferred stock has preference as to assets and non-cumulative dividends not exceeding 5% per ann.

DIVS.—	'00.	'01.	'02-'05.	'06.	'07.	'08.	'09.	1910 to June 1922.
Com. (%)-------	0	3¼4 yrly.	4¼	6	5	5¼	6% yrly	(1½% Q-M)
Pref. (%)--------	4	5	5 yrly.	5	5	5	5% yrly	(2½% F&A)

BONDS.—The Gen. Mort. (Abstract V. 62, p. 731-739; see also V. 68 p. 974; V. 86, p. 1098) gives a lien, either by direct mortgage or by collateral trust, on 8,516.53 m. of the system, with equip., terminals, &c.

The unissued Gen. M. 4s have been reserved as follows: To retire underlying bonds, $2,004,960; for impts., &c., $1,852,102; acquisitions of other lines, $6,731,554; no longer available, $2,339,383.

Adjust. (Income) Mtge. abstract, V. 62, p. 739. Int. payable only if earned up to 4% in each year, cumulative. Present issue limited to $51,728,000, but when the $30,000,000 gen. 4s auth. for improvements as above have been issued, $20,000,000 additional adjustment 4s may be issued for the same purpose at not exceeding $2,000,000 in any one year, but only by a majority vote of the adjustment bondholders. *Interest*—In Nov. 1897 paid 3%; since, full 4% yearly.

Eastern Oklahoma division 4s of 1903, V. 76, p. 434; V. 79, p. 1331; V. 84, p. 1549; V. 85, p. 598; V. 86, p. 980, 1041.

The "*Trans-Continental Short Line*" first gold 4s of 1908 are limited to $30,000,000 auth. issue. The $17,000,000 sold in Aug. 1908 covered 693 miles then in operation; the remaining $13,000,000 can be issued at $25,000 per mile. V. 100, p. 2008. Compare issue June 26 1915. V. 87, p. 479, 878.

The 4s of 1905 ($49,711,000 auth. issue) were convertible into com. stock at par till June 1 1918. V. 79, p. 2695; V. 80, p. 649; V. 81, p. 1174; V. 82, p. 391, 867. The 4s of 1909 were convertible into com. stock at par to June 1 1918. V. 88, p. 1435, 1559. The 4s of 1910 are conv. into com. stock at par to June 1 1923. V. 90, p. 913, 1043, 1612; V. 92, p. 393, 593, 1700.

The several issues of convertibles must be secured by any future mtge. covering the lines owned at time the convertible issue was made, and are callable at 110.

The California-Arizona Lines 1st and Ref. mtge. of 1912 ($50,000,000 auth. issue) of which $18,520,482 4½s are outstanding covers 804 miles of road including the line from Needles to Mojave, 242 miles, which was acquired from the Southern Pacific Co., on which there are outstanding $4,127,500 Sou. Pac. bonds due Nov. 1 1937. The latter also cover over 1,000 miles of Sou. Pac. Co., which has agreed to indemnify the Cal. Ariz. & Santa Fe Ry. against any claim on account thereof.

Of the remaining Cal.-Ariz. bonds, $26,313,399 are issuable for not exceeding the actual cash expenditures for betterments, improvements and additions on and after Jan. 1 1912 and $5,167,000 are reserved to refund the

OFFICERS.—W. B. Storey, Pres.; E. J. Engel, W. E. Hodges, A. G Wells and Edw. Chambers, V.-P.; D. L. Gallup, Comp.; E. L. Copeland Sec. & Treas.; L. C. Deming, Asst. Sec.

DIRECTORS.—Charles Steele, Edward J. Berwind, Henry S. Pritchett, Ogden L. Mills, John W. Davis, W. C. Potter, New York; T. De Witt Cuyler, Phila.; S. T. Bledsoe, W. B. Storey, Chicago; Andrew C. Jobes, Merriam, Kan.; Howel Jones, Topeka; W. E. Brown, Wichita, Kan.; Arthur T. Hadley, New Haven; J. E. Otis, Chicago. Office, 5 Nassau St., New York.—(V. 114, p. 625, 736, 1061, 1759, 1764, 1779, 2115.)

ATHENS TERMINAL CO.—Owns freight terminals and approaches in Athens, Ga. Stock $25,000, equally owned by Seaboard Air Line and Gainesville Midland, which agree to pay operating expenses and interest charges in proportion to tonnage used Bonds ($250,000 auth. issue), see table above. Pres & Treas., Gordon C. Carson; Sec., A. M. Yetterdahl, 120 Broadway, New York City.

ATLANTA BIRMINGHAM & ATLANTIC RY.—Owns Brunswick, Ga., to Birmingham, Ala., 455 miles; Sessoms to Waycross, Ga., 26 miles Fitzgerald to Thomasville, Ga., 80 m.; Atlanta to Manchester, 76 m.; total, 637 m. See V. 103, p. 405. Proposed extension from Waycross, Ga., to Jacksonville, Fla., 75 miles. V. 104, p. 2116.

Pres. B. L. Bugg was appointed receiver on Feb. 25 1921. V. 112, p. 931. In July 1921 Albert G. Foster, Madison, Ga., was appointed special master in receivership. In March 1921 was authorized to borrow $125,000 to pay past due wages. V. 112, p. 1398. Wage decision, V. 112, p. 1739. Tentative valuation, V. 113, p. 1052. Foreclosure suit filed, V. 114, p. 1177.

ORGANIZATION.—On Jan. 1 1916 succeeded to foreclosed properties of the A. B. & A. RR. Co., Georgia Terminal Co. and Alabama Terminal Ry., per plan in V.101,p.2143. Result of Federal valuation, V.103,p.1887. Federal contract signed in Dec. 1919, fixing annual compensation at Government loan, V. 111, p. 492.

STOCK.—$30,000,000 in $100 shares was underwritten at $12 a share to discharge equipment obligations ($1,266,366), &c. V. 102, p. 344, 885.

BONDS.—*First and Refunding Bonds.*—When issued will be a first mortgage on 336 miles of main-line track and second mortgage on 301 miles, and upon the terminal properties in Birmingham and Atlanta To be issued only (*a*) to retire, at or before maturity, Atlantic & Birmingham Ry. $4,090,000 1st 5s due 1934. (*b*) For future improvements, extensions and acquisitions under restrictions. Int. rate to be fixed at time of issue, not to exceed 6%. V. 103, p. 405. Callable at 110 & int. Nov. 1920 to 1925; at 105 & int. 1925 to 1935, and thereafter at 102½.

On Dec. 31 1920 $1,424,000 First & Ref. Mtge. bonds had been issued, but none had been sold; $530,000 pledged to seucre notes of $365,000, and $295,000 and $400,000 incomes pledged to secure notes of $200,000.

Income Bonds.—Entitled to non-cum. interest (paid semi-annually) at such rate, not exceeding 5% per annum, as may be declared (V. 101, p. 2143). The mortgage provides that net income, as defined by the I.-S. Comm. Commission, as available for that purpose, shall be so declared by the Board. The board may, however, reserve in any year from such "net income" not in excess of 20% thereof, (but not to exceed $100,000 in any year), until the total amount so reserved, exclusive of interest, shall reach $300,000. This "Income Bond Reserve Fund," carrying interest at 6%, may be distributed to the income bonds at any time and in any amount, and any balance at the maturity of the bonds shall be paid over to the trustee for the benefit of the bondholders. Total auth. issue, $5,200,000; held by or for company, $656,093; outstanding, $4,543,907. V. 105, p. 68.

The first installment of interest on the 15-yr. 5% income M. bonds at the full rate of 5% per annum, from Nov. 1 1915 to June 30 1916, $33 33 per $1,000 bonds was paid Sept. 1 1916, but only as to 2½% from earnings; Mar. 1917 to Mar. 1918 incl., 2½% (s.-a.) was paid on the incomes; on Jan. 12 1920 interest was paid at the rate of 5% per ann. on the coupons due Sept. 1 1918, Mar. 1 1919 and Sept. 1 1919. V. 110, p. 260. Mar. 1 1920 paid 2½%. Sept. 1 1920 interest was deferred. V. 111, p. 989.

In view of the default on the Atl. & Birm. 1st mtge. bonds, a protective committee was formed for the income bonds in Dec. 1921, with George E. Warren, Chairman, and A. W. Hutchins, Sec.; depositary, Columbia Trust Co., New York (V. 113, p. 2404), and also for the A. & B. 1st mtge. bonds, with Francis R. Hart, Chairman, and Walter F. Wyeth, Sec., 17 Court St., Boston; depositaries, Old Colony Trust Co., Boston, and Farmers Loan & Trust Co., New York (V. 113, p. 2718.)

As to Atl. & Birm. Ry. $4,090,000 1st M. 5s, see V. 80, p. 710, 115; V. 113, p. 2503.

Equipment trusts ($982,500) issued to Director-General for rolling stock allocated to this company. See article on page 3 and V. 114, p. 1061. U. S. Govt. long-term notes due $20,000 annually to 1930, $200,000.

REPORT.—For year ending Dec. 31 1921, showing:

Calendar Year—	Gross Earnings.	Net, after Taxes.	Other Income.	Interest, Rents, &c.	Balance, Sur. or Def.

* Standard return. *b* Includes standard return, $80,000, and Govt. guaranty, $1,383,402.

DIRECTORS.—Brooks Morgan, J. K. Ottley, B. L. Bugg, W. W. Banks, T. K. Glenn, J. L. Edwards and Mell. R. Wilkinson, of Atlanta; A. H. Woodward, Birmingham, Ala.; Galen L. Stone, Boston; Percy R. Pyne, George C. Clark Jr., and Howard Bayne, N. Y. City; W. G. Brantley, Washington, D. C.; F. D. M. Strachan, Brunswick, Ga.; W. C. Vereen, Moultrie, Ga.

Pres., ----------; V.-Pres., J. L. Edwards; Treas., W. E. Paschall; Sec., A. V. B. Gilbert.—(V. 114, p. 1061, 1177, 1285, 1405, 1889, 2011.)

ATLANTA & CHARLOTTE AIR LINE RY.—Owns Charlotte, N. C., to Armour, Ga., 263 miles.

In 1914 it was agreed to modify the operating contract made with the Richmond & Danville RR. under which the dividend to be paid will be 9% yearly without regard to earnings, instead of a maximum of 7%, dependent upon gross earnings, the Southern Ry. to have an option to purchase the stock on any dividend date at $250 per share in cash. V. 98, p. 1458, 1765, 1918; V. 98, p. 1991; V. 99, p. 195, 536, 608; V. 106, p. 2758 (So. Ry.). The final $4,000,000 1st M. 5s was sold in 1917 on account of double-tracking, &c. V. 104, p. 1044. V. 102, p. 1058, 1162; V. 101, p. 286, 368; V. 103, p. 577, 664.

Pres., C. S. Fairchild, N. Y.—(V. 104, p. 1044, 1898; V. 105, p. 388.)

ATLANTA & ST. ANDREWS BAY RY.—Owns from Dothan, Ala., to Panama City, Fla., on Gulf of Mexico, 82 miles. Stock auth., $1,000,000; outstanding, $300,000; par, $100. Central Bank & Trust Corp. of Atlanta, trustee of first mtge. V. 98, p. 391, 1460; V. 88, p. 685; V. 83, p. 270. Government award, V. 112, p. 256. For year ending Dec. 31 1920, gross, $425,629; net, after taxes, def., $146,056; other income, $14,472; interest and rentals, $93,978; bal., def., $225,562. Pres., Minor C. Keith; Sec., H. H. Hanson, both of New York.—(V. 113, p. 2310.)

ATLANTA TERMINAL CO.—Owns union passenger station opened May 14 1905, with approaches, used by Southern Ry., Central of Georgia Ry., Atlanta & West Point RR., Atlanta Birmingham & Atlantic Ry. and Seaboard Air Line Ry. Stock, $150,000, owned in equal proportions by the first three companies named. The stock receives 4% p. a., payable Mar. 1 of each year, charges and expenses being paid by the five using companies on car basis. The $1,000,000 Series "A" 6% bonds are guaranteed p. & i. by the three companies owning the stock. They were issued to retire the $1,500,000 First Mtge. 4s due July 1 1953. Secured on entire terminal property. V. 109, p. 577, 1271. President, R. B. Pegram.—V. 105, p. 2093; V. 107, p. 904; V. 109, p. 476, 577, 271.)

ATLANTA & WEST POINT RR.—Atlanta, Ga., to West Point, Ga., 93.19 m. The Georgia RR. & Banking Co. owned $936,100 stock, but sold same in 1910-11 to the lessees at $135 per share with option of repurchase at same price.

In Mar. 1920 announced that the Georgia RR., the Atlanta & West Point and the Western Ry. of Ala. would in future be operated in close organization independently. The three properties will be directed as to operation from Atlanta, Ga.

DIVIDENDS.—From July 1 1884 to July 1901, inclusive, 6% yearly. J. & J.; Oct. 1 1899, 25% extra; 1902 to Dec 1921, 6% yearly.

EARNINGS— (I.-S. C. C. Figures.)	——Jan. 1-Mar. 31—— 1922.	1921.	——Jan. 1-Dec. 31—— 1921.	1920.

Also owns one-sixth interest in the Richmond-Washington Co. Leases, jointly with the Louisville & Nashville RR., the Georgia RR., 571 miles.

In 1918 opened a line from Sebring, Fla., to Moore Haven, 59.70 miles. V. 103, p. 577. New station in Richmond, Va. V. 108, p. 266.

The Tampa Southern RR. Co., an auxiliary company, in 1917 let contracts for a 50-m. line from Tampa, via Orient, to Palmetto, and in April 1919 was operating from Uceta to Palmetta, 35.6 miles. In Jan. 1920 the line between Palmetto and Bradentown, Fla. (37 miles) was completed and placed in service. V. 105, p. 2457. Property operated by agreement with owner, James River to Acca (R. F. & P. RR.), 3.56 miles.

ORGANIZATION.—On April 18 1900 absorbed by consolidation (V. 70 p. 840, 893), Wilmington & Weldon RR., Atlantic Coast Line RRs. of S. C. and Va. and Norf. & Car. RR. On April 10 1902 absorbed the Savannah Fla. & Western Ry. Co. The St. Johns & Lake Eustis Ry. Co. was merged June 12 1902. Florida Southern and Sanford & St. Petersburg were merged April 1903. V. 76, p. 918, 971. Jacksonville & South Western was merged July 28 1904, the Winston & Bone Valley RR. Co. Feb. 18 1909, and the Conway Coast & Western RR. Co. on July 1 1912. In Oct. 1913 the railroad of the Sanford & Everglades RR. Co. was purchased by and conveyed to this company. The Atlantic Coast Line Co. (of Conn.) June 30 1921 owned $19,930,827 common stock, $17,640,000 having been distributed March 10 1914 among its stockholders. See that company above. V. 70, p. 893; V. 71, p. 1116, 1310; V. 83, p. 560.

In Oct. 1902 acquired $30,600,000 of the $60,000,000 Louisville & Nashville RR. stock and in 1913 an additional $6,120,000. On Dec. 31 1921 this $36,720,000 stock was on deposit along with $306,000 stock of Louisville Property Co., as security for the company's $35,000,000 collateral trust 4s of 1902. V. 75, p. 733, 792, 905; V. 79, p. 785.

STOCK.—Atl. Coast Line of Va. class A (Rich. & Pet. ctfs.) tax-exempt stock was assumed as so much of the com. stock of the new company

DIVS. (%)—	'06.	'07.	'08.	'09.	'10.	'11.	'12-'14.	'15	'16.	'17 to Jan '22
Com. (incl. Cl. A.)	6	6	b5½	5½	6	6	7 yrly	5	5	7% (3½% s.a.)

Also in 1905 20% in com. stock scrip and 5% in Atlantic Coast Line Co. 4% certificates of indebtedness. V. 81, p. 1558. b Includes 3% paid in Jan. in Atlantic Coast Line RR. 4% certificates of indebtedness.

BONDS.—In April 1914 the Unified Mortgage of 1909 was closed and a new $200,000,000 General Unified Mortgage was made permitting (unlike the mortgage of 1909) the issuing of bonds in series at various rates of interest The old Unified 4s held by the RR. Co. and the Atlantic Coast Line Co. ($21,330,000 and $3,008,000) were exchanged at once for new Series A 4½s, $ for $. V. 98, p. 761, 1070, 1154, 1243; V. 100, p. 1916. Listing, see V. 103, p. 2237. The Unified Mtge. was cancelled in 1920. V. 110, p. 2386. Of the $53,836,584 General Unified bonds issued to Dec. 31 1921, $23,019,000 were on that date in hands of public ($22,919,000 at 4½% and $100,000 at 4%) and $17,008,683 at 4½% and $3,808,900 at 6% were held in the treasury, while $10,000,000 were pledged as collateral. V. 106, p. 2235.

Purposes for which the $200,000,000 *General Unified Bonds were or are issuable*

Issuable as Ser. A 4½s to refund $30,749,484 Unified 4s	$30,847,484
Reserved to retire 4% certifs. of indebtedness, pref. stock and debenture bonds	4,963,960
Reserved to retire underlying bonds	84,838,750
Reserved (along with any bonds not issued to retire certificates of indebtedness) for future construction, improvements, &c.	79,749,806

The 10-year secured notes of 1920 are redeemable on and after May 15 1923 at 100 and int. plus a premium of 1% for each year to maturity. Secured by pledge of $10,000,000 Gen. Unified 4½s, 1964. V. 110, p. 2075.

The 4% convertible debentures are redeemable at 105 and were convertible into common stock at $135 a share to Jan. 1920. V. 97, p. 1513.

As to the $35,000,000 collateral trust 4s of 1902, see "Organization" above. They are subject to call at 105 in amounts not less than $100,000.

The Washington & Vandemere 4½s ($1,500,000 authorized, of which $720,000 outstanding) are guar., p. & l., by endorsement. V. 84, p. 1246. As to Winston-Salem South Bound RR. guar. 4s, see that company.

Guarantees, jointly with Richmond Fredericksburg & Potomac RR., $3,380,000 first mtge. 5% bonds of Richmond Terminal Ry. due Jan. 1 1952.

Equipment bonds, Series "D," V. 112, p. 60.

Equipment trusts issued to Director-General for rolling stock allocated to this company. See article on page 3 and V. 113, p. 1359, 1469.

* Includes 381 m., also covered by Pitts. Jct. 1st M. c See this company.

x The company has purchased these lines. Long Fork Ry., V. 109, p. 1980. Owns B. & O. Chic. Term. RR., $8,000,000 stock and $32,000,000 of its 4% bonds. See below. Sandy Valley & Elkhorn Ry. See V. 100, p. 307. Also controls S. I. R. T. Ry. Co. and Long Fork Ry. Co.

Effective April 28 1918, was ordered by Director-General of Railroads to use the Penn. RR. passenger station in N. Y. City, and in Sept. 1921 completed contracts with the Pennsylvania RR. for the permanent use of the Pennsylvania station as the Eastern terminus for its passenger trains. V. 113, p. 1154, 2184.

HISTORY.—Receivers were appointed in Feb. 1896, but in 1899 reorganized without foreclosure, per plan in V. 66, p. 1235. See also V. 67, p. 688, 1206, 1356; V. 95, p. 681, 1121, 1744; V. 96, p. 134; V. 97, p. 363.

The purchase of the Cin. Ham. & Dayton (now Toledo & Cinc. RR.) on July 19 1917 added 390 miles to road operated (see "Bonds" below: also V. 103, p. 1991; V. 107, p. 1283.) On Feb. 1 1917 also acquired entire capital stock of Coal & Coke Ry. (which see), 197 miles, operated separately. Purchased the Morgantown & Kingwood RR. in Feb. 1920. V. 110, p. 969.

READING CO., &c.—In 1901 $68,565,000 (virtual control) of the $140,000,000 Reading Co. stock, consisting of $12,130,000 1st pref., $28,530,000 2d pref. and $27,905,000 com., was acquired jointly with the New York Central RR., each co. taking one-half, but in 1904 each sold $3,950,000 of the common. V. 76, p. 101; V. 80, p. 1856.

STOCK.—Pref. stock see V. 71, p. 1166, 1143; V. 72, p. 1186.

Union Pacific RR. in '21 owned $3,594,035 common and $1,805,992 pref.

DIVIDENDS. 1900.	1901-04.	1905.	1906.	1907-14.	1915-17.	1918-21.
Common (%) 2	4 yrly.	4½	5½	6 yrly.	5 yrly.	text
Preferred (%) 4	4 yrly.	4	4	4 yrly.	4 yrly.	4

The pref. dividend has been paid as usual to and including Mar. 1922, but owing to delay in the signing of the contract for Government operation the common dividend due Sept. 1 1918 was not paid until Feb. 1 1919, when only 2% was distributed. On Mar. 1 1919 the common again received 2%. V. 108, p. 377; V. 107, p. 2374, 1747, 400, 295.

In June 1919 the directors decided temporarily to suspend dividend payments on the Common shares in order to set aside part of the road's income for capital expenditures so that the company's credit should not be extended under existing conditions. V. 108, p. 2628; V. 109, p. 269.

BONDS.—(1) *Prior Lien* 3½%, a first lien on main line and branches, Parkersburg branch and Pittsburgh division, about 1,091 miles of first track and 1,769 miles of second, third and fourth tracks and sidings, and also all the equipment now or hereafter acquired. Total auth., $75,000,000. See application to list, V. 69, p. 30; V. 78, p. 1906; V. 86, p. 1528; V. 86, p. 36.

(2) *First M. 4% Bonds. Due July 1* 1948; a first lien on the Philadelphia, Chicago and Akron divisions and branches and the Fairmont Morgantown & Pittsburgh RR., covering about 581 miles of first track and about 914 miles of second, third and fourth tracks and sidings; also on the properties covered by the B. & O. Term. Mtge. of 1894, all owned by the B. & O. and Baltimore Belt RR. Also a lien, subject to prior mtge., upon main line, &c. V. 69, p. 30; V. 79, p. 211; V. 97, p. 297, 594; V. 102, p. 1435.

Total issue closed at $82,000,000 (V. 104, p. 1044), except for $75,000,000 reserved to retire prior lien bonds in 1925.

(3) *Southwestern Division 1st M. 3½s.* A first collateral lien upon former B. & O. S. W. system, 920 miles of 1st track and 567 miles of 2d track and sidings. All issued---------- 45,000,000

(4) *B. & O., Pittsb. Jct. & Mid. Div. 3½s.* Expected to be ultimately a first lien upon the railroads of the Central Ohio system and Pitts. Jct. RR. Co., 381 miles in all. Total---- $20,000,000 $6,124,500 is in hands of the public and $8,712,550 pledged under Pitts. Lake Erie & W. Va. 4s. Closed except to retire underlying bonds, see table.

(5) *Pittsburgh Lake Erie & West Virginia System* mtge refunding 4% gold bonds (authorized amount $75,000,000) are a lien on 1,646 miles, forming a direct connection with Pittsburgh, Cleveland, Fairport, Lorain and Sandusky, subject to underlying bonds outstanding thereon (see table above). In Dec. 1921 $36,351,450 additional underlying bonds, including $8,712,550 Pittsb. Junc. & Middle Div. 3½s, were held in trust as part security. The unissued bonds are reserved to retire underlying bonds. V. 74, p. 266; V. 79, p. 2793; V. 80, p. 1423; V. 86, p. 479, 1528; V. 87, p. 36; V. 88, p. 451, 685; V. 105, p. 715.

(7) *Convertible 20-year 4½s* $63,250,000, dated March 1 1913, will be convertible into common stock up to Feb. 28 1923 at $110 per share and redeemable beginning March 1 1923 at 102½. These 4½s are secured by the new blanket mortgage below described pari passu with the new bonds. See V. 96, p. 134, 200, 651, 715, 1088, 1421; V. 97, p. 727.

Schuylkill River East Side 4s. V. 77, p. 1745; V. 81, p. 727.

(8) *Refunding & General Mortgage of* 1915 *due Dec.* 1 1995 (V. 101, p. 1884). The initial $60,000,000 5% bonds of this issue was brought out in Dec. 1915. See below; also V. 101, p. 1884; V. 102, p. 975; V. 103, p. 1989. In June 1919 an additional $15,000,000 was pledged as part collateral for $35,000,000 Secured Gold bonds.

The I.-S. C. Commission in Jan. 1921 authorized the company (1) to issue $3,000,000 Ref. & Gen. Mtge. Series "B" 5% bonds, for the purpose of retiring by exchange an equal amount of Ref. & Gen. Mtge. Series "A" 5% bonds; and (2) to pledge $3,000,000 Ref. & Gen. Mtge. bonds, Series "A," and $10,000,000 Ref. & Gen. Mtge. bonds, Series "B," as security for its $9,000,000 prmissory note to be issued to the Director-General of Railroads. Additional $5,000,000 Series B pledged with Govt. to secure $3,000,000 loan. V. 112, p. 468.

Security.—Secured on practically entire system, 4,514 miles of first track, and equipment or interest therein, having in 1921 a net value of over $118,833,629. Also covers the passenger and freight terminals in Philadelphia, Baltimore, Pittsburgh and Chicago and the freight terminals on Staten Island, N. Y., in Cincinnati and Washington, as well as one-half stock interest in the Washington Terminal Co. and one-half ownership of joint yards at Washington. A direct lien upon about 2,297 miles of first track, and a lien, through the deposit of bonds, and in most cases all, and in no case less than 96% of stock, of the co. owning remaining mileage.

Reservation of Bonds.—The mortgage reserves bonds to retire about $282,000,000 prior liens on various parts of the system and the $63,250,000 convertible gold bonds [these last being secured by the new mortgage pari passu with the bonds issued thereunder] and provides for the reservation of bonds for construction, improvements, new equipment and the acquisition, directly or indirectly, of properties and securities. The right is reserved to refund the Prior Lien 3½s into 1st M. 4s of 1898 due 1948, and to extend the due date of the S. W. Div. 3½s to date not later than July 1 1950.

The authorized issue is limited to an amount which, together with all the prior debts of the Railroad Co., after deducting therefrom the bonds reserved under the provisions of the mortgage to retire prior debts at maturity, shall not exceed 3 times the then outstanding capital stock, with the additional limitation that when the aggregate amount of the bonds outstanding and the bonds reserved to retire prior debts shall be $600,000,000, no additional amount of bonds shall thereafter be issued, except the bonds so reserved to retire prior debt, without the further consent of the stockholders of the railroad company, and such additional bonds may be issued only to an amount not exceeding 80% of cost of work done or property acquired.

(9) *Toledo-Cincinnati Div. Bonds.*—In July 1917, following foreclosure sales, 391 miles of the former Cincinnati Hamilton & Dayton Ry. System was reorganized per plan in V. 102, p. 1059; V. 105, p. 715, 908, as the Toledo & Cincinnati RR. Co., whose outstanding securities ($5,000,000 capital stock, $16,250,500 First & Ref. Mtge. bonds and $20,000,000 Adjustment & Improvement bonds) were then acquired by the B. & O. RR. The aforesaid 390 miles embrace: Main line Cincinnati to Toledo, 201 miles, including 141 miles leased from Dayton & Michigan RR. (a very profitable lease; see caption of that company); Tontogany to North Baltimore, 19 miles; Deshler to Findlay, 18 miles; Hamilton to East Middleton, 13 miles; Piqua to Troy, 9 miles; Dayton to Ironton Jct., 123 miles; other, 8 miles.

The B. & O. RR. having acquired all the securities issued by the Toledo & Cincinnati RR., made a deed of trust covering the same to secure not exceeding $35,000,000 collateral bonds, which are intended ultimately to be made as far as possible a direct lien on this division. Of these new B. & O. bonds, $11,250,500 of 4% and $5,000,000 of 5% were issued forthwith under the plan. The remainder were reserved to retire at maturity or earlier the bonds undisturbed by the plan as shown in table above, or for acquisition of underlying stocks, branch lines, branch line bonds, aid for refunding additions and betterments, or to acquire First & Ref. Mtge. bonds of new company issued therefor. V. 105, p. 2364.

(10) *Collat. Bds. (Coal & Coke Ry.)*—This $3,000,000 (closed) issue was sold in March 1919 to provide (along with treasury cash) for $5,000,000 1st M. 5s of Coal & Coke Ry., maturing April 1. (See that co.) The new issue is secured by pledge of all the $5,000,000 1st M. 5s of Coal & Coke Ry. due 1924. See V. 108, p. 1273.

(11) The $35,000,000 6% *Secured Bonds* dated July 1 1919 have as security: $6,065,000 Reading Co. First Pref. stock; $14,265,000 Reading Co. Second Pref. stock; $10,002,555 Reading Co. Common stock; $15,000,000 B. & O. Ref. & Gen. Mtge. 6% bonds, Series "B," and $2,000,000 Series "A," due Dec. 1 1995. The trust indenture provides that the aggregate value of the collateral deposited shall always be maintained at least equal to 125% of bonds outstanding. V. 108, p. 2628; V. 109, p. 71.

The trust indenture provides that the company in each year, beginning July 1 1919, after providing for its fixed charges, will set aside out of net income accruing after that date, not less than $3,500,000 p. ann. until a total of $17,500,000 has been set aside, such sums to be used, from time to time, solely for capital expenditures theretofore made, to pay loans incurred or maturing funded obligations. Moneys set aside in any year in excess of $3,500,000 may be credited against moneys required to be set aside in subsequent years. V. 108, p. 2628.

BIRMINGHAM COLUMBUS & ST. ANDREWS RR.—Chipley to South Port, Fla., 38 miles. S. A. Alford, receiver. Chipley, Fla.; A. E. Edge, Auditor; John B. Glen Jr., Supt., Chipley, Fla.

BIRMINGHAM & NORTHWESTERN RY.—Jackson, Tenn., northwesterly to Dyersburg, 49 miles. The I.-S. C. Commission in Mar. 1922 authorized the company to issue $400,000 1st Mtge. 6% bonds, due Mar. 1 1927, for the purpose of refunding or retiring an equal amount of 1st Mtge. bonds maturing Mar. 1 1922. The proposed bonds will be dated Mar. 1 1922 and mature Mar. 1 1927. V. 114, p. 1061.

Pres., A. B. Tigrett; Vice-Pres., C. W. McNear; Sec., R. F. Spragins; Treas., J. E. Edenton. Office, Jackson, Tenn.—(V. 114, p. 304, 1061.)

BIRMINGHAM & SOUTHEASTERN RY.—Owns Union Springs to Eclectic, Ala., 48 miles. V. 94, p. 1316. Interest on the 1st M. bonds having been defaulted Nov. 1 1916, a protective committee with George C. Van Tuyl Jr. as Chairman and H. M. DeLanoie, 66 Broadway, N. Y., as Secretary, asked for deposits with Central Trust as depositary. V. 103, p. 1887. V. 103, p. 2340. A receiver was appointed in July 1920. V. 111, p. 492, 791. Stock, $700,000. First 6s of 1911. V. 93, p. 43; V. 94, p. 1316. Cal. year 1920, oper. income, $35,444; other income, $560; deductions, $44,994; deficit for year, $8,990. Office, Union Springs, Ala.—(V. 94, p. 1316; V. 103, p. 1887, 2340; V. 111, p. 492, 791.)

BIRMINGHAM TERMINAL.—Owns passenger terminals at Birmingham, Ala. Stock all owned by the Illinois Central, Southern Ry., Seaboard Air Line, Central of Georgia, St. Louis & San Francisco and Alabama Great Southern, which lease the property and pay all expenses, charges and 4% dividends on the stock and jointly guarantee the bonds. Of the bonds ($3,000,000 authorized), $1,060,000 are reserved for additional properties. V. 83, p. 1227; V. 85, p. 404. Guaranty, V. 90, p. 848.—(V. 90, p. 848.)

BLOOMSBURG & SULLIVAN RR.—Owns Bloomsburg to Jamison City, Pa., 29 miles. Stock is $600,000; par, $50. V. 66, p. 80, 952. —(V. 66, p. 952.)

BOONVILLE ST. LOUIS & SOUTHERN RY.—Boonville to Versailles, Mo., 44 miles. Stock auth., $1,000,000; outstanding, $250,000 (owned by Missouri Pacific RR. Co.); par, $125.

Lease.—Operated by Mo. Pac. RR. Co. under new lease, dated Aug. 1 1917, and running until Aug. 1 1955. Consideration, payment of maintenance expenses, taxes and an annual rental of $12,500, being the interest on the new outstanding bonds plus $30 annually to corporate trustee.

Under financial readjustment in Feb. 1918 the holders of the $500,000 1st mtge. bonds of 1911 (coupon of Feb. 1916 unpaid) were offered in exchange pro rata $250,000 new First Mtge. 5% gold bonds of Boonville Co. under new mtge., dated Aug. 1 1917, payable Aug. 1 1951; and also $250,000 pref. stock v. t. c. of Missouri Pacific RR. Co., together with a cash adjustment of $50,000, equal to the defaulted interest. Trustees, the Spitzer-Rorick Trust & Sav. Bank, Toledo, Ohio, and Lewis C. Nelson. Pres., A. Robertson; Treas., F. M. Hickman; Sec., F. W. Irland, St. Louis, Mo.—(V. 95, p. 968.)

BOSTON & ALBANY RR.—Owns Boston, Mass., to Albany, N. Y., 200 miles; branches, 104 m.; leased lines, 90 m.; total, 394 m

Leased in 1900 for 99 years to the New York Central & Hudson River RR. for guaranteed rental of 8% per annum on the $25,000,000 stock, payable quarterly (Mch. 31, &c.), organization expenses, interest on bonds, taxes, expenses of maintenance, &c. The B. & A. received for certain property not included in the lease $5,500,000 in N. Y. Central 3½% 100-year debentures, thus adding .77% per annum to 8% guaranteed on stock. See lease in V. 69, p. 282; V. 69, p. 1061, 1102, 1246; V. 70, p. 74; V. 71, p. 645, 963; V. 107, p. 1918. Lease assumed by N. Y. Central RR. Dec. 23 1914.

BONDS.—The $13,500,000 25-year 4% impt. bonds are guar. prin. and int., by New York Central & Hudson River RR. No mortgages can be placed on the property without jointly including the bonds in the lien. V. 86, p. 1099; V. 89, p. 102; V. 91, p. 396. V. 94, p. 277, 1055, 1316, 1625. The 4% bonds mature $7,000,000 in 1933, $4,500,000 in 1934 and $2,000,000 in 1935.—V. 96, p. 553, 651, 946, 1365, 1489, 1838; V. 97, p. 1838.

In June 1916 all bonds issued since the lease to the N. Y. C. & H. R. RR Co. had been guaranteed (prin. & int.) by the lessee. In Aug. 1917 sold 1,000,000 guar. 25-year 5s for additions, &c. V. 105, p. 715.

DIVIDENDS.—Since 1900, 8¼%, viz.: 2% each in March and Sept. 2½% in June and 2½% in Dec

BOSTON & MAINE RR.—ROAD.—The system with its many branch lines covers the territory from Boston, Mass., to Portland, Me. (two lines); Springfield, Mass., Sherbrooke, Can., Rotterdam Jct. and Troy, N. Y.; Worcester, Mass., to Portland, Me., and most of New Hampshire.

Description— Steam Roads—	Owned.	Mileage Leased.	Total.
Main lines	1,040.66	280.53	1,321.19
Branch lines	629.77	267.44	896.71
Trackage rights	------	25.27	25.27
Total road operated	1,669.93	573.24	2,243.16
Second track	501.84	a96.78	598.62
Third track	3.21	b5.87	9.08
Fourth track	1.98	------	1.98
Side track	1,130.37	254.88	1,385.25
Total track operated	3,307.33	930.77	4,238.10
Electric Railways—			
Branch lines	44.19	------	44.19
Side tracks	2.92	------	2.92
Total	47.11	------	47.11
Grand total tracks operated— Steam and Electric roads—			
Dec. 31 1921	3,354.44	930.97	4,285.21

a Includes trackage rights, 21.29 miles. *b* Includes trackage rights, .99 mile.

Reorganization.—On Aug. 29 1916 the Boston & Maine RR. was placed in temporary receivership on account of inability to pay its maturing obligation of nearly $20,000,000. Pres. James H. Hustis was appointed temporary receiver and continued in this position until reorganization and consolidation of the system on Dec. 1 1919.

The reorganization plan (V. 107, p. 1918, 2375, 2474), which became effective Dec. 1 1919, provided as follows:

(1) Consolidation of the Boston & Maine RR. with its seven directly leased lines and the assumption by the consolidated company of all subleases and other obligations.

(2) Payment in cash of principal and back interest of all matured obligations of the eight consolidating companies.

(3) Payment in cash of back interest on unmatured bonds and debentures of the consolidating companies, these being left as original or assumed obligations of the Boston & Maine RR.

(4) Exchange of stock of consolidating leased lines on which dividends had been paid as rentals for like amounts of Boston & Maine Cumulative First Preferred stocks, the latter to be issued in series with dividends corresponding to the dividends on the old leased line stocks, but for a period of 5 years these dividends to be paid at 20% less than the normal rates.

(5) Preferred stock of the Boston & Maine remains undisturbed, except that it is subordinated as to dividends but not as to principal to the First Preferred stock, and the regular 6% rate reduced to 4% for the period of 5 years. However, it has been stipulated that the dividend on this stock must be paid if earned.

(6) The Common stock of the Boston & Maine is undisturbed, but is to receive no dividends for a period of 5 years, except under conditions mentioned below. In case of liquidation all three classes of stock are to share equally in assets after providing for obligations and accumulated dividends on the First Preferred and Preferred stocks.

(7) The money necessary to pay off the matured obligations was obtained by the selling of $19,879,000 bonds to the U. S. Govt., these bonds being secured by the consolidated properties under a mortgage which equally secures all the outstanding bonds of the consolidated companies, except that $8,338,000 bonds of the consolidated companies which previously have been secured by mortgages retain these mortgages, which are senior in lien on the divisions covered to the lien of the new general mortgage.

(8) The agreement in respect to the reduction of Preferred dividends and non-payment of Common dividends during 5 years is modified by the provision that if during the period of 5 years the company shall sell $12,000,000 6% First Preferred stock at par and apply the proceeds in the reduction of debt to the Government, restrictions in respect to Boston & Maine Pref. and Common stocks shall lapse, but curtailment of dividends on the First Preferred stocks shall continue.

(9) The amounts earned for the stocks and not paid out on account of the reduction in dividend on the Pref. stock and the omitting of dividends on the Common are to be paid to a trustee to be applied in the purchase from the Government of the bonds it takes for its advances or invested in impts. V. 107, p. 1918, 2375, 2474.

Payments.—On Dec. 1 1919 announcement was made that the notes of the Boston & Maine RR., Connecticut River RR. and Fitchburg RR. would be paid with accrued interest; the notes of the Vermont Valley RR. purchased at par and accrued interest, and the overdue coupons of the Boston & Maine RR. and St. Johnsbury & Lake Champlain RR. paid. V. 109, p. 2171.

CAPITAL STOCK.—First Pref., authorized, $50,817,900, of which $12,000,000 is reserved to retire $12,000,000 of new bonds. Issued, $38,817,900. Pref. only as to divs. (see paragraph 4 above). Preferred and Common stocks (see paragraphs 5 and 6 above). The Boston RR. Holding Co. holds $21,918,900 Common and $654,300 Preferred stock, and this has been ordered by the Court to be sold by Oct. 1 1922. V. 108, p. 2122

BONDS.—In exchange for the $19,879,060 advanced by the Government the company issued $17,606,060 5% bonds payable July 1 1920 and $2,273,000 6% bonds payable Jan. 1 1929. The 5% bonds due July 1 1920 were refunded by a like amount of 6% bonds payable Jan. 1 1929, purchased by the Director General of Railroads.

The new 1st & ref. mtge. secures all of the consolidated company's bonds equally with the bonds given to the Government, and will cover all the property owned or hereafter acquired, subject only to the following divisional mortgage bonds: Portsmouth Great Falls & Conway RR., due June 1 1937, $1,000,000; Worcester Nashua & Rochester RR., $1,265,000 ($735,000 due Jan. 1 1930, $380,000 due Oct. 1 1934, $150,000 due Jan. 1 1935); Troy & Boston RR., due July 1 1924, $573,000. Bonds are to be issued in series. (See table at head of page.)

Note A.—"For the years 1918, 1919, 1920 and 1921 the corporate and Federal income accounts are combined, and in order that balances carried to profit and loss may agree with corporate accounts, an adjustment is made eliminating Federal income transactions and clearance accounts, 'Revenues and expenses prior to Jan. 1 1918.'" The Standard Return for 1920 (2 months) was $1,583,441, against $9,500,643 for years 1918 and 1919, the road having been operated by the U. S. RR. Administration from Jan. 1 1918 to Mar. 1 1920.—Ed.

b Up to Dec. 31 1920 the I.-S. C. Comm. had authorized payments aggregating $11,500,000 on account of the 6 mos.' guaranty claim of $ 7,691,310. Only the $11,500,000 is included in the $13,078,935 here shown for 1920.

OFFICERS.—James H. Hustis, Pres.; Wm. J. Hobbs, V.-Pres.; H. R. Wheeler, Treas.; A. B. Nichols, Clerk.

DIRECTORS.—Norman L. Bassett, Augusta, Me.; Charles W. Bosworth, Springfield, Mass.; Frank P. Carpenter, Manchester, N. H.; Charles Sumner Cook, Portland, Me.; Henry B. Day, West Newton, Mass.; James Duncan Upham, Claremont, N. H.; J. H. Hustis, Winchester, Mass.; Richard Billings, Woodstock, Vt.; H. H. Dudley, Concord, N. H.; Geo. von L. Meyer, Hamilton, Mass.; Alba M. Ide, Troy, N. Y.; W. M. Parker, Manchester, N. H.; Geo. R. Wallace, Fitchburg, Mass.; H. E. Warner, Lincoln, Mass.; Harry G. Stoddard, Worcester, Mass.; E. M. Hopkins, Hanover, N. H.; Woodward Hudson, Concord, Mass.; Wm. J. Hobbs, Malden, Mass.—(V. 114, p. 408, 737, 853, 1178, 1405, 1532, 1650, 1764, 1883, 1889, 2239.)

BOSTON & PROVIDENCE RR.—Owns Boston, Mass., to Providence, R. I., 43 miles; branches 20 miles. Leased 99 years April 1 1888 to Old Colony RR.; rental 10% yearly on stock, lease being modified in 1912. V. 95, p. 235. The New York N. H. & Hartford on Dec. 31 1921 owned $524,600 stock. The company issued as of July 1 1918 $2,170,000 5-year 6% gold debentures due July 1 1923 to refund the 4s then due. Endorsed on the bond and signed both by lessee and lessor is a statement to the effect that the bonds are issued under provisions of lease of 1888. Interest payable at office of J. P. Morgan & Co., N. Y., National Shawmut Bank or First National Bank, Boston (V. 108, p. 1274.)

BOSTON RAILROAD HOLDING CO.—Incorporated in Massachusetts June 18 1909 under special Act with power to hold securities of Boston & Maine. The N. Y. N. H. & Hartford has transferred its holdings of $27,600,400 pref. and com. stock to trustees appointed by the U. S. District Court, and as guarantor has paid pref. divs. which Co. could not meet.

Owns $21,918,900 common and $6 4,300 pref. stock of the Boston & Maine, for which was issued $27,293,900 non- oting 4% cum. pref. stock, redeemable at 110, guar., prin. & divs., by endorsement by the N. Y. N. H & H. RR. Co. The latter company also owns the entire $3,106,500 com. stock of the Boston RR. Holding Co. V. 93, p. 870, 1461; V. 94, p. 205; V. 95, p. 968.

In March 1914, under order of court to divorce the system, the B. & M. stock was transferred to five trustees, viz.: George W. Anderson and James L. Doherty of Springfield, Mass.; Henry B. Day and Charles P. Hall of Boston; Frank P. Carpenter of Manchester, N. H., with orders to sell the same on or before Feb. 1 1909, but U. S. Dist. Court extended order to Oct. 1 1922. V. 108, p. 2122. As to receivership of B. & M. in Aug. 1916, see thatcompany V. 99, p. 47; (V. 108, p. 76.)

BOSTON REVERE BEACH & LYNN RR.—Owns narrow-gauge road from Lynn to East Boston, Mass., 9 miles, connecting with Boston by company's ferryboats; East Boston to Winthrop, 5 miles; also Winthrop to Point Shirley, 1 mile. V. 94, p. 982; V. 95, p. 1121, 1402. Fares, V. 106, p. 2122, 2344; V. 107, p. 180.

DIVIDENDS.— {'97-'05. '06. '07. '08-'10. '11. 1912 to Apr. 1920.
Since 1894 } 2 yly. 4 5 6 yly. 7½ 6% yly. (1½ %Q-J.)

No div. payments have been made since April 1920.

Yr. end.—	Gross.	Net.	Int.&Tax.	Divs. Paid.		Balance.
Dec. 31 1921	$1,606,979	$103,537	$101,511		-----	sur. $2,026
Dec. 31 1920	1,651,728	def.89,216	93,259	(1½)	$12,750	def.$195,225

—(V. 112, p. 848, 1398.)

BOSTON TERMINAL CO.—Owns Southern Union Depot in Boston, opened in 1899. V. 68, p. 40; V. 69, p. 591. N. Y. Central (Boston & Albany), Boston & Prov., Old Colony and N. Y. N. H. & Hartford RR. cos. own the $500,000 capital stock and pay as rental in monthly installments sums sufficient to pay all expenses, charges, interest on bonds and 4% on stock. These companies are jointly liable for any deficiency in case of foreclosure. Reg. Int. Q.-F.; coup., F. & A.—(V. 93, p. 1598.)

BOYNE CITY GAYLORD & ALPENA RR.—Operates Boyne City to Alpena, Mich., with branches, a total of 136 miles, forming a cross-State line from Lake Michigan to Lake Huron. Capital stock, authorized, $1,000,000; outstanding, $669,300. An issue of $800,000 1st M. 20-year 5s was sold in 1917, also $47,000 note maturing part yearly July 1 1918 to 1922, incl. In April 1919 the road had been taken out of hands of receiver; the interest due Jan. 1 1918 to Jan 1 1922, incl., on the 1st mtge. bonds has been paid. See V. 105, p. 1616, 2183; V. 110, p. 969.—(V. 112, p. 743.)

BRAZIL RAILWAY.—(V. 113, p. 2818.)

BROWNSVILLE & MATAMOROS BRIDGE CO.—Owns international steel bridge over the Rio Grande River between Brownsville, Tex., and Matamoros, Mex., connecting St. Louis Brownsville & Mexico Ry. (New Orleans Texas & Mexico) and National Rys. of Mexico. Stock, $650,000, one-half (except directors' shares) owned by each of said companies, which jointly guarantee both classes of bonds. 1st M., $333,000 auth. Year ended Dec. 31 1920, gross, $56,274; net, $33,501; other income, $254; interest, $20,250; taxes, &c., $4,372; bal., sur., $9,133. See National Rys., V. 94, p. 277.

BUFFALO CREEK RR.—Owns 6 miles of terminal road in Buffalo, N.Y. In Dec. 1889 leased for term of charter less one day to the Lehigh Valley and the Erie RR., which together own entire capital stock of $250,000. Rental is int. on bonds, 7% on stock and organ. expenses. First Ref. bonds are issuable to retire old 5s. V. 108, p. 1610. Pres., C. A. Brunn, Buffalo, N. Y.; V.-P., F. H. Silvernail, N. Y.; Sec. & Treas., E. A. Albright, N. Y. —(V. 92, p. 259, 593; V. 93, p. 43; V. 108, p. 1610.)

BUFFALO ROCHESTER & PITTSBURGH RAILWAY.—(*See Map.*)—Operates from Buffalo and Roch., N. Y., to bituminous coal regions.

Lines owned in fee—	Miles.

Total Dec. 31 1921 (*a* See separate statement for this company) 590

ORG.—Successor 1887 of Roch. & Pittsb., foreclosed, plan V. 41, p. 516. The entire capital stock ($4,000,000) of the Rochester & Pittsburgh Coal & Iron Co. (V. 66, p. 1088), carrying control of the Jefferson & Clearfield Coal & Iron Co., was transferred in 1906 (subject to the lien of the General Mtge.) to the Mahoning Investment Co. in consideration of $4,125,000 of its stock, which was then distributed pro rata among the holders of Ry. common and pref. stocks. V. 83, p. 1468; V. 85, p. 414, 415; report, V. 109, p. 1459. For bonds of these coal companies see "Industrial Cos." Clearfield & Mahoning Ry. securities are guaranteed.

In 1921 carried 3,854,947 tons of bituminous coal (out of 7,503,909 total tons of freight moved), as compared with 9,402,558 tons of bituminous coal out of 14,941,182 total tons of freight moved in 1920).

OFFICERS.—Pres., Wm. T. Noonan, Rochester; V.-P., Adrian Iselin, W. Emlen Roosevelt, N. Y., Thos. F. Brennan, Rochester; Treas., J. F. Dinkey, Rochester; Sec., Ernest Iselin, New York.

Directors.—Henry G. Barbey, A. Iselin, William E. Iselin, J. Herbert Johnston; C. O D. Iselin, W. T. Noonan, George E. Roosevelt, W. Emlen Roosevelt, Ernest Iselin, O'Donnell Iselin, Oscar Grisch, Samuel Woolverton, Hamilton F. Kean. N. Y. office, 36 Wall St.—(V. 114, p. 518, 1062, 1178, 1650, 1759, 1783, 1889.)

BUFFALO & SUSQUEHANNA RAILROAD CORPORATION.—Owns from Sagamore, Pa., to Wellsville, N. Y., with several branch lines incl. 15.44 m. trackage. Total mileage Dec. 31 1920, 253. Incorp. in Pennsylvania and succeeded Dec. 31 1913, per plan V. 98, p. 1503, the B. & S *RR.*, foreclosed Dec. 5 1913. V. 97, p. 1582; V. 93, p. 1596. For description of property see V. 108, p. 1828-'30; V. 100, p. 1007, 980. Connects at Driftwood Jct. with Pennsylvania RR. for Buffalo.

STOCK.—Authorized (par $100), common, $3,000,000; 4% pref. (p. & d.), cumulative after Jan. 1 1915, $4,000,000. Will be held in voting trust until Jan. 1 1924. P. G. Bartlett, J. S. Farlee and Herbert H. Dean, all of N. Y. City, voting trustees. Listed on N. Y. Stock Exchange. See full statement to the Exchange as of April 1 1919.—V. 108, p. 1828-'30

DIVIDENDS—	1916.	1917.	1918.	1919.	1920.	1921.
On common stock	5	5 & 2 ext.	7	7	10	7

On pref. stock in full to date. On com. in 1922: Mar. 31, 1¾%.

BONDS.—The first M. bonds ($10,000,000 auth.) are secured on the entire property and further by deposits of mortgages aggregating $913,778 on coal lands of the Powhatan Coal & Coke Co., and of a second mortgage for $1,300,000 on the properties of the Buffalo & Susquehanna Coal & Coke Co., and of all the stock of the Addison & Susquehanna RR. and all the stock and bonds of the Wellsville Coudersport & Pine Creek RR., and of all the stock of the Keystone Store Co. V. 73, p. 619, 899; V. 84, p. 748.

Of the bonds, $6,959,000 have been issued. The remaining $3,041,000 bonds, or any of them, may bear not to exceed 5% interest and can be issued only for additions, extensions, improvements, acquisitions of property or acquiring or discharging liens on property of corporations in which 90% of stock is owned. Sinking fund for redemption of bonds at not to exceed par and int., $50,000 per ann. for 35 years; also all sums in excess of $50,000 per ann. received on account of principal of any mortgages held as collateral under such mortgage and any further payments authorized in case of issue of further bonds or otherwise. Bonds retired through operation of the sinking fund to be held alive. To May 1 1922, $927,400 had been retired while $368,500 were held in treasury and $5,663,100 were outstanding V. 97, p. 1503; V. 98, p. 1765; V. 100, p. 980, 1006; V. 108, p. 2329, 2240

BUFFALO & SUSQUEHANNA COAL & COKE CO.—This company the $1,300,000 2d M. 5% bonds of which are owned by the B. & S. *RR.* Corp., owns coal lands at Du Bois, Onondaga and Sagamore, Pa. Six mines in operation. V. 77, p. 1301; V. 79, p. 2091-92; V. 82, p. 1322; V. 85, p. 1266. 1st M. 5% bonds have been paid off.

POWHATAN COAL & COKE CO.—This company, all of whose bonds are owned by the B. & S. *RR.* Corp., owns coal lands at Tyler and at Sykes. Its coking plants have a capacity of 1,800 tons of coke daily. Keystone Store Co., stock $50,000, all owned by RR. Corp.

EARNINGS— (I.-S. C. C. figures.)	——Jan. 1–Mar. 31—— 1922.	1921.	——Jan. 1–Dec. 31—— 1921.	1920.

Note.—The net railway operating income of the U. S. RR. Administration shown is much less than actual, because (1) failure to give proper credit for hire of freight cars, and (2) at the same time charging to operating expenses the cost of repairs to B. &. S. cars on roads which paid nothing to owning road as rental.

DIRECTORS.—E. R. Darlow (Pres.), A. A. Jackson, P. G. Bartlett, Herbert H. Dean, J. S. Farlee, James A. McKee, Julius F. Workum, Charlton Yarnall, Albert L. Smith and J. Rutherford McAllister; F. E. Hall (Sec.-Treas.); Gen. Mgr., A. M. Darlow; Gen. Aud., T. J. Elmer, 980 Ellicott Sq., Buffalo.—(V. 110, p. 1088, 1414, 2191; V. 111, p. 2227.)

BULL FROG-GOLDFIELD RR.—Beatty, Nev., to Goldfield, Nev., 80 miles. In June 1914 control was obtained by Las Vegas & Tonopah RR., duplicate lines being abandoned, but in 1918 that company went out of business and this road has since been operated in connection with Tonopah & Tidewater RR. and Death Valley RR. V. 99, p. 1536. During the latter part of 1919 Messrs. Althause and La Grange purchased a majority of the $1,628,463 outstanding stock, and in the spring of 1920 announced that they proposed to scrap the road, pay off the bonds and divide the remainder of the proceeds among the stockholders. Opposition to this plan developed, and Tonopah & Tidewater RR. purchased the stock held by Althause and La Grange at the price paid by them, plus 6% int. for the period during which they held the stock. W. A. Clark, Montana, the holder of the outstanding bonds, agreed to take $148,000 in new 1st Mtge. bonds in exchange for the old 1st and 2d Mtge. bonds held and in partial satisfaction of unpaid accrued int. on outstanding bonds. Officers: R. C. Baker, Pres.; C. B. Zabriskie, V.-P. & Treas.; N. S. Miller, Sec., 523 Pacific Electric Bldg., Los Angeles, Calif.—(V. 113, p. 1052.)

BUTTE ANACONDA & PACIFIC RY.—See page 133.

CAIRO & THEBES RR.—Owns Cairo, Ill., to the bridge across the Mississippi River at Thebes, Ill., 25 miles. Leased to St. L. I. M. & So. Ry. (now Mo. Pac. RR.) for 99 years from Mar. 1 1911, rental covering int. on an authorized issue of $2,000,000 4% bonds, of which $1,699,000 are issued and outstanding, all owned by L. & N. V 95, p. 1121 Columbia Trust Co. of Louisville, Ky., trustee. Stock (all owned by Mo. Pac. RR. Co.), $10,000; par, $100. Pres., A. Robertson; Treas., F. M. Hickman; Sec., F. W. Irland, St. Louis.—(V. 95, p. 1121.)

CALGARY & EDMONTON RY.—See page 133.

CALIFORNIA-WESTERN RR. & NAV. CO.—See page 133.

CAMBRIA & INDIANA RR.—See page 133.

CAMDEN & BURLINGTON COUNTY RY.—Owns from Pavonia, N. J., to Pemberton, N. J., 22.34 miles; branch, Burlington, N. J., to Mt. Holly, 7.12 m.; connection with P. & A. RR. at Birmingham, N. J., 0.12 m.; other branches, 8.82 m.; total, 38.40 m. Organized in 1915 as a consolidation. Auth. capital stock, $800,000. V. 101, p. 46, 1092; V. 102, p. 65. Operated under lease by Penn. RR., which guarantees 6% on stock. —(V. 101, p. 46, 1092.)

CANADA & GULF TERMINALRY.—Owns Sts. Favie to Hammermill, Que., 38½ miles. Stock authorized, $4,000,000; par $100. Bonds, see table. For 1921, gross, $138,632; net, $25,487; int., &c., $120,228; bal., def., $94,740. Pres., M. J. O'Brien, Ottawa, Ont.; V.-Pres., Hugh Doheny, Montreal, Que.; Sec.-Treas., E. M. Hoctor, Montreal, Que.

CANADA SOUTHERN RY.—(*See Maps New York Central Lines.*)—ROAD.—Main line from Suspension Bridge station, including the Cantilever Bridge, to Windsor, Ont., 226 m.; branches to Courtright, Ont., &c., and controlled lines, 154 m.; total, 380 m.; Canada So. Bridge, 2½ m. Trackage, St. Thomas to London, Ont., 15 m. Double track 242 miles.

ORGANIZATION, ETC.—The company was chartered in Canada Feb. 28 1868 and debt readjusted in 1878. In 1903 made a new lease to Mich. Cent. for 999 years, the latter, which owns $7,810,000 stock, guaranteeing divs., rate since Jan. 1 1911, 3% yrly. V. 76, p. 1191, 1247.

The Mich. Cent guarantees, prin. and int. of $40,000,000 50-year bonds; remaining $17,500,000 are reserved to refund the $130,000 divisional bonds and for additions, extensions, improvements and additions at not over $3,000,000 yearly. Bonds are free of Canadian taxes. V. 95, p. 1607, 1744 V. 96, p. 134, 200, 789, 1421. Report for 1920, gross, $23,149,989; net oper. income, $4,767,210; other income, $312,304; interest, rentals, &c., $4,882,338; bal., sur., $197,177.—(V. 96, p. 1884; V. 101, p. 1972.)

CANADIAN NATIONAL RAILWAYS.—(*See Map.*)

In 1919 a company under the name of "Canadian National Railway Company" was incorporated by the Dominion Govt. with the intention of having that company take over and operate the railways owned or controlled by the Govt. This company, however, in May 1922 had not been organized and the Govt. controlled railways were being operated under the title "Canadian National Railways." The Canadian National Railways included, on Dec. 31 1921, 17,338 miles of railway covering the Canadian Nothern Ry. System, the National Transcontinental Ry., the Grand Trunk Pacific Ry. and the Intercolonial Ry. Arrangements will, it is expected, shortly be completed under which the operation of the Grand Trunk Ry. will be taken over by the Govt. This will make a total mileage of about 22,500 miles.

In May 1920 Wm. A. Read & Co., New York, offered $15,000,000 7% equipment trust gold certificates, dated May, 1920, and due May 1 1935.

Semi-annual payments of $500,000 each beginning Nov. 1 1920 must be used by the trustee to purchase certificates at or under par, if obtainable. At the end of each six months any unexpended balance must be used at the direction of the railway to purchase either certificates or Canadian Government obligations due before the maturity date of the certificates. Certificates may be purchased at a premium and tendered by the railway company to the trustee, under the foregoing provisions.

EARNINGS.—Gross earnings for 1921 amounted to $126,691,455, an increase of $1,049,703 over 1920. Operating expenses amounted to $142,784,357, a decrease of $19,700,365, leaving loss on operation of the system of $16,092,901 for the year, as compared with a loss of $36,842,970 for 1920, or an improvement in the operating result of $20,750,068. V. 114, p. 1762. —(V. 114, p. 197, 946, **1762.**)

CANADIAN NORTHERN RAILWAY SYSTEM.—(*See Map Canadian Nat. Rys.*)—The Canadian Northern Ry. System, with a maximum grade of practically ½ of 1%, on Dec. 31 1920 had in operation 9,868.9 miles of road extending from Quebec, Montreal, and Toronto to Vancouver, British Columbia, with many branches and intersecting lines in the provinces of Quebec, Ontario, Manitoba, Saskatchewan and Alberta. V. 105, p. 1207, 1103; V. 107, p. 1286.

Mileage, Dec. 31 1920.

Central Division—West of Port Arthur	1,954.3 miles
Prairie Division	2,5 9.8 "
Western Division—West of Port Arthur	1,428.2 "
Pacific Division—West of Edmonton	709.0 "
Ontario Division—East of Port Arthur	1,798.9 "
Quebec Division	781.8 "
Lines in Nova Scotia	378.1 "
Minnesota Division	172.6 "
Electric lines in Ontario	126.2 "
Total	9,868.9 miles

Acquired Securities as of Dec. 31 1920.

In Nov. 1918 an Order-in-Council was passed transferring the management and operation of all the other Government railways, in Canada to the board of directors which had been appointed to manage the Canadian Northern Ry. system.

In June 1919 the Canadian National Ry. was incorporated at the instance of the Canadian Government, which owns its entire capital stock, to operate all the Government-owned lines. On June 30 1919 the title to the physical property of the Canadian Northern Ry. Co. and its subsidiaries was still vested in the several original companies, and they were directly liable for their bonds though Hon. J. D. Reid, Minister of Railway, on June 30 informed the Canadian House of Commons that if the net earnings of the Canadian Northern Ry. are insufficient to pay the bond interest the Government had arranged to provide for such interest for the current fiscal year.

DOMINION CONTROL AND LOANS.—In 1914 the Canadian Government guaranteed $45,000,000 of 4% debentures and took over an additional $33,000,000 of the capital stock over the $7,000,000 previously acquired In 1918 the balance of the $100,000,000 was acquired. The total capital stock is now $100,000,500 of which $500 is outstanding in the hands of public. V. 106, p. 2344; V. 107, p. 1191; V. 108, p. 1822; V. 98, p. 1600, 1607, 1918

In 1917, under Act of the Canadian Parliament, the Government, advanced to the roads of the system $25,000,000 with which to meet coupons and other maturing obligations (V. 105, p 496, 996, 1207, 2271, 2364; V. 106, p. 2344. In 1918 further agreed to assist the company by guaranty of principal and interest, in renewing or postponing maturing obligations of the system. V. 106, p. 1796, 2223. Also in 1918 voted to grant a further loan of $25,000,000. Compare V. 106, p. 2559, 2344, 2336, 2223.

CAPITAL STOCK.—Of the $125,000,000 cap. stock as increased in 1914, $25,000,000 was issuable only in exchange for Income Charge Stock, the right to exchange expiring Jan. 1 1922. V. 98, p. 1600; V. 100, p. 393; V. 105, p. 996.

DEBT.—The $45,000,000 debenture stock was guaranteed in 1914, principal and int., by the Dominion Govt. under plan outlined in V. 98, p. 1600, 1607, 1918. In June 1917 $44,866,667 of this issue had been disposed of as follows: Sold in 1914 and 1915, $17,033,333 (£3,500,000); pledged with Dominion Govt. against advance of $10,000,000 Dominion notes, $12,500,000; pledged as part security for 2-year 6% notes for $11,500,000, $15,333,333. See also V. 102, p. 1982; V. 99, p. 269, 341, 536, 747, 1129, 1450; V. 100, p. 307, 1591.

Particulars regarding various of the securities issued were given in V. 106, p. 2223, 2336; V. 105, p. 1304; (*a*) Perpetual consol. deben. stock, V. 76, p. 1247; V. 77, p. 87; V. 80, p. 996; V. 81, p. 1609; V. 86, p. 1099; V. 87, p. 36; V. 89, p. 1279; V. 90, p. 770, 1424, 1489; V. 93, p. 406; V. 94, p. 1695; V. 98, p. 1601. BONDS, DEBENTURE STOCK, GUARANTEED BONDS, &c.—List of securities owned Dec. 31 1921, V. 114, p. 1426.
The shareholders on May 4 1921 gave the directors blanket authority to issue any form of security for any purpose, provided it is junior to the Consolidated Debenture 4% stock, and does not exceed the amount of this stock. It was also announced in London on May 6 1921 that the company had sold £800,000 5% debentures. V. 112, p. 1976.
Late in 1916 $40,000,000 4% Consolidated debenture stock over and above the $176,284,882 (£35,611,124) then listed on the London Stock Exchange, was issued and loaned to the Imperial Treasury for a maximum period of five years, at a premium of ½% per annum, over the interest payable on the stock. Provision is made in the agreement for the sale to the British Treasury of this stock in annual installments, should the company require money for any of its purposes in Great Britain, and the Treasury reserves the right to purchase all or any of the stock during the five years at 80% of face value. V. 104, p. 1604, 1388; V. 106, p. 1241. The balance sheet of Dec. 31 1921 showed $238,206,432 Consol. debenture stock outstanding. V. 108, p. 1280.
In June 1890 company *guaranteed* the principal and interest of $20,000,000 4% bonds issued by the Dul. So. Sh. & Atl.; also 4% int. on Consolidated bonds of the Minn. St. P. & S. Ste. M., and in 1899 interest on the 2d M. 4s of the latter. Owns Dul. So. Sh. & Atl. consols, $15,107,000, etc.

St. Lawrence & Ottawa bonds are endorsed with the Canadian Pacific's acceptance of a 999-year lease at a rental sufficient to pay 4% int. on bonds; and the bondholders' agreement to accept int. at 4% (instead of 6%) and to refrain from demanding principal (due 1910) during lease. V. 90, p. 1361.

The *New Brunswick Railway* consolidated debenture stock has interest guaranteed by Canadian Pacific; interest on the 1st mtge. bonds, though not guaranteed, is paid out of rental under 999-year lease of 1890.
The *Calgary & Edmonton Ry.* debenture stock is guaranteed interest at 4% under new lease of 1903. V. 76, p. 435; V. 77, p. 636.

The *Lindsay Bobcaygeon & Pontypool Ry.* bonds are issued under a 99-year lease covering the interest. V. 77, p. 1225; V. 79, p. 2085.
The First & Ref. M. 4½s of the Aroostook Vy. (electric) RR. are issuable at rate of $25,000 per mile. Denom. £100 or $500. Sink. fund, ½ of 1% yearly of issued and outstanding bonds from Feb. 1 1916-20, 1% thereafter. Call. for s. f. at 105. V. 89, p. 846; V. 90, p. 107; V. 92, p. 259.

Kettle Valley Ry.—See V. 108, p. 1721, 1282.
Victoria Rolling Stock & Realty 4½% V. 99, p. 1672, 543; V. 100, p. 139.
In March 1920 sold $12,000,000 6% equipment trust ctfs. V. 110, p. 1288.

SPECIAL INVESTMENT FUND NOTE CERTIFICATES.—On Dec. 8 1913 a trust fund was created known as "The Special Investment Funds", made up of deferred payments on land sales and securities in which the cash proceeds of land sales are invested, to the aggregate of $55,000,000; Royal Trust Co. of Montreal, trustee. Stockholders were offered the right to subscribe pro rata for $52,000,000 6% note certificates at 80. The certificates are payable at their face value on or before Mar. 2 1924, but may be redeemed by drawings at any time. Interest is payable at the Bank of Montreal in Montreal and also at par at the agency of that bank in N. Y. City, and at the agency in London at the rate of 4.86 2-3 per pound sterling. V. 97, p. 1732, 1897; V. 99, p. 544; V. 103, p. 937. Compare V. 106, p. 1242, 1243; V. 112, p. 1409.

Lands.—Lands unsold Dec. 31 1921 were 137,692 acres in Manitoba (book value $1,376,920), 1,214,587 acres in Saskatchewan (book value $15,789,631), 2,521,105 acres in Alberta (book value $36,129,625), 1,073,651 acres in British Columbia (book value $5,273,743), &c. Total of all lands owned Dec. 31 1921, 5,606,351 acres (book value $91,962,630).

SUB. COS.—Dominion Atlantic Ry., Yarmouth to Truro, with branches, total 247 miles, with 45 miles trackage to Halifax, is leased for 999 years from 1912. V. 91, p. 728; V. 90, p. 1490, 1424; V. 93, p. 1461; V. 94, p. 278. Alberta Ry. & Irrigation Co., see V. 92, p. 955; V. 93, p. 593; V. 94, p. 1316; V. 95, p. 617. Quebec Central Ry., see V. 93, p. 667, 1106; V. 94, p. 1625; V. 96, p. 361, 715.

OFFICERS.—Chairman, Lord Shaughnessy, K. C. V. O.; Pres., E. W. Beatty; Vice-Presidents, I. G. Ogden, W. R. Macinnes, Anthony D Mactier, D. C. Coleman and Grant Hall, Montreal; Sec., Ernest Alexander Treas., H. E. Suckling; Compt., J. Leslie.

DIRECTORS.—Richard B. Angus, Sir Herbert S. Holt, Chas. R. Hosmer, Hon Fred. L. Beique, K.C., Lord Shaughnessy, K.C.V.O., Colonel Frank S. Meighen, John K. L. Ross, Edw. W. Beatty, Sir Vincent Meredith, Grant Hall and Hon. William J. Shaughnessy, Montreal; Sir Edmund B. Osler, Toronto; Sir Thomas Skinner, London, England; Sir A. M. Nanton, Winnipeg. Main office, Montreal. N. Y. office, Madison Ave. & 44th St.—(V. 114, p. 304, 737, 853, 1400, 1424, 2143.)

CAROLINA CLINCHFIELD & OHIO RY.—(*See Map.*)—Owns from Elkhorn City, Ky., to Spartanburg, S. C., 277 m.; branch, Carbo, Va., to Laurel Jct., Va., 6 m.; trackage, Carbo to St. Paul, Va., 8 m.; total, 291 m.

The line forms a low-grade heavily built link in the through line for general traffic between the Great Lakes and the Atlantic seaboard, serving also extensive coal operations owned by Clinchfield Coal Corporation. See V. 101, p. 2070; V. 102, p. 611; V. 94, p. 1448; V. 97 p. 1661; V. 98, p. 1692; V. 100, p. 900; V. 104, p. 75, 365. Connects at Bostic, N. C., with Seaboard Air Line Ry., with which close relations are maintained and tidewater is reached. V. 88, p. 944; V. 87, p. 670. See report of expert. V. 102, p. 2076.

In Feb. 1910 aranged with Southern Ry. to send coal to Charleston, S. C., for export, &c. V 90, p. 558; V. 95, p. 359.

STOCK.—Authorized, $50,000,000, of which $25,000,000 is 6% pref. and $25,000,000 com.; outstanding, $25,000,000 com. and $11,500,000 pref. of which $1,500,000 has been owned by Holston Corp., a subsidiary of the railway. A further $2,000,000 pref. was deposited with trustee of mortgage gold notes to provide for conversion of notes. V. 94, p. 1625; V. 103, p. 1980. Dividends on pref., 3% semi-annually March 1913 to Sept. 1914, inclusive. None since.

BONDS, ETC.—First mtge. of 1908, V. 86, p. 667, 856; V. 88, p. 944. The $2,000,000 1st M. 5% notes, due July 1 1919, were extended at 6% int. till July 1 1920. On the latter date the notes were again extended to July 1 1930 and the issue increased to $5,000,000, all of which have been deposited with the Govt. as security for a loan of $2,000,000. This total issue of notes has the right of conversion into pref. stock $ for $. V. 109, p. 1179; V. 89, p. 285. $5,000,000 Elkhorn Extension Mtge. 5-yr. 5% notes extended to Jan. 1 1923, are pledged for 1 year 6% Govt. loan. Car trusts of 1917, V. 104, p. 2235. On May 18 1917 purchased $475,000 1st Mtge. 5% gold bonds, $50,000 6% Conv. 1st Income debens. and $250,000 6% 2d Income debens. of Black Mountain Ry. Co. (Kona, N. C., to Eskota, 24 m.; in 1918 built 2.30 miles in Nor. Caro.). An option to purchase the entire $50,000 capital stock was also obtained. V. 106, p. 2219.

Cumulative income debentures, V. 112, p. 161. Govt. loan, V. 111, p. 261, 293, 1471; V. 113, p. 1674, 2310, 2818.

The guaranteed securities (see V.103,p.1588) included $1,500,000 Holston Corporation notes (callable at par and convertible $ for $ into Car. Cl. & O. pref. stock.—See stock above.

Equipment trusts ($6,043,500) issued to Director-General for rolling stock allocated to this company. See article on page 3.

Coupons due June 1 1917 remain unpaid. On June 8 1917 W. N. Coler & Co. of N. Y., who had financed the enterprise and then owned some $250,000 bonds and $1,800,000 stock, made an assignment to Arthur D. Hammond of Brooklyn.

Bondholders' committee: Alvin W. Krech, Chairman; Samuel Armstrong, Sec.; Equitable Trust Co., depositary. Reorg. proposed, it is hoped without foreclosure. V. 104, p. 2451. V. 105, p. 2542.

Stock authorized, common, $3,000,000; pref., 5% non-cum., $1,000,000; outstanding, common, $1,540,000, and pref., $300,000; par $100.

Office, High Point, N. C. N. Y. office, 43 Cedar St.—(V. 114, p. 1764.)

CATASAUQUA & FOGELSVILLE RR.—Catasauqua, Pa., to Rittenhouse Gap, Pa., 19.67 m., and branches, 31.76 miles. Stock, $426,960 (par $25); $254,300 is owned by Reading Co. Divs. paid in 1904-05, 7%; in 1905-06, 8%; in 1906-07, 8%; 1908-09, 8%; 1909-10, 10%; 1910-11, 10%; 1911-12, 10%; 1912-13, 10%; 1913-14, 10%; 1914-15, 20%; 1915-16, 15%; 1916-17, 30%; 1917-18, 30%; 1919, 30%; 1920, 20%; 1921, 25%. For cal. year 1921, gross, $516,501; net, after taxes, $155,613; other income, $36,066; deductions, $10,364; bal., sur., $180,915.

CATAWISSA RR.—Owns from Tamanend, Pa., to Newberry Jct., Pa., 104.05 miles; second track, 40.07 miles; total, 222.20 miles. Re-leased Dec. 1 1896 for 999 years to Philadelphia & Reading *Railway*. Rental, int. on bonds, 5% divs. on pref. stock, all taxes and $8,000 for org. exp. See also V. 63, p. 969, 1116. In Nov. 1917 paid the dividend of 2½% on the pref. stocks less 5 cents per share for war income tax; May 1918 paid 2½% on pref. stock. In Nov. 1918 the dividend of 2½% on the preferred stock was paid less 12 cents per share for war income tax. In May 1919 paid 2½% on the preferred stock less 13 cents per share for war income tax. from Nov. 1919 to Nov. 1921 paid semi-annually 2½% less 10 cts. for corp. income tax; on May 19 1922 paid 2½% less 13 cts. for corp. income tax. Of the pref. stocks, $1,000,000 is 2d pref. Common, $1,159,500; par, $50. Reading Co. owns $732,800 common.—(V. 96, p. 1421.)

CAYUGA & SUSQUEHANNA RR.—Owns from Susquehanna River to Ithaca, N. Y., 34 m. Leased during length of charter and renewals thereof to the Delaware Lack. & Western at a rental of $54,600 a year. Divs. paid are 9% yly., with an occasional extra: 1904 9½% was paid. V. 106, p. 497.

CENTRAL ARGENTINE RY., LTD.—ROAD.—Extends from Buenos Ayres, a city with a population of about 1,800,000, through the city of Rosario, to Cordoba, Santa Fe and Tucuman. Comprises 3,305 miles of track (all except 202 miles is owned in fee, and partly double-tracked). Proposed extensions, V. 111, p. 389.

ORGANIZATION.—Originally organized in 1863. Operates under a perpetual concession and an amended law contract running until 1947, entitling it, without restriction, to charge such rates, payable in gold equivalent, as will net 6.80% on the capital investment recognized by the Argentine Government, now amounting to over $250,000,000. In lieu of taxes, 3% of the net receipts go to the Government.

Outstanding Capitalization (at $4 86 to £) June 30 1921.

Cent. Deb. 3½% stk. (150m)	£85,227	5-year 6% notes (new)	£500,000
4½% West. Ann. (202 m.)	2,017,500	4½% non-cum. pref. stk.	£9,695,718
4% Deb. stk. (gen'l chg.)	£13,461,696	Consol. ordinary stock	28,186,950
10-year 6% notes (new)	3,092,783	Deferred stock	811,800

The Consol. Ordinary stock is entitled to non-cum. 5% dividends before the deferred stock receives any dividends and shares equally with the deferred stock in the distribution of earnings after the latter has received 5%. Offered in March 1917. V. 104, p. 256, 1044, 1144; V. 105, p. 1998.

CONVERTIBLE NOTES.—These have interest payable without deduction for any taxes imposed by Great Britain or the Argentine Republic. Denom. $1,000. Prin. and int. payable in N Y. in U. S. gold at office of J. P. Morgan & Co.; in London at London County & Westminster Bank at $4 85 per £1 sterling. The entire issue, but no part, may be redeemed at 102 and int. on and after Feb. 1 1922 upon six months' notice.

They are convertible at option of holder any time after Jan. 31 1918 prior to redemption into ordinary shares of £10 each, at par, $4 85 per £1

EARNINGS.—For fiscal year ending June 30 1921.

June 30 Years—	1920-21.	1919-20.	1918-19.	1917-18.

Also owns Medrim to Lyons, 58 m. (leased to Seaboard Air Line).
Ocean SS. Co., est. equiv. of.....30(
Controls Wrightsville & Tennille and Wadley Southern Ry., Sylvania Central and Louisv. & Wadley RR.

ORGANIZATION.—Succeeded Nov. 1 1895 the Central RR. & Banking Co. of Georgia, foreclosed. V. 60, p. 1008; V. 61, p. 68. Ocean SS. Co., V. 102, p. 344.

In June 1909 the $5,000,000 stock was acquired by the Illinois Centrral but the road is operated independently. V. 88, p. 1559; V. 84, p. 1550; V. 85, p. 1082, 1268; V. 86, p. 667. On June 3 1912 $15,000,000 pref stock was issued to retire the income bonds acquired by Ill. Cent. ($14,461,000), remaining $539,000 as presented; V. 94, p. 1316, 1565; V. 95, p. 1037.

Government loan, V. 111, p. 492; V. 112, p. 371, 469.

Tentative valuation, V. 113, p. 1052.

DIVIDENDS.—On common stock, 1913 to June 30 1921, 5% per ann. Pref., 6% p. a. since June 1913. V. 108, p. 2240.

BONDS.—The *first mortgage* of 1895 (described in V. 63, p. 1160) and V. 84, p. 529, 605; V. 87, p. 550.

Application for listing firsts and consols in V. 63, p. 1160.

Consol. mtge. (see abstract V. 61, p. 873; also V. 63, p. 1160; V. 83, p. 1347). V. 85, p. 605; V. 89, p. 777.

Collateral trust mortgage abstract was in V. 45, p. 242.

Chattanooga Division mortgage, V. 72, p. 1134; V. 78, p. 1446.

Upper Cahaba Branch bonds, V. 81, p. 920, 1099. The shareholders on May 28 1919 authorized (*a*) a General & Refunding Mtge. bond issue and (*b*) an issue of Ten-year 6% secured bonds (see offering V. 108, p. 2240) amounting to $8,000,000. Redeemable on 60 days' notice on June 1 1924 or any int. date thereafter upon premium of ½ of 1% for each 6 mos. between redemption date and date of maturity. Secured by the deposit of the initial $11,000,000 6% Ref. & Gen. Mtge. bonds, Series "A," due April 1 1959. The authorized maximum of the Ref. & Gen. Mtge. bonds (including amounts issued; issuable or reserved to refund $31,462,300 outstanding prior lien bonds, the extension of these old bonds being forbidden) is limited to three times the capital stock, which makes a present limit of $60,000,000. The Gen. & Ref. Mtge. dated Oct. 1 1912, under which $11,135,000 bonds were authorized to be issued but none of which were outstanding, has been canceled. V. 108, p. 1822, 2240, 2329, 2432.

Income bonds (interest regularly paid)—see preferred stock above.

Equipment trusts, Series M. V. 112, p. 561.

Equipment trusts, Series N, V. 114, p. 1406.

BONDS.—*First Refunding mtge.* gold 4s, $100,000,000. V. 69, p. 808 and V. 70, p. 739; V. 78, p. 228; V. 87, p. 225, 285, 479; V. 88, p. 52.

Thirty-year gold 3½s, $25,000,000, secured by a second lien upon all the properties covered by the 1st Ref. mtge. and also by deposit with the trustees, as acquired, of all securities and moneys held in any sinking fund of the Central Pacific Ry., consisting Dec. 31 1920 of $4,729,000 in securities, and by a trust deed upon all the lands covered by mortgage dated Oct. 1 1870. See Mortgage Abstract, V. 69, p. 858; also see p. 851. From the proceeds of these sinking funds and landsales cancellations of bonds are made from time to time; to Dec. 1920 $18,689,000 had been canceled or purchased for cancelation, reducing those outstanding to $6,754,825.

Lucin Cut-off 4s are call. at 107½. V. 79, p. 1641; guar., V. 80, p. 162.

In Feb. 1911 the sale was arranged in France of 250,000,000 francs 4% 35-year coll. trust bonds, guaranteed by the Southern Pacific Co (the latter pledging as security for the guaranty part of its interest in affiliated cos., notably So. Pacific RR.). V. 92, p. 593, 794; V. 94, p. 130, 1762. V. 101, p. 2146.

The $8,500,000 outstanding Nevada & California 6% bonds ($15,000,000 auth. issue) were assumed on purchase Feb. 29 1912; also $3,000,000 Central California Ry., $1,000,000 Chico & Northern RR., $2,500,000 Sacramento Sou. RR. and $5,000,000 Oregon Eastern Ry. V. 94, p. 982, 1118. All of the five foregoing issues are owned by So. Pac. Co.

LAND GRANT.—Total land grant was about 12,000,000 acres, of which 6,595,223 acres unsold Dec. 31 1920. Sales in 1920, 132,895 acres; average price per acre, $502. Land contracts Dec. 31 1920, $2,028,927.

REPORT.—For calendar year 1920: Income from lease of roads, $13,977,405; other income, $603,889; deductions, $8,301,004; divs., $3,387,020; bal., sur., $2,893,270.—(V. 114, p. 197.)

There are 263 miles of 2d, 45 miles of 3d and 34 miles of 4th tracks.

* See this company.

HISTORY.—Reorg. in 1887 without foreclosure; V. 44, p. 714, 716; V. 105, p. 1707. Concerning coal properties, see Lehigh & Wilkes-Barre Coal Co. and Lehigh Coal & Navigation in "Miscellaneous." In 1901 Reading Co acquired control, owning $14,500,000 stock. The latter company will dispose of its holdings under the dissolution plan dated Feb. 14 1921. V. 113, p. 1469; V. 112, p. 743, 2304; V. 72, p. 86, 136, 241, 391, 721. In Sept. 1913 the Govt. brought suit alleging violation of both the Sherman law and the commodities clause of the I.-S. Commerce Law. In Oct. 1915 final decree of U. S. Dist. Court dismissing said suit, ordered that this company must dispose of its interest in the Lehigh & Wilkes-Barre Coal. Co. within 90 days. Both parties appealed to the U. S. Supreme Court. On April 26 1920 the U. S. Supreme Court sustained most of the Government's charges. The plan for the disposal by the company of all the stock of the Lehigh & Wilkes-Barre Coal Co. owned or controlled by it (as embodied in the dissolution decree of the Reading Co. dated Feb. 14 1921), provided that the stock be disposed of within six months after entry of the decree or previous to any other later date which may be fixed by the Court. Announcement was made on Nov. 17 1921 that the company had sold its 169,788 shares of Coal Co. stock to a syndicate for $32,500,000. See V. 114, p. 737, 946; V. 113, p. 1982, 2184, 2719; V. 112, p. 743, 2641; V. 101, p. 1464, 1807; V. 110, p. 1816. Full Crew Law, V. 105, p. 1897, 2093. Rebate decision in V. 109, p. 1891.

DIVS.—'91, '92 to '94, '95, '96, '97, '98, '99, '00, '01, 1902 to May '22 Regular.. 6½ 7 y'rly 5½ 5 4¼ 4 4 5 5 8 yearly (Q-F) Special.....Dec. 1899 to June 1920, 4 yearly (J & D)

Special semi-ann. divs. of 2% each (making total annual 12%) were paid out of Leh. & W. B. Coal Co. divs. of $1,097,472 per annum received Jun 1909 to Dec. 1921, incl. The coal company paid a cash dividend of 150% on March 5 1921 and another cash div. of 70% on Nov. 29 1921.

BONDS.—For *General Mortgage* abstract, see V. 45, p. 402.

The $20,000,000 ($14,496,000 issued) Leh. & Wilkes Barre consol. serial 4s, guar. p. & i., mature $2,500,000 every 5 years beginning June 1 1915

During 1918 the remainder of the property of the American Dock & Improvement Co. was deeded to the Central, and the underlying bonds, $4,987,000 set up as a part of its funded debt—V. 109, p. 1268. Bonds were extended to July 1 1936 at 6%. Redeemable as a whole only from July 1 1926 to July 1 1931 at 105 and int. and thereafter at 102½ and int. V. 112, p. 2751; V. 113, p. 73.

The New Jersey P' U. Commission in June 1920 approved the company's application to issue $5,775,000 6% notes to pay for equipment to be purchased from the U. S. Railroad Administration. The notes were turned over to the Govt. at par. V. 110, p. 2487. Compare also V. 113, p. 1324.

STOCK.—Author. stock was increased in 1916 to $155,000,000, of which $37 200,000 was reserved for conversion of 4½s of 1910 and $50,225,000 for conversion of 5s of 1916. V. 102, p. 1162, 1625. 1st & 2nd pref., $3,200.

BONDS.—Abstract of consol. mtge. of 1939 in V. 49, p. 147; V 86, p. 1588; V. 92, p. 260; of Richmond & Alleghany mtges., in V. 51, p. 144

The *General mortgage* of 1892 (Central Union Trust Co. and H. T. Wickham, trustees) is for $70,000,000, but additional amounts at $25,000 per mile may be issued for double-tracking. See full abstract of mortgage in V. 54, p. 644.

General Funding and Imp. mort., V. 87, p. 1663; V. 88, p. 157.

The "*First Lien and Improvement*" *mortgage of* 1910 is limited to $125,000,000 bonds, bearing interest at rates not to exceed 5%. It provides for extensions and impts. and the retirement of certain equipment and other obligations, including the "General Funding and Improvement" bonds, and for other corporate purposes. Of entire $64,342,000 outstanding under this mortgage in Aug. 1921 $45,920,000 had been pledged to secure the $40,180,000 convertible 5s of 1916, due 1946 and no part held by public. A further $17,094,000 are pledged as part security for Government loans. V. 112, p. 161.

Collateral Nov. 1 1921 *for First Lien and Impt. Mortgage Bonds.*

C. & O. Ry. Co. of Ind.—Stock, $5,998,800; bonds, $7,711,000	$13,709,800
Ches. & Ohio Northern Ry. stock	4,026,500
Ches. & Ohio Ry. Co. General Funding & Impt. bonds	7,302,000
Hocking Valley Ry. Co. stock (out of $11,000,000 outstanding)	8,825,000
Miscellaneous	993,500

The First Lien and Improvement Mortgage bonds are (1) a *first lien* either directly or through deposit of all stocks and bonds, upon 320.57 miles of railroad, viz.: (*a*) Directly on 29.34 miles of coal branch lines in West Virginia; (*b*) on 260.7 miles of main line between Cincinnati and Chicago. (2) A *first lien* on all stock of C. & O. Northern Ry., and 80.23% of stock of the Hocking Valley Railway Co. (3) A lien on all the remaining lines of railway owned or controlled by the company, aggregating about 1,800 miles, subject to $101,872,000 prior liens.

The 4½% convertible bonds, due Feb. 1 1930, have a parity of lien with the First Lien & Impt. bonds on such lines as were owned on April 28 1910, but not on the above-mentioned collateral.

Of the authorized $37,200,000 convertible gold bonds of 1910, $31,390,000 were issued in that year. They are redeemable after 1915 at 102½. The option to convert these bonds into stock expired Feb. 1 1921. V. 90, p. 771, 848; V. 91, p. 870, 945, 1159, 1574.

The *Convertible 30-year 5% gold bonds* of 1916 for $40,180,000 (V. 102, p. 1162) are convertible at option of holder at face value into common stock at $80 per share up to and incl. April 1 1923, then at $90 per share up to and incl. April 1 1926, and at $100 per share up to and incl. April 1936, with adjustment of dividends and interest. The entire issue, but not a part thereof, is redeemable at option of company on any interest date up to and including April 1 1929 at 105% and interest, and thereafter at 100% and int., upon 60 days' notice; in case of redemption during the conversion period the privilege of conversion shall terminate 30 days prior to the redemption date. The bonds are secured by deposit with the trustee of $45,920,000 First Lien & Impt. Mtge. 5% bonds, above described, a proportionate amount of the security may be withdrawn as bonds are converted into stock. V. 103, p. 60.

CHICAGO & ALTON RR.—ROAD.—Chicago to St. Louis, Kansas City, &c., in all 1,051 miles.

Road owned—	*Miles.*	*Road owned*—	*Miles.*
Chicago to East St. Louis, Ill	280	Mexico, Mo., to Cedar City, Mo	50
Sherman, Ill., to Grove, Ill	51	Roodhouse, Ill., to Kan. C., Mo	251
Barnett to Titus	56	Bloomington to Wann, via Jacksonville, Godfrey and Upper Alton (all in Illinois)	158
Coal City Line, Ill	27	*Trackage* to Peoria, Ill., &c	37
Dwight, Ill., to Washington and Lacon, Ill	81	Leases Rutland Toluca & North	27
Ties to Murrayville, Ill	34		

Total owned and operated Dec. 31 1920 (271 m. double tracked) 1,051

Also operates, jointly with Clev. Cin. Ch. & St. L., from Wann to East St. Louis, 18 m., and, with Atch. T. & S. Fe, from Joliet to Pequot, 19 m. The stock of the Peoria Ry. Terminal Co. is owned by the Chicago & Alton and Chic. R. I. & Pac. Ry., which guarantee the first mtge. bonds ($1,500,000 auth. issue) and 1st & ref. M. bonds. V. 81, p. 1099; V. 83, p. 752 1171, 1291; V. 84, p. 451; V. 85, p. 159.

The Rutland Toluca & Northern RR. is leased for 999 years and its bonds guaranteed prin. and int. V. 91, p. 1024; V. 93, p. 408.

ORGANIZATION.—The (old) *railway* company was organized in April 1900 and purchased substantially all the stock of the Chic. & Alton Railroad The two were consolidated in 1906 per plan V. 82, p. 451, the Railway changing its name to the C. & A. *Railroad*. V. 82, p. 160; V. 70, p. 686, 995

STOCK.—The cumulative 4% participating and prior lien stock is entitled, in addition to prior right to accumulative dividends at the rate of 4% per annum, to receive additional dividends equal to the rate of dividends declared on the common stock of the consolidated company. In Aug. 1907 the Toledo St. Louis & Western purchased from the Rock Island the controlling interest, viz., $14,420,000 com. and $6,480,000 pref. stock, and deposited the same under its collateral trust bonds on which interest was defaulted Aug. 1 1914. In Nov. 1921 the Toledo St. Louis & Western, as the result of litigation involving legality, cancelled the collateral trust bonds, the Chicago & Alton stock being returned to the bondholders. V. 88, p. 468, 529, 792; V. 99, p. 341, 408, 1051, 1216; V. 113, p. 1984, 2081. Union Pac. owned on Dec. 31 1920 $10,343,100 pref. stk. V. 84, p. 1484; V. 95, p. 361.

a Standard return represents the annual average railway operating income based on reports rendered the I.-S. C. Comm. for the three years ended June 30 1917; it is not final, as the contract with the Director-General has not been executed, claim having been filed for $4,105,000 as just compensation for the use and control of the properties. Compare V. 112, p. 61.

b Includes 2 mos. Federal compensation and 6 months guaranty.

OFFICERS.—Chairman Exec. Comm., R. S. Lovett; Pres., W. G. Bierd; V.-P., Roberts Walker and S. G. Lutz; V.-P. & Gen. Mgr., Andrew P. Titus; Sec., Jas. Williams; Treas., H. E. R. Wood.

DIRECTORS.—J. J. Mitchell, Joy Morton, W. G. Bierd, Samuel Insull, Samuel W. Moore, J. H. Hammond, E. M. Richards, R. S. Lovett, Edwin G. Merrill, H. C. Adams and V. D. Skipworth.—(V. 113, p. 67, 291, 627, 1982; V. 114, p. 947, 1889.)

CHICAGO BURLINGTON & QUINCY RR. (*See Map*).—ROAD.—Operates a great system of roads extending from Chicago westerly, reaching St. Paul and Minneapolis, Minn.; St. Louis and Kansas City, Mo.; Omaha, Neb.; Denver, Col.; Cheyenne, Wyo.; Black Hills, S. D., and Billings, Mont., viz.:

Main line	4,507	Lines leased	353
Branches and spurs	4,530	Total miles oper. Dec. 31 1920	9,390

In Dec. 1908 $23,657,500 of the $31,000,000 Colorado & Southern com. stock (practically a controlling interest) was acquired, affording connections with the Gulf of Mexico. V. 87, p. 1663; V. 88, p. 157, 685

Owns jointly with the Nashville Chattanooga & St. Louis the Paducah & Illinois RR. (which owns a double-track bridge over the Ohio River at Metropolis, Ill., and has built from Metropolis to Paducah, Ky., 14 m.) and jointly guarantees its bonds. See that company below.

ORGANIZATION, &c.—A consolidation in July 1875; since merged Chicago Burlington & Northern, Kansas City St. Joseph & Council Bluffs, Hannibal & St. Joseph, Burlington & Missouri, &c., &c.

In 1901 $107,613,500 of the $110,839,100 stock was exchanged for the joint 20-year 4% bonds of the Gt. Northern and Northern Pacific, secured by the deposit of the stock in trust, on the basis of $200 in bonds for $100 stock (in 1921 replaced by an issue of 6½% bonds due 1936). See V. 72, p. 871; V. 73, p. 293, and bonds under Great Northern. (The $60,000,000 stock div. paid in 1921 increased the holdings of the North. Pac. and Gt. Nor. to $165,867,400.)

STOCK.—The directors in March 1921, declared a stock dividend of 54.132% ($60,000,000) payable to stockholders of record Mar 31 1921.

DIVIDENDS—	'98.	'99 *to Sept.*	'01.	'02 *to* '06.	'07.	'08 *to* '20.	'21.
Regular %	5½	6 yearly.	7 yearly.	7¼	8 yrly.	See	
Extra %	--	----------	--------	6 Sept. '17.	10%	text	

Paid in 1921, March, 2%; June, 5%; Dec., 5% and 15% extra. V. 113, p. 2404.

Also paid a stock div. of 54.132% ($60,000,000) to stockholders of record March 31 1921.

BONDS.—General mortgage bonds ($300,000,000 auth. issue, interest not to exceed 5%) are a first lien on 4,821 miles of road, and on retirement of the outstanding underlying bonds, for which bonds are reserved as below noted, will be a first lien on the entire mileage owned, aggregating 8,488 miles. V. 103, p. 493. The Generals have been issued or are issuable (V. 86, p. 1342, 1466; V. 88, p. 504, 685; V. 92, p. 525; V. 96, p. 789), as follows:

To retire outstanding bonds (incl. $17,428,300 in sink. fds.)	$177,000,000
Issuable for reimbursing the treasury for outlays already made by it for betterments and additions ($22,000,000 sold)	45,000,000
Issuable for additions, improvements and betterments of and to the mortgaged property (of which $13,724,000 sold)	78,000,000

In Jan. 1909 $20,000,000 general 4s were sold, of which $13,724,000 were used to purchase $23,657,000 Colorado & Southern com. stock. V. 88, p. 685; V. 92, p. 525; V. 96, p. 789; V. 98, p. 999, 1315; V. 101, p. 47; V. 105, p. 605.

The 1st & Ref. Mtge. will cover 496 miles by direct first lien, 5,384 miles by direct 2d lien, subject to the lien of the Gen. Mtge. under which bonds are outstanding at the rate of about $7,700 per mile on the mileage covered by that mortgage, and 3,118 miles by direct or collateral lien subject to the Gen. Mtge. and prior liens. No more of the underlying mtge. bonds, including the Gen. Mtge. bonds, may be issued except for the purpose of pledge under the 1st & Ref. Mtge., but the company reserves the right to sell about $12,000,000 of underlying bonds now held in its treasury.

Under the terms of the mortgage the issue of bonds for the acquisition of property and for add'ns & betterments to the co.'s property in no event can exceed the actual cost of the property to be placed under the mtge. The auth. issue is limited to an amount which, together with all other then outstanding prior debt of the co., after deducting therefrom bonds reserved to retire prior debt, shall never exceed 3 times the par value of capital stock then outstanding. The bonds are redeemable as a whole only on and after, but not before, Feb. 1 1942 as follows. On Feb. 1 1942 or on any int. date thereafter prior to Feb. 1 1952 at 107½ and int., on Feb. 1 1952 or on any int. date thereafter prior to Feb. 1 1962 at 105 and int., on Feb. 1 1962 or on any int. date thereafter prior to maturity at 103 and int. V. 114, p. 518.

The *Nebraska Extension* bonds of 1887 are issued at $20,000 per mile for single and $10,000 per mile for second track on not exceeding 1,500 miles. Now a direct first lien. **Abstract** of deed, V. 45, p. 441; V. 85, p. 721.

Equipment trusts issued to Director-General for rolling stock allocated to this company. See article on page 3 and V. 113, p. 1359.

EARNINGS— (I.-S. C. C. figures.)	——*Jan.* 1–*Mar.* 31—— 1922.	1921.	——*Jan.* 1–*Dec.* 31—— 1921.	1920.
Gross	$37,714,246	$39,879,750	$168,643,539	$185,270,768
Net after taxes	6,684,367	6,090,137	30,430,929	12,355,720

REPORT.—For 1920, in V. 112, p. 2407, 2428 showed:

Calendar Years—	x1920.	x1919.	x1918.
Gross earnings	$155,483,805	$154,011,438	$144,172,769
Net, after taxes	$5,670,837	$25,086,664	$23,991,477
Other income	*29,178,136	2,545,395	2,166,949
Total income	$34,848,973	$27,632,059	$26,158,426
Interest on funded debt	$6,816,006	$6,669,587	$6,750,463
Rents, &c	5,108,604	3,898,988	2,618,189
Sinking fund	231,078	502,255	841,893
Additions, &c	----------	----------	10,265,851
Dividends (8%)	8,867,128	8,867,128	8,867,128
Balance, surplus	$13,826,158	x$7,694,101 def	$3,185,097

* Includes $5,560,114 Federal compensation for 2 mos. and $21,991,965 estimated amount due under 6 mos. guaranty.

x This is the combined company and Federal operating statement. On the basis of the standard (rental) return, plus non-operating income and less charges and dividends, the year 1919 shows a surplus of $14,173,087.

OFFICERS.—Hale Holden, Pres.; C. G. Burnham, Executive V.-Pres.; C. E. Spens, Edw. P. Bracken, Wm. W. Baldwin, H. R. Safford, V.-Pres'ts; O. M. Spencer, Gen. Counsel; Chas. I. Sturgis, V.-Pres., Sec. & Treas.; H. W. Johnson, Comp.; L. R. Allen, Gen. Mgr. of the lines East; W. F. Thiehoff, Gen. Mgr. of the lines West.—(V. 114, p. 77, 304, 408, 518, 625, 853, 1406, 2011.)
